Alun Michael: The Government regularly reviews progress with the Voluntary Initiative on pesticides and reports its broad conclusions in the Budget and Pre-Budget Report. In Budget 2004 the Government confirmed its view that, provided the Initiative is fully implemented, it should be the most effective way of reducing the environmental impacts of pesticide use. However, to cover the potential case that the Initiative might fail to deliver the required environmental benefits within a reasonable timescale, the Government continues to keep the options for a tax or economic instrument under review.

Waste Management

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what progress is being made on the introduction of Regulations to deliver the *(a)* Waste Electrical and Electronic Equipment and *(b)* End of Life Vehicles directives. [167889]

Mr. Timms: I have been asked to reply.

The information requested is as follows:

(a) The Government have completed a consultation on their policy proposals for the implementation of the Waste Electrical and Electronic Equipment Directive and recently published on the DTI website an assessment of stakeholders' responses to this. They are currently drafting implementing Regulations and guidance for a final consultation in late spring.

(b) The End of Life Vehicle Regulations 2003 (SI 2003/2635), which came into effect on 3 November 2003, transposed a number of the provisions of the End of Life Vehicles Directive. Some related legislation was introduced shortly afterwards in Scotland and Northern Ireland.

Further draft Regulations, to transpose the remaining provisions of the Directive, were the subject of a public consultation, which closed on 30 March 2004. 65 responses were received and these are now being assessed, with a view to finalising the Regulations before presentation to Parliament.

CULTURE, MEDIA AND SPORT

J. M. W. Turner

Mr. Hunter: To ask the Secretary of State for Culture, Media and Sport what representations she has received about the use of the insurance money received by the Tate Gallery following the theft of Turner works on loan to Germany in 1994; and if she will make a statement. [168087]

Estelle Morris: My right hon. Friend the Secretary of State received a proposal from Dr. Selby Whittingham, Editor of the journal J. M. W. Turner, RA, about the use of the insurance money received by Tate following the theft in 1994 of two works from the Turner Bequest in its collections. These works have since been recovered. Dr. Whittingham proposed that the insurance moneys be used primarily to establish a dedicated Turner Gallery. The use of these insurance moneys is a matter for the Trustees of Tate, in discussion with the Charities Commission.

Mr. Hunter: To ask the Secretary of State for Culture, Media and Sport what representations she has received about the establishment of a dedicated Turner gallery; which organisations and individuals have made representations; and if she will make a statement. [168088]

Estelle Morris: My right hon. Friend the Secretary of State has received representations from Dr. Selby Whittingham, Editor of the journal J. M. W. Turner R. A. about the establishment of a dedicated Turner Gallery.

Mr. Hunter: To ask the Secretary of State for Culture, Media and Sport if she will take steps to ensure that the works of Turner currently at the Tate and National galleries are *(a)* placed under the same body of trustees and *(b)* housed together. [168089]

Estelle Morris: My right hon. Friend the Secretary of State has no plans to require the National Gallery or Tate to house the works of Turner together. The housing of the collections of the National Gallery and Tate is a matter for their Trustees under their governing legislation, the Museums and Galleries Act 1992. Under the Act, the two Galleries each appoint one of their Trustees to the Board of the other.

Mr. Hunter: To ask the Secretary of State for Culture, Media and Sport if she will introduce legislation to amend the Museums and Galleries Act 1992 so that it is consistent with the requirement of Turner's will that his finished pictures should be kept together. [168090]

Estelle Morris: My right hon. Friend the Secretary of State has no plans to introduce legislation to amend the Museums and Galleries Act 1992 in this respect. After Turner's death in 1851, the dispute over the terms of his will went to Court. In 1856, the Court decreed that 100 finished pictures, 182 unfinished pictures and 19,049 drawings and sketches were to be held in trust by the National Gallery, a decision which took precedence over the provisions in Turner's wills and codicils. The National Gallery and Tate Gallery Act 1954 effected the legal separation of the Tate Gallery from the National Gallery and the trusteeship of the Turner Bequest was transferred to the Trustees of the Tate Gallery. The Museums and Galleries Act 1992 established the Tate Gallery as a corporate body and it became Trustee of the Turner Bequest, subject to the conditions of that trust and subject to the powers, duties and responsibilities of the Trustees as established by the 1992 Act.

Recycling

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what measures she has put in place to ensure that her Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [165952]

Mr. Caborn: I refer the hon. Member to the answer I gave him on 19 April 2004, *Official Report*, columns 243–44W. DCMS procures 100 per cent. recycled paper for in excess of 60 per cent. of paper for printed publications, but it has not been possible to ascertain the percentage of post consumer waste content.

Visual Arts Facilities

Bob Russell: To ask the Secretary of State for Culture, Media and Sport how many proposed new visual arts facilities her Department has been advised of since 1 January 1998; in which cities and towns they are located; and how much public funding was given in each case. [167286]

Estelle Morris: Arts Council England has awarded over £175 million of lottery capital funds to new and existing visual arts projects since 1 January 1998. Details of individual awards are set out in the tables.

Table 1: Completed visual arts projects

Organisation name	*Location*	*Approved amount (£)*
ACAVA	London, Kensington	972,785
ACME Housing Association Ltd.	London, E3	1,200,857
Artsway	Lymington, Hampshire	398,966
Bournemouth and Poole College Services Ltd.	Poole, Dorset	1,835,756
Castlefield Gallery/Manchester Artists Studio	Manchester	708,235
Baltic, Sage Gateshead and Live Theatre	Gateshead	41,385,000
Ikon Gallery	Birmingham	4,614,047
Knowsley Arts Centre	Merseyside	367,790
One Church Square	Scunthorpe, Lincolnshire	1,024,000
The Foundation for Art and Creative Technology	Liverpool	4,599,990
Walsall Museum and Art Gallery	Walsall	15,750,000

Table 1: Completed visual arts projects

Organisation name	*Location*	*Approved amount (£)*
Yorkshire ArtSpace Society Ltd.	Sheffield	3,776,310
Lowry	Salford	51,000,000
Spike Island Artspace Ltd.	Bristol	935,000
Tate Gallery Projects Ltd.	London	6,200,000

Table 2: Visual arts projects under construction

Organisation name	*Location*	*Approved amount (£)*
Combined Art Gallery and Craft Centre for Middlesbrough	Middlesbrough	4,500,000
Hampshire Arts Centre	Basingstoke and Havant	500,000
Colchester Arts Centre	Colchester	5,000,000
Creative Art House	Doncaster	1,000,000
Derby Playhouse	Derby	2,500,000
Spike Island	Bristol	750,000
Eastbourne Regional Cultural Quarter	Eastbourne	2,000,000
INIVA/Association of Black Photographers	London	5,000,000
Stroud Valley Artspace	Gloucestershire	580,000
Wysing Arts	Cambridge	780,000

Table 3: Visual arts projects not yet to be started

Organisation name	*Location*	*Approved amount (£)*
Turner Centre	Margate	4,100,000
Future Factory and Angel Row	Nottingham	5,000,000
ACME Studios	London	2,000,000
Whitechapel Art Gallery	London	500,000
Waygood Gallery	Newcastle	750,000
Storey Gallery	Lancaster	693,600
Newlyn Art Gallery	Penzance	1,200,000
Sherborne House	Sherborne	288,860
Centre for Creative Arts	Wakefield	4,000,000

Bob Russell: To ask the Secretary of State for Culture, Media and Sport what measures she has taken to check projections of visitor number attendances at the new visual arts facilities against the actual figures; and if she will make a statement. [167287]

Estelle Morris: Arts Council England rigorously assesses projections of visitor numbers contained in all applications made to it for capital grants. The Arts Council also monitors all regularly funded organisations, including those receiving capital funding, through an annual, covering attendances in the previous financial year and the projected attendances in the current year.

DEFENCE

Armed Forces Pensions

Mr. Laurence Robertson: To ask the Secretary of State for Defence what the reasons are for the abatement of pensions under Armed Forces Pension Scheme rules; on what grounds those rules are applied for those in full-time reserve when contributions have been paid; and if he will make a statement. [168060]

Mr. Caplin *[holding answer 23 April 2004]:* Successive Governments have maintained the policy that the pensions of public servants who are re-employed in public service should be abated in certain circumstances: these include where an individual is re-employed by the same employer and where an appointment is made under closed competition. The broad terms of this policy apply to all public service pension schemes, including the Armed Forces Pension Scheme (AFPS). Abatement avoids the position where a re-employed member could receive a higher income from public funds, taking account of pay and pension, than a colleague of the same rank, seniority and trade with whom he or she might work. It also provides a safeguard against the potential abuse of re-employment.

Members of the AFPS make no direct contribution towards the cost of their standard pension benefits. However, as part of its overall review of remuneration, the independent Armed Forces Pay Review Body (AFPRB) compares the value of benefits provided under the AFPS with those provided by comparator pension schemes in the civilian sector and makes an adjustment to pay to reflect any difference. At present the AFPRB makes a 7 per cent. abatement of comparator pay, and in particular take account of the fact that AFPS benefits accrue faster and are paid earlier than those of civilian comparators. This adjustment takes account of the overall terms of the AFPS which include arrangements for the abatement of pension on re-employment in public service.

Army (Self-harm)

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 7 April, to question reference 165755, what the reasons are for the delay in collecting and analysing information with regard to incidents of self-harm in the army. [166929]

Mr. Caplin: It is notoriously difficult to obtain reliable and consistent data about incidents of self-harm, because of problems of definition and identification, uncertainty about intention, patient confidentiality and the variety and inconsistency of reporting. As I indicated previously, more work is continuing to try to improve the collection of information.

Defence Bills Agency

Bob Spink: To ask the Secretary of State for Defence how much was paid by the Defence Bills Agency to contractors in 2003–04. [167070]

Mr. Ingram: The value of the bills processed by Defence Bills Agency in 2003–04 is £19,104 million.

Defence Medical Services

Bob Spink: To ask the Secretary of State for Defence how many consultants were employed in the Defence Medical Services in each of the last five years. [167232]

Mr. Caplin: The numbers of consultants employed in the Defence Medical Services in each of the last five years were as follows:

	Number of consultants
2004	202
2003	185
2002	195
2001	201
2000	199

First Gulf War

Mr. Flook: To ask the Secretary of State for Defence (1) if he will instruct the Medical Assessment Programme to test for *(a)* squalene anti-bodies and *(b)* mycroplasmal infection in servicemen who served in the first Gulf War; [167548]

(2) whether he has discussed testing for *(a)* squalene anti-bodies and *(b)* mycroplasmal infection with the combined medical services; [167549]

(3) for what reasons UK servicemen who served in the first Gulf War have not been tested for *(a)* squalene anti-bodies and *(b)* mycroplasmal infection; [167550]

(4) what assessment he has made of the work of Dr. Garth Nicolson of the Institute of Molecular Medicine on the use of a six to12-month course of antibiotics in treating those with mycroplasmal organisms following service in the first Gulf War. [167554]

Mr. Caplin: The work of Dr. Nicholson has been monitored as part of the Ministry of Defence's consideration of research into Gulf veterans' illnesses. In line with its normal approach to issues relating to the health of Gulf veterans, the MOD takes medical and scientific advice from a range of internal and external sources. In this instance, there was no requirement to consult formally with the Defence Medical Services although they are aware of the matter. In the light of trials funded by the US Government based on Dr. Nicolson's work, we have concluded that there is no evidence to support a connection between illness among veterans and mycoplasma infections or that aggressive antibiotic treatment would benefit veterans. Assessments undertaken by the US Armed Forces Epidemiological Board similarly support the view that there is no evidence that ill health is linked to the presence of squalene anti-bodies. It would be inappropriate to subject veterans to tests for which there is no clinical indication.

Iraq

Mr. Evans: To ask the Secretary of State for Defence what checks are carried out on private military companies supplying guards to British interests in Iraq. [166134]

Mr. Rammell: I have been asked to reply.

The Foreign and Commonwealth Office (FCO) employs two private security companies to provide armed protection for its staff and assets in Iraq. These companies were subject to normal checking procedures for contact with private military and security companies in line with FCO guidelines.

Mr. Evans: To ask the Secretary of State for Defence what security checks are carried out on *(a)* Iraqi nationals, *(b)* Third Country nationals and *(c)* international employees of private military companies protecting British interests in Iraq. [166136]

Mr. Rammell: I have been asked to reply.

The Foreign and Commonwealth Office employs two private security companies in Iraq. One provides armed escorts for its staff when travelling outside secure areas, the other provides static guards at the former embassy and at the British Office in Baghdad. Personnel under these contracts are subject to security vetting prior to deployment, depending on the job they will be doing.

Journalists (Conflict Areas)

Bob Spink: To ask the Secretary of State for Defence by what rules journalists working with British forces abroad in conflict areas must abide; and if he will make a statement. [167072]

Mr. Ingram: The Green Book—"Working Arrangements with the Media in times of Emergency, Tension, Conflict or War"—sets out the arrangements for dealings between the media and the Ministry of Defence in times of emergency, tension, conflict or war. This book is currently being reviewed and updated.

A copy of the current version of the Green Book can be found on the MOD website at: www.mod.uk/news/green_book/index.htm

Memorial Cemetery (Korea)

Bob Spink: To ask the Secretary of State for Defence if he will make representations to the UN to replace on the Memorial Wall in the UN Memorial Cemetery, Pusan, Korea, and in official documents, the words No Known Grave with the words Buried at Sea at Latitude 36 Degrees, 2 Minutes North, Longitude 129 Degrees, 42 Minutes East, in respect of the Servicemen who were killed on HMS Jamaica on 8 July 1950 and buried at sea; and if he will reply to the hon. Member for Castle Point's constituent Mr. Anthony Legg's letter of 4 March 2004 on this matter. [167274]

Mr. Caplin: There are no plans to make representations to the United Nations to change either official documents or the inscription of the central commemorative plaque on the Memorial Wall in the United Nations Memorial Cemetery, Pusan, South Korea. The Memorial is dedicated to all Servicemen who died during the Korean War and are buried at sea. It would be invidious to make changes to cover just those who died on HMS Jamaica.

Officials replied to the hon. Member's constituent, Mr. Anthony Legg, on 20 April.

Missile Defence

Norman Baker: To ask the Secretary of State for Defence when he expects to make an announcement concerning the use by the US Administration of RAF Menwith Hill in the US missile defence system. [167746]

Mr. Hoon: There are no current plans for any of the facilities at RAF Menwith Hill to be used for United States ballistic missile defence purposes. The position remains that United Kingdom approval would be needed should the US wish to use RAF Menwith Hill for missile defence purposes. No such request has been received.

Norman Baker: To ask the Secretary of State for Defence what the purpose is of the latest planning application for another radome at RAF Menwith Hill. [167747]

Mr. Hoon: The proposed new radome at RAF Menwith Hill will house an additional antenna that will be used in support of the current mission of the base.

Radiation Exposure

Mr. Randall: To ask the Secretary of State for Defence what recent assessments have been made of the dangers of exposure to radiation for MOD personnel. [167999]

Mr. Caplin: Heads of Establishments and Commanding Officers have a statutory duty under the Ionising Radiation Regulations 1999 to carry out prior risk assessments, and to keep the assessments up to date, to ensure that exposures of the Ministry of Defence personnel are restricted to as low a level as is reasonably practical. In doing this they seek advice from their Radiation Protection Advisers. Due to numerous and varied situations where this duty applies, it is not possible to list each and every recent occasion where such risk assessments have been undertaken.

The MOD contributes to the National Registry of Radiation Workers database managed by the National Radiological Protection Board. The data are used to undertake epidemiological studies. In their second analysis of the data, published in July 1999, the National Radiological Protection Board concluded that overall death rates among radiation workers are below those in the general population. This is known as the healthy worker effect. This analysis contained 124,743 workers of which about one-third were MOD radiation workers or former radiation workers. The National Radiological Protection Board is intending to undertake the next analysis in 2005–06.

Mr. Randall: To ask the Secretary of State for Defence what provisions for medical check-ups are provided for *(a)* current radiation workers and *(b)* retired and former radiation workers in his Department. [168000]

Mr. Caplin: The Ministry of Defence carries out medical surveillance of radiation workers as required by Ionising Radiation Regulations 1999, Regulation 24. These regulations lay down monitoring and medical surveillance requirements for personnel while occupationally exposed to ionising radiation. The main purpose of medical surveillance is to determine an individual's fitness or continuing fitness for the intended work with ionising radiation.

There is no mandatory requirement for a monitoring programme for retired personnel and no optional health screening is offered to retired personnel. However, the MOD does provide an independent counselling service for radiation workers, former radiation workers and their families who have concerns about their health consequent of their work with radiation. Individuals may request counselling by telephoning the Counselling Telephone line (02392 768098) and leaving their names and addresses or by writing to the MOD Counselling Registry at DSTL Radiological Protection Services, Crescent Road, Alverstoke, Gosport, Hants, PO12 2DL. Further details are available on the World Wide Web at: http://www.mod.uk/dsef/hp/rwc.htm

Suez Medal

Mr. Tyler: To ask the Secretary of State for Defence when he expects the Army Medal Office to complete distribution of the General Service Medal for those who served in the Suez Canal Zone between 1951 and 1954 who have applied for the medal. [167479]

Mr. Caplin *[holding answer 22 April 2004]:* As at 16 April, the Army Medal Office has received 27,371 applications and distributed 4,113 medals. Work continues to confirm eligibility and distribute medals as soon as practical.

Territorial Army

Mr. Hancock: To ask the Secretary of State for Defence what the current strength of the Territorial Army is; and what its projected strength is for the next 12 months. [166939]

Mr. Caplin: The total strength of the Territorial Army as at 1 March 2004 is 36,900. This includes 2,760 mobilised reservists.

Forecasts of projected strengths are not available.

US Bases

Norman Baker: To ask the Secretary of State for Defence if he will list the US bases for each year from 1997 to date where the Ministry of Defence Police Agency operates. [167745]

Mr. Ingram: Ministry of Defence Police Officers have continuously staffed RAF Hythe, RAF Welford, RAF Fairford, RAF Menwith Hill, RAF Alconbury, RAF Lakenheath and US Navy (London) during the years 1997 to date.

ELECTORAL COMMISSION COMMITTEE

Office Premises (Improper Use)

Rev. Martin Smyth: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what representations the Commission has received on improper use of office premises for party purposes since August 2003. [168452]

Mr. Viggers: The Electoral Commission has informed me that since August 2003 it has received no representations on the improper use of office premises for party purposes.

TRADE AND INDUSTRY

Manchester, Gorton

Mr. Kaufman: To ask the Secretary of State for Trade and Industry if she will make a statement on the effect of recent trends in investment in renewable energy upon residents of Manchester, Gorton. [167537]

Mr. Timms: Recent trends in renewable energy investment have been encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass.

While this investment has not translated into capacity within Manchester, Gorton itself, Renewables Northwest, a joint venture between the Regional Development Agency and United Utilities, is actively working with local authorities on the development of urban renewables in the area. This is looking to promote the installation of renewable energy systems in new build and urban regeneration projects in the Greater Manchester area. An example of this is the CIS Tower, Manchester, which has been awarded a sizeable grant from the DTI's Major Photovoltaic Demonstration Programme, towards the costs of a large PV cladding installation.

Mr. Kaufman: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Manchester, Gorton have taken 26 weeks maternity leave since 1997. [167354]

Mr. Sutcliffe: Take-up of maternity leave is not recorded centrally. It is possible to make an estimate of the numbers of women taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (since 2003 this has covered the first 26 weeks of leave). However, figures for the take-up of SMP are not available on a regional basis.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

Mr. Kaufman: To ask the Secretary of State for Trade and Industry if she will make a statement on the effects of the EU Social Chapter on the residents of Manchester, Gorton. [167355]

Mr. Sutcliffe: The residents of Manchester, Gorton have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to Parental Leave, which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro rata terms and conditions of employment as full-time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1,000 employees in total and at least 150 workers in each of the two member states, to establish structures for consulting workers on issues that affect them; and

in addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

Mr. Kaufman: To ask the Secretary of State for Trade and Industry if she will make a statement on the effects on residents of Manchester, Gorton of new rights for night-shift workers. [167356]

Mr. Sutcliffe: The Working Time Regulations came into force on 1 October 1998. The Regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than six hours.

All night workers should be offered a free health assessment before they start working night and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the Regulations. Workers who suffer from problems as a result of working at night, should as far as practicable be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There are no specific data available for night shift workers in Gorton, Manchester.

Mr. Kaufman: To ask the Secretary of State for Trade and Industry how many residents of Manchester, Gorton qualify for paid leave entitlements. [167357]

Mr. Sutcliffe: All workers resident in Gorton qualify for paid annual leave entitlements; at least four weeks as set out in the Working Time Regulations. While all women are entitled to 26 weeks ordinary maternity leave, only those who meet the eligibility criteria will be able to claim statutory maternity pay for that period.

All employees in Gorton who are eligible will be entitled to take statutory paternity leave with pay and statutory adoption leave with pay.

Mr. Kaufman: To ask the Secretary of State for Trade and Industry how many residents of Manchester, Gorton have benefited from a reduction of the working week to 48 hours. [167358]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for Manchester, Gorton are not available. However, it has been estimated that around 100,000 workers resident in Greater Manchester stood to benefit from the introduction of the weekly working time limits in 1998.

State Aid

Ann Winterton: To ask the Secretary of State for Trade and Industry pursuant to the answer of 30 March 2004, *Official Report*, column 1363W, on state aid, what definition she uses of the term block exemption; and how many applications from each region were turned down by the Department of Trade and Industry and not passed on to the European Commission. [167402]

Mr. Sutcliffe: For state aid purposes a block exemption is a Commission Regulation which allows member states to implement state aid schemes complying with stipulated conditions without obtaining advance approval from the Commission. However, member states are obliged to inform the Commission of such schemes within 20 working days of their coming into force. Block Exemption Regulations exist covering aid to SMEs (recently extended to include research and development), aid for training and aid for employment.

DTI's role is to advise those contemplating introducing state aid schemes and to help them with the notification process. It forwards all notifications to the European Commission via the United Kingdom Permanent Representation to the European Communities, sometimes after amendment in consultation with the aid scheme administrators. The Department does not turn down notifications, although on some occasions an aid scheme administrator may withdraw a notification on advice from DTI that the proposed aid scheme would not comply with the terms of the relevant state aid rules and would not therefore be approved by the Commission.

Burnley

Mr. Pike: To ask the Secretary of State for Trade and Industry what assessment she has made of the effects of the EU Social Chapter on the residents of Burnley. [167897]

Mr. Sutcliffe: The residents of Burnley have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to parental leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1,000 employees in total and at least 150 workers in each of the two member states, to establish structures for consulting workers on issues that affect them and;

in addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

Mr. Pike: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Burnley have taken 26 weeks maternity leave since 1997. [167896]

Mr. Sutcliffe: Take-up of maternity leave is not recorded centrally. It is possible to make an estimate of the numbers of women taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (since 2003 this has covered the first 26 weeks of leave). However, figures for the take-up of SMP are not available on a regional basis.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

Mr. Pike: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits to residents of Burnley of new rights for night-shift workers. [167898]

Mr. Sutcliffe: The Working Time Regulations came into force on 1 October 1998. The regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than six hours.

All night workers should be offered a free health assessment before they start working nights and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the regulations. Workers who suffer from problems as a result of working at night, should as far as practicable be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There is no specific data available for night shift workers in Burnley.

Mr. Pike: To ask the Secretary of State for Trade and Industry how many residents of Burnley qualify for paid leave entitlements. [167899]

Mr. Sutcliffe: All workers resident in Burnley qualify for paid annual leave entitlements; at least four weeks as set but in the Working Time Regulations. While all women are entitled to 26 weeks ordinary maternity leave, only those who meet the eligibility criteria will be able to claim statutory maternity pay for that period.

All employees in Burnley who are eligible will be entitled to take statutory paternity leave with pay and statutory adoption leave with pay.

Mr. Pike: To ask the Secretary of State for Trade and Industry how many residents of Burnley have benefited from a reduction of the working week to 48 hours. [167900]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for Burnley are not available, however it has been estimated that around 300,000 workers resident in the north west stood to benefit from the introduction of the weekly working time limits in 1998.

Mr. Pike: To ask the Secretary of State for Trade and Industry (1) how many new businesses have started up in Burnley since 1997; [167892]

(2) how many new businesses have been established in Burnley since 1997. [167894]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 115,000 business start-ups in England and Wales, including 2,600 in Lancashire county (which contains the constituency of Burnley), in the fourth quarter of 2003. The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before. There were 10,200 business start-ups in Lancashire county in 2003. Data for counties are not available for before 2003.

DTI figures based solely on VAT registrations for Burnley local authority (which covers the same area as the constituency of Burnley) are shown in the table for the period 1997 to 2002. Data for 2003 will be available in autumn 2004.

VAT Registrations: 1997–2002

	Burnley
1997	170
1998	180
1999	180
2000	205
2001	205
2002	205

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2002, Small Business Service.

VAT registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Cammell Laird

Mr. Frank Field: To ask the Secretary of State for Trade and Industry what action she intends to take against directors of Cammell Laird at the point when the company was moved into administration. [167503]

Mr. Sutcliffe *[holding answer 22 April 2004]:* There are a number of Cammell Laird companies which have gone into insolvency proceedings during 2001 and 2003. These are:

	Insolvency proceedings	*Date*
Cammell Laird (Merseyside) Ltd.	Administrative receivership	11 April 2001
Cammell Laird (North East) Ltd.	Administrative receivership	11 April 2001
Cammell Laird (North East) Ltd.	Voluntary liquidation	16 July 2003
Cammell Laird (Shiprepairers) Ltd.	Voluntary liquidation	3 February 2003
Cammell Laird (Teesside) Ltd.	Administrative receivership	12 April 2001
Cammell Laird (Tyneside) Ltd.	Administrative receivership	12 April 2001
Cammell Laird (Wearside) Ltd.	Administrative receivership	20 April 2001
Cammell Laird Holdings plc	Administration	19 April 2001
Cammell Laird plc	Administrative receivership	11 April 2001
Cammell Laird Properties Ltd.	Voluntary liquidation	21 May 2001
Cammell Laird Technical Services Ltd.	Administrative receivership	12 April 2001

The Company Directors Disqualification Act 1986 imposes a statutory time limit of two years from the date of the first insolvency proceedings, for making an application for a disqualification order. Therefore the companies which failed in 2001 are outside of this time limit.

The insolvency practitioners appointed as liquidators of the two companies which failed in 2003 have reported to the Secretary of State as they are required to do. On the basis of the information currently provided, no disqualification proceedings are being considered. Should additional information become available this decision will be reviewed to determine whether such proceedings are in the public interest.

Car Advertisements

Norman Baker: To ask the Secretary of State for Trade and Industry if she will take steps to prevent car advertisements from referring to maximum speed levels achievable where these are in excess of the national speed limit. [167766]

Mr. Timms: The rules under Section 48 of the Advertising Standards Authority (ASA) Committee of Advertising Practice (CAP) Code already provide such safeguards for motoring advertising.

Section 48.3 states:

"Marketers should not portray speed in a way that might encourage motorists to drive irresponsibly or to break the law and should not condone irresponsible driving."

Section 48.2 states:

"Marketers should not make speed or acceleration claims the predominant message of their marketing communications. However it is legitimate to give general information about a vehicle's performance such as acceleration and mid-range statistics, braking power, road-holding and top speed."

Debt

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will publish research carried out or commissioned by her Department which compares the level of *(a)* secured and *(b)* unsecured debt in the UK with other countries. [167267]

Mr. Sutcliffe: The DTI has not carried out or commissioned research which compares the level of secured and unsecured debt in the UK with other countries.

Comparisons of amounts spent on unsecured debt by the bottom two income deciles in UK, France, Germany and the USA are included in research commissioned by the DTI to look at the way interest rate controls have worked in other countries. This work was announced in the Consumer Credit White Paper (December 2003), and will be published later this spring.

The DTI commissioned and published research into levels of household debt in the UK from the Personal Finance Research Centre (Kempson, Elaine, "Over-indebtedness in Britain", September 2002, available at http://www.dti.gov.uk/ccp/topicsl/pdfl/moricontents.pdf). In the Consumer Credit White Paper, we committed to monitoring the extent and profile of over-indebtedness in the UK, and will be reporting on our approach in the forthcoming Strategy on Over-indebtedness.

DTI draws on research carried out by others in its assessment of the level of debt in the UK compared with other countries. For example:

The Treasury published a comparison of outstanding residential mortgage debt across EU countries in the EMU study 'Housing, consumption and EMU' with the five tests assessment (available at http://www.hm-treasury.gov.uk/documents/the_euro/assessment/studies/euro_assess03_studdorset.cfm).

Sir Andrew Large, Deputy Governor of the BoE, recently gave a speech entitled 'Major puzzles in today's economy: the build-up in household debt' in which he placed the UK experience in the international context and compared household debt levels in the UK with other major industrial countries (March 2004, available at http://www.bankofengland.co.uk/speeches/speech217.pdf).

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what the Libyan Arab Jamahiriya's debts to the Export Credits Guarantee Department, broken down by sector, are; if she will list the top five contracts, by value, on which these debts are based; and if she will make a statement on the Government's intention to recover this debt. [167829]

Mr. Mike O'Brien: Libya made a payment of £20 million to ECGD on 29 December 2003 in negotiated settlement of its outstanding debt obligations towards ECGD-insured debt.

To avoid prejudicing ongoing negotiations with other similar debtors, it is not ECGD's policy to reveal details of the amounts outstanding in respect of which this settlement was made. However, the settlement reached represented a good outcome to negotiations between HMG and the Libyan Government.

The debt related to business dating back to the early/mid-1980s. The majority of the business was covered under short-term guarantees, with the balance mainly construction projects and services. We do not have a comprehensive breakdown of the debt on the basis requested.

Export Credits Guarantee Department

Malcolm Bruce: To ask the Secretary of State for Trade and Industry (1) if she will make a statement on the timetable for the Export Credits Guarantee Department becoming a capitalised trading fund; [167265]

(2) what estimate has been made of the cost of the Export Credits Guarantee Department becoming a capitalised trading fund, broken down by *(a)* the source of the funding and *(b)* how the money is to be allocated; and if she will make a statement. [167266]

Mr. Mike O'Brien: Ministers are considering the arrangements for ECGD's Trading Fund, and an announcement will be made in due course.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry whether an assessment of the effects of fully privatising the Export Credits Guarantee Department was made before the decision that it should become a trading fund was taken. [168650]

Mr. Mike O'Brien: Privatisation of ECGD was considered in the Mission and Status Review of ECGD in 1999–2000 (a copy is available on ECGD's website www.ecgd.gov.uk). The Review concluded that privatisation should not be pursued, and that ECGD's risk management systems should be strengthened by the establishment of a Trading Fund.

Gasified Coal

Norman Baker: To ask the Secretary of State for Trade and Industry what steps she is taking to encourage the gasification of coal. [167750]

Mr. Timms: We are supporting six R&D projects under the Cleaner Coal Technology Programme. We are also investigating the feasibility of Underground Coal Gasification and plan to produce a report on this in about a month's time.

Norman Baker: To ask the Secretary of State for Trade and Industry what percentage of power was derived from gasified coal in 2003. [167751]

Mr. Timms: Currently in the UK there is no power produced through coal gasification.

Low Pay Commission

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on the terms of reference for the Low Pay Commission's Report of 2004; why the monitoring of enforcement and compliance with regard to the National Minimum Wage was not included as in previous years; and whether such matters will be included in the Low Pay Commission remit in the future. [167301]

Mr. Sutcliffe: The Low Pay Commission monitored and evaluated issues connected with minimum wage—including enforcement—in their last full report in 2003.

The remit for the Commission's 2004 Report was specifically drawn to cover two issues raised in the 2003 Report: to consider whether any fine-tuning was needed to the proposed October 2004 increases; and to consider the possible advantages and disadvantages of a minimum wage rate for 16–17 year olds.

Further remits for the Low Pay Commission will be announced to Parliament in the usual way.

National Minimum Wage

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many inspections have been undertaken where no complaint has been made about an employer to ensure that they are complying with the National Minimum Wage provisions in each year since the introduction of the National Minimum Wage; and what level of underpayment was identified as a result of each of these inspections. [165826]

Mr. Sutcliffe: The number of cases completed and arrears identified since the introduction of the minimum wage, where a complaint had not been received, are provided in the following table:

	Number of cases	*Arrears identified (£)*
1999–2000	2,532	158,839
2000–01	4,742	1,025,333
2001–02	3,655	1,206,898
2002–03	4,284	1,043,706
2003–04	3,655	1,205,674

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what targets have been set for the national minimum wage compliance teams with regard to the investigation of complaints; and whether these have been met for each year since the introduction of the minimum wage. [166739]

Mr. Sutcliffe: Our Service Level Agreement with the Inland Revenue requires them to investigate every complaint made to the National Minimum Wage helpline each year and they do so.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry for what reason there has been no systematic evaluation of the use and efficacy of the formal powers available to national minimum wage compliance officers in response to the recommendations of the fourth report of the Low Pay Commission. [166740]

Mr. Sutcliffe: The assumption underlying this question is incorrect. The Government are currently reviewing the enforcement powers available to them and will cover this point in future evidence to the Low Pay Commission.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on the progress being made by, and conclusions drawn from, the local enforcement pilot projects for the national minimum wage. [166741]

Mr. Sutcliffe: Following recommendations made in the Low Pay Commission's second report seven local enforcement projects were launched between March and September 2001. Three of these met with limited success and it was decided with our partners that they should close.

Four of the projects are still running; we will be evaluating their effectiveness over the coming months and will cover this issue in future evidence to the Low Pay Commission.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will break down those employees affected by cases of underpayment of the national minimum wage brought to the attention of the Inland Revenue by *(a)* sex, *(b)* age group, *(c)* ethnicity and *(d)* region for each year since the introduction of the minimum wage. [166742]

Mr. Sutcliffe: The following table provides details of the number of workers that were found to be paid below the minimum wage following an Inland Revenue investigation.

	Number of workers
2001–02	10,378
2002–03	7,373
2003–04	9,431

No information on the number of workers in this category was held prior to 2001–02. The Inland Revenue only holds information relating to workers being underpaid by sex, age group and region in connection with cases that originated with a workers' complaint. This information is set out in the joint DTI/Revenue Annual Reports on the minimum wage; copies of recent reports can be found on www.dti.gov.uk/er/nmw. No information is held in relation to ethnicity of the workers concerned.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will break down by industry the employers found to be not complying with the national minimum wage provisions by industry for each year since the introduction of the minimum wage. [166743]

Mr. Sutcliffe: The following table provides details of the number of employers investigated by the Inland Revenue where non-compliance with the minimum wage was found.

	Number of employers
1999–2000	1,280
2000–01	2,119
2001–02	1,937
2002–03	1,996
2003–04	2,211

Further information on the breakdown by industry in connection with cases that originated with a worker's complaint is set out in the joint DTI/Revenue Annual Reports.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on the prevalence of re-offending in relation to employer non-compliance with the National Minimum Wage Act 1998. [166744]

Mr. Sutcliffe: As part of the post evaluation assurance programme, officers re-visit a number of employers to ensure continued compliance with the national minimum wage.

As part of the first evaluation undertaken in August 2002, 87 cases were selected for revisiting. Of these 71 employers were found to be complying (82 per cent.). As part of a second evaluation undertaken in March 2003, 95 per cent. Where appropriate the Revenue take formal enforcement action at an early stage where an employer has re-offended.

DTI and Inland Revenue are presently working on a strategy to use the prosecution powers, contained in the National Minimum Wage Act 1998 to tackle, among others, any employers that are found to repeatedly re-offend.

Newspaper Distribution

Brian Cotter: To ask the Secretary of State for Trade and Industry if she will make a statement on the newspaper distribution network. [167512]

Mr. Sutcliffe: The arrangements for the distribution of newspapers are a commercial matter for the industry, operating within the relevant legal and regulatory framework.

Night Shift Workers

Mr. Frank Field: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits to residents of Birkenhead of new rights for night-shift workers. [166502]

Mr. Sutcliffe: The Working Time Regulations came into force on 1 October 1998. The regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than 6 hours.

All night workers should be offered a free health assessment before they start working nights and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the regulations. Workers who suffer from problems as a result of working at night should as far as practicable be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There is no specific data available for night-shift workers in Birkenhead.

Post Office

Mr. Patrick Hall: To ask the Secretary of State for Trade and Industry whether the outcome and lessons learned review of the Post Office Urban Reinvention programme following its conclusion will include an examination of the extension of the flexibility currently covering the rural network to urban areas. [166819]

Mr. Timms: Government policy for the post office network is guided by the recommendations of the Performance and Innovation Unit report on "Modernising the Post Office Network", published in June 2000. The report identified the different nature of the challenges facing the network in urban and rural areas, and there does not appear to be a case at present for adopting the approach being applied in rural areas to the urban network.

Rationalisation is necessary in urban areas where there are too many post offices for all of them to survive on the current levels of business available.

Recognition Ballots

Mr. Bellingham: To ask the Secretary of State for Trade and Industry how many allegations of intimidation by *(a)* trade unions and *(b)* employers during recognition ballots were made in the last 12 months. [166989]

Mr. Sutcliffe: The Government are aware of concerns on the part of unions and employers of intimidation during recognition ballots, and sought further evidence in order to gain a better idea of the scale of the problem. Over a dozen allegations have been directly brought to my attention in the last 12 months as a result of this process, the majority of which have alleged intimidation by employers.

Wind Farms

Mrs. Dunwoody: To ask the Secretary of State for Trade and Industry how many planning applications for wind farms in coastal waters of the United Kingdom have been made in *(a)* the first round and *(b)* the second round; and if she will list the (i) persons and (ii) organisations who have been consulted on each application. [168093]

Mr. Timms: The Department has received 12 planning applications in relation to English and Welsh waters under the first round of offshore wind farms but none in relation to the second round. Of these six consents have been granted under the Electricity Act for the Scroby Sands, North Hoyle, Rhyl Flats, Barrow, Kentish Flats and Burbo Bank offshore wind farms and a further four have been granted Orders under the Transport and Works Act for the Lynn, Inner Dowsing, Cromer and Gunfleet Sands offshore wind farms. Consent applications for the Teesside and Shell Flats offshore wind farms are currently under consideration.

Depending whether or not the development was in English or Welsh waters either English Nature, the Countryside Agency and English Heritage or the National Assembly for Wales, the Countryside Council for Wales and Cadw Welsh Historic Monuments were consulted. Additional consultees included the Civil Aviation Authority, Crown Estate, Environment Agency, Health and Safety Executive, Ministry of Defence, Radiocommunications Agency, Maritime and Coastguard Agency, Chamber of Shipping (but not in the case of Scroby Sands and North Hoyle), Royal Yachting Association (but not in the case of Scroby

Sands or North Hoyle), Trinity House Lighthouse Services, National Federation of Fisherman's Organisations, the relevant local authority and sea fisheries committee and the local port or harbour authority where appropriate. Both the Chamber of Shipping and the Royal Yachting Association were added to the consultee list following representations to the Department for Transport and the DTI. In addition to those listed any organisation including members of the public can comment on planning applications as each application is subject to a formal public consultation period and must be advertised in local newspapers. All comments received will be taken into account before any decision is made on a specific proposal.

Mrs. Dunwoody: To ask the Secretary of State for Trade and Industry what assessment she has made of the risk of obstruction to the Port of London from the London Array wind farm; and what representations she has received on the issue from the maritime industry. [168356]

Mr. Timms: The developer of the London Array wind farm in seeking consent for the project must make a thorough assessment of the potential impact of the proposed installation on navigation and ports. The developer must demonstrate to the satisfaction of the Secretary of State in the case of an Order under the Transport and Works Act or the Secretary of State for Transport in the case of a Coast Protection Act 1949 consent that their development, in combination with others in the vicinity, does not present a danger or significant obstruction to navigation. In reaching that decision either Secretary of State will take advice from the Maritime and Coastguard Agency and the Port of London Authority. Any other organisation or person who has an interest in the matter may make representations to the relevant Minister which will be taken into account in the decision-making process.

Mrs. Dunwoody: To ask the Secretary of State for Trade and Industry what assessment she has made of the extent of interference with maritime navigational instruments from wind farms placed in UK territorial waters. [168357]

Mr. Timms: It is important that wind farms do not compromise safety by interfering with ship or search and rescue communications systems. The Government have given an assurance in the House of Lords that it will carry out a study on this subject.

The study will draw on international experience, for instance in Denmark, and we will learn as much as possible from our own installations. The offshore wind farm at North Hoyle can be used as a test facility to provide an input into the study. The study is a priority and work will begin as soon as possible.

Mrs. Dunwoody: To ask the Secretary of State for Trade and Industry if she will require that the costs of any navigational aids required to prevent collision with windmills positioned in UK territorial waters are met by the operators of wind farms. [168358]

Mr. Timms: The costs of providing navigational aids to prevent vessels colliding with offshore installations is to be met by the developers. The General Lighthouse Authorities set the standard for such marking and will monitor its provisions. Developers may also expect to meet the reasonable costs of altering existing aids to navigation if required as a result of their installations.

Mrs. Dunwoody: To ask the Secretary of State for Trade and Industry what consultations she has *(a)* undertaken and *(b)* planned with maritime groups concerned about the impact of offshore wind farms on maritime navigation. [168359]

Mr. Timms: I had a useful and productive meeting with representatives of the shipping, port and marine aggregates industries on 16 March this year about the second round of offshore wind farms planned for the Greater Wash, Thames Estuary and North West.

These industries have had an opportunity to make their views known on the Department's plans for offshore wind farming. In November 2002, the Department issued a consultation paper, Future Offshore: A Strategic framework for the offshore wind industry. As a result, the Department decided that the future allocation of leases for sites for offshore wind farms would take place in a structured series of bidding rounds, following a strategic environmental assessment of the defined areas of the sea selected for potential development.

In May 2003 the Department consulted on an environmental report which assessed the impact of wind farm development in three strategic areas—the Greater Wash, outer Thames Estuary and the North West (from North Wales to the Solway Firth)—on a range of matters including maritime navigation. Following this consultation the Department asked The Crown Estate to arrange a bidding round for site leases in these three strategic areas, with the exception of a coastal strip of 8 to 13 kms wide, which was excluded because of the particular sensitivity to development of shallow coastal waters. The Crown Estate announced before Christmas last year that it had offered site leases for 15 wind farms.

The developers of these proposed wind farms must obtain statutory planning consents from Government before they can be built. The Department has already organised one workshop and is planning a series of further meetings to bring together the developers with the main stakeholders, including representatives of the maritime community, who should be consulted in preparing an environmental impact assessment of the project. When a formal planning application for the project is received the Department will consult a range of organisations including those representing shipping and port interests.

TREASURY

Annuities

Mr. Leigh: To ask the Chancellor of the Exchequer what representations he has recently received about the reform of annuities. [167684]

Ruth Kelly: Out of the 209 responses only 14 directly addressed the reform of annuities. And about half of these wanted the annuity rules finessed rather than abolished.

Birth Statistics

Mr. Willetts: To ask the Chancellor of the Exchequer what the total number of live births was in *(a)* Scotland, *(b)* England, *(c)* Wales and *(d)* Northern Ireland in each year since 1992. [168159]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to David Willetts, dated 26 April 2004:

As National Statistician I have been asked to reply to your request for the number of live births in Scotland, England, Wales and Northern Ireland in each year since 1992. (168159)

The latest year for which figures are available for all four countries is 2002. The information requested is shown in the attached table for the years 1992–2002.

Provisional 2003 figures are available for Scotland and Northern Ireland. These are also shown in the table. The 2003 figures for England and Wales will be published on 13 May 2004.

The figures for Scotland and Northern Ireland are the responsibility of the appropriate national office. They have been extracted from publications produced by the General Register Office for Scotland and the Northern Ireland Statistics and Research Agency.

Number of live births in Scotland, England, Wales and Northern Ireland 1992–2003

	Scotland[1]	England[2,3]	Wales[3,4]	Northern Ireland[5]
1992	65,789	651,784	37,523	25,354
1993	63,337	636,473	36,578	24,722
1994	61,656	628,956	35,366	24,098
1995	60,051	613,257	34,477	23,693
1996	59,296	614,184	34,894	24,382
1997	59,440	608,202	34,520	24,087
1998	57,319	602,111	33,438	23,668
1999	55,147	589,468	32,111	22,957
2000	53,076	572,826	31,304	21,512
2001	52,527	563,744	30,616	21,962
2002	51,270	565,709	30,205	21,385
2003[6]	52,408	n/a	n/a	21,648

[1] Numbers of live births occurring in Scotland, registered in the year stated.
[2] Numbers of live births occurring anywhere in England and Wales to mothers usually resident in England, in the year stated. A small number of births from the previous year, which were late in being registered are also included.
[3] There are around 200–400 births each year that occur in England and Wales that are to non- residents of England and Wales. These births are excluded from these figures.
[4] Numbers of live births occurring anywhere in England and Wales to mothers usually resident in Wales, in the year stated. A small number of births from the previous year which were late in being registered are also included.
[5] Numbers of live births occurring in N Ireland to resident mothers, registered in the year stated.
[6] Provisional.

Northern Ireland Statistics and Research Agency

Child Carers

Mr. Willetts: To ask the Chancellor of the Exchequer whether nannies count as registered child carers for the purposes of the Budget proposal whereby companies' contributions of up to £50 per week to the cost of a registered child carer are exempt from taxation as a benefit in kind. [168148]

Dawn Primarolo: I refer the hon. Gentleman to the answer I gave to the hon. Member for Eddisbury (Mr. O'Brien) on 19 April 2004, *Official Report*, column 381W, about nannies employed by parents with disabled children. That answer applies to nannies generally.

Children (Statistics)

Mr. Willetts: To ask the Chancellor of the Exchequer what the total number of children in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland aged under five years was in each year since 1992; and what forecasts he has made for future years. [168163]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to David Willetts, dated 26 April 2004:

As National Statistician I have been asked to reply to your question concerning the total number of children in England, Wales, Scotland and Northern Ireland aged under five years for each year since 1992, and what forecasts have been made for the future. (168163)

Attached is a table showing mid-year population estimates for 1992–2002 and mid-year population projections for 2003–2012 of children aged 0–4 inclusive for each constituent country of the UK.

Estimated and projected population of children aged under 5 years 1992–2002 (estimated), 2003–2012 (projected), constituent countries of the UK[1]

Thousand

Year[2,3]	England[4]	Wales[4]	Scotland	Northern Ireland
1992	3,244.9	191.1	325.1	130.8
1993	3,227.8	188.6	323.0	128.8
1994	3,218.1	187.4	322.2	126.8
1995	3,185.0	183.8	318.3	124.6
1996	3,126.7	179.5	310.1	122.9
1997	3,086.2	177.1	302.7	121.6
1998	3,050.2	174.7	296.4	120.4
1999	3,018.4	172.1	290.3	119.2
2000	2,978.1	169.6	283.2	117.3
2001	2,920.6	167.2	276.3	114.7
2002	2,864.0	162.8	268.5	112.5
2003	2,843.2	159.9	263.4	110.3
2004	2,834.3	158.0	258.4	108.4
2005	2,840.2	157.1	255.2	107.3
2006	2,860.6	156.6	252.3	106.8
2007	2,880.2	157.6	249.9	106.4
2008	2,883.4	158.2	246.6	106.0
2009	2,885.5	158.8	244.1	105.9
2010	2,890.4	159.3	242.4	105.9
2011	2,898.2	159.9	241.3	106.1
2012	2,908.4	160.4	240.9	106.3

Civil Servants

Bob Russell: To ask the Chancellor of the Exchequer if he will list the towns and cities which have been assessed by Sir Michael Lyons for possible relocation of civil servants from London which have been short-listed; how many locations will be selected; when he will make an announcement; and if he will make a statement. [167282]

Mr. Boateng: In taking forward the Government's relocation programme, choice of locations will be for each department to determine based on a sound business case which aims to secure greater efficiency, improved public service delivery and better value for money for the taxpayer.

The independent King Sturge research commissioned by Sir Michael Lyons in his review provides an assessment of the attributes and qualities of different locations outside London and the South East. The assessment, details of which may be found in Chapter 8 of his report, is an illustrative guide for departments and public bodies relocating functions or considering dispersal out of the capital and by no means intended to be prescriptive or exhaustive.

In submitting relocation proposals to Sir Michael Lyons' Review, some departments have indicated an initial preference for certain locations. There are show in Chart 6.1 of Sir Michael's report.

The Government will come forward with detailed proposals for monitoring and implementing dispersal plans as part of the 2004 Spending Review.

Council Tax

Peter Bottomley: To ask the Chancellor of the Exchequer if he will estimate for *(a)* 1997 and *(b)* the latest date for which figures are available the number of householders paying more in council tax than income tax. [166525]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from John Pullinger to Mr. Peter Bottomley, dated 26 April 2004:

The National Statistician has been asked to reply to your recent question asking for the number of householders paying more in council tax than income tax in 1997 and currently. I am replying in his absence. (166525)

Estimates have been produced from the Office for National Statistics' analysis "The effects of taxes and benefits on household income" published on the National Statistics website on October 21st 2003 at: http://www.statistics.gov.uk/taxesbenefits.

Based on information provided by respondents to the survey the number of households in Great Britain paying more in net council tax than in income tax was approximately 4.8 million in 1997/98 and 5.5 million in 2001/02. More recent information is not yet available. Net council tax is defined as gross council tax less reported council tax benefits and discounts. Please note that these figures refer to the total tax paid by households (which may contain more than one person paying income tax) rather than by householders.

The analysis includes measures of income inequality for the United Kingdom as a whole based on data from the Expenditure and Food Survey. This is a sample survey covering about 7,500 households in the UK and, as with any statistical sample survey, estimates are subject to sampling error.

Sea Bass

Mr. Sanders: To ask the Chancellor of the Exchequer if he will make it his policy to ensure that sea bass *(a)* served at functions at which he is the host and *(b)* used in Treasury catering outlets is sourced from hand-line fishermen rather than pair trawlers. [167545]

Ruth Kelly: The Treasury's catering contractor sources foodstuffs with the aim of obtaining best value for the customer.

Economic Inactivity

Mr. Willetts: To ask the Chancellor of the Exchequer how many *(a)* men aged 50 to 64 years and *(b)* women aged 50 to 59 years were not in employment in each year since 1997. [168155]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Willetts, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment among men and women aged over 50. (168155)

The attached table gives estimates of the number of men aged 50 to 64 years and women aged 50 to 59 years not in employment for three month periods ending February each year from 1998 to 2004, the most recent periods for which this information is available.

Estimates are taken from the Office for National Statistics' Labour Force Survey (LFS). As with any statistical sample survey, estimates from the LFS are subject to sampling variability.

Number of people who are not in employment in the United Kingdom (not seasonally adjusted)—Men aged 50–64 and women aged 50–59, three month periods ending February, 1998–2004

Thousand

	Not in employment[1]	*Unemployed*	*Economically inactive*
Men aged 50–64 and Women aged 50–59			
1998	2,855	273	2,582
1999	2,833	269	2,564
2000	2,896	261	2,635
2001	2,842	226	2,615
2002	2,849	209	2,640
2003	2,777	227	2,550
2004	2,715	198	2,517
Men aged 50–64			
1998	1,532	200	1,332
1999	1,520	191	1,329
2000	1,578	190	1,388
2001	1,526	166	1,360
2002	1,533	145	1,389
2003	1,491	163	1,327
2004	1,448	135	1,313
Women aged 50–59			
1998	1,323	73	1,251

ONS-Labour Force Survey

Employment Statistics

Mr. Kilfoyle: To ask the Chancellor of the Exchequer what the figures for *(a)* adult and *(b)* youth long-term unemployment in Liverpool, Walton were in each year between 1997 and 2003. [166973]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Peter Kilfoyle, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (166973)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Liverpool, Walton Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (ISA) for local areas including parliamentary constituencies.

The attached table gives the annual average number of people claiming ISA for over 12 months, and the annual average number of these claimants aged 18 to 24 years, in the Liverpool, Walton constituency, for each year since 1997. The data are not seasonally adjusted.

Annual average numbers of people claiming Jobseeker's Allowance (JSA) for at least 12 months[1]—Liverpool, Walton parliamentary constituency, 1997–2003

	All claimants	*Claimants aged 18–24*
1997	2,229	472
1998	1,814	323
1999	1,398	114
2000	1,060	32
2001	866	21
2002	774	38
2003	660	38

Office for National Statistics.

Mr. Kilfoyle: To ask the Chancellor of the Exchequer how many job vacancies there were in Liverpool, Walton in each year from 1997 to 2003. [166965]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Peter Kilfoyle, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about job vacancies in Liverpool, Walton parliamentary constituency. [166965]

According to Jobcentre Plus administrative records the numbers of unfilled vacancies in the Liverpool travel-to-work area on average for the years 1997 to 2000 and for the latest available 12-month period, to April 2001, were as follows. These figures represent only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Average number of unfilled vacancies recorded at Jobcentres in Liverpool travel-to-work area 1997–2000, and 12 month period ending April 2001

	Number of vacancies
1997	4,330
1998	5,472
1999	5,795
2000	5,926
May 2000 to April 2001	3,328

Source:

Jobcentre Plus administrative records.

Figures are not available for the Liverpool, Walton constituency alone because of the practice of notifying some vacancies centrally, with one Jobcentre taking vacancies for others in the same district.

Jobcentre vacancy statistics for May 2001 onwards were withdrawn from National Statistics in September 2001 as a result of distortions to the data which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies for later years are therefore unavailable. Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Mr. Kilfoyle: To ask the Chancellor of the Exchequer how many people in Liverpool, Walton were registered unemployed in each year between 1997 and 2003. [166966]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Peter Kilfoyle, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (166966)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Liverpool, Walton Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The table below gives the annual average number of JSA claimants for the Liverpool, Walton constituency for each year since 1997 to 2003.

Number of claimants of Jobseeker's Allowance in the Liverpool, Walton parliamentary constituency, 1997–2003

	Number of claimants
1997	5,260
1998	4,745
1999	4,242
2000	3,858
2001	3,538
2002	3,328
2003	3,077

Jim Dobbin: To ask the Chancellor of the Exchequer how many job vacancies there were in Heywood and Middleton in *(a)* 1997 and *(b)* 2003. [168515]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jim Dobbin, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about job vacancies in Heywood and Middleton. (168515)

According to Jobcentre Plus administrative records the number of unfilled vacancies notified to Jobcentres in Heywood and Middleton was 378 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data, which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Jim Dobbin: To ask the Chancellor of the Exchequer what the level of unemployment was in each year since 1997 in Heywood and Middleton. [168519]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jim Dobbin, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (168519)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Heywood and Middleton Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The table below gives the annual average number of ISA claimants for the Heywood and Middleton constituency for each year since 1997.

	Number of claimants
1997	2,772
1998	2,393
1999	2,077
2000	1,804
2001	1,680
2002	1,640
2003	1,462

Source:
Office for National Statistics.

Jim Dobbin: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Heywood and Middleton from 1997 to 31 December 2003; [168520]

(2) how many new jobs have been created in Heywood and Middleton since 1997. [168521]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jim Dobbin, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about full-time jobs and jobs created in Heywood and Middleton. (168520, 168521)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes, in numbers of jobs, from year to year.

The following table shows the information requested, relating to all jobs and full-time jobs, in Heywood and Middleton, for 1997 and the latest year available, 2002. No information is available about whether the jobs were permanent.

Number of full-time employees and total number of employees[1] in Heywood and Middleton parliamentary constituency: 1997 and 2002

	Full-Time	*Total*
Number of employees		
1997	22,600	31,300
2002	23,800	32,300
Change from 1997 to 2002		
Absolute	1,200	1,000
Percentage	5.4%	3.1%

[1] Employee jobs only, not self-employed jobs.
Source:
1997; Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI).

Jim Dobbin: To ask the Chancellor of the Exchequer how many people were employed in tourism-related jobs in Heywood and Middleton on the latest date for which figures are available. [168522]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jim Dobbin, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about tourism-related jobs in Heywood and Middleton. (168522)

The latest available data, from the 2002 Annual Business Inquiry, shows that the total number of jobs in tourism related industries in Heywood and Middleton was 2,700. This total is obtained by combining figures for those working in the following industries, as identified by Standard Industrial Classification 2003:

hotels
restaurants
bars
activities of travel agencies
library, archives, museums etc.
sporting activities
other recreational activities.

James Purnell: To ask the Chancellor of the Exchequer how many job vacancies there were in Stalybridge and Hyde in *(a)* 1997 and *(b)* 2003. [168767]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. James Purnell, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about job vacancies in Stalybridge and Hyde. (168767)

According to Jobcentre Plus administrative records the number of unfilled vacancies notified to Jobcentres in Stalybridge and Hyde was 316 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data, which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Full-time Jobs (Manchester)

Mr. Kaufman: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Manchester, Gorton from 1997 to 31 December 2003; [167476]

(2) how many new jobs have been created in Manchester, Gorton since 1997. [167477]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Gerald Kaufman, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about full-time jobs and jobs created in Manchester, Gorton.

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes in numbers of jobs, from year to year.

The following table shows the annual average numbers of jobs, and full-time jobs, in Manchester, Gorton for 1997 and 2002, the latest year for which information is available. No information is available about whether these jobs were permanent.

Annual average number of full-time employees and total number of employees[1] in Manchester, Gorton Parliamentary Constituency 1997 and 2002

	Full-time	*Total*
Number of employees		
1997	9,800	15,100
2002	11,300	17,800
Change from 1997 to 2002		
Absolute	1,500	2,600
Percentage	14.7	17.5

[1] Employee jobs only, not self-employed jobs.
Source:
1997: Annual Employment Survey, rescaled.
2002: Annual Business Inquiry (ABI).

Gershon Report

Mr. Dawson: To ask the Chancellor of the Exchequer when the Gershon Report will be published. [168399]

Mr. Boateng: All Departments continue to work closely with Sir Peter Gershon to prepare detailed efficiency proposals for consideration in the 2004 Spending Review. Departments' agreed efficiency programmes will be published in parallel with the Spending Review settlement.

Gilts

Mr. Willetts: To ask the Chancellor of the Exchequer if he will list the value of gilts maturing in each year from now on. [167337]

Ruth Kelly: The UK Debt Management Office publishes the gilt redemptions profile each quarter in its Quarterly Review. The next issue, for first quarter of 2004, will be available in the week beginning 26 April 2004.

Job Vacancies

Mr. Pike: To ask the Chancellor of the Exchequer how many job vacancies there were in Burnley in *(a)* 1997 and *(b)* 2003. [167904]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Peter Pike, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about job vacancies in Burnley. (167904)

According to Jobcentre Plus administrative records, the number of unfilled vacancies in the Burnley travel-to-work area was 817 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data, which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Mr. Kaufman: To ask the Chancellor of the Exchequer how many job vacancies there were in Manchester, Gorton in *(a)* 1997 and *(b)* 2003. [167471]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Gerald Kaufman, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about job vacancies in Manchester Gorton. [167471]

According to Jobcentre Plus administrative records the number of unfilled vacancies in the Manchester travel-to-work area was 9,767 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Figures are not available for Manchester Gorton alone because the vacancies are allocated to local Jobcentres, not according to constituency boundaries, and because of the practice of notifying some vacancies centrally with one Jobcentre taking vacancies for others in the same district.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data, which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Life Expectancy

Mr. Webb: To ask the Chancellor of the Exchequer if he will estimate the life expectancy at age 65 of *(a)* a man and *(b)* a woman (i) 30 years ago, (ii) now and (iii) in 30 years' time. [167279]

Ruth Kelly: The following table gives actual and projected expectations of life at age 65 for men and women in the United Kingdom for the calendar years 1974, 2002, 2004 and 2034. 2002 is the latest year for which the data required to calculate actual expectations of life are available. Figures for 2004 and 2034 are calculated using projected mortality rates taken from the latest, 2002-based, population projections for the United Kingdom.

The expectation of life figures shown are based on the mortality rates experienced (or projected) by age and gender in the years stated and are the number of years people would be expected to live from age 65 if they experienced those mortality rates throughout their remaining lifetimes.

Expectation of life for men and women at age 65 in the year shown United Kingdom

Based on data for year	*Men*	*Women*
1974 (Actual)	12.3	16.2
2002 (Actual)	16.1	19.1
2004 (Projected)	16.6	19.4
2034 (Projected)	20.3	23.0

Source:
Government Actuary's Department.

London Marathon (Sponsorship)

Bob Russell: To ask the Chancellor of the Exchequer whether charitable and voluntary organisations in receipt of sponsorship money raised by participants in the London Marathon on 18 April 2004 will be required to pay value added tax; and if he will make a statement. [167283]

John Healey: I refer the hon. Gentleman to the answer I gave to the hon. Member for Southwark, North and Bermondsey (Simon Hughes) on 19 March 2004, *Official Report*, column 25W.

Donations to a charity, for which nothing is received in return, are VAT-free, even if a charity asks individuals to 'pledge' or 'commit' to raise a certain amount of sponsorship.

Some charities insist that their runners in the London Marathon pay a registration fee or a minimum amount of sponsorship, before they take part in the race. These charities are, in effect, selling places in the race, so VAT is due, but only on any registration fee or the minimum amount runners have to pay. Any money raised above the minimum amount or registration fee will be free from VAT.

So, as they have always been able to do, charities can choose whether to organise their activities in this manner, enabling them to recover some of the VAT on the costs associated with the race, or in such a way that no VAT is due on the amount paid to them by runners.

National Minimum Wage

Jim Dobbin: To ask the Chancellor of the Exchequer how many workers in Heywood and Middleton have benefited from the national minimum wage. [168528]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jim Dobbin, dated 26 April 2004:

As National Statistician, I have been asked to reply to your recent question about the number of workers in Heywood and Middleton who have benefited from the national minimum wage (NMW). [168528]

Estimates for Parliamentary Constituencies are not available.

However, the Office for National Statistics (ONS) calculates estimates of the number of jobs paid less than NMW rates for the United Kingdom and Government Office Regions. A guide to measuring low pay and associated articles and data can be found on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=5837&Pos=1&ColRank=1&Rank=272

Offshore Jobs

Mr. Prisk: To ask the Chancellor of the Exchequer what discussions his Department had with the Department of Trade and Industry concerning off-shoring of UK jobs. [166856]

Ruth Kelly *[holding answer 21 April 2004]*: Discussions have been held at Cabinet level and between DTI and Treasury officials. DTI will publish a White Paper on Trade and Investment in summer 2004, which will cover the issue of offshoring. The Treasury, along with others, has provided input into the current consultation.

Press Officers

Mr. Laws: To ask the Chancellor of the Exchequer how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162850]

Ruth Kelly: I refer the hon. Gentleman to the answer I gave to the hon. Member for Truro and St. Austell (Matthew Taylor) on 1 April 2004, *Official Report*, column 1682W.

It is not possible to provide a total cost for staff employed as press officers on a consistent basis since 1990–91.

The number of press officers has remained broadly constant since 1992 at eight posts increasing to nine posts from 1 April 2003.

Stamp Duty Land Tax

Mr. Drew: To ask the Chancellor of the Exchequer what discussions he has had with the Law Society and other solicitors' representative organisations on the introduction of stamp duty land tax with specific reference to the time taken to fill in individual conveyancing forms needed to meet the duties of stamp duty land tax. [168003]

Ruth Kelly: The Inland Revenue have been in discussions with the law societies about all aspects of stamp duty land tax since 2002 and have held meetings to discuss the processes. The time taken to complete the forms has been discussed.

Tax Coding

Mr. Flook: To ask the Chancellor of the Exchequer how many *(a)* correct and *(b)* incorrect notices of

coding for those on PAYE were issued for the 2004–05 tax year in (i) January, (ii) February and (iii) March. [167588]

Dawn Primarolo: The only known error relating to the 2004–05 notices of coding was in respect of car and fuel benefits. The total numbers of coding notices issued were in the region of: (i) 4.3 million (ii) 7.9 million (iii) 1.3 million; and incorrect: (i) 468 thousand (ii) none (iii) none.

Tourism-related Jobs (Manchester)

Mr. Kaufman: To ask the Chancellor of the Exchequer how many people were employed in tourism-related jobs in Manchester, Gorton on the latest date for which figures are available. [167478]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Gerald Kaufman, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about tourism-related jobs in Manchester, Gorton.

The latest available data, from the 2002 Annual Business Inquiry, shows that the average number of jobs in tourism-related industries in Manchester, Gorton was 2,200 during that year.

This total is obtained by combining figures for those working in the following industries, as identified by Standard Industrial Classification 2003:

hotels

restaurants

bars

activities of travel agencies

library, archives, museums etc

sporting activities

other recreational activities.

Unclaimed Assets (Charitable Use)

Mr. Webb: To ask the Chancellor of the Exchequer what estimate he has made of the amount of unclaimed assets he will be able to apply to charitable purposes; and if he will make a statement. [167601]

Ruth Kelly *[holding answer 23 April 2004]:* There is currently no official estimate of the number of unclaimed assets or their total value.

Unemployment

Chris Ruane: To ask the Chancellor of the Exchequer what the *(a)* percentage and *(b)* actual change in unemployment was since 1997 in each constituency listed in descending order according to percentage drop and grouped by region. [166678]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Chris Ruane, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (166678)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment by Parliamentary Constituency.

However, ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

A table showing the change in the number of JSA claimants in each Parliamentary Constituency from 1997 to 2003 has been placed in the House of Commons Library.

Mr. Pike: To ask the Chancellor of the Exchequer (1) what the level of unemployment was in Burnley in each year since 1997; [167908]

(2) what the level of long-term *(a)* adult and *(b)* youth employment in Burnley was in each of the last seven years. [168320]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Peter Pike, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about unemployment. (168320,167908)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Burnley Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The attached table gives the annual average number of people claiming JSA for over 12 months, and the annual average number of these claimants aged 18 to 24 years, in the Burnley constituency, for each year since 1997. The table also shows the annual average total number of JSA claimants in the constituency for these years.

Annual average number of people claiming Jobseeker's Allowance (JSA), and number claiming for at least twelve months: Burnley parliamentary constituency, 1997–2003

		Claimants for at least 12 months[1]	
	All claimants	All ages	Aged 18–24
1997	1,531	220	23
1998	1,413	153	12
1999	1,538	163	6
2000	1,301	122	[2] ..
2001	1,187	87	[2] ..
2002	1,168	84	[2] ..
2003	1,091	74	[2] ..

Office for National Statistics.

Mr. Kaufman: To ask the Chancellor of the Exchequer what the level of unemployment was in each year since 1997 in Manchester Gorton. [167475]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Gerald Kaufman, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment in Manchester, Gorton.

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Manchester, Gorton Parliamentary Constituency.

However, ONS also compiles statistics of those claiming Jobseeker's Allowance (ISA) for local areas including parliamentary constituencies. The table below gives the annual average number of JSA claimants for the Manchester, Gorton constituency for each year since 1997.

Number of claimants of Jobseeker's Allowance in the Manchester, Gorton parliamentary constituency, 1997–2003

	Number
1997	4,688
1998	3,963
1999	3,602
2000	3,224
2001	3,017
2002	3,099
2003	3,137

The Shadow Economy

Brian Cotter: To ask the Chancellor of the Exchequer what estimate he has made of how much revenue has been lost by the Exchequer as a result of the shadow economy in each year since 1997. [167511]

Dawn Primarolo: There is no reliable overall estimate of the revenue lost as a result of the shadow economy. Lord Grabiner in his review of the hidden economy and the OECD's Centre for Tax Policy and Administration have both concluded that it is a concept difficult if not impossible to measure. The Revenue continues to monitor new developments in this area.

HOME DEPARTMENT

Adventure Capital Fund

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the Adventure Capital Fund. [165884]

Fiona Mactaggart: The Adventure Capital Fund was launched in December 2002 to pioneer a new form of long-term investment in community enterprises. The Fund represents a unique partnership between the Government Departments (the Home Office, the Office of the Deputy Prime Minister and the Department of Trade and Industry), and several Regional Development Agencies, as funders, and four leading voluntary organisations in the field of social and economic regeneration, as delivery partners. The delivery partners are the Development Trusts Association, the Scarman Trust, the New Economics Foundation and the Local Investment Fund which is the accountable body for the fund.

The aim of the fund is to demonstrate an effective way of providing 'patient capital' to fill the investment gap faced by community organisations wishing to move from grant dependency to sustainability through developing enterprise. This gap was clearly identified in the Social Investment Task Force report (October 2001) and the more recent Bank of England Report on Finance for Social Enterprise (May 2003).

In 2003, Home Office Funding totalling £2 million was invested in 10 community enterprises, with a further £375,000 being awarded to 25 organisations in pre-investment business development grants with funding from four Regional Development Agencies (Yorkshire and Humber), East Midlands, East of England and London). In 2004, a total of £4.5 million is available from Home Office assets recovery and the DTI Phoenix Fund, plus some further allocations from RDAs for business development grants. All grant and investment recipients receive one-to-one organisational development support. The cost of this support, of management of the Fund and evaluation of the programme has been met by ODPM's Neighbourhood Renewal Unit.

Asylum Appeals

Mr. Keetch: To ask the Secretary of State for the Home Department whether a delay to the date for an appeal hearing with the Immigration Service can be granted if a claimant has not received a decision letter on time from the Immigration and Nationality Directorate; and if he will make a statement. [164214]

Mr. Browne: Timeous receipt of the decision letter by the applicant is of no relevance to whether a delay to the date for an appeal hearing may be granted. No appeal hearing can be fixed until an appeal has been lodged. Receipt of a decision determines the start of the time limits that apply to lodging an appeal as set out in my answer to the hon. Member on 13 April 2004, *Official Report*, 420 column 86W.

The date of appeal hearings are not the responsibility of the Immigration Service or any other part of the Immigration and Nationality Directorate. They are the responsibility of the independent Immigration Appellate Authority. The appeal would not be listed for hearing until it has been received by the Immigration Appellate Authority. A party to the appeal can request an adjournment of the hearing to a later date, but only if they can show good reason why an adjournment is necessary, and have satisfied the adjudicator or Tribunal that the appeal cannot otherwise be justly determined.

Capacity Building

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how he defines the term, capacity building. [165883]

Fiona Mactaggart: When dealing with the Voluntary and Community Sector (VCS), Capacity Building is about ensuring that Voluntary and Community Organisations (VCOs) have the skills, knowledge, structures and resources to realise their full potential. Capacity building supports and develops VCS infrastructure through the provision of developmental assistance and advice, enabling VCOs to achieve their objectives. It is as much about releasing existing capacity as about developing new capacity.

The Government's recent review of community capacity building examined the support needed, particularly at neighbourhood or community level, to increase active citizenship and build strong communities, as key contributors to our broader goal of civil renewal. The resulting consultation paper defined community capacity building as "the activities, resources and support that strengthen the skills and abilities of people and community groups to take effective action and leading roles in the development of their communities". The review findings also recognised the importance of organisational development and culture change within public bodies, to ensure public servants are equipped to engage effectively with communities and the voluntary and community sector.

Child Sex Offences

Mr. Hancock: To ask the Secretary of State for the Home Department how many prosecutions for *(a)* sexual offences involving minors, *(b)* prostitution and trafficking involving children and *(c)* possession of child pornography there were in each of the last three years for which figures are available; and if he will make a statement. [152236]

Paul Goggins: The available information is contained in the table. Offences connected with prostitution and trafficking involving children cannot be separately identified in the statistics collected centrally.

Statistics for 2003 will be published in the autumn.

Persons proceeded against at magistrates' courts for sexual offences[1] etc. against minors where the age of the victim is identified by the offence, 2000–02—England and Wales

	Number of persons		
Offences	*[2]2000*	*2001*	*2002*
Sexual offences involving minors	3,442	4,095	4,422
Child pornography offences	413	486	621

[1] Principal offence basis.
[2] Excluding Staffordshire.

Closure Orders

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions Merseyside Courts issued a closure order in the past four months. [165915]

Paul Goggins: Merseyside police records show that no closure orders have been issued in Merseyside, although a case is pending under Part 1 of the Anti-social Behaviour Act 2003.

Crime (Wirral, South)

Mr. Ben Chapman: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Wirral, South has been since 1997. [166634]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Wirral, South is part of the Wirral Basic Command Unit (BCU). Between March 2002 and March 2003 police strength for the Wirral BCU decreased by 0.9 per cent. (from 515 to 510). The deployment of officers to BCUs is a matter for the Chief Constable and within the Wirral BCU deployment of officers is a matter for the Divisional Commander.

Futurebuilders Programme

Harry Cohen: To ask the Secretary of State for the Home Department if he will make a statement on the timescale for the implementation of the proposed Futurebuilders investment programme; what the mechanism is by which voluntary sector organisations may bid for allocations from this fund; who else will be eligible to bid; and if he will make a statement. [166848]

Fiona Mactaggart: The Futurebuilders Fund is an innovative undertaking, designed to enable voluntary and community organisations to modernise and enhance their capacity to deliver first class public services, particularly to individuals who are not well served by current state or market provision.

The implementation of the £125 million investment fund will be managed by Futurebuilders England Ltd., a consortium of organisations with experience of funding voluntary and community organisations. The Fund will provide finance to assist voluntary and community organisations, and social enterprises, in their public service work to acquire capital assets through a range of funding solutions, including grants and various forms of loans.

Futurebuilders England aim to begin their first round of investments this summer. Information about designing the process, the mechanism for bids to the Fund, including investment priorities, the eligibility criteria and application process, is to be made available by Futurebuilders England at an information event they are holding for mainly voluntary and community organisations on Wednesday 5 May.

Offenders (Supervision)

Mrs. Gillan: To ask the Secretary of State for the Home Department what assessment he has made of whether multi-agency public protection panels have sufficient resources to ensure that those offenders deemed in the high or very high risk categories are properly supervised or under appropriate surveillance. [165184]

Paul Goggins: The multi-agency public protection panels are funded as part of the core business of the police and probation services. The two sets of annual reports published so far indicate that arrangements are working well.

Two pieces of research are currently being conducted into the multi-agency public protection arrangements. We expect to have the findings of both in the autumn. They will help to indicate, among other things, whether existing resources are being best used.

Paedophilia

Tim Loughton: To ask the Secretary of State for the Home Department what funding has been made available for the *(a)* monitoring and *(b)* treatment of paedophiles leaving jail. [164046]

Paul Goggins *[holding answer 26 March 2004]:* The protection of the public from the risks posed by sexual offenders has been strengthened by a number of legislative measures and funding decisions the government has taken. The monitoring and treatment of sexual offenders comprise a range of activities, which the police and probation services co-ordinate through the multi-agency public protection arrangements (the MAPPA). It is not possible to breakdown the costs of each MAPPA activity because they will vary according to the level of risk posed by each offender and their circumstances.

The multi-agency public protection panels are funded as part of the core business of the police and probation services. The two sets of annual reports published so far indicate that arrangements are working well.

Pardons

Mr. Kilfoyle: To ask the Secretary of State for the Home Department what changes in policy have taken place since 1997 on the use of free pardons. [166988]

Paul Goggins: The Criminal Appeal Act 1995 (which resulted in the establishment of the Criminal Cases Review Commission in 1997) provided those wrongfully convicted who had previously only been able to seek a free pardon with an alternative route of redress. In consequence no free pardons have been issued since 1997 and no changes in policy have been necessary.

Parole Board

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the reasons were for the increase of £6.5 million in the grant to the Parole Board in the Spring Supplementary Estimates. [165874]

Paul Goggins: The Parole Board's grant in aid for 2004–05 is currently £4.215 million and there are no proposals to increase it.

The higher figure referred to in the Question, includes a notional additional provision shown against the Parole Board. This provision was agreed by the Treasury and is in line with Parliamentary Rules.

Police

Mr. Frank Field: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Birkenhead has been since 1997. [166484]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Birkenhead is part of the Wirral. Between March 2002 and March 2003 police strength for the Wirral BCU decreased by 0.9 per cent. (from 515 to 510). The deployment of officers to BCUs is a matter for the Chief Constable and within the Wirral BCU deployment of officers is a matter for the Divisional Commander.

Prisons

Mr. Gerrard: To ask the Secretary of State for the Home Department how the work of the Sentencing Guidelines Council will contribute to the stabilisation of the prison population. [167365]

Paul Goggins: The work of the Sentencing Guidelines will lead to a greater consistency in sentencing. It will in due course consider guidelines in respect of all criminal offences, which will apply to all courts. The Government have made it clear that prison should only be used for the most serious, dangerous and persistent offenders, and that others are better punished in the community.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were released on 10 March. [161629]

Paul Goggins *[holding answer 15 March 2004]:* Information on the number of prisoners who were released on 10 March 2004 is not yet available.

Sandra Gidley: To ask the Secretary of State for the Home Department if he will list the prisoner rehabilitation programmes; and at whom each is aimed. [157377]

Paul Goggins: The Prison Service provide the following offending behaviour programmes which have been accredited by the Correctional Services Accreditation Panel and are aimed at assisting in the rehabilitation process:

Enhanced Thinking Skills—A Cognitive Behavioural Programme for male and female, and can be sequenced with another programme.

Reasoning and Rehabilitation—A Cognitive Behavioural Programme for male and female medium to medium-high risk offenders.

Controlling Anger and Learning to Manage it—This programme is for medium-risk male offenders convicted of assault, public order or criminal damage.

Cognitive Self-Change Programme—It is for adult men aged between 24 and 50. They will be high-risk offenders convicted of at least two violent offences.

Cognitive Skills Booster Programme—A programme for male and female offenders who have already completed a general offending programme.

Healthy Relationships—A programme for prisoners convicted of domestic violence offences or who have a pattern of relationship problems.

Sex Offender Treatment Programmes

Core—The programme is for male medium and high-risk sex offenders.

Extended—It is for male high and very high-risk sex offenders.

Adapted—Designed to suit learning-disabled sex offenders across all risk levels.

Rolling—Programme for male low and medium risk sex offenders, and sex offenders who have completed primary treatment programmes and who are serving long sentences can attend to reinforce learning.

Booster—Programme for male sex offenders to reinforce learning.

Drug Treatment Programmes

Prison Addressing Substance Related Offending (P-ASRO)—Cognitive Behavioural Programme for adult men and young male offenders with low/medium drug dependence and risk of re-offending.

RAPt—Abstinence based 12 Step programme for adult men, women and young offenders with medium to high drug dependence and risk of re-offending.

Prison 12 Step programme—For adult men, women and young offenders with medium to high drug dependence and risk of re-offending.

Substance Treatment Offender Programme (STOP)—Cognitive Behavioural Programme for adult male offenders with medium/high drug dependence and risk of re-offending.

Action on Drugs—Cognitive Behavioural Programme for adult men and young male offenders with medium/high drug dependence and risk of re-offending.

FOCUS—Cognitive Behavioural Programme for adult male offenders with medium/high drug dependence and risk of re-offending.

Ley Prison Programme—Cognitive Behavioural Programme set in a therapeutic milieu for adult male offenders with medium/high drug dependence and risk of re-offending.

North West Therapeutic Community—Therapeutic community for adult male offenders with medium/high drug dependence and risk of re-offending.

In addition the Prison Service provides a range of education programmes and other activities aimed at rehabilitation and increasing the opportunity for prisoners to find employment and accommodation on release.

Charles Hendry: To ask the Secretary of State for the Home Department pursuant to his answer of 1 March, *Official Report*, column 721W, on prison education, if he will make a statement on increased partnership working to improve opportunities for learning and skills across the range of prison activities. [162355]

Paul Goggins: The Government is investigating the scope for a delivery partnership between the Learning and Skills Council and the Prison Service (and in time the National Offender Management Service)—together with other key players such as Jobcentre Plus-to provide a more flexible, individually focused learning and skills service. The Government is planning to try out new models of partnership and delivery, beginning in the autumn with a small number of pathfinders. Meanwhile, the Government is looking to newly appointed Heads of Learning and Skills to maintain a focus on learning at senior level within each establishment, to help overcome obstacles to communication and joint working across regimes, and to develop imaginative partnerships with organisations, including voluntary organisations, beyond the prison walls which can enhance prisoners' resettlement prospects.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on local strategies and initiatives developed by prisons for older prisoners. [164429]

Paul Goggins: The Prison Service does not have a separate national Strategy for older prisoners but seeks to meet the needs of older prisoners through individual circumstances.

Some local initiatives have been developed, including remedial fitness programmes for older prisoners, at a number of establishments. One establishment has set up an occupational therapy group, which provides prisoners of retirement age with the opportunity to work, do gardening, clean windows or tidy the prison grounds. At least one establishment has installed an activities day room for older prisoners and have developed links with the Salvation Army who run a club for the over 60's. An elderly life sentence prisoner unit designed to accommodate 15 elderly prisoners is scheduled to open in late June 2004 at HMP/YOI Norwich.

Following concerns expressed about the care of elderly prisoners, I have commissioned the Chief Inspector of Prisons to undertake an independent thematic inspection of older prisoners. The report of this inspection is expected to be published in the Summer.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department for what reasons the capital reductions costs for the private finance initiative prison contract became overstated; and what measures will be implemented to prevent a recurrence of overstated capital reduction costs for the contract. [165875]

Paul Goggins: There are no capital reductions costs for Private Finance Initiative prisons.

Mr. Maude: To ask the Secretary of State for the Home Department how many and what percentage of prisoners were sharing cells designed for single occupancy in each of the last 10 years. [166796]

Paul Goggins: The number of prisoners sharing cells designed for one person and the percentage, expressed as a proportion of the average prisoner population, is given in the table. Validated figures for 2003–04 are not yet available.

	Percentage doubling	*Number doubled*
2002–03	20.4	14,586
2001–02	17.0	11,440
2000–01	17.2	11,292
1999–2000	18.9	12,222
1998–99	18.4	12,024
1997–98	18.2	11,548
1996–97	16.8	9,498
1995–96	16.5	8,506
1994–95	17.1	8,426

Mrs. Gillan: To ask the Secretary of State for the Home Department what plans he has to transfer the Foundation Training Company resettlement programme following the re-rolling of Edmunds Hill Prison. [166867]

Paul Goggins: An appraisal of Edmunds Hill is currently taking place following the decision to re-role this establishment. The future of the Foundation Training Company (FTC) resettlement programme at Edmunds Hill is one of the issues under consideration; it is envisaged that the FTC will remain at Edmunds Hill, subject to appropriate funding.

Mr. Kilfoyle: To ask the Secretary of State for the Home Department what the annual average population of *(a)* HMP Liverpool and *(b)* HMP Altcourse was in each of the last six years; and what the present population is of each. [166987]

Paul Goggins: The population on 31 March 2004 and annual average population in each of the last six years of *(a)* HMP Liverpool and *(b)* HMP Altcourse is given in the table.

Current and annual average population of Liverpool and Altcourse

	Liverpool	*Altcourse*
31 March 2004	1,449	988
2003	1,434	995
2002	1,448	955
2001	1,297	800
2000	1,274	818
1999	1,432	751
1998	1,451	630

Suicide (Websites)

Charles Hendry: To ask the Secretary of State for the Home Department (1) if he will proscribe websites which promote suicide; [161078]

(2) what discussions he has had with internet service providers concerning suicide websites and chatrooms. [161079]

Paul Goggins: We understand the concern that has been expressed about such websites.

Where they are hosted in the UK, those producing them may be committing an offence under section 2(1) of the Suicide Act 1961, which makes it an offence to aid, abet, counsel or procure another to commit suicide, or attempt to do so and be liable to prosecution. However the courts have held that simply providing information about committing suicide does not necessarily constitute such an offence.

More generally, we are in the process of opening up discussion internationally on wider issues of illegal content on the internet. In addition, as part of the National Suicide Prevention Strategy for England, the Department of Health is working to promote the responsible representation of suicidal behaviour in the media. More generally, we are in the process of opening up discussion internationally on wider issues of illegal content on the internet. In addition, as part of the National Suicide Prevention Strategy for England, the Department of Health is working to promote the responsible representation of suicidal behaviour in the media.

Vehicle Data Recorders

Rob Marris: To ask the Secretary of State for the Home Department how many road traffic prosecutions used evidence based on black box vehicle data recorders to indicate the speed of the vehicles involved in *(a)* 2002 and *(b)* 2003. [164532]

Caroline Flint: The information is not collected centrally.

Women in Jail

Mrs. Gillan: To ask the Secretary of State for the Home Department how many women were in jail on the latest date for which figures are available. [147363]

Paul Goggins: On Friday 16 April 2004 there were 4,625 females in Prison in England and Wales.

Wormwood Scrubs

Ms Buck: To ask the Secretary of State for the Home Department what expenditure has been incurred to date by the Home Office as a result of *(a)* injuries, *(b)* legal costs and *(c)* damages arising from claims made by prisoners in Wormwood Scrubs during the period November 1992 to October 2001; to how many prisoners damages have been paid; and how many cases remain unresolved. [162632]

Paul Goggins: Payments to prisoners and former prisoners arising from claims made between November 1992 and October 2001 at Wormwood Scrubs total £1,275,810. These payments have been made to 56 prisoners, one remains unresolved. The payments are global settlements for injuries and damages. For the same period, the Home Office has paid £289,533 for its legal costs in relation to these claims

Youth Offending Teams

Mr. Keith Bradley: To ask the Secretary of State for the Home Department what the statistical base is for the allocation of resources to youth offending teams for *(a)* drug and *(b)* alcohol programmes. [162613]

Paul Goggins *holding answer 22 March 2004]:* The Youth Justice Board provide grant funding to Youth Offending Teams for substance misuse work which includes drugs and alcohol. They use a national formula which takes into account each Youth Offending Team area's 10 to 17-year-old population, levels of deprivation based on indices supplied by the Office of the Deputy Prime Minister and geographical size.

INTERNATIONAL DEVELOPMENT

Contraception (Africa)

Mr. Bercow: To ask the Secretary of State for International Development what steps his Department is taking through *(a)* bilateral programmes, *(b)* EU development assistance programmes and *(c)* other programmes to increase the percentage of women of reproductive age in Africa who use contraceptives. [167209]

Hilary Benn: Over one third of maternal deaths could be avoided if effective family planning services to avoid unwanted pregnancies were available and accessible. The Department for International Development therefore attaches particular importance to increasing women's access to reproductive health (RH) services including family planning. DFID champions reproductive health through our bilateral country programmes either through direct support to the health sector or through general budget support. Under DFID's bilateral programmes, contraceptives are normally provided as an integral part of broader programmes to promote sexual and reproductive health and prevent HIV/AIDS. DFID also supports the strengthening of national systems and capacity to plan, use and monitor supplies of medicines and commodities including for reproductive health. Since 1997 DFID has committed over £1.5 billion to health systems globally.

DFID spent over £270 million globally on reproductive health and HIV/AIDS programmes in 2002–03, (about two thirds of this support was targeted at sub-Saharan Africa), and is one of the leading bilateral providers of condoms (for men and women) and other forms of contraception to developing countries. Many

of DFID's HIV/AIDS programmes include large components for social marketing of condoms. In Nigeria we have committed £52.8 million for a condom social marketing programme that combines procurement and distribution with encouraging behaviour change, communication and capacity building.

The UK's significant contributions to the European Commission Development Budget and the European Development Fund cannot be tracked back specifically for use on Reproductive Healthcare in Africa. Most EC resources are allocated by region or country in response to country government's own priorities, and details of the proportion of UK support for reproductive health are not available centrally. However, the UK has been working hard within the EU to protect the principles agreed at the International Conference on Population and Development (ICPD) in Cairo in 1994. The Cairo Agenda redefined sexual and reproductive health and rights. DFID and our EU partners are pushing to generate more political commitment for reproductive health and reproduction health rights, in for as such as the World Health Assembly and the UN Commission for Population, and Development to protect the gains made in Cairo which are now under pressure. The Netherlands are planning to highlight reproductive health and the need to have contraception readily available in their forthcoming EU Presidency. The UK has been in discussions with the Netherlands about how to maintain the momentum around this subject during the UK's Presidency of the EU in 2005.

DFID is a major donor to the United Nations Population Fund (UNFPA) and supports the Fund's work to provide the widest achievable range of safe and effective family planning and contraceptive methods. DFID also provides support to the International Planned Parenthood Federation (IPPF), which is the world's largest voluntary reproductive health organisation.

EU Development Assistance

Mr. Bercow: To ask the Secretary of State for International Development (1) if he will list the non-governmental organisations involved in the delivery of 2002 EU Development Assistance projects in *(a)* Benin, *(b)* Burkina Faso, *(c)* Cape Verde, *(d)* Cote d'Ivoire, *(e)* Guinea, *(f)* Guinea Bissau, *(g)* Liberia, *(h)* Mali, *(i)* Mauritania, *(j)* Niger, *(k)* Nigeria, *(l)* Senegal, *(m)* Sierra Leone, *(n)* the Gambia and *(o)* Togo; [167192]

(2) if he will list the non-governmental organisations involved in the delivery of the 2002 EU development assistance projects to *(a)* Cameroon, *(b)* the Central African Republic, *(c)* Chad and *(d)* Sao Tomé and Principe. [167215]

Hilary Benn: The participation of NGOs in the implementation of the European Union's (EU) efforts to eradicate poverty is vital. A substantial proportion of EU development expenditure goes to NGO's whether through co-financing arrangements, thematic and geographic budget lines or the European Development Fund.

I have listed the European NGOs, which received a grant from the EU budgetary line for NGO co-financing for operations in the countries you requested to. This does not include information about NGOs who received funding from other budget lines, such as EDF and Food Security. The EU does not collate this information centrally and it would be available only at disproportionate cost.

European NGOs involved in co-financing operations

Welthaus Bielefeld E.V

Iraq

Llew Smith: To ask the Secretary of State for International Development if he will make a statement on the delivery of aid to *(a)* Falluja and *(b)* Najaf in Iraq in April. [167373]

Hilary Benn: Iraqi Ministries, United Nations agencies, the Red Cross and Red Crescent, NGOs and Iraqi citizens have been working together to assist people affected by conflict in Falluja. For example: the UN High Commissioner for Refugees (UNHCR) and the International Committee of the Red Cross (ICRC) have provided blankets, mattresses, food, water, stoves, plastic sheets and emergency health kits for Fallujans outside the city; the Iraqi Ministry of Health, together with the World Health Organisation (WHO), the Red Cross and Red Crescent and NGOs, have been working to ensure that sufficient medical supplies and assistance reach hospitals and clinics inside Falluja; and NGOs

and local groups have distributed items including cooking gas, sanitation kits and hygiene buckets. The British office in Baghdad is in contact with a local NGO about providing DFID funding for urgent humanitarian supplies.

Iraqi Ministries, UN agencies, the ICRC and others have made preparations for the provision of emergency humanitarian assistance, if required, in other Iraqi cities including Najaf. For example, 1.5 tonnes of medical and surgical supplies were distributed in early April to the Najaf health directorate.

An emergency coordination group has been established to ensure the effective coordination of emergency assistance in Iraq. Its membership includes UN agencies, the Red Cross and Red Crescent, and NGOs.

Kenya

John Barrett: To ask the Secretary of State for International Development if he will make a statement on the recent flooding in Western Kenya. [167817]

Hilary Benn: Recent heavy rains have led to flooding in Western Kenya as in other parts of the country. It is estimated that approximately 14,000 people are affected in western Kenya. The response is being managed by the Government, with assistance from the Kenya Red Cross Society (KRCS). The Government are distributing food to seven districts, and KRCS is distributing non-food items. Neither are currently asking for additional assistance from the international community. The Kenya Meteorological Office is predicting that average to above average rains will continue in parts of western Kenya. The Rapid Onset Disaster Committee is planning for a potential figure of 60,000 affected, should the heavy rains continue into May. If this were to happen, then the Government of Kenya may ask the World Food Programme and others for assistance. DFID Kenya will continue to monitor the situation closely.

Millennium Development Goals

Mr. Bercow: To ask the Secretary of State for International Development what estimate he has made of the number of new jobs that need to be created annually in the developing world if the Millennium Development Goal to eradicate extreme poverty is to be achieved. [167210]

Hilary Benn: The MDG for income poverty targets a reduction by 50 per cent. of the proportion of the population living in extreme poverty (defined as an income of less than US$1 per capita per day in purchasing power parity terms) between 1990 and 2015. The World Bank's[1] latest estimates indicate that about 1.1 billion people worldwide live in extreme poverty. If projected growth remains on track, global poverty rates will fall to 13 per cent.—less than half the 1990 level.

Reliable estimates of the number of new jobs required to eliminate extreme poverty do not exist. The majority of poor people in developing countries are outside formal employment, and progress towards the MDG can be achieved by improving opportunities in subsistence agriculture and the informal economy as well as by creating more formal sector jobs. Thus poverty can be reduced without necessarily involving the creation of additional formal sector jobs—for example, India has witnessed a sharp fall in poverty with little expansion of the formal sector job market. While a well-paid job can lift an entire household out of poverty, a poorly paid job may not lift anyone out of poverty. The International Labour Organisation (ILO)'s 'Decent Work' agenda[2] emphasises that the quality as well as the quantity of jobs is important. The rate of economic growth is the most critical factor in determining the attainment of this MDG.

[1] World Bank, "Global Economic Prospects 2004", Chapter 1 page 45.

[2] ILO, "Working Out Of Poverty", 2003.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of progress towards the Millennium Development Goal of reducing maternal mortality by 75 per cent. by 2015. [167212]

Hilary Benn: The Millennium Development Goal of improving maternal health has a target to reduce the maternal mortality ratio (the number of maternal deaths per 100,000 live births) by three-quarters between 1990 and 2015. This is equivalent to an annual reduction of 5.4 per cent. Approximately 529,000 women die annually from complications of pregnancy and childbirth.

Trends in maternal mortality are difficult to measure, but available data suggest that progress in reducing the maternal mortality ratio has been slow in recent years. With an average annual decline of 3.2 per cent. in the 1990s, the developing world as a whole is off target. While some countries have reduced maternal mortality, data suggest that some parts of Africa have seen an increase. A recent World Bank analysis suggests that only 17 per cent. of developing countries, containing 32 per cent. of the world's population, are on track to achieve the target.

Mr. Bercow: To ask the Secretary of State for International Development what recent assessment he has made of progress towards the Millennium Development Goal of reducing infant mortality by 66 per cent. by 2015. [167214]

Hilary Benn: The Millennium Development Goal (MDG) for child health is to reduce the rate of mortality in children under five by two-thirds between 1990 and 2015. The indicator that measures progress against this target directly is the under-five mortality rate. Infant mortality (deaths of children under one year old) and the proportion of one-year old children immunised against measles are used as intermediate indicators of progress.

Globally child mortality is declining, and between 1990 and 2000 the under-five mortality rate was reduced from 92 to 82 deaths per 1,000 live births. The infant mortality rate declined from 64 to 57 deaths per 1,000 live births in the same period. There is, however, considerable regional variation in the rates of progress being made. Latin America is expected to meet the MDG target, but there has been much slower progress in South Asia, and slowest progress in sub-Saharan Africa, which accounts for over half of all under-five

deaths. Recent World Bank analysis suggests that only 16 per cent. of developing countries are on track to achieve the target.

Rwanda

John Barrett: To ask the Secretary of State for International Development what assistance is being given to help women who were raped during the genocide in Rwanda and who now suffer from HIV/AIDS. [167826]

Hilary Benn: HIV/AIDS is a serious problem in Rwanda. Rwanda does not yet have the health infrastructure required to effectively deliver anti-retroviral therapy (ART) countrywide. But the Government have produced a comprehensive "Strategic Framework for HIV/AIDS Control" and all the major donors, including the Clinton Foundation, the Global Fund and the World Bank, have committed to support it. This framework includes the progressive provision of ART to all who need it, through a network of health centres. Through a partnership between UNAIDS and five of the leading multinational pharmaceutical companies (the Accelerating Access to HIV/AIDS Care, Treatment And Support Initiative), Rwanda is one of the countries that have reached agreement with manufacturers on significantly reduced drug prices in the context of its national HIV care and treatment plans.

The UK has committed £25 million through the International Partnership Against AIDS in Africa Programme (IPAA) to increase capacity in certain National HIV/AIDS Commissions, including Rwanda. DFID is currently considering whether we can build on this engagement, to ensure that Rwanda has the capacity to manage and direct the various programmes of support.

DFIF is also providing direct assistance to the survivors of the genocide through the Government's Survivors Fund (FARG). This assistance is currently running at some £200,000 per annum, and planned additional support up to £850,000 will enable FARG to broaden the services it provides to include advice and counselling on issues around HIV/AIDS.

I have a specific concern over the inequity in access to Anti-Retroviral Treatment between the defendants and the witnesses at the International Criminal Tribunal (ICTR) for Rwanda, which is considering crimes committed during the genocide. While defendants have access to health care including ART, witnesses generally do not. I wrote to the Secretary General of the United Nations, Kofi Annan, asking how the United Nations and the international community could work to resolve this inequity. The UN Secretary General replied, reporting that UNAIDS/WHO were identifying suitable health care providers, but seeking assistance from the UK to fund ART treatment for witnesses. I have responded positively and offered DFID assistance up to £200,000 for ICTR witnesses and others called by the Tribunal to receive healthcare, including ART, from a centre in Kigali.

SCOTLAND

Boundary Commission for Scotland

Mr. Peter Duncan: To ask the Secretary of State for Scotland when he expects the recommendations of the Boundary Commission for Scotland to be implemented. [165982]

Mr. Darling: The Boundary Commission for Scotland must report to me on its current review before December 2006. As I have said before, it is a matter entirely for the Commission when, within that timescale, it does so. I am required to lay the report before Parliament as soon as may be after its receipt, together with an Order giving effect to its recommendations.

Commission on the Scottish Parliament

Mr. Peter Duncan: To ask the Secretary of State for Scotland what discussions he has had with the Scottish Executive on the remit of his Commission on the Scottish Parliament. [165983]

Mr. Darling: The remit for the commission on boundary differences and voting systems was discussed with the First Minister before it was finalised.

Mr. Peter Duncan: To ask the Secretary of State for Scotland what budget has been set for the operating costs of his Commission on the Scottish Parliament. [165984]

Mr. Darling: The budget for the commission on boundary differences and voting systems will be set during the course of this year. The financial provision will come from within current Scotland Office resources.

Departmental Computers

Bob Spink: To ask the Secretary of State for Scotland what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166366]

Mrs. McGuire: The Scotland Office shares an information technology system with the Scottish Executive, which is responsible for the administration and maintenance of the system. The Executive has recently completed an upgrade of both computer hardware and standard software packages, including IT equipment used in the Scotland Office.

Whisky Duties

Mr. Peter Duncan: To ask the Secretary of State for Scotland what recent discussions he has had with the Treasury on the proposed introduction of the whisky strip stamp. [166019]

Mr. Darling: I have regular discussions with my right hon. Friend the Chancellor of the Exchequer on a range of issues affecting Scotland.

FOREIGN AND COMMONWEALTH AFFAIRS

Colombia

Mr. Dhanda: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Colombia on tackling organised crime. [167593]

Mr. Rammell: We are in regular discussion with the Colombian Government over tackling organised crime, particularly the drugs trade, not least because so much of the cocaine from Colombia finds its way onto our streets with devastating consequences. The drugs trade fuels the armed conflict in Colombia and seriously distorts the country's productive capacity. We will continue to work with the Colombian Government and other countries to end the global scourge of organised crime.

England Cricket Tour (Zimbabwe)

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last met representatives from *(a)* the England and Wales Cricket Board and *(b)* the International Cricket Council to discuss the proposed cricket tour by the England team to Zimbabwe later this year. [167185]

Mr. Straw *[holding answer 23 April 2004]:* Foreign and Commonwealth Office (FCO) officials have been in regular contact with the England and Wales Cricket Board (ECB). At the ECB's request my right hon. Friend the Secretary of State for Culture Media and Sport and I will be having a meeting with the ECB on 4 May. The FCO has had no meetings with the International Cricket Council on this matter. We would be ready to do so if requested by the ECB.

EU, Latin America and Caribbean Summit

Mr. Allan: To ask the Secretary of State for Foreign and Commonwealth Affairs if his Department will press for the issue of human rights defenders to be on the agenda of the EU-Latin America and Caribbean summit in May. [168818]

Mr. Rammell: Preparations for the Summit are well under way, both within the EU and with our Latin American and Caribbean partners. Discussions at the Summit will cover the many shared interests and values of our two regions, including respect for human rights.

Iraq

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of the coalition's strategy for replacing soldiers with Iraqi police for law enforcement duties, with reference to *(a)* provision of appropriate equipment and training and *(b)* ensuring appropriate knowledge of international standards for law enforcement. [166994]

Mr. Rammell: There are now more than 75,000 Iraqi police working around the country. There is an extensive programme to train, equip and mentor both existing and newly recruited police officers in Iraq, in which over 100 British police trainers are involved. While significant progress has been made in many areas in building the capacity of the Iraqi police and ensuring that police take the leading role in law and order, the current security challenges mean that there is a continuing need for support from the coalition and Iraqi Civil Defence Force. The Coalition's objective is to hand responsibility for security in Iraq to the Iraq police and other security forces as soon as their capability and security conditions allows.

Mr. Flook: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of President Gayoom's support for the Ba'athist Party of Iraq. [167277]

Mr. Mike O'Brien: We are aware that President Gayoom has met Saddam Hussein in the past, but have no reason to interpret this as support for the Ba'athist Party of Iraq.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the second source referred to in Paragraph 93 of the Intelligence and Security Committee's report, "Iraqi Weapons of Mass Destruction—Intelligence and Assessments", September 2003, was the intelligence based on documentary evidence referred to in Paragraph 89 of the report; and when this second source first reported to the Secret Intelligence Service. [168301]

Mr. Straw: The Intelligence and Security Committee's report made clear that the Secret Intelligence Service's judgment about its second source was not affected by doubts about the authenticity of some of the documentary evidence received by the International Atomic Energy Agency. The report also made clear that the second source reported in September 2002.

Irish Waters (Navigational Aids)

Mrs. Dunwoody: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what discussions he has had with the Irish Government regarding the cessation of payments from the UK General Lighthouse Fund for the provision of navigational aids in Irish territorial waters; [168259]

(2) what discussions he has had with *(a)* the Department for Transport and *(b)* the Northern Ireland Office regarding the cessation of payments from the UK General Lighthouse Fund for the provision of navigational aids in Irish territorial waters. [168260]

Mr. Rammell: Discussions are going between the Foreign and Commonwealth Office and the Department for Transport at official level regarding the cessation of payments from the UK General Lighthouse Fund for the provision of navigational aids in Irish territorial waters. It has been agreed that the Department for Transport should take forward negotiations with the Irish Government. A meeting with the Irish Government is scheduled shortly.

Latin America

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions have taken place with the Government of *(a)* Guatemala, *(b)* Mexico, *(c)* Peru and *(d)* Chile; and if he will make a statement. [167880]

Mr. Rammell: The United Kingdom enjoys good relations, and has regular discussions on a broad range of bilateral and multilateral issues, with the Governments of Guatemala, Mexico, Peru and Chile. I myself visited Mexico in October 2003, Chile in December 2003, and Guatemala in January 2004. I hope that I will be able to visit Peru later this year.

Middle East

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations have been made to the Israeli Government in respect of concluding arrangements for the return of Palestinian refugees to their homes, [167374]

Mr. Rammell: We regularly discuss with the Israeli Government issues relating to the Middle East Peace Process. However, the return of refugees is a final status issue and as such must be agreed by negotiation between the two parties. We continue to urge both the Israeli Government and the Palestinian Authority to implement their commitments under Phase One of the Roadmap as the best way to get to a negotiated settlement, and to the discussion of such issues which will take place in Phase Three.

Nepal

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 31 March 2004, *Official Report*, column 1449W, on the gifting of military equipment to Nepal, what the agreed lines were relating to the planned supply of short take-off and landing aircraft to Nepal; and if he will make a statement. [168175]

Mr. Straw: I refer the right hon. Gentlemen to the reply I gave on 31 March 2004, *Official Report*, column 1449W. I expect to make a full statement on the supply of two unarmed STOL aircraft once a final decision is made. A departmental minute is to be laid before the House in the near future.

The agreed lines used by the embassy in Kathmandu in responding to press queries in December 2003 were as follows:

"The UK Government is committed to supporting the Government of Nepal and working to end the suffering of the Nepalese people. One strand of this support is assistance to the Nepalese Security Forces, including the Royal Nepalese Army, in their efforts to combat Maoist aggression. Our non-lethal support aims to enhance RNA capability across a range of military activities.

As part of this support the UK plans to provide two Short Take Off and Landing aircraft to the RNA in 2004. There is still some way to go on this process, which will go through the appropriate Parliamentary channels".

Official Residences

Mr. Andrew Turner: To ask the Secretary of State for Foreign and Commonwealth Affairs what the *(a)* cost of and *(b)* charge for an overnight stay is at each ambassador's and high commissioner's official residence; and what rules and protocols govern the calculation of charges to users. [167243]

Mr. Mike O'Brien *[holding answer 22 April 2004]*: We have no record of official guests being charged to stay at residences overseas, although they may be invited to leave a small gratuity for the domestic staff. Costs to the Government would be limited to providing meals for the guests and costs such as utilities, laundry, and subsistence where applicable.

Seasonal Agricultural Workers

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many seasonal agricultural workers scheme students are awaiting visa processing from *(a)* Romania and *(b)* Bulgaria. [168378]

Mr. Mullin: The figures for the number of entry clearance applications submitted under the Seasonal Agricultural Workers Scheme which still await processing in Romania and Bulgaria are:

(a) Romania: 0

(b) Bulgaria: 228

The consideration of all applications under this scheme has been temporarily suspended at our embassies in Bucharest and Sofia since 30 March.

Sudan

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the situation in Darfur region and the allegations of acts of genocide committed by the Sudanese Government; and what discussions his Department has held with the *(a)* Sudanese Government, *(b)* United Nations and *(c)* EU on the situation. [166995]

Mr. Mullin: The reports of systematic attacks on civilians, including rape, pillage and destruction of livelihoods in Darfur are alarming. We have for some time been urging the parties to the conflict to ensure the protection of civilians and to respect the principles set down in International Humanitarian Law. We, and the UN, are agreed that what is happening in Darfur cannot, however, be described as genocide.

We have lobbied at the highest levels in Khartoum on Darfur, and are in almost daily contact with the Government of Sudan and the Darfur groups. My right hon. Friend the Secretary of State for International Development (Hilary Benn) spoke to the Sudanese Foreign Minister about Darfur on 24 March, and since then our ambassador in Khartoum has had a number of discussions with him.

The UN Secretary General and my right hon. Friend the Prime Minister discussed Darfur when they met on 15 April. We are in close contact with the UN, both in New York and in Sudan, on Darfur, and the Department for International Development have provided key personnel to support the UN co-ordination there. We are also working closely with the European Commission and our EU partners on this issue.

A humanitarian ceasefire agreement was signed on 8 April. This is an important step forward in resolving the crisis in Darfur. Work continues on implementation arrangements.

The Maldives

Mr. Flook: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will meet representatives of the Maldivian Democratic Party. [167275]

Mr. Mike O'Brien: My right hon. Friend the Foreign Secretary has no current plans to meet with the Maldivian Democratic Party (MDP). However, officials in London and at our High Commission in Colombo (accredited to the Maldives) have met representatives of the MDP several times, most recently on 24 March.

Mr. Flook: To ask the Secretary of State for Foreign and Commonwealth Affairs how many Maldivian nationals are being held at Guantanamo Bay, Cuba. [167276]

Mr. Mike O'Brien: This is a matter for the US Government.

United States Entry Rules

Mrs. Dunwoody: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice is available to UK citizens wishing to travel to the US on the requirements of the US Administration for *(a)* confidential financial information, *(b)* availability of visas and *(c)* grounds for possible deportation. [168251]

Mr. Mike O'Brien: All information about US visa and immigration procedures is available from the US authorities through their London Embassy website: www.usembassy.org.uk or by telephone to their Visa Information Service, details of which are available on the website. The Foreign and Commonwealth Office's (FCO) travel advice for the United States also gives information about some aspects of US immigration procedures of which British citizens should be aware when planning a trip to the US. FCO travel advice is available on the FCO's website: www.fco.gov.uk

Mrs. Dunwoody: To ask the Secretary of State for Foreign and Commonwealth Affairs what action he is taking to protect the interests of UK citizens wishing to travel to America, with particular reference to visa requirements. [168256]

Mr. Mike O'Brien: My right hon. Friend the Foreign Secretary has expressed his concerns to US Secretary of State Colin Powell about changes to the US Visa Waiver Programme that are due to come into effect on 26 October 2004. As US legislation stands, all British passports issued after 26 October 2004 will require a biometric for the holder to visit the US visa-free after that date. The UK is committed to introducing biometric passports, but not until end-2005. UK Government officials are also in discussions with the relevant US authorities on this issue. We hope that an extension will be granted to the 26 October 2004 deadline, which would minimise disruption to travellers. It is too early to be able to predict the outcome of these discussions. In the interim, some 400,000 UK citizens planning to visit the US would need visas. Those holding passports issued prior to 26 October 2004, provided that they were machine readable, would continue to be able to travel to the US under the Visa Waiver Programme.

TRANSPORT

Bus Lanes (Burnley)

Mr. Pike: To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Burnley since 1997. [167884]

Mr. McNulty: Four stretches of priority bus lane have been created in Burnley since 1997, on St. James street, Church street, Westway and Padiham road, with a total length of 1.2 km.

Civil Servants

Bob Spink: To ask the Secretary of State for Transport if he will list for each civil service grade within his *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group (iii) registered disabled and (iv) age group; and how many are registered disabled. [166392]

Mr. McNulty: Data on staffing levels in the Civil Service is collected by the Cabinet Office and published in Civil Service Statistics. A copy of Civil Service Statistics, 2002 is available in the Library, and at www.civil-service.gov.uk/statistics. The 2003 edition will be published in summer 2004.

Cycle Lanes (Burnley)

Mr. Pike: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Burnley since 1997. [167882]

Mr. McNulty: The information is not available in the form requested. There are currently 1.3 km of on-road cycle lanes, 6.7 km of off-road cycle paths and 7.8 km of improved canal towpaths where cycling is allowed, in Burnley. The majority of these have been provided since 1997.

Cycling (Gloucestershire)

Mr. Dhanda: To ask the Secretary of State for Transport what steps his Department is taking to encourage cycling in *(a)* the City of Gloucester and *(b)* the rest of Gloucestershire. [167596]

Mr. McNulty: The Department does not hold information for the City of Gloucester specifically, but by the end of the period 2000–01 to 2005–06, Gloucestershire county council and South Gloucestershire council project that they will have spent £4.5 million of Local Transport Plan funding on cycling schemes.

Both authorities have now drawn up action plans to improve their performance on cycling, building on a review of promotion and provision carried out by the English Regions Cycling Development Team.

Green Transport Schemes

Mr. Drew: To ask the Secretary of State for Transport what progress is being made on the Department's strategy towards the implementation of green transport schemes. [167974]

Mr. McNulty *[holding answer 23 April 2004]:* The main focus of the Department's work to promote sustainable travel is by supporting the development and implementation of school and workplace travel plans. However, the Department also promotes and supports other sustainable travel measures such as car clubs and car sharing.

On 17 September last year, the Secretaries of State for Transport and for Education and Skills published "Travelling to School: An Action Plan" and announced £50 million funding over the next two years to support this. The Action Plan asks schools and local authorities to work together to develop and implement travel plans for all schools before the end of the decade.

We have also announced the continuation of our £500,000 a year programme of free Site Specific Advice to help organisations develop workplace, tourism and leisure site travel plans.

Motorcycle Diesel Spillage

Vera Baird: To ask the Secretary of State for Transport in how many *(a)* accidents and *(b)* fatal accidents involving motorcycles diesel spillage has been found to be a cause or a contributory factor in each of the last three years. [168625]

Mr. Jamieson: The available information does not indicate whether diesel spillage was a cause or contributory factor in accidents. However the following table shows the number of accidents where at least one two wheeled motor vehicle was involved and where oil or diesel was present.

	Fatal	*Serious*	*Slight*	*Total*
2002	0	35	166	201
2001	1	32	168	201
2000	1	37	178	216

Rail Review

Bob Spink: To ask the Secretary of State for Transport when he will make a report on the current rail review. [168072]

Mr. McNulty: As my right hon. Friend the Secretary of State for Transport, said in his Statement to the House on 19 January, the review's conclusions will be published in the summer.

Railways

Mr. Horam: To ask the Secretary of State for Transport how many peak-time train services serving *(a)* Chelsfield, *(b)* Knockholt and *(c)* Dunton Green (i) there are at present and (ii) are proposed by the Strategic Rail Authority in the Integrated Kent Franchise. [167651]

Mr. McNulty *[holding answer 23 April 2004]:* The numbers of peak trains (arriving at the London terminus between 0700 and 0959) are:

	Present	*Proposed*
Chelsfield	12	6
Knockholt	7	3
Dunton Green	7	3

Mr. Horam: To ask the Secretary of State for Transport if he will publish the passenger usage data for *(a)* Chelsfield, *(b)* Knockholt and *(c)* Dunton Green that the Strategic Rail Authority used in their consultation document on the Integrated Kent Franchise, broken down by (i) passengers buying season tickets and those not and (ii) passengers taking fast peak-hour trains to London and those taking slow, stopping trains in the peak period. [167652]

Mr. McNulty *[holding answer 23 April 2004]:* This information is not available in the format requested. Ticket information for the year 2002–03 suggests that the average number of passenger journeys to and from these stations per day was:

	Season	*Ordinary*	*Total*
Chelsfield	1,700	350	2,050
Knockholt	180	130	310
Dunton Green	110	40	150

Mr. Horam: To ask the Secretary of State for Transport what assumptions were made by the Strategic Rail Authority in the Integrated Kent Franchise document about *(a)* current and *(b)* future capacity in the peak-hour train services between Chelsfield, Knockholt, Dunton Green and London. [167653]

Mr. McNulty *[holding answer 23 April 2004]:* Based on current rolling stock diagrams, and assumed train formations under IKF, the total number of seats on trains that stop at these stations in the morning peak period will be as follows:

	Current	*Proposed*
Chelsfield	8,200	4,620
Knockholt	5,300	2,310
Dunton Green	5,300	2310

Mr. Horam: To ask the Secretary of State for Transport what assumptions were made by the Strategic Rail Authority in the Integrated Kent Franchise about the number of peak-time passengers who will be diverted from *(a)* Chelsfield, *(b)* Knockholt and *(c)* Dunton Green to other stations because of the reduction in services; and what plans there are to (i) identify and (ii) address the consequences of diversion of passengers for (A) car parking and (B) disabled access. [167654]

Mr. McNulty *[holding answer 23 April 2004]:* The modelling work undertaken to date has been at a strategic level. Bidders for the Integrated Kent

Franchise will be expected to tailor train capacity and local infrastructure based on their own demand forecasts.

Mr. Drew: To ask the Secretary of State for Transport when the Rail Review is expected to be completed; and when he plans to make a statement. [167973]

Mr. McNulty *[holding answer 23 April 2004]:* As my right hon. Friend the Secretary of State for Transport, said in his Statement to the House on 19 January, the review's conclusions will be published in the summer.

Mr. Pickthall: To ask the Secretary of State for Transport if he will list the owners of rolling stock leased by train operators. [168181]

Mr. McNulty: Virtually all the rolling stock leased by passenger train operating companies is owned by either Porterbrook Leasing, HSBC, Angel Trains or Halifax Asset Financing.

Mr. Best: To ask the Secretary of State for Transport (1) if he will make a statement on the progress being made in improving disabled access to trains; [168659]

(2) if he will bring forward the end date for inaccessible trains to 2020. [168662]

Mr. McNulty: Since the Rail Vehicle Accessibility Regulations into force in 1999, hundreds of new trains, which comply with the high standards of access for disabled people required by the regulations, have been introduced. These include 1,400 new carriages which have come into service in the last 2½ years. Another 1,000 are due in the next 18 months. In addition, many older trains, while not meeting full RVAR standards already have wheelchair accommodation and other features to assist disabled passengers.

We have recently consulted on a number of proposals to amend the rail provisions of the Disability Discrimination Act. These include setting an 'end date' by which time all rail vehicles would have to comply with the Rail Vehicle Accessibility Regulations. We have not yet taken a final decision on the best date to set. We are currently analysing the consultation responses and looking carefully at the costs and benefits of a range of options, including 2020. We will consult on the draft regulations needed to implement our proposals when the required new primary legislation is introduced in the form of the Disability Discrimination Bill.

Rural Bus Services

Mr. Pike: To ask the Secretary of State for Transport how many rural bus services in Burnley are supported by rural bus grants. [167883]

Mr. McNulty: Rural Bus Subsidy Grant (RBSG) is paid to local transport authorities; in the case of Burnley this is Lancashire County Council. It is for the authority to decide which services should be supported with the grant. We understand from the County Council that 2 rural bus services serving Burnley are provided by RBSG. There are a further 7 rural bus services serving Burnley provided through Revenue Support Grant funding.

Jim Dobbin: To ask the Secretary of State for Transport how many rural bus services in Heywood and Middleton are supported by rural bus grants. [168548]

Mr. McNulty: Rural Bus Subsidy Grant (RBSG) is paid to local transport authorities, in the case of Heywood and Middleton this is the Greater Manchester Passenger Transport Executive (PTE). It is for the authority to decide which services should be supported with the grant. We understand from the PTE that no bus services in Heywood and Middleton are provided by RBSG as this area is predominantly urban.

Shipping

Mr. Carmichael: To ask the Secretary of State for Transport for what reason the Government has not yet complied with the EU Directive on vessel traffic monitoring and information systems. [167634]

Mr. Jamieson: The United Kingdom already implements much of what the directive requires. My Department's Maritime and Coastguard Agency held a consultation on draft regulations to implement the remaining requirements, which ended on 23 April. Analysis of responses and introduction of those regulations, amended as necessary, will proceed without delay.

Mr. Carmichael: To ask the Secretary of State for Transport what action the UK Government will take against ships entering UK ports without International Ship and Port Security Code certification after 1 July. [167635]

Mr. Jamieson: The Department for Transport is the Designated Authority to oversee the implementation and compliance of the International Ship and Port Security (ISPS) Code in the United Kingdom.

Post 1 July implementation deadline, compliance with the ISPS Code will be required to guarantee entry into UK ports. Ships that do not provide evidence of having an International Ship Security Plan will be liable to control measures, which may include denial of entry, detention of a vessel or its expulsion from a port.

Taxis (Regulation)

Huw Irranca-Davies: To ask the Secretary of State for Transport when he will respond to the Transport Committee's Report on the Regulation of Taxis and Private Hire Vehicle Services in the UK. [168587]

Mr. McNulty: We shall respond shortly.

Unmanned Railway Crossings

Bob Spink: To ask the Secretary of State for Transport how many people were killed on unmanned *(a)* pedestrian and *(b)* vehicular railway crossings in each of the last five years. [167225]

Mr. McNulty: Details on the number of people killed on unmanned pedestrian and vehicular railway crossings in the five years 1999–2000 to 2003–04, provided by the Health and Safety Executive's Railway Inspectorate, are set out in the following table.

	Unmanned pedestrian level crossings	*Unmanned vehicle level crossings*
1999–2000	4	3
2000–01	3	1
2001–02	0	1
2002–03	2	7
2003–04 (Provisional)	3	5

Further details on accidents at level crossings are contained in the Health and Safety Executive's Annual Reports on Railway Safety, copies of which are in the Libraries of the House.

US (Visitor Visas)

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will take steps to publicise the requirements of the US Administration for visitor visas for UK citizens. [168257]

Mr. Mike O'Brien: I have been asked to reply.

It is primarily the responsibility of the US authorities to provide information on their immigration and visa requirements for British citizens. However, the Foreign and Commonwealth Office gives information through its Travel Advice about certain aspects of US immigration procedures which may be of particular interest to British travellers. This is regularly updated to reflect the latest position and is available on the Foreign and Commonwealth Office website at www.fco.gov.uk.

West Coast Main Line

Mr. Kilfoyle: To ask the Secretary of State for Transport if he will make a statement on the upgrading of the Liverpool spur of the West Coast Main Line. [166978]

Mr. McNulty: As part of West Coast Route Modernisation, it is planned to upgrade the line progressively between Weaver Junction and Liverpool, with the benefits being delivered from June 2005 onwards. These changes, along with improvements to other sections of the West Coast route, will provide for faster services between Liverpool, London and other key destinations.

John Thurso: To ask the Secretary of State for Transport what the total estimated cost is of the West Coast Main Line upgrade; and what proportion of this cost is accounted for by *(a)* construction, *(b)* consultants and *(c)* compensation to train operating companies. [166007]

Mr. McNulty: The total estimated cost of the West Coast Main Line project is forecast to be £7.6 billion. The upgrade comprises a large number of individual contracts whose composition is a matter for the contracting parties.

Working Time Directive

Mr. Peter Duncan: To ask the Secretary of State for Transport when he expects to publish his response to the consultation into the implementation of the Working Time Directive for mobile workers in the transport sector. [165973]

Mr. Jamieson: An announcement on this issue will be made very shortly.

DEPUTY PRIME MINISTER

Local Government Pension Scheme

Mr. Laurence Robertson: To ask the Deputy Prime Minister if he will make a statement on his proposed changes to the Local Government Pension Scheme. [168049]

Phil Hope: Draft regulations designed to ensure that the Local Government Pension Scheme in England and Wales remains affordable to employers, members and taxpayers were circulated to interested parties for their comments on 31 March. Subject to the outcome of that consultation, the new provisions will come into force on 1 April 2005. The proposals reflect the policies set out in our June 2003 White Paper "Simplicity, security and choice; working and saving for retirement" (Cm 5835) and are part of a programme of changes to the scheme announced on 23 July 2003. Further measures to modernise the scheme and to ensure its sustainability for the longer term will be circulated later this year.

Balance of Funding Review

Huw Irranca-Davies: To ask the Deputy Prime Minister whether interim financial measures will be put in place pending the outcome of the Balance of Funding Review. [168585]

Phil Hope: No. The Office of the Deputy Prime Minister awaits the report of the Review which is due in the summer. We shall then consider what action is appropriate.

Huw Irranca-Davies: To ask the Deputy Prime Minister what discussions he has had with National Assembly for Wales Government on the *(a)* Balance of Funding Review and *(b)* the parallel exercise in Wales. [168586]

Phil Hope: I refer my hon. Friend to the answer given on 29 March 2004, *Official Report*, column 1256W. The Office Of the Deputy Prime Minister will consult the Welsh Assembly Government before making any changes as a result of the Review.

Diesel Spillages

Vera Baird: To ask the Deputy Prime Minister what the cost has been to each fire brigade to clean up diesel spillage in each of the last three years. [168627]

Mr. Raynsford: The costs to fire brigades of cleaning up diesel spillages, or other hazardous chemicals, are not held centrally, and could be provided only at disproportionate cost.

Empty Homes

Mr. Clifton-Brown: To ask the Deputy Prime Minister how the Government intend to allocate the council tax received from empty homes. [168374]

Mr. Raynsford: A dwelling, which is unoccupied and substantially unfurnished is exempt from council tax for a period of up to six months. A dwelling which

is unoccupied, substantially unfurnished and either requires, is undergoing or has undergone within the last six months major repair work to make it habitable or is undergoing or has undergone within the last six months major repair work or structural alteration is exempt for a period of up to 12 months. After the exempt period, council tax is payable. Until 31 March 2004, a 50 per cent. discount applied but now local billing authorities may choose to reduce or remove this discount. The additional council tax raised from reducing or removing the discount on long term empty homes will be taken into account in the calculation of formula grant in due course. The Government have no role in the allocation of council tax received from empty homes.

Fire Services

Mr. Hancock: To ask the Deputy Prime Minister what assessment he has made of the impact of a Public Service Comparator solution to the Ministry of Defence Airfield Support Services Project on the commercial viability of the Fire Service College at Moreton in Marsh; and if he will make a statement. [167252]

Phil Hope: The Fire Service College is a service provider for the consortia bidding for firefighter training under the Airfield Support Services Project. The college welcomes the possibility of joint working with the Ministry of Defence. It has made provision in its business plan to do so but the College's planning remains flexible.

Green Minister

Mr. Edward Davey: To ask the Deputy Prime Minister what work his Department's Green Minister has undertaken in that capacity in the last three months. [165649]

Phil Hope: As the Office of the Deputy Prime Minister's Green Minister I have considered issues surrounding the Sustainable Development Task Force and the Sustainable Energy Policy Network (SEPN) of which I am a member. I am also lead Minister on the Sustainable and Secure Buildings Bill.

Mr. Edward Davey: To ask the Deputy Prime Minister what meetings his Department's Green Minister has attended in that capacity in the last 12 months. [165650]

Phil Hope: As the Office of the Deputy Prime Minister's Green Minister I am a member of the Sustainable Development Task Force, the Sustainable Energy Policy Network and ENV(G). I have also attended meetings of the ad hoc Ministerial Group on Climate Change and the Sustainable Building Task Group. However, it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

Mr. Edward Davey: To ask the Deputy Prime Minister if he will list the meetings at which a representative of his Department was present regarding the delivery of sustainable development across Government, as co-ordinated by the Ministerial Sub-committee of Green Ministers. [165651]

Phil Hope: As the Office of the Deputy Prime Minister's Green Minister I am a member of the Environmental Sub-Committee, ENV (G). However it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

Gypsies/Travellers

Mr. McNamara: To ask the Deputy Prime Minister what estimate he has made of the costs to Chelmsford local authority of the eviction of Gypsies and Travellers in the last six months. [164094]

Yvette Cooper: No estimate has been made by the Office of the Deputy Prime Minister of the costs to Chelmsford local authority of the eviction of Gypsies and Travellers in the last six months.

Homelessness

Mr. Alan Campbell: To ask the Deputy Prime Minister (1) how many people are registered as homeless in North Tyneside; [165354]

(2) what recent steps his Department has taken to tackle homelessness in North Tyneside. [165363]

Yvette Cooper: Information on homelessness collected by the Office of the Deputy Prime Minister is in respect of applicant households, rather than persons. In the 12 months to the end of September 2003—the most recent period for which the authority provided information—North Tyneside reported 1,066 households accepted as eligible, unintentionally homeless and in priority need. As at 30 September 2003, 69 households were in temporary accommodation provided by the authority. Of these, 24 were housed pending completion of inquiries or a review; the remaining 45, along with a further 331 classified as "homeless at home", continued to be owed a main homelessness duty.

The latest local authority Housing Investment Programme returns for spring 2003 show that North Tyneside submitted a 0–10 estimate on rough sleeping.

In the quarter to the end of September 2003, the most recent period for which the authority provided information, North Tyneside reported that 14 households were in bed and breakfast accommodation provided by the authority.

The Homelessness and Housing Support Directorate within the Office of the Deputy Prime Minister has provided North Tyneside Metropolitan District Council with funding of £79,593 in 2003–04 and allocated £92,000 for 2004–05. This funding will support the authority in their continued implementation of their homelessness strategy which they had to publish for the first time last year.

The Government's approach to tackling homelessness focuses on the problems homeless people face as well as places they live. This approach was set out in our March 2002 publication, "More than a roof".

The Office of the Deputy Prime Minister are investing significant resources into tackling homelessness—£260 million over three years (2003–04 to 2005–06)—

double previous spending plans, together with changes to housing benefit subsidies, which are helping local authorities to meet the Government's commitment that by March 2004 there should be no homeless families with children living in B&B accommodation for longer than six weeks, and to sustain low levels of rough sleeping. It will also support new approaches that help people tackle the problems that are making and keeping them homeless—helping them rebuild relationships with their family, access training or employment, overcome debt or tackle drug addiction.

Housing (Manchester)

Mr. Kaufman: To ask the Deputy Prime Minister what assessment he has made of the effect of the change in the level of council funding for housing on the residents of Manchester, Gorton since 1997. [167463]

Mr. Raynsford: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Manchester's allocations in the period 1997 to 2003–04 have risen by over 200 per cent. and have been supplemented by the announcement of £125 million to be made available to the Manchester/Salford Housing Market Renewal pathfinder project between 2003–04 and 2005–06. In addition to this welcome increase there is support through the Community Housing Task Force and Government Office for the North West to help the local authority and its tenants to choose the best strategy for long term improvement.

Local Authority Confidentiality Rules

Mr. Dhanda: To ask the Deputy Prime Minister how many local authorities had complaints upheld against them for the breach of rules on confidentiality in 2003–04. [167595]

Mr. Raynsford: Between 1 April 2003 and 31 March 2004 ethical standards officers of the Standards Board for England completed 52 investigations (in respect of 34 authorities) relating to allegations of failure to comply with paragraph 3*(a)* of the code of conduct for local authority members. This provision requires that the member must not disclose information given to him in confidence or which he believes is of a confidential nature without the consent of a person authorised to give it, or unless he is required to do so by law. Of the total number of investigations, 11 were referred for decisions on action either by the Adjudication Panel for England or the standards committee of the relevant authority. Sanctions were imposed in five of the cases, and in two cases it was decided that there was no failure to comply with the code. Decisions on the other four cases are still to be taken.

Local Government Finance

Mr. Clifton-Brown: To ask the Deputy Prime Minister which authorities receive area cost adjustment; on what basis it is calculated; how much each receives; and what plans he has to review it. [166926]

Mr. Raynsford: The area cost adjustment is the element of the funding formula which directs extra resources to local authorities with higher wage and rates costs. The Office of the Deputy Prime Minister calculates an area cost adjustment (ACA) for every authority in England and it acts as a multiplier on formula spending share (FSS) formulae. Where local wages are low the Office of the Deputy Prime Minister raised the ACA value of that area to one, to ensure that low pay local authority areas do not lose out. Where wages and rates costs are higher, the authority receives a positive ACA top-up.

It is possible to present the FSS figures for each authority in terms of a basic amount plus top-ups, one of which is the ACA. The figures provided in the table, which have been made available in the Library of the House, detail which authorities receive an ACA top-up and how much each authority receives split by FSS sub-block. These figures are consistent with the 'Simple Presentation' guide to the funding formulae, which is available on the internet at; http://www.local.odpm.gov.uk/finance/0405/simppress/index.htm.

The Office of the Deputy Prime Minister calculates the ACA using the best available evidence on wage and business rate costs. The calculation is set out in the area cost adjustment methodology guide. This document is on the Internet at http://www.local.odpm.gov.uk/finance/0405/acamethods.pdf and can be made available in the Library of the House.

The Office of the Deputy Prime Minister announced in the 2001 white paper 'strong local leadership—quality public services' (CM5237) that following the anticipated reforms in 2003–04 the funding formulae will be frozen for at least 2004–05 and 2005–06. The Office of the Deputy Prime Minister does not intend to change the way that the ACA is calculated during this period. If it is decided that changes to the formulae should be made for 2006–07, a full consultation on options for change would take place prior to the normal settlement round for that year.

Mr. Keetch: To ask the Deputy Prime Minister whether his Department includes fire authority, police authority and parish council precepts in calculations determining the level of increase in council tax bills; and if he will make a statement. [167294]

Mr. Raynsford: The published figures for council tax bills in each billing authority area include all precepts. However, the Office of the Deputy Prime Minister has always published figures for the level of, and increase in, police and fire authorities' precepts as well as the billing authority's council tax including parish precepts and the total council tax bill payable in a billing authority's area. For 2004–05, information on levels of, and increases in, billing authority council tax with and without parish precepts, were published on 25 March and are available on the Office of the Deputy Prime Minister's website: www.local.odpm.gov.uk/finance/ctax/ctax045.htm.

Mr. Keetch: To ask the Deputy Prime Minister what the average council tax bill for a Band D property in Herefordshire was last year; what it is expected to be in the forthcoming year; what percentage change this represents; and if he will make a statement. [167295]

Mr. Raynsford: The average council tax bill for a Band D property in Herefordshire was £1,071 for 2003–04 and is £1,185 for 2004–05. This represents an increase of 10.7 per cent. if the underlying figures are rounded to the nearest penny.

Local Government Reorganisation

Ann Winterton: To ask the Deputy Prime Minister if he will make a statement on progress with stakeholders on potential arrangements for local government re-organisation. [167340]

Mr. Raynsford: As stated in the House on 10 March 2004, *Official Report*, column 1524W, the Office of the Deputy Prime Minister has established a working group to look at the practical implications of reorganisation, the first meeting of which took place on 9 March. Two sub-group meetings have also been held to discuss issues relating to continuity of functions and transfer of assets and liabilities. Meetings of sub-groups to discuss finance and staffing issues are to be held in early May.

Operation Fresco

Mr. Hancock: To ask the Deputy Prime Minister what costs of the Defence Fire Service, incurred during Operation Fresco, were charged to his office's budget. [168077]

Mr. Raynsford: The Office of the Deputy Prime Minister has agreed to meet the additional costs incurred by the Ministry of Defence in providing emergency fire cover during the firefighters pay dispute, through Operation Fresco. As at 26 March 2004, the Ministry of Defence had informed the Office of the Deputy Prime Minister that the likely total bill for this service would be in the region of £80 million. The Defence Fire Service's costs will fall within that total, but, as my right hon. Friend the Member for East Kilbride (Mr. Ingram) made clear in his answer of 23 February 2004, *Official Report*, column 8W, these could be provided only as a discrete figure at disproportionate cost.

Torbay Council

Mr. Steen: To ask the Deputy Prime Minister whether he will cap Torbay council in the year 2004–05. [167495]

Mr. Raynsford: When the Office of the Deputy Prime Minister announced the council tax increases for 2004–05 on 25 March, we confirmed that we were ready to use our targeted capping powers if necessary and that we aimed to notify any authorities which might be in line for capping by the end of April. I cannot say in advance which authorities these may be.

Traveller Pitches

Mr. Paice: To ask the Deputy Prime Minister (1) what guidance he has issued to *(a)* planning authorities and *(b)* the Planning Inspectorate regarding the number of traveller pitches which should be permitted in any specific location; [168453]

(2) what discussions he has had with representatives of gypsies and travellers regarding *(a)* the size of traveller camps and *(b)* agreed limits on the maximum number of pitches in any location. [168454]

Yvette Cooper: The Office of the Deputy Prime Minister has issued no specific guidance relating to the size of caravan sites, nor have we had discussions with Gypsies or travellers regarding the size of caravan sites. Planning Policy Guidance note 3 on housing requires local planning authorities to assess the local needs of specific groups across all tenures in their area. Development plans should wherever possible identify locations suitable for Gypsy sites and local authorities must decide planning applications in accordance with development plans unless material considerations indicate otherwise.

CABINET OFFICE

Buckingham Palace Garden Parties

Andrew Mackinlay: To ask the Minister for the Cabinet Office for what reason the nomination form for garden parties at Buckingham palace excludes Commonwealth citizens resident in the UK from being nominated; and if he will make a statement. [168814]

Mr. Alexander: Different procedures are in place for extending invitations to Commonwealth citizens. Commonwealth citizens who are either visiting or resident in the UK may apply to their respective High Commissions in London who may nominate them for an invitation.

Contingency Planning

Miss McIntosh: To ask the Minister for the Cabinet Office what recent representations he has received on funding for contingency planning. [166533]

Mr. Alexander: The Cabinet Office continues to be in discussion with representatives of local responder bodies on the funding of their civil protection work. The public consultation on the draft Civil Contingencies Bill specifically asked about funding to support the Bill. The results of the public consultation exercise were published in January 2004 and copies are available in the Library.

CONSTITUTIONAL AFFAIRS

Accountancy Services

Mr. Cousins: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte and Touche, (ii) Ernst and Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. [166089]

Mr. Leslie: From 1 January 2000 until 31 March 2004, my Department has let contracts for consultancies and other services with these accountancy firms on a number of occasions for a variety of reasons.

Our net expenditure with these companies, for the period in question, together with examples of the type of services they provided and the projects they supported are set out.

Service provider	Net spend 1 January 2004 to 31 March 2004 (£)	Examples of services provided
Deloitte and Touche	535,000	Consultancy support on the Tribunals for Users Programme and the IT Shared Services Project. Risk management training.
Ernst and Young	760,000	Consultancy support on the Courts and Tribunals Modernisation Programme. Financial advice linked with the Libra Project and the Queen Anne's Gate Project. Financial advice on major construction schemes.
KPMG	361,000	Consultancy support connected with the Unified Courts Administration Programme. Support in connection with work to develop leadership capability. Financial advice on major construction schemes.
PricewaterhouseCoopers	3,900,000	Consultancy support on the Consumer Strategy Project. Risk management advice and the provision of Interim Managers. Financial advice on major construction schemes.

This expenditure reflects the wide-ranging and fast-paced programme to modernise the Department's work, to increase efficiency, provide better customer service, and value for money for the taxpayer.

Debt Recovery

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many *(a)* state-employed bailiffs and *(b)* enforcement agents are employed by county and magistrates courts for the enforcement of debts; and how many of them have been certificated through a court procedure. [166804]

Mr. Leslie: 609 bailiffs are employed in the county courts. County court bailiffs do not require certification as this is only necessary for certificated bailiffs who, among other things, levy distress for rent under the Distress for Rent Rules 1988; this is not an activity undertaken by county court bailiffs. No other enforcement agents are employed by the county courts, and no enforcement agents are employed by the magistrates courts for the enforcement of debts.

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the bailiff firms and enforcement agencies each magistrates court uses; and what fees and charges agreement each court has in place with the relevant firms. [166805]

Mr. Leslie: Responsibility for the employment of bailiffs and other enforcement agencies in the magistrates court system lies with individual Magistrates Court Committees (MCC), of which there are 42 in England and Wales. A list of the bailiff firms or other enforcement agencies used in each MCC area is set out in the following table. Fees and charges for the employment of bailiffs and enforcement agencies is a matter for each individual MCC and is therefore commercial in confidence.

EDUCATION AND SKILLS

British National Party

Keith Vaz: To ask the Secretary of State for Education and Skills whether British National Party members have become school governors. [168286]

Mr. Miliband: The Department does not collect details of individual governor appointments or the political affiliations of governors. The British National Party is not a proscribed organisation and, therefore, its members are free to stand for election or appointment to school's governing bodies. Once elected or appointed all school governors must comply with the laws including the legislation on race discrimination. Governing bodies have a specific duty to promote equality of opportunity and to promote good relations between persons of different racial groups.

Capita

Mr. Collins: To ask the Secretary of State for Education and Skills how many schools Capita has entered as part of the Fresh Start scheme in each year since 1997; and how much funding they received for this. [167562]

Mr. Miliband: Capita has not entered any schools for the Fresh Start scheme. It is for local education authorities to propose schools for this scheme to the Department.

Child Care

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four year olds in Manchester Gorton in each of the last seven years. [167450]

Margaret Hodge: The information is not available in the form requested. Figures on the number of free nursery education places taken up by three and four year olds in Manchester local education authority area are shown in the table. The latest figures on provision for three and four year olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.aov.uk/rsaatewav/.

From April 2004, six months ahead of our original target, all three year olds in England whose parents want one, will have access to a free, part-time early education place.

Number of free nursery education places[1,2] taken up by three and four year old children in maintained nursery and primary schools and private, voluntary and independent providers Manchester Local Education Authority area 1997–2003
Position in January each year

	Three year olds	*Four year olds*
1997	3,700	6,000
1998	4,400	5,600
1999	4,200	5,500
2000	4,600	5,400
2001	4,600	5,400
2002	4,600	5,300
2003	4,600	5,200

[1] Part-time equivalent number of free nursery education places taken up by three and four year old children.

[2] A free nursery education place comprises five two and a half hour sessions of early years education per week, for thirty-three weeks of the year, usually three terms of eleven weeks.

Mr. Collins: To ask the Secretary of State for Education and Skills how many places providing wraparound care linked to early education have been provided since 2000. [167555]

Margaret Hodge: We had created, at December 2003, over 50,000 new wraparound care places linked to early education since 2001, and expect continued progress.

In addition, we have now adopted a significant new approach to encouraging the integration of early years services. Since this manifesto commitment was made, the Children's Centres initiative has been launched and is now our key contributor to the growth of integrated early learning and childcare provision. Our intention is that 43,000 new integrated places will be created in Children's Centres by 2006. By 2008 we are committed to having Children's Centres in the most disadvantaged areas in England. Our long term aim is to have a Children's Centre in every community.

Mr. Kaufman: To ask the Secretary of State for Education and Skills (1) how many child care places have been created in Manchester, Gorton since 1997; [167436]

(2) how many children in Manchester, Gorton have benefited from the National Childcare Strategy. [167453]

Margaret Hodge: The Department is unable to provide details of child care places for Manchester, Gorton. However, from April 1999 to December 2003 Manchester local authority created 6,115 new child care places helping some 11,153 children. This shows an increase in stock of child care places, taking into account turnover, of 3,629 helping some 6,772 children.

Children's Centres

Harry Cohen: To ask the Secretary of State for Education and Skills what mechanisms he will put in place to ensure that the additional £669 million to fund one children's centre in each of the country's 20 per cent. most disadvantaged wards by 2008, will be used specifically for that purpose; and if he will make a statement. [167255]

Margaret Hodge: The Chancellor announced in the Budget that the overall allocation for Sure Start would be £669 million higher in 2007–08 than in 2004–05. This additional funding will take the Sure Start allocation to £1.167 billion in 2005–06, £1.483 billion in 2006–07 and £1.567 billion in 2007–08.

This allocation is ring fenced for the full range of Sure Start activities, including the expansion of children's centres. The Chancellor announced a number of new commitments in the Budget that that will need to be met from the allocation, including increasing children's centres towards the goal of a children's centre in every community. We are committed to ensuring that these centres provide services for all children in the 20 per cent. most disadvantaged wards by 2007–08. he funding for children's centres will make up a significant part of the full Sure Start allocation and will be subject to full monitoring and financial controls.

Children's Commissioner for England

Mr. Wood: To ask the Secretary of State for Education and Skills if he will make it his policy that the Children's Commissioner for England should have powers equivalent to those of the Children's Commissioners for Northern Ireland, Scotland and Wales. [167055]

Margaret Hodge: The Government are proposing through the Children Bill that the powers of the Children's Commissioner based in England should be in keeping with his responsibilities, which are not identical to those of Commissioners elsewhere in the United Kingdom. His proposed functions will include, among other things, acting as a children's champion and advising the Secretary of State on their views and interests, helping them to achieve the outcomes that children have identified as important investigating the effectiveness of complaints procedures open to them, and reporting annually to Parliament on how well the outcomes children seek are being met.

Class Sizes

Simon Hughes: To ask the Secretary of State for Education and Skills how many children in Greater London were taught in classes of more than *(a)* 25 and *(b)* 30 in each year since 1997, broken down by local education authority. [165837]

Mr. Miliband *[holding answer 19 April 2004]:* The information requested has been placed in the House of Commons Library.

Classroom Assistants (Liverpool)

Mr. Kilfoyle: To ask the Secretary of State for Education and Skills how many classroom assistants have been employed in schools in Liverpool, Walton in each year from 1997 to 2003. [166958]

Mr. Miliband: The following table shows the full time equivalent number of teaching assistants in service in maintained schools in the Liverpool, Walton constituency in each year between 1997 and 2003, the latest year for which information is available.

Liverpool, Walton

1997	80
1998	90
1999	100
2000	120
2001	180
2002	170
2003	210

Source:
Annual Schools Census.

Criminal Records Bureau Checks

Charles Hendry: To ask the Secretary of State for Education and Skills what representations he has received on requiring people coming from abroad to work with children or young people to have checks equivalent to those carried out by the Criminal Records Bureau before they begin work. [165830]

Margaret Hodge *[holding answer 19 April 2004]:* I have received no representations on this matter.

Charles Hendry: To ask the Secretary of State for Education and Skills if he will require people coming from abroad to have Criminal Records Bureau checks before they can take up positions working with children or young people; and if he will make a statement. [165833]

Margaret Hodge *[holding answer 19 April 2004]:* The Criminal Records Bureau is not able to obtain details of a person's criminal record from overseas. A limited number of overseas convictions are recorded on the Police National Computer, but the data are not comprehensive.

My Department's guidance to employers in the education service about pre-appointment checks on teachers and other people whose work will bring them into regular contact with children draws attention to the

fact that, if a person who they intend to appoint to work with children or young people has never lived in the UK, no purpose will be served by asking them to apply for a Disclosure when they come to this country as they will neither have a criminal record in this country, nor appear on List 99 or the Protection of Children Act List.

The Bureau's Overseas Information Service provides advice to employers on the availability of criminal record information from overseas. The service currently covers 17 countries (Denmark, France, Germany, Irish Republic, Netherlands, Spain, Sweden, Poland, Canada, Jamaica, South Africa, Malaysia, Philippines, Australia, New Zealand, Italy (excluding Vatican City) and Finland). The CRB is in discussions with the 10 accession countries to the European Union and aims to provide information through the Overseas Information Service about the criminal record information available from these countries within the next few months.

Where criminal record information is not available, we recommend that employers take extra care in taking up references and carrying out other checks on a person's background.

FE Colleges

Mr. Drew: To ask the Secretary of State for Education and Skills if he will make a statement on the changes he is proposing for the funding of new buildings for further education, with specific reference to altering the match funding criteria. [168361]

Alan Johnson: All of the Department's funding for post-16 learning and skills sector capital investment is allocated to the Learning and Skills Council (LSC). The Council has sole discretion in how it chooses to allocate these funds to further education colleges. This includes decisions about the level of funding that it expects colleges to contribute to capital projects. This is an operational matter for the LSC. Mr. Haysom, the Council's Chief Executive, will write to the hon. Member on this matter. A copy of his reply will be placed in the House Library.

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills how many child care places there were in North Tyneside local education authority in each of the last seven years. [164373]

Margaret Hodge: The information requested is shown in the table.

Numbers of day care places[1] by type of provider—North Tyneside local education authority area—1997–2003
Position at 31 March each year

	1997	1998	1999	2000	2001	2002	2003
Day nurseries[2]	[3]—	600	620	770	860	[3]—	[3]—
Full day care[4]	[3]—	[3]—	[3]—	[3]—	[3]—	[3]—	1,600
Playgroups and pre-schools[2]	680	680	630	590	560	[3]—	[3]—
Sessional day care[4]	[3]—	[3]—	[3]—	[3]—	[3]—	[3]—	600
Child minders	1,540	1,430	1,300	1,300	1,100	[3]—	1,300
Out of school clubs[2]	130	200	210	190	260	[3]—	[3]—
Holiday schemes[2,5]	140	190	2,300	[6]1,500	[7]180	[3]—	[3]—
Out of school day care[4]	[3]—	[3]—	[3]—	[3]—	[3]—	[3]—	700
Crèche day care[4]	[3]—	[3]—	[3]—	[3]—	[3]—	[3]—	200

[1] Figures have been rounded to the nearest 100.
[2] Data Source: Children's Day Care Facilities.
[3] Not available.
[4] Data Source: Ofsted.
[5] From 1999, places at holiday schemes were counted once for each school holiday during the year. Prior to 1999, places were counted once only.
[6] Includes schemes which were exempt from registration.
[7] Places may have been counted once only. See footnote 5.

With the introduction of the National Day Care Standards and the transfer of responsibilities for registration and inspection to Ofsted, child care places are classified according to whether they are full day care, sessional day care, childminder, out of school day care or crèche day care places. Previously, child care places were classified according to whether they were provided by day nurseries, playgroups and pre-schools, childminders, out of school clubs or holiday schemes. Figures for 2003 are not directly comparable with figures for earlier years because they are collected on a different basis. Some playgroups and pre-schools provide full day care and some former playgroups and pre-schools have converted to day nurseries.

Statistics on the number of childcare places registered in England were published on 19 February 2004 in a report by Ofsted "Registered Childcare Providers and Places in England, 31 December 2003". The report is available on the Ofsted website, www.ofsted.gov.uk/publications.

Education Finance

Brian Cotter: To ask the Secretary of State for Education and Skills what the standard spending assessment funding was per child in *(a)* England and *(b)* the North Somerset local education authority in each year since 1997. [167530]

Mr. Miliband: There have been changes to the structure of Standard Spending Assessments and their successor from 2003–04, Education Formula Spending, which make them incomparable over time: for example, several large transfers from SSA/EFS to grant funding. Only total funding per pupil (including SSA/EFS and grants) is comparable between years. Also, for 2003–04 and 2004–05, pension transfers to EFS and the Learning and Skills Council are excluded from EFS and total funding figures to enable comparison between years.

Funding per pupil aged 3 to 19—Real terms at 2002–03 prices

£

	North Somerset			England		
	SSA/EFS	*Grants*[1]	*Total funding*	*SSA/EFS*	*Grants*[1]	*Total funding*
1997–98	2,510	110	2,620	2,720	110	2,830
1998–99	2,610	80	2,690	2,820	60	2,880
1999–2000	2,670	150	2,820	2,880	130	3,010
2000–01	2,730	290	3,020	2,950	290	3,240
2001–02	2,740	360	3,100	2,990	400	3,390
2002–03	2,580	580	3,170	2,880	610	3,490
2003–04	2,720	[2]560	[2]3,290	3,010	[2]580	3,590
2004–05	2,970	[3]—		3,280	[3]—	

[1] Grants are all revenue grants in DfES Departmental Expenditure Limits relevant to EFS pupils aged 3–19. Education maintenance allowances (EMAs) and grants not allocated at LEA level are excluded.
[2] Provisional.
[3] Not available.
Notes:
1. Per pupil figures are rounded to the nearest £10 so may not sum.
3. The pupil numbers used are those underlying the SSA/EFS settlement calculations plus Pupil Level Annual Schools Census (PLASC) 3-year-old maintained pupils and estimated 3 to 4-year-olds funded through state support maintained and other educational institutions where these are not included in the SSA pupil numbers.
4. Real terms figures based on GDP deflators as at 26 March 2004 (2002–03 prices).

Failing Schools

Mr. Pike: To ask the Secretary of State for Education and Skills how many schools in Burnley deemed to be failing since 1997 have since reached satisfactory standards. [167926]

Mr. Miliband: Three schools in Burnley have been classified by Ofsted as needing Special Measures since summer 1997 and have subsequently come out of special measures status.

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many schools in Manchester, Gorton deemed to be failing since 1997 have since reached satisfactory standards. [167447]

Mr. Miliband: Two schools in Manchester Gorton have been placed in special measures since 1997, an infant and a junior school which amalgamated in January 2001 and became one primary school. The resulting school remained in special measures until 2001. It was inspected by Ofsted in November 2003 and was found to be an effective and improving school with good teaching and rising standards.

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many schools in Preston deemed to be failing since 1997 have since reached satisfactory standards. [168127]

Mr. Miliband: Six schools in Preston have been classified by Ofsted as needing Special Measures since summer 1997 and have subsequently been restored to health. Three schools that were already in Special Measures before 1997 have been restored since.

Educational Attainment

Mr. Kaufman: To ask the Secretary of State for Education and Skills what percentage of 15 and 16-year-olds in Manchester, Gorton achieved five or more GCSEs at grades A*-C or GNVQ equivalent in each of the last seven years. [167439]

Mr. Miliband: The information requested is as follows.

Percentage of 15-year-old pupils[1] *achieving five or more grades A*-C*

Percentage

Academic year	*Manchester, Gorton parliamentary constituency*	*England*
1997	19.4	45.1
1998	26.2	46.3
1999	27.9	47.9
2000	29.8	49.2
2001	26.5	50.0
2002	34.9	51.6
2003	36.8	52.9

[1] GCSE/GNVQ results are reported as standard as the results of pupils aged 15 at the start of the academic year ie 31 August and therefore reaching the end of compulsory education at the end of the school year.

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Manchester, Gorton reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [167448]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11-year-olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics—since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The follow table shows the number and percentage of pupils in Manchester Gorton who have achieved Level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Manchester Gorton are below the national average but show significant improvements since 1997 in both English and mathematics in line with the improvements nationally.

	1997	1998	1999	2000	2001	2002	2003
English[1]	568	548	593	621	638	688	690
Mathematics[1]	526	456	584	612	628	711	659
English[2]	53	52	56	61	62	62	64
Mathematics[2]	49	43	55	60	61	64	61

[1] The number of eligible pupils for the Key Stage 2 tests varies slightly from year to year
[2] Percentage of pupils

Mr. Collins: To ask the Secretary of State for Education and Skills what percentage of pupils in England achieved grades A*-C at GCSE in *(a)* mathematics, *(b)* English and *(c)* mathematics and English in each year since 1997. [167568]

Mr. Miliband: The percentage of 15-year-old pupils achieving grades A*-C in GCSE *(a)* mathematics, *(b)* English and *(c)* mathematics and English are shown in the following table:

Percentage

	Mathematics	English	Mathematics and English
2003	51.1	60.2	42.9
2002	52.3	59.9	43.4
2001	50.8	58.6	41.9
2000	50.0	58.6	41.2
1999	48.6	57.8	39.8
1998	47.4	56.1	38.1
1997	46.8	54.8	36.8

Further Education (Cleethorpes)

Shona McIsaac: To ask the Secretary of State for Education and Skills how many people attended *(a)* university and *(b)* further education from Cleethorpes constituency in each year since 1995. [158116]

Alan Johnson: Figures are not available by constituency. The available information is given in the tables.

Number of 18-year-old applicants, domiciled in North East Lincolnshire LEA[1] accepted through UCAS to full time undergraduate HE study, 1995–2002 entry.

Academic year	North East Lincolnshire	Humberside
1995/96	—	1,663
1996/97	—	1,714
1997/98	312	—
1998/99	306	—
1999/2000	317	—
2000/01	311	—
2001/02	339	—
2002/03	312	—

[1] Prior to 1997, North East Lincolnshire was contained within Humberside LEA on the UCAS dataset, along with the City of Kingston upon Hull, North Lincolnshire and East Riding of Yorkshire.

Number of 16 and 17-year-olds in North East Lincolnshire LEA[1] participating in full-time further education from 1995/96 to 2001/02:

Academic year	16-year-olds	17-year-olds	16 and 17-year-olds
1995/96	7,300	5,200	12,500
1996/97	1,300	1,000	2,400
1997/98	1,300	1,100	2,400
1998/99	1,300	1,000	2,300
1999/2000	1,400	1,000	2,400
2000/01	1,400	1,100	2,500
2001/02	1,600	1,100	2,600

[1] Prior to 1996, North East Lincolnshire was contained within Humberside LEA along with the City of Kingston upon Hull, North Lincolnshire and East Riding of Yorkshire. Therefore, the number of 16 and 17-year-olds for the academic 1995/96 is the figure for Humberside LEA since no individual figures for the four LEAs are available.

Gloucestershire Local Education Authority

Mr. Laurence Robertson: To ask the Secretary of State for Education and Skills how much extra money in net terms is provided to the local education authority in Gloucestershire through the area cost adjustment; and if he will make a statement. [168063]

Mr. Miliband *[holding answer 23 April 2004]:* In 2004–05 Gloucestershire's Education Formula Spending Share includes provision of £5.345 million through the area cost adjustment.

GNVQs

Mr. Simmonds: To ask the Secretary of State for Education and Skills if he will make a statement on the future of intermediate and foundation GNVQs. [167873]

Mr. Miliband: The timetable for the withdrawal of the individual 6-unit (foundation and intermediate) GNVQs was published by the Qualifications and Curriculum Authority on 27 November 2003. The withdrawal is taking place in three stages from 2005 to 2007, starting with titles with extremely low numbers of candidate entries.

Graduate Employment

Phil Sawford: To ask the Secretary of State for Education and Skills how many graduates left university in each of the last five years; and how many went into full-time employment. [164470]

Alan Johnson: Information on the number of students graduating, and their first destinations, is published by the Higher Education Statistics Agency (HESA) in

"Students in Higher Education Institutions" and "First Destinations of students leaving HE institutions" respectively. The latest editions cover students graduating in 2001/02; copies of these, and editions for earlier years, are available from the House Library.

Higher Education

Huw Irranca-Davies: To ask the Secretary of State for Education and Skills what measures are in place in the proposed higher education reforms to ensure that students from *(a)* less advantaged and *(b)* other family backgrounds can attend the higher education institution of their choice. [165425]

Alan Johnson: We remain committed to fair access and believe that all those who have the potential to benefit from higher education should have the opportunity to do so. The social class gap among those entering higher education is unacceptably wide, particularly at the extremes. We are putting in place a range of measures, several of them through the HE Bill (so subject to Parliamentary approval), that support students' prospects of attending the higher education institution (HEI) of their choice.

(a) For students from less advantaged backgrounds, we will provide help in a number of ways:

by introducing a new Higher Education Grant, worth up to £1,000 a year, for new students who start courses from this September. Students with a family income of £15,200 or less will receive the full £1,000 grant, and those from families with income from £15,201 to £21,185 will qualify for a partial grant;

by proposals to raise the maximum rate of the student maintenance loan to match median student expenditure on basic living items as measured by the latest Student Income and Expenditure Survey. The biggest increase will be for those students living independently in London. The loans will continue to be means tested as now for those from higher family income backgrounds. The higher rate of maintenance loans will be available to both new students and those who entered higher education prior to 2006;

by proposals to introduce a new maintenance grant, for new students starting courses from 2006/07, of up to £2,700. This will benefit students from low income households thereby helping broaden access to higher education. We are proposing that an element of this new grant will be in substitution for the maintenance loan. In addition, students may choose to reduce the level of maintenance loan they apply for still further in the light of this new grant being made available and, in doing so, reduce their outstanding debt;

by continuing to provide additional targeted financial support for vulnerable students via higher education institutions through the Access to Learning Fund. This will ensure that more of them are able to access and remain in higher education;

by requiring any institution that wants to charge higher variable fees to give more help to poorer students, in terms of bursaries and other financial support, to do outreach work to encourage a wide range of students to apply to higher education, and to provide clear information on the financial help available to those from the poorest backgrounds. Details will be set out in an access plan, and agreed with the Director of Fair Access; by the operation, from August 2004, of the new integrated Aimhigher programme. This will help to raise young people's levels of educational attainment and aspirations. It will include supporting a range of activities that bring young people into contact with higher education institutions and their students, helping them to better appreciate what higher education involves and the likely benefits of undertaking it.

(b) For those from all family backgrounds there are a range of other measures that will help prospective students make and pursue their choice of higher education institution:

provision of support on tuition fees—from 2006, all full-time undergraduate students will be entitled to defer payment of fees until after they graduate and are earning more than £15,000. Repayments will then be made under a generously subsidised, income-contingent repayments system, with no real rate of interest;

development with the National Union of Students of a new guide which will help students understand and access the range of information available and so make more effective decisions and choices;

the availability, from 2004/05 onwards, of much more information about the quality and standards of academic provision at institutions. This will be readily accessible to applicants via a Teaching Quality Information (TQI) website, and will ensure that potential students have access to key information about institutions to inform their choice of HE institution and course.

University Research

Chris Grayling: To ask the Secretary of State for Education and Skills if he will make a statement on the level of Government funding for university-based research in each of the past 10 years. [152629]

Alan Johnson: The latest available information, shown in cash terms, is given in the table. Comparable figures for 1993/94 are not held centrally.

Research income[1] of HEIs in the UK

	£ thousand
1994/95	2,245,467
1995/96	2,356,831
1996/97	2,455,930
1997/98	2,616,607
1998/99	2,846,527
1999/2000	3,016,130
2000/01	3,277,808
2001/02	3,518,439
2002/03	3,772,504

[1] Covers income from Funding Research Grants, the Office of Science and Technology Research Grants, and Other Research Grants

Jobs (Burnley)

Mr. Pike: To ask the Secretary of State for Education and Skills how many people were employed in tourism-related jobs in Burnley on the latest date for which figures are available. [167911]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Peter Pike, dated 26 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about tourism-related jobs in Burnley.

The latest available data, from the 2002 Annual Business Inquiry, shows that the total number of jobs in tourism related industries in Burnley was 2,700. This total is obtained by

combining figures for those working in the following industries, as identified by Standard Industrial Classification 2003:

hotels

restaurants

bars

activities of travel agencies

library, archives, museums etc.

sporting activities

other recreational activities.

Learning Disabled Children

Tim Loughton: To ask the Secretary of State for Education and Skills how many learning disabled children there are in England. [165538]

Margaret Hodge: The information requested is not available centrally at present.

Information on special educational needs by type of need was collected for the first time in January 2004 and provisional data will be available at the end of April.

Available information on the number of pupils with special educational needs is given in the table.

All schools[1]: number of pupils with special educational needs—January 2003 England

	Number of pupils and percentage
Number of pupils with a statement of SEN	250,545
Percentage of pupils with a statement of SEN	3.0
Number of pupils with SEN without a statement	1,169,780
Percentage of pupils with SEN without a statement	14.0

[1] Includes maintained nursery, primary, secondary and special schools, pupil referral units, independent schools, city technology colleges, city academies and non-maintained special schools

Source:
Annual Schools' Census

Local Education Authorities

Mr. Collins: To ask the Secretary of State for Education and Skills how many local education authorities have been taken over by an improvement team in each year since 1997. [167576]

Mr. Miliband: Following agreement with the local authority in question, we have used various models of intervention to address poor performance in education services depending on the local circumstances. On the occasions where these models include the outsourcing by authorities of various education functions to another body, statutory directions have been used to enable that outsourcing to take place. Directions have been issued to the following nine local education authorities to contract out differing ranges of functions:

1999—Hackney LEA;

2000—Islington LEA;

2001—Bradford, Haringey, Leeds, Southwark, Walsall and Waltham Forest LEAs;

2002—Hackney[1], Swindon and Walsall[1] LEAs; and,

2003—Southwark[1] LEA.

[1] second directions.

Non-outsourcing solutions have frequently been adopted. They have included (sometimes in combination) the restructuring of internal management; partnerships with other local education authorities; partnership boards involving local stakeholders and members with external and independent expertise in the local education authorities' strategic decision making processes; and the establishment of predominantly private sector brokerage alongside a partnership board.

None of the interventions have resulted in a local education authority being "taken over" by an improvement team or any other body. Whatever the model adopted, the local education authority has retained overall responsibility and accountability for the quality of its education services.

Mothers with Learning Difficulties

Bob Spink: To ask the Secretary of State for Education and Skills (1) what level of IQ would as a general rule indicate that a pregnant woman, without a partner, is so severely learning disabled her child should be removed at birth for adoption; whether the support and help of the woman's parents would be a factor in the decision; and if he will make a statement; [165102]

(2) what his policy is on the care of children whose parent or parents have moderate learning difficulties; and if he will make a statement; [165103]

(3) what support is offered to mothers with learning difficulties to assist them to retain care of their children; and if he will make a statement; [165104]

(4 what *(a)* redress and *(b)* support is available to pregnant women with learning difficulties who are faced with the forced removal of their child at birth for adoption; and if he will make a statement. [165105]

Margaret Hodge: A general duty is placed on local authorities by section 17 of the Children Act 1989 to safeguard and promote the welfare of children under 18 who are in need by providing a range of services appropriate to meeting those needs.

Assessments undertaken by local authorities of children who may be in need focus on the needs of the child, the capacity of the parents and wider environmental factors, rather than solely on the characteristics of the parents. Whether or not any particular child is considered to be in need will depend upon the individual circumstances, taking all relevant factors into consideration.

The White Paper "Valuing People" (2001) recognises that "social services have a duty to safeguard the welfare of children and in some circumstances a parent with learning disabilities will not be able to meet their child's needs. However, we believe that this should not be the result of agencies not arranging for appropriate and timely support". This means that the removal of children from parents with learning difficulties should be rare, but may be necessary in particular instances.

Learning disability, whether moderate or severe, does not necessarily indicate that a person will be unable to care for their child, with adequate support where necessary. Factors such as communication skills and social functioning are also important.

Later this year there will be a conference on parenting, run by parents with learning disabilities, and supported by the Government and the learning disability voluntary organisation CHANGE.

National Childcare Strategy

Mr. Frank Field: To ask the Secretary of State for Education and Skills (1) how many children in Birkenhead have gained from the National Childcare Strategy; and if he will make a statement; [166303]

(2) how many child care places have been created in Birkenhead since 1997. [166334]

Margaret Hodge: The Department is unable to provide details of child care places for Birkenhead. However, from April 1999 to December 2003 Wirral Local Authority created 5,245 new child care places helping 9,597 children. Taking into account however, the stock of child care places in Wirral increased by 3,158 in this period.

Between 1999 and December 2003 the Government's National Childcare Strategy has helped 1.67 million children by creating 925,000 child care places nationally.

New Deal for Schools

Mr. Kaufman: To ask the Secretary of State for Education and Skills (1) how much funding each school in Manchester, Gorton has received from the New Deal for Schools; [167445]

(2) how much public funding has been spent on repairing schools in Manchester Gorton in each year since 1997. [167454]

Mr. Miliband: Table A shows the schools in the Manchester Gorton constituency that benefited from investment through the New Deal for Schools (NDS) programme, which ran between 1997–98 and 2000–01.

Since 2001 the majority of capital support has been allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level. Table B sets out the capital support made by the Department to Manchester Local Education Authority since 1997–98, in total and by programme (including all allocations through NDS mentioned in table A).

Table A: NDS allocations to schools in the Manchester Gorton constituency

£

Year	*School*	*Project details*	*Grant awarded*
1997–98	St. Peters	Urgent maintenance works	[1]928,000
	Birchfields Primary School	Improved Security	[1]1,448,000
1999–2000	Stanley Grove Primary School	Replacement of HORSA unit	275,000
	Wilbraham Primary School	Replacement of HORSA unit	350,000
	Wright Robinson Sports College	Boiler replacement	1,001,000
2000–01	Wright Robinson Sports College	Replacement of defective window frames (Phase 1)	459,200
	Whalley Range 11–18 High School	Public Private Partnership Project	1,185,862
	Whalley Range 11–18 High School	Provision of two additional classrooms and administration offices	82,344
	Gorton Mount Infant School	Upgrading of toilets	195,000
	Heald Place Primary School	Upgrading of toilets	195,000
	St. Agnes CofE Primary School	Roofing	724,400
	Wright Robinson Sports College	Various school—upgrading technology rooms	270,000

[1] For NDS 1 the £928,000 and £1,448,000 grant allocated was for Manchester local education authority (LEA) wide projects, part of which was used for building maintenance work and improved security at each of two schools in the Manchester Gorton constituency. The LEA will be able to say how much was allocated to each school.

To date we have allocated £30.3 million capital funding for 2004–05 and 2005–06.

Newcastle Children's Fund Partnership

Mr. Cousins: To ask the Secretary of State for Education and Skills if he will set out the sequence of changes in financial allocations to the Newcastle Children's Fund Partnership for 2004–05; whether the clawback of funds in the 2003–04 year has been reversed; what the outline annual planning figures are for the partnership for *(a)* 2004–05 and *(b)* 2005–06; and whether underspending in earlier years can be added to future planning totals. [161949]

Margaret Hodge: Newcastle Children's Fund has an allocation of £1,215,059 for 2004–05. This is a small reduction from the original allocation of £1,250,000. The partnership had £65,135 identified as genuine underspend in the 2003–04 mid-year review and this was reallocated by the Department. I am keen to give partnerships as much flexibility as possible within Government Accounting Rules. This means I have restored flexibility to re-profile from one quarter to the next during the year and I am allowing partnerships to carry forward end year underspend.

We are also giving partnerships more flexibility in delivering their commitment on joint working with local Youth Offending Teams to prevent crime. We have moved away from the rigid menu approach, although we are continuing to emphasise the need to focus on effective projects, such as Youth Inclusion Support Panels and Junior Youth Inclusion Panels. Where partnerships already have a strong focus on tackling antisocial behaviour and youth crime, they will be able to count those activities towards their collaborative working with Yots.

The allocation for 2005–06 will be announced by August 2004. However we recognise that partnerships are keen to get some indication of funding levels for 2005–06, in order to help them plan effectively. The Secretary of State has therefore indicated to partnerships at this stage that the budget for 2005–06 will be no less than £110 million. We hope this provides a clear framework for partnerships to plan and maintain Children's Fund activity right through to the end of 2005–06, the end of the current Spending Review period. Beyond that, the Chancellor, in his Budget statement, has signalled a commitment to the Children's Fund until 2008.

Non-Pathfinder Schools

Mr. Willis: To ask the Secretary of State for Education and Skills what additional resources will be made available to non-Pathfinder schools after 2005–06 to provide for additional staff to meet the requirement of the workload agreement. [167000]

Mr. Miliband *[holding answer 22 April 2004]:* Our approach in 2004–05 has been to ensure a rigorous analysis of average cost pressures and a guaranteed minimum level of per pupil increase that gives schools headroom above those cost pressures. The details of our approach for 2005–06 will be announced later this summer. The level of resources in school budgets after 2005–06 will be announced in due course and will take account of the spending settlement for the Department for 2006–07 to 2007–08.

However, workforce reform cannot simply be about the use of additional resources. Schools need to consider how they make best use of their existing resources, for example, by extending the role of support staff, maximising the impact of ICT and reducing reliance on expensive short term supply teachers.

Pathfinder Children's Trusts

Mrs. Brooke: To ask the Secretary of State for Education and Skills on what basis the contribution from each relevant service to each pathfinder children's trust was determined. [166545]

Margaret Hodge: The contribution of resources to a Children's Trust is a matter for local determination between the partners of the Children's Trust board. Integration of services and resources will be based on local needs and circumstances.

Pre-school Provision (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four-year-olds in Birkenhead in each of the last seven years. [166301]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four-year-olds in Wirral local education authority area are shown in the table.

Number of free nursery education places[1,2] taken up by three and four-year-old children in maintained nursery and primary schools and private, voluntary and independent providers Wirral local education authority area—1997–2003
Position in January each year

	Three-year olds	Four-year-olds
1997	1,600	3,800
1998	1,700	3,900
1999	1,700	3,900
2000	2,900	3,900
2001	3,100	4,400
2002	3,200	3,000
2003	3,200	3,500

[1] Part-time equivalent number of free nursery education places taken up by three and four-year-old children.
[2] A free nursery education place comprises five two and a half hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

The latest figures on provision for three and four-year-olds in England were published in a Statistical Bulletin "Provision for children under five years of age in England—January 2003" which is available on the Department's website www.dfes.gov.uk/rsgateway/.

We have made the commitment that by April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, will have access to a free, part-time early education place.

Primary Schools (Administrative Staff)

Mr. Wiggin: To ask the Secretary of State for Education and Skills if he will make a statement on the job evaluation schemes carried out in primary schools for administrative staff. [167980]

Mr. Miliband: Most local authorities, including Herefordshire, are party to the national agreement on pay and conditions of local government staff (commonly known as the Single Status Agreement), which was negotiated by the National Joint Council for Local Government Services in 1997. The agreement commits authorities to carrying out job evaluations. My Department does not hold information on the job evaluation schemes either nationally or in individual local authorities.

School Meals

Mr. Willis: To ask the Secretary of State for Education and Skills pursuant to his answer of 22 March 2004, *Official Report*, column 626W, on school meals, how many *(a)* primary and *(b)* secondary school pupils live more than three miles away from the school that they attend; and how many of those are eligible for free school meals. [166999]

Mr. Miliband *[holding answer 22 April 2004]:* The information requested is shown in the table.

Numbers of pupils living more than three miles[1] from the maintained primary and secondary schools[2] that they attend—January 2003

	Primary	Secondary
Number of pupils travelling more than three miles	155,187	583,446
Percentage of pupils travelling more than three miles (as percentage of all pupils)	3.7	17.8
Number of pupils eligible for free school meals travelling more than three miles	12,204	46,596
Percentage of pupils eligible for free school meals travelling more than three miles (as percentage of all FSM pupils)	1.7	9.8

[1] Distances calculated are straight line
[2] Includes middle schools as deemed
Source:
Pupil Level Annual Schools' Census

School Standards (Liverpool and Berkshire)

Mr. Kilfoyle: To ask the Secretary of State for Education and Skills what percentage of 15 and 16-year-old pupils in *(a)* Liverpool and *(b)* Berkshire achieved five or more GCSEs at Grades A*-C or GNVQ equivalent in each of the last seven years. [166961]

Mr. Miliband: The percentages of 15-year-old pupils achieving five or more grades A*-C at GCSE/GNVQ in Liverpool and Berkshire LEAs from 1997 to 2003 are shown in the following table.

Please note that since 1997 the results of pupils within the county of Berkshire have been reported under the six local education authorities which make up this county following local government re-organisation.

Percentage of 15-year-old pupils[1] achieving five or more grades A-C*

Percentage

Local education authority	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Liverpool	30.1	30.9	32.4	35.3	35.2	39.2	41.3
Berkshire	48.9	—	—	—	—	—	—
Bracknell Forest	—	45.4	45.4	46.6	49.1	45.5	49.2
Windsor and Maidenhead	—	57.2	57.9	59.2	58.8	56.4	59.8
West Berkshire	—	54.5	56.8	56.0	56.1	57.1	60.6
Reading	—	42.7	42.9	45.7	46.8	44.3	45.5
Slough	—	42.9	48.1	51.4	52.4	50.5	53.4
Wokingham	—	56.2	58.2	59.9	61.3	62.6	62.7
England	45.1	46.3	47.9	49.2	50.0	51.6	52.9

[1] GCSE/GNVQ results are reported as standard as the results of pupils aged 15 at the start of the academic year ie 31 August, and therefore reaching the end of compulsory education at the end of the school year.

Schools (Capital Funding)

Mr. Collins: To ask the Secretary of State for Education and Skills how much capital funding for schools has come from *(a)* private and *(b)* public sources in each year since 1997. [167578]

Mr. Miliband: The Government encourage capital investment from private sources, but do not hold information about total amounts. Recent government programmes which encourage such investment include the Private Finance Initiative, specialist schools, academies and Seed Challenge. This approach will continue in Building Schools for the Future. Local authorities can also secure private investment through agreements with developers.

The following table shows the Department's support for capital investment, including the Private Finance Initiative, in each year since 1997. Some other departments also provide capital support for schools.

	£ billion
1997–98	0.8
1998–99	1.1
1999–2000	1.4
2000–01	2.1
2001–02	2.2
2002–03	3.0
2003–04	3.8
2004–05[1]	4.5

[1] Budgeted allocation

Sexual Abuse

Ms Shipley: To ask the Secretary of State for Education and Skills what requirement there is on head teachers in private schools to report to the police allegations of sexual abuse of pupils by school employees. [165943]

Margaret Hodge: Proprietors of independent schools are under the same duty as governing bodies of maintained schools to safeguard and promote the welfare of their pupils. They must comply with DfES Circular 10/95, "Protecting Children from Abuse: The Role of the Education Service". This guidance includes advice about the action to take following allegations of suspected abuse of pupils by a member of staff, including referral to child protection agencies.

Sure Start

Mrs. Brooke: To ask the Secretary of State for Education and Skills what the average full cost per child care place at a children's centre operating under Sure Start is for children aged *(a)* 0 to six months, *(b)* six months to two years and *(c)* two to four years. [166464]

Margaret Hodge: The Sure Start Unit does not collect this information. However according to research undertaken by the Daycare Trust the typical weekly cost of a fulltime nursery place for a child under two ranges from £107-£169. For children over two it ranges from £103-£149. Local authorities and childcare providers will decide on fee policies locally. LAs may offer free or subsidised places to children in need.

Mrs. Brooke: To ask the Secretary of State for Education and Skills if he will estimate the full annual running costs of a typical children's centre operating under the Sure Start scheme. [166466]

Margaret Hodge: It is not possible to estimate the typical annual running costs for a children's centre. Children's centres will offer a core programme including childcare integrated with early education, health, family and parenting support. They may offer additional services depending on the needs of the community. Local authorities are being asked to work with partners to reshape existing funded services, such as health visiting. Furthermore children's centres will be developed from a variety of existing provision such as Sure Start local programmes, neighbourhood nurseries, early excellence centres, maintained nursery schools and health centres all of which have wide ranging annual budgets.

Teachers

Mr. Collins: To ask the Secretary of State for Education and Skills how many new teachers entered full-time teaching in each year since 1990. [167557]

Mr. Miliband: The following table shows the number of newly qualified teachers entering full-time service in maintained schools in England in each year from 1989–90 to 2001–02, the latest period for which information is available.

	Number
1989–90	12,700
1990–91	12,300
1991–92	12,700
1992–93	13,900
1993–94	16,700
1994–95	16,600
1995–96	16,300
1996–97	17,100
1997–98	18,000
1998–99	16,800
1999–2000	17,600
2000–01	16,900
2001–02	17,700

Source:
Database of Teacher Records.

Mr. Collins: To ask the Secretary of State for Education and Skills (1) how many registered teachers were recorded as working in a non-teaching capacity in each year since 1997; [167563]

(2) how many registered teachers worked for local education authorities in a non-teaching capacity in each year since 1997. [167564]

Mr. Miliband: This information is not collected centrally.

Mr. Collins: To ask the Secretary of State for Education and Skills how many people have qualified as *(a)* teachers and *(b)* advanced skills teachers in each year since 1997. [167577]

Mr. Miliband: The following table gives the numbers of people who successfully completed initial teacher training courses in each academic year between 1996/97 and 2001/02, the latest period for which information is available. The table excludes teachers who gained

qualified teacher status through employment based routes because the information was not available until 2001/02. In that year 2,210 teachers gained qualified teacher status by those routes.

	Number
1996/97	25,310
1997/98	24,040
1998/99	24,070
1999/2000	21,690
2000/01	22,640
2001/02	23,280

Source:
Teacher Training Agency.

The following table gives the numbers of teachers who have been successfully assessed for advanced skills teacher status in each financial year between 1998–99 and 2003–04. These assessments commenced in July 1998.

	Number
1998–99	142
1999–2000	480
2000–01	120
2001–02	865
2002–03	1,895
2003–04	1,145

Source:
Westminster Education Consultants, National Assessment Agency.

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Manchester, Gorton on the latest date for which figures are available; and what steps he is taking to reduce them. [167458]

Mr. Miliband: The information is not available in the form requested. In January 2003, there were two advertised vacancies for full-time permanent teachers in maintained schools in the Manchester local education authority area.

Mr. Pickthall: To ask the Secretary of State for Education and Skills what measures he is taking to ensure that fully-qualified teachers employed by Social Services have parity of pay and conditions with colleagues in mainstream schools. [168176]

Mr. Miliband: None. My right hon. Friend has no responsibility for the pay and conditions of service of teachers employed by Social Services.

Teaching Assistants (Manchester)

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Manchester, Gorton *(a)* in each of the last seven years and *(b)* on the latest date for which figures are available. [167459]

Mr. Miliband: The following table shows the full time equivalent number of teaching assistants in service in maintained schools in the Manchester, Gorton constituency in each year between 1997 and 2003, the latest year for which information is available.

Manchester, Gorton	*Number of assistants*
1997	150
1998	150
1999	160
2000	180
2001	260
2002	300
2003	360

Source:
Annual Schools Census.

Universal Day Care

Mr. McNamara: To ask the Secretary of State for Education and Skills what estimate he has made of the additional cost of offering universal day care for children under five. [165481]

Margaret Hodge *[holding answer 20 April 2004]:* We have made no such estimate. Child care places, including those for full day care, are offered by a wide range of providers, including private nurseries, childminders, employers, local government and community organisations. The Government make start up grants available to help potential childminders and day care providers set up in business, as well as sustainability funding to help support good quality child care provision in danger of closing in disadvantaged areas.

University Students

Mr. Sheerman: To ask the Secretary of State for Education and Skills what proportion of students attending university were from each of the lowest two social classes in each of the last 10 years. [166733]

Alan Johnson: The available information is taken from the University and Colleges Admissions Service (UCAS) and covers UK-domiciled applicants, accepted to full-time undergraduate courses. The method of calculating social class adopted for social class data for 2002 entry onwards is the National Statistics Socio-Economic Class (NS-SEC). Hence, proportions for 2002 entry and 2003 entry are not directly comparable to earlier years and have been given separately.

Proportion[1] of UK domiciled applicants, accepted through UCAS from each social class, 1994–2001 entry

	Year of entry							
Social Class	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*

University Students (EU Member States)

Mr. Sheerman: To ask the Secretary of State for Education and Skills how many undergraduate students from other EU member states have been accepted at United Kingdom universities in each of the past 10 years. [166736]

Alan Johnson: The available information is taken from the Universities and Colleges Admissions Service (UCAS) and cover EU domiciles accepted through UCAS to full-time first degree and HMD courses at UCAS member institutions in the UK. Early figures for 2004 entry show that EU applicants have risen by 14 per cent.

EU domiciles accepted through UCAS to UK institutions, 1994–2003 entry

Domicile	Year of entry 1994	1995	1996	1997	1998	1999	2000	2001	2002	2003

Urban Education Projects

Mr. Nicholas Brown: To ask the Secretary of State for Education and Skills what his policy is on Urban Education projects, with particular reference to the St. Cuthbert's Care project in Byker. [166538]

Margaret Hodge: There is no policy on Urban Education projects as such. This Department supports education initiatives in a wide range of settings and for diverse client groups, and the Children's Fund supports well over four thousand projects for children and young people. Newcastle Children's Fund Partnership has provided over £85,000 to the St. Cuthbert's Urban Education project between 2002–2004. Following a competitive application process against a range of criteria, the Partnership decided not to fund the project in 2004–05.

NORTHERN IRELAND

Academic Selection

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the alternative forms of academic selection to the 11-plus assessed by the Department of Education in the last year. [166713]

Mr. Gardiner: The Post-Primary Review Working Group considered alternative forms of academic selection but concluded that no alternative form of testing, or teacher assessment, would be any less problematical than the current arrangements; that age 11 is too early to commit pupils to particular pathways and that it is unsound to believe that the more able should follow only academic type courses.

Assembly Elections (Malpractice)

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland whether the Electoral Office has received complaints about malpractice following the latest Assembly Elections in Northern Ireland. [168300]

Mr. Spellar: The Chief Electoral Officer has received one complaint about malpractice following the Assembly Elections in November. However, it could not be fully investigated as no evidence to substantiate the complaint was provided.

Asylum Seekers

Mr. McNamara: To ask the Secretary of State for Northern Ireland (1) what plans he has to designate the Home Office under section 75 of the Northern Ireland Act 1998, with particular reference to functions in relation to asylum seekers and refugees; [165819]

(2) what plans he has to *(a)* designate Work Permits UK under section 75 of the Northern Ireland Act 1998 and *(b)* provide that the collection and reporting of statistics on work permits be subject to the public equity duty. [165820]

Mr. Spellar: The Home Secretary has advised me that in his view designation would have a serious and adverse effect on the work of his department, which includes Work Permits UK, specifically on the work of the Immigration and Nationality Directorate. For that reason I accept his view that designation of the Home Office would not be appropriate. Wherever possible the Home Office is working within the spirit of the legislation.

Autism

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what training student teachers receive on the needs of children with autistic spectrum disorders. [167722]

Mr. Gardiner: There is a comprehensive range of core competences to be covered by student teachers during their Initial Teacher Education (ITE) courses when most of a student's time is spent on school placement.

As such, special educational needs provision mainly covers the recognition of pupils' special needs and focuses on strategies to meet those needs. Current ITE provision is, nevertheless, under review with the intention of developing approaches which match, more closely, the needs of teachers entering the profession.

Cannabis

Lady Hermon: To ask the Secretary of State for Northern Ireland how many *(a)* arrests and *(b)* cautions there have been in Northern Ireland for (i) the possession of and (ii) the sale of cannabis since its reclassification. [164535]

Mr. Pearson: The Chief Constable advises me that PSNI record the number of persons arrested or cautioned for possession or supply of Class C drugs. The following table sets out these figures in respect of all Class C drugs since 29 January when cannabis was reclassified. Statistics relating to Class C drugs are not maintained by the type of drug involved and it is not therefore possible to disaggregate those relating solely to cannabis.

	Persons arrested	*Persons cautioned*
Possession of a Class C drug	94	19
Trafficking offences involving a Class C drug	33	0

Cross-Border Bodies (Salaries)

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what the salary of each chief executive of the cross border bodies was in the last financial year; when the salaries were last revised; and what the percentage increase was in each case in comparison with *(a)* the rate of inflation and *(b)* the Civil Service pay increase. [163677]

Mr. Paul Murphy: The salary of each Chief Executive of the North South Implementation Bodies and Tourism Ireland in 2002–03 is set out as follows. (There was no Chief Executive in post in the Ulster Scots Agency in post during that period.) Since bodies with headquarters in Northern Ireland operate for salary purposes on 1 April-31 March financial years, the figures given in the table are those that applied throughout the financial year in question. Those bodies with headquarters in Ireland operate on a calendar year and the figures given are those that applied with effect from 1 October 2002.

The salaries of Chief Executive Officers' (CEOs) of those bodies with headquarters in Northern Ireland were last revised with effect from 1 April 2002, while those for CEOs of bodies with headquarters in Ireland were revised with effect from 1 October 2002, except for the CEO of Foras na Gaeilge whose salary was revised on 1 February 2003. The percentage increases involved in the 2002 revisions are shown in the table. The rate of inflation in the UK in 2002–03 was 3.29 per cent., while that in Ireland in 2002 was 4.6 per cent. The Northern Ireland Civil Service base pay increase for 2002–03 was 4.38 per cent. for the Senior Civil Service and 4.8 per cent. for other grades. The Irish Civil Service pay increase with effect from 1 October 2002 was 4 per cent.

Body	*CEO salary*	*Percentage increase*
Special EU Programme Body	£66,953	4.5
Waterways Ireland	£70,725	6.3
InterTradeIreland	£57,822	4.5
FCILC—Loughs Agency	£53,511	5.1
Tourism Ireland Ltd.	€126,246	4
Foras na Gaeilge	€92,949	4
Food Safety Promotion Board	€90,651	4

Curriculum Classification

David Burnside: To ask the Secretary of State for Northern Ireland what the Department of Education's definition and criteria are for classifying curriculum subjects as *(a)* vocational and *(b)* academic in secondary schools in Northern Ireland. [166714]

Mr. Gardiner: No decisions have yet been taken on these issues, which will be considered in the context of the proposed Entitlement Framework.

Housing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the increase has been in housing executive rents in Northern Ireland over the past five years. [168297]

Mr. Spellar: The increase in Housing Executive rents in Northern Ireland over the past five years is as follows:

Increase in housing executive rents in Northern Ireland

	Percentage
2000–01	4.5
2001–02	3
2002–03	3.5
2003–04	3.25
2004–05	3

Mr. Beggs: To ask the Secretary of State for Northern Ireland what discussions he has had with the Northern Ireland housing industry regarding the possible introduction of home information packs. [168187]

Mr. Spellar: I have had no representations from the housing industry regarding the possible introduction of home information packs in Northern Ireland.

I will, however, continue to monitor developments as regards the home information pack with a view to determining whether there may be merit, at some time in the future, in introducing similar measures in Northern Ireland.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what estimate he has made of the total of unpaid housing executive house rents in Northern Ireland in each of the last five years. [168188]

Mr. Spellar: The information is not available in the format requested, however, collectable rental income and gross arrears in each of the last five years are as follows:

£ million

	Collectable rent	*Gross arrears at year end*
1999–2000	286.0	14.6
2000–01	285.5	17.4
2001–02	280.4	19.0
2002–03	273.3	18.9
2003–04	265.5	19.1

Notes:
1. Collectable Rent includes rents of dwellings, garages and district heating charges.
2. Gross arrears include overpayment of housing benefit arising from tenants failing to correctly advise of thief financial circumstances.
3. Gross arrears is a rolling figure which includes un-recovered arrears from previous years.

Invest Northern Ireland

Mr. Trimble: To ask the Secretary of State for Northern Ireland what the average financial assistance offered by Invest Northern Ireland was per job retained in each of the last five years. [159746]

Mr. Gardiner: The following table shows the number of jobs expected to be retained as a result of projects secured between 1998–99 and 2002–03, and the assistance Invest NI offered to retain those jobs. The information in the table does not reflect all job retention as a result of Invest NI activity, but is restricted to those generally larger indigenous businesses and inward investors for which information on job promotions/ retentions are available.

Assistance offered for retained jobs

Financial year	*Expected retained jobs*	*Assistance offered for expected retained jobs (£)*	*Cost per expected retained job (£)*
1998–99	2,931	17,430,392	5,947
1999–2000	1,796	14,059,950	7,828
2000–01	1,896	11,936,019	6,295
2001–02	1,711	15,351,204	8,972
2002–03	4,175	26,974,296	6,461
Grand total	12,509	85,751,861	6,855

Libya

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the quantity of arms and explosives supplied by Libya to the Provisional IRA in the last 30 years. [165221]

Mr. Pearson: This information is only available from intelligence sources. In the view of the Government it falls within the terms of Paragraph 4 of Part II (Law enforcement and legal proceedings) of the Code of Practice on Access to Government Information. Accordingly it would be inappropriate for the Government to comment.

The Independent International Commission on Decommissioning has undertaken to provide an inventory of the arms decommissioned to the two governments when its task is completed.

Motorcar/Motorcycle Racing

David Burnside: To ask the Secretary of State for Northern Ireland how much public sector money has been allocated to *(a)* motorcar racing and *(b)* motorcycle racing in each of the last five years in Northern Ireland. [167488]

Angela Smith: The amount of public sector money allocated to *(a)* motorcar racing and *(b)* motorcycle racing in each of the last five years by the Sports Council, the Northern Ireland Events Company and the Department of Enterprise, Trade and Investment is as follows:

(a) Motorcar Racing:

Public funds (includes Sports Council Exchequer, Sports Council Lottery, Northern Ireland Events Company awards and Department of Enterprise, Trade and Investment funding administered through the Northern Ireland Tourist Board).

Motorcar racing

	£
1999–2000	86,300
2000–01	14,500
2001–02	0
2002–03	28,240
2003–04	173,000
Total	302,040

(b) Motor Cycle Racing:

Public funds (includes Sports Council Exchequer, Sports Council Lottery, Northern Ireland Events Company awards and Department of Enterprise, Trade and Investment funding administered through the Northern Ireland Tourist Board).

Motor cycle racing

	£
1999–2000	9,700
2000–01	56,161
2001–02	132,100
2002–03	282,268
2003–04	320,702
Total	801,231

The following table shows the total amount of Sports Council Exchequer funding allocated to the 2 and 4 Wheel Motorsport Steering Group Ltd. in each of the

last five years. It is not possible at this time to break this funding down into separate data for motorcar racing and motorcycle racing.

Sports Council for Northern Ireland Exchequer funding allocated to the 2 and 4 Wheel Motorsport Steering Group Ltd.

	£
1999–2000	0
2000–01	0
2001–02	0
2002–03	15,000
2003–04	200,000
Total	215,000

Nitrates Directive

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has been made of the effects of the Nitrates Directive on the *(a)* pig, *(b)* poultry and *(c)* dairy industry in Northern Ireland; and if he will undertake a full consultation before the provisions are adopted. [166828]

Angela Smith: Responsibility for ensuring that Northern Ireland meets its obligations under the Nitrates Directive rests jointly with my Department and the Department of Agriculture and Rural Development. The hon. Member for Dudley and I recognise that implementation of the Nitrates Directive will have significant implications for the farming industry. However, we also recognise that agriculture is a major source of water pollution and that measures to minimise the negative impact from agriculture must be introduced if we are to meet the requirements of the Directive. Our officials have been working closely with the industry in developing our proposals for compliance. The first of these, relating to the application of an action programme under the Directive to the whole of Northern Ireland, is currently the subject of a consultation exercise launched on 14 April 2004. Two further consultation exercises, on associated action programme measures and draft regulations, are planned for May 2004 and April 2005 respectively. An Economic Appraisal on the implementation of the Directive has also been carried out.

The Department of Agriculture and Rural Development is currently consulting in parallel on a Farm Waste Management Scheme to provide capital grant support and has allocated funding of £30 million.

In addition, our officials are also committed to working with the industry to explore innovative and alternative approaches to slurry disposal which will be particularly important in the dairy, pig and poultry sectors.

Planned Maintenance Work

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the amount of planned maintenance work suspended in each education area in Northern Ireland. [166716]

Mr. Gardiner: Responsibility for maintenance work in controlled and maintained schools and other Board property rests with Education and Library Boards, while for voluntary grammar and grant-maintained integrated schools the responsibility rests with individual school authorities. Each Education and Library Board has been asked to submit a resource allocation plan for 2004–05 showing how they will allocate their total budgets and indicating the outputs that will be delivered with those budgets. The plans will include the amounts that the Boards propose to spend on maintenance this year. Before giving approval, the Department of Education will be considering the plans to make sure that they provide a clear picture of how the resources allocated to the Boards will be used and that they reflect the Government's commitment to raise educational standards in Northern Ireland.

Police Service

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland how many constables have joined the Police Service of Northern Ireland since the recent change in transfer arrangements from other police forces; how many full-time reservists have been offered the same facility to become regular constables; and what additional training would be required *(a)* for those transferring from other police services and *(b)* for full-time reservists transferring. [163713]

Mr. Pearson: Following recent changes to the transfer arrangements from other police forces, provided by Section 23 of the Police (NI) Act 2003, PSNI intend to recruit 12 officers at the rank of Detective Constable. Two of this number have already been appointed.

One officer has joined the PSNI as an experienced Police Trainee with a reduced period of training as allowed by the Police Trainee (Amendment) Regulations (Northern Ireland) 2003.

There have been no full-time reservists offered the same facility to become regular constables as the Police (NI) Act 2003 Section 23 (3)(1) specifically requires the appointment of people with 'specified policing skills' and in respect of the Police Trainee (Amendment) Regulations (Northern Ireland) 2003 the Chief Constable has deemed an experienced police trainee as a person who has successfully completed a two year probationary period in a UK police service.

The additional training provided for those transferring to the PSNI is bespoke and based upon the individuals' prior experience and training. However it is at least six weeks in duration and will include the following topics: Police and Community Relationships; Human Rights; Criminal Justice System in Northern Ireland; Northern Ireland Specific Legislation; Firearms Training and Tactical Patrolling.

Lady Hermon: To ask the Secretary of State for Northern Ireland what the total expenditure on recruitment advertising by the Police Service of Northern Ireland has been in each year since its formation; what form this advertising has taken; and if he will make a statement. [164542]

Mr. Pearson: I am advised that the spend on police support staff recruitment advertising in 2002–03 was £432,921 and for 2003–04 was £128,860.

For police trainee and part time recruitment the costs were as follows: for 2001–02 £1,135,047, for 2002–03 £440,750 and for 2003–04 £402,617.

The costs of police trainee recruitment include television production and advertising costs. Television advertisements were shown on a number of channels including Ulster Television, Channel Four and RT .

Newspaper advertisements were also printed in a diverse range of publications in the United Kingdom and Republic of Ireland.

Psychiatry Services (Prisoners)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the general psychiatry service to prisoners in the Province. [164912]

Mr. Pearson: The Prison Service has contracts with two Health and Social Services Trusts for the provision of psychiatric services. Two Consultant Forensic Psychiatrists provide a total of 12 sessions (1.2 whole-time equivalent). A Specialist Registrar on a post-graduate training programme in forensic psychiatry, partially funded by the Prison Service, supports one of the consultants. A Staff Grade psychiatric registrar supports the second consultant. In addition, a medical officer from the Department of Health, Social Services and Public Safety with a qualification in psychiatry provides two sessions a week at Maghaberry Prison.

Public Holiday Entitlement

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether he plans to abolish the public holidays on *(a)* 17 March and *(b)* 12 July in any part of the public service in Northern Ireland. [166131]

Mr. Pearson: I have no plans to change the observance of the bank holiday on 17 March and the bank and public holiday on 12 July by civil servants in the 11 Departments of the Northern Ireland Administration and the Northern Ireland Office who are located in Northern Ireland. Holidays for other public service workers are a matter for the relevant employer.

Travellers

Mr. McNamara: To ask the Secretary of State for Northern Ireland what steps he will take to ensure that legal protection of Travellers is enhanced by the EU Race Directive. [165821]

Mr. Spellar: Irish Travellers are already covered by the Race Relations (Northern Ireland) Order 1997. The amendments to this Order to give effect to the provisions of the EU Race Directive apply to Irish Travellers and came into effect on 19 July 2003 to meet the deadline for implementation.

Mr. McNamara: To ask the Secretary of State for Northern Ireland what progress has been made in *(a)* giving legal effect to and *(b)* promoting a Code of Practice to Promote Racial Equality in Housing and Accommodation under Article 45 of the Race Relations (Northern Ireland) Order 1997; and what measures he proposes to promote good relations between travellers and settled communities. [165822]

Mr. Spellar: The Equality Commission for Northern Ireland consulted on a Code of Practice on Housing in September 2001. The Government will begin the process of giving legal effect to the Code when it is submitted to it as required by the Race Relations (Northern Ireland) Order 1997.

Irish Travellers will be covered by a Race Equality Strategy for Northern Ireland, to be published later this year.

A Promoting Social Inclusion Working group was set up to recommend ways of alleviating the disadvantage faced by Travellers and the Government published its response to the recommendations of this working group on 25 February 2003. A Travellers Sub-Group is being set up within the NI Race Forum to oversee the implementation of the Government's response and have input, through the forum, into the implementation of the Race Equality Strategy.

Tree Preservation Orders

Mr. Hume: To ask the Secretary of State for Northern Ireland what the target length of time is between submissions of a request for a tree preservation order and a decision on such a request; and whether there are guidelines on keeping interested parties informed of progress. [166778]

Angela Smith: The Planning Service is responsible for processing requests for a Tree Preservation Order. There is no agreed time scale for processing such requests. These requests are processed as quickly as possible and each case is considered on its own merits. Interested parties are informed of Planning Service's decision in these cases.

PRIME MINISTER

Lyons Report

Ms Walley: To ask the Prime Minister if he will make a statement on Sir Michael Lyons' report's recommendations to set up a Cabinet committee with a lead Minister. [167959]

The Prime Minister: I will announce the arrangements for following up Sir Michael Lyons' report at the conclusion of the current Spending Review.

Phillips Review

Mr. Ben Chapman: To ask the Prime Minister if he will make a statement on progress with the Phillips Review of the honours system, and on the methodology being employed. [168850]

The Prime Minister: Sir Hayden Phillips, Permanent Secretary at the Department for Constitutional Affairs with special responsibility for the honours system on behalf of the Cabinet Secretary, is reviewing current arrangements in the honours system, examining issues of diversity and transparency.

Information has been collected from those involved in the system and views from members of the public and other interested parties have also been collected via the Cabinet Office website. Recent commentary in the press and by members of the public will be taken into account. It is hoped that Sir Hayden's review will be completed by the summer.

Chemical and Biological Weapons

Mr. Dalyell: To ask the Prime Minister what response he has given to the submission of the Royal Society on the case for a research centre to investigate the dangers from chemical and biological weapons. [168624]

The Prime Minister: We have not formally responded to the Royal Society Report. Senior Home Office scientists and the Chief Scientific Adviser to the Government have arranged to meet the Chair of the working group, Professor Herbert Huppert, shortly to discuss the group's recommendations.

The report confirms that the Government's approach to coordinating the scientific response to terrorism is the right one. We are in complete agreement on the desired outcome towards a coordinated, cross-government research programme driven by the unique requirements of civil defence. The Government have put in place the measures needed to deliver this, including a cross-government civil counter terrorism research programme led by the Home Office Chemical, Biological, Radiological and Nuclear Team.

Correspondence

Matthew Taylor: To ask the Prime Minister how many letters he has received from members of the public in each year since 1997–98. [168658]

The Prime Minister: The information is not available in the format requested.

I receive many items of correspondence including from hon. Members, the general public, various charities and private companies. In the last two years, the total number of items of correspondence has been approximately 1.1 million, an increase from approximately 500,000 in 1999, 2000 and 2001 and 300,000 in 1998.

The correspondence covers a wide range of issues and my office deals with them efficiently.

Europe

Mr. Andrew Turner: To ask the Prime Minister pursuant to his oral statement of 20 April 2004, *Official Report*, column 156, what the evidential basis is for his statement that the myths that *(a)* the EU will be renamed the United States of Europe, *(b)* the Queen will be replaced as our head of state, *(c)* Britain will be forced to join the euro, *(d)* Britain could not mount a Falklands war or an Iraq campaign without permission from Brussels, *(e)* we would lose our seat on the UN Security Council, *(f)* Brussels will seize control of our oil supplies, *(g)* Brussels will have the power to set taxes in Britain, *(h)* our foreign policy will be decided by the EU and *(i)* we will surrender control of our borders have been propagated about the proposed European constitutional treaty. [168451]

The Prime Minister: All the myths that I quoted in my statement of 20 April 2004, *Official Report*, columns 155–57 are in the public domain.

Flooding (Lewes)

Norman Baker: To ask the Prime Minister if he will visit the Lewes constituency to inspect those areas which were subject to flooding in 2000 and where no flood defence works have yet been proposed. [167799]

The Prime Minister: I have no plans to do so.

Planned expenditure by the Environment Agency on flood risk management in 2005–06 will be 80 per cent. higher than in 2000–01. This increase has and will continue to enable greater protection of communities that are vulnerable to flooding. In the case of Lewes, in at least one area, planning permission has recently been granted for this work and construction should begin this year.

G8 Summit

Alistair Burt: To ask the Prime Minister if he will make representations at the G8 summit for funds to be committed to implement the strategic framework by UNAIDS on Orphans and Vulnerable Children. [167612]

The Prime Minister: We strongly support the lead role that UNAIDS plays in co-ordinating efforts to tackle the HIV crisis, including the needs of orphans and vulnerable children. We will continue to press G8 members to play their role in tackling this crisis.

Global Warming

Norman Baker: To ask the Prime Minister whether he has accepted the advice of his Chief Scientist that global warning represents as big a threat to the world as terrorism. [167790]

The Prime Minister: Terrorism and climate change clearly pose different kinds of threats to the world. Both are an extremely high priority for this Government, and we are doing all we can to tackle each in the way that is the most appropriate.

HIV/AIDS

Alistair Burt: To ask the Prime Minister if he will call for support for children affected by HIV/AIDS to be made a priority at the G8 summit. [167611]

The Prime Minister: Tackling HIV/AIDS is a priority for the UK Government. We are concerned about the devastating impact AIDS is have in creating millions of orphans and vulnerable children. We are committed to playing our part is an effective response and this will be reflected in the new government strategy on AIDS, which will be published later this year and in raising it at the G8 summit.

Iraq

Mr. Kilfoyle: To ask the Prime Minister when the director of the CIA first advised the British Government not to use the allegation that Iraq could ready weapons of mass destruction in 45 minutes. [168617]

The Prime Minister: It has been the practice of successive Governments not to comment on intelligence matters. However, this was not an issue between the US and the UK.

Meetings

Norman Baker: To ask the Prime Minister if he will list the environmental groups he has met since 1 January 2003. [167801]

The Prime Minister: I have meetings with a wide range or organisations and individuals. As with previous Administrations it is not my practice to provide details of all such meetings.

Since January 2003, I have met a number of environmental groups and their workers, ranging from mass membership organisations to local bio-diversity and quality of life organisations.

Ministerial Visits

Norman Baker: To ask the Prime Minister if he will list the towns and cities in the UK he visited in 2003, giving in each case the purpose of the visit. [167794]

The Prime Minister: In 2003, I undertook the following official visits within the UK:

Date	*Destination*
2003	
16 January	Edinburgh
25 January	Manchester
6 February	Newcastle Darlington
12 February	Hillsborough (Northern Ireland)
13 February	Sheffield, Bradford, Wakefield, Leeds, Edinburgh Glasgow
27 February	Canterbury
28 February	Swansea
3–4 March	Hillsborough (Northern Ireland)
3 April	Aldershot and RAF Lyneham
7–8 April	Hillsborough (Northern Ireland)
11 April	Sandhurst
15 April	Glasgow and RAF Leuchers
24 April	Birmingham, Cardiff
28 April	Manchester, Dundee
9 May	Middleton St. George
7 June	Durham
3–5 July	Birmingham, Liverpool, Garsten, Broughton
30 July	Thames Gateway Ingress Park, Kent
4 September	Northampton
9 September	Brighton
18 September	Bexleyheath
27 September	Southampton/Bournemouth
23–24 October	Nottingham
6 November	Basildon
17 November	Birmingham
27–28 November	Newport, Gwent, Cardiff, Bristol
1 December	Leeds
19 December	Darlington

I have also visited various areas within London including Croydon, Southwark and St John's Wood and travel regularly to my constituency.

My visits covered a range of matters including health, education, criminal justice and visiting the families of Forces serving in the Gulf.

I travel making the most efficient and cost-effective arrangements. My travel arrangements are in accordance with the arrangements for official travel set out in Chapter 7 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers".

National Security

Llew Smith: To ask the Prime Minister what definition of national security is used by the Government. [168789]

The Prime Minister: There is no statutory definition of national security. The courts accept that the interpretation of what is national security is, within a wide margin of appreciation, a matter for the Secretary of State to determine on a case-by-case basis.

Washington Meeting

Llew Smith: To ask the Prime Minister what matters in respect of *(a)* compliance with the Nuclear Non-Proliferation Treaty and *(b)* ratification of the Kyoto Protocol on climate change were discussed during his meeting with President Bush on 16 April in Washington. [168775]

The Prime Minister: I discussed a wide range of issues with President Bush, including Iraq, the Middle East Peace Process and other international security issues. As with previous Administrations, it is not the practice of this Government to make public all the details of discussions with foreign Governments.

Yemen

Keith Vaz: To ask the Prime Minister what steps the British Government is taking to keep allies informed of developments in the fight against terrorism, with particular reference to the Yemen. [168075]

The Prime Minister: We have regular contact with our key international counter terrorism partners including the Yemeni Government.

HEALTH

Social Services Departments

Mr. Dhanda: To ask the Secretary of State for Health what steps he is taking to ensure that local authority social services departments abide by confidentiality guidelines. [167594]

Dr. Ladyman: The protection of privacy and confidentiality by local authority social services is one of the criteria taken into account in the course of the inspection and assessment of performance carried out by the Commission for Social Care Inspection.

The Department has carried out a range of activities to ensure local authority compliance with confidentiality guidelines. In 2001, the Caldicott principles and processes for the management of confidentiality and access to personal information were extended from the National Health Service into social care. At this time, councils with social services responsibilities (CSSRs) were required to appoint social care Caldicott guardians to take the lead in this within their organisations. The Department has issued guidance on confidentiality issues and is currently preparing an information governance toolkit for social care, which will include further guidance on confidentiality and information sharing.

Accident and Emergency Departments

Brian Cotter: To ask the Secretary of State for Health how many patients were admitted to the accident and emergency departments at *(a)* Weston General Hospital, *(b)* the Royal United Hospital, Bath and *(c)* the Frenchay Hospital, Bristol in each of the last five years. [167500]

Ms Rosie Winterton *[holding answer 23 April 2004]:* Information on the number of attendances at accident and emergency for each National Health Service trust is published and available at http://www.performance.doh.gov.uk/hospitalactivity.

Copies of the tables for each quarter from 2001–02 are available in the Library. Prior to this, information was published annually in Outpatient and ward attenders, England, copies of which are available in the Library.

Brian Cotter: To ask the Secretary of State for Health what funding has been made available for the accident and emergency departments at *(a)* Weston General Hospital, *(b)* the Royal United Hospital, Bath and *(c)* the Frenchay Hospital, Bristol in each of the last five years. [167501]

Ms Rosie Winterton *[holding answer 23 April 2004]:* The information requested is not held centrally.

Agency Nurses

Mr. Laws: To ask the Secretary of State for Health how much the NHS spent on agency nurses in each year from 1997–98 to 2003–04; and if he will make a statement. [156701]

Mr. Hutton: The national health service does not separately record the cost of employing agency staff. The figures shown in the table include total cost to the NHS of nurses not directly employed by NHS bodies.

Expenditure by the NHS on non-NHS nurses is shown in the table. The figures include all agency nursing staff and any other staff not directly employed by NHS trusts, primary care trusts and strategic health authorities. Information is not yet available for 2003–04.

Expenditure by the NHS on non-NHS nurses

£

	Amount
1997–98	216,338,567
1998–99	272,225,162
1999–2000	361,656,683
2000–01	435,431,882
2001–02	554,323,821
2002–03	627,889,817

Note:

2002–03 data remains provisional.

Annual Financial Returns of Strategic Health Authorities 2002–03.

Ambulance Service

Mr. Goodman: To ask the Secretary of State for Health what guidance his Department issues in relation to the maximum time which ambulances should take in transporting pregnant mothers to hospitals in emergencies. [167486]

Ms Rosie Winterton *[holding answer 22 April 2004]:* All patients requiring urgent hospital treatment should be transported to hospital without delay. There are no maximum transport times which ambulances should take in transporting pregnant mothers to hospitals in emergencies. There are, however, targets for response times. As with all emergency calls to ambulance services, guidance on response times is based on medical need.

Current ambulance response targets include:

Category A calls: Presenting conditions which may be immediately life threatening and which should be responded to within eight minutes irrespective of location in 75 per cent. of cases.

Category B calls: Presenting conditions which, though serious are not immediately life threatening and should be responded to within 14 minutes (urban) and 19 minutes (rural) in 95 per cent. of cases.

Autopsies

Mr. Sheerman: To ask the Secretary of State for Health what action his Department is taking to encourage hospitals to carry out autopsies. [166731]

Ms Rosie Winterton: The decision as to whether to request a hospital post-mortem examination is for the treating clinician and the deceased's family. However, we are aware that in the past the taking and use of organs and tissue without consent at post-mortems has damaged public and professional confidence in the hospital post-mortem examination.

We have issued new guidance to the national health service to help restore that confidence. This takes the form of a code of practice for those involved in communicating with families where a post-mortem may be necessary or desirable. It includes a revision of the consent forms required to be completed by relatives with the aim of helping families understand the procedure and enabling them to grant an informed consent to a post-mortem and the disposal of organs or tissue. This guidance is available on the Department's website at: www.dh.gov.uk/tissue Later this year we will be making available to NHS trusts a short video/DVD produced with the support of the Royal College of Pathologists that explains the reasons for, and benefits to be obtained from, a post-mortem and encouraging the consent of families to the procedure.

We are also taking positive action to change the law to secure further changes to re-establish confidence. The Human Tissue Bill, currently before Parliament, ensures that whatever is done with the human body and its parts after death within the NHS will be done only as part of a transparent process and with appropriate consent. It will also introduce penalties for organ retention without consent as additional reassurance for the integrity of the new procedures.

CFS/ME

Mrs. Iris Robinson: To ask the Secretary of State for Health (1) what evidence he has collated to indicate that CFS/ME is a neurological disorder; [166704]

(2) what has been learned from studies of the effectiveness of cognitive behavioural therapy in patients suffering CFS/ME; and if he will make a statement; [166706]

(3) what evidence he has collated of *(a)* cardiovascular and *(b)* biochemical features in ME/CFS. [166711]

Dr. Ladyman: In our present state of knowledge, chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME) remains medically unexplained with various associated risk factors, and with variable symptoms from various systems in the body, including some neurological, immunological, cardiovascular, digestive and psychological symptoms. There are many different views on what causes these symptoms, and some of them are strongly held.

In its report to the Chief Medical Officer in 2002, the independent working group on CFS/ME noted that there is no cure for CFS/ME but identified three specific strategies as potentially beneficial in modifying the illness: graded exercise, cognitive behavioural therapy, and pacing. Graded exercise focuses on gradual but progressive increases in aerobic exercise, such as walking or swimming. Cognitive behavioural therapy aims to empower patients to identify, understand, and modify their belief systems and behaviours. Pacing is an energy management strategy in which patients are encouraged to achieve an appropriate balance between rest and activity.

Conception Statistics

Mr. Amess: To ask the Secretary of State for Health how many conceptions there were in Southend-on-Sea in each year since 1997, broken down by month; and if he will make a statement. [166934]

Dr. Ladyman: The information requested is not held centrally by the Department. However, the information shown in the table has been obtained from the Office of National Statistics.

All age conceptions for residents of Southend-on-Sea by month of conception, 1997 to 2001[1]

Number

Month	*1997*	*1998*	*1999*	*2000*	*2001*[2]
January	218	226	193	229	220
February	195	179	198	197	205
March	182	205	214	213	225
April	225	184	205	224	199
May	208	234	198	208	218
June	210	196	202	215	168
July	230	232	195	167	198

Office of National Statistics.

Consultants

Bob Spink: To ask the Secretary of State for Health how many consultancy posts were filled in the last 12 months with non-British trained specialists in cases where British trained specialists had applied. [167062]

Mr. Hutton: The information is not collected by the Department.

Dr. Gibson: To ask the Secretary of State for Health when the revised good practice guidance on the appointment of consultants will be published; and if he will make a statement. [166114]

Mr. Hutton: We anticipate that the revised version of The national health service (Appointment of Consultants) Regulations good practice guidance will be released this summer. The NHS will be informed of the release of the document through entries in the human resources bulletin and the chief executive's bulletin. A copy of the guidance will be made available on the Department's website.

Delayed Hospital Discharges

Brian Cotter: To ask the Secretary of State for Health what the average delayed hospital discharge time was for *(a)* England and *(b)* the Weston Area Health NHS Trust in each year since 1997. [167532]

Dr. Ladyman: The Department does not collect data on the average length of delays. However, data is collected on length of delays, broken down into four time bands. Due to reductions in the overall number of delayed discharges and the proportion of delays which exceed 28 days, the number of people who have been delayed for over 28 days is now less than 20 per cent. of the recorded over 2,790 in September 2001 to under 550 in December 2003.

Percentages

Quarter/ year	*Delays less than 8 days*	*Delays between 8 14 days*	*Delays between 14–28 days*	*Delays more than 28 days*
2001–02				
Quarter 2	22.7	17.9	19.8	39.5
Quarter 3	24.3	16.6	19.2	39.9
Quarter 4	23.9	19.5	20.6	36.0
2002–03				
Quarter 1	26.5	18.1	20.6	34.8
Quarter 2	27.6	18.4	19.8	34.2
Quarter 3	30.0	18.8	20.5	30.7
Quarter 4	36.1	20.2	17.4	26.3
2003–04				
Quarter 1	37.6	20.0	19.2	23.3
Quarter 2	35.5	18.6	19.7	26.3
Quarter 3	49.2	18.0	15.9	17.0

Health Service Ombudsman

Ms Walley: To ask the Secretary of State for Health how many cases are being investigated by the Health Service Ombudsman; what the duration of an investigation by the Ombudsman from start to finish has been in the last five years; and what penalties are available to ensure that the Ombudsman investigates within a reasonable amount of time and ensures that hospital trusts report back within set time limits. [166693]

Ms Rosie Winterton: This is a matter for the Ombudsman, who is completely independent of the Government. The Ombudsman's remit and powers are set out the Health Service Commissioners Act 1993 as amended. Ministers have no say in the Ombudsman's decisions or investigations, nor access to the detailed information being requested.

Hip Replacements (Essex)

Bob Spink: To ask the Secretary of State for Health what the waiting times for hip replacements on the NHS are in each hospital in Essex. [167204]

Dr. Ladyman: The finished admission episodes, mean and median time waited in days for hip replacements on the national health service within NHS trusts in Essex are shown in the table.

Trust name	*Finished in-year admission episodes*	*Median waiting time in days*	*Mean waiting time in days*
Southend Hospital	458	323	296.8
Basildon and Thurrock University Hospital (Foundation) Trust	369	178	194.2
Essex Rivers Healthcare	547	183	190.3
Princess Alexandra Hospital	399	348	283.5
Mid-Essex Hospital Services	451	288	346.6

Notes:

1. A finished in-year admission is the first period of in-patient care under one consultant and within one health care provider, excluding admissions beginning before 1 April at the start of the datayear. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The main operation is the first recorded operation in the hospital episode statistics (HES) data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, e.g. time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.
3. Time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.
4. Figures have not been adjusted for shortfalls in data (i.e. the data are un-grossed).

HES, Department of Health.

Hospices

Bob Spink: To ask the Secretary of State for Health if he will make it his policy to ensure that *(a)* adult and *(b)* children's hospices receive a fixed proportion of public funding. [167229]

Dr. Ladyman: No. We believe that decisions on local health care provision should be made locally. Primary care trusts (PCTs) are responsible within the national health service for commissioning and funding services for their resident population, including palliative care. PCTs are at the centre of the local planning process, working with voluntary health care providers such as hospices for adults or children who are viewed as important players and partners in the planning, provision and development of these services. The process of discussion leading to NHS funding agreements applies equally to hospices providing support and services to children as it does for those supporting adults in need of palliative care.

Stephen Hesford: To ask the Secretary of State for Health what the current arrangements are for funding hospices; what plans there are for changes in these arrangements; and if he will make a statement. [168076]

Dr. Ladyman: The level of national health service funding provided for hospices remains a matter for local decision. There are no plans to change these arrangements.

Primary care trusts (PCTs) are responsible within the national health service for commissioning and funding services for their resident population, including palliative care. Working as part of cancer networks, PCTs should negotiate and agree with hospices the level of funding support provided for agreed levels of service.

Intermediate Care Places

Sandra Gidley: To ask the Secretary of State for Health how many *(a)* intermediate care beds and *(b)* non-residential intermediate care places there were in March; and if he will make a statement. [168645]

Dr. Ladyman: The Department is currently collecting and validating this data. It is anticipated that the information will be available at the end of May 2004.

Medical Students

Mr. Chaytor: To ask the Secretary of State for Health how many students completed their studies in medicine at each university in each of the last six years; and how many in each year chose not to continue their training at hospitals within the United Kingdom. [161482]

Mr. Hutton *[holding answer 22 March 2004]:* This information is not available in the form requested. There is no precise data on how many students do not complete undergraduate medical degree courses, nor on how many do not join the national health service medical workforce after graduating. However, apart from those overseas students who return home immediately upon graduating, we believe that virtually all graduates from English medical schools take up posts as pre-registration house officers (PRHOs) in the NHS within 18 months of graduating.

The number of students who graduated from medical schools in England in the last six years is shown in table 1.

1. Actual medical school output in England 1997–99 to 2002–03

	Total output of students					
University	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*

Responsibility for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved administrations.

Mid and South Bucks Health Community

Mr. Goodman: To ask the Secretary of State for Health what the definition is of the Mid and South Bucks Health Community; and whether this body has a statutory basis in law. [167600]

Ms Rosie Winterton *[holding answer 23 April 2004]:* The term 'Mid and South Bucks Health Community' refers to both the providers of health services and the people who use or have access to the health services in the Mid and South Buckinghamshire area.

The body does not exist in law, but, within the geographical area of Mid and South Buckinghamshire there are the following trusts:

Chiltern and South Bucks Primary Care Trust (PCT).

Wycombe PCT.

Vale of Aylesbury PCT.

Buckinghamshire Hospitals National Health Service Trust.

Buckinghamshire Mental Health NHS Trust.

Minimum Data Setting Software

Mr. Drew: To ask the Secretary of State for Health if he will make a statement on progress in the use of minimum data setting software in the care sector. [161631]

Dr. Ladyman *[holding answer 16 March 2004]*: I am not aware of any developments on minimum data setting software.

Work continues on the development of minimum data sets to support the sharing of information along care pathways and the production of comparative clinical information to enable services to monitor quality and clinical performance in each of the following national service framework areas:

Cancer

Coronary heart disease

Mental health

Older people, including single assessment, stroke, falls and dementia

Diabetes

Renal services

In relation to social services, which are not covered by the majority of the above, core information requirements for adult and elderly social services were published in August 2001. More recently the Department has published a document defining the electronic social care record.

Mr. Drew: To ask the Secretary of State for Health if he will list those local authorities which have been trialling minimum data setting software; and when they are expected to make an evaluation of its effectiveness. [161632]

Dr. Ladyman *[holding answer 16 March 2004]*: I am not aware of any nationally sponsored trials of minimum data setting software in local authorities.

Motor Neurone Disease

Bob Spink: To ask the Secretary of State for Health if he will make a statement on his plans for *(a)* research into and *(b)* treatment of motor neurone disease. [167228]

Dr. Ladyman: The Government are investing an additional £40 million in stem cell research in 2004–06, which offers enormous potential in producing new treatments for diseases such as motor neurone disease (MND).

The Government are also funding the creation of a national stem cell bank. The first of its kind in the world, it will hold all types of stem cells as a resource for researchers.

The main Government agency for research into the causes of and treatments of diseases is the Medical Research Council (MRC) which receives its funding via the Department of Trade and Industry. The MRC spent £2 million in 2002–03 on research relevant to MND and on basic work on the function of motor neurones.

We are developing a national service framework (NSF) for long-term conditions which will focus on services for people with neurological conditions such as MND.

The National Institute of Clinical Excellence (NICE) has been asked to develop a clinical guideline on appropriate methods of feeding for patients who have difficulty in swallowing, which is due to be published in 2005.

We have also commissioned NICE to develop and publish evidence-based guidance on supportive and palliative care, which was published in March 2004.

Neurosurgical Consultants

Bob Spink: To ask the Secretary of State for Health how many neurosurgical registrars are due to obtain a Certificate of Completion of Specialist Training in each six month period over the next three years. [R] [167067]

Mr. Hutton: The information requested is shown in the table.

Number of expected CCST completion dates, in six month intervals, for Neurosurgical Registrars for England—as at 31 March 2003

Date	*Expected Number*
1 April 2004 to 31 September 2004	8
1 October 2004 to 31 March 2005	6
1 April 2005 to 31 September 2005	9
1 October 2005 to 31 March 2006	8
1 April 2006 to 31 September 2006	6
1 October 2006 to 31 March 2007	5

Source:
Department of Health Planning Extract– 31 March 2003

NHS Wages

Mr. Kilfoyle: To ask the Secretary of State for Health (1) what the average wage of NHS laboratory technicians was in *(a)* 1997 and *(b)* 2003; [166950]

(2) what the average wage of NHS cleaners was in *(a)* 1997 and *(b)* 2003. [166951]

Mr. Hutton: The estimated average earnings of national health service laboratory technicians was £17,900 in 1997, increasing to £23,400 in 2003. These figures are based on the average earnings of medical laboratory scientific officers and medical laboratory assistants. Equivalent information about the pay for cleaners in the NHS cannot be separately identified from the pay of other support staff.

Sources:
NHS Staff Earnings Survey 1997 and 2002.

Paediatric Staff

Mr. Goodman: To ask the Secretary of State for Health what attempts were made by Buckinghamshire Hospitals NHS Trust to recruit paediatric staff in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [167484]

Ms Rosie Winterton *[holding answer 22 April 2004]*: The information requested is not collected centrally. In line with our policy on "Shifting the Balance of Power", responsibility for local services now rest with the local trusts.

However, I have been informed that considerable efforts have been made by Buckinghamshire Hospitals National Health Service Trust and its predecessors to recruit paediatric staff since 2001. Trusts have been

successful in attempts to recruit senior house officers (SHOs) over recent years. However, there has been no consultant recruitment in this period.

The trust is currently exploring more ways to support the service such as gaining further accredited training posts, and is also introducing a new foundation programme post at the SHO level.

Parkinson's Disease

Bob Spink: To ask the Secretary of State for Health if he will make a statement on his plans for *(a)* research into and *(b)* treatment of Parkinson's disease. [167227]

Dr. Ladyman: The Government are investing an additional £40 million in stem cell research in 2004–06, which offers enormous potential in producing new treatments for diseases such as Parkinson's.

The Government are also funding the creation of a national stem cell bank. The first of its kind in the world, it will hold all types of stem cells as a resource for researchers.

The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body that receives its grant-in-aid from the Office of Science and Technology. In 2001–02 the MRC provided more than £3 million for research relevant to Parkinson's disease.

We are developing a national service framework for long-term conditions which will focus on improving services for people with neurological conditions such as Parkinson's disease.

We have commissioned the National Institute for Clinical Excellence to prepare guidelines for the diagnosis, management and treatment of Parkinson's disease in primary and secondary care. We expect that the guidelines will be published in spring 2006.

Patient Choice Scheme

Bob Spink: To ask the Secretary of State for Health what advice he is making available to patients who have been waiting for surgical procedures on the NHS for six months or more on how they can use the Patient Choice Scheme; and if he will make a statement. [167230]

Mr. Hutton: It is the responsibility of strategic health authorities (SHAs) to ensure that local arrangements are in place for offering choice of hospital to patients waiting longer than six months for surgery. "Guidance on Choice of Hospital" was issued in July 2003. It sets out the key responsibilities for national health service organisations in delivering choice to patients waiting longer than six months. The initial contact with patients should incorporate the following:

Patients will be informed about how they will be provided with choice and the role of patient care advisors (PCAs).

PCAs will explain the offer of choice, provide the necessary information to support the patient in making their choice and make the necessary arrangements if the offer is accepted. The PCA will be able to support the patient if any problems occur.

Safeguards and security measures for confidentiality should be outlined to patients.

Private Operations

Bob Spink: To ask the Secretary of State for Health how many operations have been purchased from the private sector in the last 12 months. [164692]

Mr. Hutton: Information relating to the number of operations purchased from the private sector in the last 12 months is not available.

The number of finished consultant episodes (FCEs) that were sub-contracted or directly commissioned from non-national health service providers by the NHS during the financial year 2002–03 was reported as 60,922. This figure includes both operative and non-operative procedures and treatments, for elective and emergency admissions to hospital.

Details of the activity can be found in Appendix SRC5 of the "Payment by Results: Core Tools 2004" publication, available on the Department's website at:

http://www.dh.gov.uk/PolicyAndGuidance/OrganisationPolicy/FinanceAndPlanning/NHSReferenceCosts/fs/en

The information is also available on the CD "Payment by Results : Core Tools 2004". The CD contains unit cost information for each NHS provider in 2002–03 for designated procedures, diagnoses and treatments.

Bob Spink: To ask the Secretary of State for Health what estimate he has made of the impact of purchasing operations from the private sector on NHS waiting lists. [164694]

Mr. Hutton: The national health service has in recent years purchased surgical procedures from the independent sector under the 'Concordat' arrangement. 60,922 such procedures were purchased last year.

We recognise that the independent sector could make a greater contribution to reducing waiting times and lists for less complex diagnostic and surgical procedures, such as endoscopies, cataract treatment, hernia repairs and primary hip and knee replacements. This is why we have established the independent sector treatment centre (ISTC) programme.

Two services are already open: a cataract treatment centre at Daventry and the mobile cataract treatment service run by Netcare. Both schemes are already bringing immediate improvements to patients and cutting waiting times, but have not yet been running long enough to have a significant impact on waiting lists. When fully established, the ISTC programme will treat 250,000 patients a year from NHS waiting lists.

Sexually Transmitted Diseases

Mr. Amess: To ask the Secretary of State for Health how many sexually transmitted diseases were diagnosed in Southend-on-Sea in each year since 1997, broken down by disease; and if he will make a statement. [166913]

Dr. Ladyman: The incidences of sexually transmitted diseases for the Essex Strategic Health Authority area are shown in the table.

Reported diagnoses of select STIs by sex, KC60 statutory reporting. GUM Clinics, Essex Strategic Health Authority, 1997–2002

Diagnosis/Sex	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*

KC60 returns—Statistics provided by the policy branch within the Department of Health responsible for Sexual Health and HIV Strategy.

Surgical Instruments (Middlesbrough)

Mr. Burstow: To ask the Secretary of State for Health what action his Department has taken in response to the incident in Middlesbrough regarding quarantining of surgical instruments. [164614]

Mr. Hutton: Guidance on the re-use of surgical instruments after brain biopsy is already published, in "Transmissible spongiform encephalopathy agents: safe working and the prevention of infection". This guidance, endorsed by the Advisory Committee on Dangerous Pathogens, is available in the following location on the the Department's website: www.dh.gov.uk > Policy and guidance > Health and social care topics > CJD >CJD publications > Transmissible spongiform encephalopathy agents: Safe working and the prevention of infection

Additional guidance on the reuse of surgical instruments after brain biopsies is in preparation and will be published shortly.

Teenage Pregnancies

Sir Nicholas Winterton: To ask the Secretary of State for Health what the rate of teenage conception in the Cheshire and Merseyside Strategic Health Authority was in each of the last 10 years for which figures are available. [167394]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Sir Nicholas Winterton, dated 26 April 2004:

As National Statistician I have been asked to reply to your recent question asking what the rate of teenage pregnancy in the Cheshire and Merseyside Strategic Health Authority was in each of the last ten years for which figures are available.

For this purpose, 'teenagers' are interpreted as the under 18 age group, in line with the target set by The Government Strategy on Teenage Pregnancy. The numbers of conceptions are estimated from registrations of live and still births, and notifications of abortions. They exclude miscarriages before the 24th week of gestation.

The teenage conception rates for Cheshire and Merseyside Strategic Health Authority for 1992 to 2001, the latest year for which figures are available, are shown in the table below.

Number, rate

	Number of conceptions	*Conception rate*[1]
1992	1,916	45.2
1993	1,913	46.2
1994	1,853	44.2
1995	1,934	46.0
1996	2,143	48.3
1997	2,051	49.1
1998	2,100	47.8
1999	2,093	47.1
2000	2,027	44.1
2001[2]	1,938	41.0

[1] The rate shown represents the number of conceptions among all females aged under 18 per 1,000 females aged 15 to 17.

[2] Rate for 2001 is provisional.

Office for National Statistics

Teenage Sexual Health (Taunton Deane)

Mr. Flook: To ask the Secretary of State for Health how many *(a)* girls and *(b)* boys under 16 suffered from a sexually transmitted disease in Taunton Deane in each year since 1997. [167551]

Ms Rosie Winterton: The information requested is not collected centrally.

Mr. Flook: To ask the Secretary of State for Health how many girls under *(a)* 16 and *(b)* 17 were (i) registered as pregnant and (ii) gave birth in Taunton Deane in each year since 1997. [167552]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Adrian Flook, dated 26 April 2004:

As National Statistician I have been asked to reply to your recent question asking how many girls under *(a)* 16 and *(b)* 17 were (i) registered as pregnant and (ii) gave birth in Taunton Deane in each year since 1997. (167552)

The most recent year for which figures are available is 2001.

The table below gives figures for:

a) all conceptions, and

b) conceptions leading to maternities

for girls aged under 16 and under 17 in Taunton Deane for 1997 to 2001.

	Under 16		Under 17	
Year	Conceptions	Maternities[1]	Conceptions	Maternities[1]
1997	11	6	30	15
1998	18	7	42	15
1999	16	4	42	18
2000	18	5	40	17
2001[2]	13	7	38	17

[1] Maternities resulting in one or more live birth or stillbirth.
[2] Provisional figures.

Mr. Flook: To ask the Secretary of State for Health how many *(a)* boys and *(b)* girls under 16 have been issued with contraceptives in Taunton Deane in each year since 1997. [167553]

Ms Rosie Winterton: The information requested is not collected centrally.

Treatment of Children

Mr. Goodman: To ask the Secretary of State for Health (1) what guidance his Department issues on the treatment of children in hospital by staff not specifically trained to treat children; [167598]

(2) what guidance his Department issues on the treatment of children in hospital in facilities not specifically designated for children. [167599]

Dr. Ladyman *[holding answers 23 April 2004]:* In April 2003, the Department issued the first part of the national service framework for children relating to hospital standards. This describes essential considerations and best practice in caring for children and young people in hospital, including staff training and facilities for children. The standards are available at: http://www.paediatrics.ox.ac.uk/profile_20of_20paeds/documents/hospitalstandard.pdf.

Treatment Sector Contracts

Mr. Burstow: To ask the Secretary of State for Health (1) how many contracts for independent sector treatment centres have so far been signed in the NHS in England; [167412]

(2) what his Department's projected timetable is for introducing independent sector treatment centres into the NHS in England; [167429]

(3) how many independent sector treatment centres are in the process of construction in England. [167430]

Mr. Hutton: Four contracts for independent sector treatment centres (IS-TCs) have so far been signed for treatment centres in North Bradford, Trent and South Yorkshire, and Daventry, and for two mobile ophthalmology treatment centres operating throughout England. Of these, the IS-TC at Daventry and the mobile ophthalmology treatment centres are already treating patients. In addition, there is a IS-TC at Redwood, which is a public-private partnership between the national health service and BUPA that opened in October 2002.

A further 31 IS-TCs that are in development subject to negotiations with preferred bidders and schemes will proceed only if they provide the required level of value for money for NHS commissioners. We have appointed preferred bidders for 30 of these schemes and expect to reach contract close by the end of summer 2004 with the treatment centres becoming fully operational over the following 18 months.

In addition, the Government announced in the White Paper, "Building on the Best: Choice, Responsiveness and Equity in the NHS (December 2003)", their intention to explore ways to develop extra diagnostic services capacity in order to help reduce waiting times and facilitate choice. This will be sourced from NHS and independent sector providers.

WORK AND PENSIONS

Post Office Closures

8. **Simon Hughes:** To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of Post Office closures in Greater London on the collection and payment of pensions. [167682]

Mr. Pond: We have made no such assessment. Direct Payment still allows customers to access their money weekly at the Post Office if that is what they wish to do.

The Government are investing record amounts in the Post Office network, some £2 billion over a five-year period.

Jobcentres

10. **Sir Teddy Taylor:** To ask the Secretary of State for Work and Pensions how many persons are employed in jobcentres; and what estimate he has made of the total in 2004–05. [167686]

Jane Kennedy: Jobcentre Plus is at the cutting edge of a programme of public service investment and reform that is now starting to deliver efficiencies and improvements by releasing more people to front line employment and benefit services.

Jobcentre Plus had 62,595 people employed in these roles at the end of March this year. By the same time next year we estimate this figure will be around 61,000.

In the hon. Members' own constituency, there are over 200 people currently employed providing advice and information on training, jobs and benefits.

Over the last financial year they contributed to the success of the Essex District in helping 574 people back in to work through the New Deal and their disabled employment advisers helped 41 disabled people into work.

Corporate Manslaughter

17. **Mr. Dismore:** To ask the Secretary of State for Work and Pensions what assessment he has made of the likely impact on health and safety at work of the Government's proposed legislation on corporate manslaughter. [167693]

Jane Kennedy: I am well aware of the keen interest that exists in this House on the proposed reforms. I congratulate my hon. Friend on the work he has done in promoting this issue.

The Home Office is leading on the preparation of the draft bill on corporate manslaughter.

A Regulatory Impact Assessment, dealing with both the potential costs and benefits of change, is being prepared. This will be made available when the Government publishes their proposals for legislation.

The new legislation will have a positive impact on health and safety by bringing to account those that grossly fail to comply with existing health and safety legislation. We have, however, already made clear that the law will not create new standards in the health and safety requirements.

Following extensive consultation, the Home Office intends to publish the draft bill shortly. This will fulfil the Government's commitment given in the manifesto and in Revitalising Health and Safety.

Pensioner Poverty

18. **Jonathan Shaw:** To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of changes since 1997 on the incomes of the poorest pensioners. [167694]

Malcolm Wicks: As a result of measures we have already undertaken, including the introduction of pension credit, on average pensioner households are now £1,350 a year (£26 per week) better off, than they would have been under the 1997 system. The poorest third of pensioner households are on average, £1,750 a year (£33 per week) better off.

I am sure that the House will agree with me that this represents good progress in tackling pensioner poverty. Figures out just last month show pensioner poverty down again—with absolute low income cut by two thirds, lifting 1.8 million pensioners out of acute hardship since 1997.

Workplace Inspections

19. **Mr. Drew:** To ask the Secretary of State for Work and Pensions what the current level of workplace inspections carried out by inspectors on behalf of the Health and Safety Executive is; and if he will make a statement. [167695]

Jane Kennedy: Statistics for the last year (2003–04) are still being compiled and are not yet available. The most recent published figure is for the year 2002–03 when 84,234 preventive inspections were made by HSE Inspectors.

HSC considers inspection as one of HSE's core activities but it is not the only type of intervention that should be used. They have just published their "New Strategy for Workplace Health and Safety in Great Britain" to 2010 and beyond.

HSE intend to focus on the most effective way to reduce injuries and ill health.

The UK is one of the safest places to work and the HSE deserve credit for the part they have played in creating a safer working environment.

Work at Height Directive

20. **Alistair Burt:** To ask the Secretary of State for Work and Pensions what recent representations he has received on the draft Temporary Work at Height Directive; and if he will make a statement. [167696]

Jane Kennedy: My colleagues and I have received 47 letters regarding the temporary work at height Directive (2001/45/EC) and the proposed Work at Height Regulations since the start of the Health and Safety Commission's consultation period on the draft regulations (4 December 2003).

Falls from height are the largest cause of fatalities at work, and the second largest cause of major injuries. Because work at height is such an important issue the HSC, when implementing the Temporary Work at Height Directive, decided to consolidate this with other relevant existing legislation into a single set of goal setting regulations.

Consultation on the draft Regulations took place between 4 December 2003 and 2 April 2004, and has now ended.

Council Tax

21. **Mr. Heath:** To ask the Secretary of State for Work and Pensions how many pensioners over 70-years-old he expects to benefit from the payments to mitigate council tax increases. [167697]

Malcolm Wicks: We expect around 4.86 million households in Great Britain to benefit from this payment.

Note:

Any residence found to have four or more occupants is not included in these figures as it is assumed to be a Residential Care Nursing Home.

Source:

IAD Information Centre, Winter Fuel Payments data Winter 2002–03 100 per cent. sample.

Occupational Pensions

22. **Sue Doughty:** To ask the Secretary of State for Work and Pensions what plans he has to compensate workers who lose occupational pension rights prior to the introduction of the pension protection fund. [167698]

Malcolm Wicks: The Government are sympathetic to all those people who will not receive the pension they worked so hard to build up for their future retirement. We have been meeting some of those affected and listened to suggestions regarding assistance ahead of the Pension Protection Fund's introduction. But there are complex arguments on both sides and we are giving them serious consideration

We are currently exploring with industry representatives the basis on which we can establish firm estimates of the extent of the problem of defined benefit schemes winding-up underfunded, the numbers affected and the potential scale of losses.

Pension Rights

23. **Mr. Jim Cunningham:** To ask the Secretary of State for Work and Pensions what plans he has to protect the pension rights of workers transferred from one employer to another. [167699]

Malcolm Wicks: We are introducing measures in the Pensions Bill to protect the rights of employees with access to an occupational pension where there is a TUPE transfer.

For the first time transferred employees will be provided with an assured minimum level of pension provision by transferee employers, if they had access to an occupational pension scheme with an employer contribution pre-transfer.

Benefits

Rev. Martin Smyth: To ask the Secretary of State for Work and Pensions how many people received *(a)* sickness benefit, *(b)* incapacity benefit and *(c)* disability living allowance in (i) England and Wales and (ii) Scotland in the last three years for which figures are available. [168450]

Maria Eagle: The information is in the tables.

Recipients in England, Wales and Scotland as at 30 November each year

Thousands

	November 2001	*November 2002*	*November 2003*
Incapacity Benefit			
England	1,167.3	1,172.1	1,166.2
Scotland	189.9	187.1	185.0
Wales	138.1	137.5	134.1
Disability living allowance			
England	1,854.0	1,968.8	2,066.7
Scotland	187.5	199.4	207.9
Wales	256.5	271.0	283.6

Notes:
1. Incapacity benefit replaced sickness benefit (SB) and invalidity benefit (IVB) from 13 April 1995.
2. Figures are shown in thousands and are rounded to the nearest hundred.

Child Support Agency

David Winnick: To ask the Secretary of State for Work and Pensions if he will inquire from the Chief Executive of the Child Support Agency why the letters of 26 January, and of 24 March, from the hon. Member for Walsall, North regarding a constituent had not been located; what steps were taken arising from telephone calls to the Chief Executive's office to try and track down the two letters; why the further letter of 8 April from the hon. Member for Walsall North was received in the Chief Executive's office on 19 April; and when a substantive reply will be sent regarding the constituent's position, latest ref: PCU131435. [168380]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter from Doug Smith to Mr. David Winnick, dated 26 April 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will enquire from the Chief Executive of the Child Support Agency why the letter of 26th January, and again of 24th March, from the honourable Member for Walsall North regarding a constituent had not been located; what steps were taken arising from telephone calls to the Chief Executive's office to try and track down the two letters; why the further letter of 8th April from the honourable Member for Walsall North was received in the Chief Executive's office on the 19th; and when a substantive reply will be sent, regarding the constituent's position, latest ref: PCU131435.

I apologise for the delays in responding to these letters. A substantive response has now been provided to them.

David Winnick: To ask the Secretary of State for Work and Pensions if he will inquire from the Chief Executive of the Child Support Agency when the hon. Member for Walsall, North will receive a substantive reply to his letter of 25 February regarding a constituent, ref PCU129400; and if he will inquire for what reason there has been a delay in the reply being sent. [168381]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter from Doug Smith to Mr. David Winnick, dated 26 April 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will enquire from the Chief Executive of the Child Support Agency when the honourable Member for Walsall North will receive a substantive reply to his letter of 25th February regarding a constituent, ref: PCU129400; and if he will enquire for what reason there has been a delay in the reply being sent.

I apologise for the delay in responding to this letter. A substantive response has now been provided to it, which includes an explanation for the delay.

Mr. Weir: To ask the Secretary of State for Work and Pensions since the introduction of the new payment system in the Child Support Agency, how many cases on that system have been successfully concluded in *(a)* the UK, *(b)* Scotland and *(c)* the Angus constituency. [168652]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Michael Weir, dated 26 April 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked; since the introduction of the new payment system in the Child Support Agency, how many cases on that system have been successfully concluded in *(a)* the UK, *(b)* Scotland and *(c)* the Angus constituency.

Regular reports on the progress of child support reform are made to the House. The most recent of these covered the period to 31 March and was made on 21 April 2004. In the period from the introduction of the new arrangements to 31 March 152,560 cases had progressed to the point of calculation or closure. I am unable to indicate how many of these relate to Scotland or the Angus constituency.

Mr. Weir: To ask the Secretary of State for Work and Pensions how many Child Support Agency cases in the Angus constituency are being dealt with under *(a)* the previous and *(b)* the new assessment system. [168653]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Michael Weir, dated 26 April 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked, how many Child Support Agency cases in the Angus constituency are being dealt with under *(a)* the previous and *(b)* the new assessment system.

Around 1,100 cases relating to the Angus constituency are currently being dealt with by the Child Support Agency under the old arrangements. I do not have similar information in relation to cases being dealt with under the new arrangements.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Work and Pensions how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158163]

Maria Eagle: The available information is in the table.

DWP business unit	*GICS (a)*	*Other staff (b)*	*(i) of which are Press Officers (c)*	*(ii) of which are Special Advisers (d)*	*(iii) Others (e)*
DWP	—	2	—	2	—
Human resources	—	14	—	—	14
Communications Directorate	[1]91	124	13	—	111
The Pension Service	7	7	—	—	7
Jobcentre Plus	20	126	—	—	126
Child Support Agency	1	66	—	—	66
Appeals Service	—	4	—	—	4

[1] Includes 27 press officers.

Notes:

1. Non GICS press officers are regional press officers.
2. The combined total of national communications staff and regional/district marketing executives, who have a dedicated remit for the provision of customer service information, is 122, of whom 18 are GICS.
3. Figures include all staff working in the communications teams of DWP, Jobcentre Plus, The Pension Service, Child Support Agency, The Appeals Service and Human Resources. Their work includes: marketing (national and regional); media relations; internal communications; communication standards; customer service information; information services, i.e. the Library, Public Enquiry Office and Knowledge Management Team; Intranet; Internet; planning and finance and other support staff.
4. Also, included in the Jobcentre Plus figures there are 24 staff of whom 2 are GICS engaged solely on internal communications activity nationally across Jobcentre Plus.
5. Jobcentre Plus Regions and District Offices contain small Business Development Units (of which marketing executives are members). These have a wide-ranging remit, covering such areas as customer service standards, planning, partnership working, correspondence handling etc. as well as communications. Staff work flexibly within these units to maximise efficiency and—apart from dedicated marketing executives—it is not possible to identify the precise amount of additional staff time spent on communication issues.
6. The information in the table does not take account of staff throughout the Department who may carry out communications work as a minor or integral part of their job. This information could be provided only at disproportionate cost.

Departmental Working Groups

Mr. Goodman: To ask the Secretary of State for Work and Pensions what the aims are of the *(a)* Modern Service Working Group and *(b)* Activities for Managing Life Working Group; what funding his Department has granted to each in each year since 2001; how many people each has employed in each year since 2001; and if he will make a statement. [167416]

Maria Eagle: The Modern Service Working Group meets on a quarterly basis and is the external reference group for the Disability and Carers Service Change Programme. It provides advice and guidance to officials of the Department on the impact of modernisation initiatives on disabled customers. Membership is drawn from a range of disability organisations that represent customers with physical, mental and sensory impairment.

The Activities for Managing Life Working Group was established to enable DWP to discuss directly with organisations representing the interests of disabled people, issues surrounding an alternative means of assessing entitlement to disability living allowance. It has now ceased to meet.

All external members of both MSWG and the AML Working Group were volunteers who gave up their time freely, and no budget was set aside for this purpose. The groups were supported by the Disability and Carers Service Change Programme and neither employed staff directly. Costs were limited to incidental expenses of minimal value.

Employment

Jim Dobbin: To ask the Secretary of State for Work and Pensions if he will make a statement on the levels of long-term *(a)* adult and *(b)* youth employment in Heywood and Middleton over the last seven years. [168539]

Jane Kennedy: The UK has one of the strongest labour markets in the world. We have the highest employment and the lowest unemployment of the major industrialised countries.

Through a combination of economic stability and radical labour market reforms, more than 1.75 million more people are in work now than in 1997 and unemployment is at its lowest level for nearly 30 years.

Specific information for Heywood and Middleton is in the table.

	Number unemployed for a year or more	
	Over 25s	*18 to 24-year-olds*
1997	693	144
2004	148	12
Percentage change	-79	-92

Mr. Kaufman: To ask the Secretary of State for Work and Pensions if he will make a statement on the level of long-term *(a)* adult and *(b)* youth employment in Manchester, Gorton over the last seven years. [167347]

Jane Kennedy: The UK has one of the strongest labour markets in the world. We have the highest employment and the lowest unemployment of the major industrialised countries.

Through a combination of economic stability and radical labour market reforms, more than 1.75 million more people are in work now than in 1997 and unemployment is at its lowest level for nearly 30 years.

Specific information for Manchester, Gorton is in the table.

	1997	*2004*	*Percentage change*
Number of over-25s unemployed for a year or more	1,490	534	-64
Number of 18 to 24-year-olds unemployed for a year or more	412	37	-91

James Purnell: To ask the Secretary of State for Work and Pensions if he will make a statement on the levels of long-term *(a)* adult and *(b)* youth employment in Stalybridge and Hyde over the last seven years. [168742]

Jane Kennedy: The UK has one of the strongest labour markets in the world. We have the highest employment and the lowest unemployment of the major industrialised countries.

Through a combination of economic stability and radical labour market reforms, more than 1.75 million more people are in work now than in 1997 and unemployment is at its lowest level for nearly 30 years.

Specific information for Stalybridge and Hyde is in the table.

	1997	*2004*	*Percentage change*
Number of over-25s unemployed for a year or more	633	144	-77
Number of 18 to 24-year-olds unemployed for a year or more	102	10	-90

"Making the Market Work"

Mr. Best: To ask the Secretary of State for Work and Pensions if he will list the trade associations which replied to the making the market work initiative, referred to in the second stage report of the review of employers' liability compulsory insurance. [168660]

Jane Kennedy: 'Making the Market Work' is an initiative established and maintained by the Association of British Insurers (ABI). The Department understands from the ABI that the following trade associations have made applications for assessment under the initiative:

British Chambers Connections
British Coatings Federation
British Furniture Manufacturers
British Printing Industry Federation
British Woodworking Federation
Federation of Small Businesses
Heating and Ventilating Contractors' Association
Mastic Asphalt Council
National Federation of Roofing Contractors
Screen Printers Association

Collectively, these bodies have around 190,000 members.

Means-tested Benefits

Mr. Webb: To ask the Secretary of State for Work and Pensions what *(a)* number and *(b)* percentage of pensioners who were eligible non-recipients of (i) minimum income guarantee and (ii) council tax benefit as identified in the Income Related Benefits Estimates of Take-Up in 2001–02 research, were in receipt of (A) another means-tested benefit and (B) attendance allowance or disability living allowance. [166234]

Malcolm Wicks: The available information is tabled as follows.

Percentage of pensioner eligible non-recipients to minimum income guarantee and council tax benefit in receipt of other benefits, 2001–02

Percentage

	Proportion of eligible non-recipients in receipt of	
Pensioner eligible non-recipients of	*Other income-related benefits*	*Attendance allowance or disability living allowance*
Minimum income guarantee	41	35
Council tax benefit	6	18

Notes:

1. Results are based on the 2001–02 DWP Family Resources Survey. These may understate the true percentages since the 2001–02 Family Resources Survey understated the numbers in receipt of attendance allowance, disability living allowance and income-related benefits other than council tax benefit.
2. Estimates are based on an initial assessment of cases modelled as eligible non-recipients from the underlying microdata. Therefore, they do not take into account the possibility that a significant proportion of those appearing to be eligible non-recipients will not be true eligible non-recipients, and a significant proportion of true eligible non-recipients may not be identified. As a result, along with the effects of other data imperfections, the estimates should be interpreted with caution; and only percentage estimates can be provided.

Pensioners

Chris Ruane: To ask the Secretary of State for Work and Pensions how many pensioners benefit from *(a)* the minimum income guarantee and *(b)* free TV licences, broken down by constituency, with constituencies grouped by region. [166679]

Malcolm Wicks: Information on minimum income guarantee is not available in the form requested. Since 6 October 2003 pension credit has replaced the minimum income guarantee and the 1.8 million cases receiving minimum income guarantee prior to 6 October were automatically transferred to pension credit. Information on pension credit take-up, including by parliamentary constituency, is available in the Library.

The information requested about the number of pensioners who benefit from a free TV licence is not available in the format requested. However, people aged 75 and over are entitled to free TV licences and information on the number of households in Great Britain with at least one resident aged 75 or over, broken down by constituency with the constituencies grouped by region has been placed in the Library.

Press Officers

Mr. Laws: To ask the Secretary of State for Work and Pensions how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162834]

Maria Eagle: The Department for Work and Pensions was formed on 8 June 2001 from parts of the former Department of Social Security, the former Department for Education and Employment and the Employment Service. Information on costs for 1994 to 2001 is not held centrally and could be obtained only at disproportionate cost. At the end of March 2004, the Department employed 20 national press officers at an annual cost of £1,146,255. This included three part-time staff. A further 20 press officers worked in the regions across England, Scotland and Wales at an annual cost of £954,500.

During 2002–03 the Department employed 16 national and 13 regional press officers, at an annual cost of £1,739,935. The total for 2001–02 was 21 national press officers at an annual cost of £816,725.

Retirement Planner

Mr. Webb: To ask the Secretary of State for Work and Pensions for what reasons the launch of his Department's proposed web-based retirement planner has been delayed, from the initial target year set out in Simplicity, Security and Choice: Working and Saving for Retirement, page 42. [166246]

Malcolm Wicks: The launch of the web-based retirement planner is not delayed. The first elements—the provision of state pension forecasts in real-time—will be introduced in 2004, as set out in the Green Paper 'Simplicity, security and choice: working and saving for retirement'. As announced in February 2004 in Cm 6111, 'Simplicity, security and choice: Informed choices for working and saving', we intend to launch the web-based retirement planner in spring 2006.

Winter Fuel Allowance

Chris Ruane: To ask the Secretary of State for Work and Pensions how many pensioner households will benefit from the winter fuel allowance; and what amount of funding for winter fuel allowance will be given to each constituency in the UK, with constituencies grouped by region. [166684]

Malcolm Wicks: About 8.2 million pensioner households[1] in Great Britain are expected to receive a winter fuel payment this winter. My right hon. Friend, the Secretary of State for Northern Ireland is responsible for the Northern Ireland scheme. The value of individual payments made in each constituency so far this winter is in the table which has been placed in the Library.

[1] Estimate. Figures for households are rounded to the nearest 100,000.

Note:

Please note that the amounts for individual payments made refer only to the main payment run, i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claims had not been received by the Qualifying Week, they are heavily skewed towards men aged 60.

Written Answers to Questions

Tuesday 27 April 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Ammonium Nitrate

Linda Perham: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the regulation of the sale, storage and use of ammonium nitrate products. [165829]

Alun Michael: The potential hazards of ammonium nitrate (AN) are well-known and well-documented. The Government has already taken a number of measures to tighten controls in the general climate of heightened security, We need to balance the risks of potential misuse associated with AN against its clear and proven benefits in supporting food output in this country.

The Government has been working with the fertiliser industry to ensure the safe supply of Ammonium Nitrate (AN) fertiliser. We have endorsed Industry Guidelines which advise producers and sellers of AN fertiliser to:

sell only to known, bone fide customers, in particular those who have a credit account;

refrain from making cash sales;

ask questions to potential buyers of AN fertiliser to establish their knowledge of agriculture;

in the case of suspicious enquiries, to record and notify the police of the purchaser's name and address (verified by documentary proof such as details from a driving licence) and full details of the enquirers vehicle, including the registration number.

We are continuing our dialogue with Industry and have invited them to produce a Code of Practice to encourage direct deliveries from manufacturers to farmers to shorten supply chains and ensure better traceability, Industry will also be working closely with the National Farmers Unions to remind farmers about the safe storage and use of AN.

To supplement these voluntary measures, the Government has taken a number of steps to tighten controls on AN:

Defra has introduced regulations to control the supply of both home produced and imported AN. The regulations require AN fertiliser, with a high nitrogen content, including mixtures, to have satisfied a Detonation Resistance Test.

The Health and Safety Executive (HSE) has issued a self-help checklist to all those known to be handling or storing significant quantities of AN. The checklist has been distributed widely. It is aimed at spreading good practice and offering HSE as a source of further advice.

Additionally, HSE has lowered the notification threshold under the Notification of Installations Handling Hazardous Substances Regulations 1982 from 500 to 150 tonnes and widened the range of products to be included in the notifications. Further measures will be taken if necessary.

Mr. Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to ban the use of ammonium nitrate fertilisers for agricultural purposes. [166212]

Alun Michael: There are no current plans to ban the use of Ammonium Nitrate (AN) fertilisers. The Government have already taken a number of measures to tighten controls on AN in the general climate of heightened security We need to balance the risks and potential misuse associated with AN against its clear and proven benefits in supporting food output in this country. Further measures will be taken if necessary.

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to control the sale of ammonium nitrate; and if she will make a statement. [165836]

Alun Michael: The potential hazards of AN are well-known and well-documented. The Government has already taken a number of measures to tighten controls in the general climate of heightened security. We need to balance the risks of potential misuse associated with AN against its clear and proven benefits in supporting food output in this country.

The Government has been working with the fertiliser industry to control the supply of Ammonium Nitrate (AN) fertiliser. We have endorsed Industry Guidelines which advise producers and sellers of AN fertiliser to:

sell only to known, bone fide customers, in particular those who have a credit account;

refrain from making cash sales;

ask questions to potential buyers of AN fertiliser to establish their knowledge of agriculture;

in the case of suspicious enquiries, to record the purchaser's name and address (verified by documentary proof such as details from a driving licence) and full details of the enquirers vehicle, including the registration number.

We are continuing our dialogue with Industry and have asked them to produce a Code of Practice to encourage direct deliveries from manufacturers to farmers to shorten supply chains and ensure better traceability.

To supplement the voluntary measures, Defra introduced regulations on 1 May 2003 to control the supply of both home produced and imported AN. The regulations require AN fertiliser, with a high nitrogen content, including mixtures, to have satisfied a Detonation Resistance Test. Further measures will be taken if necessary.

Ancient Woodland

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of each county was covered by ancient woodland in *(a)* 1983, *(b)* 1993 and *(c)* 2003. [165750]

Mr. Bradshaw: An initial inventory of ancient woodland was undertaken in the 1980s. Some counties have been fully resurveyed since then, and some sites newly added or deleted. To update the inventory country-wide, English Nature has begun a 10 county pilot project using digital boundaries and aerial

photography. This pilot will be complete in June 2004. The following table provides the best data available at present.

Percentage cover of ancient woodland[1] by county from 1980s and 1990s

County[2]	*Percentage cover from:* *Original data (1981–88)*	*Most recent data (1998)*
Avon	2.4	2.3
Bedfordshire	2.1	2.1
Berkshire	4.6	4.4
Buckinghamshire	4.5	4.7
Cambridgeshire	0.8	0.8
Cheshire	0.7	0.7
Cleveland	2.5	2.4
Cornwall	1.9	1.9
Cumbria	2.3	2.3
Derbyshire	1.7	1.7
Devon	2.2	2.2
Dorset	2.9	2.9
Durham	1.7	1.7
East Sussex	10.4	10.4
Essex	2.4	2.4
Gloucestershire	6.7	6.8
Greater London	1.6	1.6
Greater Manchester	0.6	0.6
Hampshire	7.5	7.7
Hereford and Worcester	4.7	4.7
Hertfordshire	3.3	3.5
Humberside	0.2	0.2
Isle of Wight	4.1	4.1
Kent	8.0	7.9
Lancashire	0.9	0.9
Leicestershire	1.0	1.0
Lincolnshire	1.0	1.0
Merseyside	0.2	0.2
Norfolk	0.5	0.5
North Yorkshire	1.7	1.7
Northamptonshire	2.7	2.8
Northumberland	1.0	1.0
Nottinghamshire	1.0	1.0
Oxfordshire	2.9	2.9
Shropshire	2.7	2.7
Somerset	2.6	2.6
South Yorkshire	2.9	2.9
Staffordshire	2.1	2.1
Suffolk	1.1	1.1
Surrey	5.8	5.8
Tyne and Wear	2.0	2.0
Warwickshire	2.1	2.1
West Midlands	0.8	0.8
West Sussex	8.5	8.6
West Yorkshire	1.7	1.7
Wiltshire	3.7	3.7

[1] Ancient woodlands are areas that have been continually wooded since 1600. There are two types of ancient woodland—ancient semi-natural woodlands and plantations on ancient woodland sites.

[2] Post-1974 counties.

English Nature.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department carries out routine monitoring of feral cats to ascertain the incidence of TB in this population. [158009]

Mr. Bradshaw: There is no routine monitoring by Defra of feral cats to ascertain the incidence of TB in this population.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was of establishing the experimental badger research facility in Weybridge; and what the status of the unit is. [159118]

Mr. Bradshaw: The cost of establishing the badger facility was about £350,000. The facility contains a colony of animals, known to be uninfected with bovine TB, living in their natural environment.

Common Agricultural Policy

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what her most recent assessment is of the effect of the Common Agricultural Policy on the cost of the average family's weekly food purchases. [162949]

Alun Michael: The consumer cost of the CAP can be estimated by examining the difference between UK and world prices for agricultural food products. Our latest provisional estimates for 2002 show a cost of the Common Agricultural Policy to a notional family of four due to higher food prices at approximately £4 to £4.50 per week.

Common Land

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what provisions are in place to enable mistakes following the initial registration of common land to be rectified. [168651]

Alun Michael: The provisions of the Commons Registration Act 1965, and subsequent regulations which set out the detailed registration procedures, make only very limited provision for an amendment to the registers to be made to resolve minor clerical errors or omissions. Additionally, in certain cases, errors may be rectified by the High Court. The Common Land Policy Statement, published in July 2002, contains an outline proposal to make further provision in new legislation for the correction of errors. It is also intended that the scope of this provision will be wider than before. Although we hope to bring forward measures as soon as Parliamentary time permits, I can give no guarantee at this stage either about the timing of legislation, or its scope.

Departmental Expenditure (Sittingbourne and Sheppey)

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what the expenditure of her Department and its predecessors was for the constituency of Sittingbourne and Sheppey between *(a)* 1992 and 1997, *(b)* 1997 and 2001 and *(c)* 2001 and 2004. [159491]

Alun Michael: Expenditure information is not currently held by the Department on a constituency basis and could be provided only at disproportionate cost. However Defra is investigating whether it would be feasible to provide data on this basis readily in the future and if so, when it would be able to do so.

Electric Shock Dog Collars

Mrs. Helen Clark: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what statutory powers she has to ban the sale of electric shock dog collars; [163525]

(2) how many electric shock dog collars were sold in the last year for which figures are available; [163526]

(3) what representations she has received in the last three months regarding the *(a)* sale and *(b)* use of electric shock dog collars; [163527]

(4) what assessment her Department has made of the effect on a dog of the use of an electric shock dog collar. [163528]

Mr. Bradshaw: Defra is currently reviewing the legislation relating to the welfare of captive and domestic animals with the intention of introducing an Animal Welfare Bill into Parliament in the fourth legislative session. It is intended that any new legislation should include a power for the Secretary of State to prohibit or restrict the sale and use of certain devices used on animals. Any proposal to prohibit or restrict the sale and use of any device should be based on scientific evidence. As there is currently no such evidence available in respect of electronic training devices for animal, it is not currently proposed that any restrictions should be put in place.

Figures for the sale of electronic training devices for animals are not held centrally. The Department has received occasional representations from members of the public and organisations both opposed to and in support of the use of these devices.

EU Agriculture Council

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs who will represent the UK Government at the meeting of the European Agriculture Council in Luxembourg on 26 and 27 April. [167171]

Mr. Bradshaw *[holding answer 22 April 2004]:* I will be representing the UK Government.

Fisheries

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what fishing restrictions apply to vessels not registered in the UK within *(a)* three mile, *(b)* six mile and *(c)* 12 mile limits from the UK coast; and what distinction is made between non UK-registered vessels with and without an historic entitlement. [167325]

Mr. Bradshaw *[holding answer 22 April 2004]:* Only UK fishing vessels are allowed to fish in the zero to six mile zone around UK waters. Certain member states with historical catch records in UK waters can fish in the six to 12 mile zone. No distinction is made between non UK registered vessels with and without a historical entitlement. Access is granted on the basis of member states' historic fishing activities.

Food Industry Waste

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of *(a)* the additional volume of food industry waste that is disposed of in landfill, the sewage system or otherwise as a result of the ban on swill feeding and *(b)* the change this represents in terms of the risk of spread of communicable animal diseases; and if she will make a statement. [165941]

Mr. Bradshaw: The disposal of catering waste to landfill is a longstanding practice and only 1.4 per cent. of the national pig herd was swill fed. The increase in the amount of catering waste going to landfill following the ban on 93 swill users for about 82,000 pigs was therefore very small compared to the total amount of catering waste generated from the 260,000 restaurants and other catering outlets across the UK, which as a matter of course, currently goes to landfill.

It is not possible to give a definitive picture of the disposal methods for the relatively small amount of catering waste that was formerly fed to pigs but it is not considered to be ending up down sewers as has been suggested. There are day-to-day problems with blockages to drains and sewers which are dealt with by the various authorities, but the main stream of catering waste is collectable and is not in a form that can be easily disposed of down the sewer.

In common with all methods of disposing of animal by-products disposal to landfill does carry some risks to animal health. Among the measures in place to minimise such risks landfill operators work to specific conditions of their licence or permit including covering waste with inert material and maintaining a strict pest control programme.

No comparative risk assessment has been made of the risks of swill feeding and landfill when exotic diseases are absent from the national herd. However, when a disease such as foot and mouth is present, the level of virus circulating increases the risk from swill feeding.

Home Energy Efficiency Scheme

Mr. Kilfoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Liverpool, Walton have benefited from the Home Energy Efficiency Scheme. [166955]

Alun Michael: Between the launch of the scheme in June 2000 and the end of March 2004, approximately 7,290 households in Liverpool, Walton received assistance from the Scheme, which is now marketed as Warm Front.

Pesticide Voluntary Initiative

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make an evaluation of the Pesticide Voluntary Initiative. [168082]

Alun Michael: Progress with the Voluntary Initiative on pesticides is reviewed regularly and Government report their broad conclusions in the Budget and Pre-Budget Report. In Budget 2004 the Government confirmed their view that, provided the initiative is fully implemented, the Voluntary Initiative should be the most effective way of reducing the environmental impacts of pesticide use. However, to cover the potential case that the Voluntary Initiative might fail to deliver

the required environmental benefits within a reasonable timescale, the Government continue to keep the options for a tax or economic instrument under review.

Recruitment

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158187]

Alun Michael: Defra was created in June 2001 so information for Defra can only be given from that date.

Given the structure of the Human Resources function within the Department prior to 1 April 2004 the information requested is available only at disproportionate cost. From 1 April this year recruitment and selection activity will be undertaken by a central HR Resource Centre.

Recruitment procedures used to bring in staff to Defra may vary depending on several factors including the number, grades and/or locations of vacancies and any specialisms involved.

Register of Interests

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what the requirements are on officials in her Department to declare current interests; and what register of interests is kept for her departmental officials. [164711]

Alun Michael: The Civil Service Management Code sets out the requirements for civil servants declaring any conflicts of interest.

Arrangements in Defra for declaring conflicts of interest are set out in the interim Defra Staff Handbook which is derived from the Civil Service Management Code. Officials are required to inform Human Resources, via their line manager, of any conflicts of interest. Details are recorded centrally within Human Resources.

St. George's Day

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what plans her Department has to mark and celebrate St. George's Day. [167864]

Alun Michael: As a Department, Defra has made no plans to mark St. George's Day.

Swill Feeding

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the farm at Heddon View was a specialised establishment equipped for the treatment of swill; and whether there were animals there. [166755]

Mr. Bradshaw: Premises at Heddon View were approved to process catering waste into swill. There were no animals on the processing premises.

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs whether Mr. Bobby Waugh transferred swill for processing to the farm at Heddon View. [166756]

Mr. Bradshaw: Mr. Waugh transported catering waste to the farm at Heddon View for processing into swill.

Trees

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of trees *(a)* had full crowns, *(b)* had slight defoliation, *(c)* had moderate defoliation, *(d)* had severe defoliation and *(e)* were dead in the latest survey conducted on behalf of her Department into tree health in the UK, broken down by region. [165741]

Mr. Bradshaw: The latest survey was conducted jointly by the Forestry Commission and the Department for Agriculture and Rural Development in Northern Ireland between June and September 2003. The UK data, in the format reported internationally, are given in the following table:

Class	*Percentage of trees*
Not defoliated	28.8
Slightly defoliated	46.5
Moderately defoliated	23.2
Severely defoliated	0.9
Dead	0.6

The UK does not collect or analyse these data by region.

Vital Villages Programme

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the reasons why the Vital Villages Programme is being ended. [167970]

Alun Michael: The Countryside Agency established the Vital Villages Programme in 2001 in response to the Rural White Paper. It was a time-limited programme designed to demonstrate what communities could achieve. The Countryside Agency has met its three-year target to help rural communities to help themselves and demonstrate good practice.

In 2004–05 the Countryside Agency is targeting its resources on meeting all existing grant commitments under the Vital Villages programme and helping communities benefit from the funds already committed to them. It will also work to share the lessons learnt with regional and local delivery bodies.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what evaluation she has undertaken of the effectiveness of the Vital Villages programme. [167971]

Alun Michael: The Countryside Agency's Vital Villages programme has been independently monitored and evaluated over the past three years through six-monthly monitoring and annual evaluation reports. In addition, the Countryside Agency is undertaking impact evaluations of the Parish Plan and Community Service

grant schemes, with reports due by the end of September. The Rural Transport Partnership scheme has also been evaluated and a summary note will be published shortly.

The Countryside Agency has produced several publications drawing on these reports to share the successful lessons and the effectiveness of the schemes, namely:

Get your Community Moving (transport);

Great Ways to Go (transport);

Wheels to Work (transport);

Taxi Voucher Toolkit (transport);

Parish Plan Guidance for Local Authorities; and

Parish Plan Guidance for Parish Councils.

The Agency has also published various leaflets on community buildings, case studies, and good practice (all schemes).

TREASURY

Child Benefit

Mr. Frank Field: To ask the Chancellor of the Exchequer how long on average it has taken in the last 12 months for grandparents who become responsible for their grandchildren to be awarded child benefit for those grandchildren by the Child Benefit Centre once they have notified the centre of these new responsibilities. [168583]

Dawn Primarolo: The information requested is not available as we do not keep separate records for grandparents and other claimants.

Financial Ombudsman Service

Mr. Bellingham: To ask the Chancellor of the Exchequer what assessment he has made of the effects of the system of targets and bonuses in the Financial Ombudsman Service on the quality of its work. [168903]

Ruth Kelly: None. The Financial Ombudsman Service is an independent body. Responsibility for managing the work of the Financial Ombudsman Service is a matter for them.

I understand from the ombudsman service that quality assurance is embedded in the control processes of the service. Appropriate checks are made, in the first instance, at management level and the Board of the Financial Ombudsman Service receives monthly reports on service quality, timeliness and productivity. The most important quality check however lies in the ability of either party to a dispute to request that an ombudsman decide the outcome rather than consenting to the outcome proposed by an adjudicator. Only10 per cent. of cases are required to be decided by an ombudsman.

Mr. Bellingham: To ask the Chancellor of the Exchequer what representations he has received from *(a)* industry and *(b)* the public on the system of targets and bonuses in the Financial Ombudsman Service. [168901]

Ruth Kelly: None. The Financial Ombudsman Service is an independent body. The staff employed by it are not civil servants, and the arrangements for managing and paying their staff are matters for the Financial Ombudsman Service and its Board.

Mr. Bellingham: To ask the Chancellor of the Exchequer what research he has conducted into the system of targets and bonuses in the Financial Ombudsman Service. [168902]

Ruth Kelly: None. The Financial Ombudsman Service is an independent body. Responsibility for monitoring the level of service is a matter for the Financial Ombudsman Service itself.

I understand from the Financial Ombudsman Service that the Board of the Financial Ombudsman Service receives monthly reports on customer satisfaction research, and these have shown over the past 12 months overall satisfaction rates of between 75 per cent. and 88 per cent. The Financial Ombudsman Service also published in March 2004 research on what firms think about their service; the research showed that the vast majority of firms were satisfied with the fairness of decisions and with the process.

National Asset Register

Mr. Edward Davey: To ask the Chancellor of the Exchequer when he expects the next version of the National Asset Register to be published. [169114]

Ruth Kelly: The Government is considering the arrangements for publishing the next version of the National Asset Register and will make an announcement shortly.

Parliamentary Questions

Mr. Sheerman: To ask the Chancellor of the Exchequer how much, on average, it costs the Government to respond to a parliamentary question. [169139]

Ruth Kelly: As at April 2003, the average cost of answering a written parliamentary question and an oral parliamentary question was £138 and £322 respectively.

Tax Credits

Mrs. Brooke: To ask the Chancellor of the Exchequer what his forecast is of the expenditure on the childcare element of the working tax credit in 2004–05. [168366]

Dawn Primarolo: The level of childcare support provided through the childcare element of Working Tax Credit in 2003–04 is estimated to be over £700 million.

No separate forecast has been made for 2004–05.

Jim Dobbin: To ask the Chancellor of the Exchequer how many families in Heywood and Middleton have received child tax credit. [168517]

James Purnell: To ask the Chancellor of the Exchequer how many families in Stalybridge and Hyde have received child tax credit. [168765]

Dawn Primarolo: I refer my hon. Friends to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Business Taxation

Jim Dobbin: To ask the Chancellor of the Exchequer how many businesses in Heywood and Middleton have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [168518]

Dawn Primarolo: The information is not available.

James Purnell: To ask the Chancellor of the Exchequer how many businesses in Stalybridge and Hyde have benefited from the 100 per cent. tax exemption for the purchase of computers and internet equipment. [168764]

Dawn Primarolo: The requested information is not available.

Customs and Excise (Court Cases)

Mr. John Smith: To ask the Chancellor of the Exchequer how many defendants in cases brought by HM Customs and Excise have had to pay the costs of the criminal receivership of their assets when they have been acquitted where the case against them was withdrawn in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [168079]

John Healey: HM Customs and Excise do not collect the information requested centrally. However, court appointed receivers in Customs cases have identified the following 14 cases where defendants have borne the fees of a receiver in circumstances in which they were acquitted or were not convicted for any reason:

	Number
	Defendants
(a) 2001	2
(b) 2002	9
(c) 2003	3

In two of the above cases liability for the receivers' fees is disputed.

Discretionary Trusts

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what plans he has to change the rules regarding the setting-up of discretionary trusts; and if he will make a statement. [168048]

Dawn Primarolo: Setting up discretionary trusts is a matter for the would-be settlers. If they proceed, however, they may in due course have to notify the Inland Revenue for inheritance tax purposes and to pay any tax due. We have no plans to change these rules.

Employment Statistics

James Purnell: To ask the Chancellor of the Exchequer what the level of unemployment was in each year since 1997 in Stalybridge and Hyde. [168763]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. James Purnell, dated 27 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment.

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Stalybridge and Hyde Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The table below gives the annual average number of JSA claimants for the Stalybridge and Hyde constituency for each year since 1997.

Annual average number of JSA claimants for Stalybridge and Hyde constituency

	Number
1997	2,170
1998	1,826
1999	1,855
2000	1,565
2001	1,348
2002	1,294
2003	1,309

Incinerator Tax

Norman Baker: To ask the Chancellor of the Exchequer for what reason the proposed incinerator tax was not referred to in December's pre-budget report. [167759]

John Healey: The Government announced in PBR 2002 that it would commission a study into the environmental and health effects of all waste management and disposal options. It remains the Government's intention to consider the case for using economic instruments for incineration in light of this work, taking account of the views of stakeholders.

PBR 2003 noted that the first of two stages of this work was being reviewed, with the aim of publishing the complete study in the spring.

Income Tax

Jim Dobbin: To ask the Chancellor of the Exchequer how many senior citizens in Heywood and Middleton qualified for the 10 pence rate of income tax in each year since its introduction. [168516]

Dawn Primarolo: All income taxpayers benefit from the 10 pence starting rate. The Survey of Personal Incomes estimates there are about 8,000 and 9,000 state retirement pension age taxpayers in the Heywood and Middleton constituency in 2000–01 and 2001–02 respectively. Figures for 1999–2000 are currently not available.

James Purnell: To ask the Chancellor of the Exchequer how many senior citizens in Stalybridge and Hyde qualified for the 10p rate of income tax in each year since its introduction. [168766]

Dawn Primarolo: All income taxpayers benefit from the 10p starting rate. The Survey of Personal Incomes estimates there are about 3,000 state retirement pension

age taxpayers in the Stalybridge and Hyde constituency in 2001–02. A reliable answer cannot be given for 2000–01 because in the Survey of Personal Incomes the sample size of pensioners living in this constituency is relatively small compared to other constituencies. Figures for 1999–2000 are currently not available.

National Insurance Call Centres

Angus Robertson: To ask the Chancellor of the Exchequer what the location is of each of the national insurance call centres; how many people work at each; how many complaints were received concerning each one in 2003; and if he will make a statement. [168558]

Dawn Primarolo: Longbenton Contact Centre which is located at Benton Park View, Longbenton, Newcastle upon Tyne is the only Contact Centre dedicated to handling calls concerning national insurance contributions. It is the first point of contact by telephone for most unsolicited queries relating to national insurance contributions.

Presently there are 441 staff employed in Longbenton Contact Centre. In 2003, 58 complaints were received.

New Cars (LPG)

Norman Baker: To ask the Chancellor of the Exchequer for what reason the extra cost of re-engineering a new car for LPG is entered on the P11D form for company cars in a similar way to luxury items. [167731]

John Healey: The extra cost of converting a new car to run on LPG after it is first registered does not have to be entered on the P11D form for company cars.

Overseas Aid

Mr. Hancock: To ask the Chancellor of the Exchequer what plans he has to set a timetable for the UK to reach the target of spending 0.7 per cent. of gross national income on overseas aid. [166996]

John Healey: We remain committed to the UN target and will continue to make progress towards 0.7 per cent. as the fiscal climate permits. The 2004 Spending Review is an opportunity to consider plans for development spending beyond 2005–06, alongside other priorities and pressures, but at this time it is not possible to predict the outcome of the Spending Review. In his Budget 2004 speech, the Chancellor announced that this Government will not freeze or cut the international development aid budget, but rather increase it. This is part of the Government's continuing commitment to increasing development aid. By 2005–06 the UK's aid budget will have grown by 93 per cent. in real term to 0.4 per cent. the largest ever increase in UK development funding. This will be double the current (2002) G7 average of 0.2 per cent. and well above the current (2002) average of 0.23 per cent. for countries on the OECD Development Assistance Committee. As our record shows, we are serious about making progress towards 0.7 per cent.

However, there is an urgent need for additional funds now if we are to make progress on meeting the Millennium Development Goals (MDGs). The reality is that we will not raise the $50 billion needed every year to meet the MDGs unless every bilateral donor reaches 0.7 per cent. immediately. If even just two or three of the biggest bilateral donors fail to reach 0.7 per cent. now, we will fail to raise the funds required. That is why the Government has proposed an International Finance Facility (IFF) in order to deliver these resources. The IFF provides a realistic and feasible way of front-loading aid to meet the immediate need.

Correspondence

David Winnick: To ask the Chancellor of the Exchequer when he will reply to the letter from the hon. Member for Walsall, North of 15 March 2004 concerning a constituent, ref. PO3/15023/2004. [168886]

Dawn Primarolo: I have done so.

Sick Pay

Mr. Bellingham: To ask the Chancellor of the Exchequer what advice the Inland Revenue has provided in relation to the provision of statutory sick pay for temporary workers; and what the legal basis is upon which that advice has been made. [151834]

Dawn Primarolo: The Inland Revenue has published guidance on the position of temporary workers in booklet CA 30 which is also available via the internet.

Inland Revenue guidance is based on the legislative provisions surrounding the SSP scheme and specifically on Part 11 of the Social Security Contributions and Benefits Act 1992; Sections 45 and 51 of the Employment Act 2002; The Statutory Sick Pay (General) Regulations 1982; The Social Security (Categorisation of Earners) Regulations 1978 and The Fixed-term Employees (Prevention of Less Favourable Treatment) Regulations 2002.

Mr. Bellingham: To ask the Chancellor of the Exchequer what representations have been made to the Inland Revenue in relation to its advice on the provision of statutory sick pay for temporary workers. [151835]

Dawn Primarolo: The Inland Revenue have received a number of representations on this subject from both employer representative groups and from individual employers. The Inland Revenue is always happy to enter into discussions with employers over the format, content and application of published guidance.

Tax Credits (Scotland)

John Thurso: To ask the Chancellor of the Exchequer how many recipients of tax credits in Scotland have been overpaid and issued with demands for lump sum repayments by *(a)* letter and *(b)* telephone. [164607]

Dawn Primarolo: I refer the hon. Member to my answer of 3 November 2003, *Official Report*, columns 394–95W. By 29 March 2004 the Inland Revenue had sent 379 letters to claimants in Scotland, of which 67 had been followed up by a telephone call.

DEFENCE

War Pensions

Bob Spink: To ask the Secretary of State for Defence how many people were in receipt of *(a)* war pension and *(b)* war widow's pension in 1997; and how many there are in each category now. [165379]

Mr. Caplin: As at 31 March 1997, there were 264,595 war disablement pensions and 59,025 war widows pensions in payment. As at 31 December 2003, there were 205,090 war disablement pensions and 45,755 war widow/ers pensions in payment.

Apache Helicopter

Miss McIntosh: To ask the Secretary of State for Defence (1) how many Apache helicopters *(a)* are based and *(b)* will be based at AAC Dishforth; [165091]

(2) what assessment he has made of the maintenance condition of the Apache helicopters based at AAC Dishforth; [165090]

(3) what funding has been allocated for the maintenance of Apache helicopters at AAC Dishforth. [165092]

Mr. Ingram: There are currently 12 WAH-64 Apache aircraft based at Dishforth Station. A further four wil' be located at Dishforth within the next few months, bringing the total to 16.

All Apache helicopters held at Dishforth are consistently maintained to a high level. Their airworthiness condition is formally assessed by Army aircraft engineers before each flight, and is constantly monitored by aircrew during flight.

The funding allocated in financial year 2004–05 for spares maintenance support for WAH-64 Apache aircraft at Dishforth Station totals some £450,000.

Armed Forces Deployments

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on the positioning of the British armed forces throughout the world; what size forces are in each place; and what their operational status is. [165547]

Mr. Ingram: I refer the hon. Member to the answer I gave to the hon. Member for Mid Sussex (Mr. Soames) on 19 April 2004, *Official Report*, column 15W.

Defence Employment (Hampshire)

Mr. Hoban: To ask the Secretary of State for Defence how many local employees are forecast to be employed as a consequence of the increased concentration of Royal Naval facilities in Portsmouth and South East Hampshire over the next five years, based on current plans. [165294]

Mr. Caplin: Studies which may result in further rationalisation and concentration of Royal Navy facilities in Portsmouth and South East Hampshire over the next five years are at only the preliminary stage and it is too early to predict how this might affect local employment.

Finningley Airport

Mr. Bill O'Brien: To ask the Secretary of State for Defence what the cost was of maintaining Finningley Airport in each of the last five years of ownership by his Department; and if he will make a statement. [165710]

Mr. Caplin: RAF Finningley was closed on 31 March 1996 and was sold in 1999. Cost information prior to closure is no longer available. However, the cost of maintaining the site during the disposal process is set out in the table.

Financial year	£
1998–99	617,797
1999–2000	185,538
2000–01	298

Medical Services

Miss McIntosh: To ask the Secretary of State for Defence how many medical personnel are based at *(a)* AAC Dishforth, *(b)* RAF Leeming, *(c)* RAF Linton on Ouse and *(d)* Alanbrooke Barracks, broken down by service, rank and specialisation. [165094]

Mr. Caplin: The following medical personnel are based at each base:

Unit	*Service/civilian*	*Rank*	*Appointment*	*Number*
AAC Dishforth	Military Personnel	Lieutenant Colonel	Regimental Medical Officer	1
	—	Sergeant	Combat Medical Technician	1
	—	Corporal	Combat Medical Technician	2
	—	Corporal	Nurse	1
	—	Lance Corporal	Combat Medical Technician	2
	Civilian Personnel	Doctor	Civilian Medical Practitioner	2
Total	—	—	—	9
Alanbrooke Barracks	Military Personnel	Sergeant	Combat Medical Technician	1
	—	Corporal	Combat Medical Technician	1
	—	Lance Corporal	Combat Medical Technician	3
	Civilian Personnel	Doctor	Civilian Medical Practitioner	2
	—	Registered General Nurse	Nurse	1
Total	—	—	—	8
RAF Linton on Ouse	Military Personnel	Squadron Leader	Station Medical Officer	1
	—	Squadron Leader	Principal Nursing Officer	1
	—	Sergeant	Principal Nurse	1
	—	Sergeant	Medical Administrator	1

Unit	Service/civilian	Rank	Appointment	Number
	—	Corporal	Medical Administrator	3
	—	SAC	Medical Assistant	12
	—	LAC	Medical Assistant	2
	Civilian Personnel	Doctor	Deputy Station Medical Officer	1
Total	—	—	—	22
RAF Leeming	Military Personnel	Wing Commander	Station Medical Officer	1
	—	Deputy Station Medical Officer	Flight Lieutenant	1
	—	Nursing Officer	Flight Lieutenant	1
	—	Flight Sergeant	Medical Administrator	1
	—	Sergeant	Medical Administrator	1
	—	Corporal	Medical Administrator	4
	—	Corporal	Environmental Health Technician	1
	—	Corporal	Registered General Nurse	1
	—	SAC	Medical Assistant	7
	Civilian Personnel	Doctor	Civilian Medical Practitioner	2
	—	Registered General Nurse	Nurse	1
	—	MTO3	Pharmacy Technician	1
Total				22

Military Goods Transfers

Sir Menzies Campbell: To ask the Secretary of State for Defence under what circumstances a transfer of military goods is classed as eligible for Crown Immunity rather than constituting a disposal sale; and if he will make a statement. [164907]

Mr. Ingram *[holding answer 31 March 2004]:* Letters of Crown Immunity are sought for the export of strategically controlled goods for exhibition overseas, for demonstration to foreign Governments and in connection with the repair or modification of Crown owned equipment. It is no longer the practice of the MOD's Disposal Services Agency (DSA) to undertake the export of surplus goods it has sold in this manner. The purchasing customer will take ownership of the goods in the UK and arrange their export under licence.

Ministerial Meetings/Conversations

Mr. Lilley: To ask the Secretary of State for Defence what action his Department has taken to implement the recommendation of Sir Anthony Hammond about writing notes of ministerial meetings and telephone conversations. [156376]

Mr. Caplin *[holding answer 26 February 2004]:* The Ministry of Defence follows the central "Guidance on the Management of Private Office Papers" which makes clear that good record management procedures are necessary not least to ensure accountability and provide an audit trail. Among the records covered by the guidance are Ministers' meetings and telephone conversations.

Nuclear Installations (Aircraft Incidents)

Llew Smith: To ask the Secretary of State for Defence if he will list each near miss incident involving RAF aircraft and United Kingdom nuclear installations reported to his Department in each year since 2000; and if he will place copies of the report on each incident in the Library. [165158]

Mr. Ingram: Restricted areas for aircraft have existed around nuclear facilities for many years. In the aftermath of 9/11 the Civil Aviation Authority (CAA) revisited this policy, issuing an amendment to Article 85 of the Air Navigation Order, and now major nuclear installations have a restricted area of two nautical mile radius

The number of alleged breaches of restricted areas involving RAF aircraft and United Kingdom nuclear installations reported to the Ministry of Defence in each year since 2000 is detailed in the following table. The Ministry of Defence, Defence Flying Complaints Investigation Team carried out investigations on each occasion and concluded that five of these were found to have infringed restricted areas. I will shortly place copies of all reports of the investigations in the Library, with all personal data redacted in accordance with the Data Protection Act 1998.

	Total number of complaints	Total confirmed breach	Under investigation
2000	6	—	—
2001	19	—	—
2002	18	3	—
2003	11	1	—
2004 (up to 31 March 04)	3	1	1

Prisoners (Self-harm)

Mr. Hancock: To ask the Secretary of State for Defence pursuant to his answer of 25 March, *Official Report*, column 941W, on self-harm, what target he has set for the completion of the feasibility stage of the project to collate data centrally on incidents of self-harm in the services; what the targets are for completion of the project; and if he will make a statement. [165755]

Mr. Caplin: The Ministry of Defence continues to look at the identification and recording of self-harm incidents, of reporting systems and of analysis within the services. A feasibility report is due by the end of the summer. Its conclusions will determine future work.

Redundancy Payments

Mr. Russell Brown: To ask the Secretary of State for Defence how much his Department has spent in each year since 1997 on redundancy payments for *(a)* administrative staff and *(b)* industrial staff. [164217]

Mr. Caplin: Information on redundancy payments for administrative and industrial staff are not held separately The Department does not hold records centrally for redundancy payments and the information will need to be collated. I will therefore write to the hon. Member when the information is available and place a copy of my letter in the Library of the House.

Register of Interests

Bob Spink: To ask the Secretary of State for Defence what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164703]

Mr. Caplin: The Civil Service Management Code sets out the requirement for civil servants declaring any conflict of interest.

The Code is amplified by further MOD policy guidance to staff on personal conduct, outside interests and appointments, and the receipt of gifts, rewards and hospitality.

Saville Inquiry (Confidentiality)

Mr. Gerald Howarth: To ask the Secretary of State for Defence what study he has made of the implications for former soldiers called before the Saville Inquiry of the recent judgment in the case involving the Bank of England and BCCI. [165112]

Mr. Ingram: The judgment has implications across Government and these are being given full and careful consideration.

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will resist any attempt to secure the release of confidential exchanges between former soldiers called before the Saville Inquiry and their legal advisers. [165113]

Mr. Ingram: That is a matter for the independent lawyers who advise the soldiers.

SCOTLAND

White Fish Industry

6. **Ann Winterton:** To ask the Secretary of State for Scotland, what recent discussions he has held with the First Minister about the future of the Scottish white fish industry. [167033]

Mrs. McGuire: My right hon. Friend and the First Minister discuss a wide range of issues.

Post Office Network (Scotland)

7. **Mr. Alan Reid:** To ask the Secretary of State for Scotland, what recent discussions he has held with Royal Mail regarding postal services in Scotland. [167034]

Mrs. McGuire: The Scotland Office is in regular contact, at both official and ministerial levels, with Royal Mail and other key stakeholders involved in the delivery of postal services in Scotland.

9. **Andrew Selous:** To ask the Secretary of State for Scotland, if he will make a statement on the future of the Post Office network in Scotland. [167036]

Mrs. McGuire: The Government recognise the important role that Post Offices play in the lives of people throughout Scotland, and we are committed to doing all we can to ensure a viable Post Office network for the future.

Pensioner Payment

8. **Mr. Tynan:** To ask the Secretary of State for Scotland, how many pensioners in Scotland he estimates will benefit from the £100 payment announced in the Budget. [167035]

Mrs. McGuire: Around 395,000 pensioner households in Scotland will benefit from the £100 payment, for those aged over 70, announced in the Budget.

Barnett Formula

10. **Sir Nicholas Winterton:** To ask the Secretary of State for Scotland, what recent discussions he has had with the Chancellor of the Exchequer on the future of the Barnett Formula. [167037]

Mr. Darling: I refer the hon. Member to the answer I gave earlier today to my hon. Friend the Member for North-West Leicestershire (David Taylor).

Economy

11. **Mr. Swire:** To ask the Secretary of State for Scotland, if he will make a statement on prospects for the Scottish economy. [167038]

Mr. Darling: Prospects for the Scottish economy are good. The labour market continues to perform robustly with employment close to a historic high and unemployment around its lowest level since the 1970s. Growth figures have recently been revised upwards to better reflect real changes in the economy. Interest rates and inflation are historically low. Business surveys are pointing to a continued strengthening of business activity in Scotland in both services and manufacturing and independent forecasters predict that growth will be above-trend in 2004 and 2005.

Shipbuilding

12. **Rachel Squire:** To ask the Secretary of State for Scotland, if he will make a statement on the most recent discussions he has held on future shipbuilding in Scotland. [167040]

Mr. Darling: I recently met representatives from BAE Systems during a tour of their shipbuilding facilities at Scotstoun and Govan.

From these discussions, there was a sense that the prospects for Scottish shipbuilding are encouraging. The yards on the Clyde have healthy order books, and the industry will continue to create and support thousands of jobs in Scotland.

Employment (Glasgow)

13. **Ann McKechin:** To ask the Secretary of State for Scotland if he will make a statement on the level of employment in Glasgow. [167041]

Mr. Darling: There are 242,000 people in employment in Glasgow City. The labour market in Glasgow has improved markedly since 1997 as evidenced by the fall in the number of people out of work and claiming benefit. At March 2004 there were 18,000 claimants compared to 29,000 in 1997, a fall of 38 per cent. However, the Government are aware that the challenge remains to further increase employment in Glasgow. We are working hard to do so with a range of policy measures including the New Deal and the Working Tax Credit.

International Crime

Mr. Dalyell: To ask the Secretary of State for Scotland what discussions he has had with the Scottish Executive on the issue of long-term prisoners convicted of international crime. [167039]

Mrs. McGuire: My right hon. Friend has not had any such discussions. Matters concerning prisoners in Scotland are devolved.

Lyons Review

Mr. Donohoe: To ask the Secretary of State for Scotland what representations he has made to other Government Departments in order to secure the movement of public sector jobs to Scotland following the publication of the Lyons Review. [167032]

Mr. Darling: I have made quite clear to other Government Departments the advantages Scotland offers as a location for public sector employers and have encouraged them to consider Scotland when reviewing location plans.

ADVOCATE-GENERAL

International Human Rights

Mr. Dalyell: To ask the Advocate-General what international human rights issues she has considered since 16 March 2004. [167046]

The Advocate-General for Scotland: As Advocate-General for Scotland my main involvement with human rights issues is in relation to those enshrined in the European Convention on Human Rights. My functions under the Scotland Act include considering whether Scottish Ministers and the Scottish Parliament are acting compatibly with the Convention. In my advisory capacity as Law Officer the long-standing convention in relation to Law Officers' advice means that the fact and contents of any such advice is confidential.

DEPUTY PRIME MINISTER

Central Government Support

Mr. Sanders: To ask the Deputy Prime Minister how much central Government support per head of population was given to each local authority in each year since 1997. [168431]

Mr. Raynsford: The available information has been made available in the Library of the House.

Charity Shops

Mr. Alan Campbell: To ask the Deputy Prime Minister what recent assessment his Department has made of the economic impact of charity shops on town centres. [165356]

Keith Hill: The Office of the Deputy Prime Minister has not undertaken such a study.

EU Aid (Eastern Region)

Bob Spink: To ask the Deputy Prime Minister how much aid has been received by the Eastern Region from EU sources in each of the last 10 years, broken down by *(a)* aid category and *(b)* area receiving aid. [167077]

Mr. Raynsford: The only EU funding source the Office of the Deputy Prime Minister is responsible for is the European Regional Development Fund (ERDF), one of the European Structural Funds. The Eastern region has benefited in the last 10 years from three of the Structural Funds, which are the ERDF, the European Social Fund (ESF) and the European Agricultural Guidance and Guarantee Fund (EAGGF). (The Department for Work and Pensions is responsible for the ESF and the Department for Environment Food and Rural Affairs for EAGGF.) The detailed figures are tabled as follows.

1994–99 Programmes:

Total receipts from the EU during the 1994–99 period amounts to £117.7 million.

Programme	*Purpose*	*Amount*	*Area covered*
The East Anglia 5b	Designed to help mainly rural areas adjust to anticipated changes in the traditional employment sectors such as farming.	£26.9 million ERDF £3.7 million ESF £5.5 million EAGGF	Breckland, 8 wards in Lowestoft and the areas given transitional status in the subsequent Objective 2 programme (the Fens, Rural East Suffolk and parts of Central Rural Norfolk)
The KONVER II Programme	Designed to assist economic diversification in areas heavily dependent on defence.	£5.8 million ERDF	Parts of Bedfordshire, Hertfordshire, Essex and Suffolk
The PESCA Programme	Provided support to areas, which were dependent on the declining fisheries industries.	£1 million ERDF	Southend, Lowestoft and King's Lynn

Programme	*Purpose*	*Amount*	*Area covered*
The Leader II Programme	To help local communities to develop the economies of their area, and to improve their environment and cultural life.	£1.2 million ERDF £50,000 ESF £135,000 EAGGF	Breckland, 8 wards in Lowestoft and the areas given transitional status in the subsequent Objective 2 programme (the Fens, Rural East Suffolk and parts of Central Rural Norfolk)
The Objective 3 Programme	Targeted the unemployed	£63.2 million ESF	National programme, so entire region eligible.
The Objective 4 Programme	[illegible]med at up-skilling the employed [illegible]orce	£10.2 million ESF	National programme, so entire region eligible.

2000–06 Programmes:
Allocation from EU £315 million.

Programme	*Purpose*	*Amount of ERDF allocated*	*Spend as at*	*Area covered*
The East of England Objective 2 Programme	For economic regeneration	£100 million ERDF £9 million ESF	£28.5 million (23 April 2004)[1]	Breckland, Luton, North Norfolk, Southend, Waveny and Great Yarmouth the Fens, Rural East Suffolk and parts of Central Rural Norfolk
The Urban II Programme (Peterborough)	Initiative to tackle urban deprivation.	£6.7 million ERDF	£1.024 million (31 December 2003)[1]	Seven wards in Peterborough
The Leader + Programme	To encourage new approaches to rural development	£2.85 million EAGGF	£0.307 million (23 April 2004)[1]	Broads and Rivers The Fens
The Innovative Actions Programme	To test an innovative approach leading to achievement of more balanced regional development and a stronger regional identity.	£1.6 million ERDF	£0.45 million (23 April 2004)[1]	All areas of the region are eligible.

[1] Date of last available data.

Housebuilding

Bob Spink: To ask the Deputy Prime Minister how many *(a)* private and *(b)* council housing starts there were in England in (i) 1992, (ii) 1997 and (iii) 2001; and what the latest figures are. [165377]

Keith Hill: The figures for England are tabled as follows:

	(a) Private starts	*(b) Council starts*
1992	99,586	1,601
1997	136,069	310
2001	136,248	190
2003 (provisional)	147,104	324

Housing

Mr. Pike: To ask the Deputy Prime Minister what assessment he has made of how the change in the level of council funding for housing has affected the residents of Burnley since 1997. [168312]

Keith Hill: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Burnley transferred its housing stock to Burnley and Padiham Community Housing in 2000 for £22.4 million. Burnley's allocation of £2.5 million for 2003–04 has been supplemented by the announcement of £68 million to be made available to the East Lancashire, Elevate, Housing Market Renewal pathfinder project between 2003–04 and 2005–06.

Jim Dobbin: To ask the Deputy Prime Minister how the change in the level of council funding for housing has affected the residents of Heywood and Middleton since 1997. [168432]

Keith Hill: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Rochdale's allocations in the period 1997 to 2003–04 have risen by over 450 per cent., and have been supplemented by the announcement of £53.5 million to be made available to the Oldham/Rochdale Housing Market Renewal pathfinder project between 2003–04 and 2005–06.

James Purnell: To ask the Deputy Prime Minister how the change in the level of council funding for housing has affected the residents of Stalybridge and Hyde since 1997. [168774]

Keith Hill: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we

introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Tameside transferred its housing stock to New Charter Housing in 2000 for £127.5 million. Tameside's allocation for housing in 2003–04 was £3.6 million.

Housing Market

Mr. Clifton-Brown: To ask the Deputy Prime Minister what assessment he has made of the effect of electronic application to land searches and registration on the speed of housing market transactions; and what further improvements in the speed of these transactions will result from the introduction of sellers' packs. [168376]

Keith Hill: I refer the hon. Member to the answer given to him on 23 April 2004. For electronic searches of land registers to be possible, local authorities must first have set up electronic Local Land and Property Gazetteers (LLPGs). Such gazetteers form an integral part of local e-government, and the benefits arising from them have not been separately estimated or assessed. The overall savings from local e-government, and in particular achieving the Prime Minister's target of all priority services being electronically enabled by 2005, were estimated by local authorities themselves in 2003 as being about £80 million per annum by 2005–06. As well as efficiency savings, there will be significant benefits to authorities' customers, through improvement of service delivery including quicker land charge searches.

Electronic processing of local land search inquiries offers the prospect of securing search information in minutes and hours rather than days and weeks. To maximise the benefits for housing transactions, local search and other information that is important to home buying and selling decisions needs to be available at the start of the transaction process. Home information packs will secure this. They will enable buyers and sellers to negotiate from an informed position and help them commit more quickly to the transaction. This will increase certainty, reduce failure and wasted costs, and help shorten the overall transaction timescale.

Local Government Finance

Bob Spink: To ask the Deputy Prime Minister which local authorities raised the level of council tax by 10 per cent. or more when setting the rate for 2004–05. [167236]

Mr. Raynsford: The following authorities increased their Band D council tax by 10 per cent. or more between 2003–04 and 2004–05:

Shire districts:

Bedford
Breckland
Canterbury
Christchurch
Dacorum
Daventry
East Dorset
Fenland
Fylde
Gosport
Huntingdonshire
Maldon
Runnymede
Shepway
Spelthorne

Shire police authorities:

Avon and Somerset Police
Bedfordshire Police
Cambridgeshire Police
Cheshire Police
Cleveland Police
Cumbria Police
Durham Police
Hampshire Police
Hertfordshire Police
Humberside Police
Kent Police
Lancashire Police
Leicestershire Police
Norfolk Police
Northamptonshire Police
Thames Valley Police
West Mercia Police
West Midlands Police
West Yorkshire Police
Wiltshire Police

In addition, the 2004–05 Band D council tax for each of the following combined fire authorities is 10 per cent. or more above its indicative Band D council tax for 2003–04, where the indicative council tax for 2003–04 is consistent with the alternative notional amount for the authority, as published in "The Limitation of Council Tax and Precepts (Alternative Notional Amounts) Report (England) 2004/05". Indicative council taxes for 2003–04 are available on the Office of the Deputy Prime Minister's local government finance website, from the 'Alternative Notional Amounts' menu at http://www.local.odpm.gov.uk/finance/ct.htm.

Avon Fire Authority
Bedfordshire Fire Authority
Cambridgeshire Fire Authority
Derbyshire Fire Authority
Dorset Fire Authority
Durham Fire Authority
East Sussex Fire Authority
Essex Fire Authority
Hampshire Fire Authority
Hereford and Worcester Fire Authority
Leicestershire Fire Authority
Nottinghamshire Fire Authority
Staffordshire Fire Authority

Non-domestic Rates

Mr. Curry: To ask the Deputy Prime Minister what the yield from uniform non-domestic rates was for each year since its introduction; and what the yield would have been for each year if the rate had been set at *(a)* RPI plus half per cent. and *(b)* RPI plus 1 per cent. [168888]

Mr. Raynsford: The information requested is in the following table.

£ million

	Actual NNDR yield	NNDR yield with RPI + ½ per cent.	NNDR yield with RPI + 1 per cent.
1990–91	10,590	10,600	10,700
1991–92	11,918	12,000	12,100
1992–93	11,371	11,500	11,700
1993–94	10,627	10,800	11,000
1994–95	10,308	10,600	10,800
1995–96	10,967	11,300	11,600
1996–97	12,421	12,900	13,300
1997–98	12,805	13,400	13,800
1998–99	12,896	13,500	14,100
1999–2000	13,320	14,100	14,700
2000–01	13,757	14,600	15,300
2001–02	15,312	16,300	17,200
2002–03	15,544	16,600	17,700
2003–04[1]	14,792	15,900	17,000

[1] Figures for 2003–04 give only the estimated contribution to the pool from the local list, as no estimates of the central list receipts or contributions in lieu of rates for crown properties are available.

Notes:

The national non-domestic rate (NNDR) yield is the sum of the contributions to the pool from local lists, plus central list receipts, and contributions in lieu of rates for crown properties.

Estimated yields from increasing the NNDR multiplier by more than RPI were calculated by applying the increased multiplier to the sum of the rateable values. The patterns of relief, costs of collection and amounts carried over were assumed to be the same.

Planning

Mr. Drew: To ask the Deputy Prime Minister if he will monitor the practice of developers seeking planning permission to pull down houses in order to open up access to land that was previously undevelopable. [168097]

Keith Hill: A specific planning application to demolish a house is generally not required. This is because planning permission to carry out demolition is granted by the Town and Country Planning (General Permitted Development) Order 1995. However, where access to land has been opened up by the demolition of buildings, a planning application is likely to be required to develop that land; for example, for housing. Planning applications must be determined on their merits in accordance with relevant policies in the development plan, unless material considerations indicate otherwise. It would be impractical to monitor planning applications that arise in such circumstances, and there are no plans to do so.

Mrs. Spelman: To ask the Deputy Prime Minister what the average length of time taken to obtain planning permission was in *(a)* 2003 and *(b)* 1997. [168277]

Keith Hill: The information available is the percentages of applications for planning permission and related consents which are decided within eight weeks; between eight and 13 weeks; and in more than 13 weeks.

For almost all applications, information on individual applications is not held centrally, so it is not possible to calculate an average time from receipt to decision.

Mrs. Spelman: To ask the Deputy Prime Minister (1) how many district planning authorities' planning decisions there were in each year since 1979; [168278]

(2) how many district planning authorities' planning applications were received in each year since 1979; [168279]

(3) how many district planning authorities' planning applications were granted in each year since 1979; [168280]

(4) how many and what percentage of district planning authorities' decisions were granted within *(a)* eight and *(b)* 13 weeks in each year since 1979. [168281]

Keith Hill: The available information is tabled as follows. Statistics on the speed of decision do not distinguish between decisions granted or refused. Figures for the years before 1986–87 are on a different basis from later years; they exclude advertisements, listed building consents and conservation area consents.

Planning decisions by district planning authorities[1,2] by speed of decision: England 1979–80 to 2002–03

Thousand/per cent.

			Applications granted			Percentage of total decisions[3]	
Financial year	Applications received	All decisions	Thousand	Percentage[4]	Number decided within 8 weeks	8 weeks	13 weeks
1979–80	582	513	446	86	312	60	86
1980–81	546	489	421	85	319	65	88
1981–82[5]	372	404	349	86	266	65	88
1982–83	411	380	334	87	268	70	93
1983–84	430	402	354	87	278	69	90
1984–85	421	397	345	86	276	69	90
1985–86	432	401	344	85	270	67	89
1986–87[5]	536	487	401	84	305	63	87
1987–88	598	542	446	84	310	57	84
1988–89	681	618	497	82	318	51	80
1989–90	627	597	465	80	274	46	75
1990–91	530	518	402	80	276	53	79
1991–92	509	482	382	83	291	60	83
1992–93[5]	462	439	361	85	278	63	85

[1] Includes metropolitan and non-metropolitan districts, unitary authorities, London boroughs, national park authorities and, prior to April 1998, urban development corporations.
[2] Figures exclude decisions on 'county matters' applications. Those are shown separately in the published annual Development Control Statistics, England.
[3] The precise definitions of the time bands used are 'up to and including 56 days' and 'up to and including 91 days'.
[4] These percentages are calculated after excluding those applications (such as determinations as to whether or not planning permission is required) which cannot be granted or refused.
[5] Planning fees introduced on 1 April 1981. Prior to 1986–87 figures were only collected on applications decided under section 29 of the Town & Country Planning Act 1971. This excluded advertisements, listed building and conservation area consents. The present system of Lawful Development Certificates commenced on 27 July 1992.

Development Control Statistics, England particularly the 1989–90, 1995–96 and the 2002–03 (ODPM website edition).

Mr. Clifton-Brown: To ask the Deputy Prime Minister what criteria in the planning system are used to ascertain whether an environmental impact assessment is necessary. [168326]

Keith Hill: Environmental Impact Assessment (EIA) is required for development which is likely to have significant effects on the environment by virtue of factors such as its nature, size or location. All development listed in Schedule 1 to The Town and Country Planning (Environmental Impact Assessment) Regulations 1999 is assumed to have such effects, and EIA is mandatory for such development. For development listed in Schedule 2 to the Regulations, local planning authorities have to determine whether EIA will be required. In doing so they must take account of prescribed selection criteria relating to the characteristics, location and potential impact of the development. As an aid to determining whether Schedule 2 development is likely to have significant environmental effects, indicative thresholds and criteria are included in DETR Circular 02/99 which gives guidance on the operation of the 1999 Regulations.

Mr. Clifton-Brown: To ask the Deputy Prime Minister whether an accumulation of a large number of different planning applications in the same location necessitates an environmental impact assessment. [168365]

Keith Hill: The need for Environmental Impact Assessment (EIA) has to be assessed for every planning application, on the basis of whether the proposed development is likely to have significant effects on the environment. The Government's published advice on multiple applications, based on existing case law, is at paragraph 46 of DETR Circular 02/99. This states that, for the purposes of determining whether EIA is required, a particular planning application should not be considered in isolation if, in reality, it is properly to be considered as an integral part of an inevitably more substantial development.

Property Consultative Group

Mr. Edward Davey: To ask the Deputy Prime Minister what the remit is of the Property Consultative Group; and if he will make a statement on its planned work load for the next four years. [167843]

Keith Hill: The terms of reference of the Property Consultative Group are to:

provide an opportunity for dialogue with the property industries about delivery of the range of policies of the Office of the Deputy Prime Minister (ODPM) and to provide the Office of the Deputy Prime Minister with creative solutions to issue of common interest;

initiate discussion of issues where the property industries are aware of potential improvements to Government policy and its delivery;

secure in the public interest the industries' assistance in promoting the Office of the Deputy Prime Minister's policies, and in particular their role in providing development to underpin the Sustainable Communities Plan;

assist the Office of the Deputy Prime Minister to fulfil its role as lead Government Department for the property/development industries, and in particular its specific responsibilities for policy and legislation on commercial property leases; and

provide advice (through its working groups) on specific, detailed issues.

The Agenda for the main Group at present comprises ad hoc issues raised by members and the Office of the Deputy Prime Minister. So far, we have established working groups on commercial property issues and on funding and delivery mechanisms, and they will be reporting back to the main Group within the next year.

Starter Homes Initiative

Jim Dobbin: To ask the Deputy Prime Minister how *(a)* the Starter Homes Initiative and *(b)* the Abandoned Homes Initiative have benefited the residents of Heywood and Middleton. [168433]

Keith Hill: Between September 2001 and 31 March 2004, the Starter Home Initiative (SHI) helped key workers into home ownership in areas where the high cost of housing serves to undermine recruitment and retention of skilled staff in our key public services. The SHI was available in London and the South East region and in some housing hotspots in the East, South West and West Midlands regions. It was not available to key workers in the North West region.

The Office of the Deputy Prime Minister is not aware of an Abandoned Homes Initiative. However, our Market Renewal Pathfinders are a comprehensive programme to tackle low demand and abandonment in nine English areas. The Oldham and Rochdale pathfinder, which includes Middleton but not Heywood, received £53.5 million to April 2006, which will fund a large-scale programme of capital works to revive the housing market and improve the environment. The boundaries of this scheme were drawn up following an analysis of local housing markets to identify those areas most acutely affected by low demand and abandonment.

Tesco (Shrewsbury)

Mr. Paul Marsden: To ask the Deputy Prime Minister when he will make a decision on the Tesco planning application in Shrewsbury. [168009]

Keith Hill: My right hon. Friend the Deputy Prime Minister aims to make a decision as soon as possible.

LEADER OF THE HOUSE

Plain English Campaign

35. **Peter Bradley:** To ask the Leader of the House what representations he has received from the Plain English Campaign on the language used in parliamentary proceedings. [168419]

36. **Mr. Mole:** To ask the Leader of the House what representations he has received from the Plain English Campaign on the language used in parliamentary publications. [168420]

Mr. Hain: The Modernisation Committee met with the Plain English Campaign in March in the course of its inquiry into connecting Parliament with the public. I hope that the Committee will report its findings to the House before Whitsun.

Departmental Select Committees

37. **Mr. Llwyd:** To ask the Leader of the House if he will make a statement on the representation of minority parties on departmental select committees. [168421]

Mr. Woolas: My right hon. Friend is fully aware that the minority parties have concerns about their representation on select committees. The Government have taken action to address this in a number of ways, by accommodating their interests in the nomination of recent Joint Committees for pre-legislative scrutiny and Standing Committees on Delegated Legislation, for example.

Parliamentary Questions

39. **Mr. Burns:** To ask the Leader of the House what plans he has to bring forward proposals for changes to provisions for questions for written answer on a named day. [168423]

Mr. Woolas: My right hon. Friend has no such plans at present.

TRANSPORT

Aviation

Mr. Tyler: To ask the Secretary of State for Transport (1) whether the investigation by the Civil Aviation Authority into cabin air quality considered the presence of *(a)* mono-ortho, *(b)* di-ortho and *(c)* other toxic isomers of tricresyl phosphate other than the ortho isomer in engine oil; and whether it considered evidence for a link between repeated low-level exposure to organophosphates and chronic neurotoxicity; [168647]

(2) whether the investigation by the Civil Aviation Authority into cabin air quality took evidence from *(a)* doctors and *(b)* other medical experts who have studied the cases of crews and passengers affected by contaminated air exposure on commercial jet aircraft; [168648]

(3) whether unions representing cabin crew members were consulted during the preparation of the recently published Civil Aviation Authority Report on cabin air quality. [168649]

Mr. McNulty: The investigation carried out by the Civil Aviation Authority (CAA) into cabin air quality focused only on substances found in air conditioning ducts of a certain type of aircraft. The study was commissioned to investigate the safety implications arising from potential incapacitation in flight crew as a result of contaminated cabin air. As such the CAA did not consider the presence of other substances and effects on low-level exposure. This was a specific piece of scientific research; therefore it was not appropriate for the CAA to seek views, either from medical experts or other stakeholders. The Aviation Health Unit is currently considering the extent to which further research should be commissioned into the presence in the cabin air of organophosphates and their effect on passengers and crew.

Bicycle Journeys

Mr. Drew: To ask the Secretary of State for Transport how many journeys were made by bicycle in each of the last 10 years. [168302]

Mr. McNulty: Figures for Great Britain from the National Travel Survey are as follows:

	Number of bicycle stages (billion)
1993	1.0
1994	1.0
1995	1.0
1996	0.9
1997	1.0
1998	0.9
1999	1.0
2000	0.9
2001	0.8
2002	0.9

Figures for 2003 are not yet available. Figures for single years are volatile because of the relatively small sample sizes. Cycling patterns over individual years are also dependent on the weather.

Departmental Vehicles

Mr. Paul Marsden: To ask the Secretary of State for Transport how many of his departmental vehicles run on *(a)* fuel cells, *(b)* liquefied petroleum gas, *(c)* petrol, *(d)* diesel, *(e)* hybrid fuel and *(f)* other fuel. [168006]

Mr. Jamieson: The Government as a whole have signed up to various targets for improving the performance of their own vehicle fleet, details of which, together with reports on each Department's progress towards these targets, is available at: www.sustainable-development.gov.uk

The Department for Transport is one of 15 Government Departments which owns or leases alternatively fuelled vehicles. In 2003, 9 per cent. of all Government fleet vehicles (excluding those from the Ministry of Defence) were alternatively fuelled.

The Department for Transport Headquarters has very few departmental vehicles. The Government Car Service (GCS) provides our ministerial cars, one of which is a petrol-electric hybrid vehicle and one of which runs on liquefied petroleum gas (LPG). Of the GCS's total ministerial car fleet, 13 per cent. are alternatively fuelled, the majority of which are LPG vehicles.

Over 1,000 vehicles are currently used by the Department for Transport's various agencies, including a number of specialist vehicles. Precise information is not readily available on the fuels used by all these vehicles, but in 2003, approximately 11 per cent. of the vehicles for which this information was available were LPG vehicles.

European Rail Directives

Mrs. Dunwoody: To ask the Secretary of State for Transport what cost assessment has been carried out by his Department of the implementation of the European Rail Directives package proposed by the EU Commission; and what consultations he has had with *(a)* the rail industry, *(b)* the trade unions in the rail sector and *(c)* elected representatives on their implementation. [168094]

Mr. Darling: An initial assessment of the financial implications of the EC Third Railways Package was included with the Explanatory Memorandum submitted to Parliament on 30 March 2004. This assessment concluded that implementation of certain aspects of the package as proposed by the European Commission could have significant adverse financial implications for sections of the UK rail industry.

My Department has had a number of discussions with rail industry parties about this package both before, and after, its publication. In particular, around 30 industry and user representatives attended a seminar held on 2 April. These discussions are continuing. A formal consultation document is being prepared. Comments will be sought from a wide range of parties including trade unions in the rail sector.

The Government's negotiating position on this package is subject to scrutiny clearance by both Houses. The Scrutiny Committees are currently considering the Department's Explanatory Memorandum. The Department has not received any other representations from elected members on this package.

M62 Widening

Mr. Wood: To ask the Secretary of State for Transport if he will make a statement on his plans for widening the M62 between junctions 25 and 32 in West Yorkshire; what the planned timetable is for the work; and what the estimated total cost is. [167053]

Mr. Jamieson: In July 2003 the Secretary of State asked the Highways Agency to examine new ways of delivering additional capacity on suitable sections of the motorway network in South and West Yorkshire, which includes the M62. Their study is under way and is due to report to the Secretary of State in autumn 2004 with detailed proposals for levels of provision, timetables for delivery and estimated costs.

Mr. Wood: To ask the Secretary of State for Transport what alternatives to carriageway widening schemes are being considered to address congestion on the M62 in West Yorkshire. [167054]

Mr. Jamieson: In July 2003 the Secretary of State asked the Highways Agency to examine new ways of delivering additional capacity on suitable sections of the motorway network in South and West Yorkshire, including the M62. They are currently looking at a wide range of alternatives to widening. These include:

Use of narrower lanes

Use of the hard shoulder to provide an extra running lane

Provision of Emergency Refuges

Controlled access to the motorway

Better information for travellers.

The agency is due to report to the Secretary of State with the results of the study in autumn 2004.

National Rail Enquiries

Mr. Best: To ask the Secretary of State for Transport (1) what assessment he has made of the quality of service given by the National Rail Enquiries Service *(a)* before and *(b)* after part of the service was outsourced overseas; [167729]

(2) if he will make a statement on the decision of train operating companies to off-shore part of the National Rail Enquiries Service. [168661]

Mr. McNulty: The contracting of call centre suppliers to operate the National Rail Enquiry Service is a matter for National Rail Enquiry Services Ltd.

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) whether he has held talks with the Strategic Rail Authority about the relocation of the National Rail Enquiry Bureau to India; how many jobs have been lost in the United Kingdom as a result; what the cost has been to the taxpayer of any benefits or grants to staff made redundant from the Bureau; and if he will make a statement; [168092]

(2) what calculations have been made of the sum of money to be returned to his Department by the train operating companies following the relocation of the National Train Enquiry Bureau to India. [168165]

Dr. Howells: The Government do not make subsidy payments to National Rail Enquiry Service Ltd., the company which contracts with call centre suppliers to operate the NRES service. NRES have said that any

cost savings would be ploughed back into improving passenger services. With the flexibility of the call centre industry, the Government hope that any redundancies brought about by the recent contract changes would be kept to a minimum. I have held no talks with the Strategic Rail Authority about this matter.

Offshore Wind Farms

Mrs. Dunwoody: To ask the Secretary of State for Transport whether his Department has been asked to fund navigational aids to prevent vessels colliding with wind turbines. [168265]

Mr. Darling: The costs of providing aids to navigation to prevent vessels colliding with offshore installations are to be met by the developers. The General Lighthouse Authorities set the standard for such marking and will monitor its provision. Developers may also expect to meet the reasonable costs of altering existing aids to navigation if required as a result of their installations.

Rail Services Review

Mrs. May: To ask the Secretary of State for Transport when he expects the Treasury's review of rail services to be complete; and if he will make a statement. [167514]

Mr. Darling: The current review of the railway industry being undertaken by the Department for Transport will publish its conclusions in the summer.

Railways

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will estimate the cost per mile of railway line maintenance for each contractor. [168007]

Mr. McNulty: This is an operational matter for Network Rail. However, Network Rail advises that expenditure on the maintenance of any mile of track will depend on the type of track, its age, and the underlying ground conditions, the types of trains that that run on the route, their speed and frequency.

Mr. Pickthall: To ask the Secretary of State for Transport how much of the subsidy to train operators is used to finance the leasing of rolling stock. [168177]

Mr. McNulty *[holding answer 26 April 2004]:* Franchise agreements with train operating companies specify franchise payments, whether subsidy or premium, but do not break the figures down into individual components such as rolling stock costs.

Mr. Pickthall: To ask the Secretary of State for Transport (1) what the average payment is per year to lease a unit of rolling stock; [168178]

(2) what the average cost is of a unit of rolling stock. [168180]

Mr. McNulty *[holding answer 26 April 2004]:* Rolling stock building and leasing costs vary widely. A two car Pacer, for example, will have cost about £500,000 to build at present prices and is likely to cost an operator in the region of £50,000 per year to lease. A more modern two car train, such as a Class 170, would command an annual rent of around £170,000 per year, reflecting substantially higher build costs.

Shipping (Security)

Mr. Carmichael: To ask the Secretary of State for Transport if the Government will meet the compliance deadline of 1 July for implementation of the International Ship and Port Facility Security Code; what steps his Department is taking to meet this deadline; how many UK ships and ports have reached the required standard to date; and if he will make a statement. [167637]

Mr. Jamieson: The Department for Transport's Transport Security Directorate (TRANSEC) has the policy lead and is responsible for introducing the ISPS Code requirements to approximately 600 UK port facilities and over 600 UK flagged ships by the deadline of the 1 July 2004. Operationally TRANSEC is responsible for UK ports and passenger shipping, and the Maritime and Coastguard Agency (MCA) has been delegated responsibility for non-passenger shipping, under a policy framework set by TRANSEC.

The UK has made excellent progress towards implementation and there is every expectation that all UK flagged ships and port facilities that submit acceptable security plans by the deadlines set by TRANSEC and MCA, will be ISPS compliant by the 1 July deadline.

TRANSEC have carried out port facility security assessments at facilities which fall within the scope of the Code and have categorised them by traffic type. Both TRANSEC and MCA have issued security instructions and standards for different categories of port and ship facilities, and have provided port and ship security plan templates to assist industry with the preparation of their security plans. Liaison with the port and shipping industries has played a fundamental part in developing effective and proportionate policies and this communication is on-going.

It is not our policy to comment in detail on security measures. Therefore, I cannot set out in detail the number of ships or port facilities that already have approved Security Plans. However, all of the major UK ports including the passenger operations have been assessed and Port Facility Security Plans are currently being submitted for approval. Passenger and non-passenger ship security plans are currently being submitted to TRANSEC and MCA for approval and verification visits are being undertaken by inspectors to ensure that the plans developed are operating effectively.

Transport Infrastructure

Jim Dobbin: To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Heywood and Middleton since 1997. [168549]

Mr. McNulty: Two priority bus lanes have been created in the Heywood and Middleton constituency since 1997, with a total length of 0.225 kms, on Rochdale Road, Middleton and South Parade, Rochdale.

Jim Dobbin: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided in Heywood and Middleton using public funds since 1997. [168547]

Mr. McNulty: A total of 19 km of cycle lanes have been introduced on various roads in Heywood and Middleton.

Mr. Kaufman: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Manchester, Gorton since 1997. [167307]

Mr. Darling: 1.3 km of cycle lanes on Ashton New Road have been introduced in Gorton since 1997, as well as 4 km of dedicated pathways along the Fallowfield Loop disused railway line and a further 2 km along the Ashton canal towpath.

Mr. Kaufman: To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Manchester, Gorton since 1997. [167308]

Mr. Darling: An 875 m long city-bound bus lane, starting from the junction with Redgate Lane, was introduced as part of the Hyde Road/Devonshire Street junction improvement scheme, completed in May 2003. £23 million has also been awarded for a Quality Bus Corridor along the A57 from Hyde to Manchester.

James Purnell: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Stalybridge and Hyde since 1997. [168730]

Mr. McNulty: A 2.5 km section of the Transpennine Trail, which provides facilities for cyclists and other users, has been created in Stalybridge and Hyde since 1997. A number of footpaths throughout Stalybridge and Hyde have also been upgraded to bridleways thus providing additional cycle facilities.

CONSTITUTIONAL AFFAIRS

Court Administrative Boundaries

25. **Jim Knight:** What plans there are to align court administrative boundaries with Government Office regional boundaries. [168408]

Mr. Leslie: With the introduction of the new unified courts agency, court administrative boundaries will be aligned with the Government Office boundaries and Wales, with two exceptions: Cheshire, and the Hampshire and the Isle of Wight. We will re-examine these arrangements as part of a post-implementation review in the financial year 2006–07.

Judiciary

27. **Keith Vaz:** What plans the Lord Chancellor has to ensure greater diversity in the judiciary. [168410]

Mr. Leslie: The new, independent Judicial Appointments Commission will inspire a more diverse range of applicants through a more open, transparent and accessible system. The Department is also examining whether other barriers exist to deter applicants from minority groups, while continuing to run its comprehensive outreach programme.

Queen's Counsel

29. **Dr. Cable:** When the Lord Chancellor intends to present proposals to continue or replace the system of Queen's Counsel. [168413]

Mr. Leslie: We hope to make an announcement soon.

Social Security Commissioners (Welsh Language)

30. **Mr. Llwyd:** What action the Secretary of State takes to ensure that an appellant who is resident in Wales is able to conduct his case before the Social Security Commissioners through the medium of the Welsh language wherever that tribunal sits. [168414]

Mr. Lammy: All cases from Wales received by the Social Security Commissioners are processed by Commissioners who are familiar with the Welsh language. Where appropriate bilingual directions are forwarded to the appellant giving them the opportunity to request a hearing to be conducted in the Welsh language.

Local Authority Records (Public Access)

31. **Mr. Gordon Marsden:** To ask the Parliamentary Secretary of State, Department for Constitutional Affairs if he will make a statement on access by the public to local authority records under freedom of information legislation. [168415]

Mr. Lammy: All public authorities, are subject to the Freedom of Information Act. When access rights come into force on 1 January 2005 anybody may request information from a local authority. The applicant has the right:

To be told whether or not the public authority holds that information; and if so,

To have that information communicated to him or her.

Data Protection

Mrs. Dunwoody: To ask the Parliamentary Secretary, Department for Constitutional Affairs what data protection safeguards are available to UK citizens whose detailed private information is made available to private companies in the US. [168250]

Mr. Lammy: The general rule established by the Data Protection Act 1998 is that, subject to exemptions, personal data may only be transferred to countries outside the European Economic Area if they provide an adequate level of data protection. Adequacy of protection is determined on a case by case basis having regard to all the circumstances. The US Department of Commerce have established a set of data protection rules (generally known as the "safe harbour") to which certain organisations receiving personal data from the EU may subscribe. The European Commission have made a formal finding that the "safe harbour" provides adequate data protection for the purposes of the EC Data Protection Directive (95/46/EC) to which the Data Protection Act 1998 gives effect. About 450 organisations currently subscribe to the "safe harbour".

Immigration

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the

legal aid costs have been, to date, of representing *(a)* detainees and *(b)* those appealing against removal of nationality (i) before the Special Immigration Appeals Commission and (ii) in any subsequent appeals; and if he will make a statement. [168224]

Mr. Lammy: The Legal Services Commission cannot provide the requested information. Bills for most of the cases before the Special Immigration Appeals Commission have yet to be submitted to the Commission.

Legal Aid

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the legal aid budget. [168364]

Mr. Lammy: Legal aid expenditure for the year 2002–03 was £1,908 million in cash. Final figures for 2003–04 are not currently available; however, legal aid expenditure is expected to be £2,084 million in cash, and £1,819 million in resource. From 2003–04 legal aid is accounted for in both cash and resource terms, but no equivalent figure for resource is available for 2002–03.

Bob Spink: To ask the Parliamentary Secretary, Department for Constitutional Affairs on how many occasions legal aid has been withdrawn because of fraudulent applications in each of the last three years. [167075]

Mr. Lammy: It is difficult to classify particular applications as deliberately fraudulent. The Commission has powers to investigate where doubts arise about whether a funded client is financially eligible for civil legal aid. Opponents or third parties can make representations about the merits of the case, the means of the applicant or both (mixed representations). Figures are provided in the table showing outcomes for these categories in each of the last three financial years for which it has finalised data:

	Total representations closed out	*Cases where investigation led to refusal/withdrawal/ amendment to certificate*
2000–01		
Means	2,871	1,010
Mixed	416	128
2001–02		
Means	2,282	716
Mixed	306	80
2002–03		
Means	1,984	676
Mixed	214	70

The Commission's Special Investigations Unit (SIU) deals with means assessments for individual applicants for legal aid which are difficult or contentious including cases of misrepresentation by applicants for publicly funded legal services. Figures on the number of cases in each year where investigation resulted in the refusal or withdrawal of funding or an increase in the contributions payable are set out as follows:

2000–01—319

2001–02—128

2002–03—152

For criminal legal aid, means assessment was used prior to 2001–02. The Court Service referred cases to the Commission's SIU where applicants had complex financial affairs. In 2000–01 98 investigation into criminal cases were concluded, following 181 referrals from the Court Service. 95 per cent. of investigations in criminal cases led to the refusal or withdrawal of funding. 47 investigations were concluded in 2001–02 relating to applications for criminal legal aid made prior to April 2001. In 85 per cent. of these cases, investigations resulted in a change to the decision regarding funding.

Legal Services Commission

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs when he will make an evaluation of the performance of the Legal Services Commission with specific reference to the provision of franchise arrangements with agencies providing legal advice. [168310]

Mr. Lammy: The Legal Services Commission (LSC) has reported regularly to my Department on measures they have taken to improve quality in publicly funded legal services since it replaced the Legal Aid Board in April 2000.

The Specialist Quality Mark replaced franchise arrangements in April 2002 and became a requirement for all organisations wanting to provide specialist legal services within the Criminal Legal Service (CLS) and Criminal Defence Service (CDS). The Quality Mark is a set of quality assurance standards for legal information, general advice and specialist legal services.

The LSC is aware that some of the requirements of the Quality Mark are viewed by suppliers as overly bureaucratic. In response, a revised audit process was introduced in April 2003 that will mean that the Commission can undertake less exhaustive, less frequent audits for the best performing solicitors' firms and advice agencies. The LSC is consulting on further measures to ease the burden on firms and will continue to work with the profession to improve the position.

Members of Parliament

Andrew George: To ask the Parliamentary Secretary, Department for Constitutional Affairs, what plans the Department has to review the number of hon. Members elected to the House. [168403]

Mr. Leslie: The independent Parliamentary Boundary commissions of England, Wales, Scotland and Northern Ireland are required by the Parliamentary Constitution Act 1986 to undertake periodic General Reviews every eight to 12 years of the number, boundaries and names of parliamentary constituencies. A review is currently under way.

Special Immigration Appeals Commission Hearings

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will place in the Library the public parts of the transcripts of Special Immigration Appeals Commission hearings relating to appeals against detention under the Anti-terrorism, Crime and Security Act 2001; and if he will make a statement. [167090]

Mr. Lammy: The transcripts from the open sessions of the Special Immigration Appeals Commission still contain sensitive material relating to the appellants' details. It would therefore be inappropriate to release this information into the public domain pursuant to Rule 39(5)(h) of The Special Immigration Appeals Commission (Procedure) Rules 2003.

Supreme Court

Miss McIntosh: To ask the Parliamentary Secretary, Department for Constitutional Affairs, what recent representations the Lord Chancellor has received on the location of the Supreme Court. [168409]

Mr. Leslie: We have received a number of comments on the location of the Supreme Court, both during and after consultation. Only a small proportion of these have related to specific buildings or locations.

CULTURE, MEDIA AND SPORT

Freeview Digital Television

Mr. Beggs: To ask the Secretary of State for Culture, Media and Sport what percentage of the population of *(a)* Newtownabbey, *(b)* Carrickfergus and *(c)* Larne are able to receive Freeview digital television services. [168197]

Estelle Morris: According to BBC Freeview prediction figures, access to Freeview in Newtonabbey is approximately 10 per cent., Carrickfergus, around 80 per cent. and in Larne, very little, if any coverage is currently predicted.

For mainly technical reasons, it will not be possible to significantly increase digital terrestrial television coverage prior to digital switchover. However, the Government are committed to ensuring that everyone who can currently receive the main public service broadcasting channels in analogue form will receive them on digital systems at switchover.

2012 Olympics

Lady Hermon: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with *(a)* hon. Members and *(b)* political parties from Northern Ireland in relation to promoting Northern Ireland for games events for the 2012 London Olympic bid. [168640]

Mr. Caborn: My right hon. Friend the Secretary of State has discussed the London 2012 bid with her ministerial colleagues from Scotland, Wales and Northern Ireland at the Sports Cabinet meetings on 23 October 2003 and 20 April 2004.

A Parliamentary All Party Olympics Group which included political parties in Northern Ireland was also formed and had its first meeting on 30 June 2003. London 2012 are responsible for selecting the venues for the bid and have announced that Windsor Park will host preliminary games of the football competition. They will also work to maximise the benefits for the whole of the UK through the Nations and Regions Group.

Gaming Industry

Mr. Bellingham: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the likely impact of the draft Gambling Bill on the gaming industry. [168899]

Mr. Caborn: The Government published their assessment of the impact of the draft Gambling Bill on the casino market on 5 February 2004, and on the bingo market on 8 April 2004.

The Joint Committee, which examined our draft Bill, made a number of recommendations for the casino and bingo markets and these are being considered.

Kinetika Arts Link International

Mr. Andrew Turner: To ask the Secretary of State for Culture, Media and Sport how much funding was made available by her Department and its agencies to Kinetika Arts Link International and associated companies for each of the last five years broken down by project; what the intended outcome of each project was; what the agreed assessment criteria for each project were; and what the outcome of each project was. [168849]

Estelle Morris *[holding answer 26 April 2004]:* The information is as follows:

Direct and Indirect Awards to Kinetika Arts Link International

Arts Council England (ACE) is the national development agency for the arts in England. It is responsible for distributing public money from DCMS and the National Lottery to artists and art organisations. ACE received £336.8 million from DCMS in 2003–04 and this will increase to £410.4 million by 2005–06.

Following is the full list of awards Kinetika received either directly or indirectly since April 1999. Kinetika is also coming on stream as a Regularly Funded Organisation of ACE in 2004–05 and will receive £15,000 in the first year, increasing to £30,000 in 2005–06.

Date awarded	*Award recipient*	*Funding strand*	*Purpose of grant/intended outcome*	*Outcomes*	*Amount approved (£)*
2001	Kinetika	Strategic relations development funds	To carry out research in Salvador Carnival in Brazil	Performances in South London schools, Thames Festival and Netting Hill Carnival	550
2001	Isle of Wight Council	Regional Arts Lottery Programme	Community Arts and Carnival Project	Six professional artists, organised through Kinetika, worked in Ryde over a three month period with community groups, schools youth clubs and Isle of Wight artists to develop skills	22,000

Date awarded	Award recipient	Funding strand	Purpose of grant/intended outcome	Outcomes	Amount approved (£)
2002	Isle of Wight Council	Regional Arts Lottery Programme	Carnival Arts Development	Kinetika, Ryde High School and the Adult and Community Learning services worked in partnership to pursue the wider development of carnival across the island over two carnival seasons	59,100
2002	Canterbury Festival	Regional Arts Lottery Programme 2	Canterbury Festival Street Publicity and Profile	The award financed the finale of Kinetika's Yemanja project, in partnership with Strange Cargo. Yemanja combines elements from three carnival traditions (UK, Trinidad, Salvador, Brazil) and includes a performance that includes large visuals/characters (puppets/costumes/ float), live music., choreography, text and ritual	29,754
2002	Kinetika	National Touring Programme	Tour of Yemanja	Yemanja toured major festivals in England including the Ryde Carnival on the Isle of Wight, the Thames Festival and the Canterbury Festival	47,900
2003	Kinetika	National Touring Programme	Tour of Bollywood Carnival (Din Shuru—Daybreak)	The tour enabled a wider audience to enjoy the Bollywood Carnivals at Carnivals across England including the Leicester Belgrave Mela and the Thames Festival	48,000
2003	Canterbury Festival	Grants for the Arts-Organisations	Din Shuru: An Indian Carnival	Kinetika worked with a number of contributors including the Vayu Naidu Company to undertake the Din Shuru project, tracing the impact of the Indian population in shaping Carnival on this island of Trinidad	63,544
2003	Kinetika	Regional Arts Lottery Programme	For organisational development to develop a strategic five year artistic plan, including a review of activities to date, exploration of partnership working opportunities, development of a marketing strategy and new promotional material.	Project due to complete October 2004	29,400
2003	Kinetika	Regional Arts Lottery Programme	To purchase a pool of multimedia equipment including a digital camera, a camcorder, office based and portable video editing facilities (hardware and software), a projector and screen.	Equipment purchased, total value of grant = £10,023	11,137
2004	Kinetika	Grants for the Arts	Towards the costs of a feasibility exercise to review the potential of touring 'Din Shuru—A Bollywood Carnival' to regional Melas, Festivals and Diwali events in 2004.	Project due to complete August2004	5,000
2004	Kinetika	Grants for the Arts	Towards the development of young people's involvement in Carnival Arts in London	Project due to complete March 2005	66,500

New Opportunities Fund

Jim Dobbin: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Heywood and Middleton in each year since 1997. [168526]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to Heywood and Middleton are shown in the table.

Financial year	Amount (£)
1999–2000	28,908
2000–01	114,626
2001–02	177,650
2002–03	985,250
2003–04	1,303,133

The information is freely available from the Department's searchable Lottery award database at

www.lottery.culture.gsi.gov.uk, which uses information supplied by the Lottery distributors.

James Purnell: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Stalybridge and Hyde in each year since 1997. [168748]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to Stalybridge and Hyde are shown in the following table.

Financial year	*Amount (£)*
2000–01	50,000
2001–02	5,500
2002–03	1,860,007
2003–04	139,689

The information is freely available from the Department's searchable Lottery award database at www.lottery.culture.gsi.gov.uk, which uses information supplied by the Lottery distributors.

Regional Development Agencies (Tourism)

Mr. Pike: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the work of regional development agencies in developing tourism in Burnley. [167903]

Mr. Caborn: The North West Development Agency (NWDA) is working closely with Lancashire and Blackpool Tourist Board, the nominated Destination Management Organisation (DMO), for Lancashire. The new DMOs are, in effect, smaller versions of tourist boards. They aim to ensure a strong visitor and market focus to all that is done within the region and strengthen the connection between businesses and other organisations in the tourism sector.

During 2003–04 the Lancashire and Blackpool Tourist Board received £275,000 from the agency's tourism budget for a variety of tourism marketing and development projects.

Mr. Hendrick: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the work of regional development agencies in developing tourism in Preston. [168141]

Mr. Caborn: The North West Development Agency (NWDA) is working closely with Lancashire and Blackpool Tourist Board, the nominated Destination Management Organisation (DMO), for Lancashire. The new DMOs are, in effect, smaller versions of tourist boards. They aim to ensure a strong visitor and market focus to all that is done within the region and strengthen the connection between businesses and other organisations in the tourism sector.

During 2003–04 the Lancashire and Blackpool Tourist Board received £275,000 from the agency's tourism budget for a variety of tourism marketing and development projects. Of this figure £50,000 was targeted towards a marketing campaign for the National Football Museum in Preston.

Jim Dobbin: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the work of regional development agencies in developing tourism in Heywood and Middleton. [168527]

Mr. Caborn: The North West Development Agency (NWDA) is working closely with Marketing Manchester, the nominated Destination Management Organisation (DMO) for Manchester. The new DMOs are, in effect, smaller versions of tourist boards. They aim to ensure a strong visitor and market focus to all that is done within the region and strengthen the connection between businesses and other organisations in the tourism sector.

During 2003–04 Marketing Manchester received £695,000 from the NWDA's Marketing Image Budget for tourism and investment campaigns to promote Manchester. £203,000 was also provided from the agency's tourism budget for a variety of tourism development projects.

Tourism

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what the tourism industry's balance of trade was in each year since 1992. [168588]

Mr. Caborn: The table shows the UK tourism industry's balance of trade from 1992 to 2003.

Balance of payments for UK tourism

£ million

	Expenditure by overseas residents in the UK	*Expenditure by UK residents overseas*	*Balance of payments deficit*
1992	7,891	11,243	3,352
1993	9,487	12,972	3,485
1994	9,786	14,365	4,579
1995	11,763	15,386	3,623
1996	12,290	16,223	3,933
1997	12,244	16,931	4,687
1998	12,671	19,489	6,818
1999	12,498	22,020	9,522
2000	12,805	24,251	11,446
2001	11,306	25,332	14,026
2002	11,737	26,962	15,225
2003[1]	11,902	28,940	17,038

[1] Figures for 2003 are provisional estimates.

Source:
International Passenger Survey

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport (1) what contribution the tourism industry made to gross domestic product in *(a)* absolute terms and *(b)* as a percentage in each year since 1992; [168589]

(2) what the annual growth rate of the UK tourism industry was in each year since 1992. [168590]

Mr. Caborn: Consistent estimates of the gross domestic product (GDP) of the tourism industry are only available since 1998[1]. The table shows *(a)* the GDP, *(b)* the percentage of total UK GDP, and *(c)* the growth rate in each year.

[1] Data prior to 1998 are not comparable due to changes in surveys of domestic tourists.

Tourism industry GDP, contribution to the economy and growth rate

	Estimated tourism GDP		
	(a) Absolute terms (£ billion)	*(b) Contribution to UK economy (percentage)*	*(c) Growth rate (percentage change on previous year)*
1998	42.0	4.9	n/a
1999	44.0	4.9	4.8
2000	45.0	4.7	2.3
2001	443	4.5	-1.6
2002	45.4	4.4	2.5

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport how many people were employed directly in the UK tourism industry in each year since 1992. [168591]

Mr. Caborn: Employment estimates for the tourism industry are only available for Great Britain rather than for the UK. These are shown in the table.

Employment in the tourism related industries[1] in Great Britain

	Number of jobs[2] in Great Britain[3] (million)
1992	1.86
1993	1.81
1994	1.82
1995	1.93
1996	1.92
1997	1.98
1998	1.99
1999	2.07
2000	2.14
2001	2.16
2002	2.18
2003	2.17

[1] The tourism-related industries are comprised of hospitality, travel agencies, tour operators, and cultural, recreation and sporting activities.

[2] Includes both employees and the self-employed. All figures are as at June in the relevant year.

[3] Figures given for self-employment in the tourism industry are derived from the Labour Force Survey. The results of this survey are due to be revised shortly.

DCMS analysis of National Statistics Sources

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport how many overseas visitors came to the UK in each year since 1992. [168592]

Mr. Caborn: The table shows the number of visits by overseas residents to the United Kingdom from 1992 to 2003.

Visits by overseas residents to the UK

	Number (million)
1992	18.5
1993	19.9
1994	20.8
1995	23.5
1996	25.2
1997	25.5
1998	25.7
1999	25.4
2000	25.2
2001	22.8
2002	24.2
2003[1]	24.8

[1] Figure for 2003 is a provisional estimate.

Source:

International Passenger Survey.

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport when she will publish her Department's Prospectus for Tourism; and when it was first announced that a provisional timescale for the publication of the Prospectus for Tourism had been set. [168593]

Mr. Caborn: The Prospectus will be published in the summer. The first round of consultation last year produced a number of valuable contributions. A new draft, reflecting these, is expected to be sent out for final consultation in May. This process reflects the importance of the Prospectus as a statement of actions and responsibilities, agreed by all the major players in tourism in the public and private sectors.

My right hon. Friend the Secretary of State agreed with industry leaders that a new framework document for tourism should be produced, at the third Hartwell seminar in February 2003. This was to follow the Government's major reforms of April 2003, which created VisitBritain and passed strategic responsibility for tourism in the English regions to the Regional Development Agencies. I outlined the likely timescale for publication to the All Party Parliamentary Group on Tourism on 5 November 2003. At that time, I anticipated the publication of the Prospectus in early 2004.

MINISTER FOR WOMEN

Maternity Leave Discrimination

Dr. Cable: To ask the Minister for Women (1) if she will make a statement on the extent of discrimination against women in the workplace who have returned to work after maternity leave; and if she will estimate how many women have been dismissed in each of the last five years on their return from maternity leave; [167848]

(2) what action she plans to take to penalise companies which discriminate against women returning from maternity leave. [167849]

Ms Hewitt: Women are protected under legislation from discrimination, detriment and dismissal for reasons related to pregnancy or maternity leave. Employers who discriminate against women returning from maternity leave are breaking the law and could be liable to pay compensation. They are harming their own businesses by excluding talented women from the workforce.

Unfortunately there are still cases where women are discriminated against. The following table sets out the outcome of applications made to employment tribunals by women who believe they have been unfairly dismissed on grounds of pregnancy maternity or childbirth and women who believe they have been prevented from returning to work following maternity leave.

The Government welcome any new research in this area and looks forward to the results of the Equal Opportunities Commission's Formal Investigation into pregnancy discrimination.

Outcome of applications to employment tribunals 1998–99 to 2002–03. Unfair dismissal on grounds of pregnancy, maternity or childbirth

	Acas conciliated settlement	*Withdrawn or private settlement*	*Successful at tribunal*	*Dismissed at hearing (other reasons)*	*Dismissed at hearing (out of scope)*	*Disposed of otherwise*	*Total disposed in period*
2002–03	369	133	82	73	11	30	698
2001–02	401	165	64	88	9	19	746

HOUSE OF COMMONS

Fair Trade Tea and Coffee

Norman Baker: To ask the Chairman of the Catering Committee whether the *(a)* tea and *(b)* coffee available from dispensers in food outlets in the House is of a Fair Trade origin. [167787]

Mr. Dennis Turner: The Refreshment Department was one of the first organisations to support the Fairtrade movement and has done so for many years. All fresh coffee served by the Department is made from beans approved by the Fairtrade organisation, and fairly traded "Clipper" teas are stocked. In February 2004 the Refreshment Department installed new triple brew vending machines in various locations throughout the Parliamentary Estate. The fresh coffee dispensed by these new machines is fairly traded.

GM Food

Norman Baker To ask the Chairman of the Catering Committee what the Committee's policy is on the purchase of GM food. [167786]

Mr. Dennis Turner: The Refreshment Department remains aware of consumer concern about the presence of GMOs in food and in response to this concern continues to pursue a policy of avoiding, wherever identifiable, the procurement of foods that contain genetically modified organisms. The Refreshment Department will be in contact with its food suppliers once the consultation exercise on the GMO Traceability and Labelling Regulations has been concluded and guidance has been finalised.

Organic Food

Norman Baker: To ask the Chairman of the Catering Committee what steps he is taking to promote the consumption of organic food in House outlets. [167785]

Mr. Dennis Turner: The Refreshment Department is a member of the Soil Association and recognises the significant demand for organic produce. The Department pursues a policy of purchasing organic produce or ingredients wherever consistent availability and quality can be guaranteed by suppliers, and where it is judged that the price to be passed on to the Department's customers is affordable.

The Refreshment Department sells a range of organic foods; the Terrace and 'Debate' cafeterias offer an extensive range of organic yoghurts, sandwiches, muffins, biscuits and drinks. All the coffee served in Portcullis House is organically grown and fairly traded. From time to time, promotions are run to promote organic awareness, sometimes in conjunction with regional promotions.

Parliamentary Passes

Jim Dowd: To ask the Chairman of the Administration Committee if she will list all the classes of pass to the Parliamentary estate, describe each category covered and give the number of each that are currently valid. [164657]

Mrs. Roe: The classes and descriptions of pass categories are set out in the table. This information is already in the public domain. However, for security reasons I am sure the hon. Gentleman will understand, I am not prepared to give the numbers of passes in each category.

Class	*Description*
M	Member of Parliament
MEP	Member of European Parliament

Note:

The Lord Chancellor's Department passes are being changed to Category 17 on renewal.

TRADE AND INDUSTRY

Company Accounts

Brian Cotter: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of public limited companies which failed to disclose details of their payment records in annual accounts as required by company law in the last year for which figures are available; and what steps she is taking to tackle this. [167506]

Mr. Sutcliffe: This information is not collated centrally and, as there are over 12,000 public limited companies, it could be gathered only at disproportionate cost.

Where Companies House receives a complaint that a public company has not disclosed its policy and practice as required by the Companies Act 1985, then it will take enforcement action.

Consumer Codes Approval Scheme

Malcolm Bruce: To ask the Secretary of State for Trade and Industry (1) what steps the Office of Fair Trading have taken to inform consumers of the Consumer Codes Approval Scheme; how much the scheme has cost; and how much of the costs have been spent on advertising and information campaigns; [165496]

(2) which organisations the Office of Fair Trading has granted Stage One approval to in the Consumer Codes Approval Scheme; and from which organisations Stage 1 approval was withheld; [165497]

(3) what evidence the *(a)* Ombudsman for Estate Agents, *(b)* Direct Selling Association, *(c)* Association of British Travel Agents and *(d)* Vehicle Builders and Repairers Association supplied in support of their application to the Consumer Codes Approval Scheme; and if she will make a statement on the Stage 2 award to each organisation; [165498]

(4) what proportion of their respective industries the membership of the *(a)* Ombudsman for Estate Agents, *(b)* Direct Selling Association, *(c)* Association of British Travel Agents and *(d)* Vehicle Builders and Repairers Association represent; and what assessment she made of these proportions before granting Consumer Codes Approval Scheme Stage 2 approval. [165499]

Mr. Sutcliffe: The Office of Fair Trading is responsible for the day-to-day administration of the Consumer Codes Approval Scheme. I will ask the Chairman to write to the hon. Member.

Employment Rights

Jim Dobbin: To ask the Secretary of State for Trade and Industry how many residents of Heywood and Middleton qualify for paid leave entitlements. [168532]

Mr. Sutcliffe: All workers resident in Heywood and Middleton qualify for paid annual leave entitlements; at least four weeks as set out in the Working Time Regulations. While all women are entitled to 26 weeks ordinary maternity leave, only those who meet the eligibility criteria will be able to claim statutory maternity pay for that period.

All employees in Heywood and Middleton who are eligible will be entitled to take statutory paternity leave with pay and statutory adoption leave with pay.

Jim Dobbin: To ask the Secretary of State for Trade and Industry how many residents of Heywood and Middleton have benefited from a reduction of the maximum working week to 48 hours. [168533]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for Heywood and Middleton are not available. However, it has been estimated that around 300,000 workers resident in the North West stood to benefit from the introduction of the weekly working time limits in 1998.

James Purnell: To ask the Secretary of State for Trade and Industry if she will make a statement on the effect on residents of Stalybridge and Hyde of new rights for night-shift workers. [168743]

Mr. Sutcliffe: The Working Time Regulations came into force on 1 October 1998. The regulations limit working time to 48 hours per week averaged over a 17-week reference period. For night workers the limit is eight hours per day on average, including overtime where it is part of a night worker's normal hours of work. There is no opt-out from the night working time limit.

Night workers are entitled to 11 hours rest between working days, one day's rest per week, and a 20-minute in work rest break if the working period is longer than six hours.

All night workers should be offered a free health assessment before they start working night and thereafter at regular intervals for as long as they are working nights. The health assessments should take account of the nature of the work and the restrictions on a worker's working time under the regulations. Workers who suffer from problems as a result of working at night, should as far as practicable be offered alternative day work.

All workers are entitled to four weeks paid annual leave. There is no specific data available for night shift workers in Stalybridge and Hyde.

Estate Agents

Mr. Bailey: To ask the Secretary of State for Trade and Industry how her Department plans to respond to the Office of Fair Trading report on estate agents. [165907]

Mr. Sutcliffe: The Department is now considering the report's findings and recommendations and we aim to publish our response by 18 June 2004.

In the interim, my officials will be meeting estate agents groups, consumer groups and other interested parties during the 90-day period to help inform our response.

Funeral Directors

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many funeral directors are practising in the United Kingdom. [168663]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Malcolm Bruce, dated 27 April 2004:

As National Statistician I have been asked to reply to your recent question concerning the number of businesses which are classified as funeral directors and related services. (168663)

The latest available information is published in the National Statistics bulletin "PA1003—Size Analysis of United Kingdom Businesses for 2003" which shows that there were 525 businesses in the UK in the category of funeral directors and related services in March 2003.

The bulletin is available free of change on the National Statistics website at: http://www.statistics.gov.uk/pal 003.

National Minimum Wage

Mr. Best: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of young people in Leeds who will benefit from the introduction of the minimum wage for 16 to 18-year-olds. [167778]

Mr. Sutcliffe: The Government recently accepted the Low Pay Commission's recommendation that 16 and 17-year-olds should be covered by a new National Minimum Wage of £3.00 per hour, from October 2004.

It is not possible to provide an estimate specifically for Leeds because of small sample size. However, the number of people in the UK who stand to benefit from the new rate is likely to be in the low 10s of thousands.

Mr. Pike: To ask the Secretary of State for Trade and Industry how many workers in Burnley have benefited from the national minimum wage. [167895]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Burnley. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the National Minimum Wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 up-rating of the National Minimum Wage.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will list the *(a)* name, *(b)* industry, *(c)* number of employees and *(d)* geographical locations of those employers formally issued with enforcement notices for not complying with the national minimum wage provisions. [166751]

Mr. Sutcliffe: The Inland Revenue have issued 495 enforcement notices against employers, since the minimum wage was introduced in April 1999.

A breakdown of information is not available in the format you have requested. For reasons of confidentiality, the Inland Revenue does not reveal the identity of the names of employers.

We will be writing to the hon. Member with further details.

Helen Southworth: To ask the Secretary of State for Trade and Industry how many workers in Warrington South have benefited from the national minimum wage. [168704]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Warrington South. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the National Minimum Wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 uprating of the National Minimum Wage.

James Purnell: To ask the Secretary of State for Trade and Industry how many workers in Stalybridge and Hyde have benefited from the national minimum wage. [168745]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Stalybridge and Hyde. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the National Minimum Wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 up-rating of the National Minimum Wage.

Regional Development Agencies

Malcolm Bruce: To ask the Secretary of State for Trade and Industry by what mechanism her Department monitors the effectiveness of the Regional Development Agencies' core indicators beyond the end of year results. [168657]

Jacqui Smith *[holding answer 26 April 2004]:* Responsibility for monitoring the effectiveness of England's Regional Development Agencies (RDAs) sits with the Government Office (GO) in each region. The GO reports provide Ministers with the information required to measure the effectiveness of RDAs, both in terms of their role as a strategic catalyst in the region and in the delivery of specific outputs.

For the first two years of the RDAs' Single Pot (2002–03 and 2003–04), GOs reported to Ministers on RDA performance on a quarterly basis and, from April 2004, the frequency has been reduced to every six months, following the National Audit Office's recommendation in its November 2003 report, "Success in the Regions".

Performance data are published every six months. Mid year data for 2003–04 were published on 4 February 2004 and the end year data will be published before the summer recess.

Royal Mail

Mr. Sanders: To ask the Secretary of State for Trade and Industry what the cost was of withdrawing, reprinting and distributing the RMUK 530 AS leaflet, Mail Made Easy, containing the new postal rates; and if she will make a statement. [168429]

Mr. Timms: This is an operational matter for Royal Mail Group and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Small Businesses (Burnley)

Mr. Pike: To ask the Secretary of State for Trade and Industry what steps the Government have taken to help small businesses in Burnley since 1997. [167893]

Nigel Griffiths: The Business Link Operator for East Lancashire has provided assistance to 927 companies in the Burnley constituency since 2001. The Small Business Service was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 Business Link Operators (seven in the North West) to provide Business Support to small and medium-sized enterprises form April 2001. Before this date, Government Support to businesses was provided through Training and Enterprise Councils and the SBS does not have access to these data.

325 of the 927 companies were starts assisted, those companies who began trading between 1 April 2001 and 31 March 2004.

Companies have received offers of grant from the Research and Development Grant Scheme with a total value of £193,604 since 1997.

Under the Enterprise Grant Scheme, which has recently closed (31 March 2004), 11 companies have received offers of grant with a total value of £314,000 since 1997.

Overall 5,970 companies were assisted in the East Lancashire area, of which 1,666 were business start-ups.

In addition, the Chancellor has taken a number of means to assist SMEs.

Utility Companies

Mr. Best: To ask the Secretary of State for Trade and Industry (1) what plans she has to prohibit cold calling and door-to-door selling by utility companies; [167774]

(2) what measures she is able to take to regulate the selling practices of utility companies. [167775]

Mr. Timms: Utility companies are subject to the range of consumer legislation governing the sale of goods and services. The specific regulation of utility companies is a matter for the individual sectoral regulators. The Government have no plans to prohibit cold-calling or door-to-door sales. In respect of gas and electricity, during 2002, the industry agreed both the EnergySure scheme, to improve the training and oversight of sales staff, and a Code of Practice on doorstep selling. In that year, we also provided OFGEM with the power to levy financial penalties on companies that breached their operating licences. OFGEM subsequently used that power to fine London Electricity £2 million for mis-selling under its own brand and that of Virgin Energy. Complaints about energy mis-selling have significantly declined since 2002.

Mr. Best: To ask the Secretary of State for Trade and Industry if she will introduce legislation to prevent the disconnection of utility supplies due to debt. [167777]

Mr. Sutcliffe: The Government will not introduce legislation to prevent the disconnection of utility supplies because of non-payment of bills. Gas and electricity suppliers have, as a matter of last resort and

subject to a range of safeguards, the right to disconnect customers who have not paid their bills and have ignored repeated requests to do so. The Office of Gas and Electricity Markets (OFGEM), has been in discussion with the energy industry about measures to improve arrangements surrounding disconnections, particularly as they affect vulnerable customers, and will shortly issue an industry consultation paper on the revised arrangements. In electronic communications, disconnection is a matter for the regulator, the Office of Communications (OFCOM). All communications providers must have disconnection procedures that are proportionate and not unduly discriminatory. In water, companies cannot disconnect a domestic customer's supply for debt.

HOUSE OF COMMMONS COMMISSION

Environmental Impact

34. **Norman Baker:** To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what steps the Commission is taking to lessen the House's environmental impact. [168418]

Sir Archy Kirkwood: The Serjeant at Arms commissioned a review of the Parliamentary Estate's environmental performance last year and the final report and recommendations will be available in May. I expect they will cover education and training, further work on energy efficiency consumption, and further development of green purchasing.

Security Arrangements

38. **Mr. Ben Chapman:** To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission if he will make a statement on security arrangements in the Palace of Westminster. [168422]

Sir Archy Kirkwood: The aim of the security arrangements is the protection of Members and staff of both Houses, of all those who visit the Parliamentary Estate, and of our buildings and facilities. In order to achieve this, the authorities of both Houses make every effort to react promptly to the advice of the Security Service and of the Metropolitan Police on any potential threat.

Car Parking Charges

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what recent assessment has been made of the implications of introducing workplace charging for vehicles parked in the House car park. [167793]

Sir Archy Kirkwood: The House has never had a policy of charging for the use of the car park, which is provided for security reasons as well as for the convenience of Members and staff. There has therefore been no specific recent assessment of the implications of charging for use of the car park, but the Greater London Authority Act 1999 contains provisions which would allow the authority or Westminster city council to introduce a licensing scheme for parking in the Palace of Westminster, under which they may levy a charge on the two Houses. The Commission will consider the matter if and when either authority makes proposals for a licensing scheme.

Environmental Audit

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission when the activities of the House were last subject to an environmental audit. [167792]

Sir Archy Kirkwood: The environmental performance of the Parliamentary Estate was reviewed by external consultants earlier this year. Areas of specific examination were general waste management, recycling schemes, energy and water use. The final report and recommendations will be available in May.

Lighting

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what plans the Commission has to increase the provision of *(a)* low-energy lighting and *(b)* lighting activated by movement within the House. [167783]

Sir Archy Kirkwood: We have a budget each year for investment in tactical energy saving measures. These are implemented in order of pay-back priority. Many motion activated lights have already been installed and there is budgetary provision for more.

For all major projects, the initial project brief requires the project manager to consider methods of providing 'energy efficient lighting' as part of the overall design.

Water

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what volume of water was used within the House in each year from 1997 to date. [167791]

Sir Archy Kirkwood: The volume of mains water used on the Parliamentary Estate during each accounting year from 1997 to date is as follows, in cubic metres. It is not possible to provide figures for the House of Commons alone.

Cubic metres

Accounting year	*Volume of mains water*
1997–98	120,000
1998–99	100,000
1999–2000	150,000
2000–01	120,000
2001–02	140,000
2002–03	180,000
2003–04	190,000

WALES

Accountancy Services

Mr. Cousins: To ask the Secretary of State for Wales what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the

accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department. [166084]

Mr. Touhig: Since 2000 the Wales Office has not had any dealings with the named companies.

Road Maintenance

Mr. Wiggin: To ask the Secretary of State for Wales how much money was allocated for local authorities in Wales to be used for road repairs and improvements in each year since 1997; and how much of these amounts was spent on settling legal disputes arising from poor road maintenance. [168013]

Mr. Touhig: In determining the amount of block grant that local authorities receive, the length of roads within their area is taken into account by the National Assembly.

However, the local authority Revenue Support Grant is not hypothecated and it is for individual local authorities to determine how much to spend on road repairs and improvements within their own area. Legal disputes are also a matter for individual authorities.

School and Hospital Closures

Mr. Wiggin: To ask the Secretary of State for Wales how many *(a)* schools and *(b)* hospitals have been closed in Wales since 1997. [163134]

Mr. Touhig: I will answer this question in two parts:

(a) Local Education Authorities are responsible for the provision of suitable education within their locality. The Assembly has set them the target that all school buildings are to be in good physical shape and well maintained by 2010, and to that end, the Assembly has already invested over £300 million in over 3,000 school buildings. In addition, the number of pupils in schools across Wales has dropped by over 3,000 between 1997–98 and 2002–03 and in reflecting the LEAs need to provide access to high quality education for pupils, 52 schools have closed in Wales[1] since 1997.

(b) In relation to part *(b)* of this question, I refer the hon. Gentleman to my earlier answer given on 27 February 2004, *Official Report*, column 608W.

[1] Where the proposal was to close two schools and to re-open a new school on the site of one of these, this has been counted as one closure.

NORTHERN IRELAND

Accident and Emergency Departments

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the average monthly waiting times in accident and emergency departments in each Northern Ireland hospital were in each of the last three years. [168270]

Angela Smith: This information is not collected centrally. Provisional data for the quarter ending 31 December 2003 indicates that 71 per cent. of patients admitted to wards from accident and emergency departments were admitted within two hours of the clinician's decision to admit.

Agriculture Courses

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what progress he has made towards a decision on the future location for the teaching of agriculture at university level in Northern Ireland. [167715]

Mr. Pearson: I announced on Friday 23 April that The Queen's University of Belfast would be responsible for higher-level agri-food education provision from September 2005.

Animal Transportation

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the maximum journey limit is for the transportation of live animals from Northern Ireland. [156115]

Mr. Pearson: In accordance with EU requirements journey limits are set in terms of time periods rather than distance and these are set at different levels for different ages and species of animals and birds in line with their differing physiological needs.

For horses, cattle, sheep, goats and pigs, journey times may not normally exceed eight hours but this may be extended if the vehicle meets a range of additional welfare standards relating to feed, bedding, ventilation, inspection and water supply. In such circumstances:

(a) Horses (except registered horses) may be transported for a maximum of 24 hours provided that they are given water and, if necessary, fed every eight hours;

(b) Pigs may be transported for a maximum of 24 hours provided that they have continuous access to water;

(c) Unweaned calves, lambs, kids, piglets and foals which are still on a milk diet may be transported for a maximum of nine hours after which they must be given a rest period of one hour in which they are given liquid and, if necessary, fed. After this rest period they may be transported again for another nine hours; and

(d) Cattle, sheep and goats may be transported for a maximum of 14 hours after which they must be given a rest period of one hour in which they are fed and watered. After this rest period they may be transported again for another 14 hours.

Poultry, domestic birds and domestic rabbits may not be transported for more than 12 hours and newly hatched chicks for not more than 24 hours unless after such time food and water are provided.

Area Plans

Mr. Trimble: To ask the Secretary of State for Northern Ireland what costs have so far been incurred in the preparation of the Belfast Metropolitan Area Plan. [168216]

Angela Smith: The cost to date of the production of the Belfast Metropolitan Area Plan is £2,800,000.00.

Mr. Trimble: To ask the Secretary of State for Northern Ireland how many area plans are in place in Northern Ireland; and how many are under preparation. [168217]

Angela Smith: There are currently 19 existing area plans in place and 10 area plans under preparation in Northern Ireland.

Autism

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what recent changes have been made in accessing multi-agency multi-disciplinary diagnosis and assessment services at an earlier stage in relation to autistic spectrum disorder. [167719]

Angela Smith: The Department's Priorities for Action 2004–05 requires boards and trusts to establish multidisciplinary diagnostic, assessment and early intervention teams to provide for improved life outcomes for around 200 children and young people with autism per year. An additional £0.5 million has been allocated for this purpose.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what changes have been made in *(a)* school-based and *(b)* home-based educational and therapeutic provision since the report of the task group on autism. [167720]

Mr. Gardiner: The Department of Education and the five Education and Library Boards have responded positively to the Report of the Task Group on Autism.

The Department of Education has actively sought additional resources. In relation to school-based provision, in 2003–04, £500,000 was invested to provide an eclectic mix of training and awareness-raising programmes in the pre-school sector. £550,000 per annum will be provided from 2004–05 to allow each Board to put in place an ASD Team dedicated to the educational needs of children with Autism and to form an Inter Board ASD Group. This will enhance local provision and enable school-based support to be put in place.

In relation to home-based provision the Boards have sanctioned and are funding a number of home-based programmes for children with ASD. Consequently the Education and Training Inspectorate (ETI) has designed a strategic pathway to enable it to evaluate and identify effective practice in this area.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the TEACCH educational programme for young people with autistic spectrum disorders. [167723]

Mr. Gardiner: No overall assessment has been made of the TEACCH educational programme for young people with autistic spectrum disorders. This is because during the course of school inspections the Education and Training Inspectorate (ETI) inspect the quality of the teaching and learning as it meets the individual needs of the child in the school setting. This may involve a range of programmes but the specific interventions are not inspected in isolation. Between 1998 and 2000 the ETI undertook "A Survey of Provision for Pupils with Severe and Profound Learning Difficulties in NI". This included a section on provision for pupils with autism, which commented favourably on the use of TEACCH in the classroom by the teachers surveyed.

For the Education and Library Boards, the ongoing assessment of TEACCH, as with other programmes, is a natural element of the work of school-based staff who are experienced and/or trained in this approach.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the effects of applied behaviour analysis in the education of children with autistic spectrum disorders. [167724]

Mr. Gardiner: To date no overall assessment of the effects of commercially available home-based ABA programmes has been undertaken at service level by the Department of Education. This is because, during the course of school inspections, the Education and Training Inspectorate (ETI) inspect the quality of the teaching and learning as it meets the child's individual needs in the school setting. This may involve a range of strategies but the specific programmes are not inspected in isolation.

Several Education and Library Boards (ELBs) are currently making ABA provision for children on the basis of individual need. They will be carefully considering the progress made by pupils on these programmes and the Department will be interested in the outcomes. As a contribution to the development of ABA, the ETI is evaluating a pilot ABA programme in a pre-school setting in one ELB area. Consequently the ETI has designed a strategic pathway to enable it to evaluate and identify effective practice in home-based programmes for children with Autism.

On an on-going basis, ELBs review children with statements of special educational needs through the statutory annual review procedures.

Civil Partnership Bill

Mr. Donaldson: To ask the Secretary of State for Northern Ireland (1) when the decision was made to include Northern Ireland in the Civil Partnership Bill; [168476]

(2) what assessment he has made of the results of the consultation on civil partnerships in Northern Ireland; [168477]

(3) when he will publish his response to the consultation in Northern Ireland on civil partnerships; and if he will make a statement. [168478]

Mr. Pearson: The consultation paper 'Civil Partnership: A Legal Status for Committed Same-Sex Couples in Northern Ireland' was published on 19 December 2003 with responses invited up to 5 March 2004. The views expressed in response to the consultation reflect the diversity of opinion in our society. All responses have been examined carefully and the points made, both points of principle and detailed comments, have been properly taken into account. Having considered the responses and reflected upon the issues raised, it was concluded that the reasons why we put forward these proposals in the first place still held good. That decision was confirmed publicly in the Press Release issued on 31 March 2004 and the Civil Partnership Bill published on that date included Northern Ireland provisions.

Officials have compiled a report analysing the responses and outlining the Government's approach to the issues raised by respondents. This report will be published within the next few weeks.

Civil Service

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the total cost was of the recent industrial action by staff of the Northern Ireland Civil Service. [168200]

Mr. Pearson: The information requested is not readily available and could be obtained only at disproportionate cost.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many civil servants there were in Northern Ireland in each year since 1996, broken down by *(a)* grade and *(b)* department. [156975]

Mr. Pearson: I have placed tables in the Library which detail the number of Northern Ireland civil servants, by grade and department, there were in each year since 1996 in the 11 Departments of the Northern Ireland Administration, the Northern Ireland Office, the Police Service of Northern Ireland (formerly the Police Authority for Northern Ireland/RUC Civilian), Northern Ireland Assembly and Invest Northern Ireland.

Community Children's Services

Mr. Beggs: To ask the Secretary of State for Northern Ireland what measures are in place to *(a)* develop community children's services in Northern Ireland and *(b)* encourage the recruitment of more community children's nurses. [168273]

Angela Smith: All HSS Trusts now provide a community children's nursing service. There are now approximately 44 community children's nurses in post across Northern Ireland with a small number working in the voluntary sector. Boards and trusts have supported the development of the service by commissioning the training of nurses in this field over a number of years. Children's nurses working in the hospital setting have been attracted to community practice and to undertake further training required in community children's nursing. Workforce planning remains the responsibility of the HSS boards and trusts who identify their needs and request the training of additional staff through the established education commissioning process. It is anticipated that a further 10 nurses will commence training provided by the University of Ulster in September 2004.

Councillors (Allowances)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the terms are of the offer made by the Department of the Environment in relation to allowances which are to be payable to councillors in Northern Ireland for carrying out their duties. [168298]

Angela Smith: The terms offered to representatives of the National Association of Councillors, to modernise the system for the remuneration of councillors, involves two-stages.

Stage 1 is a package, which would include the abolition of attendance allowance; a basic allowance of £7,500, to reflect the loss in income from attendance allowance; and a substantial increase in the level of special responsibility allowance to between £15,000 and £70,000, available to councils to distribute.

Stage 2 would introduce primary legislation to enable regulations to be made. These regulations could be introduced depending on the outcome of the Review of Public Administration.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for Northern Ireland if he will list the employment agencies which his Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163818]

Mr. Pearson: The employment agencies used by the 11 Departments of the Northern Ireland Administration and the Northern Ireland Office to supply temporary staff are detailed as follows:

Health Services (Newtownards and North Down)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the equity of resource allocation studies by the Eastern Health and Social Services Board and what conclusions he has drawn, in relation to the provision of services for those residing in the Newtownards and North Down Region; and if he will make a statement. [167725]

Angela Smith: In line with departmental policy, the Eastern Board is responsible for the equitable distribution among its local populations of the resources provided to it by the Department. In doing so, the Board has developed a locality equity strategy which has, and will continue to, skew additional resources towards those local populations assessed as being underfunded in relation to their target share of resources determined by an evidence based formula. Resources skewed towards the North Down and Ards locality in 2004–05 have resulted in a reduction of the relative under investment position by £0.329 million. In addition, a further £0.6 million has been provided to support Family and Child Care services in North Down and Ards. The locality equity assessment will be revised next year as the latest research into needs-based allocations becomes available.

Hospital Admission Procedures

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will appoint an experienced individual or group *(a)* to conduct a Province-wide appraisal of the course of hospital admissions and *(b)* to suggest means of enhancing efficiency from the primary care assessment stage through to ward discharge; and if he will make a statement. [167605]

Angela Smith: Improving the flow of emergency hospital admissions is a key priority for my Department. A target has been set to reduce by a third the number of patients waiting more than two hours in an accident and emergency department between the decision to admit and admission to a ward, by 31 March 2005 compared to 2003–04 levels. Boards and trusts are required to submit proposals to streamline processes relating to emergency patients flows to the Department by 31 August 2004.

The Department plans to take forward a regional initiative during 2004–05 to improve the flow of emergency patients through hospital. This regional programme, which will ensure that recognised best practice is implemented across all hospitals, will be overseen and directed by a Regional Steering Group comprising people with a wide range of experience in this area. It will build on work undertaken in the Eastern Board area over the past year which examined the way hospitals admitted emergency patients, how those patients moved through the hospital system and how they were discharged, and the experiences of similar programmes developed by the Modernisation Agency in England.

Housing

Mr. Beggs: To ask the Secretary of State for Northern Ireland if he will make a statement on the availability of properties for first-time buyers in Northern Ireland. [168190]

Mr. Spellar: While there are no specific properties made available for first time buyers, price being the main factor in determining whether or not a specific property is appropriate for a first time buyer, the vast majority of new houses constructed in Northern Ireland are affordable to first time buyers.

The Housing Executive's house sales scheme and my Department's Co-ownership scheme also make a vital contribution in providing a stock of suitable properties for first time buyers.

The Housing Executive's house sales scheme has enabled over 105,000 tenants to become home owners while the Co-ownership scheme has, since its inception in 1978, helped over 17,500 participants to become homeowners on an equity sharing basis, with over 13,000 of these eventually moving to full home ownership.

According to lending sources 13,000 mortgages were advanced to first time buyers in 2003, and DSD and NIHE statistics indicate that almost half of these applied to NIHE house sales and Co-ownership transactions.

Nurses

Mr. Beggs: To ask the Secretary of State for Northern Ireland what steps he is taking to encourage the recruitment and retention of nurses in Northern Ireland; and if he will make a statement. [168266]

Angela Smith: Recruitment and retention of nursing staff is a matter for individual employers. In recognition of recruitment difficulties the annual number of pre-registration nurse training places was increased from 580 to 680 in 2001 and 750 in 2002 and these increases have been maintained. There are currently around 2,300 nursing students undergoing training.

Local employers attend annual "Job Fairs" arranged by Queen's University and University of Ulster and these provide additional opportunities to recruit staff and promote nursing as a career.

Existing employees have opportunities to participate in post-registration training to meet service needs and enhance career progression.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many school *(a)* full-time and *(b)* part-time nurses are employed within each Northern Ireland Education and Library Board area. [168274]

Mr. Gardiner: The information available in respect of the number of *(a)* full-time and *(b)* part-time nurses employed by each Northern Ireland Education and Library Board is detailed follows.

Number of nurses

	Full-time	*Part-time*
BELB	0	0
NEELB	0	[1]3
SEELB	0	[2]5
SELB	[3]4	[3]7
WELB	0	0

[1] Two share one post.
[2] Four nurses and one matron.
[3] Staff are engaged by the board as nurses, matrons and pupil welfare auxiliaries.

Police Stations

Lady Hermon: To ask the Secretary of State for Northern Ireland what funding has been made available for the maintenance and renovation of police stations in Northern Ireland in each of the past five years; and what steps he is taking to improve *(a)* security and *(b)* working conditions in police stations. [144348]

Mr. Paul Murphy: The question of optimising resources made available for policing, including the maintenance and renovation of properties in the police estate, is a matter for the Chief Constable, in consultation with the Policing Board.

I have been advised that a total of £35.1 million was made available for maintenance works in the last five years. This is broken down as follows:

	£ million
2003–04	8.1
2002–03	8
2001–02	7
2000–01	7
1999–2000	5

With regard to the security of police stations, the relevant District Commanders keep the security measures at PSNI stations under constant review, with additional expert advice and guidance available, when required, from specialists at PSNI Headquarters.

In relation to improving working conditions, the maintenance funding delivers a programme of works specifically designed to achieve uniformity of working conditions at all stations to Home Office/PSNI accommodation standards. Considerable emphasis is being placed on improving environmental management, heating and ventilation, upgrading lighting and compliance with Disability Discrimination Act requirements.

Lady Hermon: To ask the Secretary of State for Northern Ireland when each police station in Northern Ireland was last substantially refurbished. [144349]

Mr. Paul Murphy: The police have advised that all major District Command Unit Headquarter stations are refurbished on a five year cycle, although maintenance required to address Health and Safety concerns is expedited on an annual basis. All Sector stations are subject to Condition Surveys every three years with resulting maintenance works expedited within the following twelve months.

Stolen Cars

Lady Hermon: To ask the Secretary of State for Northern Ireland how many cars were reported stolen in each police district in Northern Ireland in the last five years for which figures are available; how many of these cars were later recovered; and what steps he is taking to tackle car crime in Northern Ireland. [156937]

Mr. Paul Murphy: The following tables set out the numbers of vehicles stolen in each police District Command Unit, over the past five years, together with the number of vehicles recovered.

	1999		*2000*		*2001*	
	Stolen	*Recovered*	*Stolen*	*Recovered*	*Stolen*	*Recovered*
Antrim	233	200	225	191	229	186

Total	7,559	6,485	5,149	4,166

In March 2003 the Government published a Community Safety Strategy—Creating a Safer Northern Ireland through Partnership. One of the nine key issues specified in the strategy related to car crime. The Strategy has an aim of reducing car crime by 10 per cent. by 2007, using 2001–02 as a baseline year. A number of activities were defined in the Strategy document and many of these have commenced.

During the period March to May 2002 the PSNI implemented Operation Clean Up in the Greater Belfast area, an operation that removed unlicensed vehicles from public roads. In that period 940 vehicles were removed with 83 per cent. of them being destroyed. This operation had a major impact on crime with the reported crimes of domestic burglary, theft of vehicles and "drive offs" from petrol stations significantly reduced; road traffic accidents were also down by 13 per cent., vehicle arsons were down by 23 per cent. and the number of vehicles removed by Councils down by 32 per cent.

Since then further similar exercises have been completed in Londonderry, Tyrone, Ballymena and Larne.

Funds have now been secured to deliver an extended car crime project, based upon Operation Clean Up, and discussions are currently on going with the PSNI, DVLNI and Belfast city council.

In a partnership of organisations led by the Probation Board and funded by the NIO the IMPACT project was established in West Belfast. The aim of the project is to reduce the level of car crime related incidents by targeting those involved and those who are vulnerable to involvement to such activity, through the provision of structured preventative, diversionary and interventionist programmes. This project has recently been given funding for the period up to March 2006.

The PSNI have undertaken a number of specific initiatives to tackle offenders. A special Auto Crime Team has been established which operates mainly in the West Belfast area, to tackle the problems associated with "joy riding". This has proved to be very successful with a significant number of arrests being made and individuals prosecuted.

In addition a number of local initiatives have been undertaken throughout Northern Ireland which are supported by advice and leaflets from local crime prevention officers.

Since 2003 the Government have introduced legislation which brought in some new offences and tougher penalties for offences such as aggravated vehicle taking, dangerous driving, causing death by dangerous driving, causing death by careless driving while under the influence of alcohol or drugs and causing death or grievous bodily injury by aggravated vehicle taking. The PSNI will have powers of arrest for drivers who drive while disqualified. Many of these legislative proposals are currently published for consultations. It is anticipated that any new offences and changes to the maximum sentences available will be in place and operational by autumn 2004.

Teaching Assistants

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many *(a)* full-time and *(b)* part-time teaching assistants there were in each Northern Ireland Education and Library Board area in each of the last three years. [168198]

Mr. Gardiner: The available information in respect of the number of *(a)* full-time and *(b)* part-time teaching assistants employed in each of the last three years in each Education and Library Board area across the school sectors is detailed as follows:

Full/part-time classroom and nursery assistants in controlled and maintained schools

	2001	2002	2003	Total
BELB				
Full-time	294	306	329	929

The information for 2001 in respect of voluntary grammar schools and grant-maintained schools is not readily available.

Truancy

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he is taking to tackle truancy from schools in Northern Ireland. [148770]

Jane Kennedy: The responsibility to ensure regular attendance at school rests primarily with parents. Where a school has concerns about a pupil's attendance, a referral can be made to the Education Welfare Service. An officer will normally visit the home to assess the situation and then determine appropriate follow up action based on the underlying reasons for poor attendance.

The Department of Education has recently made funds available to the Education and Library Boards for a computerised database for the Education Welfare Service aimed, among other things, at tracking and monitoring pupils whose attendance is a cause for concern. In addition a pilot project aimed at promoting the habit of regular attendance at an early age is currently under way in a number of primary schools. Following a full evaluation of this project the Department will consider if it could usefully be extended to other schools.

Ulster Hospital

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to ensure adequate capacity at the Ulster Hospital; and if he will make a statement. [167726]

Angela Smith: The Ulster Community and Hospitals Trust has taken a number of steps to increase capacity at the Ulster Hospital and improve access to key hospital services. These steps have included the introduction of additional hospital beds, increased provision of services in the community, and a number of projects to improve the flow of patients through the hospital.

In the longer term, a major capital redevelopment programme is underway that will further increase capacity at the Ulster and ensure that patients have ready access to high quality hospital services in a state-of-the-art environment.

HOME DEPARTMENT

Animal Experiments

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what cost/benefit analysis has been conducted regarding animal experimentation. [165891]

Caroline Flint: The Home Office has not itself conducted a general cost/benefit analysis regarding animal experimentation. Various competent bodies have considered whether animal experimentation is valid and justified, including the Animal Procedures Committee and the House of Lords Select Committee on Animals in Scientific Procedures. They have concluded, in line with the consensus within the scientific community, that there is a continuing need for animal research and testing.

A form of cost benefit assessment of individual programmes of work has to be undertaken before the Home Office grants licences under the Animals (Scientific Procedures) Act 1986 to authorise the use of animals. Such licences can accordingly only be granted where, among other considerations, the likely benefits of the work are expected to outweigh the welfare costs to the animals involved. No animal procedures are therefore lawfully carried out which have not been fully justified.

More information about the statutory cost benefit assessment used in particular cases can be found at Appendix I of Guidance on the Operation of the Animals (Scientific Procedures) Act 1986 (HC321).

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what research has been conducted into the effects on animals of heterotopic transplants. [165892]

Caroline Flint: Heterotopic transplants of organs are those in which the transplanted organ is not located at the same anatomical position as the animal's own organ, for example, where a third kidney is implanted into the abdomen. We are not aware of any research carried out in the United Kingdom, or elsewhere, exclusively to study the effects of such transplants on the welfare of the animals concerned.

Such transplants have been carried out under the Animals (Scientific Procedures) Act 1986 to investigate aspects of the performance of the transplanted organs, and causes of transplant rejection and methods of overcoming this problem. Significant scientific findings have been published in peer-reviewed scientific journals. The effects on the welfare of the animals would be reported in records maintained by the researchers.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the openness of the *(a)* regulation and *(b)* licensing procedures in relation to animal experimentation. [165893]

Caroline Flint: For some time now the Government has taken the view that greater openness and transparency regarding the regulation and use of animals in scientific procedures is desirable, providing it does not jeopardise the safety of individual scientists and their establishments, or their legitimate commercial and intellectual interests.

We have undertaken to review all statutory bars to the disclosure of information as part of our commitment to freedom of information, including section 24 of the Animals (Scientific Procedures) Act 1986, the so-called 'confidentiality clause'. Section 24 makes the unauthorised disclosure of confidential information relating to the use of animals in scientific procedures by Home Office Ministers and officials, members of the Animal Procedures Committee, and others appointed for specific purposes under the Act, a criminal offence. I hope to announce the outcome of the review of section 24 shortly.

Separately, in our response to the report of the House of Lords Select Committee on Animals in Scientific Procedures, published in January 2003 (Cm 5729), we announced plans to publish summary information relating to project licences issued under the 1986 Act as part of the Home Office publication scheme under the Freedom of Information Act 2000. Home Office officials are working out the practical arrangements with licensees now and we plan to publish the first summaries in the autumn 2004.

At the same time, we have concluded that there would be value in the Animals (Scientific Procedures) Inspectorate publishing an annual report on its work. The Inspectorate's first annual report will also be published in the autumn of 2004. In addition, the Inspectorate has an active outreach and education programme to inform stakeholders about the regulatory system and the Home Office web-site includes a range of material relating to the implementation of the 1986 Act.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how the classification of animal experiments is decided. [165894]

Caroline Flint: The Home Office issues project licences under the Animals (Scientific Procedures) Act 1986 for the use of protected animals for experimental and other scientific purposes.

Project licences are assigned severity bands reflecting the average overall level of suffering likely to be experienced by the animals used on authorised programmes of work. Each protocol within a programme of work is assigned a severity limit which sets the maximum permissible level of suffering which could be experienced by any single animal used on that protocol.

There are four severity bands and four severity limits: unclassified, mild, moderate and substantial. Definitions of these categories are provided in paragraph 5.42 of the published Home Office Guidance on the Operation of the Animals (Scientific Procedures) Act1986(HC321).

Mrs. Calton: To ask the Secretary of State for the Home Department what official Home Office classification was approved for experiments on primates by Imutran Ltd. [166357]

Caroline Flint: The Imutran Limited research licensed by the Home Office under the Animals (Scientific Procedures) Act 1986 involving pig to non-human primate xenotransplantation studies was carried out between 1994 and 2000 under three project licences all of which were allocated an overall severity band of 'moderate'. In addition, of the 28 separate protocols of regulated procedures authorised under these licences, two were allocated substantial severity limits, 16 were classified as moderate, seven were classified as mild, and three were unclassified.

The administrative system under the Animals (Scientific Procedures) Act 1986 distinguishes between the 'severity limit' of a protocol and the 'severity band' of a project. The severity limit of a protocol is determined by the upper limit of the expected adverse effects that may be encountered by the animal involved, taking into account the measures specified in the licence for avoiding and controlling adverse effects. It represents the worse potential outcome for any animal subjected to the series of regulated procedures in the protocol, even if it may only be experienced by a small number of the animals to be used. Severity limits are categorised as unclassified, mild, moderate and substantial. Definitions of these categories are provided in paragraph 5.42 of the published Guidance on the Operation of the Animals (Scientific Procedures) Act 1986 (HC321).

The allocation of a severity band to a project reflects the number of animals used on each protocol and the actual suffering likely to be caused as a result. It is based on the overall level of cumulative suffering to be experienced by each animal, not just the worst possible case. It takes into account the proportion of animals expected to reach the severity limit of the protocol and the duration of the exposure to that severity limit, the nature and intensity of the adverse effects, and the actions to be taken to relieve the suffering.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 8 March 2004, with regard to Mohammed Riaz. [167262]

Mr. Blunkett: I wrote to my right hon. Friend on 26 April 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department (1) when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 8 March, with regard to Miss Tornish; [167263]

(2) when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton.

Mr. Blunkett: I wrote to my right hon. Friend on 27 April 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 8 March 2004, with regard to Mr. Abdul Hussain Talash. [167264]

Mr. Blunkett: I wrote to my right hon. Friend on 20 April 2004.

Crime (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts in Birkenhead has been since 1997. [166485]

Ms Blears: The information requested is not available centrally.

Birkenhead comes within the Wirral Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk

Mr. Frank Field: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Birkenhead since 1997. [166487]

Ms Blears: As part of the Crime Reduction Programme, £358,000 was provided in 2001 to the Wirral metropolitan borough council for an extension of their CCTV network covering various locations in Birkenhead, New Ferry and Liscard.

A further £187,000 was allocated to a CCTV project in New Brighton, in a neighbouring constituency.

No separate figure is available specifically for Birkenhead.

Mr. Frank Field: To ask the Secretary of State for the Home Department what public funds were spent on tackling drug misuse in Birkenhead in *(a)* 1997–98 and *(b)* 2003–04. [166488]

Caroline Flint: Breakdown of financial allocation to local constituencies is not available in the form requested as funding is allocated to Drug Action Team (DAT) area (Wirral DAT).

In 1997–98 funding available to the two main local drug treatment providers in the area totalled £610,452.

	Fund	*Treatment provider*	*Budget headings*	*Amount*	*Source of information*
Wirral health authority	AID/HIV moneys	Wirral West Cheshire partnership Trust	Aids /HIV	39,137	PCT records
			Needle and Syringe Exchange	152,411	
			Infection control nurse	12,304	
			Drug Service budget	109,852	
			Total	313,704	
Wirral MBC Social Services Department	Social Services Grant	ARCH Initiatives	SS Grant for counselling and support and residential services	296,748	Wirral MBC and Arch Initiatives
			Total	296,748	

In 2003–04 the total drugs allocation was £5,265,567. This figure includes new funding streams as part of the National Drug Strategy (please see table). The two years are therefore not directly comparable.

2003–04	*£*
Partnership Capacity (DAT CAD and DAT DEV and Strategic grant)	80,328
Treatment Pooled Budget	4,299,273
Through Care After Care Pump Priming	35,000
Building Safer Communities[1]	362,745
Young people	488,221
Total	5,265,567

[1] Contains non drug elements

Crime (Wirral, South)

Mr. Ben Chapman: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicles thefts in Wirral South has been since 1997. [166630]

Ms Blears: The information requested is not available centrally.

Wirral South comes within the Wirral Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk

Mr. Ben Chapman: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Wirral South since 1997. [166631]

Ms Blears: As part of the Crime Reduction Programme, £358,000 was provided in 2001 to Wirral metropolitan borough council for an extension of their CCTV network covering various locations in Birkenhead, New Ferry and Liscard.

A further £187,000 was allocated to a CCTV project in New Brighton, in a neighbouring constituency.

Cyclists

Mr. Redwood: To ask the Secretary of State for the Home Department what guidance the Government have issued to *(a)* the police and *(b)* transport authorities concerning handling cases of cyclists ignoring red traffic lights. [165963]

Caroline Flint: None. It is an offence for a cyclist not to comply with light signals controlling traffic. Only the police have the power to enforce this offence.

The enforcement of cycling offences is an operational matter for chief officers.

Detention and Training Orders

Bob Spink: To ask the Secretary of State for the Home Department how many detention and training orders have been made in each year since their introduction; and if he will make a statement. [167076]

Paul Goggins: The information requested is contained in the table.

Juveniles sentenced to detention and training orders, England and Wales, April 2000 to December 2002

	Number of juveniles sentenced to detention and training orders
2000[1]	5,074
2001	7,069
2002	6,684

[1] From 1 April.

Statistics for 2003 will be published in the autumn.

Drug Consumption Rooms

Paul Flynn: To ask the Secretary of State for the Home Department what assessment he has made of the European Monitoring Centre for Drugs and Drug Addiction's recent report on drug consumption rooms; and if he will make an assessment of the case for introduction of such schemes in the United Kingdom. [166822]

Caroline Flint: The Home Office and the Department of Health are currently reviewing the European Monitoring Centre for Drugs and Drug Addiction's (EMCDDA) report.

The supervision of prescribed drugs in front of trained staff is a well-established practice. The UK will not contravene or undermine UN Conventions or the Misuse of Drugs Act and facilities for supervising the consumption of illegal drugs would fall foul of these. Therefore no authority could be given to the piloting of initiatives to supervise the consumption of illegal drugs.

Drug Treatment and Testing Orders

John Mann: To ask the Secretary of State for the Home Department how many drug treatment and testing orders were issued in 2003. [168481]

Caroline Flint *[holding answer 26 April 2004]:* Between 1 January 2003 and 31 December 2003 7,866 drug treatment and testing orders were made in England and Wales.

Drugs Misuse (Manchester)

Mr. Kaufman: To ask the Secretary of State for the Home Department what public funds were spent on tackling drugs misuse in Manchester Gorton in *(a)* 1997–98 and *(b)* 2003–04. [167470]

Caroline Flint: Figures are not available for 1997–8.

Figures for 2003–04 are available for Manchester as a whole only. In 2003–04 the following amounts were spent on tackling drugs misuse in Manchester City Council area.

	£
Adult Pooled Treatment Budget:	3,390,000
Young People's Pooled Budget	996,485
Building Safer Communities	1,082,189
Criminal Justice Interventions Programme (Capacity Building and Throughcare and Aftercare)	800,000
Drug Testing (within Greater Manchester Police Force area)	1,198,491.65
Total	7,467,165.65

Gamekeepers

Mr. Gray: To ask the Secretary of State for the Home Department How many gamekeepers have been convicted in the last 10 years of the illegal killing of hen harriers. [167197]

Caroline Flint *[holding answer 22 April 2004]:* Information collected centrally by the Home Office on court proceedings in relation to wildlife does not enable the type of bird involved to be identified, nor the status of the person convicted.

Justice and Home Affairs Council

Mr. Connarty: To ask the Secretary of State for the Home Department what the outcome was of the Justice and Home Affairs Council held on 30 March; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [165594]

Caroline Flint: I wrote to the European Scrutiny Committee on 5 April reporting the outcome of the Justice and Home Affairs Council.

Parole

Mrs. Gillan: To ask the Secretary of State for the Home Department how many life sentence prisoners have been released on parole during each of the last 48 months. [168020]

Paul Goggins: The requested information is shown in the table.

Releases on life licence April 2000-March 2004

March	2004	38

[1] Information for April 2000-March 2001 relates to first time release cases only. Subsequent data also include cases where prisoners have been re-released following recall from life licence.

Part 1 Warrant

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether the information required to be provided on the face of a part 1 warrant, including a European Arrest Warrant, is specified in legislation. [165887]

Caroline Flint: The information required to be provided on the face of a part 1 warrant is specified in section 2 of the Extradition Act 2003.

Prison Drug Treatments

John Mann: To ask the Secretary of State for the Home Department what the cost per offender was of each drug treatment and testing order in 2003 in *(a)* Nottinghamshire and *(b)* England. [168209]

Paul Goggins: This information is not held centrally but the recent report by the National Audit Office, "The Drug Treatment and Testing Order (DTTO): early lessons" reported that the unit cost of an order in 2002–03 in the areas they visited varied from £5,258 to £7,592. Nottingham Probation Area has advised us that the approximate average cost of a DTTO in Nottinghamshire was £5,363.

Prisoners

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners in 2003 began training, education or offender behaviour programmes but were unable to complete these courses due to *(a)* transfer to another establishment and *(b)* release from custody. [168028]

Paul Goggins: In 2003 approximately 8,300 prisoners began accredited offending behaviour programmes. Of the 6,946 commencements of general offending behaviour programmes—Enhanced Thinking Skills and Reasoning and Rehabilitation—95 prisoners (1.4 per cent.) did not complete because they were transferred and 16 (0.2 per cent.) did not complete because they were released. The percentage of prisoners not completing other accredited programmes for these reasons would have been similar or lower.

Equivalent information on non-completion is not collected centrally for prisoners' training and education.

John Mann: To ask the Secretary of State for the Home Department how many prisoners were assessed as having drug-related problems on *(a)* entry to and *(b)* exit from each (i) HM Prison Service establishment and (ii) privately run prison establishment since January 2003. [168206]

Paul Goggins: Figures on the number of prisoners assessed on entry as having a drug-related problem are not recorded centrally, but epidemiological studies show around 54 per cent. of new receptions to be problematic drug misusers and that around 80 per cent. of prisoners had used drugs at some point before coming into custody. All prisoners receive a healthcare assessment on reception. This resulted in detoxification being provided to 50,701 prisoners in 2002–03, 4,085 of whom were in the contracted estate.

All prisons employ drug counselling, assessment, referral and throughcare (CARATs) teams, who, among other tasks, are responsible for putting problematic drug using prisoners in touch with community support on leaving prison. CARATs teams dealt with 52,000 prisoners in 2002–03 at all stages in their sentence.

No separate assessment of drug-related problems is made at the point offenders leave prisons. There will always be a heightened risk of relapse on return to the community and a key aim of the Criminal Justice Interventions Programme is to strengthen continuity of treatment and reduce that risk.

Prisons

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department whether, under future market tests of publicly run prisons, staff transferred to a private sector operator will be protected by the two tier workforce provisions applicable to local government employees in a similar position. [161960]

Paul Goggins: The Home Office complies with policy for Central Government Departments and Agencies on the handling of staff transfers. The Transfer of Undertakings (Protection of Employment) Regulations 1981 ("TUPE") govern the majority of such staff transfers and contractors are normally also required to apply the principles set out in the Cabinet Office Statement of Practice "Staff Transfers in the Public Sector" and its annex "A Fair Deal for Staff Pensions". The Home Office does not propose to extend this further to mirror the two-tier workforce provisions contained in the Local Government Code of Practice on Workforce Matters.

Young Offenders

Bob Spink: To ask the Secretary of State for the Home Department how many young offenders were held in secure accommodation by each local authority social services department on the latest date for which figures are available. [164203]

Paul Goggins: The number of young offenders held under sentence in local authority secure children's homes on 29 March 2004, by Youth Offending Team, is given in the table.

INTERNATIONAL DEVELOPMENT

HIV/AIDS

Mr. Watson: To ask the Secretary of State for International Development what research he has commissioned on microbicide creams to prevent the spread of HIV. [166839]

Mr. Gareth Thomas: DFID has been an early and leading bilateral supporter of work on microbicides, spending nearly £18 million to date. DFID has committed a grant of £16 million over five years (2001–06) for the Microbicide Development Programme, which is coordinated by the Clinical Trials Unit of the UK Medical Research Council (MRC), and Imperial College London. The programme is implementing research studies to investigate the effectiveness of promising microbicide products, involving research centres in five African countries. DFID also provides support to the International Partnership for Microbicides (IPM) to accelerate the discovery, development and accessibility of microbicides, and International Family Health (IFH) and the Population Council to develop policy dialogue, advocacy and networking around microbicides development and access.

DFID supported and jointly chaired the international Microbicides 2004 conference, which was held in London, 28 March to 1 April 2004. It was an important opportunity for scientists and advocates to share information on the progress of microbicide development. We will launch our new HIV/AIDS Strategy later this year. In it we will set how we will work together with partners in developed and

developing countries to drive forward research into new technologies to prevent HIV/AIDS, including microbicides and vaccines.

Consultancy Fees

Tom Brake: To ask the Secretary of State for International Development how much has been spent on consultancy fees by his Department in each of the last three years. [167648]

Mr. Gareth Thomas: Expenditure on consultancy services in each of the last five years is recorded in the "Statistics on International Development", Table 12. A copy of this publication is available in the Library of the House.

Democratic Republic of Congo

John Barrett: To ask the Secretary of State for International Development what steps are being taken to determine the number of unexploded land mines in the Democratic Republic of Congo. [167815]

Hilary Benn: In 2003, the United Nations Mine Action Service established the United Nations Mine Action Co-ordination Centre (UNMACC) in the Democratic Republic of Congo. The UNMACC is now undertaking local surveys to determine the extent of the land mine problem in the Congo and providing expertise for the coordination of assistance to tackle the problem. In 2003, DFID provided a sum of £65,333 via its global grant to UNMAS to help fund these activities.

John Barrett: To ask the Secretary of State for International Development what assessment he has made of the humanitarian requirements of those Congolese nationals expelled from Angola and living in the Bandundu and Kasai-Occidental provinces of Democratic Republic of Congo; and if he will make a statement. [167820]

Hilary Benn: The humanitarian needs of Congolese expelled from Angola continue to be of concern. As of 20 April, some 67,000 Congolese have been registered by local crisis committees in Bandundu and Western Kasai Provinces. The Office for the Co-Ordination of Humanitarian Affairs (OCHA) led an inter-agency mission on 19 April to Tshikapa in Western Kasai Province. Mission participants included the United Nations High Commissioner for Refugees (UNHCR), the United Nations Children's Fund (UNICEF), the Office Nations Office of the High Commissioner for Human Rights (OHCHR), OCHA, Catholic Relief Services (CRS), Caritas and representatives from the Congolese Ministries of Solidarity and Humanitarian Affairs and of the Interior. A number of Humanitarian NGO and United Nations partners are currently responding and DFID is monitoring the situation.

Demography

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the implications for global development assistance of current UN projections for world population in *(a)* 2100 and *(b)* 2150. [167206]

Mr. Gareth Thomas: Many assessments of world population only stretch as far as 2050, and DFID's development assistance policy is largely geared towards 2015, the target for the achievement of the Millennium Development Goals (MDGs). However, the UN's Population Division has carried out a series of long-range population projections at regional level with a time horizon of 2150. These projections include assessments of possible future fertility, mortality and migration scenarios.

It is difficult to state the implications of these projections on global development assistance because the high, medium and low scenarios result in projections of very different sizes. According to the medium scenario, the world population will have stabilised at 9.7 billion by 2050. The low scenario indicates that population will drop to 3.2 billion by 2150 and the high scenario indicates a rise to 24.8 billion by the same year.

The substantial differences in these scenarios make it very difficult to base any firm development assistance plans on long-range population projections. In the meantime DFID will focus our efforts on achieving the MDGs by 2015 and will then continue to consider the scale of poverty and population projections before setting targets for future milestones.

Mr. Bercow: To ask the Secretary of State for International Development what assumptions about population inform his Department's country plan for Ethiopia. [167207]

Hilary Benn: DFID Ethiopia's country assistance plan is based on the Government of Ethiopia's Sustainable Development and Poverty Reduction Programme (SDPRP). On the basis of current population growth rates, Ethiopia's population will reach 73 million by 2005.

The SDPRP recognizes that population plays a decisive role in national development. Through the National Population Policy (1993), the Government seeks to maintain a balance between population size and the resource base through, in part, heightened availability and use of contraceptives. A key focus to achieve this is through increasing girls' access to education.

While DFID does not provide specific sector support to the population programme, in 2003–04 we provided £3 million to the education sector specifically and £30 million for the implementation of the SDPRP.

EU Development Assistance

Mr. Bercow: To ask the Secretary of State for International Development if he will list the non-governmental organisations involved in the delivery of the 2002 EU development assistance projects to *(a)* Cuba, *(b)* the Dominican Republic and *(c)* Haiti. [167213]

Mr. Gareth Thomas: The following is a list of the non-governmental organisations with active contracts for development assistance projects with the EU in Cuba, the Dominican Republic and Haiti during 2002.

(a) Cuba

Gruppo Di Volontariato Civile

Brot Fuer Die Welt

Deutsche Welthungerhilfe eV

Monimbo-Verein Zur Foerderung Deutsch-Nicaraguanischen Beziehungen
Handicap International (BE)
Werkhof, Verein Zur Foerderung Der Selbsthilfe
Cooperazione Internazionale Sud-sud
Asociacion Navarra Nuevo Futuro
Fundación CODESPA Futuro en Marcha
Solidaridad para el Desarrollo y la Paz
Associazionen per la Partecipazione Allo Sviluppo
Comitato Internazionale per lo Sviluppo Dei Popoli
Oxfam Solidarité
Hirugarren Munda Ta Bake—Paz y Tercer Mundo
Movimiento por la Paz, el Desarme y la Libertad
Oikos—Cooperacao e Desenvolvimento
Electricians sans Frontieres
Frères des Hommes
CARE France
Deutsches Rotes Kreuz

(b) Dominican Republic

Oxfam Solidarité (Belgium)
Trade Union Solidarity Centre of Finland
Deutsche Welthungerhilfe eV (Germany)
Unity and Cooperation for Development of People (Italy)
Movimiento por la Paz, el Desarme y la Libertad (Spain)
Madreselva (Spain)
Cruz Roja Espanola (Spain)
Catholic Institute for International Relations (UK)
Fundación CODESPA—Futuro en Marcha (Spain)
Intermon Oxfam (Spain)
Deutsche Welthungerhilfe eV (Germany)

(c) Haiti

Lateinamerika-Zentrum E.V. (Germany)
PROTOS—Projectgroep Voor Technische Ontwikkelingssamenwerking (Belgium)
Aide et Action (Consortium)
Objectif Tiers Mond (Luxembourg)
Inter Aide (France)
Movimento Sviluppo E Pace (Italy)
Partage (Consortium)
Inter Aide (Consortium)
Stichting Interkerkelijke Organisatie Voor Onttwikkelingssamenwerking (Netherlands)
Groupe Developpement (France)
Oxfam (Consortium)
Deutsche Welthungerhilfe eV (Germany)
Médecins du Monde (France)
Initiative Developpement (Consortium)

Global Fund

John Barrett: To ask the Secretary of State for International Development if he will make a statement on the use of money from the Global Fund to fight *(a)* malaria, *(b)* HIV/AIDS and *(c)* tuberculosis. [167816]

Mr. Gareth Thomas: Since its inception in January 2002, the Global Fund to Fight AIDS, Tuberculosis and Malaria has approved proposals amounting to US$2.1 billion and disbursed funds to 227 programmes in 122 countries.

This funding has been allocated as follows:

By diseases: 60 per cent. on HIV/AIDS, 24 per cent. on Malaria and 16 per cent. on Tuberculosis.

By region: 60 per cent. to Africa, 20 per cent. to Asia, Middle East and North Africa, 20 per cent. to Latin America, Caribbean and Eastern Europe.

By country income: 67 per cent. to low income, 30 per cent. to lower middle income and 3 per cent. to upper middle-income countries.

The following outcomes (from the first three funding rounds) are expected after five years:

700,000 people on antiretrovirals, tripling current coverage in developing countries;

35 million people reached with HIV voluntary counselling and testing services for prevention;

over one million orphans supported through medical services, education and community care;

over three million additional tuberculosis cases treated with Directly Observed Treatment Short-Course (DOTS) successfully after diagnosis, tripling the treatment of multi-drug resistant TB globally, with over 8,000 new treatments;

22 million combination drug treatments for resistant malaria delivered;

64 million bed nets financed to protect African families from transmission of malaria.

The Fund is committed to using recipient countries' existing financial management, monitoring and reporting systems wherever possible to increase harmonisation in country-led processes. There is increasing evidence that the Fund is able to bring other donors, government departments and civil society together for joint planning to fight the world's three most devastating diseases.

Mauritania

John Barrett: To ask the Secretary of State for International Development if he will make a statement on water shortages in Mauritania. [167827]

Hilary Benn: Mauritania is a low-income food deficit country which is vulnerable to drought and desertification. A large proportion of the population relies on agricultural production to satisfy its food and income needs. During drought periods, people have severe difficulties in meeting their food requirements, either through direct production or through recourse to alternative sources of income.

DFID has provided significant humanitarian assistance to Mauritania in recent years in response to the severe drought and resultant food shortages. In 2002–03 DFID contributed £1 million to the World Food Programme's regional appeal, which covered five countries in the region, but was mainly focused on Mauritania where the drought situation was most severe. DFID also contributed £0.5 million to an Oxfam appeal focused on the most badly affected areas in the South of the country.

According to the latest FAO reports the overall food security situation in the country remains satisfactory. However there is a desert locust outbreak currently under way in northern Mauritania which may mean that crop production figures will have to be revised downwards to take account of the impact of possible pest damage.

Overseas Representation

Mr. Ancram: To ask the Secretary of State for International Development in which countries the Department is represented; how many staff are employed in each location, broken down by *(a)* UK nationals and *(b)* locally employed; what the annual cost of maintaining representation in each of the countries was in 2003–04; and what the total expenditure by his Department on overseas representation was in (i) 2001, (ii) 2002 and (iii) 2003. [166210]

Mr. Gareth Thomas *[holding answer 19 April 2004]:* Details of DFID staff, by each location, broken down by *(a)* non-locally employed (those staff who are not locally employed are not solely UK nationals) and *(b)* locally employed, are listed in the following table. These figures include secondments to other organisations or projects. Data are not available centrally by country for DFID representation only.

The table also includes cost figures by country; these are limited to the cost of representation and hence exclude costs associated with external secondments and projects. Where we have been unable to provide an individual country breakdown of expenditure we have included information for the region. These figures represent planned expenditure for 2003–04 and are subject to final outturn revisions.

Comparable expenditure figures for 2001 and 2002 are not available because in 2003–04 DFID introduced a new definition of administration costs to include costs for staff, travel and allowances that were previously paid from the programme budget. The change in definition will increase transparency and enable DFID to manage its administrative costs more effectively, but it precludes providing comparable figures for earlier years.

Location	*Non-locally employed staff*	*Locally employed staff*	*Total*	*Cost of maintaining overseas representation 2003–04 (£ million)*

Grand Totals	405	929	1,334	77.824

[1] West Asia records figures for Afghanistan and Pakistan together, the estimate of separate office costs is therefore an estimate for 2003–04
[2] UK presence in Iraq since November 2003. DFID staff costs recorded only, support costs were met by the US Military for 2003–04.

Pakistan

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of *(a)* current and *(b)* projected trends in the availability, measured in hectares per person, of farmland in Pakistan. [167205]

Mr. Gareth Thomas: None. However, according to the Food and Agricultural Organisation statistics[1] in 2001 the agricultural area in Pakistan was 27.1 million hectares and the agricultural area per capita was 0.19 hectares.

[1] *Source:*
faostat.fao.org

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of *(a)* current and *(b)* projected trends in the availability of fresh water in Pakistan. [167208]

Mr. Gareth Thomas: According to a World Health Organisation and the United Nations Children's Fund assessment, data on the percentage of availability of improved water supplies in Pakistan is as follows:

Percentage

	Urban	Rural	Total
1990	96	77	83
2000	95	87	90

Source:
WHO-UNICEF http://unstats.un.org

The Millennium Development Goal target for Pakistan for total availability of improved water supplies by 2,015 corresponds to 92 per cent.[1].

To assist the Government of Pakistan improve access to water and sanitation, DFID is undertaking a £6.5 million five year Rural Water Supply and Sanitation Project in North West Frontier Province in support of the devolved government process, which will benefit a total of 1 million persons. Water is also one of the key sectors in which DFID is engaged in Faisalabad in Punjab province as part of a programme of support to the decentralised government system for the delivery of basic services.

[1] World Bank Development Indicators

Southern Africa

John Barrett: To ask the Secretary of State for International Development what estimate his Department has made of the future food aid requirements in Southern Africa. [167824]

Hilary Benn: UN Crop and Food Supply Assessment teams arrive in Mozambique, Malawi, Swaziland and Zimbabwe this week to analyse the food supply situation with a view to establishing future food aid requirements in these countries in the coming year. A team will arrive in Lesotho in mid-May to undertake similar work. Final reports are expected in early June.

The Southern African Development Community's (SADC) Vulnerability Assessment Committees, supported by DFID, have already started fieldwork in these countries. Their results will also feed into the UN analyses. Linking these two assessments of food insecurity will provide a clearer picture of supply and demand for food in affected countries, and a more accurate assessment of household food shortages and the levels of food aid needed to respond to acute needs.

DFID is also working at both country and regional levels to address the longer-term causes of regional food insecurity in Southern Africa. These programmes take a developmental approach to food insecurity, and aim to improve information on vulnerability and response, coupled with measures that enhance poor people's access to food in the longer-term.

St. Helena

Mr. Nigel Jones: To ask the Secretary of State for International Development if he will assess the advantages and disadvantages of using the private finance initiative process to secure *(a)* air access for St. Helena and *(b)* safe docking facilities for ships calling at St. Helena. [168383]

Mr. Gareth Thomas: The Government's position on maintaining access for St. Helena was set out in my Written Statement to the House on 19 April 2004, *Official Report*, column 1WS. As part of planned feasibility and other investigatory work, the possibility of a private finance initiative will be included among options that will be considered.

The position regarding docking facilities for ships in St. Helena is different. At present, as the hon. Member will know from his own visit to the island last year, visiting ships anchor in Jamestown Bay and all passengers and cargo are transferred in smaller craft to and from the wharf. In recognition of St. Helena's continuing concern over these arrangements, we have agreed to support further investigatory work to review the options for improving them. The St. Helena Government is preparing terms of reference. We cannot yet speculate on whether a private finance initiative might or might not have a role in any solution that eventually may prove to be technically and financially acceptable.

Sudan

John Barrett: To ask the Secretary of State for International Development what assessment he has made of the security and humanitarian situation in Sudan since the signing of the peace agreement; and if he will make a statement. [167814]

Hilary Benn: A Humanitarian Ceasefire Agreement between the Government of Sudan, the Sudan Liberation Movement and the Justice and Equality Movement was signed on 8 April. Humanitarian and Security Assessments in Darfur are being carried out at present by our UN and non-governmental organisation (NGO) partners. However, access is still limited in Darfur due to general insecurity and travel restrictions. It is therefore still too early to be able to give precise humanitarian indicators, as agencies have not yet been able to access large parts of the population. However the situation is clearly extremely serious.

In response to the crisis in Darfur DFID has committed about £9.5 million, through United Nations (UN) agencies and international NGOs. DFID has also provided four humanitarian affairs officers to assist the UN response for three months. Three of these are based in Darfur and will, among other things, undertake assessments of humanitarian needs.

Zimbabwe

John Barrett: To ask the Secretary of State for International Development (1) if he will make a statement on the latest humanitarian situation in Zimbabwe; [167818]

(2) what progress is being made to ensure that humanitarian aid in Zimbabwe goes to those in most need; [167822]

(3) if he will make a statement on levels of *(a)* cholera and *(b)* dysentery in Zimbabwe. [167823]

Hilary Benn: Large numbers of Zimbabweans continue to be in humanitarian need. This is largely the result of the Government of Zimbabwe's misguided economic policies, including the poorly implemented fast track land programme, exacerbated by the HIV/AIDS epidemic and erratic rainfall. At least eight million Zimbabweans, over half the population, have been receiving donor-funded food aid in recent months, in advance of the imminent harvest, which should improve food security for the majority of Zimbabweans.

The crop forecast is not yet finalised, but the harvest may cover less than half of the country's food needs over the next 12 months. The Government of Zimbabwe has stated its intention to import grain to meet the national food deficit. Given, the Government's economic difficulties, this may be unrealistic. In the meantime, the Government say that they will not decide for some months whether to ask for further international food aid after June. Households most likely to be in need of assistance, either food or other resources, will be those with no access to land or income that are also affected by HIV/AIDS or include orphans, disabled children and the elderly.

DFID Zimbabwe provides financial support to the UN system for rigorous monitoring and evaluation of donor-funded humanitarian programmes, including both the effective targeting of those in the most need, and ensuring that there is no political interference in the process. Monitoring and evaluation reports are regularly provided to donors and discussed at meetings with the United Nations, non-governmental organisations, civil society and other donors. DFID remains confident that the humanitarian relief provided by the UK reaches those members of society who are most in need of assistance.

According to the latest figures from the Ministry of Health, there have been 77 cases of cholera and 9,860 cases of dysentery since January. However, the number could be much higher due to the decline in surveillance. Many cases are not reported as people cannot afford to go to hospitals or hospitals are failing to report reasons for death.

DFID has provided funds to Save the Children UK to respond to cholera outbreaks. The aim is to ensure that the disease does not spread further and that the communities at risk are assisted with soap and other hygiene items, as well as water purification tablets and oral dehydration supplies to treat diarrhoea.

WORK AND PENSIONS

Child Support Agency

Mr. Weir: To ask the Secretary of State for Work and Pensions how much money due to clients of the Child Support Agency is held by the Agency owing to computer errors; and how much money has been held in each of the last six months in *(a)* the UK, *(b)* Scotland and *(c)* the Angus constituency. [168654]

Mr. Pond *[holding answer 26 April 2004]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Michael Weir, dated 27 April 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked, how much money due to clients of the Child Support Agency is held by the Agency owing to computer errors; and how much money has been held in each of the last six months in *(a)* the UK, *(b)* Scotland and *(c)* the Angus constituency.

I do not have the information that you seek. I can say that at 31 March 2004 we were holding a total of £368,341 representing monies received from the non-resident parent that had not yet been paid out to the parent with care. Some will reflect computer errors but a significant element will represent payments received that are awaiting clearance by our bankers.

Mr. Weir: To ask the Secretary of State for Work and Pensions how much compensation has been paid to clients of the Child Support Agency owing to delays caused by computer errors in each of the last 12 months in *(a)* the UK, *(b)* Scotland and *(c)* the Angus constituency. [168655]

Mr. Pond *[holding answer 26 April 2004]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Michael Weir, dated 27 April 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked, how much compensation has been paid to clients of the Child Support Agency owing to delays caused by computer errors in each of the last 12 months in *(a)* the UK, *(b)* Scotland and *(c)* the Angus constituency.

I do not have the information you seek. I can say that in the year to 31 March 2004 a total of around £2 million was paid to clients of the Agency by way of financial redress for maladministration. This will include maladministration resulting from computer errors outside our direct control.

Civil Servants

Bob Spink: To ask the Secretary of State for Work and Pensions if he will list for each civil service grade within his *(a)* Department and *(b)* Department's Executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled. [166395]

Maria Eagle: The information showing the position as at 29 February 2004 is in the tables. The numbers shown are expressed in headcount not whole-time equivalent terms.

(a) Department for Work and Pensions excluding agencies (excluding Jobcentre Plus, the Pension Service, Child Support Agency and Appeals Service):

Departmental Relocation

Mr. Hancock: To ask the Secretary of State for Work and Pensions (1) what aspects of the work in his Department's offices in *(a)* Portsmouth, *(b)* Southampton and *(c)* the Isle of Wight have been (i) relocated and (ii) centralised in each of the last three years; [151633]

(2) how many of his Department's offices have been closed in *(a)* Portsmouth, *(b)* Southampton and *(c)* the Isle of Wight in each of the last three years. [151634]

Jane Kennedy: Jobcentre Plus and the Pension Service are modernising the services we provide to our customers. This modernisation is increasing the number of places where people can get information about work and benefits. All decisions made about the centralisation or relocation of work are informed by the particular needs of their customers; nationally, regionally and at district level. For example, the Pension Service have centralised and relocated benefit processing based on customer feedback that pensioners prefer to make contact by phone rather than calling at an office.

In Portsmouth, no Jobcentre Plus offices, Jobcentres or Social Security offices have been relocated, centralised or closed.

In Southampton, the processing of incapacity benefit and jobseekers allowance claims has been relocated from Southampton Social Security office to Totton Customer Service Centre. No other Jobcentre Plus offices, Jobcentres or Social Security offices in Southampton have been relocated, centralised or closed.

In the Isle of Wight, the processing of incapacity benefit and jobseekers allowance claims has been relocated from Fareham Social Security office to Isle of Wight offices. The processing of Income Support claims has been relocated from the Isle of Wight to Fareham Jobcentre Plus. All Jobseeker Direct work has been relocated to the Dundee Contact Centre. No other Jobcentre Plus offices, Jobcentres or Social Security offices on the Isle of Wight have been relocated, centralised or closed.

All pensions processing and inquiries for Portsmouth, Southampton and the Isle of Wight have been relocated to the Wrexham Pensions Centre. Local Pension Service teams are based in Portsmouth, Southampton' and Newport.

Disability Appeal Tribunal

Hywel Williams: To ask the Secretary of State for Work and Pensions what the average administrative cost was in 2003–04 of an appeal to a disability appeal tribunal on a disability living allowance decision. [168017]

Maria Eagle *[holding answer 23 April 2004]:* This is a matter for Christina Townsend, Chief Executive of the Appeals Service. She will reply to the hon. Member.

Letter from Christina Townsend to Mr. Hywel Williams, dated 27 April 2004:

The Secretary of State has asked me to reply to your question regarding the average administrative cost of an appeal to an appeal tribunal on a disability living allowance decision in 2003–04.

We estimate that the average cost of processing a disability appeal during the year 2003–04 was £233.

I hope this reply is helpful.

Health and Safety Executive

Tony Lloyd: To ask the Secretary of State for Work and Pensions what the total cost is of *(a)* building and *(b)* moving into the new Health and Safety Executive (HSE) building at Bootle; and what the total income from HSE priced publications was in 2003–04. [166861]

Jane Kennedy *[holding answer 26 April 2004]:* HSE's new building at Bootle, Merseyside is being procured under the Private Finance Initiative. Once it is available for occupation in 2005 HSE will pay an annual unitary charge for fully serviced office space of £7 million (2003 prices). The purchase of the site from Sefton MBC cost £1.3 million and removal plus IT transitional costs are likely to cost £1 million. The total income from HSE priced publications was £5.7 million in 2003–04.

Correspondence

David Winnick: To ask the Secretary of State for Work and Pensions when the hon. Member for Walsall, North will receive a reply to his letter of 15 March 2004 regarding a DWP branch of the PCS Union. [168887]

Maria Eagle: I replied to the hon. Member today.

Safety Representatives and Safety Committees

Tony Lloyd: To ask the Secretary of State for Work and Pensions what income was received in each year between 2000 and 2003 from the Safety Representatives and Safety Committees publication. [166863]

Jane Kennedy *[holding answer 26 April 2004]:* The income received from the Safety Representatives and Safety Committees Regulations publication is as follows, by calendar year.

	Income received (£)
2000	53,676.00
2001	46,951.20
2002	49,140.00
2003	42,109.20

Secondments

Mr. Cousins: To ask the Secretary of State for Work and Pensions what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte and Touche, *(c)* Ernst and Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156919]

Maria Eagle: Secondments are part of the Interchange Initiative which promotes the exchange of people and good practice between the Civil Service and other organisations. Before an Interchange can occur all parties must be satisfied that no conflict of interest arises.

The available information is in the tables. Information for 2003–04 is not yet available.

Secondments to DWP

Company	*Number*	*Period*	*Tasks*
PricewaterhouseCoopers	0	—	—
Deloitte and Touche	0	—	—
Ernst and Young	0	—	—
KPMG	1	3 October 2002 to 6 June 2003	Head of the National Employment Panel's Performance Committee Team

Secondments from DWP

Company	*Number*	*Period*	*Tasks*
PricewaterhouseCoopers	0	—	—
Deloitte and Touche	165	2001–02	Piloting welfare to work reform options for clients of working age, as part of the One project.
Deloitte and Touche	1	1 April 2002–10 May 2002	Piloting welfare to work reform options for clients of working age, as part of the One project.
Ernst and Young	0	—	—
KPMG	0	—	—

Temporary Staff

Matthew Taylor: To ask the Secretary of State for Work and Pensions how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158249]

Maria Eagle: The information requested could be obtained only at disproportionate cost.

HEALTH

Local Government Finance

Mr. Betts: To ask the Secretary of State for Health what additional financial resources have been made available to local authorities in *(a)* 2003–04 and *(b)* 2004–05 to enable them to perform their role of scrutinising health trusts. [166316]

Ms Rosie Winterton: The Government have given powers to local authorities to review and scrutinise health services as part of their wider responsibilities to promote the economic, environmental and social well-being of local people. The Department believes it is right that local authorities prioritise their resources and indeed activities to fit locally identified needs. Health scrutiny is no different.

Central Government funding to support local authorities in 2003–04 was approximately £70 billion. For 2004–05, this amount will increase by six per cent. Funding to support overview and scrutiny committees should be seen in this wider context.

The Department is conscious of the need to enable local authorities to undertake their new powers as effectively as possible. It is for this reason that a one-off payment of £2.25 billion has been made to the Centre for

Public Scrutiny to develop and support health scrutiny, and to ensure that lessons from good practice are learned and disseminated.

Cancelled Operations (Weston Area)

Brian Cotter: To ask the Secretary of State for Health how many operations were cancelled by the Weston Area Health NHS Trust in each year since 1997. [167528]

Ms Rosie Winterton: Information on cancelled operations for each national health service trust is available for each quarter from 2001–02. Prior to this, information was collected for each health authority. Both are available in the Library.

Children's Continence

Tim Loughton: To ask the Secretary of State for Health (1) what assessment has been made of how children with bladder and bowel problems impact on family life; [169052]

(2) what assessment his Department has made of the financial cost to families with children who have nocturnal enuresis. [169053]

Dr. Ladyman: It is estimated that continence conditions affect over 500,000 children and young people over the age of five years and it is well established that these conditions reduce children's social opportunities and impact upon family life. Information on the financial cost to families with children who have nocturnal enuresis is not collected centrally.

Chronic Obstructive Pulmonary Disease

Mr. Pickthall: To ask the Secretary of State for Health what extra funding is planned to be devoted to the implementation of the National Institute for Clinical Excellence guidelines on chronic obstructive pulmonary disease. [168825]

Dr. Ladyman: Funding to implement the guidance and recommendations of the National Institute for Clinical Excellence (NICE) is not separately identified in primary care trust (PCT) allocations.

The national health service is currently receiving the largest sustained increase in funding in its history, so the question of affordability of NICE recommendations should not be an issue. The total of PCT allocations is £45 billion for 2003–04, £49.3 billion for 2004–05 and £53.9 billion for 2005–06. This represents an increase of £12.7 billion, or an average of 30.8 per cent. over the three years 2003–04 to 2005–06.

EU Enlargement

Bob Spink: To ask the Secretary of State for Health what action he is taking to ensure the adequacy of training of health *(a)* professionals and *(b)* other workers originating from the EU accession countries, who wish to work in the NHS; and if he will make a statement. [167202]

Mr. Hutton: We are in regular contact with the European Commission and the other member states on this issue. The Commission's assessment is that training in all acceding countries will meet minimum requirements after 1 May 2004. If the qualifications awarded by the acceding countries do not meet minimum requirements, the regulatory bodies are entitled to require proof of recent and substantial practice experience as a condition of recognition. Where such proof is not available, they are entitled to assess applicants on a case-by-case basis.

We have provided advice to the national health service on European enlargement and the implications for health professions. Copies have been placed in the Library and are also available on the Department's website at www.dh.gov.uk/PolicyAndGuidance/International/EuropeanUnion. Employers must ensure that applicants have suitable qualifications, skills and experience for the particular post they are applying for (including language skills), and can take into account references, evidence of good standing and criminal record checks where appropriate.

Internet Medical Companies

Mr. Burstow: To ask the Secretary of State for Health what controls the General Medical Council has introduced to ensure that doctors who service internet medical companies provide patient consultations. [167802]

Mr. Hutton: The General Medical Council (GMC) published guidance entitled, "Providing advice and medical services on-line or by telephone", in November 1998. This can be found on the GMC website at www.gmc-uk.org/standards and this information has been placed in the Library.

Maternity Services (Buckinghamshire)

Mr. Goodman: To ask the Secretary of State for Health how the risk assessment carried out by clinicians in relation to the transfer of maternity services from Wycombe Hospital to Stoke Mandeville proposed in the Shaping Health Services document published by the Mid and South Bucks Health Community was carried out. [167487]

Ms Rosie Winterton *[holding answer 22 April 2004]:* In line with our policy on "Shifting the Balance of Power", the responsibility for the provision of local services now rest with local trusts. It is now for primary care trusts, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services, based on the specialised knowledge they have of the local community.

However, I have been informed that a range of activities have been undertaken to date to evaluate the risks associated with a range of options for configuring paediatric and maternity services within the Buckinghamshire Hospitals National Health Service Trust.

These include:

A review of a range of literature and evidence including the guidance from the relevant Royal Colleges.

The establishment of a women and children's project group as a sub group of the "Shaping Health Services" project board,

which involves a wider range of stakeholders including the National Childbirth Trust and patient/public representatives, and has met on a regular basis since December 2003.

A range of meetings with the senior staff, consultants, nurses and midwives, since September 2003.

A half-day workshop with consultants, nurses, midwives and managers.

External expert support from Mr. Nick Naftelin, obstetrics and gynaecology consultant, who works for the Modernisation Agency and has advised throughout the process.

Visits to other units to learn about other models of care.

Minor Injuries Treatment (Dorset)

Mrs. Brooke: To ask the Secretary of State for Health what the current capacity is of minor injury units in Dorset. [168821]

Ms Rosie Winterton *[holding answer 26 April 2004]:* Information on the current capacity of minor injury units in Dorset is not collected centrally. However, the number of attendances in accident and emergency departments in Dorset between October and December 2003 are shown in the table.

Total attendances at accident and emergency departments, minor injury units (MUIs) and walk in centres (WICs) by type, NHS organisations in Dorset—2003–04

Quarter 3 *Organisation*	*Type 1* *Major A&E*	*Type 2* *Speciality A&E*	*Type 3* *Other A&E/MUIs*	*Type 3* *WICs*	*Total* *All types*
South and East Dorset PCT	0	0	1,378	0	1,378
South West Dorset PCT	0	0	1,342	0	1,342
West Dorset General Hospitals Trust	7,369	0	2,828	0	10,197
Poole Hospitals NHS Trust	12,470	0	0	0	12,470
Royal Bournemouth and Christchurch Hospitals NHS Trust	19,740	3,976	0	0	23,716

Source:
Department of Health dataset QMAE

Mrs. Brooke: To ask the Secretary of State for Health what plans there are for improving the current provision of treatment for minor injuries in the Poole and Wimborne area. [168823]

Ms Rosie Winterton *[holding answer 26 April 2004]:* In line with our policy on "Shifting the Balance of Power", the responsibility for the provision of local services now rest with local trusts. It is now for primary care trusts (PCTs), in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising services, based on the specialised knowledge they have of the local community.

However, I understand that there was recently a consultation exercise relating to the future of minor injury provision in Wimborne, Dorset. Consultation is now officially over and this will be discussed at the South and East Dorset PCT board meeting on 19 May 2004.

NHS Professionals

Mr. Burstow: To ask the Secretary of State for Health (1) what percentage of NHS trusts are using NHS Professionals; and if he will make a statement; [167405]

(2) what progress has been made towards the target of all NHS trusts using NHS Professionals by April 2005; and if he will make a statement. [167427]

Mr. Hutton: At the current time, NHS Professionals provide services to 91, or 34 per cent. of national health service trusts and 37, or 12 per cent. of primary care trusts (PCTs). NHS bodies have been encouraged by the Department to engage with the special health authority to understand the benefits it can offer for the cost effective management of temporary staffing. It is hoped and anticipated therefore, that the number of NHS trusts and PCTs using NHS Professionals will steadily expand.

Occupational Health

Mr. Burstow: To ask the Secretary of State for Health what proportion of companies in England he estimates have an occupational health department; and if he will make a statement. [167407]

Jane Kennedy: I have been asked to reply.

The Health and Safety Executive (HSE) commissioned research by the Institute of Occupational Medicine (IOM) 'Survey of Use of Occupational Health Support' published in June 2002 which showed that 3 per cent. of all companies throughout the country provided OH support. The definition of occupational health support used for this purpose is one which includes hazard identification, risk management, provision of information, modifying work activities, training on occupational health-related issues, measuring workplace hazards, monitoring trends in health.

Paediatric Staff

Mr. Goodman: To ask the Secretary of State for Health how many paediatric staff, broken down by medical category, were *(a)* recruited and *(b)* employed by hospital trusts in the south-east region of England in (i) 2001, (ii) 2002 and (iii) 2003. [167485]

Ms Rosie Winterton *[holding answer 22 April 2004]:* Information on the number of medical staff working in trusts in the south-east region of England in the specified years, by staff group and by the paediatric group of specialties has been placed in the Library.

Poole Hospital (A&E Unit)

Mrs. Brooke: To ask the Secretary of State for Health what the latest average waiting time is for patients with minor injuries at Poole Hospital's Accident and Emergency Unit. [168822]

Ms Rosie Winterton *[holding answer 26 April 2004]:* The average waiting times for patients with minor injuries at Poole Hospital's accident and emergency department is not collected centrally.

However, the latest figures for Poole Hospitals national health service trust are shown in the table for the number of patients spending over four hours in accident and emergency. These include all patients, and not just those with minor injuries.

Total time spent in accident and emergency from arrival to admission, transfer or discharge—Poole Hospitals NHS Trust, 2003–04, October to December (quarter 3)—all accident and emergency/minor injury units/walk-in centres (type 1,2,3)

	Quarter	Total attendances	Percentage of patients who spent less than four hours in accident and emergency
2003–04	3	12,470	90.6

Source:
Department of Health dataset QMAE. Published 11 March 2004.

Prison Health Service

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 8 April 2004, ref. 164612, on the Prison Health Service, for what purposes the joint letter was issued; and for what reasons the decision was taken to issue the joint letter at that time. [167941]

Dr. Ladyman: The joint letter was issued as part of a continuing programme of partnership work between the Department and the Prison Service to improve the full range of health services for prisoners. Ambulance and paramedic access had been identified as an area on which further guidance could be helpful to local services. The letter was issued to encourage the strengthening of local protocols between prisons and their local ambulance trusts and the sharing of any existing good practice.

Prison Hospital Places

Mr. Lansley: To ask the Secretary of State for Health how many high security prison hospital places have been established since June 2001. [167704]

Dr. Ladyman: There were 159 in-patient beds in health care centres in high security prisons in June 2001 and 183 in December 2003. The figures are not directly comparable because an additional establishment was brought within the high security prison estate between those two dates. The number of in-patient beds in the health care centres of the eight prisons that constituted the high security estate in June 2001 had fallen to 145 by December 2003.

Residential Care/Nursing Beds

Brian Cotter: To ask the Secretary of State for Health how many *(a)* residential care beds and *(b)* nursing beds have been lost since 1997 in (i) the south west region, (ii) the area served by the Avon, Gloucestershire and Wiltshire Strategic Health Authority and (iii) the area served by the Weston Primary Care Trust. [167527]

Ms Rosie Winterton: The number of residential and nursing places in the south west region and Avon, Gloucestershire and Wiltshire Strategic Health Authority is shown in the table as at 31 March for 1997 to 2001.

Figures for later years have been collected by the National Care Standards Commission, but comparable details broken by region are not available.

Information on the number of care home places in the area served by the Weston Primary Care Trust is not centrally available.

Number of residential and nursing places in the south west region and Avon, Gloucestershire and Wiltshire Strategic Health Authority, 1997 to 2001

At 31 March	*1997*	*1998*	*1999*	*2000*	*2001*
Residential places					
South west region	47,610	47,920	[1]46,240	45,760	44,790
Avon, Gloucestershire and Wiltshire Strategic Health Authority	15,510	15,230	[1]15,200	15,640	15,570
Nursing places					
South west region	26,080	26,360	25,930	24,660	24,070
Avon, Gloucestershire and Wiltshire Strategic Health Authority	11,110	11,500	11,300	10,620	10,250

[1] Includes estimated data.

Waiting Lists/Times

Brian Cotter: To ask the Secretary of State for Health what changes there have been to NHS waiting list times for the residents of Weston-super-Mare in the last seven years. [167529]

Ms Rosie Winterton: This Government are committed to reducing waiting times.

In 1997, the maximum waiting time for inpatient treatment was 18 months. The maximum waiting time for patients waiting for their first outpatient appointment with a consultant was over six months.

From 1 April 2004, these inpatient and outpatient maximum waiting times have been reduced to nine months and 17 weeks respectively.

These improvements apply nationally and benefit the residents of Weston-super-Mare.

Mr. Andrew Turner: To ask the Secretary of State for Health what the evidential basis is for his statement that about only 20 or 30 people in England are waiting more than nine months for an NHS procedure. [167244]

Mr. Hutton *[holding answer 22 April 2004]:* The priorities and planning framework for 2003 to 2006 includes the target of achieving a maximum wait of nine months for all inpatient waiters by March 2004. The Department asked strategic health authorities for their estimate of the end-March position and it is this information that was used for the statement. The final figures will be published shortly in the chief executive's report.

FOREIGN AND COMMONWEALTH AFFAIRS

Iraq

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what co-ordination took place with the United Kingdom senior representative on the Coalition Provisional Authority in Iraq concerning the closure of all roads out of Iraq. [167371]

Mr. Rammell: Not all roads out of Iraq have been closed. Any road closures are on the basis of operational decisions taken by Coalition commanders in Iraq. The UK Special Representative to Iraq routinely engages in discussions with the Coalition Provisional Authority about security and other policy issues.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the ownership of the Iraq Central Bank. [167372]

Mr. Rammell: The Coalition Provisional Authority (CPA) issued in March 2004 a new law governing the Central Bank of Iraq (CBI). A copy of this law, and the Order to which it is attached, has been placed in the Library of the House. The new law provides for an independent central bank whose objectives are to achieve and maintain domestic price stability, foster and maintain a market-based financial system and promote sustainable growth, employment and prosperity. The CBI is required to maintain its independence from the Government of Iraq and, except for the provisions set out in the law, will not take instructions from any other persons or entity, including government entities.

The Governor, Deputy Governors, and other members of the board of the CBI are nominated by the Appointing Authority (which until the transfer of sovereignty on 30 June is the CPA in consultation with the Iraqi Governing Council) and their appointments confirmed in the legislature. The CBI is required to report to the Appointing Authority, the Ministry of Finance and the legislature on its operations.

The new CBI law has been reviewed by the Iraqi Governing Council, acting on the recommendation of its Economic and Finance Committee. The law has also been reviewed by the International Monetary Fund and was promulgated pursuant to United Nations Security Council Resolution 1483, which calls upon the CPA to promote economic reconstruction and the conditions for sustainable development in Iraq.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the implementation of a unified legal system in Iraq. [166928]

Mr. Rammell: The Kurdistan Regional Government Administered Areas (KRG Administered Areas) currently have a separate court system from the rest of Iraq. However, the Transitional Administrative Law (TAL), produced by the Iraqi Governing Council, establishes a Federal Supreme Court. The Court will consist of nine members, chosen from individuals nominated by the Higher Judicial Council which under the TAL will supervise the judiciary outside the KRG Administered Areas, in consultation with the regional Judicial Councils in the KRG Administered Areas. The Federal Supreme Court will have original and exclusive jurisdiction in legal proceedings between the Iraqi Transitional Government and the regional governments and governorate and municipal administrations. It will also have jurisdiction to review and declare as inconsistent with the TAL any law, regulation or directive issued by the federal or regional governments, the governorate or municipal administrations, or local administrations. This is of course an Iraqi led process although the UK is providing assistance for the training of judges, prosecutors and lawyers and will continue to consider requests for assistance in building the capacity of the Iraqi justice sector.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* fate and *(b)* whereabouts of everyone held in custody in Iraq. [166930]

Mr. Rammell: The Coalition is holding around 9,000 detainees. (Precise figures vary as people are released and arrested daily). They include prisoners of war, security detainees and criminal detainees (held under Iraqi court order). Detainees are held at a number of locations throughout Iraq. The main US administered facility is at Abu Ghraib prison in Baghdad. The Coalition Provisional Authority is working to ensure a better flow of information to the relatives of detainees through recently established information centres. The Detainee Review and Appeal Board reviewed the cases of more than 3,000 detainees in February and March and released more than 2,000. This process is continuing. POWs and security detainees are visited regularly by the International Committee of the Red Cross (ICRC) in accordance with the Geneva Conventions.

As of 1 April the UK was responsible for 85 detainees at an internment facility near Basra. UK forces inform the families of interned persons within 24 hours of an arrest. The case of each security detainee is reviewed after 10, 28 and thereafter every 90 days to determine whether they continue to pose an imperative threat to security. The UK internment facility near Basra is subject to regular inspection by the ICRC who are given full and unrestricted access to the detainees.

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs to whom the Coalition will hand over powers in Iraq on 30 June 2004; and how members of the successor authority will be chosen. [167211]

Mr. Rammell: As envisaged in the Transitional Administrative Law (TAL) the Coalition Provisional Authority (CPA) and the Iraqi Governing Council (IGC) will be replaced on 30 June with an Iraqi Interim Government. The structures and powers of the Interim Government are currently the focus of consultations by Lakhdar Brahimi (UN Secretary-General's Special Adviser on Iraq) with Iraqis. Mr. Brahimi has outlined his initial proposals to appoint, after thorough consultations with Iraqis and the CPA, a tripartite Presidency, a technocratic Cabinet of Ministers headed by a Prime Minister and after 30 June to hold a national conference to elect an advisory council. He is due to return to Iraq in coming weeks to continue his consultations and to develop his proposals. We welcome these proposals and look forward to working with the

UN and the IGC to forge a consensus on the structures and powers of the Interim Government, which can then be enshrined in an annexe to the TAL.

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs what powers will be handed over by the Coalition in Iraq on 30 June 2004; and what powers will be retained. [167216]

Mr. Rammell: The Iraqi Interim Government established on 30 June will be an internationally recognised sovereign government, which will replace the Coalition Provisional Authority and the Iraqi Governing Council. Its powers will be circumscribed by the Transitional Administrative Law (TAL) agreed by the Iraqi Governing Council on 8 March and by an annexe to the TAL, specifying the structures and powers of the institutions of the Interim Government, which is currently being discussed by Iraqis in consultation with Lakhdar Brahimi, the UN Secretary-General's Special Adviser on Iraq.

We anticipate a continued need for a Multinational Force (MNF) after 30 June to work with the Iraqi Security Forces to ensure stability in Iraq. Most Iraqis continue to recognise the necessity of this. Discussions are underway between Iraqis and the coalition on the arrangements under which the MNF will operate after 30 June.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is intended that the political administration that takes over the governance of Iraq on 1 July 2004 will be empowered to ensure the removal of foreign troops on Iraqi territory. [167368]

Mr. Rammell: Discussions are continuing on arrangements for the Multinational Force after the transfer of power on 30 June.

Brazil

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the refusal of Brazil to allow access for inspectors from the International Atomic Energy Agency to its uranium enrichment plant. [166880]

Mr. MacShane: The Government understand that negotiations are continuing between the Government of Brazil and the International Atomic Energy Agency regarding the appropriate safeguards to be applied to Brazil's uranium enrichment facilities. We are not aware of access having been denied to inspectors.

Departmental Employment Policy

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs how many locally-engaged employees his Department has employed in overseas countries in each year since 1997. [166920]

Mr. Rammell: The number of locally engaged staff employed by the Foreign and Commonwealth Office in overseas countries in each year since 2000 is as follows.

	Number of staff
2000	8,794
2001	8,771
2002	9,156
2003	9,471

The above information is based on the authorised establishment i.e. jobs not headcount expressed as full time equivalents

Numbers for the years 1997 to 1999 could be obtained only at disproportionate cost.

Dominican Republic

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK citizens are in prison in the Dominican Republic. [167284]
Date answered 27 April 2004

Mr. Mullin: At present, there is one British Citizen and two British Overseas Territories Citizens (both from Bermuda) in prison in the Dominican Republic.

Bob Russell: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of the Dominican Republic to seek the release from prison of Miss Marianne Telfer, of Colchester; and if he will make a statement. [167285]

Mr. Mullin: Since Miss Telfer's arrest in February, both she and her family have been receiving all appropriate consular assistance from our Consular Directorate in London and our Embassy in Santo Domingo.

Our Ambassador in Santo Domingo called on the Attorney General on 13 April to register our continuing interest in Miss Telfer's case and sought clarification of the next steps. Our Ambassador also met officials from Fair Trials Abroad during their recent visit to the Dominican Republic in connection with her arrest.

Miss Telfer's lawyers have requested a re-hearing of her Habeus Corpus appeal. We will continue to monitor the case at the highest levels and provide the Telfer family with all possible consular assistance.

European Constitution

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the proposed European constitution takes into consideration cultural and religious diversity. [168287]

Mr. MacShane: Yes.

Gibraltar

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will undertake to give the people of Gibraltar the opportunity to vote in the proposed referendum on the EU constitution. [168824]

Mr. MacShane *[holding answer 26 April 2004]*: The Government are currently considering this matter.

Middle East

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to his Israeli counterparts in respect of the killing

of Abdel-Aziz Al-Rantissi in Gaza City on 17 April 2004 as a result of a missile fired by an Israeli military helicopter. [167369]

Mr. Rammell: My right hon. Friend the Foreign Secretary has repeatedly said that the Israeli policy of targeted assassinations is illegal, unjustified and counter-productive. He reiterated this after the killing of Abdul Aziz al-Rantissi. Both parties must refrain from actions that may further escalate tensions, including any more such killings.

Money Laundering (Gulf States)

Huw Irranca-Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what support the Government give to efforts to tackle money laundering in the Gulf States. [168571]

Mr. Rammell: The Government support international efforts to counter money laundering, in the Gulf as elsewhere, through our membership of the Financial Action Task Force (FATF). The FATF sets the international standards on anti-money laundering measures and monitors members' progress in implementing the necessary measures through a process of mutual evaluation.

We welcome the positive steps taken recently by the Gulf States, and others in the region, to establish a FATF-style regional body. If approved by political leaders, this will include all Gulf States in a FATF-style process and will allow for greater regional ownership of anti-money laundering efforts.

The Government also provide financial and technical assistance on a bilateral basis. In March this year, we provided an independent expert to take part in a joint IMF-World Bank financial sector report on the UAE.

Under-12 Concession

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs when information on the decision to withdraw the concession for under-12s to join a parent in the UK was posted on the Foreign Office website. [167968]

Mr. Mullin: UK visas do not keep a log of each change that is made to their website. However, the webpage containing procedures for settlement entry of children, and the concession for under-12s, was last updated on 12 February 2004. The information was therefore posted before 12 February 2004.

Western Sahara

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with the Spanish Government their policy on the Western Sahara. [168248]

Mr. Rammell: The Government have consistently supported the efforts of the UN Secretary-General and James Baker, his Personal Envoy, to find a solution to the dispute over Western Sahara. We are awaiting the Secretary-General's next report on the Western Sahara, due for release this month. There are currently no plans to discuss with the Spanish Government their policy on the Western Sahara.

EDUCATION AND SKILLS

Adult Literacy/Numeracy (Manchester)

Mr. Kaufman: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Manchester, Gorton in each of the last five years. [167457]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Greater Manchester Learning and Skills Council (LSC) area is set out in the following table:

£ thousand

	Basic skills	*Key skills*
April 2001 to July 2001[1]	8,925	2,598
August 2001 to July 2002	15,369	3,586
August 2002 to July 2003	27,258	4,210

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Advanced Vocational Certificate

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many pupils *(a)* were enrolled to take, *(b)* were awarded a pass in and *(c)* have dropped out from the advanced vocational certificate of education course, in each subject in each year since 2002. [165863]

Mr. Stephen Twigg: The figures in Table 1 and Table 2 are derived from data collected annually for the Secondary School and College Performance Tables.

Table 1: Entries and passes at the Vocational Certificate of Education (advanced level) by students of all ages.

	2002		*2003*	
Subject	*Entries*	*Passes*	*Entries*	*Passes*
Art and Design	1,496	1,230	1,165	970
Business	7,623	6,166	9,000	7,049
Health and Social Care	4,029	3,478	5,335	4,547
Manufacturing	53	30	40	26
Construction	166	145	156	104
Hospitality and Catering	241	218	171	141
Science	565	440	511	381
Engineering	477	366	425	340
Information Technology	8,419	6,858	11,788	9,624
Media: Communication and Production	665	548	841	674
Retail and Distribution	263	196	213	164
Performing Arts	557	488	650	588
Leisure and Recreation	1,787	1,496	1,923	1,558
Travel and Tourism	3,331	2,877	3,872	3,146
Total	29,672	24,536	36,090	29,312

Table 2: Entries and passes at the Vocational Certificate of Education (advanced level) double award by students of all ages.

	2002		2003	
Subject	*Entries*	*Passes*	*Entries*	*Passes*
Art and Design	3,981	3,466	3,337	3,064
Business	11,660	9,304	10,042	8,259
Health and Social Care	6,013	5,078	6,086	5,463
Manufacturing	38	33	25	21
Construction	425	332	460	337
Hospitality and Catering	577	514	560	496
Science	1,137	897	1,067	896
Engineering	1,004	646	998	731
Information Technology	7,267	5,800	8,515	7,167
Media: Communication and Production	1,470	1,210	1,378	1,186
Performing Arts	595	543	582	523
Leisure and Recreation	2,684	2,109	2,436	2,057
Travel and Tourism	5,040	4,140	4,894	4,171
Total	41,891	34,072	40,380	34,371

The DfES does not have statistics on enrolments or drop out rates for individual subjects. The figures supplied count only those students that were entered for the examination.

Apprenticeships (Preston)

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many residents of Preston have undertaken apprenticeships in each of the last five years. [168115]

Mr. Ivan Lewis: The information requested is not available at parliamentary constituency level. Nor is the information available on a consistent geographical basis over the last five years. However, the following table shows the number of starts on modern apprenticeships in the Lancashire LSC area between April 2001 and the end of July 2003, as well as the number of starts from April 1996 to March 2001 in the two TECs that amalgamated into Lancashire LSC—ELTEC and LAWTEC.

Time period[1] and TEC/LSC	*Advanced MA*	*Foundation MA*
April 1998 to March 1999		
ELTEC	1,000	400
LAWTEC	1,600	100
April 1999 to March 2000		
ELTEC	800	1,100
LAWTEC	1,900	1,800
April 2000 to March 2001		
ELTEC	900	1,300
LAWTEC	1,800	2,100
April 2001 to July 2002		
Lancashire LSC	1,900	4,100
August 2002 to July 2003		
Lancashire LSC	1,500	3,300

[1] TECs reported the figures in financial years. LSC reports figures in academic years. The first LSC 'year' was 16 months in order to bring the financial year figures into line with academic years.

Sources:
TEC Management Information
LSC Individualised Learner Record

Civil Servants

Bob Spink: To ask the Secretary of State for Education and Skills if he will list for each civil service grade within his *(a)* Department and *(b)* Department's Executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled. [166398]

Mr. Charles Clarke: The total number of staff employed in my Department, broken down into the requested equality categories are:

(i) Gender

	AA	*AO*	*EO*	*HEO*	*SEO*	*Grade 7/6*	*SCS*	*Total*
Male	105	319	375	471	287	316	82	1,955
Female	108	646	751	687	328	298	51	2,869
All staff	213	965	1,126	1,158	615	614	133	4,824

(ii) Ethnic group

	AA	*AO*	*EO*	*HEO*	*SEO*	*Grade 7/6*	*SCS*[1]
White	137	592	745	827	482	478	*
Ethnic Minority	26	161	180	133	36	28	*
Not known	50	212	201	198	97	108	*
All staff	213	965	1126	1158	615	614	133

(iii) Recorded disability

	AA	*AO*	*EO*	*HEO*	*SEO*	*Grade 7/6*	*SOS*[2]
Recorded disability	17	46	51	75	17	19	*
Others	196	919	1075	1083	598	595	*
All staff	213	965	1126	1158	615	614	133

[1]* In accord with civil service guidelines for disclosing equality data SCS numbers deleted out because numbers in one category fall below six.

[2]* SCS as for ethnic group.

(iv) Age group

	AA	*AO*	*EO*	*HEO*	*SEO*	*Grade 7/6 and SCS*	*Total*
Under 29	48	259	279	239	36	25	886
30–39	44	282	377	361	186	160	1,410
40–49	36	236	309	379	245	311	1,516
50+	85	188	161	179	148	251	1,012
All staff	213	965	1,126	1,158	615	747	4,824

SCS and Grade 7/6 numbers amalgamated and age categories under 24 and 60+ amalgamated with next age band as some numbers fall below six.

My Department has no Executive agencies.

Departmental Consultations

Mr. Collins: To ask the Secretary of State for Education and Skills if he will list each consultation that his Department has held in each year since 1997; and what the cost was of these consultations. [167559]

Mr. Stephen Twigg: A list of the initiatives my Department has consulted on can be found at www.dfes.gov.uk/consultations/

It is not possible to provide the cost of consultations undertaken since 1997 as the Department for Education and Skills (DfES) was established after the general election in 2001. Prior to this date the Department for Education and Employment (DfEE) conducted consultations dating back to 1997. The DfEE operated under different accounting standards to the DfES, making it difficult to provide a consistent cost breakdown for the period in question. In 2001 and 2002 Cabinet Office's monitoring of compliance with the Code of Practice on Consultation included the cost of consultation exercises. The total cost of DfES consultation exercises identified was £514,921.04 in 2001 and £2,508,687.60 in 2002.

Education

Jim Dobbin: To ask the Secretary of State for Education and Skills how many people in Heywood and Middleton have received a computer to assist in seeking employment or retraining. [168511]

Mr. Ivan Lewis: At present no centrally funded schemes exist which enable people to acquire free or low price recycled computers. In the past such schemes have been trialled but have proved costly to administer to ensure fair distribution of equipment.

James Purnell: To ask the Secretary of State for Education and Skills if he will make a statement on the effects on schools of changes since 1997 in the level of investment in school sports in Stalybridge and Hyde. [168762]

Mr. Stephen Twigg: The information is not held in the format requested. Within the context of the statutory National Curriculum, where Physical Education (PE) is compulsory for pupils aged 5–16, it is for individual schools to use their budgets as they judge appropriate.

The Government is investing more than £1 billion in England to transform PE, school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of 5 to16-year-olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The Department is providing just over £400,000 to support the delivery of one School Sport Partnerships in the Tameside LEA area. The partnership includes six secondary and 18 primary schools and provides enhanced sports opportunities for all young people to ensure that their pupils spend a minimum of two hours a week on high quality PE and School Sport. A key objective for all School Sport Partnerships is to ensure that the improvements and enhanced opportunities that they deliver are sustainable and embedded within schools to ensure a lasting legacy. The New Opportunities Fund has provided schools in the Tameside LEA area with over £3 million specifically to enhance PE and school sport facilities.

Latest research, published by the Departments on 4 March shows that 68 per cent. of pupils in schools that have been in a partnership for three years, are taking up the two hour entitlement, rising to 90 per cent. at Key Stage 3. Data has been collected from remaining partnerships and will be published in April.

English/Mathematics

Mr. Pike: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Burnley reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [167927]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11-year-olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics—since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The following table shows the number and percentage of pupils in Burnley who have achieved Level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Burnley are below the national average but show improvements since 1997 in both English and mathematics which are only slightly below the improvements nationally.

	Number of pupils[1]		Percentage of pupils	
	English	Mathematics	English	Mathematics
1997	785	784	59	59
1998	762	655	60	51
1999	798	794	62	61
2000	844	819	67	65
2001	894	827	67	62
2002	843	864	66	68
2003	850	851	68	68

[1] The number of eligible pupils for the Key Stage 2 tests varies slightly from year to year

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Preston reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [168126]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11-year-olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics—since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The following table shows the number and percentage of pupils in Preston who have achieved Level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Preston are below the national average but show significant improvements since 1997 in both English and mathematics which are greater than the improvements nationally.

	Number of pupils[1]		Percentage of pupils	
	English	Mathematics	English	Mathematics
1997	666	664	53	52
1998	830	775	62	58
1999	909	913	66	66
2000	935	896	73	70
2001	905	879	70	70
2002	931	939	68	70
2003	918	876	70	67

[1] The number of eligible pupils for the Key Stage 2 tests varies slightly from year to year.

Further Education Colleges

Mr. Drew: To ask the Secretary of State for Education and Skills what funds were available to the Learning and Skills Council nationally for further education colleges new build requirements for *(a)* each year of its existence and *(b)* the previous three years of the Further Education Funding Council. [168831]

Alan Johnson: The Department does not provide a specific budget to the Learning and Skills Council (LSC) for rebuilding further education colleges. It is for the LSC to determine for itself the right level of capital investment in further education colleges from the funds allocated to it by the Department for capital investment in the post-16 learning and skills sector. In 2001–02 the LSC's total post-16 learning and skills sector capital funding allocation was £136 million. This increased in 2002–03 to 231 million and to £327.5 million in 2003–04. In 1998–99 earmarked capital expenditure allocated to the Further Education Funding Council was NIL. In 1999–2000 it was £42 million and this increased to £56 million in 2000–01.

General Teaching Council

Mr. Collins: To ask the Secretary of State for Education and Skills how much funding has been received by the General Teaching Council from his Department in each year since its creation. [167571]

Mr. Charles Clarke: Funding has been provided by this Department to the General Teaching Council (GTC) as shown in the table:

£000

	General Teaching Council
2000–01	[1]4,000
2001–02	9,024
2002–03	3,735
2003–04	1,463

[1] Grant in aid payments to the GTC began in September 2000. Funding in 2000–01 therefore covered the period September 2000 to March 2001 inclusive

Information and Communication Technologies

Mr. Hendrick: To ask the Secretary of State for Education and Skills how much money has been allocated to schools in Preston for information and communication technologies since 2001. [168116]

Mr. Charles Clarke: My Department does not hold information on school level allocations for information and communication technologies. However Preston is in Lancashire LEA and since 2001–02 schools in Lancashire have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

	Allocation to Lancashire LEA (£)
2001–02	6,483,142
2002–03	8,983,493
2003–04	9,169,124
2004–05	11,892,478

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many women in Preston have visited an information and communications technology training centre in order to learn skills to return to work. [168117]

Mr. Ivan Lewis: In the period October 2003[1]–March 2004, 6,262 people visited a UK online centre in the Preston constituency. 3,507 (56 per cent.) of these people were women.

Since learndirect was launched in 1999, 4,197 people from the Preston constituency have enrolled on a learndirect course. 2,395 (57 per cent.) of these people were women. Of the total number of women who enrolled on a course, 3 per cent. did so in order to learn skills to return to work.

[1] Please note the complete statistics are not available for UK online prior to September 2003 as the DfES did not collect this data on a centre-by-centre basis.

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many people in Preston have received a computer to assist in seeking employment or retraining. [168118]

Mr. Ivan Lewis: At present no centrally funded schemes exist which enable people to acquire free or low price recycled computers. In the past such schemes have been trialled but have proved costly to administer to ensure fair distribution of equipment.

Malcolm Bruce: To ask the Secretary of State for Education and Skills what assessment his Department has made of the impact of information and communication technology on *(a)* GCSE and *(b)* A-level grades. [168667]

Mr. Charles Clarke: Independent research has found that, when used effectively, ICT can raise levels of pupil attainment by the equivalent of half a grade at GSCE. We do not have any comparable research at 'A' level but this is currently being considered.

Mr. Pike: To ask the Secretary of State for Education and Skills how many women in Burnley have visited an information and communications technology training centre in order to learn skills to return to work. [167935]

Mr. Ivan Lewis: In the period October 2003[1]—March 2004, 3,030 people visited a UK online centre in the Burnley constituency. 1,697 (56 per cent.) of these people were women.

Since learndirect was launched in 1999, 4,119 people from the Burnley Constituency have enrolled on a learndirect course. 2,466 (60 per cent.) of these people were women. Of the total number of women who enrolled on a course, 3 per cent. did so in order to learn skills to return to work.

[1] Please note the complete statistics are not available for UK online prior to September 2003 as the DfES did not collect this data on a centre-by-centre basis.

Mr. Pike: To ask the Secretary of State for Education and Skills how many people in Burnley have received a computer to assist in seeking employment or retraining. [167936]

Mr. Ivan Lewis: At present no centrally funded schemes exist which enable people to acquire free or low price recycled computers. In the past such schemes have been trialled but have proved costly to administer to ensure fair distribution of equipment.

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many women in Manchester, Gorton have visited an information and communications technology training centre in order to learn skills to return to work. [167433]

Mr. Charles Clarke: In the period October 2003[1]—March 2004, 2,828 people visited a UK online centre in the Manchester Gorton constituency. 1,584 (56 per cent.) of these people were women.

Since learndirect was launched in 1999, 6,485 people from the Manchester Gorton Constituency have enrolled on a learndirect course. 3,120 (48 per cent.) of these people were women. Of the total number of women who enrolled on a course, 8 per cent. did so in order to learn skills to return to work.

[1] Please note the complete statistics are not available for UK online prior to September 2003 as the DfES did not collect this data on a centre-by-centre basis.

Mr. Cummings: To ask the Secretary of State for Education and Skills what funding has been allocated to schools in the Easington constituency for IT technologies in 2002–03; and if he will make a statement. [168074]

Mr. Charles Clarke: My Department does not hold information on school level allocations for information and communication technologies. However, Easington is in Durham LEA and in 2002–03 schools in Durham benefited from £4,168,531 through the Standards Fund grant for ICT (including match funding from the LEA).

Research shows that, when used effectively, ICT can engage pupils in learning and raise standards of performance to the equivalent of half a grade at GCSE. The positive impact of ICT in schools takes place irrespective of the socio-economic context of the school.

Literacy/Numeracy (Burnley)

Mr. Pike: To ask the Secretary of State for Education and Skills how much public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Burnley in each of the last five years. [167914]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Lancashire Learning and Skills Council (LSC) area is set out in the table.

£ thousands

	Basic skills[1]	*Key skills*
April 2001 to July 2001[1]	3,370	1,270
August 2001 to July 2002	6,577	1,857
August 2002 to July 2003	7,815	1,948

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Managed Migration

Mr. Drew: To ask the Secretary of State for Education and Skills (1) pursuant to the Home Secretary's written statement of 22 April 2004, on managed migration, whether publicly funded institutions will have to become accredited in order for the Home Office to approve visa applications for their students; [169140]

(2) pursuant to the Home Secretary's written statement of 22 April 2004 on Managed Migration, *Official Report*, column 23WS, whether publicly-funded institutions will have to become accredited in order for the Home Office to approve visa applications for their students. [169160]

Mr. Charles Clarke: Approval for leave to study will be based on a list we are putting together of institutions we know are offering genuine educational opportunities. This will, of course, include publicly funded higher and further education institutions.

In addition to this there are a number of private English language schools already accredited by the British Council who will automatically be registered.

Other private colleges offering genuine educational opportunities will have nothing to fear and will be included in the list following an accreditation process.

The new measures announced are specifically targeted at those organisations intent on getting around the visa regulations and not to damage genuine providers of good quality education. The Home Office is undertaking an intensive round of inspections of colleges where there are suspicions. Visa issue will be put on hold in respect of these until the checks have been made.

Religious Schools

Mr. Collins: To ask the Secretary of State for Education and Skills (1) how many schools of a religious nature there are, broken down by *(a)* local education authority and *(b)* religious affiliation; [167579]

(2) how many Church of England schools there are, broken down by local education authority. [167580]

Mr. Miliband: The information for mainstream schools of a religious nature, including Church of England schools, maintained by local education authorities in England is shown in the following tables.

School Computers

Mr. Pike: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Burnley in each of the last seven years. [167931]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However Burnley is in Lancashire LEA and since 1998–99 schools in Lancashire have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

	Allocation to Lancashire LEA (£)
1998–99	2,500,000
1999–2000	1,627,867
2000–01	5,576,036
2001–02	6,483,142
2002–03	8,983,493
2003–04	9,169,124
2004–05	11,892,478

Mr. Kaufman: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Manchester, Gorton in each of the last seven years. [167441]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However Manchester, Gorton is in Manchester LEA and since 1998–99 schools in Manchester have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

	Allocation to Manchester LEA (£)
1998–99	983,605
1999–2000	1,410,000
2000–01	1,861602
2001–02	2,012,866
2002–03	2,932,949
2003–04	2,880,827
2004–05	3,682,324

School Sports

Mr. Pike: To ask the Secretary of State for Education and Skills (1) what assessment he has made of the effects on schools in Burnley of changes since 1997 in the level of investment in school sports; [167912]

(2) how much has been invested in sustainable school sports in Burnley. [167913]

Mr. Stephen Twigg: This information is not collected in the format requested.

Within the context of the statutory National Curriculum, where Physical Education (PE) is compulsory for pupils aged five to16, it is for individual schools to use their budgets as they judge appropriate.

The Government is investing more than £1 billion in England to transform PE, school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of five to 16 year olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The Department is providing just over £440,000 to support the delivery of a School Sport Partnership in the Lancashire LEA area. The partnership includes five secondary and 21 primary schools and provides enhanced sports opportunities for all young people to ensure that their pupils spend a minimum of two hours each week on high quality PE and School Sport. A key objective for all School Sport Partnerships is to ensure that the improvements and enhanced opportunities that they deliver are sustainable and embedded within schools to ensure a lasting legacy. The New Opportunities Fund

has provided schools in the Lancashire LEA area with nearly £12 million specifically to enhance PE and school sport facilities.

Latest research, published by the Departments on 4 March shows that 68 per cent. of pupils in schools that have been in a partnership for three years, are taking up the two hour entitlement, rising to 90 per cent. at Key Stage 3. Data has been collected from the remaining partnerships and will be published in April.

Mr. Kaufman: To ask the Secretary of State for Education and Skills (1) what assessment he has made of the effects on schools of changes since 1997 in the level of investment in school sports in Manchester, Gorton; [167455]

(2) how much money has been invested in sustainable school sports in Manchester, Gorton. [167456]

Mr. Stephen Twigg: The information is not held centrally. Within the context of the statutory National Curriculum, where Physical Education (PE) is compulsory for pupils aged five to 16, it is for individual schools to use their budgets as they judge appropriate.

The Government are investing more than £1 billion in England to transform PE, school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of five to 16-year-olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The Department is providing just over £1.5 million to support the delivery of three School Sport Partnerships in the Manchester LEA area. The partnerships include 15 secondary and 92 primary schools and provide enhanced sports opportunities for all young people to ensure that their pupils spend a minimum of two hours a week on high quality PE and School Sport. A key objective for all School Sport Partnerships is to ensure that the improvements and enhanced opportunities that they deliver are sustainable and embedded within schools to ensure a lasting legacy. The New Opportunities Fund has provided schools in the Manchester LEA area with over £10 million to specifically enhance PE and school sport facilities.

Latest research, published by the Departments on 4 March shows that 68 per cent. of pupils in schools that have been in a partnership for three years, are taking up the two hour entitlement, rising to 90 per cent. at Key Stage 3. Data have been collected from remaining Partnerships and will be published in April.

Sports Days

Mr. Willis: To ask the Secretary of State for Education and Skills what recent estimate he has made of the number of schools holding annual school sports' days; and if he will make a statement. [167867]

Mr. Stephen Twigg *[holding answer 26 April 2004]:* Almost all schools hold an annual school sports day. The 2003–04 PE, School Sport and Club Links survey found that 96 per cent. of the 6,547 schools taking part in the survey held a sports day or equivalent event during the last academic year. The full results of the survey will be published later this year and a copy of the report will be placed in the Libraries of both Houses of Parliament.

Teachers

Mr. Collins: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in *(a)* primary and *(b)* secondary schools in each year since 1997, broken down by parliamentary constituency. [167558]

Mr. Miliband: The information requested has been placed in the Libraries.

Mr. Collins: To ask the Secretary of State for Education and Skills how many vacant head teacher posts existed in *(a)* primary schools, *(b)* secondary schools and *(c)* special schools in each year since 1997, broken down by parliamentary constituency. [167574]

Mr. Miliband: The information requested has been placed in the Libraries.

Miss McIntosh: To ask the Secretary of State for Education and Skills (1) what guidelines his Department issues on disciplinary action schools should take against teachers who develop inappropriate relationships with pupils outside of school hours; [167217]

(2) what guidelines his Department issues on investigations schools should conduct into allegations of impropriety against a teacher; [167218]

(3) if he will make a statement on his policies on the prevention of inappropriate relationships between teachers and pupils. [167219]

Mr. Miliband: My Department does not issue guidelines about the disciplinary action that might be appropriate to particular issues. The disciplinary sanctions that can be applied against staff in schools are governed by employment law in the same way as for any other employer, and each case must be considered on its merits.

Guidance about procedures for dealing with allegations against teachers, and other staff, including guidance about conducting disciplinary investigations, is annexed to my Department's Circular The protection of children from abuse: The ... the education service". However, the guidance also makes it clear that allegations involving a possible criminal offence, and allegations of possible child abuse must be investigated by the police and the social services respectively because those are the agencies with statutory responsibility for such matters.

An inappropriate relationship between a teacher and a pupil has always been regarded as professionally wrong, and as misconduct that is grounds for disciplinary action, including dismissal, by an employer. That kind of behaviour is also grounds on which the Secretary of State will consider exercising his powers under section 142 of the Education Act 2002 to prohibit the person from future employment as a teacher and other work involving regular contact with children and young people in the education service.

The Government also introduced a new criminal offence of abuse of trust in the Sexual Offences (Amendment) Act 2000 to protect young people under

18 years of age who are in full time education, or looked after by a local authority, or resident in NHS or other institutions, or in detention under an enactment. As well as teachers it applies to any adult working in one of those settings who is regularly involved in caring for, training, supervising, or being in sole charge of children under 18. As far as teachers it is an offence for a teacher to have relationship that involves sexual intercourse, or any other sexual activity, with a young person under 18 who is a pupil at the teacher's school. That offence is punishable by up to five years imprisonment, and it is repealed and re-enacted in the Sexual Offences Act 2003.

In addition, cross departmental guidance "Caring for Young People and the Vulnerable?" about preventing abuse of trust was published jointly by the Home Office, my Department, and the Department of Health in 1999. The guidance aims to help organisations create their own codes of conduct to prevent abuse of trust, either as part of wider codes to prevent abuse, or separately.

University Staff (Salaries)

Mr. Hancock: To ask the Secretary of State for Education and Skills what the average percentage change in salary for *(a)* university academic staff, *(b)* academic-related staff and *(c)* vice-chancellors has been for each year since 1993. [162295]

Alan Johnson: The Department does not collect all the information requested. However the Higher Education Statistics Agency, through the "Individualised Staff Record" (ISR), collects data that can be used to provide estimates of the earnings growth of academic staff employed by Higher Education Institutions. "Academic staff" are defined in the ISR as those whose primary employment function is teaching, research, or a combination of the two.

The ISR does not allow us to provide earnings data on other groups, such as vice-chancellors and academic-related staff where their primary function is not as stated above. Further, this source can only provide earnings growth data from 1995/96, and is also best used in analysing full-time employees only.

The following table shows the annual percentage change in the average salaries of full-time academic staff from 1995/96 to 2002/03, in real terms (adjusted by the Retail Price Index).

Table: Annual percentage change in the real average salaries of full-time academic staff, 1995/96 to 2002/03

	Gender	
Academic year	*Female*	*Male*
1995/96	-1.2	-1.7
1996/97	2.1	2.4
1997/98	0.4	0.2
1998/99	1.6	2.5
1999/2000	2.1	2.4
2000/01	1.4	1.2
2001/02	1.2	1.0
2002/03	1.8	1.4

Written Answers to Questions

Wednesday 28 April 2004

DEFENCE

Armed Forces Personnel

Bob Spink: To ask the Secretary of State for Defence how many *(a)* males and *(b)* females are employed in the (i) Army, (ii) Royal Air Force and (iii) Royal Navy as (A) commissioned officers, (B) non-commissioned officers and (C) other ranks. [168620]

Mr. Caplin: The strengths of male and female commissioned officers, non-commissioned officers and other ranks in each service as at 1 January 2004 are shown below:

	Naval Service[1]	*Army*	*Royal Air Force*
Males			
Commissioned officers[2]	7,110	12,420	9,600
Non-commissioned officers[3]	16,940	51,470	20,860
Other[4]	13,240	39,700	16,610
Total	37,280	103,600	47,070
Females			
Commissioned officers[2]	620	1,370	1,330
Non-commissioned officers[3]	1,120	3,950	1,800
Other[4]	1,960	2,980	3,020
Total	3,700	8,310	6,150

[1] Naval Service includes Royal Navy and Royal Marines.

[2] Commissioned officers include officers designate and above in the Naval Service and Royal Air Force. In the Army, commissioned officers include 2nd Lieutenant and above. As at 1 January 2004, there were an additional 660 male officers designate and 140 female officers designate in the Army, who are excluded from the table above.

[3] Non-commissioned officers includes junior non-commissioned officers; that is, ranks of Leading Rate and above in the Royal Navy, Lance Corporal and above in the Army and Corporal and above in the Royal Marines and Royal Air Force.

[4] This represents all other ranks who are not non-commissioned officers.

Notes:

1. Figures are rounded to the nearest 10.

2. Due to rounding methods used, totals may not always equal the sum of their parts.

Figures provided are for United Kingdom regular forces (including both trained and untrained personnel), and therefore exclude Gurkhas, full-time reserve personnel, the Home Service battalions of the Royal Irish Regiment, mobilised reservists and naval activated reservists.

Army (Redress of Grievance Cases)

Mr. Keetch: To ask the Secretary of State for Defence how many army redress of grievance cases have been submitted in the last five years; and how many are still pending after three years. [167836]

Mr. Caplin: Between 1 April 1999 and 31 March 2004, some 1,135 formal complaints were submitted within the Army. As at 31 March 2004, of the complaints submitted before 1 April 2001, 18 cases are still unresolved.

Mr. Keetch: To ask the Secretary of State for Defence what the reasons are for the delays of over three years of army redress cases; and if he will make a statement. [167837]

Mr. Caplin: All complainants have the right to take their complaint, through a series of levels in the chain of command, to the Army Board (as the Defence Council). Officers have the further opportunity to petition the Crown.

A relatively small number of redress cases remain unresolved after more than three years. This is usually because of the need to exchange detailed case papers with the complainant, prior to the redress being heard, or because the cases concern complex legal issues, which can take a considerable time to resolve. Additionally, if a complainant submits a case to an employment tribunal or civil court case it is normal practice for the Army to suspend its consideration until these bodies have reached a conclusion.

Defence Colleges

Mr. Kidney: To ask the Secretary of State for Defence what progress his Department has made in establishing defence colleges as centres of vocational excellence. [168468]

Mr. Caplin: In support of its strong and continuing commitment to meet its training needs in the most effective, efficient and economical manner, the Ministry of Defence has recently taken a major step in the Defence Training Rationalisation Programme by establishing six Defence Colleges for specialist skills training. As a major public employer and training provider in support of the Government's skills agenda, the Department also contributes significantly to the nation's wider economic and social well-being. In so doing, the Department responds to all relevant Government initiatives and is assessing the applicability of seeking Centres of Vocational Excellence (CoVE) status for its developing Defence Colleges.

Droitwich Spa Army Medal Office

Mr. Luff: To ask the Secretary of State for Defence what assessment he has made of the impact of the planned closure of the Droitwich Spa Army Medal Office on the efficient issuing of the *(a)* Iraq and *(b)* GSM Canal Zone medals. [168922]

Mr. Caplin: Plans are currently being drawn up in consultation with the single Services to ensure that the distribution of medals to both serving personnel and the veterans' community continues and disruption is minimised. How best to tackle the current medals backlog prior to the formation of the Joint Medal Office is being considered as part of this work.

Joint Medal Office

Mr. Laurence Robertson: To ask the Secretary of State for Defence pursuant to the written statement of 20 April 2004, *Official Report*, column 11WS, on Joint Medal Office, how many personnel he expects will move

to RAF Innsworth from other bases following the creation of the Joint Medal Office on that site; and if he will make a statement. [168816]

Mr. Caplin *[holding answer 26 April 2004]:* At this time it is not possible to say how many personnel will move to the Joint Medal Office at RAF Innsworth. Personnel at the sites affected are currently being asked to complete a preference proforma to assess how many would wish to transfer. This exercise should be completed by July, after which Planning Assumptions can be finalised.

I intend to keep the House and appropriate constituency members informed of progress.

Manning Control Points

Mr. Keetch: To ask the Secretary of State for Defence how many military and civilian staff from APC Glasgow were involved in the administration of manning control points in *(a)* 1997 and *(b)* 2003, broken down by (i) rank and (ii) pay scale; and if he will make a statement. [167838]

Mr. Caplin: I refer the hon. Member to the answer given on 25 March 2004, *Official Report*, column 946W, which reported that the information requested was not held centrally and could be provided only at a disproportionate cost.

Mr. Keetch: To ask the Secretary of State for Defence how many amendment to terms of service forms have been signed by army personnel who have been listed for manning control reviews in each of the last eight years; and if he will make a statement. [167839]

Mr. Caplin: I refer the hon. Member to my answer of 25 March 2004, *Official Report*, column 946W, which reported that AFB6848 forms are not held centrally for longer than a year.

Of the 28,000 AFB6848 forms signed during the period 1 March 2003 to 29 February 2004, the numbers signed by those listed for Manning Control Point review are not separately identified and could be provided only at disproportionate cost.

Mr. Keetch: To ask the Secretary of State for Defence how many soldiers who were *(a)* discharged under QR 9.413, *(b)* issued with manning control warning certificates and *(c)* discharged due to QR 9.414 who signed AFB130A were listed as P7 on their last recorded medical assessment, broken down for each of the last eight years; and if he will make a statement. [167840]

Mr. Caplin: The information requested at *(a)* and *(c)* is as follows:

	Soldiers graded as P7 discharged under:	
	(a) QR 9.413	*(b) QR 9.414*
1996	11	8
1997	15	16
1998	9	20
1999	[1]Under 5	13
2000	[1]Under 5	29
2001	[1]Under 5	29
2002	0	37
2003	0	57

[1] Actual figures cannot be provided without breaching disclosure and confidentiality policy.

The number issued with manning control warning certificates is not held centrally and could be provided only at disproportionate cost.

Mr. Keetch: To ask the Secretary of State for Defence what forms are used in the process of manning control; and in what order they are used. [167842]

Mr. Caplin: Soldiers being considered for discharge by Manning Control Point are sent a letter up to 18 months beforehand. They are asked to sign a certificate to agree that they have been warned about their potential discharge.

If a soldier is to be discharged, the parent unit is informed by letter from the appropriate Manning and Career Management Division. The unit will then raise an Army Form B130A Application for the Compulsory Premature Discharge of a Soldier, which is completed by both the Commanding Officer and the individual concerned.

MOD Bases (Wales)

Mr. Wiggin: To ask the Secretary of State for Defence what the change has been in the number of jobs at his Department's bases in Wales in each year since 1997; and what the change has been in the establishment of Welsh regiments in the same period. [168458]

Mr. Caplin: Information on the number of jobs is not available, only personnel numbers.

The number of service personnel located in Wales since 1997 were as follows:

Date	*Service Personnel*[1]	*Change*
1 July 1997	3,330	—
1 July 1998	3,240	-90
1 July 1999	3,270	+30
1 July 2000	3,220	-50
1 July 2001	2,570	-660
1 July 2002[2]	2,110	-460

[1] Figures are for UK regular forces (including both trained and untrained personnel), and therefore exclude Gurkhas, full-time reserve service personnel, the Home Service battalions of the Royal Irish Regiment, mobilised reservists and naval activated reservists.

[2] Location data for service personnel as at 1 July 2002 are the latest available.

Note:

All figures have been rounded to the nearest 10.

The number of Ministry of Defence civilian staff located in Wales since 1997 were as follows:

Date	*Civilian staff*[1]	*Change*
1 April 1997	4,890	—
1 April 1998	5,050	+150
1 April 1999	5,100	+50
1 April 2000	4,970	-120
1 April 2001	4,780	-190
1 April 2002	4,430	-350
1 April 2003	4,170	-260

[1] Civilian staff figures are full-time equivalent figures for industrial and non-industrial permanent staff, excluding Royal Fleet Auxiliaries and those on career breaks, long-term sick leave, secondments etc. The above figures include Trading Funds staff.

Note:

All figures have been rounded to the nearest 10.

The establishments of the Welsh Regiments since 1997 are as follows:

1st Battalion, The Queen's Dragoon Guards

From 1997 to 2000, the unit establishment was 474. In 2000 they adopted their present unit establishment of 454.

1st Battalion, The Royal Regiment of Wales

Their unit establishment of 741 has remained unchanged since 1997.

1st Battalion, The Welsh Guards

From 1997 to 2000, the unit establishment was 605. In May 2000 their role changed so the unit establishment changed to 668. From April 2003 they adopted their present unit establishment of 618.

1st Battalion, The Royal Welsh Fusiliers

From 1997 to 2003, they had a unit establishment of 605. Their role changed in August 2003 and they adopted their new unit establishment of 668.

Nuclear Co-operation (France)

Alan Simpson: To ask the Secretary of State for Defence what plans his Department has to share *(a)* nuclear weapons designs and *(b)* nuclear weapons technology with the French Government. [167976]

Mr. Hoon: The Ministry of Defence continues to maintain contacts with France on a range of technical and scientific issues relating to nuclear weapons. These contacts are consistent with the United Kingdom's international obligations, including those under the Non-Proliferation Treaty and the Comprehensive Test Ban Treaty. I am withholding more specific information on the particular activities themselves under the terms of Exemption Category I of the Code of Practice on Access to Government Information relating to defence, security and international relations.

Reservists

Lady Hermon: To ask the Secretary of State for Defence for what reasons delays are occurring in relation to the payment of mobilised reservists; how many reservists are affected; and what action he is taking to expedite the payment of mobilised reservists. [165139]

Mr. Caplin *[holding answer 1 April 2004]:* I refer the hon. Member to the answer I gave on 19 April 2004, *Official Report*, column 340W.

We are not aware of any delay in the payment of reservists' basic military salary. However, there have been some late payments of allowances for reservists during Operation Telic which is attributable to delays in the administrative process of taking the reservist on strength at the Theatre unit. In addition, there have also been delays in handling claims for financial assistance.

Both of these issues were identified during the Operation Telic lessons identified process and action is in hand to improve the administrative systems in use. In particular, as announced in the recent Defence White Paper, we are in the process of developing replacement regulations for reservists' financial assistance which should simplify and speed up the claims process.

US Nuclear Weapons

Mr. Simon Thomas: To ask the Secretary of State for Defence whether US nuclear weapons will be withdrawn from the UK as part of the current withdrawal of US nuclear weapons from Europe; and if he will make a statement. [169131]

Mr. Hoon: As stated in NATO's Strategic Concept (paragraph 63):

> "nuclear forces based in Europe and committed to NATO provide an essential political and military link between the European and North American members of the Alliance. The Alliance will therefore maintain adequate nuclear forces in Europe."

Numbers of United States nuclear weapons in the United Kingdom can and do vary, and the capability for deployments of such weapons to and from the UK remains extant regardless of the particular number of weapons in the UK at any given time.

It is NATO and national policy not to comment on the detail of such nuclear deployments.

Wind Farms

Mrs. Dunwoody: To ask the Secretary of State for Defence what representations he has made to the Department of Trade and Industry regarding the placement of wind farms around the UK coast. [168233]

Mr. Caplin: The Ministry of Defence has engaged with the Department of Trade and Industry and Crown Estates throughout the initial planning stages for wind farms around the UK coast. In that context MOD has drawn attention to those cases where it has concerns relating to wind farms and their effects on air safety, national defence monitoring, operational needs or where sites are within danger areas.

The Ministry of Defence is fully supportive of the Governments aims and targets for renewable energy.

Mrs. Dunwoody: To ask the Secretary of State for Defence what plans his Department has for wind farms on its facilities on the UK coastline. [168236]

Mr. Caplin: The Ministry of Defence currently has no wind farms on its facilities on the UK coastline, nor any plans to site any there. However, the Department would consider approaches from developers to site wind farms on its property where they will not interfere with defence operations, compromise safety or the United Kingdom defences.

Mrs. Dunwoody: To ask the Secretary of State for Defence what consultation he has *(a)* undertaken and *(b)* planned with maritime groups about the impact of offshore wind farms on marine navigation. [168237]

Mr. Caplin: The Ministry of Defence has engaged in consultation with The Maritime and Coastguard Agency in its capacity as a key sea user. This is to ensure that the Department's marine navigation and transport needs are adequately covered in the Marine Guidance Note to be published on Proposed UK Offshore Renewable Energy Installations: Guidance on Navigation Safety Issues.

TRANSPORT

Faulty Exhaust Pipes

Mr. Hepburn: To ask the Secretary of State for Transport (1) how often checks are made to ensure that motorists with faulty exhaust pipes are prevented from releasing toxins into the atmosphere; [168873]

(2) what checks are in place to ensure motorists with faulty exhaust pipes are prevented from releasing toxins into the atmosphere; [168874]

(3) how many people in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK have been found guilty of driving vehicles with noxious exhausts in each year since 1997. [168875]

Mr. Jamieson: Emissions performance is checked in MOT tests, which in the case of cars are carried out three years after registration, and then every year thereafter. The MOT test includes a visual check of the exhaust system and, for most vehicles, a measurement of the concentration of exhaust gases that indicate whether or not the vehicle is being appropriately maintained.

In addition, roadside spot checks are carried out intermittently by the Department's Vehicle and Operator Services Agency (VOSA), and by certain local authorities with particular air quality problems, to help promote compliance.

There are no statistics available which record emissions offences separately from other minor offences under the Road Vehicles (Construction and Use) Regulations 1986. The best indication of non-compliance is given by MOT test failure rates, although this is not readily available by geographical area. The MOT emissions test failure rates for the whole of GB are given in the following table.

MOT emissions failures as a percentage of vehicles tested at MOT stations

Percentage

	Conventional petrol	*Catalyst petrol*	*Diesel*
1997–98	7.1	2.8	8.5
1998–99	6.4	3.3	7.4
1999–2000	5.6	2.9	5.9
2000–01	4.3	2.6	6.1
2001–02	3.1	2.6	5.5
2002–03	6.7	2.5	5.0
2003–04	[1]—	[1]—	[1]—

[1] Not available.

Diesel Spillages

Vera Baird: To ask the Secretary of State for Transport, (1) if he will take steps to encourage vehicle manufacturers to undertake or fund research into designs for a fuel tank that would not allow diesel to spill onto the highway, even if over-filled; [168612]

(2) if he will launch a campaign to raise awareness amongst commercial goods vehicle drivers of the risks that diesel spillage due to over-filled fuel tanks can cause to other road users, especially motorcyclists; [168613]

(3) if he will support the campaign by The Road Users Campaign to Kill Diesel Spills to reduce the number of diesel spillages on British roads; [168614]

(4) if he will make non-spill fuel caps compulsory for all new diesel vehicles to prevent dangerous diesel spillages on the road. [168615]

Mr. Jamieson: I recognise the problems that can be caused by spilled diesel, particularly to motorcyclists, which is why my Department has launched a review into this issue. Part of this review is looking into the possibility of raising the profile of the existing spillage prevention Regulations. Until this study is complete I will not be making any proposals or recommendations concerning the construction and use of diesel fuel tanks in respect of preventing diesel spillage.

The European fuel tanks Directive 2000/8/EC has been mandatory, since 3 May 2003 for cars.

At present there are no pre-registration checks on the fuel tanks of commercial vehicles and buses. However, these vehicles will have to meet Whole Vehicle Type Approval by 2008 at the earliest and completely by 2011, although manufacturers are all likely to comply before this date. The new Type Approval incorporates the fuel tank Directive.

The correct fitting and operation of fuel tank filler caps is now checked during a vehicle's annual test which will have a positive effect on preventing diesel spillage.

Highways Agency Traffic Officers

Mrs. Dunwoody: To ask the Secretary of State for Transport what the responsibilities of uniformed Highways Agency Traffic Officers are. [168254]

Mr. Darling: The responsibilities of the uniformed Highways Agency traffic officer patrols will be to keep traffic flowing and support road users by managing minor incidents, dealing with the traffic consequences of all incidents, organising the removal of broken down and abandoned vehicles, removing debris and obstructions and implementing traffic management measures.

Uniformed traffic officers will also be working in seven regional control centres where they will work in partnership with the police to control incident management, operate variable message signs and answer calls from emergency roadside telephones.

Traffic officers will help improve the quality of traffic information to road users by providing better information on the nature, scale and anticipated duration of incidents.

The police will continue to deal with major incidents, which require significant co-ordination of the emergency services, and those involving death, injury, criminality or threats to public order and public safety.

By transferring these roles and responsibilities to the Highways Agency, it will free-up police time to concentrate more on road safety, crime and law enforcement.

Ministerial Travel

Bob Russell: To ask the Secretary of State for Transport what form of transport he used to travel to and from London Liverpool Street railway station on 1 April to launch the new Greater Anglia Franchise. [167292]

Mr. McNulty: The Secretary of State travelled by car to London Liverpool Street railway station.

Bob Russell: To ask the Secretary of State for Transport if he will list the occasions from 1 January to 31 March when, in association with his ministerial duties, he used *(a)* railway services, *(b)* bus services and *(c)* underground trains. [168065]

Mr. McNulty: The Secretary of State has used various forms of transport, including railway services, bus services and underground trains, during this period, in association with his ministerial duties.

Motorways

Mr. Greg Knight: To ask the Secretary of State for Transport if he will ensure that all future and current construction of fencing alongside the M1 motorway in Leicestershire and South Yorkshire is set back a sufficient distance from the motorway to accommodate future widening. [168230]

Dr. Howells: There are currently no proposals to install fencing along the sections of the M1 in Leicestershire and South Yorkshire that are affected by future widening schemes.

Should any proposals arise in the future, the Highways Agency would take into account the widening of the M1 prior to carrying out any works.

Recycled Paper

John Thurso: To ask the Secretary of State for Transport (1) what percentage of *(a)* paper for printed publications and *(b)* copying paper used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained; [166058]

(2) what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content; [166059]

(3) what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all for printed publications bought by the Department is 60 per cent. recycled of which a minimum in 75 per cent. post-consumer waste; [166060]

(4) when his Department expects to implement in full the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content and *(b)* all paper for printed publications brought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [166061]

Mr. McNulty: It is the Department's policy to use 100 per cent. recycled paper (comprising at least 80 per cent. post consumer waste) for all work not requiring specialist papers. This exceeds the minimum required by the quick win targets set by DEFRA.

99 per cent. of the copier paper bought by my Department in 2002–03 and 2003–04 was 100 per cent. recycled and contained a minimum of 80 per cent. post consumer waste.

100 per cent. of paper used for printed publications produced through my Department's Communication Directorate contained a minimum of 75 per cent. post-consumer waste.

Procurement officers are made aware of the availability of competitively priced recycled papers by:

(a) promoting the use of the recycled copier papers available under this contract to the Department's stationery ordering points and across its agencies and NDPB's;

(b) monitoring HQ paper consumption monthly and investigating non-compliant purchases. The Department's agencies are expected to monitor compliance similarly.

John Thurso: To ask the Secretary of State for Transport if he will list the Department's main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports, in each case stating (i) the name of each paper used and (ii) the (A) recycled and (B) post-consumer recycled content of each paper. [166062]

Mr. McNulty: This information is as follows:

(a) and *(b)* Copier paper and stationery:

Banner Business Supplies Limited:

Evolve Office Paper—100 per cent. recycled, 100 per cent. post consumer recycled

Xerox Recycled Paper—100 per cent. recycled, 100 per cent. post consumer recycled

Banner Office Paper—100 per cent. recycled, 100 per cent. post consumer recycled

(c) Envelopes:

Banner Business Supplies Limited:

Banner envelopes—80 per cent. to 100 per cent. recycled, 65 per cent. to 85 per cent. post consumer recycled

New Guardian Armour gusset envelopes—80 per cent. to 100 per cent. recycled, 65 per cent. to 85 per cent. post consumer recycled

Survivor Tyvek extra strong envelopes—Not known

(d) Paper for reports:

Howard Smith Paper:

Greencoat—80 per cent. recycled, 80 per cent. post-consumer waste Paper

Hexagon Wove—100 per cent. recycled, 80 per cent. post-consumer waste, 20 per cent. pre-consumer waste

Premier Paper:

Evolution Satin—75 per cent. recycled, 75 per cent. post-consumer waste

Evolution Gloss—75 per cent. recycled, 75 per cent. post-consumer waste

Evolve Business—100 per cent. recycled, 100 per cent. post-consumer waste

Cyclus Print—100 per cent. recycled, 100 per cent. post-consumer waste

Cyclus Offset—100 per cent. recycled, 100 per cent. post-consumer waste

James McNaughton Paper:

Cyclus Offset—100 per cent. recycled, 100 per cent. post-consumer waste

Cyclus Print—100 per cent. recycled, 100 per cent. post-consumer waste

Repeat—100 per cent. recycled, 100 per cent. post-consumer waste

ReVert—80 per cent. recycled, 80 per cent. post-consumer waste

Robert Home Paper:

Revive Matt—75 per cent. recycled, 75 per cent. post-consumer waste

Revive Gloss—75 per cent. recycled, 75 per cent. post-consumer waste

Evolve Business—100 per cent. recycled, 100 per cent. post-consumer waste

Alsaprint—100 per cent. recycled, 100 per cent. post-consumer waste

Revive Silk—75 per cent. recycled, 75 per cent. post-consumer waste

Revive Uncoated—100 per cent. recycled, 80 per cent. post-consumer waste, 20 per cent. pre-consumer waste

Road Casualties (Burnley)

Mr. Pike: To ask the Secretary of State for Transport what the percentage change in *(a)* deaths and *(b)* serious injuries on the roads of Burnley has been since 1997. [167881]

Mr. Jamieson: In the Burnley local authority area there was one fatal casualty in 1997 and no fatal casualties in 2002, the latest year for which figures are available. The number of people seriously injured in road accidents increased from 59 in 1997 to 62 in 2002, a rise of 5 per cent..

Shipping (Security)

Mr. Carmichael: To ask the Secretary of State for Transport how many additional staff his Department's Security Directorate has recruited in order to complete assessments of ship security plans as required under the International Ship and Port Facility Security Code. [167636]

Mr. Jamieson: TRANSEC has been able to approve and verify the passenger ship security plans within existing staff resources. The Maritime and Coastguard Agency has delegated responsibility for non-passenger (cargo) shipping and has recruited and trained 15 new security surveyors and five new office staff.

Transport Infrastructure (Stalybridge and Hyde)

James Purnell: To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Stalybridge and Hyde since 1997. [168733]

Mr. McNulty: No priority bus lanes have been introduced in Stalybridge and Hyde since 1997, although 11 km of Quality Bus Corridors (QBC) are proposed for the area, which will provide additional cycling facilities.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Ammonium Nitrate

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the agriculture industry on alternatives to ammonium nitrate fertiliser. [166842]

Mr. Morley: The Government have an on-going dialogue with the agriculture industry on a range of nitrogen fertilisers to compare how well they perform in GB soil and climatic conditions and their potential environmental impacts. Ammonium nitrate has for many years proved to be the most effective fertiliser for these conditions and the most environmentally acceptable.

Animal Carcase Incinerators

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on compliance arrangements for low capacity animal carcase incinerators. [168081]

Mr. Morley: Low capacity animal carcase incineration plants, to which the Waste Incineration Directive does not apply, must comply with the relevant requirements of Regulation (EC) No. 1774/2002 and must also be approved in accordance with this Regulation.

This Regulation is enforced in England by the Animal By-Products Regulations 2003 (SI 2003/1482). Operators must ensure compliance if they wish to obtain an approval to incinerate animal by-products.

The Waste Incineration Directive will apply immediately to all new plants and existing plants from 28 December 2005 that burn wastes derived from animal carcases. These existing installations are regulated under the Waste Management Licensing regime.

Bass Fishery

Mr. Key: To ask the Secretary of State for Environment, Food and Rural Affairs if she will close the UK inshore bass fishery to commercial exploitation on conservation grounds; and if she will make a statement. [165930]

Mr. Bradshaw: Closure of the UK inshore bass fishery to commercial exploitation would have limited conservation benefits as the bass allowed to survive would simply become part of the winter offshore fishery. The International Council of Exploration of the Sea's assessment of bass stocks in EU waters in 2003 did not support such a closure, but recommended that fishing mortality should not be allowed to increase given the uncertainties in the assessment and the possible influence of climate change on the stock. This work also showed that landings in most inshore fisheries had remained buoyant.

Scientists from the Centre for Environment, Fisheries and Aquaculture Science are closely monitoring the bass fishery on our behalf and I do not rule out further measures to protect bass, but any additional action would need to be supported by scientific evidence.

Mr. Key: To ask the Secretary of State for Environment, Food and Rural Affairs how many Scottish vessels are pair trawling the sea bass spawning shoals off the south and west coasts of England. [165931]

Mr. Bradshaw: There are 14 Scottish registered vessels currently involved in pair trawling operations off the south and west coasts of England.

Mr. Key: To ask the Secretary of State for Environment, Food and Rural Affairs how many vessels made landings of spawning sea bass at Plymouth on 26 March; and what their registered ports were. [165932]

Mr. Bradshaw: Departmental records do not separately record landings of spawning sea bass. On 26 March 15 vessels made landings of sea bass into Plymouth. Those vessels were registered at the following ports: Carlisle (one), Exeter (two), Fowey (one), Fraserburgh (two), Kircaldy (one), Lowestoft (one), Peterhead (four), Plymouth (two) and St Ives (one).

Batteries

Rob Marris: To ask the Secretary of State for Environment, Food and Rural Affairs how many businesses in the UK recycle small, domestic-type batteries. [164531]

Mr. Morley *[holding answer 26 April 2004]:* At present, such recycling capacity is extremely limited in the UK. There is a plant in the Midlands that recycles silver oxide batteries commonly used in watches and there are plans for a recycling plant in Scotland which would recycle Lithium-ion batteries, including the portable type. Currently, the Government are in discussions with stakeholders examining the possibility of setting up UK recycling capacity for zinc carbon and alkali manganese batteries, commonly found in portable radios and children's toys.

Carbon Trust

Mr. Carmichael: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 23 February 2004, *Official Report*, column 127W, on the Carbon Trust, how much money the Trust has loaned in total to small and medium enterprises for energy efficiency projects in each of the last five years. [157824]

Mr. Morley: The Action Energy Loan scheme for small and medium enterprises began operating in the 2003–04 financial year. The cumulative value of offers to date (including those committed but not necessarily paid out) is £2,887,000 and actual payments (excluding committed but not yet paid) is £2,305,000.

Mr. Carmichael: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the Carbon Trust's budget has been allocated to projects in Scotland in each of the last five years; and what steps her Department takes to assess the effectiveness of work undertaken by the Carbon Trust. [158216]

Mr. Morley: The Carbon Trust is a private company launched in 2001 as part of the Climate Change Levy package. The Trust receives grant funding from Defra for the non-domestic element of the UK wide Energy Efficiency Best Practice Programme (EEBPp), and from the Climate Change Levy via Defra for England and via separate grant offer relationships with the Devolved Administrations. Therefore queries regarding projects carried out in Scotland should be addressed to the Scottish Executive.

A formal review of the Climate Change Programme is planned for 2004 that will include an assessment of the contribution of the Carbon Trust towards climate change targets. The Carbon Trust has undertaken an impact assessment of their programmes as part of their Annual Review which is available via their website www.thecarbontrust.co.uk.

Climate Change

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications of climate change for biodiversity in the United Kingdom and its surrounding waters over the next 50 years. [165285]

Mr. Morley: The Department, along with the Devolved Administrations, statutory nature conservation agencies and non-governmental organisations, is contributing to an on-going research programme on the impacts of climate change on biodiversity in the UK and its surrounding waters. Results suggest that as climate changes, the distribution of species and the composition of habitats will change. With warmer temperatures, some northern species are likely to retreat, while southern species may be able to expand their ranges. At the same time, coastal habitats will be affected by rising sea levels. On land, movement of some species may be impeded by our fragmented landscapes, possibly leading to local extinctions. However, dispersal and movement of species within the marine environment is not hindered in this way and evidence from surveys of rocky shorelines shows that many species have already extended their range northwards over the past 20 to 30 years.

The key to understanding climate change impacts on biodiversity are long time series of data which enable the distinction of natural variability from local human impacts and longer term climatic trends. Within the UK Marine Monitoring Strategy we are making provisions for collection of time series data to enable better estimation of the effects of climate change on marine ecosystems.

Contaminated Land

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will list the locations of *(a)* land deemed by the relevant local authority to be in a condition causing or likely to cause (i) significant harm and (ii) pollution of controlled waters as defined by 78A(2) of the Environmental Protection Act 1990 and *(b)* other contaminated land; what the size of each site is; what the nature of the contamination is in each case; and what steps (A) have been taken and (B) are planned to remedy any such contamination; [165806]

(2) if she will estimate the *(a)* number and *(b)* total area of sites where land is designated as contaminated land; [165807]

(3) if she will make a statement on steps *(a)* which have been taken and *(b)* are being taken to tackle the problem of contaminated land. [165808]

Mr. Morley: To help address the legacy of land contamination, the Government brought into force part IIA ("contaminated land") of the Environmental Protection Act 1990. This placed local authorities under a statutory duty to inspect their areas to identify contaminated land as defined in the Act, and to secure its remediation, in accordance with the detailed provisions of the regime. They are required to take a strategic and prioritised approach to the duty of inspection. For certain sites, known as special sites, enforcement is by the Environment Agency. The regime came into effect in April 2000 in England and is described in DETR Circular 02/2000, "Contaminated Land". In broad terms, the regime addresses unacceptable risk arising from land contamination in situations where other statutory regimes cannot be applied.

The Department and the Environment Agency publish technical and other material to assist local authorities. Defra provides capital and revenue support to both LAs and the agency in connection with part IIA duties. The Office of the Deputy Prime Minister has proposed updated guidance in connection with both planning and building control regimes, since these play a major part in addressing the legacy of land contamination. Urban regeneration initiatives, led by that Department, also help address land contamination, and tax incentives have been introduced.

Progress is being made. The agency prepares periodic statutory reports on the state of contaminated land, the first of which was published in September 2002 and laid in the Library. As at 31 March 2004, some 66 part IIA determinations had been recorded in England, as detailed in the following table. Some cases involve a number of determinations, and some involved both pollution of controlled waters and significant harm. The precise areas of individual sites, and planned measures, are not collected centrally, but size ranges are shown, together with the nature of the problem in each case.

Under part IIA, remediation can be secured through voluntary action, in which case a remediation statement is produced, or through enforcement action, in which case a remediation notice is served on the appropriate persons. Details are placed on a public register kept by the authority. Research is under way to improve our knowledge of the progress being made outside the part IIA regime.

Location	*Local authority area*	*Date determination notice issued*	*Steps taken*	*Approximate area in hectares (ha)*

Dairy Farming

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has held with dairy farmers on the 2004 integrated administration and control system form. [168086]

Alun Michael: The 2004 IACS application form was based on the 2003 form and updated to take account of the requirements of new EC legislation. The application form has been developed over time with considerable input from farmers' representatives. As is usual the National Farmers Union and the Country Land and Business Association were copied the proposed drafts of the IACS 2004 literature and their comments noted.

Four new Aids were introduced for 2004 including those for Dairy Premium and the Additional Dairy Payment. In order to meet the printing deadlines the design of the form had to be finalised before the Minister had agreed to the detail regarding the Additional Payment.

The final design was a compromise between simplicity for farmers claiming Dairy Premium/Additional Payment and the need to collect enough information to cover a range of possible options for the Additional Payment criteria without having to ask farmers for further information.

Disposable Nappies

Mr. Lepper: To ask the Secretary of State for Environment, Food and Rural Affairs what proposals she has under the Waste Implementation Programme to identify and promote best practice within the NHS in relation to the promotion and use of disposable nappies. [168777]

Mr. Morley: The use of disposable nappies in the NHS is well established. Government want to ensure that parents who are interested in re-usable nappies are provided with information about that option alongside information on disposables.

The Waste and Resources Action Programme (WRAP) is employing staff to work alongside health professionals in hospitals and trusts as part of its work on waste minimisation and identifying and promoting best practice in relation to re-usable nappies in the NHS.

EU Accession States

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what measures her Department has in place effectively to monitor imports of *(a)* human food and *(b)* animal feed from (i) EU member states and (ii) EU accession states in respect of their compliance with EU regulations on labelling and traceability. [167417]

Mr. Morley: Imports of Genetically Modified Organisms into and within the EU are covered by existing legislation in the form of Directive 2001/18/EC on the deliberate release into the environment of GMOs, Regulation (EC) No. 1829/2003 on GM food and feed and Regulation (EC) No. 1830/2003 concerning the traceability and labelling of GMOs and the traceability of food and feed products produced from GMOs). All Regulations take direct effect in both existing member states and accession states.

Domestic implementation of the new Regulations (which cover imports of both human food and animal feed) is a devolved competence. In England, local authorities are under a duty to enforce the requirements. Sample analysis must be carried out by a public analyst laboratory accredited for GM analysis.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what efforts her Department has made to ensure that EU accession states have the required technical capacity and advice to ensure their compliance with *(a)* testing, *(b)* labelling and *(c)* traceability of GM crops and foods under EU regulations; [167418]

(2) what discussions she has had with *(a)* the EC and *(b)* her counterparts in the 10 EU accession states to seek a timetable for the compliance of the accession states with regulations (EC) 1829/2003 and (EC) 1830/2003 on the labelling and traceability of genetically modified crops; [167419]

(3) what efforts her Department is making to ensure that *(a)* EU member states and *(b)* EU accession states comply with EU rules on genetically modified crops, including regulations (i) (EC) No.1829/2003 and (ii) (EC) No.1830/2003 under directive 2001/18/EC on traceability and labelling. [167420]

Mr. Morley: Directive 2001/18 on the deliberate release into the environment of Genetically Modified Organisms (GMOs) is part of the aquis communautaire for the new member states.

New Regulations on traceability and labelling of GMOs (Regulation (EC) 1830/2003) and GM food and feed (Regulation (EC) 1829/2003) are not formally included in the "aquis communautaire" for accession states as negotiations were closed in December 2002. However, the regulations will apply in new member states from 1 May 2004, and new member states will be required to have appropriate legislative frameworks in place. The new Regulations took effect in existing member states from 18 April 2004.

All these Regulations require member states to introduce a proportionate and effective hierarchy of offences and penalties related to the potential seriousness of the failure to comply with the various EU requirements.

The Commission is required to produce Community-wide guidance in relation to the new Regulations, including guidance on sampling and testing, to ensure a co-ordinated approach between member states. Work on this is still under way.

The Secretary of State has not explicitly discussed the application of these Regulations with current or accession member states. However, officials from my Department and the Food Standards Agency continue to liaise with their counterparts in other member states through Regulatory and Standing Committees and informal contacts.

Fluoxetine

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what work has been carried out to establish the background levels of fluoxetine in the aquatic environment; [167861]

(2) what information she has procured to establish the levels of residues from anti-depressant drugs in the *(a)* livers, *(b)* brains and *(c)* muscle of fish. [167860]

Mr. Bradshaw *[holding answer 23 April 2004]*: During 2002–03 the Environment Agency carried out a desk based ranking exercise on the 500 pharmaceuticals most commonly used in England and Wales in order to prioritise those of environmental significance. This exercise included fluoxetine, more commonly known under the trade name Prozac. A short, targeted monitoring programme was then set up for 12 pharmaceuticals. Fluoxetine was not included because no analytical method suitable for use on environmental samples existed and development of one would be difficult. The top ranked antidepressant was lofepramine and this was included in the monitoring survey. A method was not in existence and had to be developed. Lofepramine was not detected in any of the five sewage works effluents or receiving watercourses monitored. However, it does not necessarily follow that the same would be true for fluoxetine.

No monitoring of fish has been undertaken.

The Environment Agency have developed a Position Statement on pharmaceuticals—which can be found on the Agency's website, www.environment-agency.gov.uk

(search—pharmaceuticals). This elaborates further on the work done and includes a recommendation to the pharmaceutical industry to do more on the development of analytical methods for environmental monitoring. I am pleased that the Environment Agency is in discussion with the industry on the development of a work programme to cover the recommendations to industry listed in the Position Statement.

Fly-tipping

Mr. Dhanda: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she will take to enable more rapid action against fly-tipping. [168016]

Mr. Morley: The Anti-social Behaviour Act 2003 gave powers to local authorities, allowing them to stop, search and seize vehicles suspected of fly-tipping. It also gave the Secretary of State the power to request fly-tipping data returns from waste collection authorities and the Environment Agency (the Agency). The national database, Flycapture, was launched on 5 April 2004 for this purpose, and a notice in writing was issued to all waste collection authorities and the Agency. A clearer national picture of fly-tipping will form a more robust evidence base informing future policy decisions, at a national and local level.

The Fly Tipping Strategy was published for consultation on 23 February 2004. The Strategy builds on previous legislative changes and aims to extend the tools available to the authorities in the prevention and enforcement of fly-tipping.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Government's fly tipping strategy. [168084]

Mr. Morley: The Fly Tipping strategy was published for consultation on 23 February 2004. The consultation period ends on 14 May 2004. Comments received will be analysed and responses will be made publicly available.

The strategy proposes a range of measures to help tackle the problem of fly-tipping and encourage effective enforcement alongside pro-active preventative policies.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the Hazardous Waste Forum's recommendations for contingency plans to give temporary authorisation for export of hazardous waste to mainland Europe; and if she has discussed this possibility with European governments; [164076]

(2) what estimate she has made of the total potential hazardous waste storage capacity available from businesses using the exemption on temporary storage of hazardous waste at the place of production in paragraph 41 of Schedule 3 of the Waste Management Licensing Regulations 1994; and what plans she has to amend the regulations to increase the volumes of waste that may be stored under this exemption; [164074]

(3) what contingency measures she is putting in place in the event of a shortfall in *(a)* treatment and *(b)* disposal capacity for hazardous wastes following (i) the end of co-disposal in July 2004 and (ii) the enforcement of the Waste Acceptance Criteria in July 2005; and if she will make a statement; [164075]

(4) what sites she has identified on a contingency basis as suitable for the storage of hazardous wastes from July 2004. [164077]

Mr. Morley *[holding answer 26 March 2004]:* We have a series of actions programmed, as presented to the seventh meeting of the Hazardous Waste Forum, to ensure the smooth implementation of the Landfill and Hazardous Waste Directives, and, in particular, the ban on co-disposal. The impact of expected higher costs on disposal and treatment provides a greater incentive for waste minimisation at source, through source separation and segregation of hazardous and non-hazardous wastes. Future arisings of hazardous waste are therefore uncertain. In addition, higher costs of landfill will enable alternative treatments to be more economically viable, diverting hazardous waste from landfill. The Government and the Environment Agency are monitoring closely, through a range of measures, waste industry plans for the provision of treatment and disposal capacity, and the response of waste producers and will continue to do so. A number of possible response options exist, including those identified by the Forum, should these be necessary.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 11 March 2004, *Official Report*, column 1620W, on hazardous waste, how many of the *(a)* 100,000 special waste producers and *(b)* 750,000 future hazardous waste producers (i) her Department and (ii) the Environment Agency have contacted to inform them of the requirements of the Landfill Directive relating to hazardous waste. [165324]

Mr. Morley: Clearly it is a challenge to communicate directly with many thousands of companies and the Department is continually looking at the communication systems it employs to test their effectiveness. In respect of consulting business on issues of importance, electronic communications such as websites and e-mails are used extensively and the Department relies on informing trade associations and small business services in the expectation that they will pass the information on to their members.

Specifically in relation to Landfill Directive/ hazardous waste issues, a dedicated Communications Manager has developed a co-ordinated communications strategy in conjunction with the Environment Agency, Envirowise and the DTI—to address all the key stakeholder requirements. One part of this strategy is to set up a communications network across the country, with active participation by industry and relevant trade associations.

Key activities planned over the next few months include:

a targeted mail shot directed at small businesses;

dissemination of a series of information leaflets to producers and the waste management industry focused on providing guidance, details of timings, responsibilities and where to go for additional information;

seminars directed at 'new' waste producers;

roadshows across the country to raise awareness of the legislation, its implications, minimisation and help available for businesses;

targeted media articles focused on the key waste streams and industry sectors; and

attending a series of third party events through the provision of support e.g. speakers for events being held by other organisations (e.g. the Chemical Industries Association, the Engineers Employers Federation and the Environmental Industries Commission).

These activities follow up earlier actions by the Department and the Department of the Environment, Transport and the Regions to implement the 1999 Landfill Directive in England and to divert waste from landfill. These include:

preparation and issue of Waste Strategy 2000;

conducting six rounds of public consultation on aspects of the Landfill Directive;

setting up four stakeholders groups—including the Hazardous Waste Forum, and the Landfill Directive Implementation Group;

publishing an action plan on the reduction and environmentally sound management of hazardous waste;

issuing guidance material by the Environment Agency, e.g. on defining and classifying hazardous waste;

arranging bilateral meetings with a wide range of industry and other interests;

commissioning research and other projects (either direct or though the Hazardous Waste Forum or the Environment Agency);

setting up the Waste and Resources Action Programme to develop markets for recycled materials (so diverting waste away from landfill); and

introducing the Aggregates Levy Sustainability Fund to support projects that use waste materials (e.g. construction and demolition waste) to replace primary aggregates.

Home Energy Efficiency Scheme

Mr. Kaufman: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Manchester, Gorton have benefited from the Home Energy Efficiency Scheme. [167538]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 3,200 households in Manchester, Gorton received assistance from the Scheme.

National Allocation Plan

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs where and when she announced that she intends to delay submission of the UK's National Allocation Plan to the European Commission; and on what grounds. [167524]

Mr. Morley: The European Commission was informed of the UK's intention to delay submission of the National Allocation Plan (NAP) for the EU Emissions Trading Scheme on Friday 26 March 2004. Stakeholders were informed via email and an announcement made on the Defra website on Monday 29 March 2004; I wrote to Commissioner Wallstrom on Wednesday 31 March 2004 and the Government position regarding the delay in publication was further clarified in a press release on 2 April 2004.

During the consultation on the draft NAP, a number of issues were raised which Government wanted to take into account and consider in full. Some of these issues were complex and took considerable time to work through. It was therefore agreed to delay the submission of the NAP to the Commission by a few weeks to take account of the extra work.

The UK takes all EU responsibilities and deadlines seriously and is fully supportive of the EU ETS. We also have a duty to take full account of issues raised as a result of public consultation. We intend to submit the NAP to the Commission and publish it for further consultation by the end of April.

Oceans

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the incidence of oxygen-free zones in the oceans. [165590]

Mr. Morley: A recent report by the United Nations Environment programme drew attention to a number of cases across the world where there are regular instances of oxygen deficiency, often caused by excessive inputs of nutrients from land based sources. This underlines the need for action to limit the input of nutrients, and the UK has supported the UNEP Global Plan of Action on land-based sources of pollution which is seeking to address this.

There have been no cases of oxygen levels in UK coastal waters falling so low as a result of anthropogenic nutrient inputs as to be a cause for concern, e.g. through fish kills. Historically, there have been oxygen depletion problems affecting the passage of migratory fish in certain estuaries due to the direct discharge of sewage. The problems no longer exist due to the effective management of the discharges.

There are some areas where nutrient levels are high as a result of anthropogenic nutrient inputs, and in a few cases this has resulted in undesirable changes to the water environment. We have taken action to reduce nutrient inputs in these cases, through improved treatment of sewage and through designating Nitrate Vulnerable Zones to control the use of fertilisers and slurry on farmland.

The Department is committed to take further action to address diffuse water pollution. Officials are undertaking a range of work to identify diffuse pollution problems and the best ways to tackle them across all activities and a formal consultation on a range of options to tackle water pollution from agriculture will be issued shortly.

In some places, for example systems with limited water exchange, it is natural for there to be areas where oxygen levels are low without anthropogenic nutrient input.

Oil Storage Tanks

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of

the oil storage tanks subject to the Control of Pollution (Oil Storage) (England) Regulations 2001 she expects the Environment Agency to inspect each year; and what percentage were inspected in 2003–04. [166050]

Mr. Morley: The Environment Agency does not undertake specific inspections but enforces the Oil Storage Regulations during routine visits in order to reduce resource burdens. There is no annual target for the percentage of tanks inspected and no record of the number of tanks inspected in 2003–04.

Over-30-months Scheme

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of payments to farmers under the Over-30-Months Scheme was in each of the last 12 months. [168950]

Alun Michael: The cost of payments to farmers under the Over-30-Months Scheme in each of the last 12 months, April 2003 to March 2004, was as follows:

	Amount (£)
2003	
April	28,129,511
May	8,859,938
June	9,449,415
July	11,164,461
August	10,554,215
September	14,979,891
October	20,950,694
November	22,387,481
December	20,174,638
2004	
January	21,726,791
February	14,602,777
March	13,702,852
Total	196,682,664

Recycled Paper

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of copying paper used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [165659]

Alun Michael: The UK Sustainable Development in Government Second Annual report shows that in the year ended 31 March 2003 recycled paper accounted for 42 per cent. of the value of desk top paper purchased by the Department for Environment, Food and Rural Affairs. The post consumer waste element of that recycled paper was 80 per cent. or more.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of paper for printed publications used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [165660]

Alun Michael: The UK Sustainable Development in Government Second Annual report shows that in the year ended 31 March 2003 recycled paper accounted for 89 per cent. of the value of paper for printed publications purchased by the Department for the Environment, Food and Rural Affairs. The post consumer waste element of that recycled paper was 75 per cent. or more.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she has put in place to ensure that her Department meets the quick win targets set by her Department to ensure that all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content. [165661]

Alun Michael: Procurement units in the Department for Environment, Food and Rural Affairs have been made aware of the quick win target for purchases of copying paper. Defra monitors its performance for the purpose of reporting progress in the annual Sustainable Development in Government report.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she has put in place to ensure that her Department meets the quick win targets set by her Department to ensure that all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [165662]

Alun Michael: Procurement units in the Department for Environment, Food and Rural Affairs have been made aware of the quick win target for purchases of paper for printed publications. Defra monitors its performance for the purpose of reporting progress in the annual Sustainable Development in Government report.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs by what date her Department expects to reach the quick win targets to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [165663]

Alun Michael: The Sustainable Development in Government Report shows that Defra met the quick win target for paper for printed publications purchased in 2002–03. That target is likely to have been met in 2003–04 too. This achievement owes much to the fact that most of Defra's printed publications are commissioned from a single central business unit. The situation with copier paper is that there are many different ordering points over a large and diverse organisation and that makes achievement of the target difficult to accurately predict. Nevertheless, Defra has procedures in place to help ensure that all new copying paper purchased will be recycled and aims to reach the target as soon as possible.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the Department's main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports; what the name of the paper used in each case is; and what the (i) recycled and (ii) post-consumer recycled content of each type of paper is. [165664]

Alun Michael: Information on paper, stationery and envelopes purchased by the Department for Environment, Food and Rural Affairs is set out as

follows. Data have been provided on the basis of contracts that have been operational in the department and its agencies at some time over the past two financial years. Purchase of paper used for reports is generally not recorded as a separate category.

Paper for Copying

The main suppliers are: The Paper Company; Premier Paper Group plc; Guilbert UK; Banner Business Systems; and Lyreco.

The main brand names of recycled paper supplied, with the percentage of post consumer waste shown in brackets, are Evolve (100 per cent.) and Niceday 3500 (80 per cent.).

The main brand names of virgin paper supplied are Neusiedlea and Banner Value.

Paper for Printed Publications

The main suppliers are: Howard Smith Paper; Premier Paper Group plc; Robert Horne; and James McNaughton.

The main brand names are: Greencoat; Evolve; Evolution; Cyclus; and Revert.

Much of the paper for printed publications was purchased centrally and over 80 per cent. of that was recycled with a post consumer waste content of 75 per cent. or more.

Stationery

The main supplier is Guilbert UK. Information on paper supplied by Guilbert has been covered by the preceding text.

Envelopes

The main supplier is Banner Business systems. Manila envelopes purchased were 70 per cent. post consumer waste. White envelopes purchased had less than 5 per cent. post consumer waste.

Refrigeration

Linda Perham: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of UK refrigeration equipment disposal plants use vapour recovery hoods. [165454]

Mr. Morley: Sites in England and Wales do not have vapour recovery hoods as the technology developed to recover ozone-depleting substances (generally mechanical recovery) incorporates alternative mechanisms to prevent gas release (e.g. vacuum sealing).

Mr. Stringer: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of CFCs were converted into inert substances in 2003; what her estimate is of how many tonnes of CFCs will be converted into inert substances in 2004; and what her target is for the conversion of CFCs into inert substances for 2004. [167238]

Mr. Morley *[holding answer 22 April 2004]:* Under EC Regulation 2037/2000 on Substances that Deplete the Ozone Layer, CFCs must be recovered for destruction. The amount of CFCs destroyed in 2003 for the whole of the UK was 494,356 kg. Figures for 2004 are not available yet, but will need to be reported to the European Commission by 31 March 2005 in order to fulfil the reporting requirements under Article 16 of the Regulation.

Mr. Stringer: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost to *(a)* central Government and *(b)* local government of an effective containment programme of hydrofluorocarbons leakage. [167239]

Mr. Morley *[holding answer 22 April 2004]:* The European Commission have proposed a Regulation on certain fluorinated greenhouse gases (hydrofluorocarbons/HFCs) which includes proposed containment measures as well as measures prohibiting the placing on the market of HFCs in certain uses.

The Government provided an initial assessment of the costs of the proposed Regulation in a Partial Regulatory Impact Assessment, published in November 2003. The annualised costs were estimated to be in the range £74,000 to £225,000.

These costs related to the compliance costs of the sectors directly affected by the proposal. Some of these costs may be passed on to the consumer. This initial assessment did not estimate anticipated enforcement costs for central/local government or other bodies.

Mr. Stringer: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was to *(a)* central Government and *(b)* local government of recovering, recycling and destroying CFCs from refrigeration and air conditioning equipment in each year for which figures are available; and what her estimates are for future expenditure. [167240]

Mr. Morley *[holding answer 22 April 2004]:* The cost to central Government of recovering, recycling and destroying CFCs from refrigeration and air conditioning equipment would have fallen mainly on the Government estate, but is not quantified.

The Government provided an additional £46 million in England for the period 1 January 2002 to 31 March 2003 to cover the costs on local authorities of implementing the Regulation. The Spending Review 2002 provided an increase in the Environmental, Protective and Cultural Services block Formula Spending Shares for 2003–04 onwards to cover the on-going costs on local authorities.

Mr. Page: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the average decommissioning cost per refrigerator. [165857]

Mr. Morley *[holding answer 19 April 2004]:* The average decommissioning cost of a refrigerator is between £10 and £15.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the volume of emissions of hydrofluorocarbons in each of the last five years; and what forecast she has made of future emissions. [167480]

Mr. Morley *[holding answer 22 April 2004]:* The table shows total emissions of hydrofluorocarbons for the last five years for which estimates have been made, plus projections for 2010 and 2020. The historical estimates are from the UK Greenhouse Gas Inventory,

1990–2002, published in April 2004. The projections are consistent with the inventory and were made by AEA Technology in a contract to Defra completed in July 2003. The data are expressed in terms of a unit equivalent to the emission of a thousand tonnes of carbon dioxide.

UK emissions of hydrofluorocarbons (kt CO_2 equivalents)

	Emissions
1998	17,268
1999	10,830
2000	9,081
2001	9,728
2002	10,418
2010	11,563
2020	10,394

In August 2003, the European Commission proposed a regulation on certain fluorinated gases intended to reduce further emissions of hydrofluorocarbons. The additional emission reduction achieved by this regulation will depend on the final outcome of EU negotiations.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the environmental effects of replacing chlorofluorocarbons with hydrofluorocarbons in new refrigeration and air-conditioning equipment; and if she will make a statement. [167481]

Mr. Morley *[holding answer 22 April 2004]:* The use of chlorofluorocarbons (CFCs) in new refrigeration and air-conditioning equipment has been prohibited under EC Regulation 2037/2000 on substances that deplete the ozone layer. In practice, new most domestic refrigerators in the UK now use hydrocarbon (HCs) refrigerants rather than hydrofluorocarbons (HFCs).

CFCs have a global warming potential (GWP) of 4,600–14,000, The HFCs in most common use in UK have GWPs in the range 650–3,800. Hydrocarbon refrigerants (e.g. propane, butane) have a GWP of 3.

The change from CFCs to HCs is likely to result in a reduced impact on the climate from refrigeration emissions, due to their lower GWP. In 2002, emissions of HFCs from mobile air conditioning (MAC) were equivalent to 1,080 kilo tonnes of CO_2.

CFCs have an ozone depleting potential, whereas HFCs and HCs do not, so the effect of replacing CFCs with these refrigerants is to lessen ozone depletion activity.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what progress is being made towards developing less environmentally damaging alternatives to hydrofluorocarbons in refrigeration and air-conditioning plant; and if she will make a statement. [167482]

Mr. Morley *[holding answer 22 April 2004]:* Alternatives to hydrofluorocarbons are already available. Hydrocarbons, ammonia and carbon dioxide can be used as the coolant in refrigeration and air-conditioning plant. The choice of coolant will depend on relative energy consumption, safety and other technical considerations.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has collated regarding *(a)* the number of sites in the United Kingdom for retrieving chlorofluorocarbons from domestic refrigerators and *(b)* the location of such sites; and what measures she is taking to facilitate the development of further sites. [167483]

Mr. Morley *[holding answer 22 April 2004]:* Under Article 16 of EC Regulation 2037/2000 the UK is required to submit details on the sites available for retrieving chlorofluorocarbons from domestic refrigerators. There are 24 sites in total. Details of these facilities and their locations are listed in an annex available in the Library of the House .

The market will facilitate the development of further sites (if needed).

Regulatory Guidance Note 6

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate the Environment Agency has made of the financial cost of implementing Regulatory Guidance Note 6, and who will bear which costs. [165269]

Mr. Morley: No cost estimate relating to Regulatory Guidance Note 6, covering the engineering requirements of Schedule 2 of the Landfill (England and Wales) Regulations 2002, has been carried out by the Environment Agency or by my Department. This is an internal guidance note to assist environment agency staff to interpret and enforce the Regulations, but is published in the interests of transparency. It is subject to change as situations develop.

A Regulatory Impact Assessment (RIA) of the Landfill Directive in England and Wales was published with the Second Consultation Paper on Implementation of Council Directive (1999/31/EC) on the Landfill of Waste. This is available on the Defra website (www.defra.gov.uk). The RIA indicates that at the extreme, waste producers will face an additional cost in the range of £97 million to £696 million as a result of implementing the Directive.

The RIA also points out that increasing disposal costs will provide greater impetus to minimise, recycle and re-use waste and hence move the management of waste up the waste hierarchy. This outcome is a major objective of the Government's environmental policy and is supported by business, non-Government organisations and Select Committees of this House.

River Invertebrates

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to increase invertebrate monitoring in rivers during summer months to identify serious insecticide pollution. [163079]

Mr. Morley *[holding answer 24 March 2004]:* The Environment Agency currently monitors 6,000 sites for invertebrates, covering a network of just under 40,000 km of river. Sites are sampled on a three-year rolling programme such that each year two samples are taken from a third of the sites. These samples are timed to give a good picture of the invertebrate population.

The Environment Agency and the Pesticides Safety Directorate (PSD) have recently commenced a research project to establish whether the actual use of agricultural pesticides, including insecticides, is causing unacceptable adverse effects on aquatic invertebrates and plants. The project will include intensive chemical and biological sampling of identified higher risk rivers and streams. This will provide field-based evidence on whether the way that plant protection products are currently approved and used is sufficiently protective of the aquatic environment.

Sea Birds

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the ratification of the agreement on the conservation of albatrosses and petrels to be extended to include Tristan da Cunha. [168002]

Mr. Morley: The Government ratified the Agreement on the Conservation of Albatrosses and Petrels on 2 April for the UK and three Overseas Territories. We are working hard to extend the ratification to Tristan da Cunha and will do so as soon as possible.

IACS Forms

Mr. Key: To ask the Secretary of State for Environment, Food and Rural Affairs if she will extend the deadline of 17 May for completion by farmers of integrated administration and control system forms. [167608]

Alun Michael: A deadline of 15 May for the submission of the Integrated Administration and Control System forms is set out in Article 8(2) of Council Regulation 1251/1999.

Where a submission deadline falls on a public holiday or a weekend there is provision within Article 6(2) of Council Regulation 3508/1992 as amended by 1593/2000 for the deadline to be amended to fall on the first working day following. Therefore, as 15 May 2004 falls on a Saturday the deadline for submission has been set as 17 May.

There is no further scope within the regulations to extend the deadline beyond 17 May.

Mr. Key: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason this year's integrated administration and control system forms have had to be reprinted; and when they will be posted to farmers. [167609]

Alun Michael: This year's Integrated Administration and Control System (IACS) forms have not had to be reprinted.

All IACS forms were dispatched in early April and the Rural Payments Agency (RPA) believes that they should all by now have been delivered to producers. However, the RPA has advised via an advertisement placed in the farming press and on its website that where forms have not been received producers should contact their RPA processing site.

Rats (Sewers)

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what discussion she has had with local authorities on the *(a)* working and *(b)* effectiveness of the Water UK protocol on sewer baiting for rats; and if she will make a statement. [162399]

Mr. Morley: We recently sought the views of all Chief Executives of local authorities in England and Wales on how well the liaison arrangements between water companies and local authorities are working in relation to sewer baiting for rats. We asked them to identify which parts of the Water UK protocol were working well and those aspects where improvements might be made. The results of that review will be considered by the Rats in Sewers Working Group.

Thames Barrier

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs what circumstances have led to an increase in use of the Thames Barrier; and whether this has been due to long-term changes in national phenomena. [166014]

Mr. Morley: The Thames Barrier is closed to protect London from extreme high tidal waters generated by 'storm surge' in the North Sea and to provide storage for extreme freshwater flows, which would threaten West London, and combinations of these phenomena.

The Thames Barrier has been closed on 67 occasions in the last 10 years during the winter flood seasons.

Mean sea level and extreme tidal waters are expected to increase as the south east of England continues to fall relative to sea level. This was factored into the design of the barrier and closures for extreme high tides are within those expected when the barrier began operation. Closures due to extreme freshwater flows are harder to predict, but the winters of 2000–01 and 2002–03 were two of the wettest on record.

It is too early to say whether these trends are anthropogenically driven or part of the natural variance. It is also possible that extreme freshwater flows have been affected by changes in the land use of the Thames catchment.

Sea level rise, tidal surge extremes, tidal propagation, wave driven storminess, freshwater flows and combinations of these phenomena are all expected to be affected by climate change. The uncertainty for the future flood regime is high and creates a challenge for the long term financial and environmental planning in the Thames Estuary.

The Environment Agency are aware of these challenges and are already two years into TE2100, a project that will deliver by 2008–09 a flood risk management plan for the next 100 years. As well as the continued use of the Barrier, a number of flood risk management measures are also being considered.

Tobacco

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what area of land is used to grow tobacco in each EU *(a)* member state and *(b)* accession country; how much subsidy was given for tobacco growing in each EU member state in 2003–04; and how much will be given to each EU member state in 2004–05. [167068]

Alun Michael: The area of land used to grow tobacco in the producer member states and in new member states is:

2002 (1,000ha)

Member states	*Area of land*
EU15:	
Belgium	0.381
Germany	4.789
Greece	[1]54.77
Spain	11.5
France	8.901
Italy	37.676
Austria	0.116
Portugal	1.901
EU25:	
Cyprus	[1]0.077
Hungary	5.477
Poland	10.296
Slovak Republic	1.1
Total	136.984

[1] 2001 figures.
Source:
Eurostat CRONOS

The tobacco premia paid in 2002 (the latest year for which figures are available) is:

Million euro

Member states	*Amount*
Belgium	3.9
Germany	35.1
Greece	369.0
Spain	115.4
France	80.4
Italy	330.8
Austria	0.9
Portugal	16.3
Total	951.8

Source:
Official Journal of the European Union 23/2/04.

Payments in 2004–05 will be based on claims for tobacco that has not yet, or only just, been planted. The information requested is therefore not available. However, the EU budget provision for expenditure on tobacco premia in 2004 is 929 million euro.

Warm Front Scheme

Mr. Pike: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Burnley have benefited from the Warm Front Scheme. [168304]

Mr. Morley: Between the launch of the scheme in June 2000 and the end of March 2004, approximately 3,500 households in Burnley received assistance from the scheme.

Waste Management

John McDonnell: To ask the Secretary of State for Environment, Food and Rural Affairs what the potential adverse *(a)* environmental and *(b)* health impacts of waste incineration are; and what measures the Government has introduced to deal with these impacts. [163609]

Mr. Morley: An independent review of the environmental and health effects of all waste management options for municipal solid waste and similar wastes is currently being prepared. This review, which includes incineration, is in response to a recommendation in the Strategy Unit report "Waste not, Want not". It brings together for the first time, existing literature and evidence on the health and environmental effects of managing municipal solid waste. We aim to publish the report within the next month or so.

Emission standards, which seek to limit environmental and health impacts, apply to waste incinerators as they do to all energy from waste facilities, and are enforced by the Environment Agency. These are European wide discharge standards, which are equally applicable to old and new facilities. We are currently implementing the new Waste Incineration Directive (WID), which is an extremely tough directive that will further tighten the emissions standards in this country. The older generation of incinerators has now been replaced with newer, cleaner technology, and most municipal waste incinerators in this country already meet the new, tougher, standards.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of a UK company's turnover on average accounts for the cost of managing waste for *(a)* chemical firms, *(b)* construction firms and *(c)* manufacturing firms employing more than 500 people. [165267]

Mr. Morley: We do not have this information in the format requested. Envirowise, which is a Government-funded programme offering waste minimisation advice to business, estimate that the average true cost of waste for businesses, as percentage of turnover, is 4.8 per cent. Only about one-tenth of this is the cost of disposing of that waste.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what definition she has of hazardous waste; and what plans she has to amend this definition. [165268]

Mr. Morley: Hazardous waste is defined in the Hazardous Waste Directive as waste featuring on a list drawn up by the European Commission and which has one or more of the hazardous properties listed in Annex III to that Directive. Any other waste considered by a member state to display any of the properties listed in Annex III will also fall within this definition. The European Commission implemented a new list of hazardous waste in January 2002.

In England and Wales, hazardous waste is already defined in some legislation on the basis of the new European definition, for example, with respect to landfill. However, for the purposes of the Special Waste Regulations 1996, which control the tracking and movement of special waste, the definition of special (hazardous) waste is on the basis of a list of hazardous waste drawn up by the European Commission in 1994.

The Government propose to replace the Special Waste Regulations with new Regulations for hazardous waste in England to come into force in 2005. These will revoke the existing definition of special waste and implement the new European definition.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what date has been set for the publication of the Government's report on the environmental and health impacts of waste disposal. [167760]

Mr. Morley: We have received the final report from its authors as well as comments from the peer review panel at the Royal Society. We are aiming to publish the report shortly.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when the consultation paper on waste management controls is expected to be introduced. [168083]

Mr. Morley: We propose to consult later in the spring on a draft of the Regulations necessary to repeal section 75(7)*(c)* of the Environmental Protection Act 1990 and to apply the Waste Framework Directive and the Landfill Directive to agricultural waste and to non-mineral mines and quarries waste. We also expect to consult shortly thereafter on draft regulations which will implement the current review of waste permitting. New Hazardous Waste Regulations will also be put out for consultation later this year.

Waste Research Strategy

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to conclude work on the waste research strategy. [165262]

Mr. Morley: The three-year waste research strategy is due to be completed in the summer and will be based on advice form the Waste Resources and Research Advisory Group and input from stakeholders.

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs how many companies have benefited from assistance through the Waste Implementation Programme. [165310]

Mr. Morley: Much of the direct funding and assistance available through the Waste Implementation Programme (WIP) is directed at local authorities to help with the challenges of long-term progress in sustainable waste management, sufficient to meet the Article 5 targets of the EU Landfill Directive. It has been estimated that the additional investment needed from local authorities to meet these targets could be as high as £600-£700 million per annum over the next 10 years. This would largely be spent through contracts with the private sector. Waste Private Finance Initiative (PFI) is a key part of this approach, and has been managed through WIP since 2003. Nine major waste PFI contracts have been let to private companies, and nine more local authorities have either had their proposals approved, or are in the process of applying for PFI credits.

In addition, WIP is seeking to provide improved data and research to industry, and to encourage local authorities to work more effectively with waste companies. And a major programme of new technology pilots for more innovative waste management practices is being taken forward in partnership with industry and local authorities.

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs what the budget for research through the Waste Implementation Programme is in 2004–05. [165311]

Mr. Morley: In 2004–05, the Government have allocated £5 million to research into sustainable waste management through the Waste Implementation Programme. This is a priority area, which will contribute to the development of a sound evidence base for policy development, implementation, monitoring and evaluation.

Water Prices

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs when she plans to publish the departmental guidelines on the five-year review of water prices. [159189]

Mr. Morley: The Secretary of State published her Principal Guidance to the Director General of Water Services on the 2004 Periodic Review on 11 March.

The Secretary of State's Final Guidance will be published in the autumn.

SCOTLAND

Advertising Campaigns

John Thurso: To ask the Secretary of State for Scotland pursuant to his answer of 26 February 2004, *Official Report*, column 485W, on publicity campaigns, on what advertising campaigns the Scotland Office spent money in 2002–03. [164651]

Mrs. McGuire: During 2002–03 the Scotland Office incurred expenditure on advertising campaigns relating to the consultation on the size of the Scottish Parliament and expenditure by the Office of the Advocate-General on statutory public notices.

There was also expenditure by the Boundary Commission for Scotland on statutory notices relating to electoral boundaries.

Civil Servants

Bob Spink: To ask the Secretary of State for Scotland if he will list for each civil service grade within his Department, the total number of staff employed, broken down by *(a)* gender, *(b)* ethnic group; and how many are registered disabled. [166403]

Mrs. McGuire: Data on staffing levels in the Civil Service are collected by the Cabinet Office and published in "Civil Service Statistics". A copy of "Civil Service

Statistics 2002" is available in the Library, and at: www.civil-service.gov.uk/statistics. The 2003 edition will be published in summer 2004.

More recent staffing information is available in the Scotland Office Departmental Report 2003.

CULTURE, MEDIA AND SPORT

Cinema Facilities

Mr. Bellingham: To ask the Secretary of State for Culture, Media and Sport what requirements there are on cinemas to provide facilities for deaf people. [168898]

Estelle Morris: The Disability Discrimination Act 1995 (DDA) requires service providers to ensure access to their goods and services. However, such things as the provision of subtitles are likely to fall under the remit of product or service design, which is not currently covered under the auspices of the DDA.

As part of its £500,000 National Lottery funded Cinema Access Programme, the UK Film Council's Distribution and Exhibition Fund has allocated £350,000 towards a pilot project for the installation of captioning and audio-description equipment in 78 cinemas across England.

A web-based film information service, www.yourlocalcinema.com < http://www.yourlocalcinema.com/ > has also received £50,000 over three years to inform those with sensory impairments about films being screened at local cinemas in England.

£60,000 has been allocated to assist distributors films with lower marketing budgets meet the cost of audio description and subtitling of prints.

Finally, £40,000 has been earmarked for a research project that will look into consumer issues relating to the current technical means of overcoming the barriers faced by customers with sensory impairments.

Libraries (Digitisation)

Mr. Hendrick: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on the digitisation of content in libraries in Preston since 1997. [168140]

Estelle Morris: This information is not held centrally.

The New Opportunities Fund £50 million Digitisation of Learning Materials Programme has delivered 150 projects across the UK to enable resources which support learning of all kinds held in libraries as well as museums, archives and other public-sector institutions, to be made available online through the People's Network and the National Grid for Learning. This initiative has created a body of material containing over 2 million images, tens of thousands of sound and video clips and documents and over 1,000 learning packages. All projects can be accessed via the EnrichUK portal at: http://www.enrichuk.net

Information on grants awarded to individual local authorities and their expenditure can be obtained from the relevant authority.

EDUCATION AND SKILLS

Adult Education (Bootle)

Mr. Benton: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Bootle in the last five years. [169178]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Greater Merseyside Learning and Skills Council (LSC) area is set out in the table.

£000

	Basic skills	*Key skills*
April 2001 to July 2001	3,803	1,094
August 2001 to July 2002	6,575	1,564
August 2002 to July 2003	10,677	1,755

Note:

The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Class Sizes (Preston)

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many children in Preston were taught in classes of more than 30 on the latest date for which figures are available. [168132]

Mr. Miliband: The information requested is shown in the table.

Maintained primary and secondary schools[1] number of pupils in classes of 31 or more pupils taught by one teacher—Preston Parliamentary Constituency

	January 2003		
	Total pupils in all classes	*Number of pupils in classes of 31 or more*	
		Number of pupils	*Percentage of pupils*
Maintained Primary	7,736	1,686	21.8
Maintained Secondary	3,627	646	17.8

[1] Includes middle schools as deemed.

[2] Percentage of pupils in those classes expressed as a percentage of pupils in all classes taught by one teacher.

Source:

Annual Schools' Census

Computers

Mr. Peter Kilfoyle: To ask the Secretary of State for Education and Skills how many people in Liverpool, Walton have received a computer to assist in seeking employment or retraining. [166963]

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many people in Manchester, Gorton have received a computer to assist in seeking employment or retraining. [167434]

Mr. Ivan Lewis: At present no centrally funded schemes exist that provide people with a free or low cost computer to assist in seeking employment or retraining.

Condover Hall School

Mr. Paul Marsden: To ask the Secretary of State for Education and Skills what assessment he made of the educational effects on students of closing Condover Hall School. [168008]

Mr. Miliband: All pupils currently attending Condover Hall School have statements of special educational needs. Local education authorities placing pupils at Condover Hall have a duty to arrange the educational provision specified in their statements. That responsibility will continue after Condover Hall has closed and the children have transferred to alternative schools.

Education (Heywood and Middleton)

Jim Dobbin: To ask the Secretary of State for Education and Skills (1) how much funding each school in Heywood and Middleton has received from the New Deal for Schools; [168499]

(2) how much public money was spent on repairing schools in Heywood and Middleton in each year since 1997. [168497]

Mr. Miliband *[holding answer 23 April 2004]:* The information requested has been placed in the Libraries.

Jim Dobbin: To ask the Secretary of State for Education and Skills how many children in Heywood and Middleton have benefited from the Excellence in Cities programme; and what the per pupil spending was in each year since the programme's inception. [168500]

Mr. Miliband: The table as follows shows the number of children in Heywood and Middleton benefiting from EiC, and the annual spend per pupil for the years in question.

	Number of children	*Total EiC expenditure[1] (£)*	*Spend per pupil (£)*
2000–01	5,856	410,307	70.07
2001–02	7,640	688,572	90.13
2002–03	7,753	1,074,454	138.59
2003–04	7,679	2,074,823	270.19

[1] Funding figures were supplied by the Senior Finance Officer for Rochdale

The large increase in the rate of EiC funding in 2002–03 is due to the extra funding provided through the Behaviour Improvement Programme and the increase in 2003–04 is due to the extra funding provided through the Leadership Incentive Grant.

Jim Dobbin: To ask the Secretary of State for Education and Skills how many schools in Heywood and Middleton deemed to be failing since 1997 have since reached satisfactory standards. [168501]

Mr. Miliband: Two schools in Heywood and Middleton, one primary and one secondary, have been deemed to require special measures since 1997 and have since recovered and reached satisfactory standards.

Jim Dobbin: To ask the Secretary of State for Education and Skills what percentage of 15 and 16-year-olds in Heywood and Middleton achieved five or more GCSEs at grade A*-C or GNVQ equivalent in each of the last seven years. [168504]

Mr. Miliband: The information requested is as follows:

Percentage of 15-year-old pupils[1] achieving five or more grades A-C*

Percentage

Academic year	*Heywood and Middleton parliamentary constituency*	*England*
1997	33.1	45.1
1998	35.9	46.3
1999	38.2	47.9
2000	37.3	49.2
2001	40.9	50.0
2002	39.5	51.6
2003	43.5	52.9

[1] GCSE/GNVQ results are reported as standard as the results of pupils aged 15 at the start of the academic year ie 31 August and therefore reaching the end of compulsory education at the end of the school year.

Jim Dobbin: To ask the Secretary of State for Education and Skills how many women in Heywood and Middleton have visited an information and communications technology training centre in order to learn skills to return to work. [168510]

Mr. Ivan Lewis: In the period October 2003[1]—March 2004, 3,030 people visited a UK online centre in the Heywood and Middleton constituency. 1697(56 per cent.) of these people were women.

Since learndirect was launched in 1999, 1,411 people from the Heywood and Middleton Constituency have enrolled on a learndirect course. 769 (55 per cent.) of these people were women. Of the total number of women who enrolled on a course, 2 per cent. did so in order to learn skills to return to work.

[1] Please note the complete statistics are not available for UK online prior to September 2003 as the DfES did not collect this data on a centre by centre basis.

Jim Dobbin: To ask the Secretary of State for Education and Skills how many residents of Heywood and Middleton have undertaken apprenticeships in each of the last five years. [168514]

Mr. Ivan Lewis: The information requested is not available at parliamentary constituency level. Nor is the information available on a consistent geographical basis over the last five years. However, the following table shows the number of starts on modern apprenticeships in the Greater Manchester Learning and Skills Council (LSC) area between April 2001 and the end of July 2003, as well as the number of starts from April 1996 to March 2001 in the six Training and Enterprise Councils (TECs) that amalgamated into Greater Manchester LSC—Bolton and Bury, Manchester, Oldham, Rochdale, Stockport and High Peak and Wigan.

Time period and TEC/LSC	*Advanced MAs*	*Foundation MAs*
April 1998 to March 1999		
Bolton and Bury CCTE	800	600
Manchester	2,400	700
Oldham CCTE	400	300
Rochdale CCTE	500	100
Stockport and High Peak[1]	800	100
Wigan CCTE	700	300
April 1999 to March 2000		
Bolton and Bury CCTE	900	1,000
Manchester	2,800	1,800
Oldham CCTE	500	500
Rochdale CCTE	500	600
Stockport and High Peak[1]	700	700
Wigan CCTE	700	600
April 2000 to March 2001		
Bolton and Bury CCTE	700	1,200
Manchester	3,200	2,600
Oldham CCTE	500	700
Rochdale CCTE	400	700
Stockport and High Peak[1]	800	1,000
Wigan CCTE	900	800
April 2001 to July 2002		
Greater Manchester LSC	4,800	9,800
March 2001 to July 2002		
Greater Manchester LSC	2,900	6,800

[1] TEC also became part of Derbyshire LSC.

Note:

TECs reported the figures in financial years. LSC reports figures in academic years. The first LSC 'year' was 16 months in order to bring the financial year figures into line with academic years.

Sources:

TEC management information.

LSC Individualised Learner Record.

Jim Dobbin: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Heywood and Middleton in each of the last five years. [168577]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Greater Manchester Learning and Skills Council (LSC) area is set out in the table:

£000

	Basic skills	*Key skills*
April 2001 to July 2001[1]	8,925	2,598
August 2001 to July 2002	15,369	3,586
August 2002 to July 2003	27,258	4,210

Note:

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Jim Dobbin: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Heywood and Middleton on the latest date for which figures are available; and what steps he is taking to reduce them. [168578]

Mr. Miliband: Information on teacher vacancies is not available by constituency as it is collected at local education authority level. In January 2003, the latest information available, there were 13 full-time teacher vacancies in Rochdale local education authority.

Like other areas, since 1997 Rochdale has benefited from the initiatives that the Government have put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in the former Lancashire LEA area has risen by 60, from 1,830 to 1,890 in 2003. Over the same period, the number of full-time equivalent school support staff in the area has grown by 610 from 510 to 1,120 in 2003.

Jim Dobbin: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Heywood and Middleton *(a)* in each of the last seven years and *(b)* on the latest date for which figures are available. [168579]

Mr. Miliband: The following table gives the numbers of full time equivalent teaching assistants in maintained schools in Heywood and Middleton constituency for each year between 1997 and 2003, the latest year for which data are available.

	Number
1997	110
1998	120
1999	130
2000	150
2001	240
2002	300
2003	320

TEC management information

LSC Individualised Learner Record

James Purnell: To ask the Secretary of State for Education and Skills what percentage of 15 and 16-year-olds in Stalybridge and Hyde achieved five or more GCSEs at grade A* to C or GNVQ equivalent in each of the last seven years. [168753]

Mr. Miliband: The information requested is as follows.

Percentage of 15-year-old pupils[1] achieving five or more grades A-C*

Percentage

Academic year	*Stalybridge and Hyde parliamentary constituency*	*England*
1997	36.0	45.1
1998	35.6	46.3
1999	38.6	47.9
2000	40.9	49.2
2001	42.5	50.0
2002	39.9	51.6
2003	47.2	52.9

[1] GCSE/GNVQ results are reported as standard as the results of pupils aged 15 at the start of the academic year ie 31 August and therefore reaching the end of compulsory education at the end of the school year.

James Purnell: To ask the Secretary of State for Education and Skills how many children in Stalybridge and Hyde have benefited from the Excellence in Cities programme; and what the per pupil spending was in each year since the programme's inception. [168755]

Mr. Miliband: There are currently 11 schools in Stalybridge and Hyde Constituency that are included in the Excellence in Cities; three secondary schools and eight primaries. The following table shows the number of children in the Stalybridge and Hyde constituency benefiting; and the annual spend per pupil for the years in question:

	Number of children	*Total EiC expenditure* (£)*	*Spend per pupil (£)*
2001–02	4,544	320,806.4	70.6
2002–03	4,583	557,292.8	121.6
2003–04	4,805	1,667,000	212.9

The large increase in the rate of EiC funding in 2003–04 is due to the extra funding provided through the Leadership Incentive Grant, which came on stream in 2003.

Excellence in Cities

Excellence in Cities was launched in March 1999 as a targeted programme of support for deprived secondary schools in our major cities. It has since expanded beyond the cities and now covers 57 whole authority areas as well as 51 Excellence Clusters covering smaller pockets of deprivation. The Tameside Excellence Cluster started in September 2001.

EiC provides resources and a coherent programme of strategies focused on:

Teaching and Learning

enhanced opportunities for gifted and talented children

study support

strategic use of specialist and Leading Edge schools and

City Learning Centres providing IT support for CPD and the curriculum;

Behaviour and Attendance

Learning Mentors, Learning Support Units and

Behaviour Improvement Programme and

Leadership

Leadership Incentive Grant.

Primary EiC

EiC is also expanding to provide behavioural support and extended opportunities for gifted and talented children in our most deprived primary schools. This help will include all schools meeting the relevant criteria, and will provide the support they need to ensure that their most disadvantaged pupils are better able to access the national primary strategy.

Results

The EiC programme is now paying off. GCSE exam results last year were the best yet for EiC schools. Results for 2001 and 2003 show that EiC is making an impact on closing the achievement gap. Results in terms of pupils achieving five good GCSEs or equivalent, improved at about twice the rate overall in EiC schools than schools elsewhere.

There was also a significant impact on behaviour and attendance—with standards again improving fastest in EiC schools.

In the Hyde schools, the improvement rate, at this stage, is more mixed. The Hyde primary school results set out below are based on an aggregate of the three percentages of pupils achieving level 4 or above in English, Maths and Science:

Arundale Primary School went from 145 to 181 an increase of 36 points

Dowson Primary School went from 236 to 247 an increase of 11 points

Gee Cross Holy Trinity CofE Primary School went from 241 to 248 an increase of seven points

Godley Community Primary School went from 256 to 206 a decrease of 50 points

Greenfield Primary School and Early Years Centre went form140 to178 an increase of 38 points

Leigh Primary School went from 213 to 147 a decrease of 66 points

Pinfold Primary School went from 240 to 230 a decrease of 10 points

St. George's CofE Primary School went from 279 to 259 a decrease of 20 points.

The secondary school results are based on achievement at 5+ A*-C GCSE show:

Alder Community High School opened after January 2003

Hyde Technology School and Hearing Impaired Resource Base went from 63 per cent. to 53 per cent. decrease of 10 per cent.

Longdendale High School went from 44 per cent. to 47 per cent. an in crease of 3 per cent.

There was a 2.9 per cent. increase in the national rate of improvement between 2001 and 2003.

James Purnell: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Stalybridge and Hyde *(a)* in each of the last seven years and *(b)* on the latest date for which figures are available. [168760]

Mr. Miliband: The following table gives the numbers of full time equivalent teaching assistants in maintained schools in Stalybridge and Hyde constituency for each year between 1997 and 2003, the latest year for which data are available.

	Number
1997	130
1998	130
1999	130
2000	150
2001	210
2002	130
2003	170

Source:
Annual Schools' Census.

Education Psychologists

Mrs. Brooke: To ask the Secretary of State for Education and Skills how many education psychologists there were per child in *(a)* primary education, *(b)* secondary education, *(c)* primary schools serving special educational needs and *(d)* secondary schools serving special educational needs in each year since 1997. [168635]

Mr. Miliband: Information on the number of education psychologists is not available by phase of education. The following table gives the number of pupils in all phases per educational psychologist in England for each year from 1997 to 2003, the latest information available.

	Number
1997	4,210
1998	4,200
1999	4,050
2000	3,940
2001	3,900
2002	3,770
2003	3,490

Source:
Annual survey of Teachers in Service and Teacher Vacancies (educational psychologists) and Annual Schools Census (pupil numbers).

Educational psychologists are employed by local education authorities. Decisions on their deployment and use are therefore matters for LEAs to determine in the light of local circumstances and available resources.

Education Statements

Mr. Laurence Robertson: To ask the Secretary of State for Education and Skills how many children have received statements in Gloucestershire in each of the last 10 years for which figures are available; what the figures are for other shire counties; and if he will make a statement. [168061]

Mr. Miliband *[holding answer 23 April 2004]:* The information requested is shown in the table.

Number of children for whom statements were made for the first time. Position in January each year.
Children for whom local education authorities maintain a statement of SEN

Educational Attainment

Mr. Collins: To ask the Secretary of State for Education and Skills what percentage of students achieved five GCSEs (A*-C) and one GCSE or more (A*-G) broken down by *(a)* specialist schools, *(b)* grammar schools, *(c)* faith schools, *(d)* maintained schools and *(e)* independent schools, in each year since 1997. [167581]

Mr. Miliband: The information requested is shown in the tables.

Percentage of 15-year-olds achieving 5 or more A-C grades at GCSE/GNVQ*

Type of school	1997	1998	1999	2000	2001	2002	2003
(a) Specialist schools	52.0	52.4	53.3	53.9	54.1	54.7	56.5
(b) Grammar Schools	94.1	95.9	96.7	97.6	97.5	97.5	97.5
(c) Faith Schools	50.1	51.1	53.3	54.6	55.4	57.4	59.5
(d) Maintained schools	42.2	43.5	45.3	46.7	47.5	49.1	50.6
(e) Independent schools	80.4	80.7	80.9	81.4	82.0	82.5	82.4
England average	45.1	46.3	47.9	49.2	50.0	51.6	52.9

Percentage of 15-year-olds achieving 1 or more A-G grades at GCSE/GNVQ*

Type of school	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
(a) Specialist schools	96.1	96.5	97.0	97.0	96.8	96.7	96.6
(b) Grammar Schools	99.3	99.9	99.9	100.0	99.7	99.7	99.8
(c) Faith Schools	95.7	96.5	96.8	97.2	97.2	97.1	97.0
(d) Maintained schools	92.3	93.5	94.1	94.6	94.6	94.7	94.9
(e) Independent schools	92.6	92.8	92.2	92.4	93.3	93.1	93.2
England average	92.3	93.4	94.0	94.4	94.5	94.6	94.8

Notes:
1. *(a)*, *(b)* and *(c)* are based on maintained mainstream schools only. The groups of schools are not mutually exclusive.
2. All figures are unadjusted.
3. *(a)* Specialist schools operational at the start of the relevant academic year. Includes some schools which have since been de-designated as specialist. Year-on-year comparisons should not be made, due to the increasing numbers of specialist schools in the time series.
4. *(b)* Grammar schools—selective schools as included in Performance Tables

Examination Results

Mr. Pike: To ask the Secretary of State for Education and Skills what percentage of 15 and 16 year olds in Burnley achieved five+ GCSEs at grade A*-C or GNVQ equivalent in each of the last seven years. [167929]

Mr. Miliband: The information requested is as follows:

Percentage of 15 year old pupils[1] achieving five or more grades A-C*

Percentage

Academic year	*Burnley parliamentary constituency*	*England*
1997	40.0	45.1
1998	42.3	46.3
1999	43.9	47.9
2000	41.2	49.2
2001	44.5	50.0
2002	42.5	51.6
2003	41.4	52.9

[1] GCSE/GNVQ results are reported as standard as the results of pupils aged 15 at the start of the academic year i.e. 31 August and therefore reaching the end of compulsory education at the end of the school year.

Mr. Hendrick: To ask the Secretary of State for Education and Skills what percentage of 15 and 16 year olds in Preston achieved five+ GCSEs at grade A*-C or GNVQ equivalent in each of the last seven years. [168122]

Mr. Miliband: The information requested is as follows:

Percentage of 15 year old pupils[1] achieving five or more grades A-C*

Percentage

Academic year	*Preston parliamentary constituency*	*England*
1997	32.7	45.1
1998	35.7	46.3
1999	37.2	47.9
2000	41.6	49.2
2001	38.4	50.0
2002	44.4	51.6
2003	45.2	52.9

[1] GCSE/GNVQ results are reported as standard as the results of pupils aged 15 at the start of the academic year i.e. 31 August and therefore reaching the end of compulsory education at the end of the school year.

Excellence in Cities Programme

Mr. Pike: To ask the Secretary of State for Education and Skills how many children in Burnley have benefited from the Excellence in Cities programme; and what the per pupil spending was in each year since the programme's inception. [167925]

Mr. Miliband: The following schools in Burnley have been included in the Excellence in Cities programme since September 2001:

Secondary

Barden High School
St. Hilda's RC Primary School
Towneley High School
Edge End High School
Walshaw High School

Primary

Barden Junior School
Brunshaw Primary School
Heasandford Primary School
St. John the Baptist RC Primary
St. Mary's RC Primary School
Stoneyholme Primary School
Casterton Primary School
Springfield Primary School
Lomeshaye Junior School
Marsden Primary School

The following table shows the number of children in Burnley benefiting, and the annual spend per pupil for the years in question.

	Number of children	*Total EiC expenditure (£)*	*Additional spend per pupil (£)*
2001–02	4,853	540,555	94.6
2002–03	4,615	919,500	174.1
2003–04	4,540	1,544,500	340.1

The large increase in the rate of EiC funding in 2002–03 is due to the extra funding provided through the Leadership Incentive Grant which came on stream in 2003. It also includes a full financial year's funding for the Burnley Excellence Cluster.

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many children in Preston have benefited from the Excellence in Cities programme; and what the per pupil spending was in each year since the programme's inception. [168129]

Mr. Miliband: The following schools in Preston have been included in the Excellence in Cities programme since December 2002:

Ashton Primary School
Ashton-on-Ribble High School
Ashton-on-Ribble St Andrew!s Church of England Primary School
Christ The King Catholic High School, Preston
Deepdale Infants' School
Deepdale Junior School
Fishwick Primary School
Frenchwood Community Primary School
Lea Community Primary School
Moor Nook Community Primary School
Moor Park High School
Preston Greenlands Community Primary School
Preston St Matthew's Church of England Primary School
Ribbleton Avenue Infant School
Ribbleton Avenue Methodist Junior School
Ribbleton Hall High School
St Augustine's Catholic Primary School
St Ignatius' Catholic Primary School
St Joseph's Catholic Primary School, Preston
St Teresa's Catholic Primary School, Preston

The following table shows the number of children in Preston benefiting, and the annual spend per pupil for the years in question.

	Number of children	*Total EiC expenditure (£)*	*Spend per pupil (£)*
2002–03	5,987	307,000	51.2
2003–04	6,490	2,150,000	331.2

The large increase in the rate of EiC funding in 2003–04 is due to the extra funding provided through the Leadership Incentive Grant and Behaviour Improvement Programme which came on stream in 2003. It also includes a full financial year's funding for the City of Preston Excellence Cluster.

Foundation Degrees

Simon Hughes: To ask the Secretary of State for Education and Skills how many *(a)* full-time and *(b)* part-time students enrolled on courses at higher education institutions in London in each of the last 10 years; and what the drop out rates in the first year of study were for each year. [151072]

Alan Johnson: The available information covering undergraduate enrolments to London HE institutions is given in a table which has been placed in the Library.

The information on non-continuation rates is contained in "Performance Indicators in Higher Education", published by the Higher Education Funding Council for England (HEFCE), The figures cover full-time first degree courses only, and show, for each individual HE institution in the UK, the numbers and proportion of entrants who failed to continue beyond the first year and the numbers and proportion of entrants who fail to complete their course. Copies of the HEFCE publication are available for students starting courses in 1996–97,1997–98,1998–99,1999–2000 and 2000–01 in the House Library.

Gemini Project

Mr. Chaytor: To ask the Secretary of State for Education and Skills what level of funding his Department has allocated to the Gemini project; and what evaluation he has made of the effectiveness of the project. [166450]

Mr. Charles Clarke *[holding answer 19 April 2004]:* My Department has not allocated any funding to this project. This is a devolved matter for the Scottish Executive and my hon. Friend may wish to write to them about this project.

Overseas Students (UAE)

Huw Irranca-Davies: To ask the Secretary of State for Education and Skills what steps are being taken by his Department to assist the higher education sector in attracting students from the United Arab Emirates. [168570]

Alan Johnson: My Department leads and funds the Prime Minister's Initiative (PMI) to attract more international students to the UK, including those from the United Arab Emirates (UAE). A vigorous world wide marketing campaign under the Education UK Brand promotes the credentials of UK education and training, and supports the work of the higher education sector in attracting international students who might not otherwise study in the UK. We have also taken a number of steps to make the UK a more attractive study destination for international students by—streamlining entry and visa arrangements; offering opportunities to work while studying; and providing specific information and advice about living and studying in the UK for the first time. The number of UAE students in UK higher education has increased from 777 in 1996–97 to 1,306 in 2002–03, an increase of 68 per cent.

Partnerships for Schools

Mr. Willis: To ask the Secretary of State for Education and Skills what the start-up and estimated running costs of Partnerships for Schools are for each year up to and including 2006; and if he will make a statement. [166864]

Mr. Miliband *[holding answer 26 April 2004]:* Partnership for Schools is a company limited by shares and a non-departmental public body established on 2 April 2004 to deliver the Building Schools for the Future programme. In 2005–06, this programme will invest around £2 billion in renewing the English secondary schools estate.

The forecast spend on start up costs (pre-incorporation) for Partnership for Schools was £4.1 million. The forecast running costs are in the following table:

	£ million
2004–2005	10
2005–2006	9.5
2006–2007	9.8

The estimates for 2005–06 and 2006–07 are based on 2004–05 activity with an estimate for inflation, and are indicative as the Building Schools for the Future programme itself is still being developed. In particular, work on the creation of local education partnerships is still subject to consultation with stakeholders.

School Computers (Uxbridge)

Mr. Randall: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Uxbridge in each of the last five years. [168991]

Mr. Charles Clarke: My department does not collect information on school spend on computers at constituency level. However Uxbridge is in Hillingdon LEA and since 2000–01 schools in Hillingdon have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA).

Allocation to Hillingdon LEA

	£
2000–2001	734,488
2001–2002	1,065,479
2002–2003	1,508,280
2003–2004	1,571,762
2004–2005	2,015,276

School Places (Battersea)

Martin Linton: To ask the Secretary of State for Education and Skills (1) how many children attending Battersea primary schools did not get an initial offer of a secondary school place in a Wandsworth school on 1 March, broken down by primary school; [167638]

(2) how many secondary school places were offered by Wandsworth secondary schools on 1 March to out-of-borough applicants, broken down by individual secondary schools; and how many of those offers were accepted. [167639]

Mr. Miliband: My Department does not hold this information.

School Repairs (Bootle)

Mr. Benton: To ask the Secretary of State for Education and Skills how much public funding money has been spent on repairing schools in Bootle in each year since 1997. [169083]

Mr. Miliband: The majority of capital funding is now allocated to local authorities and schools by needs-related formulae. Authorities invest according to priorities agreed in their asset management plans. The following table shows total capital allocations to Sefton local education authority (LEA) since 1996–97.

	Allocation £000[1]
1996–1997	1,904
1997–1998	1,634
1998–1999	1,802
1999–2000	4,562
2000–2001	9,388
2001–2002	11,146
2002–2003	15,980
2003–2004	16,930

Note:
Includes allocations to the voluntary aided sector.

To date, we have also announced indicative allocations of around £10.2 million for 2004–05 and £5 million for 2005–06.

School Tests

Mr. Cummings: To ask the Secretary of State for Education and Skills what percentage of 15 and 16 year olds achieved five + GCSEs at grade A* -C or GNVQ equivalent in each of the last four years; and if he will make a statement. [168073]

Mr. Miliband: The information requested is as follows:

Percentage of 15 year old pupils[1] *achieving five or more grades A**

Percentage

Academic year	*England*
2000	49.2
2001	50.0
2002	51.6
2003	52.9

[1] GCSE/GNVQ results are reported as standard as the results of pupils aged 15 at the start of the academic year i.e. 31 August and therefore reaching the end of compulsory education at the end of the school year.

Teacher Vacancies

Mr. Pike: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Burnley on the latest date for which figures are available; and what steps he is taking to reduce them. [167915]

Mr. Miliband: Information on teacher vacancies is not available by constituency as it is collected at local education authority level. In January 2003, the latest information available, there were 40 full-time advertised teacher vacancies in Lancashire local education authority.

Like other areas, since 1997 Preston has benefited from the initiatives that the Government have put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in the former Lancashire LEA area has risen by 390, from 11,870 to 12,260 in 2003. Over the same period, the number of full-time equivalent school support staff in the area has grown by 2,870 from 3,620 to 6,490 in 2003.

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Preston on the latest date for which figures are available; and what steps he is taking to reduce them. [168139]

Mr. Miliband: Information on teacher vacancies is not available by constituency as it is collected at local education authority level. In January 2003, the latest information available, there were 40 full-time advertised teacher vacancies in Lancashire local education authority.

Like other areas, since 1997 Preston has benefited from the initiatives that the Government has put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in the former Lancashire LEA area has risen by 390, from 11,870 to 12,260 in 2003. Over the same period, the number of full-time equivalent school support staff in the area has grown by 2,870 from 3,620 to 6,490 in 2003.

Mr. Collins: To ask the Secretary of State for Education and Skills how many vacant *(a)* teacher and *(b)* deputy head teacher posts there were in (i) primary, (ii) secondary and (iii) special schools in each year since 1997, broken down by local education authority. [167572]

Mr. Miliband: The information requested has been placed in the Libraries.

Teachers (Work Permits)

Mr. Willis: To ask the Secretary of State for Education and Skills how many work permits have been granted since 1 October 2003, broken down by country of origin of applicant for *(a)* primary and *(b)* secondary teachers in each Government office region. [164462]

Mr. Browne *[holding answer 31 May 2004]:* I have been asked to reply.

The following table provides a breakdown of the number of work permit applications, including extensions, approved for teaching posts, by country of origin since 1 October 2003.

Work permit applications

Country	*Number*
Argentina	1
Australia	332
Bangladesh	2
Bosnia—Herzegovina	1
British National Overseas	1
Bulgaria	2
Canada	52
China Peoples Republic of	5
Cuba	3
Cyprus	1
Egypt	1
Gambia	1
Georgia	1
Ghana	26
Guyana	1
Honduras	1
Hungary	3
India	32
Israel	1
Jamaica	84
Japan	2
Jordan	1
Kenya	2
Lebanon	3
Macedonia	1
Mauritius	4
Mexico	1
Namibia	2
New Zealand	128
Nigeria	11
Pakistan	15
Philippines	5
Poland	3
Romania	3
Russia	5
Singapore	2
South Africa	254
South Korea	3
St. Lucia	1
Taiwan	1
Trinidad and Tobago	5
Turkey	3
Uganda	2
Ukraine	5
United States of America	55
Venezuela	1
Yemen Republic of	1
Zimbabwe	47
Total	1,117

Figures broken down by primary and secondary teachers and by Government office region are not available.

Teaching Assistants

Mr. Pike: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Burnley *(a)* in each of the last seven years and *(b)* on the latest date for which figures are available. [167916]

Mr. Miliband: The following table gives the numbers of full time equivalent teaching assistants in maintained schools in Burnley constituency in January of each year between 1997 and 2003, the latest year for which data are available.

	Number
1997	160
1998	173
1999	176
2000	184
2001	220
2002	212
2003	287

Source:
Annual Schools' Census.

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Preston in *(a)* each of the last seven years and *(b)* on the latest date for which figures are available. [168137]

Mr. Miliband: The following table gives the numbers of full time equivalent teaching assistants in maintained schools in Preston constituency for each year between 1997 and 2003, the latest year for which data are available.

	Teaching assistants
1997	176
1998	202
1999	203
2000	211
2001	255
2002	237
2003	350

Source:
Annual Schools' Census.

WORK AND PENSIONS

Benefits Payment

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many benefit recipients there are in each constituency in Great Britain; and how many of them collect their benefits from post offices, excluding those who use network banking arrangements. [167329]

Mr. Pond: The information is not available in the format requested. A table has been placed in the Library, which provides the total number of benefits in each constituency, and shows how many of those accounts receive at least one benefit payable at a post office. The information is from data available at 21 February 2004.

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many pensioners draw their benefits at *(a)* post offices and *(b)* banks or building societies in the Havant constituency. [167331]

Mr. Pond: Information available on pensioners (women over 60 and men over 65) as at 21 February 2004 in the Havant constituency receiving benefit payments collectable at a post office and by Direct Payment into bank and building society accounts, is as follows.

Number of pensioner benefit accounts in the Havant parliamentary constituency paid at a post office or into a bank or building society

	Havant
Total paid at post office	8,995
Total paid by direct payment into a bank or building society account	14,655

Source:
IAD information centre, 100 percent sample.

Included in payment through the post office are customers paid into post office card accounts and customers paid by girocheque. Girocheques are encashable either at a post office or they can be paid into a bank or building society account. These figures do not include war pensions and child benefit customers as these accounts are the responsibility of the Ministry of Defence and Inland Revenue respectively.

Some customers who are paid direct into an account can also collect their payments in cash at post offices through the wider range of banking services now available at the post office. There is no data available on the number of benefit claims collected in this way.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Work and Pensions when he intends to reply to the letter from the right hon. Member for Manchester, Gorton, dated 2 March, with regard to Mr. S. West, transferred to him by the Secretary of State for Trade and Industry. [167261]

Mr. Andrew Smith: I replied to my right hon. Friend on 21 April.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for Work and Pensions which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156905]

Maria Eagle: All civil servants are subject to the Business Appointment Rules, which set out the circumstances in which they must seek permission to accept outside appointments within two years of leaving Crown employment. A copy of the rules is available in the Libraries of the House. Information about appointments taken up by the most senior staff is published in the annual reports of the Advisory Committee on Business Appointments. The next annual report will be published shortly.

Since 2001 the Department has not had any requests for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG.

Disability Living Allowance

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many claims there were for disability living allowance for people disabled by mental illness, broken down by age group for each year since the introduction of disability living allowance. [168151]

Maria Eagle: The information is in the tables.

Numbers of people receiving disability living allowance (DLA) whose main disabling condition is psychosis[1], psychoneurosis, personality disorder, or alcohol abuse, broken down by age group at 31 August in each year from 1992 to 2003.

Thousand

Age	*1992*	*1993*	*1994*	*1995*	*1996*	*1997*

[1] Medical advice is that, of the range of disabling mental conditions recorded for the purposes of DLA, these four are clearly forms of "illness", as opposed to developmental abnormality.
[2] Denotes nil or negligible.

Notes:
1. Figures are based on a 5 per cent. sample at 31 August each year (consistent with answers to your related questions 168152 and 168153).
2. Figures are in thousands and rounded to the nearest hundred.
3. Figures marked "*" are less than 500 and subject to a high degree of sampling variation.
4. In the first two years of records, dates of birth for some recipients are not available.
5. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.

Notes:

1. Figures are consistent with outturn expenditure as published in the DWP benefit expenditure tables.
2. Expenditure has been apportioned to age groups using age group data from the DLA Quarterly Statistical Enquiry which is based on a 5 per cent. sample and therefore subject to a degree of sampling variation.
3. In the first two years of records, dates of birth for some recipients are not available and this has resulted in some expenditure being grouped in the 'unknown' age group.
4. Figures are in 2004–05 prices, calculated using the latest GDP deflator.
5. Figures are rounded to the nearest million pounds.
6. Totals may not sum due to rounding.
7. Figures for 2003–04 are estimated outturn.

Note:

1. Figures are consistent with outturn expenditure as published in the DWP benefit expenditure tables.
2. Expenditure has been apportioned using disability type data from the DLA Quarterly Statistical Enquiry which is based on a 5 per cent. sample and therefore subject to a degree of sampling variation.
3. Figures are in 2004–05 prices, calculated using the latest GDP deflator.
4. Figures are rounded to the nearest million pounds.
5. Totals may not sum due to rounding.
6. Figures for 2003–04 are estimated outturn.
7. The 'Other' category comprises of 25 conditions, including alcohol abuse. Alcohol abuse has been listed separately, along with a breakdown of the conditions covered by the 'Other Mental Health Causes' category to provide the equivalent breakdown to that provided in a related PQ, PQ 168151, PQ 168151 asks about mental illness which has been defined as psychosis, psychoneurosis, personality disorder or alcohol abuse.

Information and Analysis Directorate, Great Britain estimated expenditure on Disability Living Allowance in each financial year and disability type.

Disabled Workers

Mr. Pike: To ask the Secretary of State for Work and Pensions if he will make a statement on measures introduced to improve the working conditions of disabled workers in Burnley over the last seven years. [168322]

Maria Eagle: We have a number of measures in place nationally to help improve conditions for disabled people at work, as well as measures to improve their access to services generally. None of these are specific to Burnley, but all are available to disabled people who live and work there.

From 1996, the employment provisions of the Disability Discrimination Act 1995 required most employers of 20 or more staff not to discriminate against, and to make reasonable adjustments for, disabled job applicants or employees; in December 1998, we reduced this threshold to 15 employees. From October this year, the small employer exemption will be removed and most currently excluded occupations, such as police officers, firefighters, and partners in business partnerships will be brought within the scope of the Disability Discrimination Act employment provisions.

Jobcentre Plus runs a number of specialist programmes providing help for disabled people, including New Deal for Disabled People, Workstep, Access to Work, the Job Introduction Scheme, and Work Preparation. All these programmes provide practical advice and support to disabled people and their employers to help overcome work related obstacles resulting from disability. Since 1997–98 there have been year on year increases in both numbers helped and programme spend.

To help people access appropriate help, Jobcentre Plus has established a network of Disability Service Teams. The teams are made up of Disability Employment Advisers, Access to Work Advisers and Occupational Psychologists; their services are accessed through local Jobcentres.

Since April 2003, disabled people in work have been receiving financial support through the working tax credit. This is available if a person is working an average of at least 16 hours per week (self-employed or for an employer); and have a disability which puts them at a disadvantage in getting a job. 70,000 families (including over 32,000 adults without children) are benefiting from

the disability element within the working tax credit, compared to 38,000 who benefited from the old disabled person's tax credit.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions if he will make a statement on the measures his Department has introduced to improve the working conditions of disabled workers in Birkenhead over the last seven years. [166513]

Maria Eagle: We have a number of measures in place nationally to help improve conditions for disabled people at work, as well as measures to improve their access to services generally. None of these are specific to Birkenhead, but all are available to disabled people who live and work there.

From 1996, the employment provisions of the Disability Discrimination Act required most employers of 20 or more staff not to discriminate against, and to make reasonable adjustments for, disabled job applicants or employees; in December 1998, we reduced this threshold to 15 employees. Since April 2003, disabled people in work have been receiving financial support through the working tax credit. This is available if a person is working an average of at least 16 hours per week (self-employed or for an employer); and have a disability which puts them at a disadvantage in getting a job. 70,000 families (including over 32,000 adults without children) are benefiting from the disability element within the working tax credit, compared to 38,000 who benefited from the old disabled person's tax credit.

Female Poverty

Joan Ruddock: To ask the Secretary of State for Work and Pensions what proportion of women in each ethnic group are living in poverty, defined as below 60 per cent. of median income *(a)* before and *(b)* after housing costs. [166923]

Mr. Pond *[holding answer 22 April 2004]:* The information is in the following tables.

Ethnic Group	*Percentage of adult women living below 60 per cent. of contemporary median income before housing costs*
White	16
Asian or Asian British	34
Of which:	
Indian	21
Pakistani/Bangladeshi	55
Black or Black British	26
Chinese, Mixed or Other	18
All Women	17

Ethnic Group	*Percentage of adult women living below 60 per cent. of contemporary median income after housing costs*
White	20
Asian or Asian British	40
Of which:	
Indian	23
Pakistani/Bangladeshi	64
Black or Black British	38
Chinese, Mixed or Other	28
All Women	21

Notes:

1. All figures are estimates and are taken from the Households Below Average Income (HBAI) series.
2. The data given are for 2002–03, and are taken from the Family Resources Survey.
3. Estimates are for Great Britain, and relate to both working-age and pensioner females.
4. The estimates are based on sample counts, which have been adjusted for non-response using multipurpose grossing factors that control for tenure, Council Tax band and a number of other variables. Estimates are subject to both sampling error, and to remaining variability in non-response, which is not corrected by the grossing regime.
5. The income measure used is weekly net (disposable) equivalised household income (that is to say income that is adjusted to reflect the composition of the household). Figures include the self-employed.
6. Caution should be taken when interpreting results for gender groups using HBAI data. HBAI attempts to measure living standards as determined by household income; consequently both partners in a couple will appear at the same position in the income distribution.
7. Ethnic categories published in HBAI 2002–03 are more detailed; results in this answer have been aggregated because of the additional breakdown for gender.
8. Figures for the 'Chinese, Mixed or Other' group are based on a smaller sample and should only be used as a guide.

Health and Safety

John McDonnell: To ask the Secretary of State for Work and Pensions how many of the recommendations contained in the Health and Safety Commission Strategy Statement, Revitalising Health and Safety, published in June 2000 the Government have implemented. [167496]

Jane Kennedy: Of the 44 Action Points published in Revitalising Health and Safety, 34 have been implemented.

Housing Benefit (Payment Options)

Mr. Webb: To ask the Secretary of State for Work and Pensions which direct payment options are *(a)* offered and *(b)* available to housing benefit claimants; and if he will make a statement. [160679]

Mr. Pond: Payment of Housing Benefit for private sector dwellings can be made either to the claimant or, where certain conditions are satisfied, direct to the landlord; Housing Benefit for local authority dwellings is paid as a rebate on the rent account. Individual local authorities have discretion in deciding the appropriate method of payment of housing benefit, taking into account tenants' circumstances, such as access to bank accounts.

Wave 8 of the Local Omnibus Survey, which is conducted with local authority managers, asked about payment methods for housing benefit; of those local authorities, which responded, the main method of payment was by cheque. Although 45 per cent. of responding local authorities said that they were not currently using automated credit transfer, 81 per cent. of those said that they had plans to introduce it. A copy of the survey has been placed in the Library.

We are currently undertaking Local Housing Allowance pathfinders in nine local authorities, under which payments are made directly to tenants. We are working with the pathfinder authorities and the British Banking Association to provide tenants with easier access to bank accounts.

Permitted Work Regulations

Mr. Denham: To ask the Secretary of State for Work and Pensions how many claimants have had their right to permitted work restricted to £20 per week, having previously had higher earnings, since the introduction of the permitted work regulations in April 2002. [168828]

Maria Eagle: The information is not available.

Recruitment Advertising

Pete Wishart: To ask the Secretary of State for Work and Pensions what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155523]

Maria Eagle: The information is not collected centrally and could be obtained only at disproportionate cost.

INTERNATIONAL DEVELOPMENT

Cereal/Animal Fodder Exports

Mr. Hancock: To ask the Secretary of State for International Development pursuant to the answer from the Secretary of State for Environment, Food and Rural Affairs of 19 April 2004, *Official Report*, column 129W, on animal fodder, what his policy is towards developing countries which export cereals and animal fodder. [168797]

Hilary Benn: The UK Government are committed to assisting developing countries that export agricultural products, including cereals and animal fodder, through improving market access and reducing trade-distorting subsidies. DFID continues to work for a fair and equitable international trading system for all agricultural products. In particular, the 49 Least Developed Countries have unlimited duty free access to the EU market under the 'Everything But Arms' agreement, except for rice, sugar and bananas, where limited arrangements apply until full liberalisation takes place. In addition, reforms to the EU's Common Agricultural Policy last June break the link between subsidy and production and hence reduce the damaging effect EU agricultural subsidies can have on developing countries' producers.

However, the largest potential gains for developing countries will come at the multilateral level. At the World Trade Organisation (WTO) Doha Ministerial meeting in 2001 it was agreed that agriculture negotiations would aim to achieve:

> "substantial improvements in market access; reductions of, with a view to phasing out, all forms of export subsidies; and substantial reductions in trade-distorting domestic support".

DFID is committed to ensure that these negotiations result in liberalisation that will benefit the world's poor.

China (Coercive Population Control)

Mr. Drew: To ask the Secretary of State for International Development (1) when he last raised the issue of coercive population control in China with his Chinese counterpart; and with what results; [168174]

(2) if he will make a statement on the practice of coercive population control by the Chinese authorities on the people of Tibet. [168179]

Hilary Benn *[holding answer 23 April 2004]:* The UK Government have made it clear to the Chinese Government that we believe their family planning policies should be based on the principles of the International Conference on Population and Development; that is on the principle of informed choice, voluntarism, and consent and not coercion. In May 2002, the then Secretary of State for International Development raised the issues of coercive family planning programmes with her counterpart, and the Chinese authorities gave assurances that China was working towards relaxing the one-child policy. At that time Tibetans, as ethnic minorities, were allowed two children (rather than one) in urban areas, and there was legally no limit to the number of children herdsmen could have, although in practice many localities limited them to three.

The new population law of September 2002 reduced birth targets and respects the reproductive rights of couples to freely and responsibly choose the spacing and number of their children. However, it maintained financial incentives for small family size.

DFID funds the United Nations Population Fund (UNFPA), which is working to promote policy change within China towards meeting international standards, including the removal of social compensation fees. DFID funds are used to support independent monitoring and evaluation of the impact of UNFPA's work.

Democracy (Africa)

Mr. Robathan: To ask the Secretary of State for International Development further to his recent statement to the all-party Africa Group, if he will list the governments in Africa that he regards as having been democratically elected. [168201]

Hilary Benn: DFID welcomes the fact that the number of free and fair elections in Africa has grown significantly in the last 30 years and real alternation of power is now taking place. Kenya, Senegal, Botswana, Namibia, Ghana, Mozambique and South Africa are all recent examples of African countries whose governments have been elected democratically. DFID also welcomes moves by the African Union to produce common standards on African elections based on international best practice, and we hope that, in time, they will increase further the number of free and fair elections in Africa.

Elections in Africa, as elsewhere, are usually monitored by independent electoral commissions who are responsible for their organisation and conduct. HMG does encourage the involvement of local civil society to monitor elections and has on occasion sent international observers as part of the wider international community's involvement in specific monitoring missions where these have been requested.

EU Development Assistance

Mr. Bercow: To ask the Secretary of State for International Development if he will list the non-governmental organisations involved in the delivery of EU Development Assistance projects in *(a)* Angola, *(b)* Burundi, *(c)* the Congo, *(d)* Eritrea, *(e)* Ethiopia, *(f)* Kenya, *(g)* Madagascar, *(h)* Malawi, *(i)* Mozambique, *(j)* Namibia, *(k)* Rwanda, *(l)* Somalia, *(m)* South Africa, *(n)* Sudan, *(o)* Tanzania, *(p)* Uganda, *(q)* Zambia and *(r)* Zimbabwe. [167191]

Hilary Benn: The Department for International Development does not maintain a record of the wide range of NGOs funded by the EU in delivering its development assistance programmes in sub-Saharan Africa. To obtain this information would incur a disproportionate cost.

Mr. Bercow: To ask the Secretary of State for International Development (1) what his Department's involvement was in the 2002 project, financed by EU Development Assistance to participate in the 8th Ceramics Biennale in all African, Carribean and Pacific countries; and what assessment he has made of the project; [169412]

(2) what his Department's involvement was in the 2002 project financed by EU Development Assistance on Post Masa 2001 in West Africa; and what assessment he has made of the project; [169413]

(3) what his Department's involvement was in the 2002 project financed by EU Development Assistance to provide funding for the film Zulu Love Letter; and what assessment he has made of the project; [169414]

(4) what his Department's involvement was in the 2002 project financed by EU Development Assistance to undertake preliminary work on regional refrom in African, Carribean and Pacific countries; and what assessment he has made of the project; [169415]

(5) what his Department's involvement was in the 2002 project financed by EU Development Assistance on the functioning of regional operational centre junior achievement in all African, Carribean and Pacific countries; and what assessment he has made of the project; [169416]

(6) what his Department's involvement was in the 2002 project financed by EU Development Assistance to provide training in numerical and radio recycling; and what assessment he has made of the project; [169417]

(7) what his Department's involvement was in the 2002 project financed by EU Development Assistance to provide a mobile numerical cinema in West Africa; and what assessment he has made of the project; [169418]

(8) what his Department's involvement was in the 2002 project financed by EU Development Assistance to conduct a study of theatre festivals in Sub-Saharan Africa; and what assessment he has made of the project; [169419]

(9) what his Department's involvement was in the 2002 project financed by EU Development Assistance to support the Sand School in Dabar, West Africa; and what assessment he has made of the project; [169420]

(10) what his Department's involvement was in the 2002 project financed by EU Development Assistance to undertake youth development in Netherlands Antilles; and what assessment he has made of the project; [169421]

(11) what his Department's involvement was in the 2002 project financed by EU Development Assistance to deliver sustainable management of biodiversity in the Pacific; and what assessment he has made of the project; [169422]

(12) what his Department's involvement was in the 2002 project financed by EU Development Assistance to maintain tropical forest biodiversity in West Africa; and what assessment he has made of the project; [169423]

(13) what his Department's involvement was in the 2002 project financed by EU Development Assistance to deliver forest law enforcement and governance is *(a)* West Africa, *(b)* Central Africa, *(c)* Eastern and Southern Africa and *(d)* the Indian Ocean; and what assessment he has made of the project; [169424]

(14) what his Department's involvement was in the 2002 project financed by EU Development Assistance on technological development for sustainable resource management: Cyber Tracker in *(a)* Central Africa, *(b)* Eastern and Southern Africa and *(c)* the Indian Ocean; and what assessment he has made of the project; [169425]

(15) what his Department's involvement was in the 2002 project financed by EU Development Assistance to implement terms of employment studies in Zimbabwe; and what assessment he has made of the project; [169426]

(16) what his Department's involvement was in the 2002 project financed by EU Development Assistance to support the primary education development plan in Tanzania; and what assessment he has made of the project; [169427]

(17) what his Department's involvement was in the 2002 project financed by EU Development Assistance *(a)* to undertake capacity building in education in Ethiopia and *(b)* to establish a law faculty at Mekelle University in Ethiopia; and what assessment he has made of the project; [169428]

(18) what his Department's involvement was in the 2002 project financed by EU Development Assistance to strengthen civil society in Comoros; and what assessment he has made of the project; [169429]

(19) what his Department's involvement was in the 2002 projects financed by EU Development Assistance *(a)* to support the Ministry of Finance in Botswana and *(b)* to upgrade Gaborone Technical College in Botswana; and what assessment he has made of the project; [169430]

(20) what his Department's involvement was in the 2002 project financed by EU Development Assistance to provide funding for *(a)* the film Comboio da Canhoca and *(b)* the film Na Cidade Vazia in Angola; and what assessment he has made of the project; [169431]

(21) what his Department's involvement was in the 2002 project financed by EU Development Assistance to deliver training to combat prostitution in Côte d'Ivoire; and what assessment he has made of the project; [169432]

(22) what his Department's involvement was in the 2002 project financed by EU Development Assistance to *(a)* support decentralisation and *(b)* sponsor the Pan-African Cinema Festival in Burkina Faso; and what assessment he has made of the project; [169433]

(23) what his Department's involvement was in the 2002 projects financed by EU Development Assistance to support cultural activities in *(a)* Gabon and *(b)* Sao Tomé and Principe; and what assessment he has made of the project; [169434]

(24) what his Department's involvement was in the 2002 project financed by EU Development Assistance to train air traffic controllers in Vanuatu; and what assessment he has made of the project; [169435]

(25) what his Department's involvement was in the 2002 project financed by EU Development Assistance to improve rural primary education facilities in Papua New Guinea; and what assessment he has made of the project; [169436]

(26) what his Department's involvement was in the 2002 project financed by EU Development Assistance to construct a new building for the Laukota Learners College in Fiji; and what assessment he has made of the project; [169437]

(27) what his Department's involvement was in the 2002 project financed by EU Development Assistance to combat AIDS, TB and malaria; and what assessment he has made of the project; [169438]

(28) what his Department's involvement was in the 2002 project financed by EU Development Assistance entitled Immpact; and what assessment he has made of the project; [169474]

(29) what his Department's involvement was in the 2002 project financed by EU Development Assistance to end female genital mutilation; and what assessment he has made of the project; [169475]

(30) what his Department's involvement was in the 2002 project financed by EU Development Assistance to deliver economic diversification of the mining sector in Botswana; and what assessment he has made of the project; [169497]

(31) what his Department's involvement was in the 2002 project financed by EU Development Assistance to provide mining sector support in Gabon; and what assessment he has made of the project; [169498]

(32) what his Department's involvement was in the 2002 project financed by EU Development Assistance to repair energy transmission and distribution networks in Sierra Leone; and what assessment he has made of the project; [169499]

(33) what his Department's involvement was in the 2002 project financed by EU Development Assistance to re-open the titanium ore mine in Sierra Leone; and what assessment he has made of the project; [169500]

(34) what his Department's involvement was in the 2002 project financed by EU Development Assistance to strengthen and diversify the mining sector in Niger; and what assessment he has made of the project; [169501]

(35) what his Department's involvement was in the 2002 project financed by EU Development Assistance to repair the Novadhibou Port in Mauritania; and what assessment he has made of the project; [169502]

(36) what his Department's involvement was in the 2002 project financed by EU Development Assistance to re-equip the training institute in Guinea-Conakry; and what assessment he has made of the project; [169503]

(37) what his Department's involvement was in the 2002 project financed by EU Development Assistance to provide mining sector support in Ghana; and what assessment he has made of the project; [169504]

(38) what his Department's involvement was in the 2002 project financed by EU Development Assistance to repair and maintain roads in Burkina Faso; and what assessment he has made of the project; [169505]

(39) what his Department's involvement was in the 2002 project financed by EU Development Assistance to undertake a preparatory study of infrastructure in Benin; and what assessment he has made of the project; [169506]

(40) what his Department's involvement was in the 2002 project financed by EU Development Assistance to provide mining sector support in Papua New Guinea; and what assessment he has made of the project; [169507]

(41) what his Department's involvement was in the 2002 project financed by EU Development Assistance to vaccinate against porcine flu in Cuba; and what assessment he has made of the project; [169508]

(42) what his Department's involvement was in the 2002 project financed by EU Development Assistance to expand rice production in Caribbean countries; and what assessment he has made of the project; [169509]

(43) what his Department's involvement was in the 2002 project financed by EU Development Assistance to raise the efficiency of banana production in Caribbean countries; and what assessment he has made of the project; [169510]

(44) what his Department's involvement was in the 2002 project financed by EU Development Assistance to construct three fishing ports in New Caledonia; and what assessment he has made of the project; [169511]

(45) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to develop and repair urban markets in Zambia; and what assessment he has made of the project; [169512]

(46) what his Department's involvement was in the 2002 project financed by EU Development Assistance to fund development in Durban and surrounding areas of South Africa; and what assessment he has made of the project; [169513]

(47) what his Department's involvement was in the 2002 project financed by EU Development Assistance to train banana producers in West Africa; and what assessment he has made of the project; [169514]

(48) what his Department's involvement was in the 2002 project financed by EU Development Assistance to reinforce food security in Oriente Province of Cuba; and what assessment he has made of the project; [169515]

(49) what his Department's involvement was in the 2002 project financed by EU Development Assistance to support school canteens and reinforce food security governance in Haiti; and what assessment he has made of the project; [169516]

(50) what his Department's involvement was in the 2002 project financed by EU Development Assistance to raise the efficiency of banana production in the countries of Eastern and Southern Africa and the Indian Ocean; and what assessment he has made of the project; [169517]

(51) what his Department's involvement was in the 2002 project financed by EU Development Assistance to raise the efficiency of banana production in Cameroon; and what assessment he has made of the project; [169518]

(52) what his Department's involvement was in the 2002 project financed by EU Development Assistance to implement forestry programmes in Chad; and what assessment he has made of the project; [169519]

(53) what his Department's involvement was in the 2002 project financed by EU Development Assistance to improve food security in Niger; and what assessment he has made of the project; [169520]

(54) what his Department's involvement was in the 2002 project financed by EU Development Assistance to promote rural development in Benin; and what assessment he has made of the project; [169521]

(55) what his Department's involvement was in the 2002 project financed by EU Development Assistance to promote hub rural development in several west African countries; and what assessment he has made of the project; [169522]

(56) what his Department's involvement was in the 2002 project financed by EU Development Assistance to devise an integrated pest management programme for countries of Eastern and Southern Africa and the Indian Ocean; and what assessment he has made of the project; [169523]

(57) what his Department's involvement was in the 2002 project financed by EU Development Assistance to devise a fisheries management plan for countries of Eastern and Southern Africa and the Indian Ocean; and what assessment he has made of the project; [169524]

(58) what his Department's involvement was in the 2002 project financed by EU Development Assistance to undertake land and water research in countries of Eastern and Southern Africa and the Indian Ocean; and what assessment he has made of the project; [169525]

(59) what his Department's involvement was in the 2002 project financed by EU Development Assistance to supply 40,000 tonnes of corn to Malawi; and what assessment he has made of the project; [169527]

(60) what his Department's involvement was in the 2002 project financed by EU Development Assistance to supply 183,000 tonnes of cereals to Ethiopia; and what assessment he has made of the project; [169528]

(61) what his Department's involvement was in the 2002 project financed by EU Development Assistance to supply 24,000 tonnes of cereals to Eritrea; and what assessment he has made of the project; [169529]

(62) what his Department's involvement was in the 2002 project financed by EU Development Assistance to improve public financial management and accounting in Cuba; and what assessment he has made of the project; [169530]

(63) what his Department's involvement was in the 2002 project financed by EU Development Assistance to implement sustainable agricultural development in several Pacific countries; and what assessment he has made of the project; [169531]

(64) what his Department's involvement was in the 2002 project financed by EU Development Assistance to support farmers' organisations in Vanuatu; and what assessment he has made of the project; [169532]

(65) what his Department's involvement was in the 2002 project financed by EU Development Assistance to supply 90,000 tonnes of cereals and 1,300 tonnes of seeds to Zimbabwe; and what assessment he has made of the project; [169533]

(66) what his Department's involvement was in the 2002 project financed by EU Development Assistance to deliver a pluriannual programme on easy currency supporting actions and technical assistance; and what assessment he has made of the project; [169534]

(67) what his Department's involvement was in the 2002 project financed by EU Development Assistance to promote tourism from the Basque countries to Saint Pierre and Miquelon; and what assessment he has made of the project; [169535]

(68) what his Department's involvement was in the 2002 project financed by EU Development Assistance to support business opportunities in Burkina Faso; and what assessment he has made of the project; [169536]

(69) what his Department's involvement was in the 2002 project financed by EU Development Assistance to support community-based projects in Côte d'Ivoire; and what assessment he has made of the project; [169537]

(70) what his Department's involvement was in the 2002 project financed by EU Development Assistance to support *(a)* the Caribbean Regional Trade Development Programme and *(b)* the Caribbean Regional Tourism Development Programme; and what assessment he has made of the project; [169538]

(71) what his Department's involvement was in the 2002 project financed by EU Development Assistance to combat racism in the Central African Republic; and what assessment he has made of the project; [169539]

(72) what his Department's involvement was in the 2002 project financed by EU Development Assistance to prevent torture in Cameroon; and what assessment he has made of the project; [169540]

(73) what his Department's involvement was in the 2002 projects financed by EU Development Assistance to *(a)* protect human rights, *(b)* restore peace and *(c)* reconcile divided communities in Burundi; and what assessment he has made of the project; [169541]

(74) what his Department's involvement was in the 2002 projects financed by EU Development Assistance to *(a)* monitor elections, *(b)* support the Truth and Reconciliation Commission, *(c)* report human rights abuses and *(d)* rehabilitate victims of torture in Sierra Leone; and what assessment he has made of the projects; [169542]

(75) what his Department's involvement was in the 2002 project financed by EU Development Assistance to maintain the peace settlement in Angola; and what assessment he has made of the project; [169543]

(76) what his Department's involvement was in the 2002 projects financed by EU Development Assistance to *(a)* combat racism in Rwanda and *(b)* fund legal trials at Gacaca; and what assessment he has made of the projects; [169544]

(160) what his Department's involvement was in the 2002 project financed by EU Development Assistance to build low income housing in Guyana; and what assessment he has made of the project; [169640]

(161) what his Department's involvement was in the 2002 project financed by EU Development Assistance to construct a new airport in Montserrat; and what assessment he has made of the project; [169641]

(162) what his Department's involvement was in the 2002 project financed by EU Development Assistance to repair the road network in Anguilla; and what assessment he has made of the project. [169642]

Hilary Benn: I refer the hon. Member for Buckingham to the response I gave him on Thursday 22 April 2004, *Official Report*, column 602W.

HIV/AIDS (Rwanda)

Harry Cohen: To ask the Secretary of State for International Development what steps he is taking to support rape victims living with HIV/AIDS in Rwanda; and if he will make a statement. [169145]

Hilary Benn: HIV/AIDS is a serious problem in Rwanda. Rwanda does not yet have the health infrastructure required to effectively deliver anti-retroviral therapy (ART) countrywide. But the Government have produced a comprehensive Strategic Framework for HIV/AIDS Control and all the major donors, including the Clinton Foundation, the Global Fund and the World Bank, who have committed to support it. This framework includes the progressive provision of ART to all who need it, through a strengthened network of health centres. Through a partnership between the Joint United Nations Programme on HIV/AIDS (UNAIDS) and five of the leading multinational pharmaceutical companies (including the Accelerating Access to HIV/AIDS Care, Treatment And Support Initiative), Rwanda is one of the countries that have reached agreement with manufacturers to significantly reduce drug prices in the context of its national HIV care and treatment plans.

The UK has committed £25 million through the International Partnership Against AIDS in Africa Programme (IPAA) to increase capacity in certain National HIV/AIDS Commissions, including Rwanda. DFID is currently considering whether we can build on this engagement, to ensure that Rwanda has the capacity to manage and direct the various programmes of support.

DFID is also providing direct assistance to the survivors of the genocide through the Government's Survivors Fund (FARG). This assistance is currently running at some £200,000 per annum, and planned

additional support up to £850,000 will enable FARG to broaden the services it provides to include advice and counselling on issues around HIV/AIDS.

I have had specific concern over the inequity in access to Anti-Retroviral Treatment between the defendants and the witnesses at the International Criminal Tribunal for Rwanda (ICTR), which is considering crimes committed during the genocide. While defendants have access to health care including ART, witnesses generally do not. I wrote to the Secretary General of the United Nations, Kofi Annan, asking how the United Nations and the international community could work to resolve this inequity. The UN Secretary General replied, reporting that UNAIDS/WHO were identifying suitable health care providers, but seeking assistance from the UK to fund ART treatment for witnesses. I have responded positively and offered DFID assistance up to £200,000 for health care (including ART) to be provided in Kigali for ICTR witnesses and others called by the tribunal.

Iraq

Paul Flynn: To ask the Secretary of State for International Development what measures his Department have taken since the end of the war in Iraq to restore *(a)* drinking water supplies, *(b)* sewerage infrastructure and *(c)* electricity supplies. [166870]

Hilary Benn: The Coalition Provisional Authority (CPA) in conjunction with the various Iraqi Ministries, the UN, bilateral donors and civil society have been engaged in significant efforts that have led to improvements in drinking water, sewerage and electricity provision across the whole of Iraq. The CPA website www.cpa-iraq.org gives weekly updates on developments in electricity supply and other essential services.

The UK is contributing £17.2 million to the Emergency Infrastructure Programme in southern Iraq, which is focused on reinstating essential infrastructure in the power, fuel and water sectors. DFID has also provided £500,000 to CARE UK for their Integrated Water and Health Relief Project, which has improved the quantity and quality of drinking water to about 100,000 people in Najaf Governorate, 170 km south of Baghdad. More information on CARE UK's work in Iraq can be found at: www.careinternational.org.uk

Particularly significant in the water, sewerage and electricity sectors have been the efforts of the United States Agency for International Development (USAID), the United Nations Development Programme (UNDP), and UNICEF. Details of their interventions can be found on the following websites:

www.usaid-gov/iraq

www.iq.undp.org

www.unicef.org/index.html

The UN and World Bank undertook a comprehensive needs assessment in conjunction with the Iraqi authorities, which formed the basis for the pledges offered by the international community at the Madrid conference. The international community is now seeking to take forward this further reconstruction effort and the International Reconstruction Financing Facility for Iraq (IRFFI) has been established. The UK has made an early contribution to the IRFFI of £70 million.

Maldives

Mr. Flook: To ask the Secretary of State for International Development how much grant-in-aid the United Kingdom gave to the Maldives in each year since 1997. [167273]

Hilary Benn *[holding answer 23 April 2004]:* UK bilateral aid to the Maldives in each financial year since 1997–98 has been:

£

	Technical cooperation	*Grants and other aid in kind*	*Total*
1997–1998	88	204	292
1998–1999	70	240	310
1999–2000	44	248	292
2000–2001	69	217	286
2001–2002	17	66	83
2002–2003	16	180	195

Source:
Statistics for International Development

Data for 2003–04 are not yet published.

The EU did not make any development assistance grants to the Maldives, which could be attributable to the UK, in the period 1997–2001. Figures for 2002 are not yet published.

Nigeria

Mr. Hancock: To ask the Secretary of State for International Development what support his Department is providing to people displaced by violence against Christians in Nigeria. [166917]

Hilary Benn: DFID Nigeria provides limited humanitarian assistance to Nigerians displaced by violence. In 2002 assistance was provided (approx. £233,000) through the Red Cross to victims of communal violence in Benue state. DFID Nigeria has recently approved support (£100,000) to Save the Children Fund Nigeria (SCF) to train Nigeria's emergency response organizations to ensure children are protected and their needs addressed in an emergency (including violent conflict). The Africa Conflict Prevention Pool supports Coventry Cathedral's International Centre for Reconciliation's work (£300,000 over three years) to prevent religious conflict throughout Nigeria.

Population Initiatives

Mr. David Drew: To ask the Secretary of State for International Development how much money has been given to *(a)* the UN Population Fund and *(b)* the International Planned Parenthood Federation in each of the last five years for which figures are available. [168171]

Hilary Benn *[holding answer 23 April 2004]:* DFID spending is as follows, for the last five financial years (1999–2000 to 2003–2004):

A. UN Population Fund:

	£ million
Total for period	106.263
1999–2000	15.0
2000–2001	40.050
2001–2002	24.213
2002–2003	9.0
2003–2004	18.0

B. International Planned Parenthood Federation:

	£ million
Total for period	30.5
1999–2000	5.5
2000–2001	5.5
2001–2002	4.5
2002–2003	4.5
2003–2004[1]	10.5

Notes:
[1] £4.5 million in 2003 and £6.0 in 2004

Mr. Drew: To ask the Secretary of State for International Development in which countries the Government are supporting programmes run by *(a)* the UN Population Fund and *(b)* the International Planned Parenthood Federation. [168172]

Hilary Benn *[holding answer 23 April 2004]:* The Government provide core contributions to both the United Nations Population Fund (UNFPA) and the International Planned Parenthood Federation (IPPF) in support of their global activities. UNFPA currently operates in 140 countries, supporting women, men and young people to promote reproductive health issues as well as combating violence against women. IPPF, the world's largest voluntary organisation in sexual and reproductive health and rights, has a network of almost 150 civil society organisations in over 164 countries, all committed to promoting the rights of women and men to decide freely, the number and spacing of their children and the right to the highest possible level of sexual and reproductive health.

Reproductive Health

Mr. Drew: To ask the Secretary of State for International Development if he will make a statement on Government support for reproductive health programmes in Peru between 1990 and 2000. [168173]

Hilary Benn *[holding answer 23 April 2004]:* During the 1990s, DFID financed five projects in Peru supporting reproductive health. These were:

(a) the Multi-Sectoral Population Project (1996–2002—£2,188,000);

(b) the Contraceptives Supply Project (1994–98—£1,402,000);

(c) the Post-Abortion Care Project (1997–2002—£349,000);

(d) the Andean Reproductive Health Initiative, co-financed with the European Commission (1998–2002—£270,000); and

(e) a Small Initiatives Fund (1997–98—£109,000).

The purpose of these projects was to extend the coverage and quality of basic reproductive health and family planning services, in particular for Peru's poorer and more marginalised people. The projects helped develop the capacity of the Ministry of Health to formulate policy on and deliver these health services. The main overall objective was to lower Peru's high rates of maternal and infant mortality.

St. Helena

Mr. Nigel Jones: To ask the Secretary of State for International Development what discussions his Department has had with each of the four bidders for St. Helena's Air Access Project. [168384]

Mr. Gareth Thomas: I wrote direct to the four respondents on 14 April to notify them of the evaluation outcome and to offer them meetings. Atkins Management Consultants, in their capacity as advisers to the St. Helena Government and DFID, have had various contacts with all respondents in the course of the evaluation process that is now complete.

Although DFID has had some discussions in 2002 with the St. Helena Leisure Corporation Ltd. (SHELCO), which was one of the four respondents to last year's international invitation for expressions of interest, we have not yet met direct with SHELCO or other respondents since receipt of their outline proposals. We did write to SHELCO in January and March of this year in response to specific queries.

Togo

John Barrett: To ask the Secretary of State for International Development what assistance he has offered the Government of Togo to reduce levels of child prostitution in the country. [167825]

Hilary Benn: DFID has had no bilateral programme of assistance with the Government of Togo. The European Commission (EC) suspended development co-operation with the Togolese Government in 1993, but provides limited support to development projects via European Non-Governmental Organisations (NGOs). To the best of DFID's knowledge, no EC-funded NGO project in the last five years has specifically involved combating child prostitution.

LEADER OF THE HOUSE

Equal Opportunities and Rights at Work

Mr. Connarty: To ask the Leader of the House what assessment has been made of the amendments required to the rules of the House to ensure that all equal opportunity and rights at work related laws apply to hon. Members and their staff. [167854]

Mr. Hain: Hon. Members are, in their capacity as employers, subject to employment rights legislation and in particular equality legislation in the same way as other employers. The House authorities have a role in encouraging good practice. For example, the Department of Finance and Administration recently circulated information about the implications of the Disability Discrimination Act 1995.

Hon. Members themselves are holders of elective office and are not employees for the purpose of employment rights legislation.

PRIME MINISTER

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Prime Minister what his latest estimate is of the amount spent by his Office on official entertainment in each year from 1996–97 to 2004–05. [169009]

The Prime Minister: I refer the hon. Member to the answer I gave to him on 27 January 2003, *Official Report*, column 564W.

For 2002–03, the total cost of official entertainment to my Office at 10 Downing street and Chequers was £62,709.

Final figures for 2003–04 are not yet available.

Downing Street Staff

Norman Baker: To ask the Prime Minister if he will place in the Library an up-to-date organogram of 10 Downing street, showing individuals *(a)* functions, *(b)* lines of accountability and *(c)* classification as civil servant or special adviser. [167796]

The Prime Minister: An up-to-date copy of the No. 10 organogram has been placed in the House Library.

Dr. A. Q. Khan

Harry Cohen: To ask the Prime Minister pursuant to his answer of 1 March 2004, *Official Report*, column 757W, what reports he has received of the involvement of UK companies and individuals in the network of suppliers of nuclear components associated with Dr. A. Q. Khan; and if he will make a statement. [169149]

The Prime Minister: I have nothing further to add to my previous answer.

Government Buildings (Party Use)

Norman Baker: To ask the Prime Minister pursuant to his answer to hon. Member for Bexhill and Battle, (Gregory Barker) on 29 March 2004, *Official Report*, column 1144W, on party use of Government buildings, what income has been received from the Labour Party for each year from 1997 to date. [167743]

The Prime Minister: Political events held in Downing street are conducted in accordance with the requirements of paragraph 65 of the Ministerial Code. The costs of such events are met directly by the Labour Party.

Iraq

Mr. Dalyell: To ask the Prime Minister what recent assessment he has made of *(a)* Shia, *(b)* Kurdish and *(c)* Sunni opinion towards the Coalition forces in Iraq. [167657]

The Prime Minister: The vast majority of Iraqis want a prosperous, stable, democratic Iraq. We are in constant dialogue and discussion with the key groups in Iraq and the process being conducted by the Coalition, with increased UN involvement, for the transition of power and the implementation of a constitution, has a broad basis of consent from these various groups.

Kean Inquiry

Sir Menzies Campbell: To ask the Prime Minister whether Her Majesty's Government have *(a)* been approached to provide information, *(b)* provided information, *(c)* made representations and *(d)* intends to make representations to the commission of inquiry into the terrorist attacks on the United States chaired by Thomas Kean; and if he will make a statement. [168182]

The Prime Minister: The UK has not provided formal witness statements to the National Commission on Terrorist Attacks upon the United States (9/11 Commission). Where we have been asked for information by the Commission we have provided it and there have been a number of meetings between UK and Commission officials.

Sir Menzies Campbell: To ask the Prime Minister whether Her Majesty's Government has *(a)* been approached to provide information, *(b)* provided information, *(c)* made representations and *(d)* intends to make representations to the US Administration in connection with the commission of inquiry into the terrorist attacks on the United States chaired by Thomas Kean; and if he will make a statement. [168183]

The Prime Minister: We have not been approached nor have we provided any information to the US Administration in connection with the National Commission on Terrorist Attacks upon the United States (9/11 Commission). Officials at the British embassy in Washington have discussed the progress of the Commission with the US Administration informally, as part of our normal business.

Lord Levy

Norman Baker: To ask the Prime Minister for what reasons Lord Levy's responsibilities as his special envoy have been widened to encompass education-related matters. [167749]

The Prime Minister: Lord Levy's responsibilities as special envoy were set out by my right hon. Friend the Foreign Secretary on 9 July 2001, *Official Report*, column 350W. With regard to education, Lord Levy has helped support the Government's programme to establish City Academies.

Ministerial Responsibility

Richard Ottaway: To ask the Prime Minister which Minister is responsible for the environmental impact of the Government's energy policy. [168866]

The Prime Minister: Stephen Timms, Minister for Energy, E-commerce and Postal Services at the Department and Trade and Industry, has responsibility for the environmental impact of the Government's energy policy.

He works closely on this issue with Elliott Morley, Minister for the Environment and Agri-Environment and Lord Whitty, Minister for Food, Farming and Sustainable Energy at the Department of the Environment, Food and Rural Affairs.

HEALTH

Care Homes

Mr. Amess: To ask the Secretary of State for Health what the required criteria are for a complaint about a care home to be investigated; and if he will make a statement. [166914]

Dr. Ladyman: Regulations made under the Care Standards Act 2000, require care homes to have arrangements for dealing with complaints made by, or on behalf of, those seeking or receiving any of the services provided by that establishment or agency. The Commission for Social Care Inspection (CSCI) is responsible for ensuring that establishments and agencies set-up and maintain comprehensive, effective and robust procedures and communicate these to people using the service and the public.

All care homes in England are regulated (registered and inspected) by the CSCI in accordance with statutory regulations and national minimum standards. Anyone who has concerns about a care home can raise these with the CSCI. The CSCI will decide what appropriate action to take in response to information received. The CSCI also has discretionary powers to investigate formal complaints but will only do this where it would inform its role as regulator.

If a resident's care is commissioned by the local authority, complaints can also be made through the statutory social services complaints procedure. If the local authority has serious concerns, it could decide not to commission services from a particular care home.

Chronic Obstructive Pulmonary Disease

Mrs. Iris Robinson: To ask the Secretary of State for Health what the estimated *(a)* inpatient, *(b)* outpatient hospital, *(c)* primary care and *(d)* investigation costs of treating chronic obstructive pulmonary disease were in 2003–04. [166705]

Dr. Ladyman: The tables show information relating to the national average unit cost in England for in-patient and out-patients respectively with chronic obstructive pulmonary disease and bronchitis for 2002–03.

In-patient

Patient type	*HRG code*	*HRG label*	*National average unit cost (£)*
Elective Inpatient	D20	Chronic Obstructive Pulmonary Disease of Bronchitis	1,177
Non-Elective Inpatient	D20	Chronic Obstructive Pulmonary Disease of Bronchitis	1,136
Day Case	D20	Chronic Obstructive Pulmonary Disease or Bronchitis	404

Out-patient

Patient type	*Specialty code*	*Specialty*	*National average unit cost (£)*
First attendance	340	Respiratory medicine	163
Follow up attendance	340	Respiratory medicine	114

Information relating to primary care and investigation costs is not able to be separately identified from current central returns.

Departmental Procurement (Sea Bass)

Mr. Sanders: To ask the Secretary of State for Health if he will make it his policy to source sea bass used in catering outlets for which his Department is responsible from hand-line fishermen rather than pair trawlers. [167542]

Mr. Hutton: The National Health Service Purchasing and Supply Agency has a national contract for the supply of fish, including sea bass. All sea bass supplied to the NHS comes either from fish farms in the Aegean or is caught by line. No sea bass provided in the NHS is caught by pair trawlers.

General Practitioners

Mr. Burstow: To ask the Secretary of State for Health how many whole time equivalent NHS plan group general practitioners per 100,000 population there were in *(a)* each region, *(b)* each strategic health authority and *(c)* each primary care trust in (i) 2002 and (ii) 2003. [167424]

Mr. Hutton: Information on the number of whole time equivalent general practitioners (excluding GP retainers and GP registrars) per 100,000 population in each government office region, each strategic health authority, and in each primary care trust in 2002 and 2003 has been placed in the Library.

Infection Control

Mr. Burstow: To ask the Secretary of State for Health what standards the National Care Standards Commission has set for care homes on infection control; and how these standards are monitored centrally. [165248]

Dr. Ladyman: Standards for infection control in care homes are contained in the relevant National Minimum Standards (NMS) for care homes and are set by the Secretary of State for Health. A copy of the NMS is available in the Library.

The Commission for Social Care Inspection, which replaced the National Care Standards Commission from 1 April 2004, is responsible for ensuring that homes comply with the care homes regulations, subject to the NMS being taken into account.

Intermediate Care Beds

Mr. Lansley: To ask the Secretary of State for Health how many intermediate care beds have been created since June 2001. [167708]

Dr. Ladyman: The information is not available in the format requested.

However, as at the 31 December 2003, there were an additional 4,100 intermediate care beds, compared to the 1999–2000 baseline.

Mifegyne

Jim Dobbin: To ask the Secretary of State for Health in what year and in which area health authority each of the fatal suspected adverse reactions associated with the use of Mifegyne were reported; what age the women whose deaths gave rise to the reports of fatal suspected adverse reactions associated with the use of Mifegyne were; and what the post mortems concluded was the cause of death in each case. [167257]

Ms Rosie Winterton: As with all medicines, the safety of Mifegyne (mifepristone) is continuously monitored by the Medicines and Healthcare products Regulatory Agency (MHRA). To date, the MHRA has received two reports of suspected adverse drug reactions (ADRs) with a fatal outcome.

In line with the "Code of Practice on Access to Government Information", we are unable to release any information that may possibly enable any patient to be identified and, in cases such as these, cause further unnecessary distress to the family. I am, therefore, unable to provide my hon. Friend with specific details concerning these cases.

National Service Frameworks

Sandra Gidley: To ask the Secretary of State for Health with reference to the 2003 Report of Progress and Future Challenges on the National Service Framework for Older People, what written policies were found that discriminated against older people; what progress has been made in amending these policies; and if he will make a statement. [168644]

Dr. Ladyman: A report on the local age discrimination audits of written policies in the national health service was published in April 2002. Copies are available in the Library. Reports of local action to address issues found should be covered in each local health organisation's annual report. Support for continued local action has included working to support the King's Fund to develop and publish "Auditing Age Discrimination—a practical approach to promoting equality in health and social care" in February 2003, the development of statistical tools to allow comparisons of local treatment and care by age group and training events around the country on age discrimination run with Age Concern.

The Healthcare Commission is to undertake a review of progress on implementation of the national service framework for older people, including age discrimination from July 2004 to June 2005.

Neurosurgical Consultants

Bob Spink: To ask the Secretary of State for Health how many new neurosurgical consultancy posts are predicted for each of the next five years. [167065]

Mr. Hutton: The Department does not have figures for planned numbers of posts.

If the number of specialist registrars in neurosurgery who are due to qualify in the next five years is taken into account, along with the likely levels of retirement and other recruitment and retention factors, it is expected that there would be sufficient trained specialists in neurosurgery to increase consultant numbers by around a quarter by 2008.

Bob Spink: To ask the Secretary of State for Health what the latest average time between the award of a Certificate of Completion of Specialist Training and appointment as a consultant for neurosurgical trainees is. [167066]

Mr. Hutton: This information is not collected centrally.

NHS Hospitals

Mr. Burstow: To ask the Secretary of State for Health what his Department's policy is on the introduction of single rooms in NHS hospitals in England. [167415]

Mr. Hutton: The proportion of single rooms in new hospital developments should aim to be 50 per cent., but should not fall below 20 per cent. and must be a higher percentage than the facilities they are replacing. The policy and design guidance for the provision of single rooms in mental health accommodation is 100 per cent.

Mr. Burstow: To ask the Secretary of State for Health what the cost of the patient environment and assessment team inspections of hospital food and cleanliness was in each year since the inspections began. [167423]

Mr. Hutton: Since the patient environment action team (PEAT) programme commenced in 2000, over 3,000 inspections have been undertaken involving over 700 assessors. The PEAT programme is a key element of national health service inspection and performance assessment processes, and the results of PEAT feed directly into the star ratings managed by the Healthcare Commission.

With very few exceptions, PEAT assessors are volunteers whose costs are met by their host organisations. Therefore, while there are costs associated with this work, they are not collected centrally.

NHS Staff

Dr. Murrison: To ask the Secretary of State for Health how figures for returners to the NHS will take account of multiple re-entry by some individuals. [168068]

Mr. Hutton: Between 1997 and 2003, the number of nurses and doctors working in the national health service increased by 67,500 nurses and 19,400 doctors. Returners to the NHS form one component of overall growth, including the very few who may return more than once.

Mr. Lansley: To ask the Secretary of State for Health how many whole time equivalent *(a)* radiologists and *(b)* radiographers were employed by the NHS on 30 September 2003. [168154]

Mr. Hutton: The information requested is shown in the tables.

Between September 1997 and 2003, the number of whole-time equivalent clinical radiology consultants has increased by 22 per cent., diagnostic radiographers have increased by 12 per cent. and therapeutic radiographers have increased by 15 per cent.

Hospital, public health medicine and community health service (HCHS): Medical staff in the clinical radiology specialty by grade—England at 30 September 2003—whole time equivalents

Clinical radiology	*Number*
All staff	2,505
of which:	
Consultant	1,669
Non Cousultant Career Grades[1]	28
Doctors in Training[2]	799
Hospital Practitioner/Clinical Assistant	9

[1] Non Consultant Career Grades consists of Associate Specialist and Staff Grade.
[2] Doctors in Training consists of the Registrar Group, Senior House Officers and House Officers.
Source:
Department of Health medical and dental workforce census.

NHS hospital and community health services: Qualified scientific, therapeutic and technical staff within the specified areas of work in England as at 30 September 2003

Radiography (diagnostic)	*Number*
Qualified staff (whole time equivalent)	9,642
Qualified staff (headcount)	11,687
Radiography (therapeutic)	
Qualified staff (whole time equivalent)	1,469
Qualified staff (headcount)	1,657

Source:
Department of Health Non-Medical Workforce census.

Mr. Lansley: To ask the Secretary of State for Health how many full-time equivalent cardiologists were working in the NHS in each year since 1999. [168363]

Mr. Hutton: The information requested is shown in the table.

Hospital, Public Health Medicine and Community Health Services (HCHS). Staff within the cardiology specialty

England[1]						*whole time equivalents*
	1999	*2000*	*2001*	*2002*	*2003*	*December 2003*
All staff	1,065	1,154	1,233	1,395	1,549	n/a
of which						
Consultant	425	483	512	561	609	617

[1] Data as at 30 September each year except December data which is at 31 December.
n/a = not available. This is due to December being a mini census and collecting consultants only.
The number of whole-time equivalent consultants has increased by 192, or 45 per cent. between September 1999 and December 2003.
Source:
Department of Health medical and dental workforce census.

NHS Trusts

Mr. Burstow: To ask the Secretary of State for Health how many NHS trusts in England have equipment libraries. [167426]

Mr. Hutton: This information is not held centrally.

Nightingale Wards

Mr. Yeo: To ask the Secretary of State for Health if he will list NHS trusts which have yet fully to eliminate Nightingale wards. [166655]

Mr. Hutton: In line with "Shifting the Balance" of Power and initiatives to reduce bureaucracy for the national health service, data collections under estates return information collection take place annually. Information for March 2004 is currently being collected and I will write to the hon. Member when the analysis is complete.

Occupational Health

Mr. Burstow: To ask the Secretary of State for Health what his Department's policy is on encouraging businesses to invest in occupational health services; and if he will make a statement. [167410]

Ms Rosie Winterton: With over 33 million working days lost each year, the Department's policy, together with that of other Departments, in particular, the Department of Work and Pensions (DWP), the Health and Safety Commission/Executive (HSC/E) and the Department of Trade and Industry (DTI), is extremely supportive of all businesses which invest in occupational health services to improve the health of their employees. For example, in 1999, the Department launched the healthy workplace initiative to promote health in the workplace; and, in November 2001, a new occupational health service, called NHS Plus, a network of 106 national health service occupational health departments which sell a range of occupational health services to small and medium sized enterprises across England.

In addition, the Department fully endorses the cross government commitments to both reducing ill health caused by work and to help people access work espoused in the new HSC/E's "Strategy for Health and Safety 2010 and beyond". The Department also supports other Government Departments' initiatives, which encourage businesses to develop occupational health services, such as the DTI's "Partnership at Work" scheme.

Patient Records

Mr. Lansley: To ask the Secretary of State for Health what proportion of patients have online secure access to their electronic patient records. [167702]

Mr. Hutton: Currently, no patients have online or electronic access to their medical records.

This functionality is planned as part of the national health service care records service that will begin to be rolled out from summer 2004, with phased implementation up to 2010.

The Department is exploring different ways that patients can access their own records through the "HealthSpace" project, which is supported by NHS Direct Online. In future, the intention is to provide "HealthSpace" as the gateway through which users can access a summary of their NHS care record when it becomes available electronically. The facilities in "HealthSpace" required to do this will build over time,

with full implementation expected by the end of 2008. The secure authentication, access and review of any electronic patient records is of paramount concern and will be both proven and robust before any system can go live.

Potassium Chloride Solution

Mr. Burstow: To ask the Secretary of State for Health what measures his Department is taking to persuade manufacturers of potassium chloride solution to redesign packaging to avoid adverse incidents in hospital; and if he will make a statement. [167406]

Mr. Hutton: The National Patient Safety Agency has worked with practitioners, the Medicines and Healthcare products Regulatory Agency (MHRA) and the pharmaceutical industry to agree new labelling standards for strong potassium chloride solutions requiring a distinctive red 'K' on these products, with suitable warnings.

Labelling standards have also been agreed for potassium chloride infusion products to help distinguish them from infusions that do not contain potassium.

The National Health Service Purchasing and Supply Agency has already written to all current contracted suppliers of medicinal products to say that it will, in future, award contracts to reflect the application of MHRA guidance on labelling of products, including potassium chloride solutions.

Pressure Ulcers

Mr. Burstow: To ask the Secretary of State for Health what action his Department is taking to cut the cost of pressure ulcers in the NHS. [167404]

Dr. Ladyman: A pressure ulcer risk assessment and prevention guideline was published by the National Institute for Clinical Excellence (NICE) in April 2001. An updated version of the guideline was published on 22 October 2003. The guideline outlines best practice for health professionals caring for individuals who are vulnerable to or at risk of developing pressure ulcers.

A wound care package of guidelines is also currently being developed by NICE, which will include a guideline on pressure ulcer treatment.

Short Notice Appointments Guidance

Mr. Lansley: To ask the Secretary of State for Health which NHS trusts do not follow Department of Health guidance on short notice appointments; and what action he plans to take. [167709]

Mr. Hutton: We expect all national health service organisations to comply with waiting times guidance on reasonable offers of an appointment or an offer of admission, issued in dataset change notice 07/2003, February 2003. As part of its recent spot-check exercise, the Audit Commission found a small number of trusts were not fully complying with this guidance. Issues identified by the spot-checks will be addressed in action plans agreed between local auditors and trusts.

Stationery

Mrs. Calton: To ask the Secretary of State for Health on (1) what date his Department expects to implement in full the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste; and what measures he has put in place to ensure that the targets are met; [165446]

(2) what percentage of paper for printed publications used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [165447]

Ms Rosie Winterton: The Department procures all its printing needs, including the provision of paper, from its supplier roster. All of these providers are aware of the Government commitment to supply publications on recycled paper and the Department makes the supplier selection based on the most cost-effective quotation—as such the actual brand of recycled and environmentally friendly paper and its specifications is left to the printer. Therefore the Department is unable to make a detailed statement on the information requested.

The Department's standard copying paper is 100 per cent. recycled, using 80 per cent., post consumer waste. This exceeds the Quick Wins target of a minimum of 75 per cent., post consumer waste.

Timber

Ms Walley: To ask the Secretary of State for Health whether his Department plans to contribute financially to the establishment of the second phase of the Central Point of Expertise on Timber. [167631]

Mr. Hutton: The Department welcomes the establishment of the central point of expertise on timber (CPET), and believes it will be a spur for widening the demand for legal and sustainable timber. Tenders for operating the first phase of CPET have been received by the Department for Environment, Food and Rural Affairs and a contract should be in place before the end of May. Improved guidance, including advice on certification schemes, should be available by the end of August.

Waiting Lists

Mr. Todd: To ask the Secretary of State for Health what recent analysis has been carried out of waiting times for child and adolescent psychology services; and if he will make a statement. [168666]

Dr. Ladyman: Information is not collected in the format requested. Children and young people receive treatment for mental health problems in a wide range of health care settings. We are aware that in some areas, and in some specialities, waiting times for child and adolescent mental health services (CAMHS) are unacceptably long. The development of CAMHS is one of our priorities. In the three years to March 2006 we will be investing an additional £300 million in CAMHS, which will help reduce waiting times.

In 2004–05, we are allocating a total of £67 million to local authorities for CAMHS and £20 million to primary care trusts (PCTs) to further develop CAMHS. Derbyshire county council will receive £521,000 and the Derby Dales and south Derbyshire PCT will receive £27,000.

HOME DEPARTMENT

NHS (African Workers)

Hugh Bayley: To ask the Secretary of State for the Home Department what the maximum period of time is that nationals of sub-Saharan African countries are permitted to work in the NHS. [164761]

Mr. Browne: Immigration regulations do not place an upper limit on the amount of time that a non-EEA national may work in the NHS, provided relevant requirements of the Immigration Rules are met. NHS employers who wish to employ any non-EEA nationals in the UK may apply for a work permit for a maximum period of five years. A non-EEA national that completes four years in continuous work permit employment may qualify for indefinite leave to remain in the UK.

Afghan Asylum Seekers

Mr. Malins: To ask the Secretary of State for the Home Department whether it is his policy to remove failed Afghan asylum seekers; and if he will make a statement. [161620]

Mr. Browne *[holding answer 15 March 2004]:* The Home Office determines asylum and human rights applications from Afghan nationals on their individual merits according to the UK's obligations under the terms of the 1951 Convention relating to the Status of Refugees and the European Convention on Human Rights.

If an application is refused, there is a right of appeal to the independent appellate authorities against that decision. Should a claim be refused and any appeal be unsuccessful that means that, for that individual, return to Afghanistan would be safe. We consider it reasonable to expect an individual in that position to return to Afghanistan.

The Government's preferred option for repatriating Afghan asylum applicants whose asylum claims have been rejected and appeal rights exhausted is assisted voluntary return, in line with the Tripartite Memorandum of Understanding on Voluntary Return between the UK, the United Nations High Commissioner for Refugees (UNHCR) and the Afghan Transitional Administration. There are two voluntary return programmes operated by the International Organisation for Migration (IOM) which are available to Afghans wishing to return to Afghanistan. The Return to Afghanistan Programme (RAP) offers financial assistance of £600 for individuals and up to £2,500 for families in addition to a flight and the offer of a training and employment package in Afghanistan. The Voluntary Assisted Return and Reintegration Programme (VARRP) is the UK's generic voluntary returns programme which is also open to Afghans. VARRP provides a flight for returnees and in kind reintegration assistance in the country of origin. This may include help to access initial housing, employment, education or health services. IOM can also provide assistance in setting up a small business.

The Explore and Prepare Programme for Afghanistan was launched on 28 October 2003. This programme allows Afghans with status in the UK to return to Afghanistan to explore the possibility of making a permanent return without affecting their immigration status in the UK.

On 28 April 2003 in line with our stated intentions and as agreed with the Afghan authorities we commenced enforced returns to Afghanistan. We are returning those not found to be in need of international protection or granted any other form of leave to remain who do not depart voluntarily. Those individuals or groups identified as vulnerable are excluded from the programme of enforced returns.

Asylum/Immigration

Mr. Lansley: To ask the Secretary of State for the Home Department what *(a)* targets and *(b)* performance indicators he has set for the time taken to process fast track applications for asylum in respect of claimants accommodated at the Oakington Reception Centre; and what the performance against them was in 2003. [161030]

Mr. Browne *[holding answer 12 March 2004]:* Details of Home Office targets are given in the Spending Review 2002 Public Service Agreement Technical Notes, a copy of which is available from the Library of the House. The targets relate to financial years. There is no specific target for the speed of processing cases dealt with via the Oakington process.

The overall target for new substantive asylum applications received in 2003–04 is to ensure that 75 per cent. are decided and served within two months and we are on track to exceed the target. 80 per cent.[1,2] of applications received in the period April to

[1] *Source:*
A-CID database as at 30 January 2004.

September 2003 had initial decisions reached and served within two months[3].

There is a target for the fast turnaround of non-suspensive appeal (NSA) cases where the claimant is detained throughout the process, most of which are decided at Oakington. For 2003–04 this is to process 60 per cent. of new, detained, non-suspensive appeal cases within 14 days.

It is planned that performance against PSA targets relating to 2003–04 will be published in due course (once the data are judged sufficiently reliable) in the regular quarterly asylum statistics, a copy of which is available in the Library of the House and from theHome Office's Research Development and Statistics web site:
http://www.homeoffice.gov.uk/rds/immigration1.html

[2] excludes withdrawals and 3rd country cases which may be the responsibility of other EU member states under the Dublin Convention. Home Office's Public Service Agreement target for 2001–02 was 60 per cent. and for 2002–03 was 65 per cent.. The target for 2003–04 is 75 per cent.. Excludes asylum applications lodged by Iraqis between 1 February and 31 May 2003.

[3] "Two months" is defined as 61 days; "Four months" is defined as 122 days; "Six months" is defined as 182 days.

Mr. Malins: To ask the Secretary of State for the Home Department pursuant to his answer of 2 March, *Official Report*, column 896W, on asylum and immigration, if he will publish the terms of bilateral and Community readmission agreements as to the process and evidence required for the re-documentation of returning nationals in respect of each of the countries to which the Answer refers. [161159]

Mr. Browne: The UK's readmission agreements with Albania and Romania have been laid before Parliament. The Command Papers will be available on the Foreign and Commonwealth Office web site, upon completion of the ratification process. Both agreements provide that identity and citizenship or right of abode of a person is to be proved, or may be reasonably presumed through a number of valid documents specified in the agreements, or any other evidence acceptable to both Parties. The agreements set out how the request and response for readmission should be made, together with the timescales for the procedure.

The readmission agreements between the European Community and Sri Lanka and Albania have now been concluded. Those with Algeria, China, Pakistan, Russia and Ukraine have not been concluded. The ratification process for the agreement with Sri Lanka is advanced and the process for Albania has just commenced with the issue of Council Decisions to sign and conclude the agreement. Both documents have been deposited with the Parliamentary Scrutiny Committees and will be published following ratification, in the *Official Journal* of the European Community.

Jeremy Corbyn: To ask the Secretary of State for the Home Department how many unsuccessful asylum applicants have been returned to *(a)* Somalia and *(b)* Somaliland in the past year; and what monitoring of the safety of the situation there he has undertaken. [153946]

Mr. Browne: Although Somaliland declared its independence from the rest of Somalia in 1991, it is not recognised internationally and asylum applicants received from those originating from that part of Somalia are not recorded separately.

Estimates of the number of Somali nationals who had sought asylum at some stage and who were removed from the UK in the period July 2002 to June 2003 (the latest available figures) are shown in the table. Information on the destination of these removals is not available. These figures include persons departing 'voluntarily' after the initiation of enforcement action against them, and persons leaving under Assisted

Removals and voluntary[1] departures of principal asylum applicants (excluding dependants)—June 2002 to June 2003[2,3,4]

Month/Year	*Number of Departures*
July 2002	5
August 2002	*
September 2002	5
October-2002	5
November 2002	5
December 2002	5
January 2003	*
February 2003	5
March 2003	*
April 2003	*
May 2003	5
June 2003	5
Total	45

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under Assisted voluntary return programmes run by the International Organisation for Migration, and removals on safe third country grounds.

[2] Figures rounded to the nearest five with * denoting one or two and may not sum to total due to rounding.

[3] Data have been estimated due to data quality issues.

[4] Provisional figures.

All asylum (and human rights) claims made by Somalis are considered on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Should a claim be refused and any appeal before the independent Immigration Appellate Authority be unsuccessful, it means that for that individual it is safe to return.

In making decisions about removing failed asylum seekers, the Home Office takes full account of up to date information from a wide range of sources about the situation in the country of origin. These sources include intergovernmental organisations (such as the UN), governmental sources (including the Foreign and Commonwealth Office) and human rights organisations (for example, Amnesty International and Human Rights Watch).

Mr. Sarwar: To ask the Secretary of State for the Home Department if he will make a statement on the number of people claiming asylum in the UK in 2004. [164972]

Mr. Browne: Information on asylum applications is published quarterly. The publication covering the first quarter of 2004 (January to March) will be available on 25 May 2004 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

In 2003, there were 49,370 asylum applications—a drop of 41 per cent. when compared to 2002 (84,130) and much more than in the rest of Europe (down 10 per cent.[1] when compared with 2002). Several recent new initiatives are continuing to impact on intake, including juxtaposed border controls, roll out of new detection technology, and the expansion of the non-suspensive appeals provisions (NSA). (In July 2003 the list of NSA countries was expanded further and now stands at 24 countries.)

The reductions in unfounded claims must be sustained—we are not looking for one-off or temporary falls in claims in any one month or year, but consistently lower numbers over the long term. However intake does also depend on world events and the important point is to reduce the number of unfounded claims to ensure that the system is not abused and those with well founded claims receive fair and fast treatment.

[1] Figures are provisional and exclude Italy.

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate he has made of the proportion of asylum seekers claiming to be Somali who are *(a)* Tanzanian and *(b)* from other nearby countries. [160207]

Mr. Browne: As with all asylum seekers, we rigorously assess those claiming to be Somali for evidence of Somali nationality. A significant proportion of Somali asylum seekers are refused asylum on grounds of disputed nationality. However, information on exactly how many Somali asylum seekers are believed to be Tanzanian or of other East African nationalities is not readily available. This could be obtained only at disproportionate cost by examination of individual case records.

Therefore we cannot definitively say what proportion of Somali asylum seekers are Tanzanian or from other nearby countries. However, operational and intelligence sources suggest that a considerable percentage of Somali asylum seekers are in fact from surrounding East African countries, including Tanzania. In particular, the introduction of language testing has provided strong evidence that many asylum seekers claiming to be Somali are of other nationalities. We are working in co-operation with the Tanzanian government to identify their nationals who have claimed asylum as Somalis.

Lembit Öpik: To ask the Secretary of State for the Home Department how many illegal immigrants were arrested by the authorities in the UK other than at points of entry into the UK in each of the last three years; and if he will make a statement. [160376]

Mr. Browne: Detailed figures are not kept nationally of the number of illegal immigrants detected in the UK other than at points of entry.

Lembit Öpik: To ask the Secretary of State for the Home Department what estimate he has made of the cost to the Government of illegal immigrants who avoid detection at points of entry into the UK in each of the last three years; and if he will make a statement. [160378]

Mr. Browne: Illegal immigrants who avoid detection at points of entry into the UK, and who do not subsequently leave the country, form part of the illegally resident population.

Official estimates of the size of the illegally resident population in the United Kingdom do not currently exist and it is therefore not possible to calculate the costs associated with this group.

Correspondence

Mr. Amess: To ask the Secretary of State for the Home Department how many letters were addressed to the Minister of State (Citizenship, Immigration and Counter-Terrorism) from right hon. and hon. Members in each month since he took office; and how many were replied to by *(a)* the Minister and *(b)* the Parliamentary Under-Secretary of State (Race Equality, Community Policy and Civil Renewal). [163121]

Mr. Browne *[holding answer 22 March 2004]:* Figures are not readily available and could be provided only at disproportionate cost.

Mr. Steinberg: To ask the Secretary of State for the Home Department when he will *(a)* reply to the three letters from the hon. Member for City of Durham regarding Abbas Mirzael ref: M1009147 and *(b)* return the fee and application form TD 112 requested on 18 November 2003. [165502]

Mr. Browne *[holding answer 19 April 2004]:* Officials replied to my hon. Friend's letters of 18 November 2003 and 6 February on 2 April. I sent a further reply to my hon. Friend's letter of 9 March on 28 April.

Detention and Removal Centres

Mr. Gerrard: To ask the Secretary of State for the Home Department whether annual reports of independent monitoring boards of detention and removal centres are published. [157444]

Mr. Browne: Independent Monitoring Board annual reports are not published documents. They are made to the Secretary of State who permits the Board to publish their report if they wish, subject to allowing a period of notice to elapse before publication and the removal of any information which is confidential. Boards are, however, encouraged to publish their reports and the Chairs have indicated that most of the Boards intend to do so this year.

Mr. Gerrard: To ask the Secretary of State for the Home Department what procedures are in place for the investigation of allegations of assault made by immigration and asylum detainees against *(a)* members of staff of removal and detention centres, *(b)* escorts and *(c)* other detainees. [157448]

Mr. Browne: Rule 48 of the Detention Centre Rules 2001 provides for any complaint made against any member of staff at the removal centre to be investigated promptly by the contract monitor. If the complaint is against a member of the Immigration Service an investigation would be undertaken by the IS Complaints Unit. In all cases where a detainee alleges assault they would be asked if they wished to contact the police.

Where an allegation of assault is made against the escort this is referred to the police as the appropriate investigating authority. On completion of any police action, the allegation will also be investigated under the Immigration Service's internal complaints procedures with the relevant contract monitor conducting the investigation.

Allegations of assaults by one detainee on another detainee are always reported to the police for action.

Eastern European Arrivals

Mr. Malins: To ask the Secretary of State for the Home Department if he will list the requirements imposed on Eastern Europeans seeking to enter or remain in the United Kingdom pursuant to *(a)* European Community Association agreements and *(b)* the BRACE policy. [161619]

Mr. Browne *[holding answer 15 March 2004]:* The requirements for entry are set out in the Immigration Rules at Paragraphs 211–216. The requirements to extend stay are set out at Paragraphs 217–221 and the

requirements for settlement are set out at Paragraphs 222–223. The current Immigration Rules are HC 395 (as amended).

I would refer the hon. Member to the Written Ministerial Statement my predecessor, my right hon. Friend, the member for Stretford and Urmston (Beverley Hughes) made on the 12 March.

EU Accession Countries

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his oral statement to the House of 23 February 2004, *Official Report*, column 24, in what circumstances EU citizens will be considered unable to support themselves; who will make this assessment; and what right of appeal there will be. [160212]

Mr. Browne: Under EC law, the right of residence of certain categories of EU nationals (students, retired persons, and persons not falling within other categories under the EC residence directives) in a member state other than their member state of origin is dependent on their being able to support themselves. Where it is determined, on the facts and in accordance with the principles laid down in ECJ case-law, that persons in these categories are no longer able to support themselves they may be removed under the Immigration (European Economic Area) Regulations 2000 (S.I. 2000/2326). Such decisions will be subject to appeal by an adjudicator in the first instance.

In respect of nationals of Accession states (excluding Cyprus and Malta) who come to the UK to work, their right of residence here will also be subject to satisfying the self-sufficiency test while they are not working. Again, if they do not satisfy this test they will be removable under the 2000 Regulations. The draft Accession (Immigration and Worker Registration) Regulations 2004 thus ensure that a national of an Accession State (other than Cyprus or Malta) will only be able to reside in the United Kingdom while seeking work if he or she is self-sufficient.

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his oral statement to the House of 23 February 2004, *Official Report*, column 24, what steps he intends to take to prevent EU citizens removed from the UK from returning; and at what point they will be allowed to re-enter the country. [160213]

Mr. Browne: Under European Community law, EU citizens may only be refused entry to the UK on grounds of public policy public security or public health. In order to refuse entry on public policy grounds we must be satisfied that that the person poses a genuine and serious threat to one of the fundamental interests of society. Measures taken on these grounds must be based exclusively on the personal conduct of the individual concerned.

Those people who have been deported from the UK for committing serious crimes would be prevented from returning to the UK. Such persons would not be able to return to the UK until any deportation order had been revoked.

Gangmasters

Mr. Simmonds: To ask the Secretary of State for the Home Department what steps his Department is taking to monitor the activities of gangmasters employing illegal workers. [157578]

Mr. Browne: All employers in the United Kingdom are subject to the requirements of section 8 of the Asylum and Immigration Act 1996, the law on preventing illegal working. Any employer who is found to be employing an illegal worker and acting in contravention of their legal obligations under section 8 may face the possibility of a criminal charge and prosecution.

On 16 March we announced changes, via secondary legislation, to strengthen the security of the document checks employers must carry out on prospective employees under section 8 to establish a statutory defence from prosecution.

The changes will make it easier for compliant employers to ensure that their workforce can work in the UK, and for the Immigration Service to identify and prosecute the small minority of non-compliant employers who knowingly or negligently employ illegal workers.

The United Kingdom Immigration Service (UKIS) is responsible for monitoring and tackling illegal migrant working, and conducts regular enforcement and educational visits to employers on section 8. UKIS adopts an intelligence led approach to carrying out illegal working enforcement operations relating to gangmasters, as it does to employers in other sectors.

UKIS are fully involved in regional Operation Gangmaster and more generally have invested greater effort in illegal working enforcement activity, including where agricultural labour providers are concerned.

In terms of overall illegal working enforcement activity across all commercial sectors in the United Kingdom, there were 446 UKIS operations in 2003. In the first nine months of 2003, UKIS reported carrying out 16 operations specifically aimed at farms and packhouses where labour providers were involved.

By the beginning of 2004, UKIS had significantly increased activity in this area. In the four-month period from the beginning of November 2003 to the end of February 2004 UKIS reported carrying out 18 enforcement operations at farms and packhouses where labour providers were involved. These operations led to the removal of over a 100 immigration offenders. A further 11 operations involving labour providers are also scheduled or being planned.

Earlier this month, two major investigations involving the police supported by UKIS resulted in the conviction of gangmasters for very serious criminal offences. In March, six labour providers with the company Ultimate Source were convicted at Kings Lynn Crown court of various offences in connection with the supply of illegal workers. On 16 March, the labour provider and his son were found guilty of charges including conspiracy to defraud and facilitating the entry of illegal immigrants into the UK. Both have been sentenced to seven years imprisonment.

The Government are also working closely with my hon. Friend, the Member for West Renfrewshire (Jim Sheridan) to ensure that the Gangmasters Bill will achieve its objectives and introduce a licensing scheme which we can support. The Government have suggested a number of amendments to enhance the Bill and with those changes we believe it will significantly strengthen our attempts to curb the exploitative activities of gangmasters.

NCIS

Mr. Brady: To ask the Secretary of State for the Home Department what changes have been made to the source handling capability of the National Criminal Intelligence Service; and what assessment he has made of the impact of these changes. [166591]

Caroline Flint: The National Criminal Intelligence Service (NCIS) employs a number of means to collect intelligence on the activities of serious and organised criminals. These include the running of Covert Human Intelligence Sources (CHIS).

The NCIS Service Authority has recently approved the NCIS Operating Plan for 2004–05. The plan, which is protectively marked in order to safeguard the operational effectiveness of NCIS, includes the creation of a new Business Area dedicated to CHIS handling. A key aim for this Business Area for 2004–05 is to review the structures, working practices, resource and training requirements for NCIS CHIS activity, and to align this with the national strategies for tackling serious and organised crime in order to make it more effective.

Mr. Brady: To ask the Secretary of State for the Home Department what estimate he has made of the number of police officers continuing in employment at the National Criminal Intelligence Service on *(a)* a permanent basis and *(b)* on secondment during (i) 2004–05, (ii) 2005–06 and (iii) 2006–07. [166600]

Caroline Flint: In 2004–05, the National Criminal Intelligence Service (NCIS) expects to employ around 100 seconded police officers. Detailed plans for 2005–06 have yet to be formulated, but NCIS expects the number of seconded police officers to be maintained at broadly 2004–05 levels. The Serious Organised Crime Agency (SOCA) is expected to become fully operational from 1 April 2006, at which point NCIS will cease to exist as a discrete organisation. It will be a matter for the new agency to determine how many seconded police officers it will employ, including for those functions currently performed by NCIS.

Mr. Brady: To ask the Secretary of State for the Home Department pursuant to his Statement of 29 March, *Official Report*, column 1285, of those police officers seconded to the National Criminal Intelligence Service who have been interviewed regarding the termination of their secondment, how many had completed *(a)* less than six months, *(b)* six to 12 months, *(c)* 12 to 18 months and *(d)* 18 months to two years of their secondment. [166603]

Caroline Flint: The National Criminal Intelligence Service (NCIS) interviewed all seconded police officers, with the exception of 27 who elected not to be interviewed (having decided to return to force), 14 officers seconded to other agencies under NCIS suspices (for example, in support of United Nations' effort in Kosovo), and five interviews that are outstanding. Of those interviewed, 12 had served less than six months, 23 for 6–12 months, 33 for 12–18 months, 21 for 18–24 months, and 106 for more than 24 months.

Parole

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners who are sentenced to 10 years or more have been released in each of the last 48 months. [168021]

Paul Goggins: The number of prisoners sentenced to 10 years or more who were released from prisons in England and Wales in each of the last 48 months is given in the table.

Discharges of prisoners sentenced to 10 years or more

Discharges England and Wales, April 2000-March 2004

March 2004	78

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were released on home detention curfew in each of the last 12 months. [168024]

Paul Goggins: The number of persons who were released on home detention curfew in each of the last 12 months is given in the table.

Number released on home detention curfew—England and Wales April 2003 to March 2004

	Number
April 2003	1,791
May 2003	1,740
June 2003	1,739
July 2003	2,086
August 2003	2,080
September 2003	1,747
October 2003	1,705
November 2003	1,546
December 2003	1,836
January 2004	1,487
February 2004	1,441
March 2004	1,900

Passports

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how many passports sent to applicants by mail went missing in each year since 1997; and if he will make a statement. [163203]

Mr. Browne: The information recorded in each year since 1997 is as follows:

1997—not available

1998—not available

1999—2,359

2000—3,851

2001—2,541

2002—2,982

2003—3,593.

The United Kingdom Passport Service has now addressed this continuing need to increase the security of passports delivered through the postal system by switching to use secure courier. The staged implementation of these new arrangements started on 9 February and was fully in place as of 15 March 2004.

People-trafficking

Mrs Brooke: To ask the Secretary of State for the Home Department what plans his Department has to ratify the UN Convention Against Trans National Organised Crime; what stance his Department will take on the optional protocols on *(a)* trafficking in persons and *(b)* smuggling of migrants; and if he will make a statement. [166472]

Caroline Flint: The United Kingdom was among the first countries to sign the UN Convention Against Transnational Organised Crime on 14 December 2000 and signed the Protocols against People Trafficking and Migrant Smuggling at the same time. We intend to ratify the Convention and both protocols as soon as all legislative requirements to bring our law into compliance with these instruments have been met.

Prisoners

John Mann: To ask the Secretary of State for the Home Department how many adult males given a custodial sentence by courts were assessed as requiring Category *(a)* A, *(b)* B, *(c)* C and *(d)* D security conditions in (i) England and (ii) Wales in each month since January 2003. [168205]

Paul Goggins: The original security category of adult males received under sentence into prisons as *(a)* Category A, *(b)* Category B, *(c)* Category C and *(d)* Category D prisoners in (i) England and (ii) Wales in each month since January 2003 is given in the table.

Sangatte Camp Refugees

Mr. Nigel Jones: To ask the Secretary of State for the Home Department what has been done to recognise the educational background of the 1,000 refugees from the Sangatte camp in 2003 in order to integrate them into the UK workplace. [157364]

Mr. Browne: JobCentre Plus interviewed the majority of arrivals and made an assessment of their skills, taking their reported educational attainments fully into account. Where appropriate, those who had not entered employment were offered English language training to assist them in their search for work.

Self-employed Tradesmen

Mr. Evans: To ask the Secretary of State for the Home Department what criteria are used to determine whether self-employed tradesmen who are not UK nationals may enter the UK; and in what circumstances these criteria may be waived in *(a)* part and *(b)* full. [161814]

Mr. Browne: The requirements for entry under the European Community Association Agreements (ECAA) are set out in the Immigration Rules at paragraphs 211–216. The current Immigration Rules are HC395 (as amended).

Persons already legally in the UK can "switch" into the ECAA category. In these cases the above requirements do not apply. Instead, applicants must comply with the after entry requirements set out at Paragraphs 217–221 of the Immigration Rules.

Mr. Evans: To ask the Secretary of State for the Home Department how many applications for work permits from self-employed businessmen from EU accession countries were successful in each month of the last three years, broken down by country of origin. [161815]

Mr. Browne: Work permits are not issued in respect of self-employment. The work permit arrangements are employer-driven, and applications can only be made by UK-based employers on behalf of the individual they wish to employ.

Sentence Costs

Mr. Gerrard: To ask the Secretary of State for the Home Department what the average cost of administering *(a)* a supervision order (juvenile), *(b)* an action plan order (juvenile), *(c)* a referral order (juvenile), *(d)* a reparation order (juvenile), *(e)* a parenting order (juvenile), *(f)* an intensive supervision and surveillance order (juvenile), *(g)* a probation order with accreditated programme condition, *(h)* a place in an approved hostel, *(i)* a dispersal prison, *(j)* a category B prison, *(k)* a category C prison and *(l)* an open prison was in the latest year for which figures are available. [167367]

Paul Goggins: The average estimated unit costs of the juvenile and adult orders, hostel and custodial places administered by the Youth Justice Board, National Probation Directorate and Prison Service are as follows:

Average estimated unit costs of juvenile and adult orders

Juvenile Orders	*Unit cost per order 2002 (£)*
Action Plan Order	1,513
Parenting Order	696
Intensive Supervision and Surveillance Programme (six month programme cost)	8,500
Referral Order	982
Reparation Order	1,015
Supervision Order	3,761
Adult Orders	*Unit cost per order 2004–2005 (£)*
Rehabilitation Order with Accredited Programme Condition	4,900
Adult Orders	*Unit cost per Hostel Place 2004–2005 (£)*
Approved Premises Place	30,800
Prison Service Custodial Places	*Unit cost per Custodial Place 2003–2004 (£)*
Dispersal Prison	34,930
Category B Prison	15,218
Category C Prison	18,595
Open Prison	17,015

The Youth Justice Board have commissioned PA Consulting to conduct activity sampling work on Youth Offending Teams which should provide further research data on the unit costs of juvenile orders and interventions. The activity analysis report is due to be completed later this year.

Stowaways

Lembit Öpik: To ask the Secretary of State for the Home Department how many persons concealed in vehicles were detected at border control points in the UK in each of the last three years; and if he will make a statement. [160373]

Mr. Browne: Detailed figures are not kept nationally of the number of illegal immigrants detected in the UK. However locally collated management information indicates that in the Kent area the following numbers were detected at ports of entry

	Detected at port
2001	3,061
2002	3,513
2003	1,777

Lembit Öpik: To ask the Secretary of State for the Home Department how many personnel are employed by his Department for the purpose of the detection of stowaways in vehicles at UK points of entry; and if he will make a statement. [160379]

Mr. Browne: During the month of January 2004 there were on average 116 staff engaged daily in the detection of clandestine entrants at UK ports of entry and at the juxtaposed controls.

Lembit Öpik: To ask the Secretary of State for the Home Department what the average inspection time spent per vehicle at UK border checkpoints was when checking for stowaways in each of the last five years; and if he will make a statement. [160381]

Mr. Browne: While records are kept, for vehicles travelling through Calais, Dover and Coquelles, of the number of lorries searched and the technology used, no records are routinely kept of the time taken to conduct the search. However the current average time to search a vehicle is estimated as between one and four minutes depending on the search methods.

Lembit Öpik: To ask the Secretary of State for the Home Department what estimate he has made of the average time that a stowaway has been in a vehicle prior to detection at a border control point in the UK; and if he will make a statement. [160382]

Mr. Browne: Persons who attempt to enter the United Kingdom illegally as clandestine entrants concealed in vehicles, will enter that vehicle at a variety of points in the journey. These can be close to the port of embarkation, or at the start of the journey perhaps in the country of origin.

While the UK Immigration Service systematically interviews clandestine entrants about their routes to the UK, no records are kept of the length of time a person claims to have remained in a vehicle.

The juxtaposed border controls now established in France at Calais, Dunkerque and Coquelles make detections of clandestines much earlier in the journey. This not only maintains the integrity of the United Kingdom border but also helps to prevent injury or death to persons concealed within vehicles while crossing the channel.

TITAN Database

Mr. Brady: To ask the Secretary of State for the Home Department what estimates he has made of the *(a)* annual and *(b)* daily cost of installing, operating and maintaining the TITAN database currently being used by the National Criminal Intelligence Service. [166597]

Caroline Flint: Titan, the supplier of the Elementary system, is contracted to provide hardware, software and associated technical support at a cost of £1.75 million in 2004–05 (equivalent to a daily cost of £4,800).

Based on user numbers, the operating costs for the system are expected to amount to £935,000 in 2004–05 (equivalent to a daily cost of £2,560).

Mr. Brady: To ask the Secretary of State for the Home Department what assessment he has made of the operational effectiveness of the TITAN database being used by the National Criminal Intelligence Service. [166598]

Caroline Flint: In January 2004, the Elementary system (which is being supplied by the Titan company) successfully passed the Office of Government Commence Gateway 4 (Readiness for Service) Review and is currently being implemented in the National Criminal Intelligence Service (NCIS). NCIS is currently running the old system, Alert, in parallel with Elementary as part of the final phase of implementation of the new system, to deal with issues that naturally arise when a system is taken into full operational use. This includes carrying out regular appraisals and performance reviews to ensure that the system delivers the expected benefits and the service performance that NCIS requires for operational effectiveness. As part of the overall assessment and evaluation strategy, a Gateway 5 Review (Benefits Evaluation) and a Post Implementation Review are also planned.

Visas

Mr. Godsiff: To ask the Secretary of State for Foreign and Commonwealth Affairs how many nationals of each country from which a visa is required applied for entry clearance to come to the United Kingdom for temporary purposes, including visitor and student applications in 2002; how many visas were issued for temporary purposes; how many recipients of these visas returned to their country of nationality before the visas expired; and how many applied *(a)* to remain permanently in the United Kingdom and *(b)* for political asylum. [162160]

Mr. Browne: I have been asked to reply.

The available information is given in the tables, which will be available in the Library.

Entry clearance data are available by country of application, which is not necessarily the country of the applicant's nationality.

The information on grants of settlement includes persons who entered the United Kingdom with an entry clearance leading to settlement, as well as some asylum seekers granted leave to remain in 2002 and in previous years; and the data on asylum applications is likely to include some persons who held no entry clearance.

No data are available on the number of persons who return to their country of nationality before their leave to enter or remain in the United Kingdom expires, or on the number of holders of visas for temporary purposes who apply for asylum or for settlement.

Information on entry clearance, settlement and asylum applications are published in the quarterly asylum statistics and the annual Command Paper Control of Immigration Statistics 2002. Copies are available from the Library and from the Home Office Research Development and Statistics Directorate web site at: http://www.homeoffice.gov.uk/rds/immigration1.html

Work Permits

Mr. Hoyle: To ask the Secretary of State for the Home Department how many applications for work permits are awaiting decision. [157113]

Mr. Browne: Information on the number of cases outstanding in Work Permits (UK) is not available. In 2003, performance in Work Permits (UK) was that 95 per cent. of all completed applications were turned around within 24 hours.

TREASURY

Debt

Harry Cohen: To ask the Chancellor of the Exchequer what his estimate is of the impact of a 1 per cent. rise in world interest rates on the debt of the world's poorest countries; how the extra debt burden would be met; and if he will make a statement. [169147]

John Healey: The bulk of the debt of the world's poorest countries is contracted at fixed interest rates on concessional terms. For example, concessional loans from the World Bank and African Development Bank carry a service charge of three quarters of 1 per cent. This would mitigate any rise in world interest rates.

Nevertheless, the potential for a rise in interest highlights the importance of full implementation of the Heavily Indebted Poor Countries Initiative, both through postponing or abolishing the HIPC sunset clause to ensure that all eligible countries are able to benefit from debt relief, and through providing additional topping up relief wherever external factors—such as a change in the interest environment—have weakened a country's ability to service its debt, as was the case with Niger and Ethiopia recently.

This is why the International Finance Facility is so important. Ensuring long-term debt sustainability will require donor countries to make available significant additional resources in the form of grants rather than loans. IFF resources could also be used to provide further debt relief.

Harry Cohen: To ask the Chancellor of the Exchequer what his policy is towards whether a country's debt burden accumulated under a brutal dictator should be written off; what representations he will make at forthcoming international financial fora meetings on this issue; and if he will make a statement. [169143]

John Healey: The Heavily Indebted Poor Countries (HIPC) Initiative is helping to provide a robust exit from unsustainable debt for the world's poorest countries, regardless of how that debt is accumulated. As part of this, the UK is calling for full topping-up to be provided when countries face exogenous shocks, in order to bring their debt ratios back to the agreed HIPC thresholds. The UK also supports consideration of extension of the Initiative so that countries yet to enter it are able to benefit from HIPC debt relief. A number of countries—many of which are in the process of trying to exit conflict have yet to reach Decision Point and benefit from HIPC debt relief. This could deliver an extra US$30 billion in debt relief. HIPC debt relief is delivered through the Paris Club of official creditors.

For countries facing external financing difficulties, but who are not eligible for the HIPC Initiative, the Paris Club's Evian Approach was adopted in October 2003 with the aim of tailoring solutions to each debtor's specific circumstances. Iraq is likely to be one of the first countries to benefit from a comprehensive debt treatment under the Evian Approach.

Aviation Industry Tax Regime

Mr. Best: To ask the Chancellor of the Exchequer what recent discussions he has had with *(a)* the EU and *(b)* other international partners on reducing or eliminating tax concessions received by the aviation industry; and if he will make a statement. [168776]

John Healey: The Government have on-going discussion with the European Commission, other EU member states and with international bodies, such as the International Civil Aviation Organisation (ICAO), on the tax treatment of aviation and more generally on the most effective way of reducing the environmental impact of aviation.

The Government remain committed to applying the 'polluter pays' principle to civil aviation to reduce its environmental impact. Specific initiatives are set out in the Future of Air Transport White Paper published on 16 December 2003, including the aim of aviation being part of the EU Emissions Trading Scheme from 2008. The Government have been pursuing this with the European Commission and EU member states. At the meeting of ICAO's Committee on Aviation Environmental Protection in February 2004 the UK supported the use of economic instruments such as emissions trading to tackle the climate change impact of aviation. In this year's Budget we announced that we will discuss with the European Commission options for introducing greater flexibility in European legislation regarding the application of economic instruments to aviation.

Business Taxation

Malcolm Bruce: To ask the Chancellor of the Exchequer if he will list the business-related taxes introduced in each year since 1990, stating the revenue raised by each annually. [169164]

Dawn Primarolo: Changes to taxation are set out in successive Financial Statement and Budget Reports, alongside estimates of the effects on government revenues anticipated at the time of their introduction. Given the difficulties in defining the incidence of tax changes, and the fact that tax measures interact and have complex behavioural and economic effects, it is not generally possible to separately identify the revenue implications of past tax changes for current levels of revenues.

Strategic Rail Authority

John Thurso: To ask the Chancellor of the Exchequer if he will list the occasions since December 2001 on which he met the Chairman of the Strategic Rail Authority. [163123]

Mr. Boateng: Treasury Ministers and officials have meetings with a wide range of organisations and individuals as part of the process of policy development and analysis. As was the case with previous administrations, it is not the Government's practice to provide details of all such meetings, as provided for under Exemption *7(b)* of the Code of Practice on

Access to Government Information. Treasury meetings are conducted in accordance with the Ministerial Code and the Civil Service Code, as appropriate.

Tax Credits

Mr. Hendrick: To ask the Chancellor of the Exchequer (1) how many families in Preston have received child tax credit; [169681]

(2) how many families in Wigan have received child tax credit. [169356]

Dawn Primarolo: I refer my hon. Friends to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

NORTHERN IRELAND

Peace Process

5. **Mr. Carmichael:** To ask the Secretary of State for Northern Ireland if he will make a statement on the peace process. [167664]

Mr. Paul Murphy: It remains our objective to secure the restoration of devolved government in Northern Ireland on a stable and secure footing. However, as we have repeatedly made clear, all paramilitary activity must come to an end if we are to move forward. We will be talking to the parties in the coming weeks, including in the review of the operation of the agreement, about how this can be achieved.

Special Needs Education

6. **Rev. Martin Smyth:** To ask the Secretary of State for Northern Ireland if he will make a statement on funding for education of children with special needs in Northern Ireland. [167665]

Mr. Gardiner: In 2002–03 around £125 million was expended in Northern Ireland for provision for children with special educational needs. In particular,

some £103 million was expended by the Education and Library Boards for special schools and to meet the additional costs of statemented pupils in mainstream schools and units;

some £14 million for special educational needs was distributed directly to schools; and another £8 million supported the implementation of the SEN Code of Practice.

Smuggling

7. **Helen Jackson:** To ask the Secretary of State for Northern Ireland what action he plans to take to reduce *(a)* smuggling and *(b)* other illegal activities in border areas. [167666]

Mr. Pearson: Whilst cross-border co-operation between law enforcement agencies is already excellent, the Government are fully committed to working with the Government in the Irish Republic to develop a cohesive strategy and structure to maximise our effectiveness against those organised criminals who exploit the border.

In September 2004, it is planned that the two Governments will launch a cross-border organised crime threat assessment and joint strategy for tackling cross-border organised crime.

Antisocial Behaviour

8. **John Robertson:** To ask the Secretary of State for Northern Ireland what steps he is taking to tackle antisocial behaviour in Northern Ireland. [167667]

Mr. Spellar: The Government have undertaken a public consultation on measures to tackle antisocial behaviour. This closed on 1 April and we will bring forward legislation. A draft Order in Council is currently being drawn up.

Economy

9. **Mr. Ben Chapman:** To ask the Secretary of State for Northern Ireland if he will make a statement on the economy in Northern Ireland. [167668]

Mr. Gardiner: The Northern Ireland economy has performed well in recent years as demonstrated by the performance of the labour market. The latest employee jobs figures indicate there are now 672,150 employees in employment, the highest figure on record. The current unemployment rate of 5.2 per cent. compares well to the EU average of 8.0 per cent. There has also been significant progress in terms of manufacturing productivity, which increased by 9.5 per cent. over the last year, and manufacturing output also experienced an increase over the same period (2.2 per cent.).

Despite the good recent economic performance Government recognise the need for the Northern Ireland economy to become more competitive in the global market place and is committed to creating a more innovative and entrepreneurial economy.

Crime

10. **Helen Jones:** To ask the Secretary of State for Northern Ireland what progress has been made in tackling organised crime in Northern Ireland. [167669]

Mr. Pearson: The partner agencies of the Organised Crime Task Force continue to have considerable success against organised criminal gangs in Northern Ireland. I pay tribute to the commitment and effectiveness of the PSNI, Her Majesty's Customs and Excise and the Assets Recovery Agency in tackling this problem.

Innovation and Enterprise

11. **Mr. Luke:** To ask the Secretary of State for Northern Ireland if he will make a statement on the contribution of higher education to innovation and enterprise in Northern Ireland. [167670]

Mr. Gardiner: The higher education sector makes a vital contribution to a knowledge based, enterprise driven and innovation led economy. A range of initiatives promote enterprise and entrepreneurship including the Northern Ireland Centre for Entrepreneurship which enhances skills of graduates through a series of modules and master classes for both staff and students.

Economic Regeneration (North-West)

12. **Mr. Hume:** To ask the Secretary of State for Northern Ireland what the Government's plans are for the economic regeneration of the north-west of Northern Ireland. [167671]

Mr. Pearson: The Government have been very active in planning for the regeneration of the North West.

Invest NI has developed an Action Plan for the North West. The aim of this plan is to implement a series of strategic and operational actions to address the weaknesses and vulnerability of the North West. The plan focuses on addressing issues which are constraining business growth/performance and which are within the scope of Invest NI's remit.

The NITB's Strategic Framework for Action will drive the tourism agenda for the next three years and will provide a focus and impetus to the growth and delivery of tourism to all areas of Northern Ireland, including the North West. The framework identifies the "Walled City of Derry" as one of the five signature projects.

The Ilex Urban Regeneration Company is taking the lead in building an agreed way forward for the wider economic, social and physical regeneration of the area. This will include the development of a master plan that will form the framework for the company's future work.

Ilex recently submitted an interim bid to the Integrated Development Fund, setting out an initial list of projects for consideration. This information is being urgently examined with a view to confirming as soon as possible those projects that should be fully worked up for final consideration.

Security (Older People)

13. **Mr. Bailey:** To as the Secretary of State for Northern Ireland, if he will make a statement on measures to improve the security of older people in Northern Ireland. [167672]

Mr. Spellar: The personal safety of older people is a central issue within Government's Community Safety strategy. The Lock Out Crime Programme will install home security measures in 10,000 persons' households over the next three years.

I also intend to bring forward a Community Safety Strategy for Older People for consultation near future.

Provisional IRA

14. **David Burnside:** To ask the Secretary of State for Northern Ireland if he will make a statement on criminal activities by the Provisional IRA in *(a)* Northern Ireland, *(b)* the Republic of Ireland and *(c)* internationally in the last 12 months. [167673]

Mr. Pearson: The Independent Monitoring Commission's first report, published on 20 April, provided a clear assessment of the criminal activities of the Provisional IRA. The Organised Crime Task Force has also undertaken detailed analysis and its appraisal is that the Provisional IRA is engaged in serious and organised crime, including large-scale smuggling and counterfeiting operations. There is no question that Northern Ireland based organised criminals engage in activities outside Northern Ireland.

The political process cannot flourish while the threat of paramilitarism persists and I call on all groups to end paramilitary and criminal activity.

Political Situation

15. **Mr. Dodds:** To ask the Secretary of Northern Ireland if he will make a statement on the political situation in Northern Ireland. [167674]

Mr. Paul Murphy: I refer the hon. Gentleman to the answer I gave earlier to the hon. Member for Orkney and Shetland (Mr. Carmichael) at column 1115W.

A26

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what plans he has to dual the A26 between Ballymoney and Coleraine; and what assessment he has made of recent figures on relevant traffic volumes. [168299]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Mr. Gregory Campbell, dated 26 April 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about what plans he has to dual the A26 between Ballymoney and Coleraine; and what assessment he has made of recent figures on relevant traffic volumes. I have been asked to reply as these issues fall within my responsibility as Chief Executive of Roads Service.

Roads Service currently has no plans to dual the A26 between Ballymoney and Coleraine. Information available from the Department for Transport in Great Britain concludes that a single carriageway trunk road will operate satisfactorily with traffic flows of up to 18,000 vehicles per day (vpd), with a maximum flow capacity of approximately 22,000 vpd. You will be aware from my letter dated 5 April 2004, in response to your recent Parliamentary Question that traffic volumes for the A26 Ballymoney By-pass and the A26 Ballymoney to Coleraine fall below the 18,000 threshold.

You will recall that during the preparation of the Major Works 10-Year Forward Planning Schedule (FPS), Roads Service wrote to all MPs, MEPs, MLAs and Councils, in October 2001, enclosing a list of road schemes that Roads Service intended to appraise for possible inclusion in the schedule. Priority was to be given to the Key Transport Corridors. Public representatives were asked to identiiy and justify any further schemes that they felt should be included in the list for appraisal.

A scheme to dual the A26 from Glarryford to its A44 Ballycastle junction was included in the list however no reference was made to the dualling of the section between Ballymoney and Coleraine and no submissions in support of this scheme were received during this consultation exercise. Coleraine Borough Council did submit a request for the provision of additional overtaking opportunities on the A26 between the A44 Ballycastle junction and Coleraine and a scheme to provide these at three locations on the A26 between the junction with A44 and Ballymoney is included in the Emerging Regional Strategic Transport Network Transport Plan.

I would reiterate the importance that Roads Service attaches to the A26 route, having designated it as a Key Transport Corridor within the Regional Development Strategy. Approximately £1.2 million has been spent over the past three years on the A26 between the A44 Ballycastle junction and Coleraine, introducing safety features including differential acceleration lanes, climbing lanes, speed limits, improved road markings and junction improvements. You will appreciate however, that public resources available for the roads programme are limited and that improvements must therefore be prioritised to ensure optimum value for money. Funding is finite and the number of worthwhile schemes competing for inclusion in the roads programme far exceeds the resources available to Roads Service for major schemes. It is, therefore, essential that we target the funding available on the most beneficial schemes for the country as a whole.

Unfortunately, there are many major schemes with higher priority than the dualling of the A26 from Ballymoney to Coleraine, and it is anticipated that future improvements in the medium term are likely to include the provision of further overtaking opportunity schemes, such as climbing lanes or widened carriageway (2 + 1) schemes.

I hope this information is helpful.

Animal Cruelty

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what plans he has to review the sentences available to the courts in Northern Ireland when dealing with those convicted of cruelty to animals. [168294]

Mr. Pearson: In Northern Ireland the main provisions relating to animal welfare and cruelty to animals are contained in the Welfare of Animals (NI) Act 1972. The powers available and the penalties provided for in that Act are broadly in line with those contained in GB animal welfare legislation. The maximum penalty is a fine not exceeding £5,000 or a term of imprisonment not exceeding three months, or both.

A review of animal welfare legislation is currently being undertaken in Great Britain.

If this review results in increased penalties for cruelty to animal offences, the Department of Agriculture and Rural Development will wish to bring the relevant provisions in Northern Ireland into line with whatever new standards may be adopted in Great Britain.

Lady Hermon: To ask the Secretary of State for Northern Ireland what plans he has to amend animal welfare legislation to introduce higher maximum sentences for those convicted of ill-treatment of an animal in Northern Ireland. [168713]

Mr. Pearson: I refer the hon. Lady to the answer I gave today to the hon. Member for East Londonderry (Mr. Gregory Campbell) (Question Reference 168294).

Anti-TNFs

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland whether the Department of Health, Social Services and Public Safety plans to give anti-TNFs to all patients for whom they are considered appropriate; and if he will make a statement. [168631]

Angela Smith: The degree to which the health and social care system can respond to presenting needs is limited by the level of resources available. However the Department remains committed to the introduction of specialist drugs, such as anti-TNFs, where they will clearly result in a significant improvement in patient care. It has consequently made provision to allow 100 addition patients to receive anti-TNF drugs during 2004–05.

Autism

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many staff are employed in mainstream schools in Northern Ireland specifically to assist with the needs of children with autistic spectrum disorders. [167717]

Mr. Gardiner: I have been advised that the total number of staff employed in mainstream schools in Northern Ireland specifically to assist with the needs of children with autistic spectrum disorders is 596. A detailed breakdown across the school sectors in each Education and Library Board area is set out as follows.

Staff employed in mainstream schools in support of children for whom ASD is a special educational need

	Controlled and maintained	*GMI*	*VGS*
BELB	[1]79	4	5
NEELB	[2]69	9	4
SEELB	[3]130	25	6
SELB	[4]153	19	4
WELB	74	10	5
Total	505	67	24

[1] In addition the BELB has an ASD Advisory Support Service to mainstream schools and also pre-school which includes home visits for very young children. Currently there are two and a half teachers and five classroom assistants employed giving additional support to identified pupils and school staff.

[2] In addition to the 69 classroom assistants the NEELB has advised that following additional funding from the Department, the board has now a newly appointed ASD team working in support of children with autism. The team consists of a Senior Educational Psychologist and two Assistant Advisory Officers.

[3] The SEELB has advised that the 130 staff comprises 126 classroom assistants and four peripatetic teachers.

[4] Within Learning Support Centres in mainstream schools the SELB advises that there are further staff employed to work with pupils with a variety of special educational needs: while they may not work on a one to one basis with pupils with ASD, they may be providing a degree of support to them. The board also has an Autism Intervention Team which provides specific support on a board wide basis.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) what training is provided routinely to parents following the diagnosis of autistic spectrum disorders in children; [167721]

(2) what steps he is taking to assist parents in dealing with behavioural challenges that arise in caring for children and young adults with autistic spectrum disorders; and if he will make a statement. [167727]

Angela Smith: The Department for Health, Social Services and Public Safety (DHSSPS) provides funding for PAPA (Parents and Professionals and Autism), which provides training and support for parents.

DHSSPS's Priorities for Action 2004–05 requires Boards and Trusts to enhance diagnostic, assessment and early intervention services for children with autism. An additional £0.5 million has been allocated to Boards for this purpose. The enhanced service will provide additional support for parents following initial diagnosis.

In addition, Health and Social Services Boards provide a range of training and support for parents, following the diagnosis of autistic spectrum disorders in children, through a number of specialist services, including those provided by voluntary organisations.

Bombings (Dublin and Monaghan)

Adam Price: To ask the Secretary of State for Northern Ireland if he will hold a public inquiry into the extent of British security service involvement in the Dublin and Monaghan bombings of 1974. [169130]

Mr. Paul Murphy: The Government have always condemned the bombings in Dublin and Monaghan, and offers its sympathy to the families of the victims, whose pain still continues today. The Government have noted the report by the Justice Committee of the Oireachtas (Irish Parliament), following Mr. Justice Barron's investigation. We understand that the Dail and the Seanad will now debate the Committee's report and the Oireachtas will then make recommendations to the Irish Government. The British Government awaits the outcome of this process.

Christian Education Movement

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will list the representations he has received in relation to the decision not to provide funding for the Christian Education Movement (NI) through the Community Relations Core Funding Scheme 2004 to 2007; and from what organisations they originated. [168628]

Mr. Gardiner: The following is a list of representations made on behalf of the Christian Education Movement (NI):

Christian Education Movement (England)

Mr. P. Fishpool (two representations)

Canon John Eardley (one representation)

Dr. A. J. McCafery (one representation)

Baroness Richardson of Calow (one representation)

Christian Education Movement (Wales)

Mr. Reinhalt Thomas (one representation)

Miss Sali Roberts (one representation)

Christian Education Movement (NI)

Dr. John Morrow (one representation)

Dr. Roger Purce (three representations)

Council of Christians and Jews

Rabbi Jonathan Gorsky (one representation)

Council for Religious Education

Mr. Blaylock (one representation)

Church of Ireland Board of Education

Rev. I. W. Ellis (one representation)

Four Church Leaders (Ireland)

Most Rev. Sean Brady[1]

Most Rev. Robin Eames[1]

Right Rev. Dr. McKay[1]

Rev. W. Rea[1]

Dean of Belfast Cathedral

Dr. H. McKelvey (one representation)

Member of Parliament

Lady Hermon (1 representation) (North Down constituency)

[1] One joint representation.

Dromore Central Primary School

Mr. Donaldson: To ask the Secretary of State for Northern Ireland if he will provide funding for a new school building for Dromore Central Primary School. [168479]

Mr. Gardiner: I have approved funding for Dromore Central Primary School and the school was included in my capital allocations announcement on 27 April.

Electricity

Mr. Trimble: To ask the Secretary of State for Northern Ireland what he will make a decision with regard to proposals to generate electricity from wind power off the north coast of Northern Ireland; and if he will make a statement on these proposals. [164056]

Mr. Pearson: A private sector consortium, with consent from the Crown Estate, is currently investigating the technical, environmental and financial feasibility of the Tunes Plateau site. It is only on completion of this work that the exact size, configuration and location of any potential wind farm can be determined.

If, having completed the feasibility studies, the consortium wishes to proceed with a project, it will be required to apply to the Department of Enterprise, Trade and Investment for consent as required by Article 39 of the Electricity (Northern Ireland) Order 1992 and support this application with a detailed description of the project and a full statement on the impact which their proposals will have on the environment.

If an Article 39 consent is sought for this project, the Department will consult widely on the application and the environmental statement provided. This process is likely to take a considerable time and it is only after it has been completed that a decision would be made.

Gas Prices

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what plans he has to contain gas price rises in Northern Ireland over the next few years. [168296]

Mr. Gardiner: Following my meeting with Phoenix Natural Gas on 8 April 2004 the company agreed to suspend its proposed increase in gas prices to domestic and small industrial consumers. I am maintaining close contact with Phoenix, its wholesale gas supplier Centrica and the Northern Ireland Authority for Energy Regulation and have urged all parties to work together to reach early resolution of the outstanding issues. My aim is to secure an equitable pricing structure for consumers and a stable long-term future for the gas industry in Northern Ireland.

Health Care (Young People)

Mr. Beggs: To ask the Secretary of State for Northern Ireland what steps he is taking to reduce levels of *(a)* substance abuse, *(b)* alcohol abuse, *(c)* suicide, *(d)* mental illness and *(e)* eating disorders among young people in Northern Ireland. [168275]

Angela Smith: Since 1999, over £22 million has been allocated to initiatives to help deliver the aims of the drug and alcohol strategies, both of which place particular emphasis on targeting young people. They include education and awareness raising in schools, public information campaigns, information and research, harm reduction, substitute prescribing, and counselling services for young people.

The Department issued a Promoting Mental Health Strategy and Action Plan last year. The strategy aims to improve people's mental and emotional well-being and in particular that of people at risk. It includes a specific section on preventing suicide. A range of preventative

measures are being taken as part of the strategy including promoting coping skills among the general population, suicide awareness and outreach work with young people in areas of need and especially young men.

A Regional Eating Disorders Working Group was established in June 2003, to consider essential service development. The model of service proposed by the working group is one of local services complemented by a regional service comprising a specialist regional consultant post with a supporting team. £1 million has been secured for 2004–05 to develop these services and it is hoped to advertise for these posts shortly.

Invest Northern Ireland

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what public meetings Invest Northern Ireland has attended which involved a single political party over the last five years; and if he will make a statement. [166709]

Mr. Gardiner: Since Invest NI was established in April 2002, its officials have attended no public meetings which involved a single political party. Information on the activities of the former economic development agencies that pre-dated Invest NI prior to April 2002 is not available.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many Invest NI grants have been awarded; which companies benefited; and what amount of finance was provided through each respective award, broken down by constituency, in each of the past two years. [166745]

Mr. Gardiner: Almost 4,400 companies have been offered assistance in the last two years. To provide a list of all these companies would require a major administrative exercise, which could only be carried out at disproportionate cost. Table 1 following details the number of offers and amount of assistance offered to businesses, by Parliamentary Constituency over the past two years.

Table 1: Invest NI assistance by parliamentary constituency 2002–04

	Number of offers		*Total assistance offered (£)*

[1] In 2002–03 an additional £21.2 million was offered to approximately 1,000 clients for which this level of detail is not available.
[2] Offers in 2003–04 include 733 companies receiving broadband support under a scheme that was unavailable in 2002–03.
Notes:
1. 2003–04 figures are provisional and may be subject to change.
2. Although these businesses have been offered assistance, some may not as yet have received any grant.
3. Assistance includes repayables such as loans as well as grants.

Table 2 following shows the list of offers where more than £75,000 assistance has been offered in the last two years for business development projects. In addition to this 45 large projects that have been offered almost £40 million of assistance have not yet been announced to the public. The details of these projects are not included in table 2 to ensure that these investments are not compromised through the release of commercially sensitive information.

Notes:
1. Although these businesses have been offered assistance, many of the businesses may not as yet have drawn down any grant.
2. Assistance includes repayable assistance such as loans as well as grants.

Mr. Trimble: To ask the Secretary of State for Northern Ireland how many persons were employed by Invest Northern Ireland on *(a)* 1 April 2002, *(b)* 1 April 2003 and *(c)* 1 April 2004. [168218]

Mr. Gardiner: On its establishment in April 2002, Invest NI had a formal staff allocation of 738 full time equivalent (FTE) posts. At that time, however, there were only 657 staff in post as Invest NI's legacy agencies had adopted a policy of not filling vacancies in the run up to the establishment of the new body. On the other specified dates the numbers employed were:

Numbers employed on specified dates

	Numbers employed	*Full time equivalents*
1 April 2003	709	689
1 April 2004	703	681

Invest NI also engages a varying number of contracted staff in its overseas offices and also to deliver specific programmes. These currently number 43 in total and are separately funded.

Mr. Trimble: To ask the Secretary of State for Northern Ireland how many persons employed by Invest Northern Ireland have chosen permanently to transfer from the Northern Ireland Civil Service to Invest Northern Ireland; and if he will make a statement. [168219]

Mr. Gardiner: To date, 39 former Northern Ireland civil servants have transferred permanently to Invest Northern Ireland.

Mr. Trimble: To ask the Secretary of State for Northern Ireland when he expects to make a decision regarding the new headquarters for Invest Northern Ireland. [168220]

Mr. Gardiner: Having assessed the high quality bids received for the provision of Invest NI's new HQ accommodation and completed the process in line with European Procurement Law, a clear decision as to a preferred bidder has been reached. Final negotiations are being entered into with MRDE (McAleer & Rushe/ Dunloe Ewart) the preferred bidder consortium who offered the Bedford Street site as a location. The contract should be awarded by end June 2004.

Mr. Trimble: To ask the Secretary of State for Northern Ireland how much she estimates the new headquarters for Invest Northern Ireland will cost; and from what source of funds it will be paid for. [168221]

Mr. Gardiner: Final negotiations are on-going with the preferred bidder McAleer and Rushe Limited/Dunloe Ewart Ltd. (MRDE Ltd.) and as a result no final figures are available. The project is however estimated to be worth approximately £50 million, representing a construction value of around £20 million with the remaining value earmarked for the provision of related accommodation services over a 25-year period. Funding will come from a reallocation of existing accommodation savings and from the Strategic Investment Programme.

Mr. Trimble: To ask the Secretary of State for Northern Ireland what the total cost of staff was at Invest Northern Ireland in each of the last two financial years. [168222]

Mr. Gardiner: The total cost of staff for Invest Northern Ireland in each of the last two financial years was:

	£ million
Year ended 31 March 2003	19.6
Year ended 31 March 2004	21.2

Inward Investment (East Londonderry)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many visits have been made under the auspices of Invest Northern Ireland by potential inward investors to the East Londonderry constituency within the past 12 months; and how many jobs have been created as a result. [168295]

Mr. Gardiner: Over the past year (April 2003 to March 2004) there have been two visits by potential inward investors to the East Londonderry constituency area. While these have not led to investment to the area, Invest NI continually seeks to build on the recent successes, which has seen a re-investment by Seagate Limavady, and will work closely with other companies in the area, for example Stream, Northbrook and Raytheon.

Lottery Funding (Sport)

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much Lottery funding has been allocated to *(a)* the Gaelic Athletic Association and *(b)* all other sporting organisations in Northern Ireland since the introduction of the Lottery. [167397]

Angela Smith: Since the Lottery began the Sport Council for Northern Ireland's Lottery Fund has awarded £14,350,488 to the Gaelic Athletic Association and £39,888,402 to all other sporting organisations in Northern Ireland.

Multiple Sclerosis

Mr. Beggs: To ask the Secretary of State for Northern Ireland what consideration he has given to extending the guidelines published by the National Institute for Clinical Excellence on the management of multiple sclerosis to Northern Ireland; and if he will make a statement. [168080]

Angela Smith: Guidelines produced by the National Institute for Clinical Excellence (NICE) are only applicable to England and Wales; there is no statutory requirement to implement NICE guidelines in Northern Ireland. The Department advises health and social services boards and trusts on the local applicability of NICE guidance, and is considering how guidelines issued by NICE can be fully assessed and applied in the context of Northern Ireland's health and social services.

Following the issue of NICE guidelines on the use of disease modifying medicines for people with multiple sclerosis, the Department agreed to participate with the other UK Departments in a scheme for monitoring patients to evaluate the cost-effectiveness of supplying these treatments. Over 500 Northern Ireland multiple sclerosis patients are currently taking part in the UK-wide scheme.

NHS Staff (Assaults)

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many *(a)* verbal and *(b)* physical assaults against (i) nurses and (ii) other health care staff in each Northern Ireland health trust area there were in each of the last three years. [168271]

Angela Smith: The information is not available in the format requested. However, the number of recorded assaults (both verbal and physical) on Health and Personal Social Services staff in all disciplines, during the financial years for which figures are currently available, is detailed in the following table:

	Number
2002–03	5,065
2001–02	2,438
2000–01	1,956

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many *(a)* arrests were made, *(b)* people were charged, *(c)* cautions were issued and *(d)* convictions were reached for assaults on NHS staff in Northern Ireland in each of the last three years. [168272]

Angela Smith: The information requested is not available.

Nurses

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what formal training is provided to assist nurses from overseas in adapting to and integrating into a new *(a)* working and *(b)* cultural environment. [167714]

Angela Smith: HPSS employers provide comprehensive support by means of induction and adaptation training to help overseas nurses integrate into their new work force and cultural environments.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the need to assign a single body with responsibility for recruiting overseas nurses to hospitals and health facilities in the Province. [167716]

Angela Smith: This matter has been included in discussions with HPSS employers about overseas recruitment but the concept of establishing a single body with responsibility for recruiting overseas nurses does not have support and would not represent cost effective use of valuable resources.

Collaboration already exists between local employers in the recruitment of overseas nurses resulting in more effective use of resources.

While I greatly value the contribution of overseas nurses in providing healthcare to our population, I expect the need for overseas recruitment to diminish as the investment in providing additional nurse training places over the last few years shows results.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many nurses in each Northern Ireland health trust area have left the profession within two years of registration in each of the last five years. [168267]

Angela Smith: This information is not collected centrally and could be obtained only at disproportionate cost.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many *(a)* full-time, *(b)* part-time and *(c)* student nurses were employed in each Northern Ireland health trust area in each of the last five years. [168268]

Angela Smith: Figures for the number of full-time and part-time nurses employed in each Northern Ireland health trust area in each of the last five years have been placed in the Library.

Student nurses are no longer employed during their pre-registration training but HPSS employers facilitate practice placements as part of their training programme.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many specialist *(a)* theatre, *(b)* coronary care, *(c)* children's nursing, *(d)* diabetes, *(e)* intensive and *(f)* palliative care nurses were employed in Northern Ireland in each of the last three years; and what resources are being made available to train nurses in specialist areas. [168269]

Angela Smith: Figures for the number of theatre, coronary care, children's nursing, diabetes, intensive and palliative care nurses employed in Northern Ireland in each of the last three years have been placed in the Library.

The Department currently allocates in excess of £10 million per annum for the provision of post registration nurse training to meet identified service needs. This includes commissioning of "specialist practice" training.

Phoenix Natural Gas

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the outcome of the Northern Ireland Authority for Energy Regulation's investigation into the proposed price increase by Phoenix Natural Gas. [168629]

Mr. Gardiner: Following consideration of the Northern Ireland Authority for Energy Regulation (NIAER) report, I met senior representatives of Phoenix Natural Gas on 8 April 2004 when the company agreed to suspend its proposed 20 per cent. increase in gas prices. I met Centrica, the wholesale supplier of gas to Phoenix on 19 April 2004 to emphasise the importance of the gas industry to Northern Ireland. I have subsequently urged all parties to work together to reach early resolution of the outstanding issues in order to secure a stable long-term future for the gas industry in Northern Ireland.

R and D Spending

Mr. Trimble: To ask the Secretary of State for Northern Ireland what has been the change in *(a)* real and *(b)* nominal terms in private sector research and development spending in Northern Ireland in each year since 1998. [168211]

Mr. Gardiner: The expenditure on research and development (R&D) in real and cash terms that was carried out within companies in Northern Ireland (intramural) each year between 1998 and 2002, and the annual percentage change, is shown in the table.

	Real terms (2002 prices)		*Nominal (cash) terms*	
Period	*Intramural R&D spend (£ millions)*	*Annual percentage change*	*Intramural R&D spend (£ millions)*	*Annual percentage change*
1998	88.8	—	80.9	—
1999	104.5	17.6	97.2	20.2
2000	147.0	40.7	138.6	42.6
2001	155.0	5.4	149.9	8.2
2002	149.3	-3.7	149.3	-0.4

Source:
DETI (1999, 2001 and 2002 data); Office for National Statistics (1998 and 2000 data)

Rail Freight

Mr. Trimble: To ask the Secretary of State for Northern Ireland what plans he has to provide *(a)* grants and *(b)* other incentives to logistics companies in Northern Ireland to encourage the movement of freight via rail rather than road; and if he will make a statement. [168214]

Mr. Spellar: There are currently no plans to provide grants or other incentives to encourage the investment of freight via rail in Northern Ireland.

Water Charging

Lady Hermon: To ask the Secretary of State for Northern Ireland what plans he has to protect *(a)* those on low incomes and *(b)* other vulnerable people from the impact of the introduction of water charging in Northern Ireland. [168641]

Mr. Spellar: The Government are committed to introducing household water and sewerage charges that are fair and affordable. We are currently developing proposals for the basis and form of household charges to be introduced within the government's wider policy and resources framework. This work is currently examining how we might best protect those on low incomes and other vulnerable people from any excessive impact, or hardship, that may arise from the introduction of water and sewerage charges. The results of this analysis will be set out in an Integrated Impact Assessment, which will be published for consultation later this year.

Water/Sewage Pipes

Mr. Beggs: To ask the Secretary of State for Northern Ireland if he will make a statement on the state of Northern Ireland's water and sewage pipe infrastructure. [168192]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Gentleman in response to this question.

Letter from Mrs. Katharine Bryan to Mr. Roy Beggs, dated 26 April 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question (168192) about the state of Northern Ireland's water and sewage pipe infrastructure. I have been asked to reply as Chief Executive of the Water Service.

Water Service recently completed a comprehensive Asset Management Plan that identified the investment needs for all water and sewerage assets over a twenty year period. This required an assessment of the performance of the current assets and future performance requirements to meet more stringent and demanding statutory obligations and standards of service. The Plan concluded that some £3 billion was required to improve the water and sewerage infrastructure over the 20 year period and approximately half of this was required to upgrade watermains and sewers.

The conclusion of the Asset Management Plan demonstrates that the overall condition of the water and sewerage infrastructure is not satisfactory. To address this Water Service is investing £590 million over the three year period to 2006 on water and sewage infrastructure as part of its programme to comply with EU directives, protect the environment and deliver customer service improvements. In addition, a substantial Public Private Partnership programme, involving a number of large wastewater and water treatment works valued at £269 million, is also being taken forward.

A series of discrete watermain and sewerage networks rehabilitation studies are currently on-going to identify specific capital investment requirements to achieve compliance with EU directives and provide for existing and future demand for services. This approach will enable Water Service to target current and future capital investment on watermains and sewers to areas of greatest need, thereby attaining best value for money.

CONSTITUTIONAL AFFAIRS

Attachment of Earnings Orders

Mr. Willetts: To ask the Parliamentary Secretary, Department for Constitutional Affairs what estimate he has made of the number of attachment of earnings orders issued on employers in each year since 1997, broken down by reasons for the orders. [168156]

Mr. Leslie: Figures relating to the number of attachment of earnings orders are provided in the table. Information relating to the breakdown by reasons for the orders is not available centrally and can be provided only at disproportionate cost.

	Attachment of earnings orders	
	Judgments	Maintenance
1997	65,669	1,194
1998	43,440	876
1999	34,399	190
2000	35,545	156
2001	42,011	150
2002	39,855	141
2003	40,384	855

Court Fines (Merseyside)

Mr. Ben Chapman: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the collection of fines imposed by magistrates' courts in Merseyside. [167964]

Mr. Leslie: There has been a steady improvement in the fine collection performance of the Merseyside Magistrates' Courts Committee (MCC) over the last year. The rolling payment rate stands at 52 per cent. at the end of February, which is a 13 per cent. point increase on the quarter one figure of 39 per cent., with further improvements planned for 2004–05.

Referendum Costs

Mr. Kevin Hughes: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the estimated costs associated with holding a national referendum are. [167828]

Mr. Leslie: I refer my hon. Friend to the reply I gave to my hon. Friend the Member for Dunfermline, West (Rachel Squire) on the 1 April.

Small Claims

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many money claims issued against *(a)* travel operators and *(b)* tour operators were taken to the Small Claims Court in each year since 1997, broken down by circuit; how many of these (i) were disputed, (ii) found in favour of the claimant and (iii) found in favour of the defendant; and how much was awarded to the claimant in each year, broken down by circuit. [168868]

Mr. Leslie: The information requested is not collected centrally and can be provided only at disproportionate cost.

DEPUTY PRIME MINISTER

Commercial Leases

Mr. Bellingham: To ask the Deputy Prime Minister what representations the Department has received on proposals to ban upward-only rent reviews in commercial leases; and if he will make a statement. [168904]

Keith Hill: The issue of upwards-only rent reviews in commercial leases has been of longstanding concern, and prompted the introduction in April 2002 of a new Code of Practice by the property industry. Over the last year, the Office of the Deputy Prime Minister has received seven letters, from the British Retail Consortium and certain companies and individuals, expressing concern about upwards-only rent reviews in commercial leases. The issue was also discussed at a meeting of the Property Consultative Group, which I chaired on 3 December 2003.

The Under-Secretary, my hon. Friend the Member for Pontefract and Castleford (Yvette Cooper) announced the Office of the Deputy Prime Minister's decision to go out to consultation on legislative options in a written statement on 23 April 2004, *Official Report*, column 32WS.

Empty/Second Homes

Mr. Clifton-Brown: To ask the Deputy Prime Minister if he will list all authorities in England and Wales showing the *(a)* number of empty homes, *(b)* yield of council tax from empty homes, *(c)* number of second homes, *(d)* council tax discount applied to second homes and *(e)* council tax yield from second homes. [166886]

Mr. Raynsford: The most recent available figures for the numbers of long-term empty and second homes within the area of each English billing authority relate to 1 November 2002 have been made available in the Library of the House.

If all billing authorities reduced their second homes discount to the minimum possible figure of 10 per cent., we estimate that about £65 million could potentially be raised in England. If all English authorities removed their discount for long-term empty homes completely, this could raise a further £160 million.

Information on changes to discounts made for second or long-term empty homes for 2004–05 in England is still being collected from individual local authorities and so is not yet available.

Initial information provided on budget returns suggests, however, that almost half of the 1.2 per cent. increase between 2003–04 and 2004–05 in the total tax base for English authorities is due to reductions in second homes discounts and reductions or removals of discounts for long-term empty homes. This is equivalent to about 100,000 Band D properties.

Figures for Welsh local authorities are a matter for the Welsh Assembly Government.

Mrs. Spelman: To ask the Deputy Prime Minister how many households received an empty homes council tax discount in England in each year since 1997. [169494]

Mr. Raynsford: The Office of the Deputy Prime Minister does not collect information in the form requested. Returns by local billing authorities show the number of dwellings subject to a discount as at 16 October each year, rather than the total number of dwellings which have received a discount in the year. Authorities have only been asked to identify long-term empty property discounts separately from other discounts since 2001. The reported figures for dwellings subject to a long-term empty discount are:

16 October 2001: 340,000

16 October 2002: 376,000.

The Office of the Deputy Prime Minister does not yet have all the necessary returns from authorities to calculate a figure for 16 October 2003.

Fire Services

Mr. Hancock: To ask the Deputy Prime Minister what discussions his Department has held with the Ministry of Defence on ensuring that the modernisation agenda for fire services is an integral part of the solution for the Airfield Support Services Project. [167253]

Mr. Raynsford: I refer the hon. Member to the answer given by my right hon. Friend the Minister of State, Ministry of Defence on 23 April 2004, *Official Report*, column 685W.

Green Belt

Mr. Clifton-Brown: To ask the Deputy Prime Minister what the target is for each region for increasing the area of green belt; and what allowance the targets make for the sustainable communities plan areas. [168375]

Keith Hill: The Government's commitment, set out in Part 4 of "Sustainable Communities; building for the future", is to protect the countryside through a target for each region to maintain or increase the current area of land designated as greenbelt land in local plans. This commitment applies to all English regions, including those containing the four growth areas identified elsewhere in "Sustainable Communities".

Housing (Stalybridge and Hyde)

James Purnell: To ask the Deputy Prime Minister how the Starter Homes Initiative has affected the residents of Stalybridge and Hyde. [168788]

Keith Hill: Between September 2001 and 31 March 2004, the Starter Home Initiative helped key workers into home ownership in areas where the high cost of housing was undermining recruitment and retention of skilled staff in our key public services. The programme was not available to key workers in Stalybridge and Hyde.

The new Key Worker Living programme which started on 1 April 2004 superseding the Starter Home Initiative is helping key workers in London, the South East and the Eastern regions.

Housing and Planning

Mr. Hayes: To ask the Deputy Prime Minister how much the UK spent on implementing EU mandates in the housing and planning sectors of the Office of the Deputy Prime Minister in 2003–04. [166313]

Keith Hill: There has been no requirement to implement new EU mandates affecting the housing and planning sectors of the Office of the Deputy Prime Minister in 2003–04.

Housing Corporation

Martin Linton: To ask the Deputy Prime Minister what powers the Housing Corporation has to investigate the actions of shareholder-tenants of a housing association. [168857]

Keith Hill: The Housing Corporation does not have any powers, which are directed specifically towards the shareholder-tenants of a housing association. Shareholding groups may, but often do not, include tenants. In the case of some associations, shareholders have specific constitutional duties, and as such they are part of the overall structure of accountability. In such cases they bear some responsibility for the overall governance and management of an association.

The Housing Corporation has a statutory duty to regulate those housing associations that are registered with it. Under paragraph 20 of schedule 1 to the Housing Act 1996, the corporation also has a specific power to direct a statutory inquiry into the affairs of a registered housing association where it appears that there may have been misconduct or mismanagement. This could be limited to certain specific matters or could extend across the whole range of activities, including the duties and actions of shareholders.

Martin Linton: To ask the Deputy Prime Minister if he will make a statement on the Housing Corporation's duties of disclosure to hon. Members under the Housing Act 1996, Part 1, Chapter 4(33)(2). [168858]

Keith Hill: Under section 33 of the Housing Act 1996, the Housing Corporation has the power to disclose information to the bodies and persons specified. This is a discretionary power, rather than a duty.

Land Use

Norman Baker: To ask the Deputy Prime Minister what total area in England was designated in each land use class one to seven in *(a)* 1974, *(b)* 1984, *(c)* 1994 and *(d)* 2003 (i) in total and (ii) broken down by county. [165754]

Keith Hill: At present there is no comprehensive information on land use classes in England. The Office of the Deputy Prime Minister, with other Government departments, is investigating the options for deriving a full land use dataset in a cost-effective way.

Local Government Finance

Bob Spink: To ask the Deputy Prime Minister which local authorities raised the level of council tax by less than 3 per cent. when setting the rate for 2004–05; and if he will make a statement. [167235]

Mr. Raynsford: The following authorities increased their Band D council tax by less than 3 per cent. between 2003–04 and 2004–05:

London boroughs

Camden
Southwark
Wandsworth

Metropolitan districts

Birmingham
Bury
Coventry
Dudley
Kirklees
Knowsley
Manchester
Sandwell

Solihull
St. Helens
Tameside
Wakefield
Walsall
Wigan
Wirral
Wolverhampton

Shire districts

Alnwick
Amber Valley
Ashfield
Babergh
Basingstoke and Deane
Bassetlaw
Blyth Valley
Carlisle
Castle Morpeth
Cheltenham
Chesterfield
Chichester
Craven
Dartford
Derwentside
Easington
East Lindsey
Eastleigh
Fareham
Forest of Dean
Hart
Malvern Hills
Mansfield
Mid Devon
North Warwickshire
Preston
Redditch
Ribble Valley
Rugby
Rushmoor
Sedgemoor
South Cambridgeshire
South Oxfordshire
Stafford
Stroud
Teignbridge
Tewkesbury
Three Rivers
Tynedale
Wansbeck
Watford
Wear Valley
West Lancashire
West Somerset
Worcester
Wychavon
Wycombe

For shire counties and unitary authorities, an asterisk indicates that the percentage increase in the authority's Band D council tax is not less than 3 per cent. when expressed as an increase over its indicative Band D council tax for 2003–04.

An authority's indicative council tax for 2003–04 is the level of council tax consistent with its alternative notional amount, as published in "The Limitation of Council Tax and Precepts (Alternative Notional Amounts) Report (England) 2004/05". Alternative notional amounts have been issued to take account of the change in the financing arrangements for combined fire authorities (CFAs) between 2003–04 and 2004–05, whereby each CFAs has set its own council tax for the first time for 2004–05, instead of receiving a contribution towards its expenses from its constituent authorities.

Indicative council taxes for 2003–04 are available on the ODPM local Government finance website, from the 'Alternative Notional Amounts' menu at http://www.local.odpm.gov.uk/finance/ct.htm.

Management and Maintenance Allowance

Mr. Betts: To ask the Deputy Prime Minister what the amounts of outturn prices of *(a)* management and maintenance allowances, *(b)* major repairs allowances, *(c)* guideline rent (assumed HRA rental income), *(d)* actual Housing Revenue Account (HRA) rental income, *(e)* subsidy to the HRA including housing benefit subsidy, *(f)* HRA housing benefit subsidy entitlement and *(g)* subsidy to HRA net of contributions from HRA to housing benefit costs were for (i) each housing revenue account in England and (ii) England as a whole for (A) 1990–01, (B) 2000–01, (C) 2001–02, (D) 2002–03 and (E) 2003–04. [166639]

Keith Hill: The information has been made available in the Library of the House. Item *(a)* is management and maintenance allowances; item *(b)* is major repairs allowances; these did not exist in 1990–91 and 2000–01; item *(c)* is guideline rental income; item *(g)* is the "housing element entitlement" of HRA subsidy; where positive, this is the subsidy paid to the authority prior to consideration of rent rebate subsidy; where negative, this is the contribution by the HRA to the cost of rent rebates and also occasionally includes a payment to the General Fund; item *(f)* is the "rent rebate element entitlement" of HRA subsidy; this is the subsidy paid to the authority towards the cost of rent rebates; item *(e)* is HRA subsidy entitlement and is the sum of item *(g)* and item *(f)*.

The above are subsidy items. Item *(d)* is the actual HRA rental income. This is not available for 1990–91 and is not yet available for 2003–04.

Property Consultative Group

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* funding from his Department, *(c)* administration budget, *(d)* staff costs, *(e)* location of staff and *(f)* number of staff were for the Property Consultative Group for the financial years (i) 2002–03, (ii) 2003–04 and estimated for (iii) 2004–05 and (iv) 2005–06. [167844]

Keith Hill: The Property Consultative Group does not have its own budget, but is funded from the administrative resources of the Office of the Deputy Prime Minister (ODPM). It is serviced by staff working for the Land and Property Division in the Urban Policy Directorate of the Office of the Deputy Prime Minister, based in Westminster.

The Property Consultative Group began work in September 2003, and there were no staff costs in 2002–03. Staff costs in 2003–04 were £9,438 and estimated full-year costs for 2004–05 are £50,389. The number of staff working for the Group was just over one fifth of a person year in 2003–04 and is estimated to be just under one person year in 2004–05. The level of staff support and administrative costs for 2005–06 will depend on the workload of the Group, but we expect it to continue at broadly the same level as for 2004–05.

Public Bodies (Costs)

Matthew Green: To ask the Deputy Prime Minister pursuant to his answer of 29 March 2004, *Official Report*, column 1267W, on public bodies, what the internal costs to his Department were of *(a)* the Property Advisory Group, *(b)* the Advisory Panel on Standards for the Planning Inspectorate, *(c)* the Advisory Panel on Beacon Councils, *(d)* the Building Regulations Advisory Committee, *(e)* the Community Forum and *(f)* the Residential Property Advisory Group. [166794]

Yvette Cooper: The internal costs to the Office for the Deputy Prime Minister for 2003–04 are estimated to be in the region of:

Advisory non-departmental public body (NDPB)	*£000*
(a) and (f) Property Advisory Group[1]	24
(b) Advisory Panel on Standards for the Planning Inspectorate	70
(c) Advisory Panel on Beacon Councils	190
(d) Building Regulations Advisory Committee	70
(e) Community Forum	160
Total	514

[1] The Property Advisory Group was wound up in July 2003.

This includes the Office of the Deputy Prime Minister's staff costs associated with sponsorship of the body and providing the secretariat for the body as appropriate; fees and travel and subsistence payments to members; publications; and other miscellaneous costs.

Mr. Edward Davey: To ask the Deputy Prime Minister (1) what the total *(a)* administration and *(b)* staff costs were for the Building Regulations Advisory Committee in financial year 2003–04; and what the estimated costs are for financial years (i) 2004–05 and (ii) 2005–06; [169109]

(2) what the *(a)* total budget, *(b)* departmental funding and *(c)* internal costs to his Department of the Building Regulations Advisory Committee were in financial years (i) 2002–03 and (ii) 2003–04; and what the estimated costs are for financial years (iii) 2004–05 and (iv) 2005–06. [169113]

Phil Hope: The Building Regulations Advisory Committee does not receive Government funding other than costs internal to the Office of the Deputy Prime Minister of sponsoring it.

For 2002–03 these costs were estimated to be in the region of £21,000 for administration and £49,000 for staff, and for 2003–04 £19,000 for administration and £51,000 for staff. These estimates include the Office of the Deputy Prime Minister's staff costs associated with sponsorship of the committee and providing the secretariat for it; fees and travel and subsistence payments to members; publications; and other miscellaneous costs.

Costs in 2004–05 and 2005–06 are not expected to rise significantly.

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* departmental funding and *(c)* internal costs to his Department were of the Property Advisory Group in financial year 2003–04. [169110]

Keith Hill: I refer the hon. Member to the answer given to the hon. Member on 31 March 2004, *Official Report*, column 1499W.

Mr. Edward Davey: To ask the Deputy Prime Minister (1) what the *(a)* total budget, *(b)* departmental funding and *(c)* internal costs to his Department were of the Home Ownership Task Force in financial years (i) 2002–03 and (ii) 2003–04; [169111]

(2) what the *(a)* total administration and *(b)* staff costs were for the Home Ownership Task Force in financial year 2002–03. [169112]

Keith Hill: No administration and staff costs were incurred in relation to the Home Ownership Task Force in 2002–03. For 2003–04, I refer the hon. Member to the answer given on 31 March 2004, *Official Report*, columns 1498–99W.

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* departmental funding, *(c)* internal costs to his Department, *(d)* total administration costs and *(e)* staff costs to his Department of the Advisory Panel on Beacon Councils were for the financial years (i) 2002–03 and (ii) 2003–04; and what the estimated costs are for financial years (iii) 2004–05 and (iv) 2005–06. [169117]

Mr. Raynsford: The Advisory Panel on Beacon Councils does not receive Government funding other than the internal costs to the Office of the Deputy Prime Minister of sponsoring it. For both 2002–03 and 2003–04, this was estimated to be in the region of £190,000. We do not expect costs to change significantly in 2004–05 and 2005–06.

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* departmental funding, *(c)* internal costs to his Department, *(d)* total administration costs and *(e)* staff costs to his Department of the Advisory Group on Home Buying were for the financial years (i) 2002–03 and (ii) 2003–04; and what the estimated costs are for financial years (iii) 2004–05 and (iv) 2005–06. [169118]

Keith Hill: The Advisory Group on Home Buying and Selling has been in existence since 1997. Membership includes representatives of central and local government, the Consumers' Association and the main professional and trade bodies involved in the home buying and selling process. The group has assisted with steering research, providing advice on options for reforming the home buying and selling process and helping consideration of responses to wide-ranging consultation on measures to improve the process. The main focus of the group's future work will be to assist with the development, implementation and co-ordination of measures, including home information packs, aimed at making the home buying and selling process easier and more efficient in the interests of buyers and sellers.

There is no central budget for the Advisory Group. Membership and participation is voluntary and unpaid. The cost of the group to the Office of the Deputy Prime Minister is minimal, comprising attendance of ODPM officials, accommodation for meetings, production and circulation of papers, and refreshments.

Sustainable Development

Mr. Edward Davey: To ask the Deputy Prime Minister (1) what steps he is taking to deliver sustainable development within Government; [165652]

(2) what progress has been made on his Department's Sustainable Development Strategy. [165653]

Keith Hill: The Office of the Deputy Prime Minister is working closely with Defra, other Government departments and the Devolved Administrations to deliver sustainable development. The UK Government and Devolved Administrations are currently consulting on creating a new UK strategic framework for sustainable development.

The Office of the Deputy Prime Minister 's central aim is to create sustainable communities—places where people want to live—by promoting economic growth, social progress and environmental protection.

The Sustainable Communities Plan, "Sustainable Communities; Building for the Future", sets out a programme of action for delivering sustainable communities in all our towns, cities and rural areas. The Office of the Deputy Prime Minister has recently published "Making it Happen: The Northern Way", which provided an update on the delivery of the Sustainable Communities Plan, with a particular emphasis on the North and the Midlands.

In line with all government departments, the Office of the Deputy Prime Minister is actively working to manage the sustainable development impacts of the operation of its estates and to deliver the targets outlined in the "Framework for Sustainable Development on the Government Estate".

The Planning and Compulsory Purchase Bill, currently before the House, sets out contributing to the achievement of sustainable development as an objective for regional spatial strategies and local development documents. We have backed this up with new guidance on

sustainable development and planning in Planning Policy Statement 1—Creating Sustainable Communities—which was issued for consultation on 24 February.

In addition, my right hon. Friend the Deputy Prime Minister actively promotes sustainable development and action to tackle climate change internationally.

Urban Development Corporation

Andrew Selous: To ask the Deputy Prime Minister what responses he has received to the consultation about the creation of an urban development corporation for South Bedfordshire; and what progress there has been towards the creation of an urban development corporation for South Bedfordshire. [168793]

Keith Hill: My right hon. Friend Lord Rooker wrote to all local authorities in the Luton-Dunstable-Houghton Regis (LDHR) growth area in early May 2003 asking them to explore options for a local delivery vehicle to manage the growth envisaged in and around Luton and adjoining areas. Local partners have now proposed that the Office of the Deputy Prime Minister establish an urban development corporation for the growth area and we are considering this as one of the options. Alongside this is work to establish the location and level of growth in this area, and the testing of growth proposals set out in the Milton Keynes/South Midlands sub regional strategy is part of this process. There has been no decision on the vehicle or the area it might cover at this stage.

FOREIGN AND COMMONWEALTH AFFAIRS

Arms Exports

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his letter to the hon. Member for Portsmouth, South dated 14 April, which countries his Department considers to have a stricter and more transparent arms exporting system than the UK. [168596]

Mr. MacShane: The United Kingdom has one of the strictest arms export licensing systems in the world. The Government are not aware of any countries which overall operate a stricter export control policy, other than the case of countries such as Japan, which do not export any military equipment at all. We know of no other country that publicly reports more information on arms exports than the United Kingdom.

Economic Community of Central African States

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the proposals for the establishment of a regional peace force, announced by the Economic Community of Central African States (CEEAC) on 29 October 2003; what discussions he has had with members of the governments of *(a)* EU member states, *(b)* EU candidate countries, *(c)* CEEAC member states, *(d)* South Africa and *(e)* the USA on this matter; and if he will make a statement. [168555]

Mr. Mullin: The UK welcomes the support shown by CEEAC and other African regional organisations for the setting up of regional brigades as part of the African Standby Force (ASF).

The UK's support for the establishment of the ASF is currently directed towards developing strategic management capacity at the African Union and establishing regional brigades in east and west Africa. We also support efforts at the national level in South Africa, Kenya, Nigeria and Ghana. We are discussing these initiatives with a range of international and African partners.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department sent observers to the meeting of the Economic Community of Central African States' meeting in Brazzaville, Republic of Congo, on 28 and 29 October 2003; what key issues have been reported to him; and if he will make a statement. [168556]

Mr. Mullin: A UK representative did not attend the meeting of Defence Chiefs of Staff in Brazzaville in October 2003. The meeting looked at the creation of a brigade-size peace-keeping force for central Africa, in line with the African Union's plans for the African Standby Force. We welcome the support shown by the Economic Community of Central African States and other regional organisations for the African Standby Force and we continue to encourage governments in the region to support regional peace-keeping initiatives.

Iraq

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what protection is offered to British journalists reporting the military activities in Fallujah in Iraq. [167375]

Mr. Rammell: Fallujah is in the US military's area of operations. Arrangements for media reporting of US military activities are a matter for the US Government.

We encourage British journalists to read Foreign and Commonwealth Office (FCO) Travel advice before planning visits to Iraq. We advise against all but the most essential travel to Iraq. The security situation is dangerous and April has seen widespread outbreaks of violence. Our travel advice states that even the most essential travel to Iraq should be delayed, if possible. FCO travel advice makes clear that Fallujah is a particularly dangerous place at the moment. FCO travel advice is available on the FCO website: www.fco.gov.uk.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government has submitted all documentation on which its claim that Iraq tried to procure uranium from Niger was based to the Butler Inquiry. [168282]

Mr. MacShane: As my right hon. Friend the Foreign Secretary has made clear, the Government will co-operate fully with the Butler Review, which has access to all intelligence reports and assessments and to other relevant Government papers.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs when the Government first learned that Dr. Abdul Qadeer Khan had visited countries in sub-Saharan Africa between 1998 and 2002 to procure uranium. [168283]

Mr. MacShane: I refer my hon. Friend to the answer my right hon. Friend the Prime Minister gave to my hon. Friend the Member for Linlithgow (Mr. Dalyell) on 1 March 2004, *Official Report*, column 757W. It is the practice of successive Governments not to comment on intelligence matters. The security and intelligence agencies are not within the scope of the Code of Practice on Access to Government Information (Part 1, paragraph 6).

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 30 January 2004, *Official Report*, column 581W, on Iraq, whether the intelligence referred to is the intelligence upon which the United Kingdom Government based its claim in the September 2002 dossier, Iraq's Weapons of Mass Destruction, that Iraq sought the supply of uranium from Africa. [168325]

Mr. MacShane: The intelligence upon which the Government based their claim in the September 2002 dossier that Iraq sought to procure uranium from Africa is described in paragraphs 89–93 of the Intelligence and Security Committee's report "Iraqi Weapons of Mass Destruction" (Cmnd 5972).

Jean Helene

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with members of *(a)* the French Government and *(b)* Prime Minister Seydou Diarra's transitional government in Ivory Coast concerning the nature of the death of French journalist Jean Helene in Abidjan; what advice his Department has issued to UK aid workers (i) in Ivory Coast and (ii) looking to travel to Ivory Coast; and if he will make a statement. [168554]

Mr. Mullin: Along with our other EU partners we condemned the murder of the French journalist, Jean Helene, in Abidjan in October 2003. We urged the Ivorian authorities to re-establish rule of law to protect Ivorians and foreign nationals. The policeman charged with Jean Helene's murder was found guilty and sentenced in January 2004. We are also concerned at reports of the recent disappearance of another journalist, a French/Canadian national.

We advise UK nationals against non-essential travel to Cote d'Ivoire. More detailed advice is provided on the Foreign and Commonwealth Office (FCO) website: www.fco.gov.uk.

As I made clear in a press release on 21 April, we urge all Ivorian parties to make progress in implementing the Linas Marcoussis Agreement. A copy of the press release is available on the FCO website: www.fco.gov.uk/policy/news/press-releases.

Middle East

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the insistence by the Israeli Government that the Palestinians should abandon their right of return to what is now Israel. [168459]

Mr. Rammell: Return of refugees is a final status issue. It must therefore form part of a negotiated settlement between the two parties. Phase Three of the roadmap provides for this. To get back to negotiations, both parties must fulfil their commitments under Phase One of the roadmap.

Mr. Sarwar: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* Israel and *(b)* the United States on the Israeli Government's policy of targeted assassinations in the West Bank and Gaza Strip. [168460]

Mr. Rammell: On 26 April, my right hon. Friend the Baroness Symons of Vernham Dean made clear to the Israeli Charge, Mr. Rav-ner, that the Israeli policy of targeted assassinations is illegal, unjustified and counter-productive. Both parties must refrain from actions that may further escalate tensions, including any more such killings. We are in regular contact with the US Administration, at all levels, about the situation in the Middle East, including targeted killings.

Mordechai Vanunu

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will seek to arrange a meeting with Mordechai Vanunu to discuss ways to implement a nuclear weapon-free zone in the Middle East. [168616]

Mr. Rammell: My right hon. Friend the Foreign Secretary currently has no plans to arrange such a meeting.

Nuclear Weapons

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs by which *(a)* governments and *(b)* organisations it was decided to send (i) surplus highly enriched uranium from Libya to Russia and (ii) nuclear technology components and missiles to the United States following the decision of Libya to halt its programmes of weapons of mass destruction. [168728]

Mr. MacShane: On 19 December Libya declared that it intended to dismantle completely and verifiably its weapons of mass destruction programmes, and to limit the range of Libyan missiles to under 300 kms.

The UK and US offered full support to Libya in helping to declare its programmes to the relevant international bodies, as well as assistance in dismantling Libya's WMD programmes.

The International Atomic Energy Agency (IAEA), and the United States' and Russian Governments assisted Libya with the removal of High Enriched Uranium (HEU) fuel stored at the Tajura research reactor facility. IAEA inspectors monitored and verified the packing of the HEU for transport and removal on 8 March. The HEU was airlifted from Libya to the Russian Federation.

Russia agreed to take back the HEU. The fuel-removal was funded by the United States Department of Energy under a co-operative US-Russia-IAEA

programme called the Tripartite Initiative, which addresses safety and proliferation risks. The Tripartite Initiative returns fresh and spent fuel from Russian designed reactors abroad.

Following discussions between the UK, US and Libya, it was agreed that sensitive nuclear technology and missile components should be removed to a secure location in the United States. This was done in close co-operation with the IAEA. There is no equivalent international organisation in the area of missile technology.

Pastor Khalid Babaev

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Azerbaijan Government concerning the threats made by Islamist extremists against Pastor Khalid Babaev, a Seventh Day Adventist pastor in Nakhichevan. [168428]

Mr. Rammell: Promotion of human rights, including freedom of thought, conscience and religion is at the heart of our foreign policy. We condemn instances where individuals are persecuted because of faith or belief, wherever they happen and whatever the religion of the individual or group concerned.

British embassy staff in Baku keep in close contact with human rights NGOs in Azerbaijan and have raised issues of religious persecution with the State Commission for Religious Organisations. In March 2003 the British ambassador to Azerbaijan hosted a series of round table talks with NGOs to discuss current concerns, including issues of religious freedoms.

We have not made any specific representations to the Azeri Government about Pastor Khalid Babaev.

Sudan

John Barrett: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are being taken to bring the Janjaweed militia within the peace agreement in Sudan. [167819]

Mr. Mullin: We have made numerous representations to the Government of Sudan about the need to rein in the Janjaweed militias. In the 8 April humanitarian ceasefire agreement the Sudanese Government committed itself to neutralising the armed militias, which we understand to mean the Janjaweed.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has held with the National Islamic Front Government of the Sudan on the implementation of Sharia law in the south of the country. [168249]

Mr. Mullin: We had extensive consultations with the parties at the peace talks in Kenya as part of the negotiations which led to the Machakos Protocol in July 2002. The Machakos Protocol largely resolved the question of the application of Sharia law in the south of Sudan.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the people of Gibraltar will be able to vote in the forthcoming referendum on the proposed EU Constitution. [169015]

Mr. Straw: I refer the right hon. Gentleman to the answer given by my hon. Friend the Minister of State at the Foreign and Commonwealth Office (Mr. MacShane) on 27 April 2004 (UIN 168824) to the hon. Member for Romford (Mr. Rosindell).

Swaziland

John Barrett: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact that the proposed new constitution in Swaziland will have on *(a)* democracy and *(b)* human rights in that country. [168908]

Mr. Mullin: The proposed constitution provides improved rights for women, which will be enshrined in a bill of rights, and a basis for improvements in democracy and human rights. The Commonwealth Secretariat provided expertise during the drafting of the constitution to align it with the Commonwealth's own core principles.

John Barrett: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Swaziland about the proposed new constitution of that country; and if he will make a statement. [168909]

Mr. Mullin: Our High Commissioner in Mbabane regularly discusses the draft constitution with the Government of Swaziland. The proposed constitution is also on the agenda of the EU's regular political dialogue with the Government of Swaziland.

Uganda

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance his Department has *(a)* offered and *(b)* provided to the Government of Uganda to (i) initiate, (ii) facilitate and (iii) co-ordinate talks with the Lord's Resistance Army; and if he will make a statement. [168552]

Mr. Mullin: The Ugandan Government has not requested direct assistance from the UK. However, we continue to support mediation initiatives by the Ugandan Government and local leaders, who we believe are best placed to achieve a sustainable peace. Since 2001, we have spent nearly £1 million on conflict reduction and peace initiatives in Uganda. This includes the development of Mega FM Radio, which is playing an important part in attempts to develop dialogue. A further £1.6 million has been set aside up to March 2005.

United Arab Emirates

Huw Irranca-Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the *(a)* social, *(b)* economic and *(c)* cultural links between the United Arab Emirates and the United Kingdom. [168569]

Mr. Rammell: The ties between the United Kingdom and the United Arab Emirates (UAE) are deep and long-standing. We are building on them. HRH the Duke of York, the Lord Mayor of London, the House of Commons UAE All Party Parliamentary Group and my right hon. Friend the Foreign Secretary have all visited UAE in recent months. The UAE is the UK's most important trading partner in the region with commerce

between the two countries totalling over £3 billion. British companies contribute significantly to the UAE's rapidly modernising economy. About 50,000 British citizens live and work in the UAE and over 500,000 visited in 2003. Many Emiratis visit the UK regularly and have houses here. There are growing cultural links, reflected in the presence of British Council offices in four of the Emirates. Our links in these fields are thriving.

United States

Mrs. Dunwoody: To ask the Secretary of State for Foreign and Commonwealth Affairs what the visitor visa requirements are for US visitors to the UK. [168253]

Mr. Mullin: Nationals of the United States of America do not require a visa to visit the United Kingdom for less than six months. However, on arrival in the UK, they must be able to satisfy an Immigration Officer that they qualify for entry as a visitor under the UK Immigration Rules. From 13 November 2003 an additional entry clearance requirement was introduced for nationals of 10 countries, including the United States, who intend to stay in the UK for more than six months or who are work permit holders. Further information is available at UK visas website, www.ukvisas.gov.uk.

MINISTER FOR WOMEN

Child Care

Mr. Simmonds: To ask the Minister for Women how many working mothers use child care for *(a)* children under five and *(b)* children over five years. [167879]

Ms Hewitt: The estimates from the autumn 2003 Labour Force Survey, the most recent information available, are around 750,000 working mothers using child care for under fives and around 1,050,000 for over fives.

TRADE AND INDUSTRY

Draft Age Discrimination Regulations

Mr. Willetts: To ask the Secretary of State for Trade and Industry whether draft regulations on age discrimination will be published in 2004. [168157]

Jacqui Smith: We are in the process of reviewing the timetable for further consultation. We are doing so in the light of our clear commitment to give those with responsibilities and with rights as much time as possible to prepare for the new legislation coming into force in 2006, and to do so with regulations that are clear and effective. We shall announce the new timetable as soon as possible.

Employment Rights

Jim Dobbin: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Heywood and Middleton have taken 26 weeks maternity leave since 1997. [168529]

Mr. Sutcliffe: Take-up of paternity leave is not recorded centrally. It is possible to make an estimate of the numbers of women taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (since 2003 this has covered the first 26 weeks of leave). However, figures for the take-up of SMP are not available on a regional basis.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

BT

Malcolm Bruce: To ask the Secretary of State for Trade and Industry for what reasons her Department has undertaken a review of apparent disparities between the Valuation Office Agency's calculation method of business rates for BT in comparison with other telecom companies; when she will publish her Department's findings; whom is being consulted; and if she will make a statement. [167268]

Mr. Timms: The Government said last year, in response to representations made by members of the telecommunications industry, that they would review the rating system as it applied to the industry to ensure that it is working fairly.

The Department has appointed a contractor to carry out the review. On completion of the review the Department will present the report to the Broadband Stakeholders Group (BSG), which is representative of the communications industry.

We expect initial findings in the summer and subject to progress, to produce a report in the autumn.

Business Link

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what funds have been allocated to raising awareness of Business Link branded services among small businesses in each year since its inception; what the target was for the awareness level for each year; and what her estimate is of the current level of awareness among small businesses. [168448]

Nigel Griffiths: The following measures were used to raise awareness of Business Link.

In 1996–97, £2,527,747 was allocated to raising awareness of Business Link, through press, radio and poster advertising. Awareness of Business Link among small businesses in February 1997 was 72 per cent.

In 1997–98, expenditure was £1,331,702 on press advertising. Awareness of Business Link in December 1998 was 77 per cent.

In 1998–99, expenditure was £1,021,352 on press, radio and poster advertising. Awareness of Business Link in March 1999 was 65 per cent. Between 1996 and 1999 there were no specific targets set for awareness raising.

Between March and November 2001, expenditure on Business Link advertising was £2,600,000. Advertising tracking showed spontaneous awareness at the end of this period was 17 per cent. and prompted awareness was 81 per cent. The targets set for this period were for 20 per cent. unprompted and 80 per cent. prompted awareness.

Between September 2002 and April 2003 expenditure on Business Link advertising was £6,000,000. Results were measured in two ways: tracking of advertising and direct mail activity showed spontaneous awareness at 11 per cent. and prompted awareness at 77 per cent., whilst a National Omnibus Survey showed overall awareness of Business Link at 74 per cent. The targets set for this period were for 20 per cent. unprompted and 80 per cent. prompted awareness.

Business Regulation

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry pursuant to the answer of 6 April 2004, *Official Report*, column 72W, on regulatory impact assessments, how many regulatory impact statements were issued separate from regulatory impact assessments by the Small Business Service in each year since its inception, with particular reference to the Evaluation of Regulatory Impact Assessments Compendium Report 2003–04, March 2004, pages 25–26. [168712]

Nigel Griffiths: I am advised that the Small Business Service has not issued any regulatory impact statements. Such statements are prepared by the lead Department to explain the impact on business of proposals involving new or amended regulations, and take into account discussions with the Small Business Service and Cabinet Office.

Central Lobby Consultants

Norman Baker: To ask the Secretary of State for Trade and Industry if she will list the work she has commissioned from Central Lobby Consultants since 1 June 2001. [163974]

Ms Hewitt: Our records indicate that no such work has been commissioned.

Chemicals Industry

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what discussions she has had with her US counterparts concerning European regulations on the chemicals industry; and if she will make a statement. [168896]

Jacqui Smith: My officials have participated in discussions with US counterparts about EU regulations on the chemicals industry. This has included proposals for new regulations controlling the manufacture, use or import of chemicals into the EU, known as the REACH system (Registration, Evaluation and Authorisation of Chemicals). The Government consider it essential that the new system be compatible with member state and EU commitments under the World Trade Organisation (WTO), relevant multilateral environment agreements such as the Stockholm and Rotterdam Conventions, the Globally Harmonised System of classification and labelling and with other existing complimentary legislation. The Government are committed to continuing dialogue with our trade partners on this issue.

Civil Partnerships

Mr. Leigh: To ask the Secretary of State for Trade and Industry whether the Civil Partnership Bill allows *(a)* religious ceremonies for same-sex civil partnerships and *(b)* partnerships to be registered in religious premises. [169016]

Ms Hewitt: Clause 2 of the Civil Partnership Bill would ensure that no religious service is to be used while the civil partnership registrar is officiating at the signing of a civil partnership document. Clause 6 would prohibit same-sex couples registering as civil partners of each other in religious premises.

It would be open to individual religious faiths to decide for themselves if they wished to offer a service of blessing after the formation of a civil partnership.

Coal Industry

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry how much money has been provided in subsidy to the UK coal mining industry in each of the last 10 years for which figures are available; and if she will make a statement. [168057]

Mr. Timms: The following table shows Government financial support for the coal industry in the financial years from 1994–95 to 2003–04. These figures exclude the impact of debt write-offs and proceeds at the privatisation of British Coal and payments made in respect of inherited liabilities following that privatisation, such as health claims.

As shown, almost £165 million was paid to eligible coal producers under the UK Coal Operating Aid Scheme between 2000 and 2002. In June 2003, the Government introduced Coal Investment Aid (CIA), which aims to create or safeguard jobs within socially and economically disadvantaged areas in the UK by supporting investment projects, which will maintain access to viable reserves. It has a total budget of £60 million available for award over three years. Offers of CIA worth £40 million were accepted by coal producers following the first period for receipt of applications. This will be paid in stages as the projects proceed. The first £0.4 million of payments were made before the end of the financial year. The second application period is now open; it will close on 1 June 2004.

Government financial support to the coal industry

Financial year	*Total grants (£ million)*
1994–95	205
1995–96	0
1996–97	0
1997–98	0
1998–99	0
1999–2000	0
2000–01	76.5
2001–02	61.6
2002–03	26.6
2003–04	0.4

Construction Industry

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if her Department will carry out an investigation into the insolvency of Ballast UK to determine whether there have been breaches of insolvency law. [168917]

Mr. Sutcliffe: There is no UK company registered as Ballast UK. There is a company called Ballast plc, which is a wholly-owned subsidiary of a Dutch company, Ballast Nedam NV, and which went into Administration on 15 October 2003.

The administrator has a statutory duty to report to the Secretary of State on the conduct of the directors, and this is usually received by the Insolvency Service within six months of the appointment date. In the case of Ballast plc the administrator has not yet submitted his report. However, once this is received it will be reviewed by The Insolvency Service to ascertain whether disqualification proceedings are in the public interest.

Disqualification can be for a period of up to 15 years and bars individuals from taking part in the management of a limited company.

Departmental Budget

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the *(a)* DEL resource budget, *(b)* AME resource budget and *(c)* total resource budget of her Department were for each year between 1997 and 2007. [168608]

Ms Hewitt: These figures are published in "Central Government Supply Estimates 2004–2005 Supplementary Budgetary Information" (April 2004, Cm 6133) for the period 1998–99 to 2005–06. Figures on a resource basis are not available for years prior to 1998–99. Budgets for 2006–07 and 2007–08 will be published later in the year after the conclusion of the 2004 Spending Review. All figures shown exclude capital.

£000

	DEL resource budget	*AME resource budget*	*Total resource budget*
1998–99	3,008,248	232,462	3,240,710
1999–2000	3,822,508	770,790	4,593,298
2000–01	5,860,121	822,572	6,682,693
2001–02	5,298,002	1,189,072	6,487,074
2002–03	3,832,749	3,223,632	7,056,381
2003–04	4,817,597	2,251,743	7,069,340
2004–05	4,808,961	281,569	5,090,530
2005–06	5,325,511	535,657	5,861,168

Notes:

1. The increase in the DEL resource budget in 2000–01 and 2001–02 compared to earlier years represents additional provisions for coal health claims. Part of the 2001–02 increase resulted from change in the rate used for discounting liabilities from 6 per cent. to 3.5 per cent. From 2002–03 these liabilities were reclassified as AME resource budget.
2. The increase in the DEL resource budget from 2002–03 represents increased spending on science as well as the regional development agencies. This trend continues into 2005–06.
3. The changes in the AME resource budget in 2001–02, 2002–03 and 2003–04 mainly represent additional provisions for nuclear clean-up. Part of the 2001–02 increase resulted from a change in the rate used for discounting liabilities from 6 per cent. to 3.5 per cent.
4. Changes in provisions are, by their nature, unknown until they occur. Consequently the 2004–05 and 2005–06 AME resource budget figures are much lower.

Energywatch

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what training Energywatch staff receive; and what assessment is made of their energy knowledge *(a)* before being able to advise consumers and *(b)* throughout their employment. [168871]

Mr. Timms: The management of its staff is a matter for Energywatch. I understand that the Chief Executive of Energywatch will write to the hon. Member about the matters he has raised.

Equal Pay

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what plans her Department has to require businesses to carry out equal pay reviews. [168889]

Ms Hewitt: The Government have adopted a voluntary approach to pay reviews outside of the civil service and believes it is in firms' best interest to do pay reviews. We believe that the best way to achieve lasting change is through working alongside the business community to promote voluntary equal pay reviews.

We are working with the Equal Opportunities Commission, Opportunity Now, trade unions and employers to meet our target of 35 per cent. of large organisations completing pay reviews by 2006. We have provided funding for the EOC to develop equal pay toolkits for both large and small employers and funding for trade unions to train representatives in equal pay issues. We are also supporting the EOC's sectoral approach to promoting pay reviews.

The EOC's latest findings show that 45 per cent. of large employers had completed an equal pay review, were in the process of completing one or were planning to do so in 2004. Among those that had carried out a pay review or were planning to do one, 41 per cent. said that Government policy and publicity had influenced them.

EU Social Chapter

James Purnell: To ask the Secretary of State for Trade and Industry if she will make a statement on the effect of the EU Social Chapter on the residents of Stalybridge and Hyde. [168744]

Mr. Sutcliffe: The residents of Stalybridge and Hyde have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to parental leave, which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full-time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the fixed term work directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council directive which requires companies with at least 1,000 employees in total and at least 150 workers in each of the two member states, to establish structures for consulting workers on issues that affect them and;

in addition, the information and consultation of employees directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

European Directives

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what research her Department has carried out on the implementation of European Directives by other member states; and if she will make a statement. [169177]

Jacqui Smith: The DTI has not done any recent research on this subject. Information on transposition of EU Directives in all member states can be found on the European Commission's website at: www.europa.eu.int/comm/secretariat_general/sgb/droit_com/index_en.htm# transpositions.

In November 2003, the Foreign and Commonwealth Office published a report by Mr. Robin Bellis (an independent consultant) that compared transposition of EU legislation in the UK, France, Spain and Sweden—please refer to my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs' statement to the House on 11 February 2004, *Official Report*, column 1417.

Flexible Working

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what plans her Department has to extend legislative provisions on flexible working. [168893]

Mr. Sutcliffe: The current Employment Relations Bill includes a technical clause to address original drafting oversights to the flexible working law concerning protections against unfair dismissal.

The Government are committed to reviewing the impact of the flexible working law and has no plans to extend the provisions of the law until after the review in 2006. Currently, the law provides eligible parents of children under six and disabled children under 18 with a legal right to apply to work flexibly. An issue that the review will consider, which my right hon. Friend the Prime Minister has indicated should be a priority, is extending the law to wider groups of carers, such as carers of elderly or sick relatives.

Fund Managers

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what plans she has to require fund managers to disclose how they vote at annual meetings. [168894]

Jacqui Smith: The Government are committed to improving the voting processes in public companies as an important means of promoting better engagement by all shareholders in the companies in which they invest. We therefore welcomed Paul Myners' report to the Shareholder Voting Working Group, published on 3 February 2004.

As we stated in the White Paper on Modernising Company Law, while in principle we believe that it would be in the public interest to require institutional investors to disclose how they have voted their shares, there are practical difficulties in implementing such a requirement through company law. We are therefore still giving detailed consideration to the Company Law Review proposals in this complex area and will set out our position in due course.

Funeral Directors

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many complaints were made to the Director General of Fair Trading concerning the conduct of funeral directors in each year since 1997; how many such complaints were investigated by the Director General in each year; how many were upheld in each year; how many funeral directors have been banned as unfit to practise by the Director General of Fair Trading since 1997; and if she will publish the list of banned funeral directors. [168665]

Mr. Sutcliffe: I will ask the Chairman of the Office of Fair Trading to write to the hon. Member.

Gas Supplies

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry (1) what assessment she has made of how much gas the UK will import in each of the five years from 2006; and if she will make a statement; [168052]

(2) what assessment she has made of the UK's total gas requirements in each of the five years from 2006; and if she will make a statement; [168053]

(3) what assessment she has made of the likely level of production of indigenous gas in each of the five years from 2006; and if she will make a statement. [168054]

Mr. Timms: The Department periodically produces projections of UK gas production and demand. Recent projections of both were published in the third report of the Joint Energy Security of Supply Working Group (available for download from http://www.dti.gov.uk/energy/jess/index.shtml). Chart 3 shows of projection of annual gas production from the UK Continental Shelf together with demand projections by both DI and National Grid Transco. Later production projections for the years through to 2009 have been made and are available on the Department's Oil and Gas website at http://www.og.dti.gov.uk/information/bb_updates/chapters/section4_17.htm. These and updated projections of gas demand, which are currently being prepared by DTI for publication in a working paper next month, are expected to be included in the fourth JESS report, which is also expected to be published in May 2004.

We currently export gas to Ireland, from the Markham and Windermere fields directly to The Netherlands and, at time of low UK demand, through the Bacton-Zeebrugge Interconnector to the Continent. However, at times of peak demand, the UK is already a net importer of gas, with imports direct from Norway and through the Interconnector. Recent projections indicate that we are likely to be net importers of gas on an annual basis by around 2006 with a growing import

requirement thereafter. The Department has not made a projection of gross imports, which will be significantly higher than net imports.

Libya

Mr. Evans: To ask the Secretary of State for Trade and Industry how many British companies are still owed money from projects in Libya; and what estimate she has made as to the amount of money still owed. [166738]

Mr. Mike O'Brien: Officials are not aware of any significant cases of British companies who are still owned money from projects in Libya. However, we are ready to provide whatever assistance we can to British companies who find themselves in this position.

Miners' Compensation

John Mann: To ask the Secretary of State for Trade and Industry how much has been paid in fees, and for how many individual cases, under the miners' compensation scheme for *(a)* vibration white finger and *(b)* chronic obstructive pulmonary disease, broken down by solicitor. [168473]

Nigel Griffiths *[holding answer 26 April 2004]:* The information is as follows:

Respiratory Disease

Claimants representative[1]	*Cost paid (£ million)*[2]	*Number of claims*
Beresfords	8.9	79,964
Thompsons	38.5	57,340
Hugh James Ford Simey	38.6	56,828
Raleys	27.5	50,164
Avalon	0.6	36,604
Browell Smith & Co.	15.3	32,188
Mark Gilbert Morse	13	25,917
Union of Democratic Mineworkers	9	17,252
Watson Burton	8.8	14,154
Barber & Co.	0.09	13,769

[1] Top 10 solicitors are in descending order and based on the number of claims received.

[2] Solicitor's costs include VAT on solicitor's costs and disbursement but exclude generic costs.

Vibration White Finger

Claimants representative[1]	*Cost paid (£ million)*[2]	*Number of claims*
Thompsons	9	29,968
Browell Smith & Co	8.6	16,476
Beresfords	3.1	11,648
Union of Democratic Mineworkers	5.5	11,610
Raleys	6.5	11,282
Hugh James Ford Simey	5.8	10,640
Graysons	3.7	8,683
Moss	2.9	7,279
Watson Burton	3.1	5,937
AMS Law	1.8	5,327

[1] Top 10 solicitors are in descending order and based on the number of claims received.

[2] Solicitor's costs include VAT on solicitor's costs and disbursement but exclude generic costs.

John Mann: To ask the Secretary of State for Trade and Industry what action has been taken to claw back payments to solicitors who have imposed additional charges on their clients for work under the miners' compensation scheme for vibration white finger and chronic obstructive pulmonary disease. [168474]

Nigel Griffiths *[holding answer 26 April 2004]:* I have written to solicitors twice asking them to repay any fees taken from clients on top of the fee they received from the DTI. Those who have failed to reply were removed from the DTIs list of solicitors and were referred to the Law Society.

The Government welcome the decision taken by the Law Society, as the solicitors regulator, that it was against their code of practice for solicitors to charge clients for making compensation claims where the DTI is meeting solicitors' costs. DTI officials continue to meet with the Law Society to progress matters.

John Mann: To ask the Secretary of State for Trade and Industry which *(a)* solicitors and *(b)* claims handlers have been notified to her Department in relation to additional charging for dealing with vibration white finger and chronic obstructive pulmonary disease miners' compensation cases. [168480]

Nigel Griffiths *[holding answer 26 April 2004]:* Complaints regarding double charging by solicitors who are processing claims under the British Coal health schemes are the responsibility of the solicitors' regulator, the Law Society.

I am informed that some 173 complaints have been notified to the Law Society. Of these 63 have been concluded, which have led to repayments being to made to 23 claimants.

In addition I have informed the Law Society of those solicitors who failed to respond satisfactorily to my letters relating to double charging.

National Allocation Plan

Norman Baker: To ask the Secretary of State for Trade and Industry what involvement she has had and what position she has taken on the setting of the carbon dioxide reduction target relative to 1990 levels within the National Allocation Plan to implement the EU Emissions Trading Directive. [167752]

Mr Timms: I have been closely involved in and fully support the decision published in the draft National Allocation Plan (NAP) on setting the overall allocation of allowances for the first phase of the EU Emissions Trading Scheme (EU ETS) on the projected level of UK emissions, taking into account the Climate Change Programme's planned reduction from emissions trading. While the modelling used for the draft NAP indicated this approach would be equivalent to a 16.3 per cent. reduction in emissions of carbon dioxide over 1990 levels by 2010, the draft NAP indicated that emissions projections were continuing to be refined and the overall level of allowances to be included in the final NAP to be submitted to the Commission would be reviewed in the light of the latest projections. Revisions to projections will be reflected in the NAP to be submitted to the European Commission. We further expect to publish a working paper on the overall emissions projections in May and a final set of emissions projections in June which will be used for calculating final allocations. As a result, the overall percentage

reduction in the carbon dioxide emissions over 1990 levels covered by the NAP will almost certainly change to reflect that work.

New Businesses

Mr. Kaufman: To ask the Secretary of State for Trade and Industry how many new businesses have started up in Manchester, Gorton since 1997. [167351]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 115,000 business start-ups in England and Wales, including 1,000 in Manchester local authority (which contains the constituency of Gorton), in the fourth quarter of 2003. The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before. There were 4,800 business start-ups in Manchester local authority in 2003. Data for local authorities are not available for before 2003.

DTI figures based solely on VAT registrations for Manchester local authority (which contains the constituency of Gorton) are shown for the period 1997 to 2002. Data for 2003 will be available in autumn 2004

VAT registrations: 1997–2002

	Manchester
1997	1,595
1998	1,580
1999	1,585
2000	1,465
2001	1,335
2002	1,275

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2002, Small Business Service

VAT registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Mr. Kaufman: To ask the Secretary of State for Trade and Industry what steps the Government has taken to help small businesses in Manchester, Gorton since 1997. [167352]

Nigel Griffiths: The Business Link Operator for Manchester (Chamber Business Enterprises) has provided assistance to 164 businesses in the Gorton constituency since 2001. The Small Business Service was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 business Link Operators (seven in the North West) to provide Business Support to small and medium sized enterprises from April 2001. Before this date Government Support to businesses was provided through Training and Enterprise Councils and the Small Business Service does not have access to this data.

The assistance provided to the 164 companies include, Business Finance, High Growth start up, Supply chain, Workforce Development, Micro start up assistance, E-Services, Innovation technology and design, International, Environmental advice, and other account Management assistance.

Mr. Kilfoyle: To ask the Secretary of State for Trade and Industry how many new businesses were created in Liverpool, Walton in each year between 1997 and 2003. [166971]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 115,000 business start-ups in England and Wales in the fourth quarter of 2003. There were 3,500 business start-ups in Liverpool and Knowsley local authorities (Liverpool local authority contains the constituency of Walton) in 2003.The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before. Data for local authorities are not available for before 2003. Data for Liverpool local authority are not available separately.

DTI figures based solely on VAT registrations for Liverpool local authority (which contains the constituency of Walton) are shown in the table for the period 1997 to 2002. Data for 2003 will be available in autumn 2004.

VAT registrations: 1997–2002

	Liverpool
1997	910
1998	960
1999	870
2000	900
2001	805
2002	835

Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Jim Dobbin: To ask the Secretary of State for Trade and Industry (1) how many new businesses have started up in Heywood and Middleton since 1997; [168523]

(2) how many new businesses have been established in Heywood and Middleton since 1997. [168525]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 115,000 business start-ups in England and Wales, including 400 in Rochdale local authority (which contains the constituency of Heywood and Middleton), in the fourth quarter of 2003. The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before. There were 1,400 business start-ups in Rochdale local authority in 2003. Data for local authorities are not available for before 2003.

DTI figures based solely on VAT registrations for Rochdale local authority (which contains the constituency of Heywood and Middleton) are shown for the period 1997 to 2002. Data for 2003 will be available in autumn 2004.

VAT registrations: 1997–2002

	Rochdale
1997	480
1998	455
1999	440
2000	430
2001	455
2002	465

Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

James Purnell: To ask the Secretary of State for Trade and Industry how many new businesses have started up in Stalybridge and Hyde since 1997. [168747]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 115,000 business start-ups in England and Wales, including 400 in Tameside local authority (which contains the constituency of Stalybridge and Hyde) in the fourth quarter of 2003. The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before. There were 1,900 business start-ups in Tameside local authority in 2003. Data for local authorities are not available for before 2003.

DTI figures based solely on VAT registrations for Tameside local authority (which contains the constituency of Stalybridge and Hyde) for the period 1997 to 2002 are shown in the table. Data for 2003 will be available in autumn 2004.

VAT registrations: 1997 to 2002

	Tameside local authority
1997	500
1998	550
1999	445
2000	530
2001	470
2002	460

Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Northwest Development Agency

Andy Burnham: To ask the Secretary of State for Trade and Industry how much money the Northwest Development Agency has spent in total since its creation in *(a)* each local authority in the North West and *(b)* each parliamentary constituency in the North West. [167656]

Jacqui Smith *[holding answer 26 April 2004]:* The Northwest Development Agency does not collate data by local authority area or parliamentary constituency.

The total NWDA funding for each year since its creation is as follows:

	£ million
1999–2000	234
2000–01	176
2001–02	292
2002–03	306

Oil Prices

Mr. Bellingham: To ask the Secretary of State for Trade and Industry if she will make a statement on her assessment of the impact of the oil price on business investment in the UK. [168890]

Mr. Timms: The price of oil is just one of many factors that affects the level of business investment in the UK economy, and for most sectors is a less important factor than, for instance, the cost of capital or profitability. Moreover, although international oil prices have been relatively high over the last year, the fall in the value of the US dollar has helped the sterling oil price rise less steeply.

The Department's assessment therefore is that high recent international oil prices have impacted little on overall investment levels within the UK. Indeed the most recent investment data show business investment in the UK rising during each of the last three quarters of 2003.

Procurement Policy

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will make a statement on the corporate social responsibility requirements of her Department's procurement policy. [168670]

Ms Hewitt: As the sponsoring Department for business the DTI vision for corporate social responsibility is to see companies take account of their economic, social and environmental impact in the way they operate, maximising the benefits and minimising the downsides. Naturally, the Department is keen to reflect these practices. We are working closely with Defra to push forward the sustainable development in procurement agenda and through our Small Business Service and in partnership with the Office of Government Commerce, we seek to improve accessibility of Government contracts to small and medium enterprises, including those owned by ethnic minorities and women.

Regional Development Agencies

Bob Russell: To ask the Secretary of State for Trade and Industry what plans she has to make Regional Development Agencies democratically accountable to the community in which they operate. [167289]

Mr. Raynsford: I have been asked to reply.

The Government's policy on regional governance, including the role of Regional Development Agencies, was set out in the White Paper, "Your Region, Your Choice" published in May 2002 (cm 5511).

In those regions which vote to establish an elected regional assembly, the Regional Development Agency will become a functional body of the elected assembly and so, directly accountable to it.

In those regions which do not have an elected assembly, the existing regional chambers, made up of local authority representatives and social and economic partners, will continue to scrutinise the work of the Regional Development Agency.

Renewable Energy

Mr. Frank Field: To ask the Secretary of State for Trade and Industry if she will make a statement on the effect of recent trends in investment in renewable energy upon residents of Birkenhead. [166614]

Mr. Timms: As I far as I am aware recent trends in investment have not led directly to new renewables capacity in Birkenhead itself. However, there are a number of development not far from Birkenhead.

In 2003 my Department awarded a capital grant of £10 million to Seascape Energy towards the costs of developing the Burbo Bank offshore wind farm in Liverpool Bay.

In 1999, Mersey Docks and Harbour Company were awarded a contract under the Non Fossil Fuel Obligation (NFFO) arrangements for electricity to be generated from six 600 kW wind turbines in Seaforth Dock.

A grant of £11,759.50 was awarded to Cosmopolitan Housing Association under stream 1 of the DTIs Photovoltaic (PV) Major Demonstration Programme for a project in Liverpool.

A grant of £94,647 was awarded under the DTIs PV Domestic Field Trial to CDS Housing for a project at Pinehurst Estate, Liverpool.

A grant of £1,250 was awarded to Liverpool county council under the DTIs Clear Skies scheme for a community project in Liverpool.

Some initiatives relating to the North West region as a whole may result in benefits for Birkenhead. In 2000–01, the DTI contributed £50,000 towards a study of the potential for renewable energy throughout the North West region. Between 2002–04, the DTI contributed £208,060 towards a regional renewable energy planning facilitation fund administered through the Government Office for the North West.

Rogue Recruitment Agencies

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what action her Department is taking to tackle the activities of rogue recruitment agencies; and if she will make a statement. [168895]

Mr. Sutcliffe: The DTIs Employment Agency Standards Inspectorate enforces the legislation regulating the activities of the private recruitment industry. Inspectors visit agencies' premises to examine their records. The Inspectorate can prosecute an agency found to be in breach of the legislation and the maximum fined is £5,000 for each offence. It can also apply to an employment tribunal for an order prohibiting an individual from operating an agency or employment business for up to 10 years.

I remain committed to tackling the problem of those agencies and employment businesses that breach legislation governing their industry. To this end, we have recently completely overhauled the Conduct Regulations the Inspectorate enforce and undertaken a number of innovative activities to help ensure migrant workers do not fall victim to rogue employment agencies. Moreover, Employment Agency Standards Inspectors follow up every complaint received concerning breaches of the employment agency legislation and also undertake spot checks.

Rural Post Offices

Mr. Carmichael: To ask the Secretary of State for Trade and Industry (1) when the Government will announce the level of financial assistance they are to provide to rural post offices after April 2006; [169128]

(2) when her Department will publish the report completed by Postcomm in July 2003 on funding for postal services in rural areas after 2006; and if she will make a statement. [169129]

Mr. Timms *[holding answers 27 April 2004]:* The Cabinet Office Performance and Innovation Unit (PIU) report on the future of the post office network recommended that the Postal Services Commission should advise the Government on the main options for the policy framework after 2006. The Government are currently considering that policy advice, which was submitted in confidence, and will take decisions on the shape of the rural post office network after 2006 in good time to allow for a smooth transition from the current support arrangements. The Government have no plans to publish Postcomm's advice at present.

Scottish Power

Mr. George Osborne: To ask the Secretary of State for Trade and Industry what meetings Ministers in her Department have had with representatives of Scottish Power to discuss its proposed gas storage plant at Byley, Cheshire. [168715]

Mr. Timms: Ministers meet energy companies from time to time to discuss the evolving energy scene and development of energy policy.

I met the chief executive of Scottish Power in March. We did not discuss the Byley proposal.

Shareholders

Mr. Bellingham: To ask the Secretary of State for Trade and Industry what plans her Department has for new legislation to protect shareholder investors from misrepresentations by company executives. [168900]

Jacqui Smith: It is already an offence under existing legislation for directors who, recklessly or knowingly, approve annual accounts which do not comply with the requirements of the Companies Act 1985. Directors can also be guilty of an offence where a directors' report is prepared which does not comply with the Companies Act 1985. Directors may, of course, also be liable to the company if accounts and reports are approved which do not represent a true and fair view.

The Companies (Audit, Investigations and Community Enterprise) Bill currently before Parliament also strengthens audit and accounting requirements, including the ability of auditors to acquire information.

In addition, the Financial Services Authority (FSA) has the power to issue a private warning, public censure and unlimited fine on companies for breaches of the Listing Rules and on their directors who were knowingly concerned in such breaches. The FSA also has the power to publicly censure or impose an unlimited fine on anyone, whether they are authorised or not, who engages in market abuse as defined under the Financial Services and Markets Act 2000. The FSA can also take action under Section 397 of Financial Services and Markets Act 2000 (Misleading Statements and Practices), which makes it a criminal offence to engage in the following activities: *(a)* making a statement, promise or forecast which he knows to be misleading, false or deceptive; *(b)* dishonestly concealing any material facts whether in connection with a statement, promise or forecast made by him or otherwise; or *(c)* recklessly makes (dishonestly or otherwise) a statement, promise or forecast Which is misleading, false or deceptive.

Small Business

Jim Dobbin: To ask the Secretary of State for Trade and Industry what steps the Government have taken to help small businesses in Heywood and Middleton since 1997. [168524]

Nigel Griffiths: The Business Link Operator for North Manchester has provided assistance to 499 businesses in the Heywood/Middleton constituency since 2001. The Small Business Service was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 Business Link Operators (seven in the North West) to provide Business Support to small and medium sized enterprises form April 2001. Before this date Government Support to businesses was provided through Training and Enterprise Councils and the SBS does not have access to this data.

The assistance provided to the 499 companies include; Business Finance, Environmental, E services, High Growth, International, Innovation, Micro support, supply chain, Workforce development and other account management assistance.Under the Research and Development Scheme (R&D) four offers have been made and accepted to the value of £264,930.

Under the Enterprise Grant Scheme (EGS), which has now come to a close (April 2004) nine offers of grant were made and accepted with a value of £355,100.

James Purnell: To ask the Secretary of State for Trade and Industry what steps the Government have taken to help small businesses in Stalybridge and Hyde since 1997. [168746]

Nigel Griffiths: The Business Link for Greater Manchester (Chamber Business Enterprises) has provided assistance to 688 businesses in the Hyde and Stalybridge constituency since 2001. The Small Business Service was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 Business Link operators (seven in the North West) to provide business support to small and medium-sized enterprises from April 2001. Before this date government support to businesses was provided through Training and Enterprise Councils and the SBS does not have access to this data.

The Business Link operator has provided business start-up advice to over 113 companies in the Stalybridge and Hyde area; in addition they have provided assistance in the following areas, business finance, environmental, E services, high growth, international, innovation, technology and design, supply chain, micro support and workforce development and other account management assistance.

Under the research and development grant (R&D) two offers have been made and accepted to the value of £99,900.

Social Entrepreneurship

Mr. Drew: To ask the Secretary of State for Trade and Industry what support her Department is giving to schemes to encourage social entrepreneurship. [168360]

Ms Hewitt: The Department's support for social entrepreneurship is set out in "Social Enterprise: a strategy for success", published in 2002, and last year's "Progress Report".

Support for social enterprises is, for example, one element of the Phoenix Fund which promotes enterprise in disadvantaged communities and under-represented groups. It helps social enterprises to gain better access to business support and to finance through Community Development Finance Institutions.

Help and advice for those interested in setting up social enterprises is available through Business Link and specific programmes such as the Phoenix Development Fund, which supports a Social Enterprise Visit Programme that facilitates shared learning through the exchange of ideas and experience across the sector.

The Department also supports awards schemes, such as "Enterprising Solutions: the National Social Enterprise Award", that aim to inspire others by showcasing the exceptional entrepreneurial talents harnessed for public benefit by successful social enterprises. .

Software Piracy

Michael Fabricant: To ask the Secretary of State for Trade and Industry (1) what steps she is taking to combat computer software piracy by businesses; and if she will make a statement; [168910]

(2) what plans she has to implement the EU Enforcement Directive to control business software piracy; [168911]

Ms Hewitt: Rights holders in the UK have a comprehensive range of civil remedies to pursue enforcement activity against businesses that make and use illegal copies of computer software. The EC Directive on enforcement of intellectual property rights will ensure that similar provision exists throughout the Community. However, reducing illegal use of copyright material, including software, within businesses can be addressed in the first instance by improved awareness and understanding about intellectual property. In this respect, the awareness-raising activity the Patent Office undertakes is valuable. This should complement the awareness-raising activity undertaken by trade bodies such as the Federation Against Software Theft and the Business Software Alliance.

Sub-Post Offices

Mr. Meale: To ask the Secretary of State for Trade and Industry if she will list by region, the amounts of compensation paid in the last 12 months to sub postmasters and mistresses connected with the closure of their establishment; [168852]

(2) how many sub-post offices which in the past 12 months the organisation Postwatch has recommended be kept open, have subsequently been closed, broken down by region. [168988]

Mr. Timms: These are operational matters for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Mr. Meale: To ask the Secretary of State for Trade and Industry how many sub-post offices closed in the UK in the past 12 months, broken down by region. [169136]

Mr. Timms: Post Office Ltd. produces statistics on post office closures on a quarterly basis. The latest data on net closures by region currently available is to the end of December 2003. Data for the quarter to end March 2004 is expected shortly.

Net post office closures by country/region for the nine months to end December 2003

Country/region	*Number*
North East	32
North West	99
Yorkshire and Humberside	62
West Midlands	58
South West	75
South East	122
London	89
East of England	61
East Midlands	66
Northern Ireland	18
Scotland	43
Wales	49

Trade (United Arab Emirates)

Huw Irranca-Davies: To ask the Secretary of State for Trade and Industry what steps are being taken to improve trade between the United Arab Emirates and the UK. [168573]

Mr. Mike O'Brien: The UK has a substantial trading relationship with the UAE. UK exports of visible goods to the UAE totalled £2,080.6 million in 2003, an increase of 29 per cent. over the previous year. UK Trade and Investment works closely with all Posts in the country (in Abu Dhabi and Dubai) to support British companies wishing to expand their activities in this market. For example, there are plans to support 35 exhibitions and trade mission to the UAE this financial year. This will allow over 1,200 UK companies to access the market with UK Government support.

UK Trade and Investment has also worked with industry to identify eight priority sectors in which bespoke sector specific activities will be undertaken.

Written Answers to Questions

Thursday 29 April 2004

LEADER OF THE HOUSE

Members' Salaries

Mr. Burnett: To ask the Leader of the House how much was paid in salaries and allowances to hon. Members *(a)* including and *(b)* excluding payments to Ministers in each year since 1996–97. [169457]

Mr. Woolas: The cost of salaries and allowances, excluding ministerial payments are as follows:

£000

	MP salaries and related costs[1]	*Allowances*[2]
Cash basis		
1996–97	28,883	45,894
1997–98	39,060	49,368
1998–99	32,436	47,237
1999–2000	34,167	47,647
2000–01	35,117	49,066
Resource basis		
2001–02	40,856	66,745
2002–03	39,801	75,412

[1] This includes: Members' salaries; salaries of the Chairman of Ways and Means and deputies; social security costs; and the London supplement.

[2] Allowances include: office costs allowance; incidental expenses provision; Members' staffing budget; additional costs allowance; travel (including to EU institutions); winding-up allowance.

Information is not yet available for 2003–04. Following the introduction of resource accounting, figures for 2001–02 and 2002–03 are not directly comparable with those for 2000–01 and earlier years.

Ministerial salaries are paid directly by their respective Government Department. Records of ministerial pay are not held centrally and do not distinguish between Lords and Commons Ministers. The information requested could therefore be provided only at disproportionate cost.

TRANSPORT

A43

Mr. Boswell: To ask the Secretary of State for Transport if he will close the A43 between Brackley and Towcester on Friday 9 July. [169643]

Mr. Jamieson: We are examining carefully the arguments that have been made both for and against closure of the A43 trunk road on the pre-race day of Friday 9 July to facilitate access in and out of the Silverstone circuit.

The Inter Agency Working Group that is looking at all the issues involved is due to meet again on the 4 May and the Chairman of that group has been asked to give specific attention to the traffic management, travel and cost implications of a Friday closure.

A decision will be announced once I have received the report of that meeting and am in a position to make a decision.

Mobile Phone Use

Mrs. Betty Williams: To ask the Secretary of State for Transport what assessment he has made of the level of compliance of motor vehicle drivers with the legislation forbidding the use of a mobile telephone when driving; and what further steps he will take to improve compliance. [168867]

Mr. Jamieson: The Department has been undertaking regular surveys of the use of mobile phones while driving. The last survey carried out in October 2003 before the new offence was introduced showed that 1.9 per cent. of drivers were using a hand-held phone, and 0.5 per cent. a hands-free phone. The results from the most recent survey this month are not yet available.

The Department will continue to publicise the dangers of using mobile phones when driving. Radio advertising is planned for May, July, August and November and cinema advertising in September and January 2005. The message will be reinforced through the Department's sports sponsorship programme. The police are responsible for enforcing the law.

Road Deaths/Injuries (Manchester)

Mr. Kaufman: To ask the Secretary of State for Transport what the percentage change in *(a)* deaths and *(b)* serious injuries on the roads of Manchester, Gorton has been since 1997. [167306]

Mr. Darling: The available information relates to local authority areas. For the Manchester metropolitan district (which includes the constituency of Manchester, Gorton) the number of deaths in road accidents fell by 53 per cent. from 32 in 1997 to 15 in 2002, the latest year for which information is available. The number of serious injuries rose by 3 per cent., from 244 in 1997 to 252 in 2002. Estimates on the basis of parliamentary constituencies will become available in the summer and I shall write to my right hon. Friend with figures for Manchester, Gorton and place a copy of my letter in the Libraries of the House.

Road Schemes (South-West)

Mr. Walter: To ask the Secretary of State for Transport how much money has been committed to date by the Government Office for the south west for the Bristol/Bath to South Coast Roads Study. [168829]

Mr. Jamieson: Up to 5 April 2004, the amount committed on the Bristol/Bath to South Coast Study was £247,682.77.

Transport Infrastructure (Manchester)

Mr. Kaufman: To ask the Secretary of State for Transport if he will make a statement on the effect of investment in railway improvements over the next 10 years upon residents of Manchester, Gorton. [167309]

Mr. Darling: Residents of Manchester will benefit from the new TransPennine Express franchise, which commenced in February. The franchise secures investment of around £260 million which will include the introduction of a new fleet of 100 mph diesel trains leading to increased capacity, improved service quality and performance across the region. A new northern franchise, which will include local and regional services through Manchester, is out for tender. Work continues on the west coast main line upgrade, which will see a reduction in journey times on services to/from Manchester and an increase in service frequency.

US Air Travel

Mrs. Dunwoody: To ask the Secretary of State for Transport if he will hold urgent talks with the US Administration on the exchange of private details, with particular reference to credit card numbers, for British passengers travelling to the USA by air. [168258]

Mr. Darling: The European Commission is leading the negotiations on the processing and transfer of airline Passenger Name Record data. We are in close discussions with our EU partners to consider how to proceed following referral of the proposed EU-US agreement to the European Court of Justice. I have also raised this with the US Secretary for Transportation at a meeting with him in March.

TREASURY

Administration Costs

Mr. Letwin: To ask the Chancellor of the Exchequer what progress has been made in lowering administration costs as a proportion of total spending since the 2004 Budget Statement. [168600]

Mr. Boateng: I refer the right hon. Member to the answer I gave him on 19 April 2004 in answer to his question 165021 showing that administration costs are to fall to a planned 3.7 per cent. of total spending by 2008.

Central Lobby Consultants

Norman Baker: To ask the Chancellor of the Exchequer if he will list the work he has commissioned from Central Lobby Consultants since 1 June 2001. [163973]

Ruth Kelly: There is no payment to Central Lobby Consultants in HM Treasury records for this period.

Heavily Indebted Poor Countries

Mr. Battle: To ask the Chancellor of the Exchequer what representations he has made to the *(a)* World Bank, *(b)* IMF and *(c)* Paris Club creditors on increasing the debt cancellation available to the world's poorest countries, with particular reference to Iraq, through the heavily indebted poor countries process. [168609]

John Healey: The spring meetings of the International Monetary Fund (IMF) and the World Bank were held on 24–25 April 2004. All Paris Club creditors were represented at the meetings.

At the meetings, the UK stressed the importance of the Heavily Indebted Poor Countries (HIPC) Initiative in helping to provide a robust exit from unsustainable debt for the world's poorest countries. As part of this, the UK called for full topping up to be provided when countries face exogenous shocks, in order to bring their debt ratios back to the agreed HIPC thresholds. The UK also supported consideration of extension of the Initiative so that countries yet to enter the Initiative are able to benefit from HIPC debt relief. A number of countries—many of which are in the process of trying to exit conflict—have yet to reach Decision Point and benefit from HIPC relief. This could deliver an extra $30 billion in debt relief. Iraq is not eligible for the HIPC Initiative, and so will have relief for its external debt considered under the auspices of the Paris Club's Evian Approach. However, the Government's view is that Iraq's debt position is unsustainable and that a substantial reduction will be needed to restore them to sustainability. That is likely to require writing off the vast majority of Iraq's debts.

Public Expenditure/Taxation

Mr. Sanders: To ask the Chancellor of the Exchequer how much *(a)* public expenditure there was and *(b)* tax revenue was raised per head of population in each of the last seven years. [168430]

Mr. Boateng: Data on tax revenue and public expenditure over the past seven years are available in the public finances databank on the HM Treasury website. (www.hm-treasury.gov.uk/economic_data_and_tools/pubfinance/data_pubfinance_databank.cfm).

Population estimates are contained in the ONS publication, Population Trends 115, available on the ONS website (www.statistics.gov.uk/downloads/theme_population/PT115.pdf).

Treasury Building (Union Flag)

Miss McIntosh: To ask the Chancellor of the Exchequer for what reason the Union Flag was not flown above the Treasury on the Queen's Birthday on 21 April. [168801]

Ruth Kelly: The Union Flag was raised above the Treasury on the Queen's Birthday on 21 April.

UK Covered Bonds

Mr. Bellingham: To ask the Chancellor of the Exchequer what plans his Department has to draft legislation which would enable UK covered bonds to be put on an approved list that is compliant with the European Directive on Undertakings for Collective Investments in Transferable Securities; and if he will make a statement. [168892]

Ruth Kelly: The Financial Services Authority is considering the best way to enable covered bonds issued in the UK to be compliant with the UCITS Directive.

DEFENCE

Droitwich Spa Army Medal Office

Mr. Luff: To ask the Secretary of State for Defence if he will make a statement on the role of the Droitwich Spa Army Medal Office in the issuing of the Jubilee medal. [168919]

Mr. Caplin: The Army Medal Office (AMO) at Droitwich issues the Queen's Golden Jubilee Medal to those serving and discharged Army personnel who meet the qualifying criteria. The AMO assess eligibility and determine entitlement to the Jubilee Medal and, to date, it has issued 95,332 medals. The majority of those entitled to receive the medal have now received it.

Mr. Luff: To ask the Secretary of State for Defence if he will list the medals being issued by the Droitwich Spa Army Medal Office. [168921]

Mr. Caplin: The Army Medal Office at Droitwich is currently responsible for the issue or replacement of some 332 medals or awards. I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Medals

Mr. Luff: To ask the Secretary of State for Defence how many *(a)* Iraq and *(b)* GSM Canal Zone medals have been issued; and how many are expected to be issued during 2004. [168923]

Mr. Caplin: The information is as follows.

(a) Six.

(b) 6,30 land 777 clasps.

Note:
All figures as at 23 April.

It is difficult to estimate how many Iraq or Suez medals will be awarded in the coming months as it depends on applications. However, I can assure the hon. Member that medal offices will deal with applications as speedily and efficiently as possible.

MOD Sites (Portsmouth)

Mr. Hancock: To ask the Secretary of State for Defence (1) if he will make available information regarding contamination of land *(a)* owned and *(b)* formerly owned by his Department in the City of Portsmouth to Portsmouth City Council; [169409]

(2) what records his Department holds regarding contamination under the sites of former Ministry of Defence houses in Portsmouth. [169404]

Mr. Caplin: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Parliamentary Questions

Norman Lamb: To ask the Secretary of State for Defence pursuant to his answer of 31 March 2004, *Official Report*, column 1480W, on public perceptions, when he will write to the hon. Member for North Norfolk. [169731]

Mr. Caplin: I will write to the hon. Member within the next week.

Service Detainees (Far East)

Mr. Laurence Robertson: To ask the Secretary of State for Defence how many ex-servicemen who were detained by the Japanese have received ex-gratia payments under the terms of the 1951 San Francisco Peace Agreement; how many have not received ex-gratia payments; and if he will make a statement. [168051]

Mr. Caplin: The payment scheme under the 1951 Peace Treaty remains open, and claims in respect of eligible individuals who have not yet applied may still be made. Some 51,000 British Service personnel were detained by the Japanese during WW2. The payment records are held individually, and it would incur disproportionate cost to analyse them to provide the information requested.

As a result of the Ex Gratia Payment Scheme which this Government established in November 2000, 8,430 payments have been made to British Servicemen detained by the Japanese during the Second World War and 12,973 payments have been made to the widows or widowers of former servicemen or former civilian internees who qualify for the scheme.

Wind Farms

Mrs. Dunwoody: To ask the Secretary of State for Defence what assessment he has made of interference with Ministry of Defence navigational instruments from wind farms placed in UK territorial waters. [168234]

Mr. Caplin: I will write to my hon. Friend and place a copy of my letter in the Library of the House.

Mrs. Dunwoody: To ask the Secretary of State for Defence what assessment he has made of the risk to defence interests from the placement of wind farms around the UK coast. [168235]

Mr. Caplin: I will write to my hon. Friend and a copy of my letter will be placed in the Library of the House.

Mrs. Dunwoody: To ask the Secretary of State for Defence whether his Department has been asked to fund navigational aids to prevent his Department's vessels colliding with windmills. [168238]

Mr. Caplin: There has been no formal requirement placed on the Ministry of Defence to fund navigational aids to prevent Royal Navy vessels and other MOD owned or operated vessels colliding with offshore wind farms. The cost of correctly marking these structures by navigational buoys and lights is the responsibility of the owner and, as such, must comply with standards defined by the Maritime Coastguard Agency in conjunction with the General Lighthouse Authorities (Trinity House, Northern Lighthouse Board and Irish Lights).

HOUSE OF COMMONS

North West Food

Mr. George Osborne: To ask the Chairman of the Catering Committee whether the House plans to source

more food from North West food producers following the North West Food and Drink promotion in the House on 22 April. [168709]

Mr. Dennis Turner: In conjunction with North West Fine Foods, the Refreshment Department launched the two week North West Regional Food and Drink Promotion on 20 April. This is the second in a series of planned regional promotions.

I recognise the strong interest in the provenance of food and drink sold in the House. Regional promotions give small businesses a chance to raise awareness of their produce with wholesalers supplying the House, and other potential customers. I hope that some of the products that prove popular during the course of the promotion will, in future, be available for regular supply to the House.

HOUSE OF COMMONS COMMISSION

Departmental Expenditure

Mr. Burnett: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what the total expenditure incurred by the Commission was in each year since 1996–97. [169458]

Sir Archy Kirkwood: The total expenditure for each year as set out in the House's published annual accounts was:

£000

	Net cash expenditure	*Resource outturn*
1996–97	130,192	n/a
1997–98	145,228	n/a
1998–99	173,550	n/a
1999–2000	165,905	n/a
2000–01	162,538	n/a
2001–02	132,508	165,426
2002–03	138,328	180,006

Full information is not yet available for 2003–04. Prior to 2001–02 all reporting was on a cash basis only.

INTERNATIONAL DEVELOPMENT

Recycling

Tom Brake: To ask the Secretary of State for International Development what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content. [166662]

Mr. Gareth Thomas: All contracts issued in respect of DFID stipulate that the copying paper provided is to be 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content.

Tom Brake: To ask the Secretary of State for International Development what percentage of copying paper used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [166663]

Mr. Gareth Thomas: 100 per cent. of the copying paper used in DFID came from recycled sources. It is not possible to say how much post-consumer waste this contained. Our current recycled paper is made up from at least 75 per cent. post-consumer waste.

Tom Brake: To ask the Secretary of State for International Development what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [166664]

Mr. Gareth Thomas: The Department for International Development (DFID) routinely requires that the designers and printers under contract to produce DFID publications source paper that has a minimum of 75 per cent. recycled content.

Tom Brake: To ask the Secretary of State for International Development what percentage of paper for printed publications used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [166665]

Mr. Gareth Thomas: The Department for International Development does not hold this information centrally, and due to disproportionate cost we cannot supply this information.

However, DFID routinely requires that the designers and printers under contract to produce DFID publications source paper that has a minimum of 75 per cent. recycled content.

Tom Brake: To ask the Secretary of State for International Development when his Department expects to implement in full the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [166666]

Mr. Gareth Thomas: DFID has already met the quick win targets set by DEFRA in that all of our copying paper is 100 per cent. recycled with at least 75 per cent. post-consumer waste content.

DFID routinely requires that the designers and printers under contract to produce DFID publications source paper that has a minimum of 75 per cent. recycled content. We are in the process of amending design and print contracts, and are investigating joining the Department for Transport framework agreement for purchasing recycled paper, ensuring that we meet the quick win target for paper in printed publications.

Tom Brake: To ask the Secretary of State for International Development if he will list the Department's

main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports, in each case stating (i) the name of each paper used and (ii) the post-consumer recycled content of each paper. [166667]

Mr. Gareth Thomas: The information in the following table shows the details of the main suppliers to my Department for paper (separate suppliers for the two headquarter locations), stationery and envelopes.

Type	*Supplier*	*Comment*
Copier Paper (DFID London)	David John Papers Ltd. Unit 1A Middlegreen Trading Estate Middlegreen Road Langley Slough Berks SL3 7BL	Diplomat Recycled Paper. A4 80gsm 100 per cent. recycled of 100 per cent. post-consumer waste.
Copier Paper (DFID, Scotland)	Glenmore Dunfermline Business Park Rosyth Fife KY 2RN	Evolve Business Paper. 100 per cent. recycled. Minimum of 75 per cent. post-consumer waste.
Stationery	Banner Business Supplies PO Box 560St. Crispins Duke Street Norwich NR3 1SQ	No paper products supplied, only stationery.
	Guilbert Guilbert House 68–72 St John's Road Corstorphine Edinburgh EH12 SAT	No paper products supplied, only stationery
Envelopes	Banner Business Supplies Ltd. PO Box 560 St Crispins Duke Street Norwich NR3 1SQ	Banner Envelopes. 60–85 per cent. post consumer waste.
Paper for Reports (AH)	Glenmore Dunfermline Business Park Rosyth FIFE KY11 2RN	Evolve Business Paper. 100 per cent. recycled. Minimum of 75 per cent. post-consumer waste.
Paper for Reports (PS)	David John Papers Ltd. Unit 1A Middlegreen Trading Estate Middlegreen Road Langley Slough Berks SL3 7BL	Diplomat Recycled Paper. A4 80gsm. 100 per cent. recycled of 100 per cent. post-consumer waste
Paper for reports		The Department for International Development does not procure paper for its reports directly from paper merchants. However we routinely require the designers and printers of DFID publications to source paper that has a minimum of 75 per cent. recycled content.

St. Helena

Mr. MacDougall: To ask the Secretary of State for International Development whether a new constitution for St. Helena has been agreed. [165508]

Mr. Rammell: I have been asked to reply.

A new constitution for St. Helena has not yet been agreed. Discussions are ongoing between Foreign and Commonwealth Office officials and St. Helena Councillors with a view to having a new constitution in place in time for the next dissolution of the Legislative Council in July 2005.

CULTURE, MEDIA AND SPORT

Libraries (Digitisation)

Mr. Kaufman: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on the digitisation of content in libraries in Manchester, Gorton since 1997. [167345]

Mr. Pike: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on the digitisation of content in libraries in Burnley since 1997. [167902]

Estelle Morris: This information is not held centrally.

The New Opportunities Fund £50 million Digitisation of Learning Materials Programme has delivered 150 projects across the UK to enable resources which support learning of all kinds held in libraries as well as museums, archives and other public-sector institutions, to be made available online through the People's Network and the National Grid for Learning. This initiative has created a body of material containing over 2 million images, tens of thousands of sound and video clips and documents and over 1,000 learning packages. All projects can be accessed via the EnrichUK portal at http://www.enrichuk.net.

Information on grants awarded to individual local authorities and their expenditure can be obtained from the relevant authority.

New Opportunities Fund (Wigan)

Mr. Neil Turner: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Wigan in each year since 1997. [169308]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to Wigan are shown in the table.

Financial year	*Amount (£)*
1999–2000	1,363,608
2000–01	602,721
2001–02	2,204,979
2002–03	1,510,710
2003–04	1,345,981

The information is freely available from the Department's searchable Lottery award database at www.lottery.culture.gsi.gov.uk, which uses information supplied by the Lottery distributors.

Timber

Ms Walley: To ask the Secretary of State for Culture, Media and Sport whether her Department plans to contribute financially to the establishment of the second phase of the Central Point of Expertise on Timber. [167625]

Estelle Morris: DCMS has no plans at present to contribute financially to the establishment of this DEFRA initiative, but DCMS and its NDPBs are active in sustainable development and the matter will be kept under review.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Mrs. Iris Robinson: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to limit the maximum number of hours during which a live animal may be transported to eight hours; and what plans there are for EU regulations on this. [164580]

Mr. Bradshaw *[holding answer 31 March 2004]:* The European Commission brought forward proposals in July 2003 for a regulation to replace the current EU rules on animal welfare during transport. In discussing those proposals the Government have sought reductions in overall journey times as part of a range of measures to improve the welfare of animals.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with other EU ministers about transportation times for animals being exported for slaughter or fattening; and if she will make a statement. [168059]

Mr. Bradshaw *[holding answer 23 April 2004]:* The European Commission's proposals (published in July 2003) for a new regulation to replace the current directive were discussed at the Agriculture and Fisheries Council in December 2003 and February 2004. I have also taken the opportunity to discuss this important issue with other EU ministers outside of Council meetings. The Commission's proposals were discussed again at the Agriculture and Fisheries Council on 26 April 2004.

Mr. Bellingham: To ask the Secretary of State for Environment, Food and Rural Affairs when the new Animal Welfare Bill will be published. [166753]

Mr. Bradshaw: I anticipate publication of the proposed Animal Welfare Bill within the next two to three months.

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to strengthen animal welfare codes of conduct. [165896]

Mr. Bradshaw: DEFRA is currently reviewing and updating the Codes of Recommendation for the Welfare of Livestock, where necessary. Codes which have recently been updated include the pig code and the cattle code, issued on 11 March and 23 April 2003 respectively.

Under the proposed Animal Welfare Bill there are also plans to introduce codes for non-farmed animals. The codes, which will be subject to parliamentary scrutiny, will be used to support a statutory duty on the owners and keepers of animals to promote good welfare standards. Production of the codes will involve the industry, welfare organisations, veterinarians and officials working in partnership.

Badgers

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the evidence to support the hypothesis that there has been an explosion of the badger population in the UK. [165450]

Mr. Bradshaw: English Nature advises that there are likely to be in the region of 300,000 to 400,000 badgers in Great Britain. This figure is derived from the most recent National Badger Survey which took place in the mid-1990s[1]. The survey also reported that there had been a 77 per cent. increase in badger numbers between the mid-1980s and mid-1990s.

[1] "Changes in the British badger population, 1988 to 1997" by G. Wilson, S. Harris and G. McLaren (1997), published by the People's Trust for Endangered Species (ISBN1 855800187)

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs when she will publish the interim results of the proactive badger strategy. [166881]

Mr. Bradshaw: The Independent Scientific Group on Cattle TB (ISG) undertakes interim analyses of data collected from the proactive treatment areas of the RBCT at six-monthly intervals. The ISG advise that analyses of such data collected so far has not yielded a statistically significant result. Any significant interim findings will be reported to Ministers without delay.

On 6 April, DEFRA announced the publication of a report from an independent scientific panel chaired by Professor Charles Godfray FRS reviewing the progress of the RBCT and associated DEFRA research, as part of a wider review of DEFRA's science. The report recommended that DEFRA policymakers should have access to the the interim results from the RBCT. The recommendation did not encompass full publication. Even so, it was challenged by the ISG and the matter is still under consideration.

We have been advised by the ISG that a full set of trial data from the Randomised Badger Culling Trial (RBCT) should have been gathered by the end of 2006. A full report will follow, with publication as soon as possible thereafter.

Baronsdown Sanctuary

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Baronsdown Sanctuary area is a recognised reservoir of TB infection. [165489]

Mr. Bradshaw: We are aware that TB is present in wild deer in parts of Exmoor. This was a factor (together with the disease history of cattle and other wildlife) in the decision to test cattle herds for TB annually over most of Exmoor.

Bass

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs what the volume of sea bass landings in the United Kingdom was in each of the last five years, broken down by *(a)* market and *(b)* port. [167131]

Mr. Bradshaw: The following table shows details of sea bass landings into the UK by UK and foreign vessels for the years 1999–2003, broken down by port of landing. Fisheries Departments in the UK do not record details of landings by market.

Total UK landings	677.97	408.45	463.41	635.62	582.79

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs what the value of sea bass landings within the United Kingdom was for each of the last five years, broken down by market. [167132]

Mr. Bradshaw: Fisheries departments in the UK do not record details of sales by market. The following table shows details of the value of sea bass landings into the UK by UK and foreign vessels for the years 1999 to 2003, broken down by port of landing.

Landings of sea bass into the UK, 1999 to 2003

Value (£000)

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment is made of the sea bass catch in relation to *(a)* size, *(b)* maturity and *(c)* reproductive state; and whether this information influences decisions by the Department on closure of fisheries. [167133]

Mr. Bradshaw: DEFRA funds a programme that collects data on the size (length and weight) and age (from scales) of representative samples of sea bass caught annually in England and Wales. Research carried out by the Centre for Environment Fisheries and Aquaculture Science has established the age and size at which male and female bass become mature in UK waters, and reproductive state by area and season. This information is updated as necessary. It is used to provide scientific advice on the conservation status of bass stocks, and informs any decisions taken by this Department on the management of fisheries taking sea bass.

Bio-refinery Technologies

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the use of *(a)* household and municipal, *(b)* industrial and *(c)* agricultural waste streams as potential sources for bio-fuels through bio-refinery technologies; and if she will make a statement. [166906]

Alun Michael: A study by E4tech for the Department of Trade and Industry made the following estimates for the proportion of the UK's electricity demand that could be met by 2020 from various types of waste biomass: 2.2 per cent. from the combustion, gasification and anaerobic digestion of the organic fraction of municipal solid waste; 0.5 per cent. from the gasification and anaerobic digestion of sewage sludge; 1.9 per cent. from the combustion and gasification of straw; and less than 0.2 per cent. each from food waste, wood processing waste, farm waste and forestry residues.

The Waste Implementation Programme was established last year to provide support to local authorities in assessing and establishing alternative new technologies with particular reference to achieving the landfill diversion targets for biodegradable municipal waste. The New Technologies sub-programme aims to establish up to five demonstrator plants by 2005 end with at least five additional plants initiated by 2006.

Tallow derived from rendering animal by-products can be burnt to produce energy. 280,000 tonnes of tallow from animals slaughtered under the over-30-months (slaughter) scheme have already been sold to renderers to power their boilers. The Rural Payments

Agency recently signed a contract to sell 110,000 tonnes of stockpiled tallow to a commercial company for energy production.

Around 120 million litres of waste vegetable oil are produced in the UK each year, which could produce about 115 million litres of biodiesel. 1 million litres of biodiesel from waste vegetable oil are currently sold each month in the UK and it is likely that this will increase once the ban on used cooking oil in animal feed comes into effect in November 2004. Recent advances in biotechnology are opening up opportunities to produce bioethanol from ligno-cellulosic feedstocks such as wood, straw and organic waste, using gasification and hydrolysis, although large-scale commercialisation is unlikely for some years.

Biodiversity

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to ensure sustainable funding for national survey and monitoring schemes in order to *(a)* mobilise and *(b)* support the voluntary effort to gather the data on the state of Britain's biodiversity. [165069]

Mr. Bradshaw *[holding answer 1 April 2004]*: The work of volunteers is crucial to gathering data on the current state of our biodiversity. Volunteers have collected around 70 per cent. of all the data about species. This includes existing survey and monitoring schemes, including the Biological Records Centre:

breeding and wintering birds;

bats, otters and other mammals;

butterflies and moths; and

threatened plants.

An organisation called the National Biodiversity Network Trust is currently co-ordinating actions by a range of interested parties to bring together the efforts of volunteers. The work of the NBN Trust is supported by the Government agencies responsible for biodiversity and the Government support this work through the grant-in-aid to these agencies.

DEFRA has provided a direct contribution of £0.25 million per year to support technical elements of this work that were not being funded. Part of this work has been an exploration of how improved access to biodiversity data can improve the cost-effectiveness of delivering our agri-environmental schemes. This has demonstrated the huge importance of securing access to current information as a way of saving costs overall, and improving the outcomes. DEFRA is currently considering how to secure these benefits through increased support for the NBN process.

The work of volunteers is often focused on their local area and the NBN encourages local storage and quality assurance of these data. However, there are many national societies with networks of volunteers throughout the United Kingdom.

In some circumstances it is more effective to bring this information together in national data centres. The NBN provides a mechanism for both local and national data centres to provide access to their data. In May the latest version of this web-based mechanism, called the NBN Gateway, will be launched. Also, English Nature, supported by Treasury Capital Modernisation Funds, has created a public website that links with the NBN gateway to provide information to the public.

In addition to the work on the NBN, the Government will be considering this year how best to improve the co-ordination of the current monitoring and surveillance activities. This will ensure that the UK's state of nature is sufficiently monitored and that we make the best use of the voluntary sector and ensure that the sector receives the full support it needs to be fully effective.

While DEFRA is supporting the NBN process, and considering where further assistance may be needed, a major block to progress is the patchy support for local centres by local authorities. Information is critical to better development planning decisions through both local and regional processes.

DEFRA is seeking co-operation from other Departments over how to ensure that the information sources, underpinned by volunteer effort, are funded in a sustainable way.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost was of the Thornbury trial. [158598]

Mr. Bradshaw: The answer can be provided only at disproportionate cost.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the optimum area in which to conduct a badger culling operation is based on the basis of experience from the Krebs trials. [158669]

Mr. Bradshaw: It is not possible to use the results from the Randomised Badger Culling Trial to describe an optimum area in which to conduct a badger culling operation, as this will depend on the local circumstances and the specific effect the operation is intended to achieve.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the average duration of a TB2 restriction notice was in *(a)* 1997 and *(b)* 2003. [159062]

Mr. Bradshaw: Data for TB2 duration for 1997 are available only at disproportionate cost.

In 2003, the average duration of TB2 restriction notices was 90[1] days. This includes TB2 restriction notices served on herds where the routine herd test was overdue, as well as notices served on herds with a TB breakdown. Herds with overdue tests were not placed under restrictions in 1997.

[1] Provisional data downloaded from the State Veterinary Service database on 17 March 2004. This is subject to change, as more data become available.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 11 December 2003, *Official Report*, column 539W on badgers, what assessment she has made of the change in size of the total badger population in the Krebs areas since the commencement of the culling of badgers. [159275]

Mr. Bradshaw: DEFRA assessments are based, principally, on surveys of badger activity carried out before and sometime after culling. Analyses of data from the first three triplets to go live indicate that badger activity levels in trial areas have changed consistent with the treatments applied; levels appearing approximately unchanged in survey only areas, somewhat reduced in reactive cull areas and substantially reduced in proactive cull areas. Such data on field signs, however, give only an approximate index of badger numbers, and Defra is funding two projects looking at ways to enable the estimation of badger populations with greater accuracy.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 8 December 2003, *Official Report*, column 212W, on bovine tuberculosis, what the lowest estimate is of culling efficiency using traps, experienced in the Krebs trial areas. [159282]

Mr. Bradshaw: Subjective estimates on the efficiency of culling, based on post-cull surveys, have indicated that in the poorest conditions, particularly relating to inclement weather and the season of the year, culling efficiency may be as low as 30 per cent.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answers of 20 November 2003, *Official Report*, column 1204W, on bovine tuberculosis and 8 December 2003, *Official Report*, column 212W, what the basis is of her estimate for the efficiency of trapping as a means of badger culling; whether that estimate has been scientifically validated; and what the current estimate is of the efficiency of the culling conducted in the Krebs trial areas. [159284]

Mr. Bradshaw: There is no sure way to estimate badger populations accurately. Post cull surveys provide a subjective indication of the level of badger activity and abundance based on field signs and are carried out by ecologists from the Central Science Laboratory. Evidence from post cull surveys suggests that trapping efficiency can vary between 30 per cent. and 80 per cent., dependent on conditions, season and taking into account a proportion of trap shy animals. Comparisons of initial and two-year surveys show changes in badger activity consistent with the treatments applied. DEFRA is funding research into novel and innovative methods of estimating badger numbers.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from the European Commission on the incidence of TB in cattle in the United Kingdom. [159053]

Mr. Bradshaw: The European Commission has made no representations about the incidence of TB in cattle in Great Britain. The United Kingdom provide detailed information on bovine tuberculosis *(Mycobacterium bovis)* to the Commission as part of the annual report on trends and sources of Zoonoses and zoonotic agents in animals, feedingstuffs, food and man, under the requirements of EU Directive 92/117.

The Northern Ireland tuberculosis eradication programme has qualified for a financial contribution from the EU. As part of a series of missions to member states with co-financed bovine tuberculosis eradication programmes, a team of EU Field and Veterinary Office (FVO) inspectors visited Northern Ireland during November 2003. Publication of the FVO report of this inspection is awaited.

Breckland Farmland SSSI

Mr. Spring: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the size of the stone curlew population within the Breckland Farmland Site of Special Scientific Interest *(a)* at present, *(b)* five years ago, *(c)* 10 years ago and *(d)* 15 years ago. [165145]

Mr. Bradshaw *[holding answer 19 April 2004]:* From the counts of stone curlews within the Breckland Farmland SSSI undertaken by the work of the Breckland Stone Curlew Recovery Project I am able to provide the following information:

(a) The number of pairs proved breeding in the 2003 breeding season was 110 (this does not include parts of the SSSI where access for survey and monitoring was denied);

The Breckland Farmland SSSI was not notified until 2001, so the following figures are for the population nesting on arable and other land within the whole of the Breckland area. This excludes the heathland sites which are the main breeding areas outside the current Breckland Farmland SSSI. These records were used in the assessment of the Breckland Farmland SSSI boundary for breeding stone curlew. The number of pairs proved breeding on arable and other areas within Breckland in the years requested is as follows:

	Pairs
(b) 1998	86
(c) 1993	49
(d) 1988	55

Mr. Spring: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Breckland Farmland Site of Special Scientific Interest takes to encourage appropriate habitat management practice. [165146]

Mr. Bradshaw *[holding answer 19 April 2004]:* The conservation of stone curlew in Breckland is encouraged by the work of the Breckland Stone Curlew Recovery Project, jointly funded mainly by English Nature and the RSPB. Project staff locate and monitor breeding sites and advise farmers on appropriate management actions to ensure breeding success. English Nature's funding for the project is from its SSSI management budget. The success of the stone curlew recovery project is due largely to the combined efforts of the project officers and farmers, working together to achieve nest protection, improved habitat management and habitat creation (provision of nest-plots on set-aside land).

English Nature also runs a Wildlife Enhancement Scheme for Breckland Farmland SSSI to assist land managers with their work. Through this scheme English Nature can offer a Management Agreement to provide payment for additional positive management to benefit nesting stone curlews. The scheme provides options for

management designed to improve breeding success and to encourage birds out of crops and on to specially created nest plots.

Mr. Spring: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* process and *(b)* timescale are for the implementation of the Breckland Special Protection Area. [165147]

Mr. Bradshaw *[holding answer 19 April 2004]:* English Nature has undertaken scientific consultations on the case made for the site. Objections were received and one has resulted in a legal challenge. English Nature expects to submit its recommendations once that has been concluded. Once those recommendations are received Ministers will consider any outstanding issues before taking a decision whether the site merits classification as a Special Protection Area.

Mr. Spring: To ask the Secretary of State for Environment, Food and Rural Affairs how the *(a)* boundaries of the Breckland Farmland Site of Special Scientific Interest and *(b)* proposed boundaries of the Breckland Special Protection Area have been decided. [165129]

Mr. Bradshaw: The information is as follows.

(a) The boundary of the Breckland Farmland Site of Special Scientific Interest (SSSI) was drawn up by English Nature on the basis of the nest records collected under the Stone Curlew Recovery Project, financed jointly by the RSPB and English Nature, for the years 1995 to 1999 inclusive. Areas regularly containing two or more nest sites over this period were included, conservatively using a foraging range of up to 2 km from each nest site. Other features were also taken into account, in particular the need to have boundaries corresponding to physical features such as roads, drains, ditches, field edges or the boundaries of land holdings.

(b) All or parts of 28 Sites of Special Scientific Interest (SSSIs) have been recommended as Breckland potential Special Protection Area (pSPA) because together they support breeding bird populations of three species of European importance.

Breckland SPA qualifies under the EC Directive on the Conservation of Wild Birds (79/409/EEC) as it is used regularly by 1 per cent. or more of the Great Britain population of three species of birds listed in Annex 1 of the Directive. They are stone curlew, nightjar and woodlark.

The pSPA boundary was delineated on the basis of records covering stone curlew nests, male woodlarks in forest blocks and in non-forest locations and breeding nightjars. The data spans the period 1992–98, with account taken of 1999 data where available.

Brucellosis

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the *(a)* cause and *(b)* source of the recent brucellosis outbreak in South East Cornwall. [166444]

Mr Bradshaw *[holding answer 19 April 2004]:* A specialist epidemiological team has been set up to look into the source of the outbreak. The team, led by veterinary epidemiologist Professor John Wilesmith, includes specialists in surveillance and epidemiology from both the Veterinary Laboratories Agency and DEFRA.

The group is liaising closely with the State Veterinary Service and looking at the brucellosis testing history of the infected herd, the relationship between cows, bulls and youngstock, cattle movements on and off over the past two years, any known unrecorded cattle movements, the herd's breeding programme, any unusual mixing of livestock and imports into Devon and Cornwall over the past three years.

Field investigations and epidemiological analyses of available data are concentrated on two main hypotheses:

(i) the introduction of infection via an imported animal from a known infected country, or an as yet unknown infected country; or

(ii) the recrudescence of infection either from animals in the infected herd or from other GB herds.

Epidemiological investigations are progressing well; however the cause and source of the infection remain unknown at this stage.

BSE

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the US Department of Agriculture decision to use antibody-based tests for the prion protein that causes BSE; and if she will make a statement. [165253]

Mr. Bradshaw: The testing approvals in the USA are currently consistent with those in the EU where all currently approved and potential new surveillance tests are antibody based. It is understandable that the USDA might want to use similar testing to the EU in order to assess BSE prevalence in their cattle population. No specific evaluation of the US approval process is considered necessary.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the BSE tests she has been conducting at High Mowbray in Yorkshire. [166441]

Mr Bradshaw *[holding answer 19 April 2004]:* I assume that the hon. Member is referring to BSE research that was conducted between 1989 and 2001 at High Mowthorpe Centre in North Yorkshire as no BSE tests or research have been conducted at High Mowbray. Embryos were derived elsewhere from BSE-infected cattle and transported to High Mowthorpe, where they were transferred to recipient BSE-free dams from New Zealand. A total of 266 live born calves were produced from 347 recipient females and all 613 animals were monitored for seven years. None developed BSE and no sign of BSE was observed when brains were subjected to post-mortem examination. These findings led to the lifting of the import/export ban on cattle embryos in 2002.

Butterflies

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs if she will add butterflies to the list of quality of life indicators. [165068]

Mr. Bradshaw *[holding answer 1 April 2004]*: The UK Government in partnership with the Scottish Executive, the Welsh Assembly Government and the Northern Ireland Administration have begun developing new strategy to produce a step change in the delivery of sustainable development in the UK. The public consultation document and process for developing new strategy will be launched later this month. As part of the consultation we will consider the use and scope of indicators for monitoring our progress.

We cannot at this stage pre-empt the outcome of the consultation and the associated review of indicators to comment which indicators may or may not be included in a new set.

Annual information on butterfly populations at monitored sites is available and an indicator covering 1976 to 2002 could be compiled. However, the majority of the sites covered by the monitoring schemes are nature reserves and the index is therefore unlikely to be representative of the country as a whole. This weakness is being addressed in a research project, which the Department is currently putting out to tender.

Carbon Dioxide Reduction Target

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what further steps the Government intend to take to reach the target of a 20 per cent. reduction in carbon dioxide emissions, relative to 1990 levels, by 2010; and if she will make a statement. [167757]

Mr. Morley: The Government remain committed to the domestic goal to reduce carbon dioxide emissions to 20 per cent. below 1990 levels by 2010. The Department of Trade and Industry intends to publish shortly its updated energy and emissions projections, which will inform the planned review of the UK Climate Change Programme later this year. The review provides an opportunity to introduce new policies and measures to reduce carbon dioxide emissions, or to strengthen existing ones, if the conclusion is that more needs to be done to achieve the domestic goal.

Cervine TB

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs if she will specify the locations at which the deer in the vicinity of the Baronsdown deer sanctuary tested positive for TB; how many of the carcases were sent to the Veterinary Investigation Laboratories, and when; and how many laboratory tests are pending. [165176]

Mr. Bradshaw: Since the beginning of January 1998, there have been nine bacteriologically confirmed cases of bovine tuberculosis (*Mycobacterium bovis*) in the Parish of Dulverton in West Somerset (eight red deer, one roe deer). Other deer submissions were bacteriologically negative.

In 2003, six (from seven) deer submissions from Exmoor proved positive for *M.bovis*.

In February 2004, eight red deer culled near Dulverton, Somerset as part of a routine annual random cull were submitted to the Veterinary Laboratories Agency (VLA) at Langford. After examination by a Veterinary Investigation Officer, tissues from four animals with suspect lesions have been submitted for *Mycobacterium* culture. The results are awaited.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what action she takes against *(a)* farms and *(b)* others who fail to notify her Department of TB in deer. [165177]

Mr. Bradshaw: The Tuberculosis (Deer) Order 1989 provides for the compulsory notification of tuberculosis in deer and deer carcasses. Contravention or failure to comply with the provisions of the Order constitute an offence against the Animal Health Act 1981. Prosecution would be carried out by the local authority.

Cockling

Mr. Simmonds: To ask the Secretary of State for Environment, Food and Rural Affairs what plans her Department has to compensate cockle fishermen affected by the closure of cockle beds. [164286]

Mr. Bradshaw: The Department has no plans to provide financial compensation to cockle fishermen affected by the closure of cockle beds.

Dolphins/Porpoises

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to press for the early implementation of the EU proposals to reduce accidental deaths of dolphins and porpoises from UK fishing activity. [164851]

Mr. Bradshaw: The UK has been seeking Community action for some time to address the accidental deaths of dolphins and porpoises from fishing activity. I am pleased therefore that agreement was reached on a new Council regulation to address this problem at the Agriculture and Fisheries Council of Ministers Meeting on 22/23 March. The regulation will make the use of acoustic deterrent devices mandatory in certain fixed gear fisheries in the North Sea from 1 June 2005, in the Celtic Sea from 1 January 2006, and in the eastern Channel from 1 January 2007. The regulation also requires member states to implement schemes to monitor bycatch across a range of fisheries from 1 January 2005. This regulation is an important first step in the protection of dolphins and porpoises from the impact of fishing.

Environmental Support

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with *(a)* the Office of the Deputy Prime Minister and *(b)* Regional Development Agencies on successor organisations and programme to Vital Villages. [167972]

Alun Michael: The Vital Villages programme was a three year pilot programme which was intended to explore what would best enable village communities to determine their own future. Some commentators have wrongly referred to the scheme as being "cut" when a further £14 million is being invested this year in maintaining the scheme, despite the fact that it is closed to new applicants. With a variety of partners including

the Office of the Deputy Prime Minister we are considering how best to promote the lessons of the programme in seeking to target support for rural communities that need help through mainstream Government programmes such as local authority community planning, Neighbourhood Renewal and other regeneration programmes. We will also consider whether an independent successor arrangement to the Vital Villages scheme is necessary.

Erosion

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what land area in total was affected by problems of soil erosion in each of the last 10 years, broken down by county; and what area of agricultural land in total has become unusable in each case. [165752]

Mr. Bradshaw: All soils that are not sealed, e.g. built on, are potentially at risk of erosion. Whether erosion occurs depends on various factors, especially land management, soil type and weather conditions.

Over the last 10 years very little agricultural land has become unusable due to soil erosion, although a number of watercourses have suffered damage from siltation and/or eutrophication due to soil-borne nutrients.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the volume of soil erosion, as measured in tonnes per hectare per annum was, broken down by country in *(a)* 1975, *(b)* 1985, *(c)* 1995 and *(d)* 2002. [165814]

Mr. Bradshaw: Latest estimates taken between 1996 and 1998 suggest that total erosion from arable land in England and Wales is estimated at 2.9 million tonnes per annum. These losses are concentrated in small and limited areas within catchments where particular land management practices, soil types and weather conditions present the highest risk to erosion. In such risky areas losses range between 0.01 to 12 tonnes per hectare per annum, with a median value of 0.1 tonnes per hectare per annum. We do not have comparable figures broken down by year and country.

EU Environmental Liability Directive

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the status of *(a)* the EU and *(b)* the UK regarding the European Environmental Liability Directive. [168085]

Alun Michael: Following the Council common position in September and the European Parliament's second reading in December, the Council and the Parliament reached agreement on an amended draft. The Council and the Parliament have since adopted the Directive, as amended, at their respective third readings. The Government supported the common position and the agreement reached with the Parliament, both of which delivered our key objectives. When it comes into force, member states will have three years to implement the Directive which will be published in the *Official Journal* shortly, when it will come in to force.

The Government have begun consideration of the implementation of the Directive.

Fauna Distribution

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the average number of species in *(a)* grassland and *(b)* woodland was (i) on the latest date for which figures are available and (ii) 10 years ago, broken down by region. [165739]

Mr. Bradshaw: The information is as follows:

(a) Grassland:

Semi-natural grasslands are divided into six main Biodiversity Action Plan priority types. The figures in the table give an indication of the average number of plant species expected in a $4m^2$ quadrat, assuming ideal management. But large variation in species number can occur depending on the different sub-types of grassland within the broad categories.

BAP priority grassland type	*Average number species per $4m^2$ quadrat*
Lowland calcareous grassland	23
Upland calcareous grassland	29
Lowland meadows	26
Upland meadows	26
Purple moor grass and rush pastures	25
Lowland acid grassland	18

The Countryside Surveys were established to monitor changes in land cover, landscape and biodiversity in Great Britain. Data has to date been collected for 1984, 1990 and 1998. This shows a change in mean number of species between 1990 and 1998. In the case of neutral grassland; calcareous and acid grassland in the west lowlands, a small decline in mean number of plant species/plot was recorded. But these changes were not statistically significant. A statistically significant increase in mean number species/plot was recorded for acid grassland in the uplands.

The random sampling approach means that for some rarer habitats, such as calcareous grasslands, the sample sizes were small decreasing the precision of the results.

(b) Woodland:

Woodlands are structurally diverse, and habitat for a vast number of species, including vascular plants, birds, mammals, invertebrates, lichens, fungi and soil microbes. No comprehensive study has been undertaken.

Woodlands can be categorised by broad Biodiversity Action Plan type; whether they are recognised as ancient or recent; semi-natural or plantation. Generally there is higher vascular plant species on ancient, semi-natural woodland. The survey data available over this time span includes all broadleaved woodland.

Average species richness for different woodland types, using 4x4m or 10x10m quadrants. Adapted from Rodwell 1991

Priority BAP Habitat type	*Average number of species per plot*
Wet woodland	25
Upland ash	36
Upland oak	29
Beech	15
Yew	5

The Countryside Survey also covers woodland habitat, and can be used to show relative change over

the same time period. The methodology used did not distinguish between different woodland types shown above, nor did it specify ancient woodland, so figures may be lower than expected.

The following table below shows the mean species richness for a random sample of woods in England and Wales, between 1990 and 1998, using 200m^2 quadrants. From Haines-Young *et al* (2003).

Zone	*Number of samples*	*Mean species richness 1990*	*Mean species richness 1998*
1	57	13.79	11.26
2	43	16.93	15.93
3	18	18.89	16.89

Zones:
1 = Easterly and southerly lowlands
2 = West lowlands
3 = Uplands

Fertilisers

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment has been made of the possible link between the use of chemical fertilisers in agriculture and the health of the wild freshwater fish population in the UK. [165570]

Mr. Bradshaw: No specific study has been undertaken recently of possible links between the use of chemical fertilisers in agriculture and the status of the wild freshwater fish populations in the UK. However, various studies have been undertaken on the effects of increased nutrient loads in rivers and lakes. In addition, water quality, including the effects of contaminants such as chemical fertilisers, is one the factors routinely considered when assessing the state of fish stocks. Water quality is assessed when developing Salmon Action Plans aimed at the conservation and enhancement of salmon in rivers in England and Wales.

Fisheries

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to publish the outcome of the review of fisheries and environmental enforcement; and if she will make a statement. [165197]

Mr. Bradshaw: I am considering the report of the Review and expect to publish it shortly.

Food Promotion

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what plans her Department has to encourage the local sourcing of food and other products. [167865]

Alun Michael: The Government recognises the benefits of local food and is keen to encourage a flourishing local food sector. Money is available under the England Rural Development Programme for supporting activities such as the establishment of Farmers' Markets, the development of regional and local branding of foodstuffs and the formation of collaborative groups to market quality products. For example, within the last year we awarded £100, 256 to the National Association of Farmers' Markets to raise the profile of farmers' markets across England and to increase public awareness of them.

DEFRA has also helped finance a number of local sourcing workshops organised by the Institute of Grocery Distribution (IGD) designed to bring together supermarkets and small local producers to explore how barriers to local sourcing can be overcome. Following on from this, we helped fund the Business in The Community (BiTC) and IGD guide for small businesses looking to work with large food retailers and food service companies—"Local Sourcing—Opening the Door for Small Business". In addition to this, our Public Sector Food Procurement Initiative is designed to encourage public sector bodies to procure their food in a manner that promotes sustainable development and to encourage more small and local businesses to compete to supply them with food.

This work will be complemented at a regional level through the regional plans that each Regional Development Agency (RDA) is drawing up to help deliver the Government Strategy for Sustainable Farming and Food. Although the nature of this support will be determined according to regional priorities, issues to be addressed will include the production and supply of locally sourced food by encouraging food hubs and shared facilities and the linking of local producers with local retailers and tourist businesses.

Greyhounds

Phil Sawford: To ask the Secretary of State for Environment, Food and Rural Affairs what the minimum standards for kennels at greyhound tracks are. [165486]

Mr. Bradshaw: The Government do not currently set minimum standards for kennelling at greyhound tracks but under the Protection of Animals Act 1911 it is an offence to cause unnecessary suffering to a domestic or captive animal. This offence covers welfare at racetracks. It is proposed to consolidate and modernise the legislation relating to domestic and captive animals and a draft Bill is currently being prepared.

Mr. Bellingham: To ask the Secretary of State for Environment, Food and Rural Affairs what minimum standards breeders of greyhounds must meet. [166752]

Mr. Bradshaw: Commercial greyhound breeding is covered by the Breeding of Dogs Acts 1973 and 1991, and the Breeding and Sale of Dogs Welfare Act 1999. There is also protection under the Protection of Animals Act 1911, under which it is an offence to cause unnecessary suffering to a domestic or captive animal. It is proposed to consolidate and modernise this legislation and a draft Bill is currently being prepared.

Harmful Chemicals

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has *(a)* commissioned and *(b)* evaluated on the effects on UK citizens of exposure to harmful chemicals, with particular reference to those found in everyday products. [168564]

Alun Michael: The Department carries out and/or evaluates research on a wide range of industrial chemicals through three main routes. In each case, the work focuses on particular chemicals or groups of chemicals of interest irrespective of exposure route (environmental, consumer, etc.). These chemicals have many uses and are present in many everyday products.

Through our commitments to the European Union's risk assessment programme under the Existing Substances Regulation (EEC) 793/93. Details of the programme can be found on the European Chemicals Bureau website at: http://ecb.jrc.it/existing-chemicals/. The programme aims to identify potentially harmful chemicals based on four priority lists of substances drawn up by the European Commission in consultation with member states. The UK has been the sole rapporteur for 21 and joint with other member states on a further five of the 141 substances this programme has identified.

At a national level, through bodies like the Advisory Committee on Hazardous Substances (ACHS) (see http://www. defra.gov.uk/environment/chemicals/achs/index.htm) and the Chemicals Stakeholder Forum (CSF) (see http://www. defra.gov.uk/environment/chemicals/csf/index.htm). These bodies investigate the effects of chemicals on the environment and society as well as providing advice and guidance on dealing with hazardous chemicals. Defra also commissions and evaluates research, often in close co-operation with the Environment Agency, on the hazards and risks of specific chemicals or groups of chemicals of concern such as perfluorooctanyl sulphonate (PFOS), endocrine disrupters, chlorinated and brominated flame retardants and dioxins and dioxin-like substances.

Through the Organisation for Economic Co-operation and Development's (OECD) Chemicals Programme. Defra provides funding to this organisation where risk to human health and the environment posed by chemicals is determined by chemical-specific hazard properties and the amount of exposure to chemicals. The organisation assists member countries in developing and harmonising methods for assessing such risk.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to recommend that the proposed European Chemicals Regulation (REACH) incorporate a legal framework for the substitution of harmful man—made chemicals where safer alternatives exist; and if she will make a statement. [168565]

Alun Michael: The authorisation process under REACH is designed to ensure proper control of substances of high concern and their eventual replacement by suitable substances or technologies. There are practical difficulties in making substitution an absolute legal requirement under REACH. The Government is currently considering the provisions relating to substitution to see whether they are likely to achieve the desired effect of acting as a sufficiently strong incentive—along with other incentives such as market pressure—for industry to develop new and safer substitutes.

In order to make an informed decision, the Government is consulting on proposals for addressing substitution as part of its consultation paper on the New EU Chemicals strategy issued on 30 March 2004 and all contributions are welcome. The closing date for responses is 25 June 2004.

Information is available on DEFRA website: http://www.defra.gov.uk/corporate/consult/reach/index.htm.

Hunting Ban

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what plans are in place to prevent the destruction of hunting dogs in the event of a hunting ban being introduced. [167758]

Alun Michael: The owners are responsible for the welfare of their animals. The Government would expect organisations such as the Kennel Club and the RSPCA to give advice and help on the best course of action to owners of dogs affected by any legislation such as the proposals on hunting with dogs.

Evidence to the Burns Inquiry suggests that hunts keep some 20,000 dogs for hunting. Several thousand dogs are put down every year after some six or seven years' hunting, when they are considered to have reached the end of their working lives. Some dogs presently involved in hunting are capable of being domesticated or are domestic animals and capable of rehoming. It may be the case that some dogs are pack animals which would not settle and could not be rehomed.

Illegal Meat Imports

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the risks to biosecurity as a result of illegal imports of meat; and what representations she has received about the threat to biosecurity as a result of such imports. [165200]

Mr. Bradshaw: In March 2003, DEFRA published the Veterinary Laboratories Agency "Risk Assessment for the Import of Meat and Meat Products Contaminated with Foot and Mouth Disease Virus into Great Britain and the Subsequent Exposure of GB Livestock".

This estimated that FMD infection of GB livestock due to contaminated illegally imported meat would occur with a mean of one infection in 130 years, with a 90 per cent. certainty interval ranging from one infection in 41 years to one infection in 1,100 years.

A further report updating this risk assessment, incorporating additional data, will be published in the next few months. This report will also include similar risk assessments on three pig diseases—Classical Swine Fever, African Swine Fever and Swine Vesicular Disease.

All seizures of illegal imports are disposed as if they were category 1 material under the Animal By-Products Regulations (2003) and are sent for incineration without undue delay.

We have received many representations from stakeholders on these issues both in meetings and via correspondence and we take account of their views in developing our strategy.

We continue to work with interested groups on projects, such as with countryside user groups to raise awareness of all inland biosecurity issues, and with the Bushmeat Campaign and others in taking forward the message through publicity campaigns aimed at ethnic minority communities.

Insects

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of the likely effects of climate change on the UK's biodiversity in respect of insects, including butterflies; and what measures she proposes to take to counter such effects. [165308]

Mr. Bradshaw: The Department, along with the Devolved Administrations, statutory nature conservation agencies and non-governmental organisations, is contributing to an on-going research programme on the impacts of climate change on biodiversity in the UK. Results suggest that as climate changes, the distribution of species and the composition of habitats will change. With warmer temperatures, some northern species are likely to retreat, while southern species may be able to expand their ranges. At the same time, coastal habitats will be affected by rising sea levels. On land, movement of some species may be impeded by our fragmented landscapes, possibly leading to local extinctions. However, there is already evidence that some butterfly species have expanded their ranges northward in recent years.

The Government's existing policies for nature conservation provide the basis to mitigate the effects of climate change on biodiversity, by protecting and restoring wildlife habitats and concerted action to reverse the decline of threatened species. New evidence from research and monitoring is taken into account in developing these policies and management strategies. However, there remains considerable scientific uncertainty about the implications for individual species.

The Government are fully committed to the Kyoto Protocol and to reducing the UK's greenhouse gas emissions. Through the Climate Change Programme we have put in place a strong programme of policies and measures to ensure that the UK meets its commitments under the Kyoto Protocol and moves towards its domestic goal of reducing carbon dioxide emissions by 20 per cent. on 1990 levels by 2010. Longer term, the UK aims to strengthen its action further by putting itself on a path to a 60 per cent. reduction in carbon dioxide emissions by 2050.

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to *(a)* survey and *(b)* monitor the UK's future biodiversity in respect of insects. [165309]

Mr. Bradshaw: An organisation called the National Biodiversity Network Trust is currently co-ordinating actions by a range of interested parties to bring together the biological recording efforts of volunteers and agencies. The work of the NBN Trust is supported by the Government agencies responsible for biodiversity and the Government support this work through the grant-in-aid to these agencies.

In addition, DEFRA has provided financial support for specific surveys such as the Millennium Butterfly Atlas and monitoring work on butterflies on land subject to agri-environment schemes. Species of particular concern are subject to individual specific action under the Biodiversity Action Plan and Government support this process through their conservation agencies in England, Wales and Scotland and the Environment and Heritage Service in Northern Ireland. Volunteers, through their relevant national schemes or societies, carry out much of the survey and monitoring work on priority species.

The vast majority of information on the distribution, status and trends of species comes from the activities of volunteers. These are individuals with a special interest in insects who give freely of their spare time. A key part of the work of the NBN Trust is about supporting these people and encouraging the next generation of biological recorders. Replacing the effort of volunteers with contracted survey would be extremely costly and need continued funding. The Government support the work of the NBN Trust as the primary mechanism to secure the continued supply of information from volunteers through capacity building of support networks at national and local scale.

We believe that the short life spans and diverse needs of insects make some of them good indicators of environmental change. Information on the status and trends in insects, and other plants and animals, would be extremely helpful in both detecting adverse change and identifying sustainable practices. We recognise that some groups of insects do not have the resources necessary to provide a comprehensive baseline of information and more resources are needed. DEFRA is currently exploring options for improving surveillance and monitoring of species, including insects, and will consider future funding in the light of discussions with the conservation agencies and representatives of voluntary conservation organisations.

Land Distribution

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many hectares were classified as *(a)* grassland, *(b)* land for crop growing, *(c)* woodland, *(d)* urban, *(e)* suburban and *(f)* semi-natural vegetation in each year since 1974 in the UK, broken down by (i) region and (ii) county. [165805]

Mr. Bradshaw: Estimates of the area of farmland in England which is classified as grassland, crops and bare fallow, and other agricultural land is available from the Agricultural Census for the years 1990, 1995, 2000, 2001 and 2002. Estimates of the area of woodland in England in 1995–99 is available from the Forestry Commission, while information on the extent of urban areas (including suburban land) in England in 1981, 1991 and 2001 is available from the Office of the Deputy Prime Minister. No separate information is available on the extent of semi-natural land in England. A copy of the available information will be made available in the

Library of the House. Information about the area of land in Wales, Scotland and Northern Ireland falls under the jurisdiction of the devolved authorities.

Market and Coastal Towns Initiative

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on progress by each Regional Development Agency on the Market and Coastal Towns Initiative; and what the budget for each RDA was for each year of the initiative. [167859]

Alun Michael: When the announcement of the funding was made, it was envisaged that 100 towns would benefit but I am pleased to report that, through the innovative methods used in each of the regions, 227 towns are currently receiving support.

The Rural White Paper offered funding of £37 million to enable the Regional Development Agencies and the Countryside Agency to support market town regeneration in the regions over a period of three years (2000–01 to 2003–04).

£32 million was allocated to the Regional Development Agencies and £5 million to the Countryside Agency. The funding for the Regional Development Agencies was incorporated in the DEFRA contribution to their Single Programme, to enable regional partnerships to target towns in their region according to selection criteria agreed regionally. The initiative was not established as a national funding programme with an annual budget for each agency.

The start of the initiative was delayed in many of the regions due to the foot and mouth crisis, with some regions not launching their own initiatives or incurring spend until last year. For this reason data from the Regional Development Agencies on their expenditure is unlikely to be available until the initiative is evaluated, which DEFRA is currently discussing with the Regional Development Agencies.

Parliamentary Questions

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she intends to take to ensure that questions tabled for a named day response are answered on the specified day. [167789]

Alun Michael: I have explained to officials at DEFRA the importance attached by parliamentarians to receiving a full and prompt reply to formal questions. I have asked for further steps to be taken to make sure that this is fully understood in every part of the Department. It must be understood that there is a cost to providing answers, both in financial terms and in the time of officials that has to be diverted to providing answers or to meeting a deadline in the case of "named day" questions and that some information is simply not available in the form requested. I and my Ministerial colleagues are always willing to discuss the needs of Members.

Salmon

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what systems are in place to regulate the operational activities of commercial salmon farmers in the UK. [165565]

Mr. Bradshaw: All fish farms are subject to EU and national legislative controls to prevent the introduction and spread of serious fish disease. Under these arrangements all farms must be registered or licensed as required by the appropriate Fisheries Department and keep a record of the movement of fish for disease control purposes. Controls also apply to the import and export of farmed fish.

All salmon farms require a Crown Estate lease and development consent, and are subject to conservation and environmental measures. The use of medicines on fish farms and welfare of farmed fish are also subject to control.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment has been made of the health of the wild salmon population in the UK. [165569]

Mr. Bradshaw: Assessments of the current state of wild salmon stocks in UK have been compiled in the last month in Scotland (by Fisheries Research Services), in England and Wales (by CEFAS and the Environment Agency) and in Northern Ireland (by DARDNI). These reports have been submitted to the North Atlantic Salmon Working Group of the International Council for the Exploration of the Seas (ICES), which is meeting currently, and will be used to provide an overall assessment of the status of salmon stocks throughout the North Atlantic for submission to the North Atlantic Salmon Conservation Organisation (NASCO). The report for England and Wales has been published and may be obtained from the Environment Agency. The annual statistical bulletin, Scottish Salmon and Sea Trout Catches, 2003, is scheduled for publication in late summer.

Severely Disadvantaged Areas

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms are currently classed as containing both severely disadvantaged area and non-severely disadvantaged area land. [168032]

Alun Michael: We currently do not classify farm businesses in the way requested. However, in 2003, 8,261 farmers claimed Hill Farm Allowance on both severely disadvantaged and disadvantaged (i.e. non-severely-disadvantaged) land. Holdings of less than 10 hectares are excluded from HFA, and so are not included in this figure. Neither would it include farm businesses with severely disadvantaged land and land ineligible for HFA, but no disadvantaged land.

Sites of Special Scientific Interest

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs what resources her Department makes available to local authorities for Sites of Special Scientific Interest; and how much was made available in 2003–04. [164971]

Mr. Bradshaw: The overall funding requirements of local authorities is a matter for the Office of the Deputy Prime Minister. The Department does not provide direct funding to local authorities specifically for the management of Sites of Special Scientific Interest (SSSIs). SSSI landowners and managers, such as local authorities, are able to access, subject to conditions, a variety of funding streams which can benefit SSSIs, including from English Nature, agri-environment schemes and from lottery or EU sources. English Nature estimate that overall local authorities own or manage about 4.7 per cent. of England's SSSI land.

St. George's Day

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Country Land and Business Association about St. George's Day breakfasts. [167863]

Alun Michael: The Government recognises the benefits of local food and welcomes initiatives like the Country Land and Business Association's (CLA) initiative that aim to encourage people to buy more locally sourced foods. Money is available under the England Rural Development Programme to support activities such as the establishment of Farmers' Markets, the development of regional and local branding of food and the formation of co-operative groups to market quality products. DEFRA has also worked with the Institute of Grocery Distribution (IGD) to produce best practice guides designed to show how supermarkets and food service companies can work with small local producers and explore how barriers to local sourcing can be overcome. In addition to this, our Public Sector Food Procurement Initiative is designed to encourage public sector bodies to procure their food in a manner that promotes sustainable development and to encourage more small and local businesses to compete to supply them with food.

The CLA initiative also complements the Government's three-year programme of support for the quality regional food sector which is being delivered by Food From Britain. This £3 million programme aims to promote the quality regional food sector and consists of a range of activities focussing on trade development, increasing competitiveness and raising consumer awareness.

Stone Curlews

Mr. Spring: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to change the boundaries of the Breckland Farmland Site of Special Scientific Interest to reflect changes in the stone curlew population. [165128]

Mr. Bradshaw: The Secretary of State has no role in the determination of the boundaries of Sites of Special Scientific Interest (SSSIs), this is a matter for English Nature.

I understand however, that English Nature has no plans at this time to recommend changes to the boundary of the Breckland Farmland SSSI. Survey and monitoring of the number and distribution of stone curlews is carried out annually throughout Breckland. This data is regularly reviewed to assess any significant changes in the population and its distribution.

If, in the future, there is evidence that parts of the SSSI no longer support the special interest (breeding stone curlew) or that areas beyond the existing SSSI boundary become important, the legislation provides that English Nature has the discretion to de-notify parts of the site or extend the SSSI boundary to incorporate any new areas that may qualify.

Trees

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the percentage tree cover in each EU member state was *(a)* on the latest date for which figures are available, *(b)* 10 years ago and *(c)* 20 years ago. [165798]

Mr. Bradshaw: Based on information collected by the United Nations Food and Agriculture Organisation forest as a percentage of land area is given in the table as follows.

Country	*2000*[1]	*1990*[1]	*1980*[2]
Austria	47	46	45
Belgium/ Luxembourg	22	23	23
Denmark	11	10	11
Finland	72	72	76
France	28	27	28
Germany	31	31	29
Greece	28	26	45
Ireland	10	7	6
Italy	34	33	27
Netherlands	11	11	10
Portugal	40	34	35
Spain	29	27	25
Sweden	66	66	68
United Kingdom	12	11	9

Notes:

[1] FAO Global Forest Resources Assessment 2000. Definitions of forest can vary between countries and over time.

[2] FAO The Forest Resources of the ECE Region, published 1985. The years covered vary between countries, although most are around 1980. Definitions of forest can vary between countries.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent steps *(a)* have been taken and *(b)* are planned to improve tree health. [165800]

Mr. Bradshaw: The need to maintain, and improve where necessary, the health and vitality of trees is integral to the government's approach to sustainable forest management. We have set this out in the UK Forestry Standard and its supporting literature, which contain many specific measures for protecting woodland and improving tree health. All woodland management by the Forestry Commission is consistent with this standard and we expect private woodland owners that receive grant aid from the Forestry Commission to also meet the standard. The government has encouraged the development of the voluntary UK Woodland Assurance Standard that provides an independent verification of compliance with good practice and measures to ensure the continuing good health of woodland. We shall continue to ensure compliance with the UK Forest Standard in those woods managed by the Forestry Commission and encourage it in the private sector. We will improve, through research, our knowledge of factors affecting

tree health and we shall maintain a vigilant guard against the establishment of non-native pests and diseases.

Upland Farms (Environmental Management)

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she intends to take to ensure that farms in uplands are rewarded for improved environmental management of their land. [168948]

Alun Michael: A significant proportion of farmers in the uplands are already participating in our Environmentally Sensitive Area or Countryside Stewardship Schemes.

Next year we plan to roll out our new agri-environment scheme called Environmental Stewardship. The Entry Level of that scheme will be available to all upland farmers and we hope that many more of them will decide to join it.

Woodlands

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the total *(a)* area and *(b)* production in cubic metres of (i) broadleaf and (ii) coniferous woodland was in each year since 1980 (A) in England and (B) broken down by region. [165799]

Mr. Bradshaw: A national woodland survey is carried out by the Forestry Commission at intervals of between 15 and 20 years. Comparative areas of woodland[1] in 1980 and 1998 were published in the latest National Inventory of Woodland and Trees, Regional Inventory reports. The figures are given in the following table.

Thousand hectares

	1980[2]		1998[3]	
Region	*Broadleaves*	*Conifers*	*Broadleaves*	*Conifers*
North-East	16.2	73.3	24.5	69.2
North-West	33.0	39.4	46.7	39.8
Yorkshire and the Humber	39.0	37.4	46.1	35.4
East Midlands	37.8	21.6	52.9	17.9
West Midlands	44.1	28.3	63.1	25.7
East of England	59.4	40.7	90.2	37.5
London	5.4	0.3	5.5	0.2
South East	138.2	59.1	173.6	52.4
South West	95.7	63.8	137.4	60.8
Total England	468.8	363.9	640.0	338.9

[1] Excluding open space, coppice and felled areas awaiting replanting.

[2] 1980 Census of Woodland.

[3] National Inventory of Woodland and Trees—Regional Inventory Reports. Reference dates varied by region 1995 to 1999.

[4] Differences in sampling methodology between 1980 and 1998 may account for some of the differences.

[5] In the 1980 Census the area assigned to broadleaves and conifers included any associated open space such as roads and rides. In the 1998 Inventory open spaces are separately identified and to obtain meaningful comparison between the two datasets the 1980 Census data has been reduced by the percentage of open space identified in the 1998 Inventory (nationally 6.5 per cent.).

Timber production is not recorded by region and the estimate for total England production is given in the following table.

[1]Removals in million cubic metres overbark standing

	Hardwoods (from broadleafed trees)	*Softwood (from conifer trees)*
1980	1.2	1.3
1981	1.2	1.3
1982	1.0	1.4
1983	0.8	1.4
1984	0.8	1.5
1985	0.9	1.5
1986	0.9	1.7
1987	0.8	1.9
1988	1.1	2.3
1989	1.2	2.5
1990	1.1	2.5
1991	1.1	2.5
1992	0.8	2.6
1993	0.7	2.3
1994	0.8	2.6
1995	0.9	2.5
1996	0.8	2.4
1997	0.8	2.2
1998	0.7	2.1
1999	0.7	2.2
2000	0.6	2.1
2001	0.6	2.0
2002	0.6	1.8

[1] Based on figures published in Forestry Facts and Figures for 1980–94, adjusted to consistent definition. Later figures for private sector removals estimated from a GB survey for 2000–02 and interpolated.

FOREIGN AND COMMONWEALTH AFFAIRS

British Prisoners (Thailand)

Mrs. Fitzsimons: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last made representations to obtain pardons for British prisoners incarcerated in Thai prisons; and if he will make a statement. [168719]

Mr. Mullin: On 1 April 2004, the Government agreed to make representations to the Thai authorities in support of a clemency petition submitted by a British prisoner in Thailand.

China

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Chinese Government concerning *(a)* the repatriation of the North Korean refugee Mr. Park Yong-chol (alias Jo Yong-su) from China to North Korea and *(b)* the mistreatment of the Chinese house church leader Pastor Gong Shengliang while in prison in Hongshan Prison, Wuhan City, Hubei Province. [168799]

Mr. Rammell: We regularly raise the issue of North Korean border crossers at the biannual UK-China Human Rights Dialogue and on other high level occasions. We are aware of the case of Mr. Park. The European Commission has recently suggested that the EU should raise the matter urgently with the Chinese authorities; this is now under consideration by the EU presidency.

We have raised Pastor Gong Shengliang's case with the Chinese authorities on several occasions. We supported an EU demarche in Beijing in July last year on this case.

Climate Change

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made by his Department of the implications for national security of climate change. [168840]

Mr. Caplin: I have been asked to reply.

The Ministry of Defence is reviewing the implications of climate change for national security as part of its wider assessment of strategic trends that might impact on the United Kingdom's interests.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton dated 26 January 2004 with regard to Mosamuat Meherun Nessa Begum. [168926]

Mr. Mullin: I refer my right hon. Friend to my answer of 8 March 2004, *Official Report*, column 1316W.

Mr. Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton dated 1 March 2004 with regard to Mr. Hachemi Nessai. [168927]

Mr. Mullin: My right hon. Friend the Foreign Secretary replied on 25 March 2004. However, he will write again shortly.

Departmental Employment Policy

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his Department's employment termination policy for locally-engaged members of staff. [166919]

Mr. Mike O'Brien: In Foreign and Commonwealth Office posts overseas the rights of all locally engaged employees are protected by local law.

Every post is required to set out the termination procedure in the Terms and Conditions of Service given to each employee on appointment.

Procedures for terminating employment therefore vary across posts.

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs how many employment termination cases of locally-engaged members of staff have been *(a)* disputed and *(b)* taken to arbitration; and in how many instances the findings have been in favour of the member of staff. [166921]

Mr. Mike O'Brien: Locally engaged employees have the right to take their case to a local court if they have a dispute over the termination of their employment. To obtain details from each overseas post would incur disproportionate costs.

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs how much severance pay has been awarded to his Department's locally-engaged members of staff in each year since 1997, broken down by country. [166922]

Mr. Mike O'Brien: Severance pay for locally engaged employees of the Foreign and Commonwealth Office is governed according to local law and practice in the country the employee is working. To obtain figures from each overseas post would incur disproportionate costs.

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs what his latest estimate is of the amount spent by his Department on official entertainment in each year from 1996–97 to 2004–05. [169007]

Mr. Rammell: Comparable information is available only for the years 2000–01 to 2004–05. The following figures show the actual spend on entertainment within the Foreign and Commonwealth Office for the first three years, with a forecast for 2003–04 and 2004–05 based upon expenditure to date.

	£
2000–01	8,337,306
2001–02	8,708,262
2002–03	8,612,247
2003–04	[1]8.135,315
2004–05	[1]7,687,873

[1] Estimated.

All expenditure on entertainment within the Department is carefully monitored to ensure that it is made in accordance with departmental guidance that is based on the principles set out in "Government Accounting".

Fingerprinting (USA Entry)

Mr. Henry Bellingham: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations she has received from the travel industry regarding the fingerprinting of British citizens wishing to travel to the United States; and if she will make a statement. [168918]

Mr. Mullin: There have been no formal representations by the travel industry, although the finger-scanning of British citizens on arrival in the United States has been discussed in our regular meetings with the industry.

Indonesia

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution his Department is making to the reconciliation process in Sulawesi. [168575]

Mr. Mike O'Brien: The UK's Global Conflict Prevention Pool is used in Indonesia to facilitate inter-faith dialogue. DFID has also committed over £4 million to help establish the United Nations Development Programme Conflict Prevention and Recovery Unit in Jakarta. The unit will help build up capacity in conflict reduction and recovery in provinces torn apart by religious conflict, such as Sulawesi and Maluku.

Iraq

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the

Government are giving to the tribunal and its staff investigating crimes by Saddam Hussein; and if he will make a statement. [168934]

Mr. Rammell: Our secondees in the Coalition Provisional Authority Office of Human Rights and Transitional Justice have provided assistance with the drafting of the Statute, Rules of Procedure and Elements of Crime for the Iraq Special Tribunal (IST). They have also developed the investigations strategy and mass grave action plan for the IST. We have agreed to Iraqi requests to provide further assistance, possibilities for which include: forensic expertise; judicial training; judicial advisers; and public education and outreach. And we have agreed to provide the IST Administration Department with a list of international investigators and analysts to support Iraqi capacity. We are also encouraging other EU partners to consider favourably requests for assistance from the Iraqis.

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what period of production is represented by the $7,855,209,215.35 received from oil proceeds by the Development Fund for Iraq up to 16 April 2004; and if he will make a statement. [169157]

Mr. Straw: The $7,855,209,215.35 received from oil proceeds by the Development Fund for Iraq up to 16 April represents the period of production from 28 May 2003 to mid-March 2004.

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the future role of the International Advisory Monitoring Board in monitoring and auditing the Development Fund for Iraq after 30 June 2004. [169158]

Mr. Straw: The International Advisory and Monitoring Board (IAMB), as specified in United Nations Security Council Resolution 1483 and the IAMB Terms of Reference, wall cease to be responsible for the auditing of the Development Fund for Iraq once a fully sovereign Iraqi Government has been established. The UK Government would like to see arrangements put in place acceptable to the Iraqi interim administration for the independent and credible audit of Iraqi's oil revenues following the transfer of sovereignty. We are currently in discussion with the Iraqi authorities, the UN international financial institutions, and other countries on how this objective might be best achieved.

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the proposed appointment of voting Iraqi members to the Board of the International Advisory Monitoring Board. [169159]

Mr. Straw: We are not aware of voting Iraqi members being appointed to the Board of the International Advisory and Monitoring Board (IAMB). The IAMB comprises voting members from the United Nations, the International Monetary Fund, the Arab Fund for Social and Economic Development and the World Bank.

The IAMB, after consulting with the Coalition Provisional Authority administrator, may appoint up to five observers to IAMB meetings, including Iraqi nationals nominated by the Governing Council of Iraq. The IAMB in its press statement of 24 April 2004 welcomed Iraqi Governing Council observer Professor Mahdi Hadi Al-Kafari, and Mr Ihsan Ghanim representing the Iraqi Board of Supreme Audit, to the IAMB. Other Iraqi observers have been invited to IAMB meetings in the past. IAMB observers are not members of the IAMB and have no voting rights.

Small Grants Scheme

Hugh Bayley: To ask the Secretary of State for Foreign and Commonwealth Affairs how much is available this year for distribution under the small grants scheme by the UK Ambassador or High Commissioner in each country in which the scheme operates; and how much was distributed in each country in each of the last three years. [168813]

Mr. Rammell: The Foreign and Commonwealth Office (FCO) has not operated a Small Grants Scheme (SGS) in the past three years. However, an SGS is run and managed by the Department for International Development (DFID). A proportion of DFID's SGS is disbursed through FCO Posts but is not charged to the FCO budget.

South Africa

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* South Africa's Defence Minister, Mosiuoa Lekota, and *(b)* other members of the Government of South Africa concerning the proposed creation of a South African standby force by 2005; and if he will make a statement. [168557]

Mr. Mullin: The African Union aims to establish an African Standby Force (ASF) for peace support operations on the continent. The ASF will be set up in two phases. Phase one is due to be completed by 2005 and phase two by 2010. It will be based on five regional brigades, including one from southern Africa.

We regularly discuss this initiative with the South African authorities, who are playing a key role. The UK is providing practical assistance, including through training by the British Peace Support Team in Pretoria.

My right hon. Friend the Secretary of State for Defence met South African Defence Minister, Lekota, on 8 March. They discussed a range of subjects, including the African Union.

United Arab Emirates

Huw Irranca-Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs what joint activity the UK undertakes with the United Arab Emirates on counter-terrorism. [168572]

Mr. MacShane: We have a close and high-level counter-terrorism dialogue with the UAE authorities. The Government currently supplies training and advice on money laundering and terrorist financing, as well as extensive customs training. We are also developing a range of capacity building initiatives in the counter terrorism area.

TRADE AND INDUSTRY

"Oil Crises and Climate Challenges"

Tom Brake: To ask the Secretary of State for Trade and Industry if she will publish her response to the International Energy Agency's publication, "Oil Crises and Climate Challenges". [168636]

Mr. Timms: The IEA carries out detailed analytical work on a wide range of energy policy issues and produces a considerable number of publications each year. As other IEA members, the UK is able to contribute to the nature and content of individual IEA publications when they are still in the draft stage. The Department, therefore, does not generally view it as necessary to make official responses to IEA publications. It has not made an official response to this publication and does not intend to do so.

Accountancy Services

Mr. Cousins: To ask the Secretary of State for Trade and Industry what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. [166086]

Jacqui Smith: Central records indicate the following values for the three financial years since 2000–01:

Supplier/financial year	*Spend (£)*
Deloitte & Touche	
2001–02	6,504,084
2002–03	10,784,757
2003–04	12,105,274
Ernst & Young	
2001–02	1,289,628
2002–03	1,625,512
2003–04	2,615,137
KPMG	
2001–02	94,347
2002–03	236,976
2003–04	2,121,207
PricewaterhouseCooper	
2001–02	3,507,357
2002–03	9,297,179
2003–04	5,776,612

The nature of these contracts included research, IT services and consultancy, market research, financial consultancy, legal services and consultancy, training and project management. Details of individual contracts can be obtained only at disproportionate cost.

I have asked the Department's Executive Agencies to reply direct to the hon. Member. Small Business Service's figures are included in the above table.

Letter from Ron Marchant to Mr. Jim Cousins, dated 29 April 2004:

I am replying to this parliamentary question, tabled on 1 April 2004, concerning the nature and value of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01.

The Patent Office has not let contracts, consultancies or other services with the aforementioned accountancy firms during the above period.

Letter from Desmond Flynn to Mr. Jim Cousins, dated 29 April 2004:

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect of your question (2003/2390) asking what the *(a)* nature and *(b)* value was all contracts, consultancies and other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (IV) PricewaterhouseCoopers since 2000–01 by the Department and agencies.

I can confirm that The Insolvency Service has had no contracts, consultancies or other services with any of the above-named firms since 2000–01.

Letter from Dr. J. W. Llewellyn to Mr. Jim Cousins, dated 29 April 2004:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question about the nature and value of all contracts, consultancies and other services placed with Deloitte and Touche, Ernst and Young, KPMG and PriceWaterhouseCoopers since 2000–2001.

Since 2000–01 NWML has not placed any work with the accountancy firms listed.

Letter from Claire Clancy to Mr. Jim Cousins, dated 29 April 2004:

I am responding to your recent Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTL.

Since 2000/01 we have had one contract with Ernst and Young for an HR review in 2003 with a total value of £27,095.94.

We have not had any contracts with Deloitte and Touche, KPMG or PricewaterhouseCoopers.

Letter from Roger Heathcote to Mr. Jim Cousins, dated 29 April 2004:

You asked the Secretary of State for Trade and Industry what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. I have been asked to reply on behalf of the Employment Tribunals Service.

The Employment Tribunals Service used Deloitte and Touche in 2001 to undertake a Pay and Grading Review. The cost of the review was £50,000. The project was completed in May 2001.

Electricity Generation

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry what percentage of electricity has been generated from renewable sources in each of the last seven years for which figures are available; and if she will make a statement. [168056]

Mr. Timms: The percentages of electricity derived from renewable sources in the each of the seven years from 1997 to 2003 are as follows:

Percentage

	Overall	*Sources eligible for Renewable Obligation*
1997	2.12	0.78
1998	2.55	0.95
1999	2.76	1.18
2000	2.75	1.32
2001	2.62	1.52
2002	2.96	1.74
2003 (Provisional)	2.9	2.0

Source:
Digest of UK Energy Statistics 2003 and Digests for earlier years.

This overall renewables percentage includes both biodegradable and non-biodegradable wastes and large scale hydro. The amount of electricity produced using hydro sources varies from year to year depending on the rainfall. Low precipitation during the winters of 2000–01 and 2002–03 resulted in low hydro output during 2001 and 2003 hence the fall in generation from renewables in those years.

Source eligible for the Renewables Obligation are biofuels (including the co-firing of biomass with fossil fuel), onshore and offshore wind, all new hydro, refurbished hydro up to 20 MW (commissioned before 1990), solar photovoltaics and wave and tidal technologies. As more and more onshore and offshore wind projects are commissioned, we can expect to see substantial growth in the amount of renewables electricity output over the coming years.

Mr. Stunell: To ask the Secretary of State for Trade and Industry what estimates she has made of the expected generation costs per MWh for *(a)* wind and *(b)* nuclear technologies in (i) 2010 and (ii) 2020. [169776]

Mr. Timms: The Department has published estimates of the cost of electricity generation from a variety of technologies. These are contained in a report published in February 2002 available at: www.dti.gov.uk/energy/greenhousegas/index.shtml.

The Performance and Innovation Unit at the Cabinet Office also published similar estimates in its 2001 Energy Review. These are available at: www.number-10.gov.uk/su/energy/l.html.

Work undertaken for the Renewables Innovation Review covering wind generation costs is also available at: www.dti.gov.uk/energy/renewables/policy/oxeraresults.pdf.

EU Emissions Trading Scheme

Norman Baker: To ask the Secretary of State for Trade and Industry what range of prices for carbon is being included in her Department's forward energy projections from 2005 onwards, with reference to the EU Emissions Trading Scheme. [167765]

Mr. Timms: We have considered a range for the price of a carbon emission allowance from €5 per tonne to €25 per tonne of carbon dioxide (tCO_2) for our forward energy projections and other work related to the EU Emissions Trading Scheme (EU ETS). We expect the carbon price to be towards the lower end of the range. EU ETS carbon allowances are currently trading at about €7 per tonne of CO_2, albeit on low sales volumes.

Manufacturing Industry

Mr. Hepburn: To ask the Secretary of State for Trade and Industry (1) what the average age is of an employee in the manufacturing industry in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK; and what it has been in each year since 1997; [166768]

(2) how many people employed in the *(a)* manufacturing industry and *(b)* service sector have been over 50 years old in (i) the Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 1997; [166769]

(3) how many *(a)* men and *(b)* women have been employed in the service sector in (i) the Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 1997; [166770]

(4) how many *(a)* women and *(b)* people have been employed in the manufacturing industry in (i) the Jarrow constituency, (ii) South Tyneside, (iii) the North East and (iv) the UK in each year since 1997; [166771]

(5) what the average age has been of an employee in the service sector in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [166772]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Stephen Hepburn, dated 29 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about employment in Jarrow constituency and at regional and national level. (166768, 166769, 166770, 166771, 166772)

The attached tables give the information requested for

Jarrow Parliamentary Constituency,

South Tyneside Local Authority,

the North East, and

the UK

for the twelve month periods ending February each year from 2000 to 2002.

Information is not currently available for earlier or later periods, although the data for the twelve month period ending in February 2003 is to be published by ONS on 28 April 2004. Estimates are taken from the Labour Force Survey (LFS), carried out by the Office for National Statistics (ONS). As with any statistical sample survey, estimates from the LFS are subject to sampling variability.

Table 1: Number of employees in the manufacturing and service sectors in selected areas (not seasonally adjusted) by gender, 12 month periods ending February 2000, 2001 and 2002

Thousand

	2000	*2001*	*2002*

Miners' Compensation

John Mann: To ask the Secretary of State for Trade and Industry what the average payment made to solicitors was in *(a)* successful and *(b)* unsuccessful cases for (i) chronic obstructive pulmonary disease and (ii) vibration white finger claims. [168475]

Nigel Griffiths *[holding answer 26 April 2004]:* The solicitors' costs are paid on a tariff basis, under the terms of the Claims Handling Agreements (CHA). Costs are only payable for successful claims, there are no costs payable for unsuccessful claims.

Under the CHA the basic costs are:

	Costs (£)[1]
COPD	
Settled expedited offers	955
Settled full and final offers	1,856
Settled chronic bronchitis only	531
VWF[2]	
General damages claims in Group 1 occupations[3]	652
General damages claims in Group 2 occupations[4]	760

[1] Plus VAT plus disbursements.
[2] Costs for handling services claims are not yet agreed.
[3] Group 1 occupations incorporates the occupations where generally in the coal mining industry the use of hand held vibratory or percussive tools was recognised as a substantial part of the occupation.
[4] Group 2 occupations incorporates the occupations where in the coal mining industry the use of hand held vibratory or percussive tools was not necessarily a substantial part of the job, however use by individuals within the group, may well have been significant.
Note:
In addition solicitors receive additional payments for handling Grant of Probates, disputes procedures and posthumous claims.

National Allocation Plan

Norman Baker: To ask the Secretary of State for Trade and Industry what energy assumptions have influenced her Department's policy on the appropriate carbon dioxide reduction target relative to 1990 levels within the National Allocation Plan to implement the EU Emissions Trading Directive. [167755]

Mr. Timms: The draft National Allocation Plan (NAP) indicated that the EU Emissions Trading Scheme (EU ETS) would be responsible for delivering the remaining savings of 1.5 million tonnes of Carbon (MtC) (equivalent to 5.5 million tonnes of carbon dioxide) from 1990 levels by 2010 envisaged under the UK Climate Change Programme from emissions trading for which there are no policies currently in place. With the exception of the power generation sector, allowances to installations have been allocated on the basis of their projected emissions for the first phase of the scheme, which runs from 2005–07. These projections take account of updated estimates of the impacts and policy measures set out in the Climate Change Programme which have already been implemented or for which there are firm plans. Allowances to the power generation sector have been allocated on the basis that this sector will be responsible for the emissions trading savings of 1.5 MtC to be delivered by the EU ETS. This reflects the fact that the power generation sector faces limited international competition and has relatively good low-cost abatement opportunities.

Norman Baker: To ask the Secretary of State for Trade and Industry if she will make a statement on the carbon dioxide emissions reduction targets in *(a)* the draft National Allocation Plan and *(b)* the climate change programme. [167762]

Mr. Timms: The UK Climate Change Programme envisaged that emissions trading would deliver carbon dioxide (CO_2) reductions of 2 million tonnes of Carbon (MtC) (equivalent to 7.3 million tonnes of CO_2) by 2010. As the UK Emissions Trading Scheme is expected to lead to CO_2 reductions of about 0.5 MtC (1.8 $MtCO_2$), the draft National Allocation Plan (NAP) indicated that the Government had decided that the EU Emissions Trading Scheme (EU ETS) would be used to achieve the remaining savings of 1.5 MtC (5.5 $MtCO_2$) by 2010.

The draft NAP confirmed that the UK is firmly committed to its domestic goal set out in the 2000 Climate Change Programme of moving towards a 20 per cent. reduction in CO_2 emissions below 1990 levels by 2010. Subject to a review of the effectiveness of the EU ETS as a vehicle for delivering cost effective emissions reductions, it is intended that the total quantity of allowances to be issued for the second phase of the Scheme running from 2008 to 2012 will be set to ensure that installations covered by the Scheme make an appropriate contribution to that goal. This will be taken into account in the review of the Climate Change Programme which will take place later this year.

Norman Baker: To ask the Secretary of State for Trade and Industry to what extent the requirements of the Integrated Pollution Prevention and Control Directive with regard to energy efficiency have been taken into account in future energy projections for the UK. [167763]

Mr. Timms: In practice, the impact of this Directive is likely to vary according to the installation considered and there is a good deal of uncertainty about how the Directive will impact in overall terms. In general, the DTI energy model does not make projections for installations to this level of detail. In modelling the power station sector, a modest improvement in energy efficiency has been assumed to take place at existing coal fired power stations.

Norman Baker: To ask the Secretary of State for Trade and Industry if she will reconcile her revised growth projections for the UK iron and steel industry with the increases set out in the draft National Allocation Plan. [167764]

Mr. Timms: Following publication for consultation of the draft National Allocation Plan for the EU Emissions Trading Scheme (EU ETS) in January, work to refine our energy and emissions projections has continued. We will be publishing a working paper on overall emissions projections in May and a final set of emissions projections for the iron and steel and other sectors covered by the EU ETS in June or soon after. These projections will be used in determining the revised sectoral allocations to be included in the National Allocation Plan.

Post Office Closures

John Barrett: To ask the Secretary of State for Trade and Industry how many post offices have been closed in Scotland as part of the urban reinvention programme. [170051]

Mr. Timms: Post Office Ltd. produces statistics on post office closures on a quarterly basis. The latest data on net closures by region currently available is to the end of December 2003. Data for the quarter to end March 2004 is expected shortly.

There have been 35 post office closures in Scotland under the urban reinvention programme to end of December 2003.

Renewable Energy

Jim Dobbin: To ask the Secretary of State for Trade and Industry if she will make a statement on the effects of recent trends in investment in renewable energy and upon the residents of Heywood and Middleton. [168434]

Mr. Timms: Recent trends in renewable energy investment have been highly encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass.

While this investment has not translated into capacity within Heywood and Middleton itself, Renewables Northwest, a joint venture between the Regional Development Agency and United Utilities, has been working with local businesses on identifying opportunities in the renewable energy area.

Solar Heating

Sir Archy Kirkwood: To ask the Secretary of State for Trade and Industry what steps she is taking to promote greater use of solar heating panels in the UK. [169368]

Mr. Timms: The Clear Skies initiative was launched in January 2003 in order to promote the uptake of a number of renewable technologies including solar heating panels. Grants are available to both individual householders and community groups in order to install solar heating panels. The initiative also has a list of registered installers and has developed a mentoring scheme in order to train future installers and increase the amount of companies able to install these technologies.

Further details of the initiative, including grant levels, can be found on the website at www.clear-skies.org.

The Scottish Executive has its own parallel scheme, The Scottish Community and Household Renewables Initiative, which also offers grants for the installation of solar heating panels. Further details can be found on the website www.est.co.uk/schri.

Sir Archy Kirkwood: To ask the Secretary of State for Trade and Industry how many households in the UK she estimates use solar heating panels; and what her estimate is of use in five years' time. [169369]

Mr. Timms: The DTI does not keep a record of solar heating installations but according to figures from the Building Research Establishment it is estimated that there are approximately 60,000 solar heating systems installed in the UK.

At current installation rates of approximately 5,000 per year, there could potentially be a further 25,000 installations in five years time, assuming none of the current installations are removed.

Telephone Billing

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many disputes regarding telephone billing costs between customer and service providers were referred to Ofcom and its predecessors in each of the last five years; and how many of these were upheld in favour of *(a)* the customer and *(b)* the service provider. [169375]

Mr. Timms: The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of the House.

HEALTH

Asperger's Syndrome

Mr. Battle: To ask the Secretary of State for Health if his Department will set up an inquiry into the number of *(a)* adolescents and *(b)* adults with an Asperger's Syndrome diagnosis; and if he will make a statement. [168602]

Dr. Ladyman: The Department has no plans to set up an inquiry of this type. The Medical Research Council (MRC) published a comprehensive review of autism research in December 2001, which provides an authoritative overview of the current state of knowledge on the prevalence, incidence and causes of autism and Asperger's syndrome. The report was commissioned by the Department. It is available on the MRC website at http://www.mrc.ac.uk/pdf-autism-report.pdf

The MRC report notes that according to recent reviews, there appears fairly consistent agreement that autism spectrum disorders affect approximately 60, and more narrowly defined autism 10–30, per 10,000 children under eight years old. The prevalence of autism and Asperger's syndrome among adult and adolescent populations is not known.

The Department allocated a further £2.5 million in February 2002 to the MRC to help take forward the recommendations of their report.

The MRC held a series of four seminars to encourage the development of good quality applications for autism research funding between December 2002 and July 2003. On 11 July 2003, the MRC held the first of its annual forums for autism research, "Breaking barriers, building bridges", in conjunction with the National Autistic Society, to bring together ideas stimulated by the four seminars, one of which had addressed "Autism in Populations".

The MRC will be taking decisions on the allocation of research project funding for further autism studies in May 2004.

Competent Authorities (EU Accession States)

Miss McIntosh: To ask the Secretary of State for Health whether the European Commission has provided a list of competent authorities operating in the accession states in respect of the health and social care profession to his Department. [165902]

Mr. Hutton: No. The European Commission hopes to provide this information shortly.

Correspondence

Mr. Wilshire: To ask the Secretary of State for Health when he will respond to the letter from the hon. Member for Spelthorne of 4 February, PO 1043915, regarding continuing care criteria. [165065]

Dr. Ladyman *[holding answer 1 April 2004]:* A reply was sent to the hon. Member on 27 April 2004.

European Health Training Standards

Mr. Baron: To ask the Secretary of State for Health, (1) whether his Department has asked the European Commission to introduce transitional arrangements for health professionals from the new member states who do not meet the minimum training standards specified in the European Community directives on medicine, nursing, midwifery and dentistry by 1 May; [165222]

(2) when the European Commission will make a statement on the readiness of the 10 new member states to meet the minimum training standards specified in the European Community directives on medicine, nursing, midwifery and dentistry by 1 May; [165223]

(3) what powers the UK health regulators will have in relation to the assessment of individuals whose training may not meet minimum EU training requirements as specified in the European Community directives on medicine, nursing, midwifery and dentistry; [165224]

(4) what action the European Commission will take against those accession states that do not meet the minimum training standards specified in the European Community directives on medicine, nursing, midwifery and dentistry by 1 May; [165225]

(5) what efforts his Department has made to secure information from the European Commission as to which of the 10 new member states will have met the minimum training standards specified in the European Community directives on medicine, nursing, midwifery and dentistry by 1 May; and what work his Department has done in co-operation with other member states to secure that information. [165226]

Mr. Hutton *[holding answer 1 April 2004]:* We are in regular contact with the European Commission and the other member states on this issue. The Commission's assessment is that training in all the acceding countries will meet minimum requirements after 1 May. It is for the Commission to determine what action to take in relation to any acceding countries that do not meet these requirements. Where the qualifications awarded by the acceding countries do not meet minimum requirements,

the regulatory bodies are entitled to require proof of recent and substantial practice experience as a condition of recognition. Where such proof is not available, they are entitles to assess applicants on a case-by-case basis.

Green Ministers

Mrs. Calton: To ask the Secretary of State for Health what meetings his Department's Green Minister has attended in the last 12 months in that role. [165443]

Miss Melanie Johnson: The Department's Green Minister is a member of the ENV(G) Cabinet sub-committee and of the sustainable development taskforce. It has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government information.

The Green Minister met representatives of the Sustainable Development Commission in October 2003.

Professional Registration (EU Nationals)

Mrs. Iris Robinson: To ask the Secretary of State for Health whether health care staff from other EU countries are able to work in the United Kingdom prior to the completion of registration with UK professional bodies; and if he will make a statement. [164915]

Mr. Hutton: It is for employers to ensure that all staff are suitably qualified and experienced for the work to be done, regardless of their country of origin. Staff may not be employed in any capacity requiring registration without being registered. The status of individuals undertaking training or experience with a view to registration must be clearly distinguished from that of registered practitioners.

SOLICITOR-GENERAL

Treason

23. **Mr. Robathan:** To ask the Solicitor-General what her policy is on the prosecution of United Kingdom nationals for treason. [169200]

The Solicitor-General: Any offence of treason would be dealt with in the same way as other prosecutions. Namely that the police investigate and the Crown Prosecution Service consider whether there is enough evidence and whether a prosecution is in the public interest.

Nottingham Criminal Justice Board

24. **Mr. Allen:** To ask the Solicitor-General if she will make a statement on the work of the Crown Prosecution Service with the Nottingham Criminal Justice Board. [169201]

The Solicitor-General: The Nottingham Criminal Justice Board is one of the 42 local Criminal Justice Boards where the police, courts, prosecutors and prison service work together to ensure a fair and affective criminal justice system. Kate Carty, the local Chief Crown Prosecutor, is a member of the board which is chaired by the Chief Constable.

Cannings Case Judgment

25. **Mr. Borrow:** To ask the Solicitor-General if she will make a statement on the progress she is making in identifying prosecutions that may be affected by the Appeal Court's judgment in the appeal against the conviction of Angela Cannings. [169202]

The Solicitor-General: The process of identifying prosecutions which may be affected by the Appeal Court's judgment in the appeal against conviction of Angela Cannings has been completed. Since the Appeal Court's judgment on 19 January the 300 relevant cases have been identified, of which 86 involve defendants in custody. There are three stages to the review process. To date, 167 cases have been reviewed and I will be in a position to tell the House the outcome of those reviews very shortly.

Of the 16 ongoing prosecutions which may have been affected by the Cannings judgment, all have been reviewed and two have been discontinued. A Hampshire case was discontinued before trial and a Coventry case was discontinued before a retrial.

Fraud

Mr. Bellingham: To ask the Solicitor-General what recent representations she has received regarding Government measures to eradicate fraudulent schemes targeted at small businesses. [169203]

The Solicitor-General: I have not received any representations regarding these measures.

Wildlife Crime

Mr. Kidney: To ask the Solicitor-General what guidance she gives to Crown Prosecution Service offices to ensure the consistent prosecution of wildlife crime. [169196]

The Solicitor-General: The Crown Prosecution Service is aware of the need to make sure that effective measures are taken to ensure consistency in the prosecution of wildlife crime. It is a member of the Partnership for Action Against Wildlife Crime.

PRIME MINISTER

EU Enlargement

Keith Vaz: To ask the Prime Minister what events he will be attending in order to show his support for the enlargement of the EU. [169885]

The Prime Minister: I hosted a reception at the Foreign and Commonwealth Office on 28 April for 400 guests connected with the EU enlargement process and with the accession countries, including former Ministers and others from across the political spectrum. I will also attend the Irish EU Presidency's event to mark accession on 1 May in Dublin.

Immigration Status

Keith Vaz: To ask the Prime Minister if he will list those who have attended his immigration summits. [169884]

The Prime Minister: A number of Ministers together with officials attended the immigration summits.

Internal discussion and advice is exempt from disclosure in line with exemption 2b of Part 2 of the Code of Practice on Access to Government Information.

India

Keith Vaz: To ask the Prime Minister when he next plans to visit India. [169886]

The Prime Minister: I have no current plans to do so.

Iraq

Mr. Foulkes: To ask the Prime Minister if he will make representations to the United Nations Secretary General calling for an immediate and independent high level UN inquiry into the Iraq Oil for Food Programme arising from the evidence given to the United States Congress. [169242]

The Prime Minister: On 21 April 2004, the United Nations Secretary-General appointed an independent high-level inquiry to investigate allegations of corruption in the management and administration of the UN's Iraq Oil For Food Programme. Her Majesty's Government fully support the UN inquiry, which was endorsed by the Security Council through its unanimous adoption of resolution 1538 (21 April 2004).

Ministerial Gifts

Norman Baker: To ask the Prime Minister on what date he intends to publish the list of gifts received by Ministers in 2003–04. [169851]

The Prime Minister: The Government are committed to publishing an annual list of gifts received by Ministers in an official capacity valued at more than £140. Details of gifts received during 2003–04 valued at more than £140 are currently being assembled and will be published before the summer recess.

President Mubarak

Mr. Amess: To ask the Prime Minister when he plans to receive a state visit from President Mubarak. [169928]

The Prime Minister: I have no current plans to do so.

Tibet

Harry Cohen: To ask the Prime Minister if he will urge Chinese Prime Minister Wen Jiabao to undertake to commute the death sentence against Tenzin Deleg Rinpoche pending a fair and free retrial in the presence of international observers; and if he will make a statement. [169581]

The Prime Minister: I expect to discuss a wide range of issues with Premier Wen Jiabao.

We and our EU partners have raised concerns about the transparency and conduct of Tenzin Deleg Rinpoche's trial with the Chinese authorities on several occasions and have asked them to confirm that Tenzin Deleg Rinpoche's death sentence will be commuted to life imprisonment.

We will continue to monitor this case and make representations to the Chinese authorities where appropriate.

Harry Cohen: To ask the Prime Minister (1) if he will seek from Chinese Prime Minister Wen Jiabao an undertaking to drop all pre-conditions to negotiating a settlement on Tibet with representatives of the Dalai Lama; and if he will make a statement; [169584]

(2) if he will make a statement in public on the situation in Tibet during the visit of Chinese Prime Minister Wen Jiabao. [169585]

The Prime Minister: I expect to discuss a wide range of issues with Premier Wen Jiabao during his visit to the UK. The Government have an ongoing dialogue with China over human rights issues and Tibet at both ministerial level and the biannual UK/China Human Rights Dialogue. We welcome the continuing contact between the Chinese authorities and representatives of the Dalai Lama.

Tom Kelly

Norman Baker: To ask the Prime Minister what factors underlay his decision to appoint Mr. Tom Kelly as his chief spokesman; and what qualities Mr. Kelly will bring to his post. [167784]

The Prime Minister: I refer the hon. Member to the answer I gave to the hon. Member for New Forest, East (Dr. Lewis) at Prime Minister's questions on 28 April 2004, *Official Report*, column 884–85.

DEPUTY PRIME MINISTER

All-postal Elections

Sue Doughty: To ask the Deputy Prime Minister when he received *(a)* the summary report and *(b)* the full report on the voting and the integrity of the all-postal elections in Merrow, Guildford in May 2003 produced by the Electoral Commission. [169647]

Phil Hope: The Government received on 31 July 2003 the Electoral Commission's statutory evaluation report on the all-postal pilot election scheme at the elections held in Guildford on 1 May 2003.

Sue Doughty: To ask the Deputy Prime Minister when the full report on the voting and the integrity of the all postal election in Merrow, Guildford in May 2003 by the Electoral Commission will be published; and in what form it will be published. [169653]

Phil Hope: The Electoral Commission published on 31 July 2003 its evaluation report on the all-postal pilot election scheme held in Guildford on 1 May 2003. This was also sent to the local authority on the same date and was placed on the Commission's website.

Coverage Care

Mr. Clifton-Brown: To ask the Deputy Prime Minister pursuant to the answers of 15 March 2004, *Official Report*, columns 59–60W, on Coverage Care, what the current arrangements with Coverage Care (Gloucestershire) Ltd. are to which the answer refers; what the various circumstances referred to in the answer

were in this case, regarding the provision of financial assistance from local authorities; what discussions have taken place between his Department and Gloucestershire county council over this matter; what rent arrears Gloucestershire county council has accrued in relation to Coverage Care (Gloucestershire) Ltd.; and whether the Government has asked the District Auditor to investigate the matter. [163886]

Yvette Cooper: The circumstances are set out in detail in the general consents. Of particular relevance are "The General Consent under Section 25 of the Local Government Act 1988 for Small Amounts of Assistance 1999" and "The General Consent under Section 25 of the Local Government Act 1988 for Disposal of Residential Care Homes 1999".

In preparing for the possibility of a specific consent being sought from the First Secretary of State, the county council has explained the nature of possible proposals to the Office of the Deputy Prime Minister. However, information about the current arrangements with Coverage Care (Gloucestershire) Ltd.; details of proposals; and rent arrears accrued by Gloucestershire county council has resolved that information relating to the business affairs of the company should remain confidential. The Office of the Deputy Prime Minister has not asked the District Auditor to investigate the matter.

Fuel Poverty

Mr. Best: To ask the Deputy Prime Minister if he will upgrade the existing decent homes standard for all social sector housing to address fuel poverty. [167770]

Keith Hill: The Office of the Deputy Prime Minister does not intend to change the standard. To meet the decent homes standard, a home must have efficient heating as well as effective insulation. We are confident that the decent homes target will deliver significant improvements to the energy efficiency of the social housing stock taking many households out of fuel poverty.

Delivery of the decent homes target will improve the heating and/or insulation of 1.3 million homes owned by local authorities and housing associations.

Homelessness

Mr. Clifton-Brown: To ask the Deputy Prime Minister if he will list, for each housing authority, for the years *(a)* 1997, *(b)* 2000 and *(c)* 2003 the number of (i) adult homeless people, (ii) child homeless and (iii) residents in bed and breakfast accommodation. [166896]

Yvette Cooper: Available information, as reported by local authorities in England, has been made available in the Library of the House. Data collected on homelessness is in respect of households, rather than persons, although broad estimates of the number of dependent children within households accepted as eligible for assistance, unintentionally homeless and in "priority need" can be derived from the information supplied by local authorities. Snapshot information about numbers of households in various forms of temporary accommodation, including bed and breakfast style accommodation, represents the position on the last day of each quarter.

Ms Keeble: To ask the Deputy Prime Minister how many homeless families there were, broken down by region, for *(a)* the last quarter of 2003 and *(b)* the first quarter of 2004. [169732]

Yvette Cooper: Information on homelessness collected by the Office of the Deputy Prime Minister is in respect of households, rather than families. The number of households accepted as eligible, unintentionally homeless where the main category of priority need was the presence of dependent children, or an expectant mother, is however available. The following table shows the number of homeless household acceptances by local authorities, by region, along with information on those with dependent children or an expectant mother, for the fourth quarter of 2003. Estimates for the first quarter of 2004 will be published on 16 June.

Homeless households accepted by local authorities
Fourth quarter October—December 2003

	Total households accepted[1]	*of which main priority need category reported as:*	
		Dependent Children	*Expectant Mother*[2]
North East	2,050	970	190
North West	4,240	2,220	320
Yorkshire and The Humber	3,800	1,670	300
East Midlands	2,330	1,220	250
West Midlands	3,540	1,960	370
East of England	2,660	1,230	330
London	7,250	3,700	880
South East	3,610	1,720	470
South West	2,630	1,190	320
England	32,100	15,880	3,410

Notes:
[1] Applicants accepted as eligible, unintentionally homeless and in priority need.
[2] Household containing an expectant mother, but with no dependent children

ODPM quarterly P1E homelessness returns.

Housing

Mr. Hendrick: To ask the Deputy Prime Minister if he will make a statement on how the Starter Homes Initiative has affected the residents of Preston. [169660]

Mr. Neil Turner: To ask the Deputy Prime Minister how the Starter Homes Initiative has benefited the residents of Wigan. [169268]

Mr. Benton: To ask the Deputy Prime Minister if he will make a statement on how the Starter Homes Initiative has affected the residents of Bootle. [170077]

Keith Hill: Between September 2001 and 31 March 2004, the Starter Home Initiative helped key workers into home ownership in London, the south east, eastern and south west regions. A small scheme also operated in Warwickshire. The programme did not operate outside these areas.

Isle of Wight Projects

Mr. Andrew Turner: To ask the Deputy Prime Minister if he will list, for each of the financial years ending in March *(a)* 2000, *(b)* 2001 and *(c)* 2002, each project on the Isle of Wight funded by the (i) South East England Development Agency and (ii) the single

Regeneration Budget showing the (A) funding for each project, (B) intended outcomes of each project and (C) actual outcomes of each project. [169729]

Yvette Cooper: I refer the hon. Member to the letter sent by my right. hon. Friend the Member for Greenwich and Woolwich, on 27 April 2004. A copy of this letter has been made available in the library of the House.

I will write to the hon. Member with regards to the information requested on the intended outcomes for each project as soon as the information is collated. A copy of the letter will also be made available in the library of the House.

New Deal for Communities

Mr. Edward Davey: To ask the Deputy Prime Minister what the administration budget was for each New Deal for Communities partnership for each financial year since 1999–2000; and what the estimated administration budget for each such partnership is for financial years (i) 2004–2005 and (ii) 2005–06. [160342]

Yvette Cooper *[pursuant to my reply, 11 March 2004, Official Report, c. 638–39W]:* My earlier answer gave a figure of £9.655 million management and administration expenditure for Rochdale NDC. This figure includes all revenue expenditure. The correct figure is £2.413 million. The attached table includes the corrected figure and much smaller corrections for Newham, New Cross, Brighton and Derby NDCs. Figures for other NDCs remain the same. The New Deal for Communities Programme has 39 NDC Partnerships and £2 billion has been committed to them over the 10 years of the NDC Programme. The 17 Round 1 Partnerships entered their delivery phase in 2000–01 and the 22 Round 2 Partnerships entered their delivery phase in 2000–02.

The NDC Partnerships went through two phases before they entered their delivery phase. Phase 1 involved building up a partnership, phase 2 involved developing a delivery plan for the 10 years of the programme and, where possible, developing "quick win" projects. During Phase 1 and Phase 2 we would expect Management and Administration to be high as the partnerships were in the initial stages of setting up and building a partnerships.

Overall, partnerships may only spend up to 10 per cent. of their 10-year budget total on Management and Administration during the year life of their programme. Profiles vary, and some partnerships have spent more that 10 per cent. per annum on Management and Administration so far. However, we do not expect management and administration to exceed 10 per cent. of total spend by the time each partnership reaches its final year.

Management and Administration Budget

	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*[1]	*2005–06*[1]

[1] Please note that figures given for 2004–05 and 2005–06 are estimates and some are not yet agreed

Parish Councils

Mr. Robathan: To ask the Deputy Prime Minister how much the Standards Board for England has spent on investigations with regard to parish councils; and how much money was involved in the complaints and issues that led to such investigations. [168664]

Phil Hope: The Standards Board for England does not record this information.

Mr. Robathan: To ask the Deputy Prime Minister whether his Department directs the Standards Board for England to consider the benefit to the public interest when *(a)* determining whether to pursue investigations against parish councillors and *(b)* pursuing those investigations. [168720]

Phil Hope: When considering allegations of misconduct, the Standards Board for England operates within the statutory framework of the Local Government Act 2000 and related Regulations. In considering whether to refer an allegation for investigation, the Board considers whether the allegation is serious enough to justify a referral for investigation, and if a national or local investigation would be justified. The purpose of an investigation, carried out by an ethical standards officer, appointed by the Standards Board, is to make a finding as to whether or not the code of conduct for members has been breached and what further action if any needs to be taken. The Office of the Deputy Prime Minister does not have powers to intervene in particular cases and does not do so.

Recycling

Mr. Edward Davey: To ask the Deputy Prime Minister what percentage of copying paper used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [165643]

Phil Hope: The UK Sustainable Development in Government Second Annual report shows that in the year ended 31 March 2003 recycled paper accounted for 87 per cent. of desk top paper purchased by the Office of the Deputy Prime Minister. The post-consumer waste element of that recycled paper was 80 per cent. or more.

Mr. Edward Davey: To ask the Deputy Prime Minister what percentage of paper for printed publications used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [165644]

Phil Hope: The UK Sustainable Development in Government Second Annual report shows that in the year ended 31 March 2003 recycled paper accounted for 99 per cent. of paper for printed publications purchased by the Office of the Deputy Prime Minister. The post-consumer waste element of that recycled paper was 75 per cent. or more.

Mr. Edward Davey: To ask the Deputy Prime Minister what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content. [165645]

Phil Hope: Procurement units in the Office of the Deputy Prime Minister have been made aware of the quick win target for the purchase of copying paper. The Office of the Deputy Prime Minister monitors its performance for the purpose of reporting progress in the annual Sustainable Development in Government report.

In addition the Office of the Deputy Prime Minister has recently introduced an electronic ordering tool and this is to be configured to prevent the ordering of non-recycled paper by withdrawing non-compliant paper from the contracted suppliers' catalogues available to local purchasing officers.

Mr. Edward Davey: To ask the Deputy Prime Minister what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all paper for printed publications bought by the Department is 60 per cent. recycled of which a minimum is 75 per cent. post-consumer waste. [165646]

Phil Hope: The Office of the Deputy Prime Minister's Greening Operation Policy statement requires the use of compliant recycled paper and procurement units in the Office have been made aware of the quick win target for the purchase of paper for printed publications. The Office of the Deputy Prime Minister monitors its performance for the purpose of reporting progress in the annual Sustainable Development in Government report.

Mr. Edward Davey: To ask the Deputy Prime Minister by what date his Department expects to reach the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [165647]

Phil Hope: The Sustainable Development in Government Report shows that the Office of the Deputy Prime Minister met the quick win target for *(a)* copying paper and *(b)* for printed publications purchased in 2002–03. The Office of the Deputy Prime Minister expects that all of its copying paper and virtually 100 per cent. its printed paper procurement will be "Quick Win" compliant by end of 2005–06.

The Office of the Deputy Prime Minister will strive to attain 100 per cent., but at present some printing processes presently preclude the use of Quick Win specification paper. Should this situation change, "Quick Win" compliant paper will be used.

Mr. Edward Davey: To ask the Deputy Prime Minister if he will list the Department's main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports; what the name is of the paper used in each case; and what the (i) recycled and (ii) post-consumer recycle content of the paper is in each case. [165648]

Phil Hope: The details requested are as follows:

(a) Copier Paper—Evolve Business, supplied by Banner, contains 100 per cent. post-consumer waste.

(b) Stationery—Repeat Offset, supplied by the James McNaughton Paper Group, contains 100 per cent. post-consumer waste.

(c) Envelopes—Conservation and Croxley Heritage, supplied through the Government's Stationery Contract (Taurus Print & Design), contains 100 per cent. post-consumer waste.

(d) Paper for Reports—Revive, Revert and Evolution ranges, containing 75 per cent. post-consumer waste and 25 per cent. Elemental Chlorine Free pulp, Greencoat range, containing 80 per cent. post-consumer waste and 20 per cent. Totally Chlorine Free pulp, and Evolve Business, containing 100 per cent. post-consumer waste, all supplied by Robert Home Paper Company, Premier Paper Ltd., Howard Smith Paper and James McNaughton Paper Group through the Government's Paper Framework Contract.

Vacant/Derelict Land

Mrs. Spelman: To ask the Deputy Prime Minister how much previously developed land was *(a)* vacant and *(b)* derelict in England in each year since 1997. [169493]

Keith Hill: The available estimates are from the National Land Use Database of Previously Developed Land surveys of 1998, 2001 and 2002:

Previously developed land in England

	Vacant	*Derelict hectares*
1998	19,170	19,340
2001	19,720	21,410
2002	20,750	19,960

Results for 2003 will be published in the summer.

NORTHERN IRELAND

Autism

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on provision for those with autism in Northern Ireland. [168826]

Angela Smith: Provision for people with autism is the responsibility of a number of Government Departments and statutory bodies and a wide range of provision is available to help and support sufferers and their families.

The Department of Education has taken a proactive stance in supporting positive interventions for children with Autistic Spectrum Disorder (ASD) and has allocated funding for ASD training for people in the range of pre-school settings and for the establishment of an Interboard ASD Training Group, which will develop training needs and support measures in this area. It is also planning the establishment of a Centre of Excellence in the education of children with ASD on an all Ireland basis. Complementary parent and teacher videos and CD-ROMs, along with guidance material on autism have been produced and an "ASD Guide to Classroom Practice" has been issued to all schools as an aid to teachers and classroom assistants.

Health and Social Services Boards provide a range of mainstream and specialist healthcare services for children and adults with autism, including diagnostic and assessment services, family support services, respite services, day care services, befriending schemes, mental health services, learning disability services, training for parents and staff and collaboration with specialist voluntary organisations such as PAPA (Parents and Professionals and Autism) and PEAT (Parents' Education as Autism Therapists). The Department of Health, Social Services and Public Safety's Priorities for Action 2004–05 includes action to enhance diagnostic, assessment and early intervention services for children with autism. An additional £0.5 million has been allocated for this purpose.

Other assistance is available through the Disablement Advisory Service and Jobskills programme of the Department of Employment and Learning and through Disability Living Allowance and Attendance Allowance provided by the Social Security Agency.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many people were diagnosed as autistic in Northern Ireland in each of the last five years for which figures are available. [168827]

Angela Smith: The information requested is not available.

Core Gateway Costs

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much Core Gateway costs are for a two-week course at the East Antrim Institute in Northern Ireland. [168623]

Mr. Gardiner: The Core Gateway cost for a two-week course at East Antrim Institute in Northern Ireland is £400 per participant. This is in line with payments made to all Providers of Core Gateway based on a rate of £40 per day for full attendance.

Inward Investment

Mr. Trimble: To ask the Secretary of State for Northern Ireland how many jobs were created *(a)* by inward investment projects and *(b)* through business associated with agreed inward investment projects, for each year from 1998 and expressed as a percentage of the figure for the UK as a whole. [168213]

Mr. Gardiner: The information is as follows:

(a) Table 1 details the number of jobs created by inward investment projects assisted during the five year period commencing 1995–96. While the question asks for each year from 1998, it should be recognised that since assisted projects take some time to reach maturity, it has not been practice to produce job creation figures until four years subsequent to the offers of assistance being made. Therefore, this answer covers only two of the years requested but has been expanded to include the previous three years.

Table 1: Job Creation by Inward Investors

Financial Year	*Job creation up to March 2003*
1999–2000	5,284
1998–99	2,856
1997–98	4,187

Table 1: Job Creation by Inward Investors

Financial Year	*Job creation up to March 2003*
1996–97	4,426
1995–96	2,979
Total	19,732

To provide a more up to date picture of inward investment activity Table 2 presents the number of jobs promoted by inward investment projects during the five year period from 1998–99.

Table 2: Jobs Promoted By Inward Investors

Financial Year	*Jobs Promoted*
2002–03	1,033
2001–02	2,526
2000–01	5,506
1999–2000	6,584
1998–99	4,162
Grand Total	19,811

Previous evidence provided by the Industrial Development Board (IDE) to the Northern Ireland Audit Office showed that approximately 70 per cent. of jobs promoted were created and a similar proportion of grant offered was actually paid.

(b) No estimates are available concerning the secondary impacts associated with inward investment projects.

At present Invest NI has no statistically robust method of producing comparative figures regarding job promotion/creation figures achieved by the UK as a whole. Invest NI intends over the coming year to engage with UK Trade and Investment to develop an approach which will enable such comparisons to be made on a consistent basis. Nevertheless, Invest NI, and previously the IDB has indicative evidence to suggest that Northern Ireland's share of new contestable UK Foreign Direct Investment from the manufacturing and international tradeable service industry sectors is in the region of 10 per cent.

Legal Aid

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many people *(a)* applied for and *(b)* received legal aid in Northern Ireland in each of the last five years; and how many people had an application rejected. [168195]

Mr. Lammy: I have been asked to reply.

The Legal Services Commission records the number of applications for assistance rather than the number of clients assisted. The following table sets out details of legal aid applications for the period 1998–99 to 2002–03.

	Legal advice and assistance (LAA) Claims	*Advice by way of representation (ABWOR) Applications*	*Children Order Applications*	*Civil Applications*	*Criminal Applications*
1998–99					
Received	57,969	5,633	5,506	15,813	19,729
Granted		5,121	4,600	6,713	19,190
Refused		79	71	2,358	539
1999–2000					
Received	45,292	5,798	5,198	14,109	20,063
Granted		5,285	4,950	12,586	19,394
Refused		408	244	4,439	669
2000–01					
Received	46,656	5,622	5,133	14,097	19,344
Granted		5,157	4,824	11,480	18,681
Refused		177	123	2,847	663
2001–02					
Received	41,949	5,797	5,708	14,997	17,820
Granted		5,440	5,403	9,011	17,303
Refused		235	181	2038	517
2002–03					
Received	55,292	5,745	5,999	13,569	21,732
Granted		5,351	5,656	11,102	20,941
Refused		316	252	3,167	791

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the total cost of legal aid was in Northern Ireland in each of the last five years. [168196]

Mr. Lammy: I have been asked to reply.

The following table sets out the total cost of legal aid in Northern Ireland from 1998–99 to 2002–03:

£ million

	Criminal	*Civil*	*Sub total*	*Administration*	*Total*
1998–99	15.93	14.16	30.09	2.58	32.67
1999–2000	23.25	11.40	34.65	2.69	37.34
2000–01	21.88	15.82	37.70	2.87	40.57
2001–02	24.57	16.96	41.53	3.26	44.79
2002–03	26.77	18.21	44.98	3.58	48.56

Sexually Transmitted Infections

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the change in the incidence of sexually transmitted infections was in each year since 2000 in each of the health and social services board areas in Northern Ireland, broken down by *(a)* age and *(b)* sex. [168622]

Angela Smith: Information is not available on incidence of sexually transmitted infections in Northern Ireland, as not all persons with such infections are in contact with the health service. Information is, however, available on the number of initial contacts with Genito-Urinary Medicine clinics each year, in respect of persons with various sexually transmitted infections. This information which is shown for the financial years ending March 2000, March 2001, March 2002 and March 2003, together with the percentage change between each year, has been placed in the Library.

WORK AND PENSIONS

BT Business Rates

Malcolm Bruce: To ask the Secretary of State for Work and Pensions if he will place in the Library correspondence between his Department and the European Commission regarding the European Commission's preliminary investigations into the alleged undeserved subsidisation of BT's business rates by the Valuation Office Agency, including his Department's response. [167269]

Jacqui Smith: I have been asked to reply.

This correspondence contains commercially confidential material which it would be inappropriate for the Government to make public. This is covered by exemption 13 Third Party Commercial Confidences of the Code of Practice on Access to Government Information.

Child Support Agency

Mr. John Taylor: To ask the Secretary of State for Work and Pensions when he expects a resolution to Child Support Agency computer problems deriving from running two concurrent systems. [167134]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. John Taylor, dated 29 April 2004:

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, when he expects a resolution to Child Support Agency computer problems deriving from running two concurrent systems.

I have been working closely with EDS to resolve the issues on the new computer system. We are currently working on a remediation plan, which has yet to be validated and agreed. The old scheme cases will be converted to the new scheme when Ministers are confident that it is working well. I will continue to monitor this carefully and make regular reports to the Secretary of State on progress. As you are aware, reports have been made available in the House of Commons library on 16 July, 18 November 2003, 12 February and 21 April 2004.

Council Tax

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate, based on his Department's policy simulation model for 2004–05, for *(a)* all households, *(b)* all pensioner households, *(c)* all households headed by a pensioner over 70 and *(d)* all households headed by a pensioner aged 70 or above, the average level of (i) gross council tax and (ii) council tax net of rebates expressed as a percentage of household income. [169644]

Malcolm Wicks: The information is in the table. Estimates are modelled using the DWP Policy Simulation Model for 2004–05. This model is based on 2001–02 Family Resources Survey data, uprated to 2004–05 prices, benefit rates and earnings levels. It is then grossed up to forecast population totals for that year. The following table shows the information requested.

Percentage

	Average gross council tax as a percentage of household income	*Average council tax net of rebates as a percentage of household income*
All households	4	3
All pensioner households	5	3
All households headed by a pensioner aged over 70	6	3
All households headed by a pensioner aged 70 or over	6	3

Notes:

1. Gross council tax figures are net of any discounts.
2. Household income is net of income tax and national insurance contributions, and is unequivalised.
3. Estimates assume 100 per cent. take up of council tax benefit.

Disabled Workers

Mr. Neil Turner: To ask the Secretary of State for Work and Pensions if he will make a statement on the measures introduced to improve the working conditions of disabled workers in Wigan over the last seven years. [169311]

Maria Eagle: We have a number of measures in place nationally to help improve conditions for disabled people at work, as well as measures to improve their access to services generally. None of these are specific to Wigan, but all are available to disabled people who live and work there.

From 1996, the employment provisions of the Disability Discrimination Act required most employers of 20 or more staff not to discriminate against, and to make reasonable adjustments for, disabled job applicants or employees; in December 1998, we reduced this threshold to 15 employees. From October this year, the small employer exemption will be removed and most currently excluded occupations, such as police officers, firefighters, and partners in business partnerships will be brought within the scope of the Disability Discrimination Act employment provisions.

Jobcentre Plus runs a number of specialist programmes providing help for disabled people, including New Deal for Disabled People, Workstep, Access to Work, the Job Introduction Scheme, and Work Preparation. All these programmes provide practical advice and support to disabled people and their employers to help overcome work related obstacles resulting from disability. Since 1997–98 there have been year on year increases in both numbers helped and programme spend.

To help people access appropriate help, Jobcentre Plus has established a network of Disability Service Teams. The teams are made up of Disability Employment Advisors, Access to Work Advisers and Occupational Psychologists; their services are accessed through local Jobcentres.

Since April 2003, disabled people in work have been receiving financial support through the working tax credit. This is available if a person is working an average of at least 16 hours per week (self-employed or for an employer); and have a disability which puts them at a disadvantage in getting a job. 70,000 families (including over 32,000 adults without children) are benefiting from the disability element within the working tax credit, compared to 38,000 who benefited from the old disabled person's tax credit.

Mr. Hendrick: To ask the Secretary of State for Work and Pensions if he will make a statement on the measures introduced to improve the working conditions of disabled workers in Preston over the last seven years. [169662]

Maria Eagle: We have a number of measures in place nationally to help improve conditions for disabled people at work, as well as measures to improve their access to services generally. None of these are specific to Preston, but all are available to disabled people who live and work there.

From 1996, the employment provisions of the Disability Discrimination Act required most employers of 20 or more staff not to discriminate against, and to make reasonable adjustments for, disabled job applicants or employees; in December 1998, we reduced this threshold to 15 employees. From October this year, the small employer exemption will be removed and most currently excluded occupations, such as police officers, firefighters, and partners in business partnerships will be brought within the scope of the Disability Discrimination Act employment provisions.Jobcentre Plus runs a number of specialist programmes providing help for disabled people, including New Deal for Disabled People, Workstep, Access to Work, the Job Introduction Scheme, and Work Preparation. All these programmes provide practical advice and support to disabled people and their employers to help overcome work related obstacles resulting from disability. Since 1997–98 there have been year on year increases in both numbers helped and programme spend.

To help people access appropriate help, Jobcentre Plus has established a network of Disability Service Teams. The teams are made up of Disability Employment Advisors, Access to Work Advisers and Occupational Psychologists; their services are accessed through local Jobcentres.

Since April 2003, disabled people in work have been receiving financial support through the working tax credit. This is available if a person is working an average of at least 16 hours per week (self-employed or for an employer); and have a disability which puts them at a disadvantage in getting a job. 70,000 families (including over 32,000 adults without children) are benefiting from the disability element within the working tax credit, compared to 38,000 who benefited from the old disabled person's tax credit.

Failed Pension Schemes

Mr. Willetts: To ask the Secretary of State for Work and Pensions pursuant to the answer of 21 April 2004, *Official Report*, column 293, how many people whose pension schemes have been wound up have found that the money that they invested yielded nothing. [169646]

Malcolm Wicks: Information is not available on the number of people whose pension schemes have wound up with no, or insufficient, funds to meet their expected pensions. We are currently exploring with pension scheme trustees and other industry representatives the basis on which we can establish firm estimates of the extent of the problem of defined benefit schemes winding-up under funded, the numbers affected and the potential scale of losses

New Deal

Mr. Pike: To ask the Secretary of State for Work and Pensions how many women in Burnley have benefited from the *(a)* New Deal for Lone Parents and *(b)* New Deal for Partners since 1997; and if he will make a statement. [167886]

Jane Kennedy: Through the New Deal we have introduced a wide range of initiatives to help individuals improve their employment prospects by giving them the skills, support and confidence they need to move into work. From 12 April we enhanced the New Deal for Partners in order to offer partners taking part in that programme the same level of help and support as our successful New Deal for Lone Parents programme. Also from this April we have started to roll out Work Focused Interviews for Partners, offering greater support to partners of benefit recipients.

870 women have started New Deal for Lone Parents in Burnley since the beginning of the programme in October 1998, of whom, 550 have gained a job. Information on the number of women who have benefited from the New Deal for Partners is not available at constituency level.

Chris Ruane: To ask the Secretary of State for Work and Pensions how many people in the Vale of Clwyd constituency have benefited from *(a)* New Deal for Young People, *(b)* New Deal for 25-plus and *(c)* New Deal for Lone Parents in each ward in the Vale of Clwyd. [166683]

Jane Kennedy: The information requested is not available at ward level. The available information for the Vale of Clwyd constituency is in the table.

Number of individuals who have benefited from New Deal for Young People, New Deal 25-plus and New Deal for Lone Parents to the end of December 2003

Programme	*Individual starts*	*Individuals into work*
New Deal for Young People	1,110	690
New Deal 25-plus	270	80
New Deal for Lone Parents	1,130	560

Note:
Numbers are rounded to the nearest 10.
Source:
New Deal Evaluation Database.

Mr. Pike: To ask the Secretary of State for Work and Pensions how many lone parents in Burnley have gained work through the New Deal programme. [168321]

Jane Kennedy: 590 lone parents in Burnley have gained work through the New Deal for Lone Parents since the start of the programme in October 1998.

Information on the number of women who have gained work through the other New Deal programmes is not available at constituency level.

Jim Dobbin: To ask the Secretary of State for Work and Pensions how many lone parents in Heywood and Middleton have gained work through the New Deal programme. [168540]

Jane Kennedy: 730 lone parents in Heywood and Middleton have gained work through the New Deal for Lone Parents since the start of the programme in October 1998.

Information on the number of women who have gained work through the other New Deal programmes are not available at constituency level.

Jim Dobbin: To ask the Secretary of State for Work and Pensions how many women in Heywood and Middleton have benefited from *(a)* the New Deal for Lone Parents and *(b)* the New Deal for Partners since 1997; and if he will make a statement. [168544]

Jane Kennedy: Through the New Deal we have introduced a wide range of initiatives to help individuals improve their employment prospects by giving them the skills, support and confidence they need to move into work. From 12 April we enhanced the New Deal for Partners in order to offer partners taking part in that programme the same level of help and support as our successful New Deal for Lone Parents programme. Also from this April we have started to roll out Work Focused Interviews for Partners, offering greater support to partners of benefit recipients.

1,080 women have started New Deal for Lone Parents in Heywood and Middleton since the beginning of the programme in October 1998, of whom, 690 have gained a job. Information on the number of women who have benefited from the New Deal for Partners is not available at constituency level.

James Purnell: To ask the Secretary of State for Work and Pensions how many lone parents have gained work through the New Deal programme. [168741]

Jane Kennedy: 247,310 lone parents have gained work though the New Deal for Lone Parents since the introduction of the programme in October 1998. Lone parents may have gained work through other New Deal programmes but cannot be identified separately.

Information on the number of women who have gained work through the other New Deal programmes are not available at constituency level.

Mr. Neil Turner: To ask the Secretary of State for Work and Pensions how many lone parents in Wigan have gained work through the New Deal programme. [169310]

Jane Kennedy: 460 lone parents in Wigan have gained work through the New Deal for Lone Parents since the start of the programme in October 1998.

Information on the number of women who have gained work through the other New Deal programmes is not available at constituency level.

Mr. Neil Turner: To ask the Secretary of State for Work and Pensions how many women in Wigan have benefited from *(a)* the New Deal for Lone Parents and *(b)* the New Deal for Partners since 1997; and if he will make a statement. [169312]

Jane Kennedy: Through the New Deal we have introduced a wide range of initiatives to help individuals improve their employment prospects by giving them the skills, support and confidence they need to move into work. From 12 April we enhanced the New Deal for Partners in order to offer partners taking part in that programme the same level of help and support as our successful New Deal for Lone Parents programme. Also from this April we have started to roll out Work Focused Interviews for Partners, offering greater support to partners of benefit recipients.

710 women have started New Deal for Lone Parents in Wigan since the beginning of the programme in October 1998, of whom, 430 have gained a job. Information on the number of women who have benefited from the New Deal for Partners is not available at constituency level.

Mr. Hendrick: To ask the Secretary of State for Work and Pensions how many women in Preston have benefited from *(a)* the New Deal for Lone Parents and *(b)* the New Deal for Partners since 1997; and if he will make a statement. [169661]

Jane Kennedy: Through the New Deal we have introduced a wide range of initiatives to help individuals improve their employment prospects by giving them the skills, support and confidence they need to move into work. From 12 April we enhanced the New Deal for Partners in order to offer partners taking part in that programme the same level of help and support as our successful New Deal for Lone Parents programme. Also from this April we have started to roll out Work Focused Interviews for Partners, offering greater support to partners of benefit recipients.

890 women have started New Deal for Lone Parents in Preston since the beginning of the programme in October 1998, of whom, 500 have gained a job.

Information on the number of women who have benefited from the New Deal for Partners is not available at constituency level.

Mr. Hendrick: To ask the Secretary of State for Work and Pensions how many lone parents in Preston have gained work through the New Deal programme. [169663]

Jane Kennedy: 530 lone parents in Preston have gained work through the New Deal for Lone Parents since the start of the programme in October 1998.

Information on the number of women who have gained work through the other New Deal programmes is not available at constituency level.

Mr. Kaufman: To ask the Secretary of State for Work and Pensions how many women in Manchester, Gorton have benefited from the *(a)* New Deal for Lone Parents and *(b)* New Deal for Partners since 1997; and if he will make a statement. [167342]

Jane Kennedy: Through the New Deal we have introduced a wide range of initiatives to help individuals improve their employment prospects by giving them the skills, support and confidence they need to move into work. From 12 April we enhanced the New Deal for Partners in order to offer partners taking part in that programme the same level of help and support as our successful New Deal for Lone Parents programme. Also from this April we have started to roll out Work Focused Interviews for Partners, offering greater support to partners of benefit recipients.

930 women have started New Deal for Lone Parents in Manchester, Gorton since the beginning of the programme in October 1998, of whom, 450 have gained a job. Information on the number of women who have benefited from the New Deal for Partners is not available at constituency level.

Mr. Kaufman: To ask the Secretary of State for Work and Pensions how many lone parents in Manchester, Gorton have gained work through the New Deal programme. [167348]

Jane Kennedy: 480 lone parents in Manchester, Gorton have gained work through the New Deal for Lone Parents since the start of the programme in October 1998.

Information on the number of women who have gained work through the other New Deal programmes is not available at constituency level.

Pension Credit

Mr. Webb: To ask the Secretary of State for Work and Pensions how many recipients of pension credit are receiving *(a)* less than 10p per week, *(b)* 10p to 19p per week, *(c)* 20p to 29p per week, *(d)* 30p to 39p per week, *(e)* 40p to 49p per week, *(f)* 50p to 59p per week, *(g)* 60p to 69p per week, *(h)* 70p to 79p per week, *(i)* 80p to 89p per week and *(j)* 90p to 99p per week. [169396]

Malcolm Wicks: The information is given in the table. An award of pension credit of less than 10p per week is not payable unless the person is receiving another benefit payable with pension credit.

Pension credit awards of less than £1 as at 31 March 2004

Amount	*Number of awards*
Less than 10p	1,360
10p to 19p	1,107
20p to 29p	1,156
20p to 39p	1,152
40p to 49p	1,241
50p to 59p	1,271
60p to 69p	1,355
70p to 79p	1,302
80p to 89p	1,419
90p to 99p	1,428
Total	12,791

State Second Pension

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate *(a)* the gross cost, *(b)* the saving in expenditure on the state second pension, *(c)* the saving in expenditure on pension credit, *(d)* the saving in expenditure on other means-tested benefits, *(e)* the additional revenue from income tax and *(f)* the net cost to the Exchequer, of paying a full basic state pension to all individuals aged 65 or over from April 2006 onwards at the rate of the guarantee credit, regardless of contribution record, and subsequently indexed to average earnings, combined with the abolition from that date of all new accruals to the state second pension and the abolition of all payments of savings credit, including those to existing recipients for each of the 10 financial years from 2006–07. [167320]

Malcolm Wicks *[holding answer 22 April 2004]:* The information is not available in the format requested. However, such information as is available is in the following table:

£ billion

	(a) Gross Cost	*(b) S2P Saving*	*(c) PC Saving*	*(d) IRB Saving*	*(f) Net Cost*
2006–07	19.4	0	3.1	1.6	14.8
2007–08	20.7	0	3.3	1.7	15.8
2008–09	22.1	0.1	3.5	1.8	16.7
2009–10	23.5	0.1	3.7	1.9	17.8
2010–11	25.0	0.2	3.9	2.0	18.8
2011–12	26.6	0.3	4.1	2.1	20.1
2012–13	28.6	0.4	4.3	2.3	21.6
2013–14	30.5	0.6	4.6	2.4	23.0
2014–15	32.4	0.7	4.8	2.6	24.3
2015–16	34.2	0.9	5.0	2.7	25.6

Notes:

1. Figures are for Great Britain in 2004–05 price terms using the GDP deflator index rounded to the nearest £100 million.
2. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002 based population projections. Gross costs refer to the additional costs after allowing for National Insurance Fund benefits and non-means tested vote benefits.
3. The net cost includes all savings except for additional income tax revenue, see note 4.
4. Additional income tax revenue is estimated by the Inland Revenue using 2006 tax rates. We are unable to publish any income tax forecast estimates for years beyond that which is published in the Financial Statement and Budget Report (currently 2006–07). The income tax estimate for 2006–07 is based on the 2001–02 Survey of Personal Incomes and is projected in line

with March 2004 Budget assumptions. The income tax revenue in 2006–07 is £5.4 billion, resulting in a total net cost of £9.4 billion. For illustrative purposes, Inland Revenue assumed income tax revenue to be a fixed percentage of the gross cost for this option in 2007–08 and 2008–09. Therefore, the total net cost in 2007–08 is £10 billion and in 2008–09 is £10.5 billion. Estimates for later years would be subject to a greater degree of uncertainty.

5. The savings from abolishing future accruals to the state second pension are also calculated by the Government Actuary's Department, they include state pension, additional pension and widows benefit additional pension and are consistent with the long term Public Expenditure Survey forecasts. As earnings in the year of reaching state pension age do not count towards an individual's S2P, the first savings occur in 2007–08. No allowance has been made for changes to contracting out rules.

6. The savings credit is assumed to be abolished from April 2006 with no payments to existing pensioners and no new recipients after 2006. Figures are based on the illustrative long-term projections of benefit expenditure underlying Annex A of the Budget report.

7. The savings from other income related benefits (housing benefit and council tax benefit) are calculated using the Department's policy simulation model and April 2004 benefit rates. Consistent with previous answers the offset for the first year is held constant for subsequent years. In addition the increase in housing benefit and council tax benefit personal allowance for people aged 65 and over by the maximum savings credit amount, introduced alongside savings credit and included in forecast expenditure, has been accounted for, with the costing including the effect of removing this increase.

CONSTITUTIONAL AFFAIRS

Legal Aid

Bob Spink: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many solicitors provided legal aid in each legal aid area *(a)* in 1997 and *(b)* at the latest time for which figures are available. [168619]

Mr. Lammy: The Legal Services Commission can provide figures for 1997–98 on the number of solicitors' offices paid for legal aid work in Family, Non-family and Crime but cannot provide any further breakdown by category. Some offices practiced more than one area of legal aid, therefore the total offices paid does not equal the sum of the breakdown. These figures are in the following table A.

In January 2000 the Legal Services Commission introduced a system of contracting. A breakdown of the number of solicitors' offices with contracts as at April 2004 is provided in the following table B. Some offices hold a contract in more than one category of law, therefore, the total offices with civil contracts does not equal the sum of the breakdown.

Table A

Category of law	*Solicitors' offices paid in 1997–98*
Family	9,082
Non-family	9,497
Crime	7,304
Total solicitors' offices paid	10,601

Table B

Category of law	*Solicitors' offices with contracts as at April 2004*
Actions against the police	75
Clinical negligence	288
Community care	57
Consumer	45
Debt	158
Education	47
Employment	163
Family	3,072
Housing	450
Immigration: asylum	380
Immigration: non-asylum	376
Mental health	297
Personal injury	1,079
Public law	40
Tolerance	2,098
Welfare benefits	186
Solicitors' offices with Controlled Work Contracts	3,701
Additional Licence Only Contracts	213
Total solicitors' offices with General Civil Contracts	3,914
The number of solicitors' offices with criminal contracts as at 31 March 2004	2,750

Bob Spink: To ask the Parliamentary Secretary, Department for Constitutional Affairs what proportion of the legal aid budget was spent on asylum and immigration cases in each of the last five years. [167074]

Mr. Lammy: The proportion of the legal aid budget spent on immigration and asylum in each of the last five years was as follows:

	Percentage
	Proportion
1998–99	3.2
1999–2000	3.9
2000–01	4.8
2001–02	7.4
2002–03	9.2

Figures for 2003–04 are not yet available.

Social Security Commissioners

Hywel Williams: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what the average waiting time from application to hearing for cases before the Social Security Commissioners was in the last three years in *(a)* Wales and *(b)* England; [167983]

(2) what the average waiting time from application to hearing for cases before the Social Security Commissioners was in each of the last three years for cases heard *(a)* wholly or partly in Welsh and *(b)* in English. [167986]

Mr. Lammy: The Social Security Commissioners receive applications from the claimant, which are then considered by the Commissioners, and a ruling issued. The Commissioners will either grant or refuse leave to appeal. If leave to appeal is granted the appeal then proceeds to hearing. No cases before the Social Security Commissioners have been heard either wholly or partly in Welsh during the last three years. The Office of the Social Security Commissioners does not hold separate

statistical information relating to waiting times for cases in either Wales or England. The average waiting times for an application for leave to appeal, and for appeals granted leave to proceed to hearing, over the last three years, are as follows:

Weeks

Period	*Average waiting time for application decision*	*Average waiting time from decision to hearing*[1]
2001–02	16	34
2002–03	10	21
2003–04	8	20

[1] Please note that waiting time figures have been rounded up or down where appropriate.

Hywel Williams: To ask the Parliamentary Secretary, Department for Constitutional Affairs what written and other information material is provided *(a)* in Welsh and *(b)* bilingually to people taking cases to the Social Security Commissioners. [167984]

Mr. Lammy: The Office for the Social Security Commissioners has an internet site which is accessible in Welsh or English which provides a range of information in relation to the procedures of the Commissioners. Work is currently ongoing in translating the Social Security Commissioners appeal form, and an information leaflet, into the Welsh language.

Hywel Williams: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many cases from Wales were heard in each of the last three years by the Social Security Commissioners; and how many of these were heard partly or wholly through the medium of Welsh. [167985]

Mr. Lammy: The Office of the Social Security Commissioners does not hold statistical information relating to the volume of cases received principally from Wales. However, over the last three years there have been 73 cases heard orally in Cardiff for which proceedings were conducted in English.

Hywel Williams: To ask the Parliamentary Secretary, Department for Constitutional Affairs what provision is available for cases before the Social Security Commissioners to be heard either wholly or partly in Welsh in respect of *(a)* cases heard in Wales and *(b)* cases from Wales heard in England. [167987]

Mr. Lammy: A standard direction applies to cases received from Wales. This states that "A notice that it is intended to use Welsh must *(a)* identify those parts of the case or hearing in which Welsh will be used and *(b)* be given to the commissioner as soon as possible and in any event at least 21 days before any oral hearing. If notice is given that Welsh will be used the Commissioner will make any further directions that are necessary or expedient". This direction covers all cases received from Wales irrespective of whether they are heard in Wales or England.

Hywel Williams: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many cases from Wales were heard by the Social Security Commissioners in England in each of the last three years. [168018]

Mr. Lammy: The Office of the Social Security Commissioners does not hold statistical information relating to the number of cases received from Wales and subsequently heard in England.

British Irish Council

Rev. Martin Smyth: To ask the Parliamentary Secretary, Department for Constitutional Affairs what work is being undertaken by the British Irish Council in the field of languages; what the objectives of this work are; which Government Departments are involved; what contribution non-governmental organisations in the minority languages sector are making to this work; and how the work will contribute to the delivery of the European Charter for Regional or Minority Languages. [168010]

Mr. Lammy: The work of the British-Irish Council (BIC) in the area of Indigenous, Minority and Lesser-Used Languages is subject to agreement between all member administrations and is led by the Welsh Assembly Government.

The BIC at its meeting in Cardiff in November 2003, which was attended by the Prime Minister, agreed that Members should:

Jointly consider outcomes of research into intergenerational language transmission;

Carry out an assessment of structures supporting indigenous language learning in adult education in each of the BIC administrations;

Work together to identify priorities for their respective indigenous languages in relation to Information and Communication Technology development;

Consider together the potential benefits of co-operating on the development of language use surveys;

Share information on their experiences of the relationship between planning policy and linguistic considerations.

The language covered by the BIC in its work in this field to date include:

Cymraeg/the Welsh language

Gaelic in Scotland

Gaelg/the Manx language

An Ghaeilge/the Irish language

Guernesiais/Guernsey-French

Jerriais/the Jersey language

Ulster Scots

The members of the Council are the British and Irish Governments; the devolved administrations of Northern Ireland, Scotland and Wales; the Bailiwicks of Jersey and Guernsey and the Isle of Man. (Since the suspension of the Northern Ireland Assembly, Northern Ireland interest within the British-Irish Council have been represented by Northern Ireland Office Ministers as part of the UK delegation).

Each of the BIC member administrations is responsible for determining the nature of the involvement of its own administration.

The Welsh Assembly Government lead the work in the languages sector and it is open to any member administration to suggest a contribution from a non-governmental organisation. Work in this field will

include input from various language boards, adult education providers and community-based language groups such as the Welsh Mentrau Iaith.

Delivery of the European Charter on Regional and Minority Languages is a matter for each of the Charter's ratified signatories including the UK Government. The work of the BIC in this area will complement current UK initiatives in respect of the Charter.

Correspondence

David Winnick: To ask the Parliamentary Secretary, Department for Constitutional Affairs when the hon. Member for Walsall North will receive a reply to his letter of 11 March ref.147849. [168885]

Mr. Lammy: I wrote on 29 April to my hon. Friend, the Member for Walsall North in response to his letter of 11 March. I apologies for the delay.

Immigration

Mr. Hawkins: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the costs to the Legal Aid Fund on immigration matters were in each financial year since 1996–97. [167180]

Mr. Lammy: In the time available, it is not possible to identify separately the cost of immigration from asylum cases. The costs to the Legal Aid Fund on immigration and asylum matters in England and Wales for each financial year since 1996–97 are as follows:

	£ million (net) [1]
1996–97	26.1
1997–98	35.2
1998–99	53.3
1999–2000	61.4
2000–01	81.1
2001–02	129.4
2002–03	176.2
2003–04	[2]204

[1] Approximately 10 per cent. of the total cost of immigration and asylum matters relates to immigration and nationality cases.
[2] Provisional figure, subject to end-of-year adjustments.

Small Claims

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to the answer of 31 March 2004, *Official Report*, column 1417W, on small claims, what research projects the Department has conducted. [168621]

Mr. Lammy: The Department's Research Unit has commissioned and published two reports by Professor John Baldwin on small claims. They are:

No. 1/97 Monitoring the rise of the small claims limit: litigants' experiences of different forms of adjudication

No 8/02 Lay and judicial perspectives on the expansion of the small claims regime

A report by Professor Joanna Shapland, Angela Sorsby and Jeremy Hibbert: A Civil Justice Audit was published by the Department in 2002. This looked at the value, nature and progress of cases through the County Court in Sheffield and included data on small claims.

The DCA Research Unit has recently begun a study of a scheme to mediate small claims in Exeter County Court. The DCA's Consumer Strategy Review has also looked at small claims as part of its project on debt.

Welsh Medium Service

Hywel Williams: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent assessment he has made of the Welsh medium service provided by the Social Security Commissioners. [167683]

Mr. Lammy: The Chief Commissioner has asked for the Social Security Commissioners' electronic database to be amended to have the functionality to identify cases received from Wales. There is a Welsh page available on the website available at http://www.osscsc.gov.uk/pages/cymru.htm giving information on the procedures of the Social Security Commissioners. The website is currently undergoing substantial revision. The relevant appeal form, and an information leaflet are being re-developed for the Welsh medium.

EDUCATION AND SKILLS

Sure Start (Chatham)

10. **Jonathan Shaw:** To ask the Secretary of State for Education and Skills what assessment he has made of the effect of the Sure Start programme in Chatham. [169214]

Margaret Hodge: Sure Start Chatham is starting to make a difference to the children and families in the area. The programme has launched a highly successful programme where mothers encourage other mothers to breast-feed; breast-feeding rates are now up by about 20 per cent. And the uptake rate for hearing tests which was about 33 per cent. before the programme began, now stands at 97 per cent.

Nationally we are undertaking a major and comprehensive evaluation of the Sure Start Programme. Results will become available over the next 12 months. But to give just one example of the impact, we know that in Sure Start local programme areas, there has been a 6 per cent. reduction in percentage of mothers who smoke during pregnancy; and we know that that will make a real difference to the health and well being of a child.

Educational Attainment (East Midlands)

11. **Mr. Allen:** To ask the Secretary of State for Education and Skills if he will rank the local education authorities for the East Midlands by their level of educational attainment. [169215]

Mr. Charles Clarke: Performance tables for each local education authority are published each year showing the level of educational attainment at Key Stage 2, Key Stage 3, GCSE/GNVQ and A/AS level. I am today placing details of the nine East Midlands authorities in Library.

Civic Awareness

12. **Helen Jackson:** To ask the Secretary of State for Education and Skills what steps he is taking to promote civic awareness through educational activities for students aged 14 to 19 years. [169216]

Mr. Stephen Twigg: The National Curriculum provides citizenship learning for students up to age 16. We have also been investigating the scope for introducing an entitlement to active citizenship in the post-compulsory phase; development work continues. Mike Tomlinson's Working Group sees young people's active contribution to the community within the core of 14–19 learning; The Group's final report is due out in the autumn.

Mathematics Teaching

14. **Mr. Gibb:** To ask the Secretary of State for Education and Skills when he will respond to the proposals made in the report by Professor Smith on post-14 mathematics teaching. [169218]

Mr. Charles Clarke: As I have said before, I very much welcome Professor Smith's report. It provides a sound framework for determining the way ahead.

I have already accepted the broad thrust of his recommendations. I am able to report that work is in hand to advertise the appointment of a chief adviser of mathematics and Anita Straker, of the Centre of British Teachers, has been appointed on an interim basis. I affirm that I am still committed to the idea of a National Centre for Excellence in Mathematics Teaching that is separate from the science centre.

I am discussing implementation of the report in detail with Professor Smith and others and will announce my decisions on individual elements in due course.

Children of Military Personnel (Schools Funding)

15. **Bob Russell:** To ask the Secretary of State for Education and Skills when he will announce additional funding for schools with a large proportion of children of military personnel under the terms of the turbulence factor. [169219]

Mr. Stephen Twigg: Local education authorities have discretion to make extra funding available to schools with high pupil turnover as a result of armed forces redeployments, and some do so, including Essex. We are aware that schools with a high proportion of service family children among their pupils have a range of concerns about funding and other issues; and a series of regional meetings is taking place in May with a new national body including representative head teachers of such schools, as well as Government officials. We shall be considering the results in due course, with a view to meeting the needs of these schools.

School Selection (Hertfordshire)

16. **Claire Ward:** To ask the Secretary of State for Education and Skills what representations he has received regarding the independent adjudicator's decision on school selection in Hertfordshire. [169220]

Mr. Miliband: We have received representations from a small number of parents, either complaining that they disagree with the decision, or that it has taken too long for this issue to be resolved. However, adjudicators are independent of the Secretary of State and their decisions can only be challenged through the courts.

Disruptive Pupils

17. **Mr. Blizzard:** To ask the Secretary of State for Education and Skills what support he will give to schools to enable them to deal with disruptive pupils. [169221]

Margaret Hodge: We are the first Government to adopt a comprehensive strategy to improve behaviour in schools. We are providing all secondary schools with high-quality training materials and expert consultancy, developing similar materials for primary schools and focusing intensive support such as multi-agency teams on schools facing the greatest challenges. This is in addition to the learning support units and learning mentors already provided through our Excellence in Cities programme.

Schools (Drinks Dispensers)

18. **Mr. Simon Thomas:** To ask the Secretary of State for Education and Skills what proportion of *(a)* primary and *(b)* secondary schools have (i) soft drinks machines and (ii) free water dispensers for pupils. [169222]

Mr. Stephen Twigg: The information requested is not collected centrally but the Education (School Premises) Regulations 1999 require schools to have a wholesome supply of drinking water.

Centres of Vocational Excellence

19. **Ross Cranston:** To ask the Secretary of State for Education and Skills what assessment he has made of the impact of Centres of Vocational Excellence upon standards in further education colleges. [169223]

Alan Johnson: Centres of Vocational Excellence are already making a significant contribution to our drive to raise standards in further education colleges, particularly in engaging employers and responding to their needs. 82 per cent. of employers rate CoVE training as excellent or good.

We expect the contribution of CoVEs to improving standards to increase significantly when we reach our target of 400 and each centre is fully developed. And we are already two-thirds of the way to achieving this target.

Adult Education

Mr. Kilfoyle: To ask the Secretary of State for Education and Skills how much has been spent in Liverpool on *(a)* adult literacy and *(b)* adult numeracy in each year between 1997 and 2003. [166956]

Mr. Ivan Lewis: The estimated total spend on "Skills For Life" (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology),

from April 2001 to July 2003, in the Greater Manchester Learning and Skills Council (LSC) area is set out in the table.

£000

	Basic skills	Key skills
April 2001 to July 2001[1]	8,925	2,598
August 2001 to July 2002	15,369	3,586
August 2002 to July 2003	27,258	4,210

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Broadband

Malcolm Bruce: To ask the Secretary of State for Education and Skills how many and what percentage of schools have access to broadband-enabled internet, broken down by those in *(a)* urban, *(b)* rural and *(c)* deprived areas. [168668]

Mr. Charles Clarke: By the end of March 2004, 60 per cent. of schools had access to broadband connectivity and we are on track to connect all schools by 2006. My Department does not hold information on the percentage of schools in deprived areas with access to broadband, or regularly collect such information for rural schools. The most recent position for which data on rural schools is available is August 2003, at which point 42 per cent. of all schools and 33 per cent. of rural schools were connected to broadband.

Capital Modernisation Fund (Wigan)

Mr. Neil Turner: To ask the Secretary of State for Education and Skills how much money was allocated to Wigan from the Capital Modernisation Fund. [169292]

Mr. Charles Clarke: The Department for Education and Skills does not hold this information centrally. Capital Modernisation Fund is allocated by projects and not by area.

Careers Advisers

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many careers advisers there were in each year since 1997. [167990]

Margaret Hodge: My Department does not collect data on the number of careers advisers or the specialist qualifications held by Connexions Personal Advisers. Although Connexions Partnerships report the numbers of Personal Advisers in post, they are not yet required to provide data on those with a careers guidance specialism. This information will be available in the annual survey of all Connexions staff due to take place at the beginning of May.

Child Care (Preston)

Mr. Hendrick: To ask the Secretary of State for Education and Skills (1) how many child care places have been created in Preston since 1997; [168114]

(2) how many children in Preston have gained from the National Childcare Strategy. [168131]

Margaret Hodge: The Department is unable to provide details of child care places for Preston. However, from April 1999 to December 2003 Lancashire local authority created 20,860 new child care places helping some 36,821 children. This shows an increase in the stock of child care places, taking into account turnover, of 9,046 helping some 16,274 children.

Child Guardians

Mr. Oaten: To ask the Secretary of State for Education and Skills when he expects the President of the Family Law Division to issue her latest practice note regarding the appointment of child guardians in private law proceedings. [167633]

Margaret Hodge: The President of the Family Division issued a Practice Direction on 5 April 2004. Copies of this Practice Direction and the CAFCASS Practice Note, which explains it, have been placed in the Library of the House.

Children and Family Court Advisory and Support Service

Tim Loughton: To ask the Secretary of State for Education and Skills (1) what the closing date was for applications for new board members for the Children and Family Court Advisory and Support Service; [169022]

(2) what criteria his Department used in determining appointments to the Children and Family Court Advisory and Support Service board; [169023]

(3) how many people applied for positions on the board of the Children and Family Court Advisory and Support Service; [169024]

(4) whether applications for the board of the Children and Family Court Advisory and Support Service were considered which had been received after the official closing date. [169025]

Margaret Hodge: The published closing date for applications to the new board of the Children and Family Court Advisory and Support Service (CAFCASS) was 28 January 2004. After 28 January the exercise was extended, to widen the range of skills and experience offered by candidates, and four further applications were considered. A total of 336 applications for the positions were received. The published criteria for new board members were as follows:

"Successful candidates will have demonstrated skills and experience in one or more of the following:

Experience of working at a senior level in, or close to, the family justice system or social services for children.

National level experience of children's charities or responsible organisations representing families and parents or mediation services.

A background in research relevant to CAFCASS customers and the operation of family law.

Experience of a top level executive position in a large organisation, public or private sector, delivering high quality services to the public.

Experience of being a non-executive board member or director in an NDPB, company or charity.

Senior experience in financial management, not necessarily as a professionally qualified person, with expertise in budgeting, resource management and audit.

Board expertise in information technology.

In addition, candidates will demonstrate commitment to customer care and valuing diversity. They will have integrity and be able to work well as a member of a team."

Children's Centres

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many children's centres have been set up; and if he will make a statement. [167875]

Margaret Hodge: There are 67 children's centres in England all of which are based in disadvantaged areas. We have now begun to receive children's centres implementation plans from local authorities and are considering these on an individual basis. We will be in a position to announce more centres by the middle of June 2004. Further announcements will be made at regular intervals as we work towards our goal of 1,700 children's centres by March 2008 and our aspiration for one in every community in the longer term.

Computers Within Reach (Wigan)

Mr. Neil Turner: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* families in Wigan have benefited from the Computers within Reach programme. [169291]

Mr. Charles Clarke: The Computers Within Reach (CWR) scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a State Pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two thirds of teachers to receive a laptop by March 2006.

Wigan was not one of the pilot areas for the CWR scheme.

Connexions Service

Mr. Simmonds: To ask the Secretary of State for Education and Skills what estimate he has made of the number of students who have visited a Connexions branch since the launch of the service. [167991]

Margaret Hodge: Information on the number of students who have visited Connexions branches since the launch of the service has not been collected centrally.

A departmental survey in 2003 found that, on average, young people made 40,000 visits to Connexions one-stop-shops and community based access points each week. This equates to over two million visits per year.

East of England Centre for Playwork Education and Training

Bob Spink: To ask the Secretary of State for Education and Skills (1) what the *(a)* total set up and *(b)* latest annual operating costs were for the East of England Centre for Playwork Education and Training; and what the sources of those funds are; [168779]

(2) what the aims and objectives are for the East of England Centre for Playwork Education and Training; and how many staff are involved in this organisation. [168795]

Margaret Hodge: The East of England Centre is one of nine regional centres for Playwork Education and Training operated by the Playwork Unit of Skillsactive, the Sector Skills Council for Active Leisure and Learning. The Government, through the SureStart Unit and the Department for Culture, Media and Sport, contributes to the funding of the Playwork Unit. In 2003–04, £50,000 of this contribution went to the East of England Centre and a similar amount will again go to the Centre in 2004–05.

The aims and objectives of the Playwork Unit and its regional centres are to: raise the level of understanding about the importance of children's play; improve the access to good quality play provision throughout England; and improve children's lives by setting standards of excellence in education, training and qualifications and developing opportunities for playworkers to access education, training and qualifications.

The total set up costs, annual operating costs and staff numbers of the East of England Centre are the responsibility of the Playwork Unit of Skillsactive, which is a charitable organisation.

Education (Bootle)

Mr. Benton: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four-year-olds in Bootle in each of the last seven years. [169080]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by 3 and 4-year-olds in Sefton local education authority area are shown in the table.

The latest figures on provision for three and four-year-olds in England were published in a Statistical Bulletin "Provision for children under five years of age in England—January 2003" which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Since the beginning of April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, are eligible for a free, part-time early education place.

Number of free nursery education places[1,2] taken up by 3 and 4-year-old children in maintained nursery and primary schools and private, voluntary and independent providers—Sefton local education authority area: 1997–2003

Position in January each year	3-year-olds	4-year-olds
1997	2,100	3,200
1998	2,000	3,300
1999	2,100	3,200
2000	2,400	3,100
2001	2,900	3,200
2002	2,700	3,200
2003	2,700	3,000

[1] Part-time equivalent number of free nursery education places taken up by three and four-year-old children.

[2] A free nursery education place comprises five two and a half hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

Education (East Worthing and Shoreham)

Tim Loughton: To ask the Secretary of State for Education and Skills how many new nurseries have been set up in East Worthing and Shoreham since 1997. [169033]

Margaret Hodge: West Sussex local authority is responsible for determining the local need for nurseries in West Sussex and holding information on current provision. West Sussex local authority reported that between April 1999 and December 2003, 37 new nurseries have been established in the constituency of East Worthing and Shoreham. Thirteen of these are offering full daycare and 24 are offering sessional daycare, creating 1,301 additional places. West Sussex Local authority plan to create a Children's Centre in Worthing providing Children's Centre services for around 250 children and their families. The nursery attached to the Worthing Children's Centre (which has benefited from resources from the Neighbourhood Nurseries Initiative) is set to open in October 2004 and will deliver 30 new full daycare places.

Tim Loughton: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three-year-olds and (ii) four-year-olds in East Worthing and Shoreham in each of the last seven years. [169035]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by 3 and 4-year-olds in West Sussex local education authority area are shown in the table.

The latest figures on provision for 3 and 4-year-olds in England were published in a statistical bulletin "Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Since the beginning of April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, will be eligible for a free, part-time early education place.

Number of free nursery education places[1,2] taken up by 3 and 4-year-old children in maintained nursery and primary schools and private, voluntary and independent providers—West Sussex local education authority area: 1997–2003

Position in January each year	3-year-olds	4-year-olds
1997	600	7,600
1998	800	7,900
1999	900	8,400
2000	800	8,700
2001	1,300	8,200
2002	2,600	8,100
2003	4,900	8,400

[1] Part-time equivalent number of free nursery education places taken up by three and four-year-old children.

[2] A free nursery education place comprises five two and a half hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

Education (Heywood and Middleton)

Jim Dobbin: To ask the Secretary of State for Education and Skills (1) how many children have benefited from the National Childcare Strategy; and if he will make a statement; [168496]

(2) how many child care places have been created in Heywood and Middleton since 1997. [168513]

Margaret Hodge: The Department is unable to provide details of childcare places for Heywood and Middleton. However, from April 1999 to December 2003 Manchester local authority created 6,086 new child care places helping some 11,101 children. This shows an increase in the stock of child care places, taking into account turnover, of 3,629 helping some 6,772 children.

Jim Dobbin: To ask the Secretary of State for Education and Skills how much public funding was spent on computers for schools in Heywood and Middleton in each of the last seven years. [168506]

Mr. Charles Clarke: My department does not collect information on school spend on computers at constituency level. However Heywood and Middleton is in Rochdale LEA and since 1998–99 schools in Rochdale have benefited from the following funding through the Standards Fund Grant for ICT (including match funding from the LEA):

	Allocation to Rochdale LEA (£)
1998–99	442,813
1999–2000	354,000
2000–01	728,370
2001–02	1,076,549
2002–03	1,304,709
2003–04	1,613,999
2004–05	1,826,570

Jim Dobbin: To ask the Secretary of State for Education and Skills if he will make a statement on the effects on schools of changes since 1997 in the level of investment in school sports in Heywood and Middleton. [168576]

Mr. Stephen Twigg: The information is not held in the format requested.

Within the context of the statutory National Curriculum, where Physical Education (PE) is compulsory for pupils aged 5–16, it is for individual schools to use their budgets as they judge appropriate.

The Government are investing more than £1 billion in England to transform PE, school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of 5–16 year olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The Department is providing just over £330,128–00 to support the Siddal Moor School Sport Partnership in the Rochdale LEA area. The partnership includes five secondary schools (including the sports college hub) and 20 primary/special schools and provides enhanced sports opportunities for all young people to ensure that their pupils spend a minimum of two hours a week on high quality PE and School Sport.

The New Opportunities Fund has provided schools in the Rochdale LEA area with over £2.873 million specifically to enhance PE and school sport facilities.

Latest research, published by the Departments on 4 March shows that 68 per cent. of pupils in schools that have been in a Partnership for three years, are taking up the two hour entitlement, rising to 90 per cent. at Key Stage 3. Data has been collected from remaining Partnerships and will be published in April.

Jim Dobbin: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four year olds in Heywood and Middleton in each of the last seven years. [168581]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four year olds in Rochdale local education authority area are shown in the table.

The latest figures on provision for three and four year olds in England were published in a Statistical Bulletin Provision for children under five years of age in England-January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Since the beginning of April 2004, six months ahead of our original target, all three year olds in England whose parents want one, are eligible for a free, part-time early education place.

Number of free nursery education places[1,2] taken up by 3 and 4-year-old children in maintained nursery and primary schools and private, voluntary and independent providers—Rochdale local education authority area—1997–2003

Position in January each year	3-year-olds	4-year-olds
1997	1,400	2,800
1998	1,500	2,800
1999	1,400	2,800
2000	2,300	2,700
2001	2,300	2,700
2002	2,500	2,700
2003	2,300	2,700

[1] Part-time equivalent number of free nursery education places taken up by three and four year old children.
[2] A free nursery education place comprises five, two and a half hour sessions of early years education per week, for thirty-three weeks of the year, usually three terms of eleven weeks.

Education (Match Funding)

Mr. Drew: To ask the Secretary of State for Education and Skills what studies he has made of the difficulties further education colleges have faced in deriving sources of funding to match funds from the learning and skills council. [168362]

Alan Johnson: We have not commissioned studies into the factors affecting further education college abilities to match funds from the Learning and Skills Council (LSC). Colleges are generally required to provide match funding for capital projects.

Colleges are not required to match funding for learning provision.

Education (Stalybridge and Hyde)

James Purnell: To ask the Secretary of State for Education and Skills (1) how many childcare places have been created in Stalybridge and Hyde since 1997; [168750]

(2) how many children in Stalybridge and Hyde have gained from the National Childcare Strategy. [168757]

Margaret Hodge: The Department is unable to provide details of childcare places for Stalybridge and Hyde. However, from April 1999 to December 2003 Manchester Local Authority created 6,086 new child care places helping some 11,101 children. This shows an increase in the stock of child care places, taking into account turnover, of 3,629 helping some 6,772 children.

James Purnell: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Stalybridge and Hyde in each of the last seven years. [168751]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However Stalybridge and Hyde is in Tameside LEA and since 1998–99 schools in Tameside have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

Allocation to Tameside LEA

	£
1998–99	400,000
1999–2000	300,000
2000–01	982,825
2001–02	1,105,494
2002–03	1,562,674
2003–04	1,584,573
2004–05	2,015,558

James Purnell: To ask the Secretary of State for Education and Skills how many *(a)* free nursery places and *(b)* pre-school places were available for (i) 3 and (ii) 4-year-olds in Stalybridge and Hyde in each of the last seven years. [168758]

Margaret Hodge: The information is not available in the form requested. Figures on the number of free nursery education places taken up by 3 and 4-year-olds in Tameside local education authority area are shown in the table.

The latest figures on provision for 3 and 4-year-olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Since the beginning of April 2004, six months ahead of our original target, all 3-year-olds in England whose parents want one, will be eligible for a free, part-time early education place.

Number of free nursery education places[1,2] taken up by 3 and 4-year-old children in maintained nursery and primary schools and private, voluntary and independent providers—Tameside local education authority area: 1997–2003

Position in January each year	*3-year-olds*	*4-year-olds*
1997	1,700	2,900
1998	1,600	2,900
1999	1,600	2,800
2000	2,100	2,700
2001	2,200	2,800
2002	2,200	2,600
2003	2,200	2,600

[1] Part-time equivalent number of free nursery education places taken up by 3 and 4-year-old children.
[2] A free nursery education place comprises five two and a half hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

Education (Warrington, South)

Helen Southworth: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) 3 and (ii) 4-year-olds in Warrington South in each of the last seven years. [168702]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by 3 and 4-year-olds in Warrington local education authority area are shown in the table.

The latest figures on provision for 3 and 4-year-olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Since the beginning of April 2004, six months ahead of our original target, all 3-year- olds in England whose parents want one, are eligible for a free, part-time early education place.

Number of free nursery education places[1,2] taken up by 3 and 4-year-old children in maintained nursery and primary schools and private, voluntary and independent providers—Warrington local education authority area

Position in January each year	*3-year-olds*	*4-year-olds*
1997	800	2,300
1998	800	2,500
1999	900	2,300
2000	1,000	2,400
2001	2,000	2,400
2002	2,100	2,300
2003	2,100	2,300

[1] Part-time equivalent number of free nursery education places taken up by 3 and 4-year-old children.
[2] A free nursery education place comprises five 2½ hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

Helen Southworth: To ask the Secretary of State for Education and Skills how much public funding has been spent on *(a)* computer equipment and *(b)* computer facilities for schools in Warrington South in each year since 1997. [168703]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However Warrington South is in Warrington LEA and since 1998–99 schools in Warrington have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

Allocation to Warrington LEA

	£
1998–99	401,364
1999–2000	465,000
2000–01	854,534
2001–02	947,807
2002–03	1,369,561
2003–04	1,402,145
2004–05	1,732,009

Education Funding (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Education and Skills how much money has been allocated to schools in Birkenhead for information and communications technologies since 2001. [166333]

Alan Johnson: I refer my hon. Friend to my answer to his question on 19 April 2004 for the funding spent on computers for schools in Birkenhead in each of the last seven years.

Football Clubs (Study Centres)

Mr. Collins: To ask the Secretary of State for Education and Skills how many study centres have been built in conjunction with leading football clubs since 1997. [167582]

Mr. Miliband: Since 1997, 58 study support centres have been built, or existing premises refurbished, in conjunction with football clubs as part of the Department's Playing for Success initiative. The clubs involved are from the FA Premier, Nationwide and Conference Leagues. The Department's contribution to the costs has been matched by the LEAs and clubs involved.

Headquarters Staff

Mr. Letwin: To ask the Secretary of State for Education and Skills what progress has been made in reducing the number of headquarters staff since the 2004 Budget Statement. [168599]

Mr. Charles Clarke: I refer my hon. Friend to the reply I gave the right hon. Member for West Dorset (Mr. Letwin) on 19 April 2004, *Official Report*, column 41W.

Healthy Eating

Simon Hughes: To ask the Secretary of State for Education and Skills how much his Department spent to promote healthy eating among children aged under 16 years in each of the last seven years in each local education authority in Greater London. [168883]

Mr. Stephen Twigg *[holding answer 27 April 2004]:* The Department does not hold information on the total amount spent on the promotion of healthy eating among pupils aged 16 or the expenditure by each local education authority.

Over the last five years a total of over £5 million a year has been allocated to local education authorities to promote healthy eating. This includes funding of £2 million per year since 1999 to the National Healthy Schools Standard (NHSS). LEAs are free to supplement these allocations from other budgets supported by un-hypothecated revenue support grant.

Simon Hughes: To ask the Secretary of State for Education and Skills what percentage of *(a)* maintained and *(b)* grammar schools in (i) Greater London and (ii) each London borough have introduced healthy eating options into school canteens in the past 12 months. [168884]

Mr. Stephen Twigg *[holding answer 27 April 2004]:* The Department for Education and Skills does not collect this information.

Higher Education (Specialist Courses)

Sir Nicholas Winterton: To ask the Secretary of State for Education and Skills how many specialist textile and clothing education courses are available in universities and colleges; and what assessment he has made of the adequacy of provision of such courses. [167590]

Alan Johnson: This Department does not collect data on the number and type of courses available at universities and colleges. However, the Universities and Colleges Admissions Service (UCAS) lists available courses by subject. There are around 450 higher education courses associated with textiles including 340 in fashion and 27 in clothing. I have made no assessment of adequacy of provision. As independent organisations, higher education institutions themselves determine what programmes and courses they offer.

Information and Communications Technology

Mr. Pike: To ask the Secretary of State for Education and Skills how much money has been allocated to schools in Burnley for information and communications technologies since 2001. [167937]

Mr. Charles Clarke: I refer my hon. friend to my answer to his question on 22 April, for the funding spent on computers for schools in Burnley in each of the last seven years.

Interactive Computer Displays

Malcolm Bruce: To ask the Secretary of State for Education and Skills what estimate his Department has made of the cost to *(a)* Government and *(b)* individual schools of installing interactive computer display whiteboards. [168669]

Mr. Charles Clarke: A total of £50 million has been announced for the provision of interactive whiteboards to primary and secondary schools. This funding has been split equally between the financial years 2003–04 and 2004–05 and has been allocated to LEAs. All LEAs in England will receive funding and we would expect over 18,000 classrooms to benefit.

The British Educational Communications and Technology Agency (Becta) have created an interactive whiteboards framework contract which delivers significant savings in price and considerably reduces the time and effort that would be needed to procure them. Details are available at www.whiteboards.becta.org.uk. LEAs and schools are also able make purchases via this contract with funds not associated with the central initiative.

Jobs (Burnley)

Mr. Pike: To ask the Secretary of State for Education and Skills (1) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Burnley from 1997 to 31 December 2003; [167909]

(2) how many new jobs have been created in Burnley since 1997. [167910]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Peter Pike, dated April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about full-time jobs and jobs created in Burnley. (167909,167910)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes, in numbers of jobs, from year to year.

The attached table shows the information requested, relating to all jobs and full-time jobs, in Burnley, for 1997 and the latest year available, 2002. No information is available about whether the jobs were permanent.

Number of full-time employees and total number of employees1 in Burnley parliamentary constituency: 1997 and 2002

Number, per cent.

	Full-time	*Total*
Number of employees		
1997	25,700	35,000
2002	24,200	35,800
Change from 1997 to 2002		
Absolute	1,500	900
Percentage	5.9	2.5

[1] Employee jobs only, not self-employed jobs

1997; Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI)

Millennium Volunteers

Mr. Woodward: To ask the Secretary of State for Education and Skills what the Government's policy is on the recruitment of 16 to 24-year-old millennium volunteers; and how many have been recruited *(a)* in total and *(b)* in St. Helens South. [165332]

Mr. Ivan Lewis: The Department's Spending Review settlement provided funding for the MV programme at national level of £15 million a year for the period to March 2006. The Millennium Volunteers (MV) programme, which forms part of the Connexions Service portfolio of services for young people, provides volunteering opportunities for young people aged between 16 and 24 to engage with their local communities. To date over 136,000 young people have participated in the programme in England, with nearly 67,000 completing 100 hours or more of volunteering. We do not hold the information on the number of volunteers in St. Helens South.

National Childcare Strategy

Mr. Pike: To ask the Secretary of State for Education and Skills (1) how many children in Burnley have been affected by the National Childcare Strategy; [167921]

(2) how many child care places have been created in Burnley since 1997. [167938]

Margaret Hodge: The Department is unable to provide details of child care places for Burnley. However, from April 1999 to December 2003 Lancashire local authority created 20,860 new child care places helping some 36,821 children. This shows an increase in the stock of child care places, taking into account turnover, of 9,046 helping some 16,274 children.

Mr. Benton: To ask the Secretary of State for Education and Skills how many children in Bootle have benefited from the National Childcare Strategy. [169084]

Margaret Hodge: The Department is unable to provide details of child care places for Bootle. However, from April 1999 to December 2003 Sefton local authority created 3,417 new child care places helping some 6,128 children. This shows an increase in the stock of child care places, taking into account turnover, of 1,859 helping some 3,400 children.

Tim Loughton: To ask the Secretary of State for Education and Skills (1) how many children in East Worthing and Shoreham have benefited from the National Childcare Strategy; [169034]

(2) how many child care places have been created in East Worthing and Shoreham since 1997. [169036]

Margaret Hodge: The Department is unable to provide details of child care places for East Worthing and Shoreham. However, from April 1999 to December 2003 West Sussex local authority created 12,005 new child care places helping some 21,702 children. This shows an increase in the stock of child care places, taking into account turnover, of 7,334 helping some 13,837 children.

New Deal for Schools

Mr. Pike: To ask the Secretary of State for Education and Skills (1) how much funding each school in Burnley has received from the New Deal for Schools; [167924]

(2) how much public funding money has been spent on repairing schools in Burnley in each year since 1997. [167922]

Mr. Miliband: Table A shows the schools in the Burnley constituency that benefited from investment through the New Deal for Schools (NDS) programme, which ran between 1997–98 and 2000–01.

Since 2001, the majority of capital support has been allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level; this should be held at local authority level. Table B sets out the capital support made by the Department to Lancashire local education authority and its schools since 1997–98, in total and by programme (including all allocations through NDS mentioned in table A).

Year/School	*Project*	*Package*	*Funding (£)*
NS1 1997/98			
Burnley Rosehill Junior School	Schemes submitted by District Liaison Committees	LEA wide grant	2,006,000
Burnley Healey Wood Infant School	Rewires	Project including 18 schools	1,007,100
NDS3 1999/2000			
Burnley Lowerhouse Junior School	Rewires	Project including 18 schools	1,007,100
Burnley Barden Junior School	Rewires	Project including 18 schools	1,007,100
Burnley Barden Junior School	Window Repairs/Replacement	Project including 14 schools	516,000
Burnley Wood Top Church of England Infant School	Window Repairs/Replacement	Project including 14 schools	516,000
Burnley St. Stephen's Church of England Voluntary Aided Primary School	Playground Repairs	Project including 25 schools	300,000
Burnley Barden High School	Boilers/Heating	Project including 17 schools	601,900
St. Theodore's Roman Catholic High School, Burnley	Rewires	Project including 18 schools	1,007,100
NDS4 2000/2001			
Burnley Ivy Bank High School	Planned maintenance work, internal alterations and partial refurbishment of science accommodation	—	197,880
Burnley Habergham High School	Replacement of temporary classrooms	—	102,265
Padiham Primary School	Consolidation on infant site to enable amalgamation of KS1 accommodation	—	527,976
Burnley Ightenhill Primary School	Replacement of HORSA Kitchen and dining facilities	—	330,623

Year/School	*Project*	*Package*	*Funding (£)*
Padiham Gawthorpe High School	Provision of second indoor sports facility (to supplement existing gym) and re-roofing of main teaching block	—	257,965
Ightenhill Nursery School	Replacement of Boilers/Heating Systems	Project including 36 schools	1,143,110
Burnley Rosehill Junior School	Playground Repairs	Project including 29 schools	270,090
Burnley Rosehill Junior School	Roof Repairs/Replacement	Project including 11 schools	548,460
Burnley Rosehill Community Infant School	Replacement of Boilers/Heating Systems	Project including 36 schools	1,143,110
Burnley Rosehill Community Infant School	Roof Repairs/Replacement	Project including 11 schools	548,460
Burnley Barden Community Infant School	Rewires of electrical systems	Project including 17 schools	951,650
Burnley Barden Junior School	Replacement of Boilers/Heating Systems	Project including 36 schools	1,143,110
Burnley Ightenhill Primary School	Replacement Windows	Project including 13 schools	566,350
Burnley Ightenhill Primary School	Playground Repairs	Project including 29 schools	270,090
Todmorden Road Primary School	Playground Repairs	Project including 29 schools	270,090
Burnley Holy Trinity Church of England Primary School	Playground Repairs	Project including 29 schools	270,090
Christ The King Roman Catholic Primary School, Burnley	Playground Repairs	Project including 29 schools	270,090
Padiham Gawthorpe High School	Refurbishment of CDT	Project including 6 schools	1,502,992
St. Theodore's Roman Catholic High School, Burnley	Rewires of electrical systems	Project including 17 schools	951,650
St. Theodore's Roman Catholic High School	Replacement of Boilers/Heating Systems	Project including 36 schools	1,143,110
Burnley Calder View Community Special School	Playground Repairs	Project including 29 schools	270,090

Notes:
1. For NDS 1 grant was allocated for Lancashire local education authority (LEA) wide projects, part of which was used for building maintenance work and improved security at each of two schools in the Burnley constituency. The LEA will be able to say how much was allocated to each school.
2. Where the project includes a package for a number of schools, each school received a share of the funding.

Total	13,288	16,957	35,179	38,021	29,778	46,470	62,607

To date we have allocated £53.8 million capital funding for 2004–05 and 2005–06.

Mr. Hendrick: To ask the Secretary of State for Education and Skills (1) how much funding each school in Preston has received from the New Deal for Schools; [168128]

(2) how much public funding money has been spent on repairing schools in Preston in each year since 1997. [168130]

Mr. Miliband: Table A shows the schools in the Preston constituency that benefited from investment through the New Deal for Schools (NDS) programme, which ran between 1997–98 and 2000–01.

Since 2001, the majority of capital support has been allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level, this should be held at local authority level.

Table B sets out the capital support made by the Department to Lancashire local education authority and its schools since 1997–98, in total and by programme (including all allocations through NDS mentioned in table A).

Table A—NDS allocations to schools in the Preston constituency

	School	*Project*	*Package*	*Funding (£)*
NDS1—1997–1998	Woodlands School	Improve science block	LEA wide grant	1,170,000
	Preston Tutorial Centre	Schemes submitted by District Liaison Committees	LEA wide grant	2,006,000
NDS3—1999–2000	Brookfield Community Primary School	Playground Repairs	Project including 25 schools	300,000
	Frenchwood Community Primary School	Roof Works	Project including 13 schools	549,700
	Preston Grange Primary School	Playground Repairs	Project including 25 schools	300,000

Note:
To date we have allocated £53.8 million capital funding for 2004–05 and 2005–06.

Performance Tables

Helen Jones: To ask the Secretary of State for Education and Skills what assessment he has made of the merits of adjusting performance tables to take account of schools' performance in a wider range of vocational qualifications; and if he will make a statement. [169452]

Mr. Miliband: We have piloted, with 244 schools, the reporting of achievements in a wider range of qualifications. That pilot study was published on 1 April, along with a statement of our intentions to include this wider change in this year's secondary school performance tables. Of the 244 schools that participated in the pilot study, 199 achieved a higher capped point score as a result of the inclusion of this wider range of qualifications.

Primary Schools (Administrative Staff)

Mr. Wiggin: To ask the Secretary of State for Education and Skills how many administrative staff were employed in primary schools in *(a)* England and *(b)* Wales in each year since 1997. [167978]

Mr. Miliband: The following table shows the full-time equivalent number of administrative staff employed in maintained primary schools in England who are helping to free teachers to teach and supporting the efficient running of their schools in each year from 1997 to 2003, the latest information available.

	Number
1997	19,210
1998	19,560
1999	19,980
2000	21,180
2001	22,260
2002	23,060
2003	23,330

Source:
Annual Schools Census.

Information regarding the number of administrative staff employed in Welsh schools is a matter for the National Assembly for Wales.

Register of Interests

Bob Spink: To ask the Secretary of State for Education and Skills what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164701]

Mr. Charles Clarke: The Civil Service Management Code sets out the requirement for civil servants to declare a conflict of interest.

In my Department, individuals are required to declare to management in writing, any personal financial activities or official dealings with individuals or groups who share private or business interests.

Where a conflict, (or potential conflict), of interest arises, management will decide whether to transfer the work which gives rise to the conflict, to another person to avoid any potential embarrassment to the Department.

School Closures

Mr. Wiggin: To ask the Secretary of State for Education and Skills how many primary school closures there were in *(a)* England and *(b)* Wales in each year since 1997. [167977]

Mr. Miliband: The numbers of primary schools in England that closed during the calendar years 1997 to 2003 are as follows:

	Number of primary schools closed
1997	171
1998	174
1999	197
2000	188

	Number of primary schools closed
2001	227
2002	223
2003	207

Source:
DfES.

The figures include schools that closed as a result of the amalgamation or merger of two or more schools; schools that have closed but re-opened as voluntary schools with a religious character; and schools that have closed in local education authorities that have moved from a three-tier to a two-tier system.

The National Assembly for Wales is responsible for schools in Wales and can supply this information on request.

Schools Funding (Norfolk)

Mr. Bellingham: To ask the Secretary of State for Education and Skills what recent representations he has received regarding funding of schools in Norfolk. [169217]

Mr. Miliband: We have received few recent representations on the funding of schools in Norfolk.

School Standards (Liverpool and Berkshire)

Mr. Kilfoyle: To ask the Secretary of State for Education and Skills how many schools in Liverpool, Walton have *(a)* been deemed to be failing since 1997 and *(b)* subsequently achieved satisfactory standards. [166960]

Mr. Miliband: Three schools in Liverpool, Walton, have been deemed to be failing since 1997, one primary school, one special school and one secondary school. Two of these schools have subsequently closed. The secondary school was judged by Ofsted in 2003 to have made satisfactory progress since the inspection which removed it from special measures in 2001.

Solvent Abuse

Tim Loughton: To ask the Secretary of State for Education and Skills (1) what research his Department has commissioned into the extent of solvent abuse by children; [169059]

(2) what estimate he has made of the number of children in care who engage in solvent abuse. [169061]

Margaret Hodge: Although there is no centrally collected data on the extent of solvent abuse by looked after children, information on the use of volatile substances among young people aged 11–15 years is collected in an annual national survey of secondary school children commissioned by the Department of Health. Latest information is given in the statistical release "Drug use, smoking and drinking among young people in England in 2003: headline figures" which was published on 31 March 2004. Drug use, smoking and drinking among young people in England in 2003 http://www.publications.doh.gov.uk/public/sddsurvey2003.pdf.

Special Educational Needs

Mr. Willis: To ask the Secretary of State for Education and Skills how many pupils with special educational needs live more than three miles away from the *(a)* primary school, *(b)* secondary school and *(c)* special school that they attend; and if he will make a statement. [166866]

Margaret Hodge: The information requested is shown in the table.

Numbers of pupils living more than three miles[1] from the maintained primary, secondary and special schools[2] that they attend, as at January 2003

	Primary	Secondary	Special
Number of pupils travelling more than three miles	155,187	583,446	48,447
Percentage of pupils travelling more than three miles[3]	3.7	17.8	52.1
Number of pupils with SEN travelling more than three miles	28,720	72,548	47,966
Percentage of pupils with SEN travelling more than three miles[4]	3.8	14.3	52.3

[1] Distances calculated are straight line.
[2] Includes middle schools as deemed.
Source:
Pupil Level Annual Schools' Census.

Sports Facilities

Charles Hendry: To ask the Secretary of State for Education and Skills what proportion of secondary schools offer their sports facilities for wider community use outside school hours. [169074]

Mr. Stephen Twigg *[holding answer 27 April 2004]:* The Department does not collect information on the number of schools that offer their sports facilities to the wider community. But, many LEA's and schools have arrangements with the local community that provide for this and the development of extended schools will encourage and promote this trend.

Charles Hendry: To ask the Secretary of State for Education and Skills what steps he is taking to increase sports facilities within existing schools. [169127]

Mr. Stephen Twigg: The Government are investing significant funding to enhance school sports facilities across England. The New Opportunities for PE and Sport Programme is providing £581.25 million in England (£25 million of which has gone towards the Space for Sport and the Arts programme) and schools from all local education authority areas are benefiting. The Space for Sport and the Arts Programme is providing £130 million to support projects at primary schools in 65 target areas. The schools benefiting from these schemes are required to open up and share their new facilities with other schools and their local community. In addition, the Sporting Playgrounds Programme is providing £10 million to enhance primary school playgrounds to increase physical activity and sport in 27 target areas.

This funding is on top of the Department for Education and Skills capital investment in school buildings and facilities, which has grown from under £700 million in 1996–97 to £3.8 billion in 2003–04, and will rise to £5.1 billion in 2005–06. The bulk of this investment is allocated to schools and local authorities on a formulaic basis, and is available for improving school sports facilities where these are prioritised in local asset management plans.

From 2005–06, the Government are also introducing Building Schools for the Future, which aims to rebuild and renew all secondary schools, (including their sports facilities) within 10 to 15 years, subject to future spending decisions.

Sure Start

Claire Ward: To ask the Secretary of State for Education and Skills when he plans to extend the Sure Start scheme to Watford constituency. [162907]

Margaret Hodge: There are a range of Sure Start services in Watford, including a children's centre, attached to Westfield School. Holywell is providing Sure Start services for around 590 children and their families. Since 1998, we have guaranteed free early education for all 4-year-olds and this guarantee has been extended to all 3-year-olds from April 2004. In Hertfordshire this represents an additional funding of over £60 million for 2004–05.

Since 1999, Hertfordshire have also been given over £6.1 million of funding to provide additional child care places and figures received from the authority shows that by March 2003 additional 11,067 childcare places were created.

Teacher Vacancies

Mr. Benton: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Bootle on the latest date for which figures are available; and what steps he is taking to reduce them. [169179]

Mr. Miliband: Information on teacher vacancies is not available by constituency as it is collected at local education authority level. In January 2003, the latest information available, there were 10 full-time teacher vacancies in Sefton local education authority.

Like other areas, since 1997 Sefton has benefited from the initiatives that the Government have put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in Sefton LEA has risen by 120, from 2,540 to 2,660 in 2003. Over the same period, the number of full-time equivalent school support staff in the area has grown by 540 from 780 to 1,320 in 2003.

Mr. Collins: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in each subject in *(a)* primary, *(b)* secondary, *(c)* special and *(d)* all schools in each year since 1997, broken down by local education authority; and if he will express these figures as percentages of all teachers. [167569]

Mr. Miliband: The information requested has been placed in the Libraries.

Teaching Assistants

Mr. Benton: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Bootle in *(a)* each of the last seven years and *(b)* on the latest date for which figures are available. [169180]

Mr. Miliband: The following table gives the numbers of full-time equivalent teaching assistants in maintained schools in Bootle constituency for each year between 1997 and 2003, the latest year for which data are available.

	Number
1997	130
1998	130
1999	150
2000	160
2001	200
2002	160
2003	220

Annual Schools' Census.

University Students (London)

Mr. Wiggin: To ask the Secretary of State for Education and Skills how many students studying at a London university in the last academic year for which figures are available originated from *(a)* the UK and *(b)* overseas. [167979]

Alan Johnson: The latest available figures are given in the following table.

Enrolments[1] to UK HE institutions in London 2002–03

Domicile	*Number*
UK	259,630
EU	21,105
Other Overseas	40,648
Total	321,383

Note:

Higher Education Statistics Agency.

Vulnerable Children

Tim Loughton: To ask the Secretary of State for Education and Skills which local authorities are participating in piloting data sharing schemes for vulnerable children; and when each is due to report. [169037]

Margaret Hodge: The Government have provided up to £1 million each to 10 Trailblazers, involving 15 local authorities, to test new ways of information sharing and multi-agency working. They are: Bolton; Camden; Kensington and Chelsea; Knowsley; Lewisham; Sheffield; Gateshead and Newcastle; Leicestershire, Leicester City and Rutland; Telford and Wrekin and Shropshire and west Sussex and east Sussex.

An evaluation underway by Royal Holloway, University of London is due to report in autumn 2004.

An interim report, Developing Identification and referral tracking systems: An evaluation of the processes undertaken by trailblazer authorities, was published in March 2004. I will arrange for a copy to be sent to the hon. Member and one has already been placed in the Library of the House.

HOME DEPARTMENT

Antisocial Behaviour

Mr. Battle: To ask the Secretary of State for the Home Department how many *(a)* anti-social behaviour orders, *(b)* parenting orders and *(c)* curfew orders have been issued by Leeds City Council since 12 February 2003. [168605]

Ms Blears: Anti-Social Behaviour Orders (ASBOs)—The number of ASBOs issued within the Leeds local government authority area, as notified to the Home Office, from 12 February 2003 up to 31 December 2003 (latest available) is 50. The local authority was the main complainant for 47 of these orders. Three orders were issued, following conviction, at the court's discretion.

Parenting Orders—Youth Justice Board figures indicate that two parenting orders were made by courts in the Leeds Youth Offending Team (YOT) area following conviction of juveniles between January 2003 and December 2003 (latest available figures).

Curfew Orders—Statistics on court proceedings for 2003 will be published in the Autumn.

Ms Keeble: To ask the Secretary of State for the Home Department how many antisocial behaviour orders were issued in *(a)* the first quarter of 2003, *(b)* the second quarter of 2003, *(c)* the third quarter of 2003, *(d)* the fourth quarter of 2003 and *(e)* the first quarter of 2004. [169733]

Ms Blears: The number of Anti-Social Behaviour Orders (ASBOs), as notified to the Home Office, issued within England and Wales in 2003 is given, by quarter, in the table. Latest available data are up to December 2003.

The number of anti-social behaviour orders, as notified to the Home Office, issued within England and Wales, by court and by quarter
January to December 2003 (latest available)

	Quarter

Crown court on conviction	4	4	15	42	65
Total	169	223	279	349	1,020

Asylum Seekers/Immigration

Mr. Rosindell: To ask the Secretary of State for the Home Department how many applications for asylum in the UK have been made from claimants not residing in the United Kingdom in the last year for which figures are available. [165613]

Mr. Browne: There is no provision in the Immigration Rules to seek asylum in the UK from abroad. A person usually has to travel to the UK in order to claim asylum here, although an asylum seeker is not usually "resident" in the UK. Exceptionally, some cases are referred to the Home Office from overseas diplomatic posts. If entry clearance is granted exceptionally, and the applicant subsequently travels to the UK and applies for asylum, the application would be included in the figures in the same way as other applications. Limited information is available on applications that are processed abroad. No overseas applications are recorded as having been lodged since 1992.

Information on asylum applications made in the UK is published quarterly. The next publication covering the second quarter of 2004 will be available on 25 May 2004 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. McGrady: To ask the Secretary of State for the Home Department what plans the Government has to provide alternative accommodation for asylum seekers currently detained at Maghaberry Prison. [164609]

Mr. Browne: We have no plans to provide alternative accommodation in Northern Ireland for those immigration detainees who are currently held at HMP Maghaberry.

However, an individual detainee who initially elected to remain at HMP Maghaberry rather than be transferred to an Immigration Service removal centre in Great Britain may at any time request to be transferred to such a removal centre.

Mr. Oaten: To ask the Secretary of State for the Home Department to which countries his Department judges that asylum seekers cannot be returned for *(a)* human rights and *(b)* other reasons. [163331]

Mr. Browne: All asylum and human rights claims are considered on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Should a claim be refused and any appeal before the independent Immigration Appellate Authority be unsuccessful, it means that for that individual it is safe to return.

The only country to which, as a matter of policy, we do not at present generally enforce the return of failed asylum seekers is Zimbabwe. This policy is based not on asylum or human rights reasons but on our view that in the wider context of the Government's position on Zimbabwe, it would be inappropriate forcibly to return failed asylum seekers applicable at this time.

However, it is open to Zimbabwean failed asylum seekers to return voluntarily. Zimbabweans may apply for the Voluntary Assisted Return and Reintegration

Programme (VAARP) operated by the International Organisation for Migration (IOM) on behalf of the Home Office.

Mrs. Brooke: To ask the Secretary of State for the Home Department how many *(a)* men, *(b)* women and *(c)* children have been granted humanitarian protection in the United Kingdom in each month since April 2003. [166473]

Mr. Browne: The table shows initial decisions resulting in grants of humanitarian protection (HP) to asylum seeker principal applicants and dependants by month from April to December 2003, the latest published figures that are available.

Principal applicants[1,2] not recognised as refugees but granted humanitarian protection, excluding dependants, by sex, April to December 2003

	Male	Female	Total grants of HP	Total initial decisions
April 2003	5	10	15	4,290
May 2003	5	10	15	5,130
June 2003	10	5	15	5,230
July 2003	5	5	15	4,940
August 2003	5	5	15	4,200
September 2003	5	5	15	5,070
October 2003	5	10	20	5,605
November 2003	5	5	15	5,060
December 2003	10	10	15	4,310
Total	65	70	135	43,840

[1] Provisional figures rounded to the nearest five.
[2] Information is of initial determination decisions, excluding the outcome appeals or other subsequent decisions.

Dependants of principal applicants[1,2] not recognised as refugees but granted humanitarian protection, by sex, April to December 2003

	Male	Female	Total
April 2003	—	*	*
May 2003	*	—	*
June 2003	5	5	10
July 2003	*	5	5
August 2003	—	*	*
September 2003	—	*	*
October 2003	5	5	10
November 2003	*	5	5
December 2003	*	5	5
Total	15	25	40

[1] Provisional figures rounded to the nearest five with * = 1 or 2.
[2] Information is of initial determination decisions, excluding the outcome appeals or other subsequent decisions.

16 per cent. of these 135 principal applicants and 88 per cent. of the 40 dependants were aged under 18 at time of decision, based on the date of birth information supplied by applicants. 10 of the principal applicants were identified as unaccompanied asylum seeking children, 83 per cent. of these were under 18 at the time of initial decision.

Cases granted HP are actively reviewed at the end of the HP period, which may subsequently result in refusal and removal.

Data on non-asylum grants of HP are not available.

Information on asylum decisions, by sex, is published annually. The next publication covering 2003 will be available at the end of August 2004 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Cousins: To ask the Secretary of State for the Home Department how many National Asylum Support Service-supported asylum seekers in the City of Newcastle have had support and accommodation withdrawn on the grounds of the failure of their case, broken down by *(a)* gender and *(b)* the number of dependants involved. [168692]

Mr. Browne: Information on numbers of cases who have had support terminated broken down by reason for cessation, by area of the UK, or by gender is unavailable and could be produced only at a disproportionate cost. A total of 45,185 cases had support terminated in 2002 (the latest year for which data is available) compared with 14,195 in 2001. Support may be terminated for a variety of reasons, including failure of an asylum application or changes in the circumstances of the applicant affecting their eligibility for support.

As at the end of December 2003 the number of asylum seekers (including dependants) supported in Newcastle in the National Asylum Support Service, (NASS) accommodation was 1,510, and 55 were in receipt of subsistence only support. Figures are rounded to the nearest five and cases which have had their support terminated are excluded from this figure.

Information on the number of asylum seekers supported by MASS is published quarterly, and information on the number of cases with support ceased is published annually in the annual Home Office Statistical bulletin Asylum Statistics United Kingdom, available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Cousins: To ask the Secretary of State for the Home Department how many cases involving asylum seekers and dependants from EU accession countries remain to be determined. [168694]

Mr. Browne: The requested information is unavailable and could be obtained only at disproportionate cost by examination of individual case records.

Information on the number of asylum applications awaiting an initial decision is published quarterly on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html. The next publication will be available from 25 May 2004 and will cover the first quarter of 2004 (January to March).

Mr. Cousins: To ask the Secretary of State for the Home Department whether asylum seekers from EU accession countries will be required to have an approved work permit under the Special Work Registration scheme before starting work on 1 May; and if he will place in the Library a copy of the guidance issued to *(a)* employers and *(b)* jobcentres. [168696]

Mr. Browne: From 1 May asylum seekers from the eight EU Accession countries (Poland, Czech Republic, Hungary, Slovakia, Slovenia, Estonia, Latvia and Lithuania) will be able to take up employment in the UK

providing they apply to register under the new Worker Registration Scheme. They will not need a work permit. These arrangements apply equally to accession nationals who are already in the UK (including as asylum seekers) and to those who arrive in the UK on or after 1 May.

Workers who are required to register should apply as soon as they start a new job—not before—and within one month of taking up employment at the latest. Further information about the Worker Registration Scheme is available on the Immigration and Nationality Directorate (IND) website: www.ind.homeoffice.gov.uk.

Guidance issued to employers is also available on the IND website at http://www.ind.homeoffice.gov.uk/default.asp?pageid=17 and available in hard copy from the Employer's Helpline on 0845 010 6677.

An Awareness Pack and guidance material has been prepared by Jobcentre Plus for use by its staff. This will be placed in the Library once the Regulations are laid before the House on 30 April.

Mr. Malins: To ask the Secretary of State for the Home Department in relation to the Oakington Reception Centre, for the second quarter of 2002, how many *(a)* appeals were received following refusals, *(b)* appellants remain in custody, *(c)* appellants are at addresses known to his Department, *(d)* appeals have been determined and *(e)* failed appellants have been removed. [140573]

Mr. Browne *[holding answer 1 December 2003]*: There were 2,160 appeals received for claims decided at the Oakington Reception Centre out of 2,270 refused asylum applications in the second quarter of 2002. Appellants are not routinely detained at Oakington pending their appeal, although some may be in detention at Immigration Service Removal Centres, at Immigration Short Term Holding Facilities, and at prison establishments. Information on the number of appellants in detention and information on the current address of an appellant is not readily available and could only be verified at disproportionate cost. The number of appeals determined on the 2,160 received in the second quarter of 2002 was 1,995. The number of failed applicants who have been removed could be obtained only at disproportionate cost by examination of individual case files.

Information on Oakington and other asylum statistics is published quarterly. The most recent publication covering the third quarter of 2003 is now available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Wiggin: To ask the Secretary of State for the Home Department what percentage of applications for asylum in England and Wales were accepted in each year since 1997. [168015]

Mr. Browne: The requested information is not available and could be obtained only at disproportionate cost. Asylum applications, initial decisions, and appeals data relate to applications for asylum in the UK are not available at regional level.

It is estimated that around four in 10 (42 per cent.) of applications for asylum in the UK in 2002 resulted in the granting at initial decision of asylum (10 per cent.) or of exceptional leave to remain (23 per cent.), or in appeals which were allowed by the IAA adjudicators (a further 10 per cent.). This compares with 42 per cent. for applications made in 2001, and 31 per cent. for applications made in 2000. Comparable information for previous years is not available and could be obtained only at disproportionate cost by examination of individual case files.

The proportion granted asylum or other status either at initial decision or appeal varies over time reflecting the mix of nationalities, the situations in countries of origin, and the merits of each individual case.

Further detail including information on the basis of the estimation is provided in the annual statistical bulletin Asylum Statistics United Kingdom 2002 (pages 11–12), copies of which are available from the Library of the House and at the RDS website http://www.homeoffice.gov.uk/rds/immigration1.html.

It is planned that corresponding information for applications made in 2003 will be published in Asylum Statistics United Kingdom 2003 at the end of August 2004.

Mr. Rosindell: To ask the Secretary of State for the Home Department how many asylum cases which went to appeal during each of the last seven years were *(a)* granted and *(b)* refused leave to remain in the country; and what the total number of cases which went to appeal was in each year. [165619]

Mr. Browne: Data on the number asylum cases that went onto appeal are given in the following tables. The tables show the outcomes of appeals determined by adjudicators of the Immigration Appellate Authority (IAA), further appeals to the Immigration Appeal Tribunal (IAT) and applications for Judicial Review for the latest seven years for which data are available. IAA appeal determinations may relate to initial decisions made in previous years; IAT appeal determinations may relate to IAA determinations in earlier years. Outcomes of appeals relate to whether an asylum appeal is allowed, dismissed or withdrawn. Allowed appeals do not necessarily result in grants of leave to remain. Some appeals to the IAT are brought by the Secretary of State.

A record 81,725 appeals were determined by IAA adjudicators in 2003, a quarter (27 per cent.) higher than in 2002 (64,405). The proportion of appeals dismissed rose to 78 per cent. in 2003 (76 per cent. in 2002), while the proportion of appeals allowed fell to 20 per cent. (22 per cent. in 2002).

As at 31 December 2003, there were an estimated 12,000 appeals lodged with the Home Office which had not been sent to the Immigration Appellate Authority, compared with 30,000 at the end of December 2002; a proportion of appeals lodged do not result in appeal bundles being sent to the IAA.

Appeals[1] determined by adjudicators of the Immigration Appellate Authority, excluding dependants, 1997 to 2003

Number of principal appellants

	Appeals received by the Home Office[2]	*Appeals received by the IAA*	*Total determined[3]*
1997	20,950	22,385	21,090
1998	14,320	15,440	25,320
1999	6,615	7,775	19,460
2000	46,190	28,935	19,395
2001	74,365	47,905	43,415
2002[5]	51,695	64,125	64,405
2003[5]	[6]45,600	70,575	81,725

	Allowed		*Dismissed*		*Withdrawn*

[2] Decisions do not relate to applications in any given period.

[3] The number of which granted leave to move as a percentage of decisions.

[4] The decision of the respondent (in this case, the Home Office or the Department for Constitutional Affairs) was quashed. These figures include consent orders where the JR was conceded by the respondent.

[5] The decision of the respondent was upheld.

[6] Estimated figures.

[7] Figures exclude judicial reviews brought in cases relating to asylum support (NASS).

[8] Provisional figures.

Statistics on the number of asylum appeals heard by adjudicators of the Immigration Appellate Authority are published quarterly; data covering the Immigration Appeal Tribunal and Judicial Review are published annually. Copies of the most recent publications are available from the Library of the House or on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Sheerman: To ask the Secretary of State for the Home Department how many asylum seekers have been placed in *(a)* Huddersfield, *(b)* Kirklees and *(c)* Yorkshire and Humber in each year since 1990. [164902]

Mr. Browne: The information is not available in the precise format requested. The National Asylum Support Service (NASS) assumed responsibility for the support of asylum seekers on 3 April 2000.

NASS disperses asylum seekers to Government Office Regions and local authority areas. Statistics by parliamentary constituencies became available at the end of December 2003. The table shows the available data for the number of asylum seekers (including dependants) supported by NASS in Yorkshire and Humberside region, which includes Kirklees local authority area and Huddersfield constituency, as at the end of each year since December 2000. Earlier figures are not available.

Information on the number of asylum seekers supported by NASS is published quarterly. The next publication covering the first quarter of 2004 (January to March) will be available on 25 May on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Asylum seekers (including dependants) supported by NASS

Government Office Region/local authority area/parliamentary constituency and type of support	December 2000	2001	2002	2003
Yorkshire and Humber				
Accommodation	3,550	8,470	10,215	9,920
Subsistence only	90	285	800	855
Kirklees				
Accommodation	n/a	n/a	935	1,095
Subsistence only	n/a	n/a	45	45
Huddersfield				
Accommodation	n/a	n/a	n/a	750
Subsistence only	n/a	n/a	n/a	25

Notes:
1. Figures are rounded to the nearest five. Figures may not sum due to rounding.
2. n/a not available

Mr. Sheerman: To ask the Secretary of State for the Home Department if he will list the countries to which the Home Office does not currently return failed asylum seekers. [165828]

Mr. Browne: We seek to remove all failed asylum seekers and illegal immigrants wherever possible. All asylum and human rights claims are considered on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Should a claim be refused and any appeal before the independent Immigration Appellate Authority be unsuccessful, it means that for that individual it is safe to return.

The only country to which, as a matter of policy, we do not at present generally enforce the return of failed asylum seekers is Zimbabwe. This policy is based not on asylum or human rights reasons but on our view that in the wider context of the Government's position on Zimbabwe, it would be inappropriate forcibly to return failed asylum seekers applicable at this time.

However, it is open to Zimbabwean failed asylum seekers to return voluntarily. Zimbabweans may apply for the Voluntary Assisted Return and Reintegration Programme (VAARP) operated by the International Organisation for Migration (IOM) on behalf of the Home Office.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether the Department is required to record mistaken removals of asylum seekers; and what steps have been taken to develop an appropriate database for this function. [165933]

Mr. Browne: There is no statutory requirement for the Immigration and Nationality Directorate (IND) to keep records of any mistaken removals of asylum seekers

from the UK. By mistaken removals, we are referring to the removal of any individuals while there are any unresolved issues pending on a case, outstanding appeals or judicial challenges.

Following a recommendation made by the Home Affairs Select Committee in April 2003 that measures be put in place to record and publicise such cases, IND is currently looking into the feasibility of setting up a central database to record all mistaken removals. We do not have any present plans to publicise such information but no final decision will be made on this without prior consultation with the Immigration Research and Statistical Service (IRSS).

Dr. Ian Gibson: To ask the Secretary of State for the Home Department (1) what medical assessments are conducted on asylum seekers prior to dispersal within the UK, and if he will make a statement; [166427]

(2) what provision is made for continuing HIV treatment for existing HIV patients in the immigrant population following dispersal; [166609]

(3) what plans he has to assess the system of dispersal for asylum seekers suffering from HIV. [166426]

Mr. Browne: In assessing suitability for dispersal the National Asylum Support Service (NASS) takes account of all known facts. Some health needs are identified when the application for NASS support is being completed. In addition, those asylum seekers who go through Induction Centres are given the opportunity to have a health assessment. This does not automatically include screening for HIV/AIDS but an asylum seeker who believes he may be at risk may opt to have tests conducted.

Asylum seekers known to be HIV positive are dispersed to areas where relevant treatment is available. In line with standard practice for all MASS dispersals, MASS informs the relevant Primary Care Trust of the asylum seeker's arrival in their area. MASS outreach staff visit asylum seekers shortly after their arrival to ensure that they have access to all services, including health services. Accommodation providers and voluntary sector "one-stop" services can also assist newly dispersed asylum seekers to access services including registering with a GP. Asylum seekers who have undergone a health assessment prior to dispersal are in possession of hand held medical records which they can pass to their GP.

These policies and practices are being considered as part of a short external review which is expected to report to Ministers in the Summer.

Dr. Gibson: To ask the Secretary of State for the Home Department how many asylum seekers were dispersed in the UK for the latest year for which figures are available. [166610]

Mr. Browne: Numbers of asylum seekers placed in the National Asylum Support Service, (NASS) accommodation under the dispersal policy, and numbers who are in receipt of subsistence only support from NASS, are available on a quarterly and annual basis. The total for the United Kingdom as at end December 2003 was 49,760.

The next publication covering the first quarter of 2004 (January to March) will be available on 25 May on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Kilfoyle: To ask the Secretary of State for the Home Department how many asylum seekers are housed in Liverpool, Walton under the dispersal programme. [166981]

Mr. Browne: The National Asylum Support Service (NASS) disperses asylum seekers to Government office regions and local authority areas. The number of asylum seekers (including dependants) supported in NASS accommodation in the constituency of Liverpool, Walton as at the end of December 2003 was 230.

Information on the number of asylum seekers supported by NASS is published quarterly. The next publication covering the first quarter of 2004 (January to March) will be available on 25 May on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Kilfoyle: To ask the Secretary of State for the Home Department what the average time taken to deal with an asylum application is. [166982]

Mr. Browne: The latest published statistics show that the speed of processing asylum applications continues to improve. 80 per cent. of applications (excluding withdrawals and third country cases[1]) received in the period April to September 2003 had initial decisions reached and served within two months. 74 per cent. of applications received in 2002–03, and 61 per cent. of applications received in 2001–02, had initial decisions reached and served within two months. This exceeded the Government's targets of 65 per cent. for 2002–03 and 60 per cent. for 2001–02, and we are on track to meet the target of 75 per cent. for 2003–04.

The average time between application and initial decision was 10 months for initial decisions made in 2003, compared with 20 months for April 1997. This has been calculated using all cases for which data are available, including older cases decided as part of the reduction of the number of outstanding cases, as well as new cases decided as part of normal work in progress. The number of cases awaiting initial decision fell to 24,500 at the end of December 2003, the lowest level for more than a decade (and 41 per cent. lower than a year earlier), and continues to fall.

Information on the timeliness of initial decisions is published quarterly on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html

[1] Cases which may be the responsibility of other EU member states under the Dublin Convention.

Mr. Kilfoyle: To ask the Secretary of State for the Home Department how many asylum applications were registered in each year between 1997 and 2003. [166984]

Mr. Browne: The tables show asylum applications received in each year between 1997 and 2003 for the UK and for the EU as a whole. The figures show the rise in the UK and across Europe in the late 1990s followed by the fall in 2003 as a result of a series of measures

including those in the National Immigration and Asylum Act 2002. In 2003 applications to the UK fell by 41 per cent. compared with a fall of 10 per cent. for the rest of the EU (excluding Italy).

Applications[1] received for asylum in the United Kingdom, excluding dependants, 1997–2003

	Total applications
1997	32,500
1998	46,015
1999[2]	71,160
2000[2]	80,315
2001[3]	71,025
2002[4]	84,130
2003[4]	49,370

[1] Figures rounded to the nearest 5
[2] May exclude some cases lodged at Local Enforcement Offices between January 1999 and March 2000
[3] Provisional figures
[4] Revised figure

Applications[1] received for asylum in the United Kingdom and European Union, including dependants, 1997–2003

	Total Applications in UK	Total applications in EU
1997	41,500	255,800
1998	58,500	312,300
1999[2]	91,200	396,700
2000[2]	98,900	401,900
2001[4]	91,600	397,600
2002[5]	103,100	386,100
2003[5]	61,100	[3]308,400

[1] Figures rounded to the nearest 100
[2] May exclude some cases lodged at Local Enforcement Offices between January 1999 and March 2000
[3] Excludes Italy data
[4] Provisional figures
[5] Revised figure

Information on asylum applications is published quarterly. The publication covering the first quarter of 2004 (January to March) will be available on 25 May 2004 on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Randall: To ask the Secretary of State for the Home Department how many asylum seekers have been registered with the London Borough of Hillingdon in each of the last five years. [168071]

Mr. Browne: The information is not available in the form requested. The National Asylum Support Service (NASS) assumed responsibility for the support of asylum seekers on 3 April 2000.

NASS disperses asylum seekers to Government Office regions and local authority areas. The following table shows the available data for the number of asylum seekers (including dependants) supported by NASS in the Hillingdon Local Authority area, as at the end of each quarter since December 2002. Information in respect of the number of persons dispersed to an area during a given year is not available and could be produced only at disproportionate cost.

Information on the number of asylum seekers supported by NASS is published quarterly. The next publication covering the first quarter of 2004 (January to March) will be available on 25 May on the Home Office Research Development and Statistics Directorate website at: http://www.homeoffice.gov.uk/rds/immigration1.html

As at end:	In receipt of subsistence only support	Supported in NASS accommodation
December 2002	625	20
March 2003	585	10
June 2003	595	15
September 2003	530	15
December 2003	490	15

Note:
Figures are rounded to the nearest 5.

Mr. Bellingham: To ask the Secretary of State for the Home Department what proportion of asylum seekers are estimated to have entered the country illegally in each of the last five years. [168915]

Mr. Browne: The number of asylum applications received in each of the last five years for which data are available are given in the table. There is no official estimate of the proportion of these who entered the country illegally.

Applications[1] received for asylum in the United Kingdom, excluding dependants: 1999 to 2003—Number of principal applicants

	[2]Applications received
1999	71,160
2000	80,315
2001[4]	71,025
2002[3]	84,130
2003[3]	49,370

[1] Figures rounded to nearest five
[2] May exclude some cases lodged at local enforcement offices between January 1999 and December 2000
[3] Provisional figures
[4] Revised figures

Official estimates of the size of the illegally resident population in the United Kingdom do not exist. The Government has commissioned research into the methods used in other countries to estimate the size of the illegal population in order to define methods appropriate for the UK.

The work required is challenging because, by definition, illegal migrants fall outside of official statistics and are therefore difficult to measure. People illegally present in the UK are also motivated to ensure they remain hidden, which is a challenge to conducting research.

Mr. Oaten: To ask the Secretary of State for the Home Department on how many occasions in the last year immigration detainees were held overnight in police cells. [160556]

Mr. Browne: Information on the number of immigration detainees who were held overnight in police cells is not held centrally. However, I can give an assurance that detention in police cells for immigration purposes is kept to the minimum.

Mr. Heathcoat-Amory: To ask the Secretary of State for the Home Department how many people from the EU accession states have *(a)* been granted and *(b)* been

refused leave to remain in the UK under the European Communities Association Agreement (i) in 2001–02, (ii) in 2002–03 and (iii) to date in 2003–04. [160937]

Mr. Browne: Detailed figures are not available for 2001–02. However, on the basis of internal management information, we estimate that around 8,000 applications were made during this period.

In 2002–03, we estimate that just under 15,000 ECAA applications were granted, and some 1,400 were refused or fell for other reasons. In 2003–04 (to end February 2004), these figures were around 35,000 and 1,200 respectively.

Mr. Lidington: To ask the Secretary of State for the Home Department whether his Department has passed to the Immigration Appellate Authority the relevant papers in the case of Mr. S. M., husband of Mrs. S. K. of Aylesbury (decision maker's reference 643686; Gerrys/Fedex case reference 9003389; appeal reference 900863159; UK Visas reference GV100/86120); and if he will make a statement. [167247]

Mr. Browne *[holding answer 22 April 2004]:* This appeal was forwarded to the Immigration Appellate Authority on 13 April 2004.

Bogus Colleges

David Davis: To ask the Secretary of State for the Home Department what action his Department has taken to close down bogus colleges for migration purposes; and how many colleges have been closed down in each year since 1997. [166555]

Mr. Browne: I refer the right hon. Gentleman to a statement made by my right hon. Friend the Home Secretary on 22 April.

Charities Bill

Mr. Wood: To ask the Secretary of State for the Home Department when he will publish the Charities Bill. [167048]

Fiona Mactaggart: The draft Charities Bill, announced in the Queen's Speech, is expected to be published in mid-May. It will be considered by a joint Committee of both Houses which will be asked to report by 30 September.

Correspondence

Mr. Amess: To ask the Secretary of State for the Home Department when the Minister for Citizenship, Immigration and Counter Terrorism expects to reply to the hon. Member for Southend, West's letters of *(a)* 10 December 2003 and *(b)* 12 January. [165196]

Mr. Browne: The information is as follows.

(a) I apologise for the delay in replying to the hon. Member. On 5 April the letter was accepted by the Foreign and Commonwealth Office who will reply shortly.

(b) My hon. Friend the Under-Secretary of State (Fiona Mactaggart) wrote to the hon. Member on 23 February.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton dated 8 March with regard to Mohammed Riaz. [168924]

Mr. Blunkett: I responded to my right hon. Friend on 26 April 2004.

Crime

Mr. Pike: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts in Burnley has been since 1997. [168315]

Ms Blears: The information requested is not available centrally.

Burnley is a Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level have been published only from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk

Jim Dobbin: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded crime, *(c)* burglaries and *(d)* vehicle thefts in Heywood and Middleton has been since 1997. [168535]

Ms Blears: The information requested is not available centrally.

Heywood and Middleton comes within the Rochdale Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk

Crime Statistics

Mr. Kaufman: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts in Manchester Gorton has been since 1997. [167467]

Ms Blears: The information requested is not available centrally.

Gorton comes within the Manchester Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website http://www.crimestatistics.org.uk.

Mr. Wood: To ask the Secretary of State for the Home Department how many homophobic incidents were recorded in *(a)* 2002–03 and *(b)* 2003–04 by each of the (i) police divisions in west Yorkshire and (ii) police forces in England and Wales. [167049]

Ms Blears: Recorded crime figures submitted to the Home Office by police forces do not separately identify crimes motivated by homophobia. This is because homophobic crime is not a distinct offence in law, and is instead included within the figures for other offences according to the nature of the action.

Mr. Wood: To ask the Secretary of State for the Home Department how many racially aggravated incidents were recorded in *(a)* 2002–03 and *(b)* 2003–04 by each of the (i) police divisions in West Yorkshire and (ii) police forces in England and Wales. [167050]

Ms Blears: The available information relates to racially or religiously aggravated offences by police force area. The latest figures relate to 2002–03 and are given in the table. This information is not published at police force division level.

Information for 2003–04 is not yet available.

Racially or religiously aggravated offences recorded by the police in 2002–03[1]

Police force area	*Number*
Avon and Somerset	900
Bedfordshire	169
Cambridgeshire	410
Cheshire	376
Cleveland	145
Cumbria	69
Derbyshire	560
Devon and Cornwall	496
Dorset	177
Durham	371
Essex	558
Gloucestershire	210
Greater Manchester	2,353
Hampshire	317
Hertfordshire	343
Humberside	302
Kent	547
Lancashire	860
Leicestershire	809
Lincolnshire	136
London, City of	71
Merseyside	734
Metropolitan Police	9,853

North Wales	288
South Wales	737
Total	34,411

[1] Offences of racially or religiously aggravated other wounding, harassment, common assault and criminal damage

Brian Cotter: To ask the Secretary of State for the Home Department what changes there have been to the levels of recorded crime, broken down by offence, within Weston-super-Mare in each year since 1997. [167531]

Ms Blears: The information requested is not available centrally.

Weston-super-Mare comes within the North Somerset Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website http://www.crimestatistics.org.uk.

Criminal Justice

Peter Bradley: To ask the Secretary of State for the Home Department what the average time from arrest to court was for *(a)* persistent young offenders and *(b)* all offenders in the Wrekin in each year from 1997. [166721]

Paul Goggins: The information is as follows.

Days

	West Mercia—Persistent Young Offenders arrest to sentence	*West Mercia Time Interval Survey—charge to first listing*	*National figures—Persistent Young Offenders arrest to sentence*
1997	155	n/a	141
1998	123	n/a	125
1999	109	30	108
2000	96	32	93
2001	79	28	76
2002	63	25	68
2003	57	24	66

Notes:

1. We cannot provide "arrest to court" data for Persistent Young Offenders—only arrest to sentence.
2. We cannot provide "arrest to court" for all offenders.
3. The figures for "charge to first listing" come from the Time Interval Surveys. Comparable data for 1997 and 1998 are not available.
4. We cannot provide data for the Wrekin, but we can provide data for West Mercia in which this constituency is situated.

Criminal Justice Database

Dr. Whitehead: To ask the Secretary of State for the Home Department pursuant to the answer of 17 February, how many matches are contained wholly within the criminal justice section of the database. [165827]

Ms Blears: The National DNA Database is a criminal intelligence database and its use is restricted by the Police and Criminal Evidence Act 1984, as amended, to purposes related to the prevention or detection of crime, the investigation of an offence or the conduct of a prosecution. All of the matches referred to in the 17 February answer, either suspect-to-scene or scene-to-scene were made in the course of police investigations.

Detained Families

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the work of the Immigration and Nationality Directorate official appointed to oversee all detained family cases. [164330]

Mr. Browne: Oversight of family cases involving children as part of the family is maintained by the Management of Detained Cases Unit within Immigration and Nationality Directorate. Their role includes reviewing the appropriateness of detention and ensuring that where detention is maintained that the cases are progressed expeditiously.

Any cases involving concern are referred at an early stage to the Immigration Service Director designated to oversee these cases. This Director also receives any information about welfare issues from those responsible for managing the Removal Centre Estate.

In particular, the Director reviews weekly, all cases involving the detention of families with children where detention might reach 28 days, before the period of detention reaches 28 days, together with reports on all cases already subject to ministerial authorisation. The Director decides whether it is appropriate to seek ministerial authority to maintain such detention.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions in the last 12 months asylum seeker families with children have been detained for over 28 days. [164331]

Mr. Browne: Information on the number of occasions that families with children were detained under Immigration Act powers is not available.

Management information indicates that on 26 January 2004, 35 children were in detention who were detained solely under Immigration Act powers. Three-quarters of those had been in detention for 14 days or less and the remainder had been detained for less than four months. These individuals were all detained as part of families whose detention as a group was considered necessary.

Detention of all children beyond 28 days is now subject to ministerial authorisation.

Information on the number of people detained solely under Immigration Act powers as at 27 March 2004 will be published on the Home Office website (www.homeoffice.gov.uk/rds/immigration1.html) on 25 May.

Detention and Removal Centres

Mr. Gerrard: To ask the Secretary of State for the Home Department who is responsible for dealing with complaints made by immigration and asylum detainees about incidents occurring while they are under escort or transit outside detention or removal centres. [157446]

Mr. Browne: All allegations of assault are taken very seriously and all complaints are investigated. If a complaint is made about an alleged assault or inappropriate use of force by either the in-country or overseas escorting contractor the Immigration Service contract monitor will refer this allegation to the police. If such a complaint is made in respect of a local escort, for example to hospital, the detainee, or his/her representative, is always advised in the first instance to go to the police.

In both cases it is a matter for the police whether a criminal investigation follows. If it is decided not to undertake a criminal investigation, and the escort was a local journey the Immigration Service contract monitor at the removal centre will carry out an investigation of the alleged incident. If the complaint was against the in-country or overseas escorting contractor, the internal investigation will be undertaken by the appropriate contract monitor.

DNA/Fingerprint Data

Mr. Best: To ask the Secretary of State for the Home Department how many DNA samples taken by the police have been destroyed in each of the last five years; and under whose authority in each case. [167728]

Ms Blears: DNA samples are destroyed and the record of the profile derived from them is removed from the National DNA Database under the authorisation of the police force which submitted the DNA sample for analysis.

Prior to May 2001, DNA samples obtained from persons who were charged or prosecuted and who were subsequently acquitted or against whom charges were dropped had to be destroyed. An amendment to the Police and Criminal Evidence Act 1984 by the Criminal Justice and Police Act 2001 removed this requirement in respect of England and Wales but not Scotland. Samples may therefore have been destroyed and the profiles removed from the Database for one or more of the following reasons:

they are duplicate records from the same individual,

the individual has been acquitted or charges not proceeded with,

the samples were taken in error, or

the death of the individual.

The police also instruct the laboratory which carried out the DNA analysis to destroy all of the residual retained sample. Records of samples destroyed are not held centrally.

The number of subject profile records removed from the National DNA Database over the past five years was as follows:

	Number of records removed
2003–04	22,976
2002–03	21,229
2001–02	25,830
2000–01	77,336
1999–2000	59,957

Harry Cohen: To ask the Secretary of State for the Home Department if he will take steps to ensure that the collecting of DNA and fingerprint data from individuals arrested but not charged with an offence does not lead to *(a)* a disproportionately high number of samples of black and ethnic minority citizens and *(b)* a disproportionately low sample of other races being kept. [167256]

Ms Blears: With effect from 5 April 2004 the police have the power under the Police and Criminal Evidence Act 1984, as amended, to take and retain the fingerprints and a non-intimate sample from all persons arrested for a recordable offence and detained in a police station.

The police are given guidance in Codes of Practice as to how to exercise their powers and if they act unlawfully there are existing remedies available to anyone who feels he or she has not been treated fairly or in accordance with the law. Revised Codes of Practice giving guidance on these new powers come into force on 1 May and in the meantime the police have been given advice on these powers in the Home Office Circular 20/2004.

Harry Cohen: To ask the Secretary of State for the Home Department what statistics and categories of information will be kept in respect of DNA and fingerprint data on individuals who are not charged with an offence at the time the record is taken or subsequently in connection with the reason the police decided to take the sample; whether the information will be kept in a form which enables statistics on the race or ethnic origin of individuals' samples kept to be accounted for; and if he will make a statement. [166942]

Ms Blears: Under the Police and Criminal Evidence Act 1984, as amended, the police have the power to take fingerprints and non-intimate DNA samples, with or without consent, from all persons arrested for a recordable offence and detained in a police station.

Limited demographic information relating to the person arrested will be kept on the National Automated Fingerprint Identification Service and National DNA Databases and fuller information, analogous to the information relating to charged persons, will be kept on the Police National Computer. This will include the name, date of birth, sex, colour (white/non-white/unknown), and ethnic appearance (white European, dark European, Afro-Caribbean, Asian, Oriental, Arab and unknown). The type of offence (or offences) for which the person was arrested will also be recorded and the circumstances which led to the arrest will be kept locally.

Eaves Housing for Women

Mrs. Brooke: To ask the Secretary of State for the Home Department when the evaluation of the Eaves Housing for Women project will be *(a)* begun and *(b)* completed; what funding was committed to the Eaves Housing project for the years 2002–03 and 2003–04; what funds are committed for 2004–05; what plans he has to extend the project nationality; and if he will make a statement. [166474]

Mr. Browne: The evaluation of the POPPY Scheme, run by Eaves Housing for Women, began when the project started in March 2003 and will conclude in August. We expect to receive the findings in the late summer of 2004, with publication of the report following shortly thereafter. Funding allocated for the project in 2002–03 and 2003–04 was £33,000 and £620,000 respectively, including the costs of publicity and evaluation. Funding for 2004–05 has yet to be finalised but is expected to be at a similar level to 2003–04. Decisions about future provision and funding for victims of trafficking—including extension to other areas—will be based on evidence of need and will be taken in light of the evaluation findings.

Entry Visas

Mr. Peter Duncan: To ask the Secretary of State for the Home Department if he will make a statement on the role of the Scottish Executive in determining Government policy on issuing entry visas. [165978]

Mr. Browne: The Scottish Executive has no role in determining Government policy on issuing entry visas as immigration is a reserved matter and dealt with nationally, but we do work closely with the Scottish Executive on visa policy.

EU Enlargement

Bob Spink: To ask the Secretary of State for the Home Department what action he plans to take to ensure control of Britain's frontiers following enlargement of the EU in May. [163550]

Mr. Browne: The Immigration Service is implementing a series of measures at air and seaports to maintain robust border controls post 1 May and to discharge our obligations to ensure that bona fide EU travellers are processed without delay. Measures include: raising awareness of the risks of document abuse by non EU nationals; re-deploying front-line staff when necessary and trialling these arrangements in advance of 1 May.

Mr. Evans: To ask the Secretary of State for the Home Department what estimate he has made of the likely number of people coming into the UK from countries acceding to the EU in each of the next seven years. [150803]

Mr. Browne: Research conducted by University College London for the Home Office, published in June last year ("The impact of EU enlargement on migration flows", Home Office On-Line Report 25/03), estimates that the numbers of people expected to migrate to the UK from the new member states in the years following enlargement will not be significant. The research corroborates a number of other independent studies, which have been summarised in reports by the European Commission in 2000 and the former Department for Education and Employment in 1999. The estimates for those expected to migrate cover those coming to the UK for at least a year. As my right hon. friend the Home Secretary said, these are independent estimates and not Home Office figures.

We will monitor the situation and the UK has the right to reintroduce restrictions on workers in the event of an unexpected impact on the standard of living or level of employment in a particular region or occupation.

Gurkhas

Jane Griffiths: To ask the Secretary of State for the Home Department when he expects to publish the outcome of the review of immigration rules and procedures applicable to dependent members of serving Gurkha soldiers. [166515]

Mr. Browne: There is no review into immigration rules and procedures applicable to dependent members of serving Gurkha soldiers. Officials are currently reviewing immigration policy in respect of Gurkhas serving in the British Army and will be reporting to Ministers shortly.

Harold Shipman

Harry Cohen: To ask the Secretary of State for the Home Department whether authority has been given for Dr. Harold Shipman's body to be disposed of. [167254]

Paul Goggins: Yes. This authorisation has been given.

Identity Card

Mr. Gibb: To ask the Secretary of State for the Home Department if he will list the public services for which the Draft Identity Cards Bill requires the production of an ID card as a condition of receiving the service. [169447]

Mr. Browne: There is no automatic requirement to produce an ID card for particular services in the draft Bill published by my right hon. Friend the Home Secretary on 26 April. Parliament or the relevant devolved administration would have to approve regulations for each service on a case by case basis. In addition Clause 15(2) prohibits the ID card or a check of the National Identity Register being the mandatory way to access social security benefits or free public services prior to there being a compulsory requirement to register for an ID card.

Clause 15(5) of the draft Identity Cards Bill defines provision of a public service as:

(a) the provision of any service to an individual by a public authority;

(b) the exercise or performance in relation to an individual of any power or duty of a Minister of the Crown, the Treasury or a Northern Ireland department;

(c) the doing by any other person of anything in relation to an individual which that person is authorised or required to do for purposes connected with the carrying out of any function conferred on him by or under an enactment; or

(d) treating an individual as having complied with a requirement imposed on him by or under any enactment.

Mr. Gibb: To ask the Secretary of State for the Home Department for what purpose the Draft Identity Cards Bill enables an individual's national insurance number to be recorded in the National Identity Register. [169449]

Mr. Browne: Schedule 1 of the draft Identity Cards Bill published by my right hon. Friend the Home Secretary on 26 April (CM 6178) sets out the information which may be recorded in the National Identity Register. Final decisions on what will be recorded in the Register will depend on further feasibility studies and what legislation Parliament finally agrees.

Recording the National Insurance number on the Register would link the more secure identity established when the ID card is issued with the National Insurance number which is a less securely issued number. This could help prevent abuse by people using other people's National Insurance numbers and be more convenient for employers using an ID card to confirm eligibility to work.

Mr. Gibb: To ask the Secretary of State for the Home Department what powers he plans to make available to the police in the event that an individual refuses to verify his or her identity following introduction of identity cards. [169702]

Mr. Browne: The draft Identity Cards Bill that my right hon. Friend the Home Secretary published on 26 April makes clear that it will not be a requirement for individuals to carry an identity card or to produce a card to a police officer on demand.

As set out in "Legislation on Identity Cards: a consultation (CM 6178)" there will be no new power for the police to stop someone and demand to see their card. Existing police powers to require drivers to produce their driving licence (which could be designated as an ID card) on demand or within seven days at a police station will remain. Added to this, if someone has been arrested for a recordable offence, existing powers will allow the police to take reasonable steps to identify them. This currently includes powers to check biometric information. There are also classes of criminal offences which are non-arrestable and are enforced by sending a summons. In these situations, the police have to be certain of a person's name and address. If a person refuses to identify themselves in these circumstances or the police are not satisfied with the information given, they have a power of arrest after which biometric checks can be made. If it were not possible to identify an arrested person otherwise, for example checking police records, a check could then be made on the person's biometric against the National Identity Register.

Illegal Immigrants

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how many illegal immigrants from China could not be deported in each year since 1997 because the Chinese authorities refused to take them; and if he will make a statement. [163198]

Mr. Browne: Information on the number of Chinese nationals who could not be returned to China due to the Chinese authorities refusing to accept them is not available.

Deportations are a specific subset of removals alongside persons subject to administrative removal, removal due to illegal entry action or those refused entry at port and subsequently removed. Information on the nationality of those people removed as a result of deportation action is not available.

Our ability to effect removals to the country of origin is crucial in tackling illegal immigration, and we expect the co-operation of source countries in this regard. The Chinese Government have very strict conditions for re-documenting their citizens and will only accept their return once they have verified their exact identity. This causes problems for many countries that wish to repatriate Chinese illegal immigrants and failed asylum seekers, as those who do not wish to return are careful to conceal their true identity. Chinese officials seconded to the Immigration Service have recently provided assistance in identifying Chinese nationals to enable their return. We are now working on an arrangement to make this assistance permanent.

We have made it clear to the Chinese Government that we urgently need to find a solution to the problem of re-documenting those who continue to conceal their identity in order to frustrate return, and are working together to find a way forward to enable us to significantly increase returns to China.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what measures are in place to stop businesses employing illegal immigrants; [155283]

(2) what measures are in place to deter employers from employing illegal migrants. [159605]

Mr. Browne: The current principal control on employers to prevent the use of illegal labour is section 8 of the Asylum and Immigration Act 1996. Section 8 makes it an offence to employ someone over the age of 16 who is subject to immigration control unless that person has current and valid permission to be in the United Kingdom and that permission does not prevent him or her from taking the job in question; or that person comes into a category where such employment is otherwise allowed. At present, an employer can be fined up to £5,000 per illegal employee on summary conviction for an offence under section 8.

On 16 March we announced changes, via secondary legislation, to strengthen the security of the document checks employers must carry out on prospective employees under section 8 to establish a statutory defence from prosecution.

The changes will make it easier for compliant employers to ensure that their work force can work in the UK, and for the Immigration Service to identify and prosecute the small minority of non-compliant employers who knowingly or negligently employ illegal workers.

The Government recognises the widespread concern, especially in the wake of the recent Morecambe Bay tragedy, about the use of illegal labour and is also supporting the Private Members Bill introduced by my hon. friend, the member for Renfrewshire West (Jim Sheridan) on the licensing of gangmasters. More generally, we are increasing illegal working enforcement activity.

Between April and June 2003 the Immigration Service reported carrying out 79 illegal working operations of which 27 were aimed at detecting five or more illegal workers. Between October and November last year the number of reported operations increased by over 75 per cent. on the second quarter to 141, while the operations aimed at detecting five or more illegal workers rose by over 175 per cent. to 75.

In the four month period from the beginning of November 2003 to the end of February 2004 UKIS reported carrying out 18 enforcement operations at farms and packhouses where labour providers were involved. These operations led to the removal of over a hundred immigration offenders. A further 11 operations involving labour providers are also scheduled or being planned.

Earlier this month, two major investigations involving the police supported by UKIS resulted in the conviction of gangmasters for very serious criminal offences. In March, six labour providers with the company Ultimate Source were convicted at Kings Lynn Crown Court of various offences in connection with the supply of illegal workers. On 16 March, the labour provider and his son were found guilty of charges including conspiracy to defraud and facilitating the entry of illegal immigrants into the UK. Both have been sentenced to seven years imprisonment.

Where the Immigration Service encounters illegal workers, it seeks to remove them from the United Kingdom.

Merseyside Police

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions individuals have been excluded from a specific area for up to 24 hours by Merseyside Police and Community Support since the inception of this power. [165920]

Ms Blears: Merseyside police tell me that they have dispersed more than 100 individuals and given them directions excluding them from three specific areas for up to 24 hours since these powers came into force.

NASS

Mr. Spring: To ask the Secretary of State for the Home Department how much has been allocated to the National Asylum Support Service in each financial year since its inception. [163628]

Mr. Browne *[holding answer 29 March 2004]:* The National Asylum Support Service was established as a separate directorate within the Immigration and Nationality Directorate in 2000–01.

Total Resource Expenditure incurred by the National Asylum Support Service is listed in the table.

£ million

	Administration cost	*Asylum support cost*	*Total cost*
2000–01	36	747	783
2001–02	36	1,046	1,082
2002–03	54	1,070	1,124

National Offender Management Service

John McDonnell: To ask the Secretary of State for the Home Department when he will publish an organogram for the structures of the National Probation Directorate, HM Prison Service and the National Offender Management Service; and what its likely effects will be on personnel and staffing. [168184]

Paul Goggins: The Government will make available details of the structure and organisation of the National Offender Management Service when this is finalised. It is hoped that the proposed structure will be completed soon and can be discussed with trade unions and other key stakeholders.

Nationality, Immigration and Asylum Act

Ms Buck: To ask the Secretary of State for the Home Department if he will commission an independent review of the implementation of section 55 of the Nationality, Immigration and Asylum Act 2002. [162633]

Mr. Browne: The Government do not consider that an independent review of the working of section 55 of the Nationality, Immigration and Asylum Act 2002 is necessary or desirable.

The operation and impact of section 55 has been closely monitored since implementation on 8 January 2003, and initial problems are being resolved. From 17 December 2003, asylum applicants who can give a credible account that their asylum claim was made within three days of arrival would normally be accepted

as having applied as soon as reasonably practicable. This has resulted in a greater proportion of applications being granted under section 55.

These section 55 arrangements provide a balanced but firm policy that discourages economic migration, while continuing to offer refuge to those seeking asylum, and providing support to those who qualify or are vulnerable. The National Asylum Support Service (NASS) will continue to maintain an open dialogue on section 55 with the voluntary sector agencies, local government and other stakeholders.

Naturalisation

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department when he intends to implement the report of the Advisory Group on Living in the UK about education for naturalisation applicants. [166122]

Mr. Browne: I refer my hon. Friend to the Written Ministerial Statement made by my right hon. and noble friend Baroness Scotland of Asthal on 2 February 2004, *Official Report*, column WS13, and to the related papers deposited in the Library, which set out the steps we are taking with regard to the recommendations of the report.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department what discussions he has had with the Treasury about financing the proposals of the Advisory Group on Living in the UK for education of naturalisation applicants. [166126]

Mr. Browne: Negotiations on the Home Office's Spending Review settlement must remain confidential.

Offender Management

Julie Morgan: To ask the Secretary of State for the Home Department how the National Offender Management Service will contribute towards a reduction in the use of custody. [168391]

Paul Goggins: This will be achieved through more effective management of offenders under the National Offender Management Service as well as better targeting and co-ordination of custodial and community sentences.

Omar Bakri Mohammed

Mr. Dismore: To ask the Secretary of State for the Home Department if he will review the immigration status of Omar Bakri Mohammed, with a view to removing his indefinite leave to remain. [166042]

Mr. Browne *[holding answer 19 April 2004]:* It is not our policy to make public details of a person's immigration status.

Police

Simon Hughes: To ask the Secretary of State for the Home Department what funding per head of population has been received in each year since 1997 from *(a)* Government grant and *(b)* the police precept by each police force in England and Wales. [162359]

Ms Blears: The information is set out in the tables.

(a) Government grant funding[1] per head of population[2]

[1] Source for precept information: Office of the Deputy Prime Minister and the Welsh Assembly Government.

[2] Source for resident population figures: Office of the Deputy Prime Minister, as used in the calculation of the police funding settlements.

Mr. Paul Marsden: To ask the Secretary of State for the Home Department how many police cyclists there are per head of population for each police force. [168004]

Ms Blears: The requested information is not available centrally.

Mr. Pike: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Burnley has been since 1997. [168314]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is available only from 2002.

Burnley is part of the Pennine Basic Command Unit (BCU). Between March 2002 and March 2003 police strength for the Pennine BCU increased by 0.7 per cent. (from 526 to 530). The deployment of officers to BCUs is a matter for the Chief Constable (Paul Stephenson) and within the Pennine BCU deployment of officers is a matter for the Divisional Commander.

Brian Cotter: To ask the Secretary of State for the Home Department what the average police-to-population ratio was in *(a)* England and *(b)* the Avon and Somerset Police Authority in each year since 1997. [167505]

Ms Blears: The information requested is given in the following table:

Police strength per 100,000 population

31 March	*Avon and Somerset*	*England*
1997	204.2	242.2
1998	202.8	240.7
1999	202.9	237.8
2000	197.1	233.0
2001	199.4	234.3
2002	204.8	240.2
2003	213.0	254.5

Simon Hughes: To ask the Secretary of State for the Home Department what funding per head of population has been received from *(a)* Government grant and *(b)* the police precept by each police force in England and Wales in each year since 1997. [154678]

Ms Blears: The information is set out in the tables.

(a) Government Grant Funding[1] per head of population[2]

[1] Source for precept information: Office of the Deputy Prime Minister and the Welsh Assembly Government.
[2] Source for resident population figures: Office of the Deputy Prime Minister, as used in the calculation of the police funding settlements.

James Purnell: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Stalybridge and Hyde has been since 1997. [168737]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Stalybridge and Hyde is part of the Tameside Metropolitan Borough Basic Command Unit (BCU). Between March 2002 and March 2003 police strength for the Tameside BCU increased by 6.7 per cent. (from 389 to 415). The deployment of officers to BCUs is a matter for the Chief Constable (Michael Todd) and within the Tameside BCU deployment of officers is a matter for the Divisional Commander.

Jim Dobbin: To ask the Secretary of State for the Home Department what the percentage change in the number of full-time police officers in Heywood and Middleton has been since 1997. [168534]

Ms Blears: Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Heywood & Middleton is part of the Rochdale Metropolitan Borough Basic Command Unit (BCU). Between March 2002 and March 2003 police strength

for the Rochdale BCU increased by 4.2 per cent. (from 409 to 426). The deployment of officers to BCUs is a matter for the Chief Constable (Michael Todd) and within the Rochdale BCU deployment of officers is a matter for the Divisional Commander.

David Davis: To ask the Secretary of State for the Home Department how much was spent from central Government funds per capita on policing in *(a)* the East Riding of Yorkshire, *(b)* Humberside and *(c)* the UK for each of the last five years. [155330]

Ms Blears: The Home Office is responsible for the funding of the Police Service in England and Wales. The available information for all forces in England and Wales, including Humberside, is set out in the table. The distribution of resources within a force area is a matter for the Chief Constable and the Police Authority.

Funding for the Police Service in Scotland and Northern Ireland is the responsibility of the Scottish Executive and Northern Ireland Office respectively.

[1] Government funding includes general grant (Home Office police grant, ODPM/Welsh Assembly Government Revenue Support Grant and National Non-Domesticate Rates). It also includes specific grants: Crime Fighting Fund, Rural Policing Fund, Airwave, DMA Expansion Programme, Community Support Officer funding, London and South East Allowances, Free Travel (City of London and MPS only), Basic Command Unit funding, Street Crime Initiative, Special Priority Payments, Counter Terrorism funding (MPS only) and capital grants.
[2] Source for resident population figures: Office of the Deputy Prime Minister as used for police funding settlements.

Prison Drug Treatments

John Mann: To ask the Secretary of State for the Home Department how many prisons are using *(a)* naltraxone, *(b)* methadone and *(c)* subutex as part of their drug treatment. [168208]

Paul Goggins: The Prison Service does not routinely collect the information requested. However, it is estimated that naltrexone, an abstinence-based treatment, is currently available in around 50 establishments for men and one for women. Methadone maintenance is available in the majority of establishments for women but is not yet widely used in men's prisons.

Subutex (buprenorphine) is included in the treatment protocols developed in conjunction with NHS services at eight establishments for men. Every establishment for women has the capacity to prescribe subutex but few do so at present because methadone is considered to meet most prisoners' needs. Subutex would, however, be made available to any woman already being prescribed it when received into custody.

Seasonal Agricultural Workers Scheme

Hugh Robertson: To ask the Secretary of State for the Home Department how many students were admitted to the UK under the seasonal agricultural workers scheme from *(a)* Romania and *(b)* Bulgaria in (i) 2001, (ii) 2002 and (iii) 2003. [168377]

Mr. Browne: The latest available information is for 2001 to 2003, and is given in the table. Participants under the Seasonal Agricultural Workers Scheme must be students in full-time education and aged 18 or over.

Passengers given leave to enter the United Kingdom as seasonal agricultural workers, by nationality, 2001 to 2003

Number of journeys

	2001	2002	2003[1]
Romania	125	330	545
Bulgaria	1,110	1,730	1,965

[1] Provisional and subject to change.

Note:
The figures are rounded to the nearest 5.

Sentence Costs

Mr. Gerrard: To ask the Secretary of State for the Home Department what the average cost of administering a *(a)* community rehabilitation order, *(b)* community punishment order, *(c)* community punishment and rehabilitation order, *(d)* curfew order, *(e)* drug treatment and testing order and *(f)* attendance centre order for (i) an adult and (ii) a juvenile was in the latest year for which figures are available. [167366]

Paul Goggins: The average costs of administering adult community punishment orders in the National Probation Service and the average estimated unit costs of the juvenile orders administered by the Youth Justice Board are as follows:

£

	Adult[1]	Juvenile
Community Rehabilitation Order	3,080	2,218
Community Punishment Order	2,055	2,218
Community Punishment and Rehabilitation Order	3,000	2,218
Curfew Order	1,730	1,739
Drug Treatment and Testing Order	[2]4,080	1,916
Attendance Centre Order	196	167

[1] Forecast costs for 2003–04; include local and central overheads and training of Probation Officers

[2] Corrections' costs only; Health costs approx £3,300.

The Youth Justice Board have commissioned PA Consulting to conduct activity sampling work on Youth Offending Teams which should provide further research data on the unit costs of juvenile orders and interventions. The activity analysis report is due to be completed later this year.

Spanish Identity Cards

Mr. Watson: To ask the Secretary of State for the Home Department what discussions he has had with the Spanish Government on proposals to introduce electronic identity cards in Spain. [166843]

Mr. Browne: Identity card schemes have existed in all EU countries for many years, with the exception of Denmark and Ireland.

Home Office officials have had detailed discussions with colleagues involved in the operation of identity card schemes in Italy, Sweden, the Netherlands and Germany and lessons learned have informed the development of policy where appropriate. Before the outrages in Madrid, my right hon. Friend the Home Secretary discussed with the then Spanish Minister of the Interior his plans to upgrade identity cards in Spain. Comprehensive information has been supplied by each of the EU member states on the operation of their card schemes. The results of this work comprise Annex 3 of "Entitlement Cards and Identity Fraud: A Consultation" (CM 5557) published in July 2002.

Home Office officials will continue to work closely with colleagues in ED member states to share experience on the design and implementation of identity card schemes.

Stowaways

Lembit Öpik: To ask the Secretary of State for the Home Department how much was levied by the UK authorities in fines on *(a)* drivers and *(b)* freight companies found carrying stowaways in goods vehicles in each of the last three years; and if he will make a statement. [160375]

Mr. Browne: When the civil penalty regime was introduced by the 1999 Immigration and Asylum Act, fixed penalties of £2,000 per clandestine entrant were imposed on hauliers for which both companies and their drivers were jointly and severally liable. There were no separate penalties for freight companies and drivers.

The total amount of the penalties imposed under the old regime during 2001 was £8,888,000. The total amount of penalties imposed during 2002 up until the end of old regime on 7 December 2002 was £3,792,000.

The regime was amended by the Nationality, Immigration and Asylum Act 2002. This came into effect on 8 December 2002 and introduced flexible penalties that were separately imposed on companies and drivers.

The total penalties imposed from the start of the new regime on 8 December 2002 up to 31 December 2003 was £1,365,878; of this £809,913 was imposed on freight companies and £555,965 on drivers.

The reduction in the monetary value of penalties imposed under the new regime is because:

The effectiveness of the civil penalty regime and improved control via the increasing use of new detection technology for freight searching has provided an incentive to hauliers to improve their security and lead to a marked a reduction in the number of incidents where clandestine entrants are discovered; and

The flexible penalty which takes mitigating factors into account has lead to lower average penalties per clandestine entrant.

Lembit Öpik: To ask the Secretary of State for the Home Department how many vehicles were checked for stowaways at UK border checkpoints in each of the last three years; and if he will make a statement. [160380]

Mr. Browne: Detailed records are not kept nationally on the number of vehicles checked for clandestines at UK border checkpoints.

However, locally collated provisional information for 2003 indicates that at Dover and Coquelles the numbers checked by the Immigration Service were:

January 2003 to December 2003

	Number
Dover	138,030
Coquelles	158,130

Additionally, since 31 December 2003 there has been 100 per cent. checking capability through a range of technologies at Calais.

Student Visas

Mr. Peter Duncan: To ask the Secretary of State for the Home Department whether the scheme of student visas in Scotland will apply to other parts of the United Kingdom. [166039]

Mr. Browne: The Scottish Graduate Scheme, whereby non European Economic Area nationals who have graduated from Scottish Universities can apply to stay in Scotland for two years and look for work, is a pilot for a more regional approach to managed migration. The scheme, which is planned for introduction from Summer 2005, could be extended to other parts of the UK in due course, if it proves successful.

Mr. Peter Duncan: To ask the Secretary of State for the Home Department what plans he has to ensure that those issued with student visas through the scheme announced by the Scottish Executive remain in Scotland. [166040]

Mr. Browne: Only overseas graduates from Scottish Universities will be able to apply for extended leave to remain under the proposed scheme. Such graduates will already have a four year history of residence in Scotland

and strong ties to the local community. In addition, the Scottish Executive will be in regular contact with those participating in this scheme through its new Relocation Advisory Service.

Study Visas

Hugh Bayley: To ask the Secretary of State for the Home Department how many people *(a)* in total, *(b)* from Africa and *(c)* from each country in Africa are in possession of a visa to study in the UK. [164153]

Mr. Browne: The information requested is not available.

The tables show the available statistics for students given leave to enter the United Kingdom or granted an extension of leave to remain, 1998 to 2002. These will include students who have subsequently left the country.

Data on passengers given leave to enter the United Kingdom and persons granted an extension of leave to remain in previous years are published in the Command Papers "Control of Immigration: Statistics United Kingdom" obtainable from the House Library, the Stationery Office and via the Home Office website http://www.homeoffice.gov.uk/rds/hobpubs1.html.

Table 1: Passengers given leave to enter the United Kingdom as students[1], excluding EEA nationals, 1998 to 2002—United Kingdom

Number of journeys

Geographical region and nationality	*1998*	*1999*	*2000*	*2001*	*2002*
Africa[2]					
Algeria	530	410	520	930	670
Angola	250	250	190	270	355
Congo (Dem. Rep.)[3]	50	50	40	30	20
Egypt	1,190	1,050	1,100	1,210	920
Ethiopia	190	190	180	240	155
Ghana	970	1,320	1,800	2,460	2,890
Kenya	1,580	1,590	1,670	1,920	1,980
Libya	1,080	1,140	1,730	2,670	3,130
Mauritius	690	820	950	1,180	1,210
Morocco	650	700	660	530	535
Nigeria	1,660	2,070	2,430	3,220	4,320
Sierra Leone	100	130	190	280	355
Somalia	20	40	30	95	40
South Africa	860	1,050	1,180	1,300	1,380
Sudan	330	320	390	310	455
Tanzania	1,070	940	950	910	905
Tunisia	610	970	840	980	910
Uganda	580	670	800	990	1,290
Zambia	500	560	580	700	680
Zimbabwe	690	770	1,070	1,700	1,780
Other Africa	2,790	2,880	3,000	3,250	3,640
Africa	16,400	17,900	20,300	25,200	27,600
All nationalities[2] (excluding EEA)	266,000	272,000	313,000	339,000	369,000

[1] The data are of the number of journeys made; a person who makes more than one journey is counted on each occasion if given fresh leave

[2] Includes visa and non-visa nationals.

[3] The Democratic Republic of the Congo, formerly known as Zaire.

Note:

Data rounded to three significant digits.

Table 2: Grants of extensions of leave to remain in the United Kingdom as students[1,2], excluding EEA nationals, 1998 to 2002—United Kingdom

Number of decisions

Geographical region and nationality	*1998*	*1999*	*2000*	*2001*	*2002*
Africa[3]					
Algeria	130	120	140	250	245

All nationalities[3] (excluding EEA)	45,100	51,190	70,620	83,180	121,655

[1] The data are of the number of decisions; includes extensions granted to persons admitted or previously granted an extension of leave to remain

[2] Excludes dependants of principal applicants and the outcome of appeals.

[3] Includes visa and non-visa nationals.

[4] The Democratic Republic of the Congo, formerly known as Zaire.

[5] One or two.

Note:

Data rounded to the nearest five.

Sutton Inquiry

David Davis: To ask the Secretary of State for the Home Department if he will list the terms of reference of the inquiry by Ken Sutton into the operation of the European Communities Association Agreements scheme. [166556]

Mr. Browne: I refer the right hon. Gentleman to my right hon. Friend the Home Secretary's statement of 30 March.

US Visitor Deportations

Mrs. Dunwoody: To ask the Secretary of State for the Home Department how many US visitors have been deported from the UK for incorrect information on their visa applications in the last 12 months. [168252]

Mr. Browne: US nationals who are coming to the UK as visitors/tourists do not require a visa.

In 2002 (the latest period for which data are available) 1,030 US nationals who had been refused leave to enter the UK were removed from the country.

Deportations are a specific subset of removals alongside persons subject to administrative removal, removal due to illegal entry action or those refused entry

at port and subsequently removed. Information on the nationality of those people removed as a result of deportation action is not available.

Work Permits

David Davis: To ask the Secretary of State for the Home Department what checks are undertaken by Work Permits (UK) to ensure that people whose work permits have expired leave the country. [166552]

Mr. Browne: Work Permits (UK) conducts post-issue checks, including visits to employers' premises in order to ensure that work permit holders are employed for the purpose for which the permit was issues on an intelligence led basis. Where it comes to light that a work permit holder has worked or stayed beyond the expiry of their work permit it is able to take enforcement action, including removal. Work Permits (UK) also operates an Intelligence Team who are responsible for investigating alleged work permit offences alongside enforcement officers in the Immigration Service and the National Crime Squad.

Wheel Clamping

Andrew George: To ask the Secretary of State for the Home Department (1) what plans he has to regulate the *(a)* status, *(b)* prevalence and *(c)* activities of private security firms which wheel clamp licensed road vehicles on (i) public and (ii) private land; [167296]

(2) what timetable he has set to bring forward regulations in respect of private companies which wheel clamp licensed vehicles for enforcement purposes under the provisions of the Private Security Industry Act 2001. [167297]

Ms Blears: On current plans the Security Industry Authority (SIA) propose to commence the licensing of wheel clampers at the end of 2004. Details of the licensing criteria are currently being finalised and are likely to include an identity check, a criminal records check for relevant previous convictions, and a check on the applicant's professional competence to do the job.

The Private Security Industry Act 2001 also provides for the establishment of an approved contractor scheme by the SIA. The timetable for the introduction of the scheme is under consideration by the Authority.

The 2001 Act does not regulate wheel-clamping on public roads. Under the provisions of the Road Traffic Act 1991, local authorities may clamp vehicles that infringe parking regulations on public roads or in local authority off-street car parks. Only a parking attendant, as defined in section 63A of the Road Traffic Regulation Act 1984, may authorise such vehicle clamping, although a private contractor may be used to place the clamp on the vehicle. Under sections 71 and 72 of the 1991 Act the owner of a vehicle may make representations to the relevant local authority and subsequently appeal to an independent parking adjudicator about the clamping of the vehicle.

Yarl's Wood Detention Centre

Alistair Burt: To ask the Secretary of State for the Home Department when he intends to publish the report by Stephen Shaw into the allegations made by the Daily Mirror in relation to the Yarl's Wood Detention Centre; and if he will make a statement. [169227]

Mr. Browne: The report will be published on 30 April.

Alistair Burt: To ask the Secretary of State for the Home Department when he received from Mr. Stephen Shaw his report into the fire at Yarl;s Wood Detention Centre in February 2002; when he intends to publish this report; and if he will make a statement. [169228]

Mr. Browne: The Prisons and Probation Ombudsman, Mr. Stephen Shaw, is continuing his inquiry into the fire that occurred at Yarl's Wood Removal Centre in February 2002. It is expected that Mr. Shaw will submit his report this summer.

Yvonne Shitto

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what stage the work visa application number S1145670 in the name of Yvonne Shitto is at; and if he will make a statement. [165913]

Mr. Browne: The work visa application for Yvonne Shitto, reference number: S1145670, was refused on the 8 April 2004.

Written Answers to Questions

Friday 30 April 2004

CABINET OFFICE

Regulation

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office how many instances of gold plating have been brought to the attention of the Cabinet Office Regulatory Impact Unit, with particular reference to the Cabinet Office Transposition Guide, 2003, page 17. [168646]

Mr. Alexander: The Government's policy is to transpose Directives so as to achieve the objects of the European measure, on time and in accordance with other UK policy goals, including minimising the burden on business. It is Government policy not to over-implement ("gold-plate") directives unless there are exceptional reasons for doing so.

The Regulatory Impact Unit has regular discussions with departments concerning policy development, including, on occasion, possible over-implementation. Records of the number of times such discussions have taken place are not available. Since November 2001, Transposition Notes have normally accompanied all legislation laid before Parliament that transposes any European directive. These show how all the main elements of the directive have been or will be transposed into UK law.

In accordance with Cabinet Office guidelines, Departments discuss with the Regulatory Impact Unit the range of options that might be included in regulatory impact assessments. These include options that could go beyond the minimum necessary to comply with a European directive, bearing in mind that, particularly where the original directive is unclear, it is not always straightforward to know in advance whether a proposed method of implementation might represent over-or under-implementation.

CONSTITUTIONAL AFFAIRS

Consultants

Mr. Hawkins: To ask the Parliamentary Secretary, Department for Constitutional Affairs what sum has been expended on consultants by *(a)* the Department and *(b)* its predecessors since May 1997. [169848]

Mr. Lammy: From April 1997 until March 2003, my Department's net expenditure with consultants was as follows:

	£ million
1997–98	0.7
1998–99	1.2
1999–2000	1.9
2000–01	2.6
2001–02	6.5
2002–03	5.7

The recent increase reflects the wide-ranging and fast-paced programme to modernise the Department's work, to increase efficiency, and provide better customer service and value for money for the taxpayer.

Delivering such a programme in the most effective and efficient way has necessitated the use of external expertise and skills to supplement the Department's own resources.

Expenditure details for the financial year 2003–04 are not yet available.

Immigration

Mr. Lidington: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the Immigration Appeals Authority has received from the Home Office the papers relating to the case of Mr. S. M., husband of Mrs. S. K. of Aylesbury (GV100/86120; decision maker's reference: 643686; Gerrys/Fedex no: 90083389; appeal reference: 90063159); and if he will make a statement. [167245]

Mr. Lammy: The Immigration Appellate Authority (IAA) took receipt of the appeal papers of Mr. S. M. on the 14 April 2004. The appeal has been listed by the IAA for a substantive hearing before an Immigration Adjudicator on 3 June 2004. Notice to this effect was promulgated to the relevant parties to the appeal on 19 April 2004.

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will set a time limit on the maximum length of time between an appeal against the withdrawal of United Kingdom nationality being lodged with the Special Immigration Appeals Commission and the appeal being heard. [169811]

Mr. Lammy: It is important that appeals before the Special Immigration Appeals Commission (SIAC) are dealt with quickly and efficiently and the Government are keeping the position under very close review. But there are risks to setting rigid time limits that stipulate appeals must be heard within a defined period. The complexities of a case, and the need to ensure that SIAC has the full facts at its disposal, mean there are always instances where it would not be possible. We are committed to decide each appeal on its individual merits and give that appeal the necessary time for a fair decision to be given.

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what action he proposes to take to reduce delays in hearings before the Special Immigration Appeals Commission in cases of appeals against withdrawal of UK nationality; and if he will make a statement. [169813]

Mr. Lammy: The administrative processes for appeals against Deprivation of Citizenship proceedings are subject to on-going review to ensure compatibility with both the public interest and the independence of the judicial process.

Interlocutory decisions in relation to individual proceedings are the preserve of the Special Immigration Appeals Commission.

Parliamentary Questions

Mr. Kaufman: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will name all hon. Members who, since 1 August 2003, have been sent a standard departmental reply concerning the 1911 Census returns in which the Department has advised them that the period of closure in Great Britain is normally 100 years; and if he will list the decennial population Census for *(a)* England and Wales, *(b)* Scotland and *(c)* the whole of Ireland which have been released after less than 100 years of closure to public inspection. [167310]

Mr. Lammy: Between 1 August 2003 and 31 March 2004 the following hon. Members have received letters explaining why the 1911 Census returns for England and Wales are subject to a closure period of 100 years:

Andrew Smith, John Baron, Ann Winterton, Andrew MacKay, Judy Mallaber, Paul Burstow, Claire Ward, Nick Hawkins, Kevin Barron, Steven Webb, Andrew Tyrie, Sandra Gidley, Gerald Kaufman, Andrew Rosindell, Joe Benton, Nick Harvey, Mark Oaten, Helen Jackson, Robert Jackson, Andrew Murrison, John Grogan, David Borrow, David Taylor, Doug Naysmith, Roger Williams, Richard Ottaway, Alan Howarth, Philip Sawford, Vernon Coaker, Tim Yeo, Patricia Hewitt, Stephen Pound, Michael Mates, Michael Portillo, Jeff Ennis, Robert Key, Michael Wills, Siobhain McDonagh, Nick Gibb, Martin Caton, Ian Taylor, James Arbuthnot, Norman Lamb, Candy Atherton, Nicholas Winterton, John Hutton, Kenneth Clarke, Tim Loughton, Linda Gilroy, Hilary Benn, Michael Foster, David Drew, George Young, Paul Truswell, John Randall, Ian Stewart, Teddy Taylor, Wayne David, Ashok Kumar, Richard Burden, Andrew Turner, Mike O'Brien, Andrew Miller, Hazel Blears, John Horam, Edward Leigh, David Blunkett, Gwyneth Dunwoody, David Lidington, William Cash, Jim Cunningham, Robert Ainsworth, Shona McIsaac, John Taylor, David Winnick, Michael Wills, Geoffrey Clifton-Brown, Gregory Campbell, Martin Salter, Andrew Hunter, and Paul Clark.

(a) The censuses for 1841 and 1851 in England and Wales, which contained less detailed information than 20th century censuses, were opened to public inspection in 1912. The 1861 to 1901 censuses were all released after 100 years.

(b) The opening of census returns in Scotland is a matter for the General Register Office for Scotland, an associated Department of the Scottish Executive. However, I can refer the right hon. Member to the answer of 24 February 2004, *Official Report*, column 347W which my hon. Friend the Parliamentary Under-Secretary for Constitutional Affairs with responsibility for Scotland gave to the hon. Member for Orkney and Shetland on this subject.

(c) The returns for the all-Ireland censuses conducted in 1901 and 1911 can be consulted at the National Archives in Dublin, in accordance with decisions taken by the Government of the Republic of Ireland.

CULTURE, MEDIA AND SPORT

BBC (Commercial Advertising)

Andy Burnham: To ask the Secretary of State for Culture, Media and Sport pursuant to her answer of 31 March 2004, *Official Report*, column 1454W, on BBC (commercial advertising), how much the BBC spent in each of the last five years on *(a)* billboard advertising and *(b)* other commercial advertising. [168817]

Estelle Morris *[holding answer 26 April 2004]:* The cost of promoting BBC services is a matter for the BBC. However, the figures show the BBC's media spend over the last five years.

The BBC's total bought media spend for the last five years has been as follows:

	£ million	*Of which: billboard advertising*
2000	8.6	negligible
2001	9.6	negligible
2002	14.7	10.85
2003	13.8	11.7
2004	[1]12.0	[1]11.5

[1] Estimate.

I understand that the BBC made a significant change to its strategy in 2002 by developing a permanent holding of poster sites and switching much of its spending from other media, such as Press.

The BBC's spend has also of course risen significantly since 2002 in order to support the launches of its new digital TV and radio services and to promote digital take up in accordance with its commitments to the Secretary of State.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Culture, Media and Sport what the total expenditure on communications for her Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158208]

Mr. Caborn: The total expenditure on communications in my Department in 2003–04 was £927,744. This figure includes staff costs for the Group Head, the Press Office, the Promotions and Publicity Unit and administrative support staff. A break down of this figure between competencies, or by membership of the Government Information and Communication Service could be provided only at disproportionate cost.

The totals, do not include costs for special advisers, figures for which are given on an annual basis. Information for the year 2003–04 will be published in due course.

Matthew Taylor: To ask the Secretary of State for Culture, Media and Sport how many staff were employed in the Department to work in the communications field, and what the total expenditure on communications for the Department was, broken

down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others, in (A) 1994–95, (B) 1996–97, (C) 1997–98 and (D) 2001–02. [168683]

Mr. Caborn: The information requested could be provided only at disproportionate cost.

Press Officers

Mr. Laws: To ask the Secretary of State for Culture, Media and Sport how many press officers were employed in her Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if she will make a statement. [162854]

Mr. Caborn: Numbers of press officers employed in each year from 1992–93 when the Department came into existence are as follows. Total cost for each year is available only for 2002–03 and 2003–04 as the information requested for earlier years could be provided only at disproportionate cost.

	Number	*Total cost (£)*
1992–93	7	—
1993–94	7	—
1994–95	7	—
1995–96	7	—
1996–97	7	—
1997–98	7	—
1998–99	9	—
1999–2000	8	—
2000–01	9	—
2001–02	8	—
2002–03	9	459,952
2003–04	10	552,677

DEFENCE

Civil Servants

Bob Spink: To ask the Secretary of State for Defence if he will list for each civil service grade within his *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled. [166394]

Mr. Caplin: Information on Ministry of Defence civilian staff is given in United Kingdom Defence Statistics 2003 a copy of which is available in the House of Commons Library. Summary data for the civil service as a whole are published in the Civil Service Statistics 2002 publication. The 2003 edition will be published in summer 2004. The further information requested for the Ministry of Defence is given in the following tables:

Number of civilian staff in Ministry of Defence by gender, ethnic origin and disability (excludes trading funds and agencies

	Ministry of Defence			
1 March 2004	*Male*	*Female*	*Ethnic minorities*[1]	*Disabled*[2]

Trading Funds[3, 4]	9,400	2,010	110	400
Grand total	30,400	14,210	820	1,850

[1] Figures for ethnic minorities represent those who have declared themselves to be a member of an ethnic minority group. A total of 14,340 staff in the agencies and trading funds, and 12,550 in the remainder of the Ministry of Defence had not declared their ethnicity.

[2] Figures for disabled staff represent those who have declared themselves to be disabled. A total of 14,830 civilian staff in the agencies and trading Hinds, and 16,320 in the remainder of the Ministry of Defence had not declared their disability status.

[3] A breakdown by Grade is not available for Trading Funds.

[4] Industrial and Trading Funds data are based on estimates from November 2003.

[5] Other grade includes industrials on temporary promotion, and unknowns.

Notes:

1. Figures are headcount and have been rounded to the nearest 10 to preserve confidentiality.
2. Dashes represent numbers between 0 and 5.

Number of civilian staff in Ministry of Defence by age and grade (excludes trading funds and agencies): As at 1 March 2004

Iraq

Adam Price: To ask the Secretary of State for Defence what recent changes have been made regarding the use of free postage for military personnel serving in Iraq; and if he will make a statement. [170106]

Mr. Ingram: I refer the hon. Member to my Written Ministerial Statement of 27 February 2004, *Official Report*, column 70WS, and subsequent answers of 5 March 2004, *Official Report*, column 1155W, to the hon. Member for Portsmouth South (Mr. Hancock), and 1 April 2004, *Official Report*, column 1605W, to the hon. Member for Mid Norfolk (Mr. Simpson).

Manning Control

Mr. Keetch: To ask the Secretary of State for Defence how many soldiers subject to manning control in the last 10 years are *(a)* still serving on an S-type contract and *(b)* have been discharged, and under what careers regulations; and if he will make a statement. [169171]

Mr. Caplin *[holding answer 29 April 2004]:* The number of soldiers discharged under Queen's Regulations 9.413 'Not required for a full Army career' following manning control review in the last 15 calendar years to 2002 was given in the answer on 27 November 2002, *Official Report*, columns 332–34W, as updated by the answers given on 16 September 2003, *Official Report*, columns 705–06W, and 13 March 2004, *Official Report*, column 386W.

Of these, 319 soldiers are currently serving on an S-Type engagement.

Mr. Keetch: To ask the Secretary of State for Defence how many soldiers who were subject to manning control and were discharged or signed on to S-type contracts and subsequently discharged since 1994 have been called up for service in UK operational deployment *(a)* in each of the last eight years and *(b)* on Operation Telic; and if he will make a statement. [169172]

Mr. Caplin *[holding answer 29 April 2004]:* I will write to the hon. Member and place a copy of my letter in the Library of the House.

Defence Statistics

Mr. Kidney: To ask the Secretary of State for Defence what estimate he has made of the contribution his Department makes to the West Midlands economy. [168466]

Mr. Caplin: Publication of this information in the annual Defence Statistics report was suspended in 2002 because of concerns about its quality. Work is in place to improve the quality of these statistics with a view to their inclusion in the future.

Defence makes an important contribution to the West Midlands economy through the presence of service and civilian personnel in their local communities, and through expenditure with companies based in the West Midlands and payments by the Department to local authorities. The Department's Defence Bills Agency database records that in 2002–03 the Ministry of Defence spent some £300 million of equipment and non-equipment expenditure to firms based in the West Midlands.

The Department also conducts regional impact assessments to inform decisions affecting Defence estate and personnel.

DEPUTY PRIME MINISTER

Antisocial Behaviour

Ms Keeble: To ask the Deputy Prime Minister how many evictions by housing authorities for antisocial behaviour took place in *(a)* the last three months of 2003 and *(b)* the first three months of 2004. [169807]

Yvette Cooper: The Office of the Deputy Prime Minister does not request that local authorities supply information on the number of evictions they have carried out due to the antisocial behaviour of tenants.

Betting Shops

Mr. Drew: To ask the Deputy Prime Minister what guidance he gives to local authorities in consideration of an application for planning permission to open a betting shop from someone who has already successfully applied for a licence to run that business. [170138]

Keith Hill: There is no specific guidance on applying for planning permission for a betting shop, although we published "Planning Permission: A Guide for Business" in 1998 which informs applicants that betting offices are in the A2 (Financial and Professional Services) Use Class as set out in the Town and Country Planning (Use Classes) Order 1987. The Use Classes Order makes clear that planning permission is needed to change the use of premises to a betting office. The Order is currently being revised, but the announcement on 27 November 2003 on proposed changes does not include any proposal to change the position of betting offices.

Even if an applicant has a bookmaker's permit to run a betting office in a particular location, he will still require permission to change the use of premises under the Town and Country Planning Act. We have no proposals to issue any guidance.

Planning (Flag Poles)

Bob Spink: To ask the Deputy Prime Minister (1) what planning restrictions apply to *(a)* the erection of flag poles and *(b)* the flying of national flags; and if he will make a statement; [169752]

(2) if he will make it his policy to issue planning guidance to remove the need for planning permission for flag poles up to 18 feet in height in or on domestic properties. [169751]

Keith Hill: Under the Town and Country Planning (Control of Advertisements) Regulations 1992 ("the regulations"), prior local planning authority consent is not required, in respect of a site where planning permission has been granted for residential development, so long as the flagstaff is vertical, does not exceed 4.6 metres in height, and is not within a conservation area, area of outstanding natural beauty, National Park, the Broads area or an area of special control under the regulations. The flag advertisement can only be displayed for the period of one year. Otherwise express consent from the local planning authority is required.

National flags are exempt from control under the regulations provided each flag is flown from a single vertical flagstaff and it does not have anything else added to the design of the flag or any advertising material added to the flagstaff. We shall be amending the Regulations to exempt from control national flags however they are flown from a flagstaff.

Land Use Change

Mrs. Spelman: To ask the Deputy Prime Minister how much land changing to residential use was within 1997-designated Green Belt in each year since 1997, broken down by region. [169495]

Keith Hill: The available estimates are from Land Use Change Statistics for 1997, 1998 and 2000, are in the following table. Much of the development was on land that was already developed and the second part of the table shows the amounts of greenfield land used for residential development.

Land changing to residential use within 1997 designated Green Belt

Region	*1997*	*1998*	*2000*
		Hectares	
All on Greenbelt land			
North East	5	10	0
North West	75	90	65
Yorkshire and the Humber	60	50	30
East Midlands	10	10	20
West Midlands	45	35	55
East of England	40	60	50
London	10	20	25
South East	135	85	145
South West	25	30	40
England	405	395	430
On greenfield (not previously developed) Land			
North East	5	10	0
North West	50	65	30
Yorkshire and the Humber	40	35	25
East Midlands	5	5	5
West Midlands	30	20	35
East of England	15	20	25
London	0	10	10
South East	90	50	100
South West	20	25	35
England	255	230	265

Mrs Spelman: To ask the Deputy Prime Minister how many new dwellings were built within 1997-designated Green Belt in each year since 1997, broken down by region. [169496]

Keith Hill: The available estimates are from Land Use Change Statistics for 1997, 1998 and 2000, in the following table. Many of the dwellings were built on land that was already developed and the second part of the table shows the numbers just on greenfield land.

New dwellings built within 1997 designated Green Belt

Region	*1997*	*1998*	*2000*
		Dwellings	
All on Green Belt land			
North East	50	140	20
North West	930	855	945
Yorkshire and the Humber	630	675	505
East Midlands	225	145	270
West Midlands	660	600	705
East of England	470	845	625
London	180	655	590
South East	855	800	890
South West	155	310	160
England	4,155	5,015	4,710
On greenfield (not previously developed) Land			
North East	35	130	15
NorthWest	495	410	330
Yorkshire and the Humber	335	360	370
East Midlands	95	75	35
West Midlands	335	220	335
East of England	105	135	280
London	5	240	205
South East	300	300	220
SouthWest	90	195	70
England	1,790	1,985	1,895

Mrs. Spelman: To ask the Deputy Prime Minister how much land within 1997-designated Green Belt changed to developed use each year since 1997, broken down by region. [169545]

Keith Hill: The available estimates are from Land Use Change Statistics for 1997, 1998 and 2000, tabled as follows:

Land changing to developed use within 1997 designated Green Belt

Region	*1997*	*1998*	*hectares 2000*
On green field (not previously developed) land			
North East	110	10	45
North West	335	295	110
Yorkshire and the Humber	295	290	60
East Midlands	60	75	70
West Midlands	85	65	75
East of England	155	85	50
London	50	20	15
South East	270	100	430
South West	55	70	115
England	1,410	1,005	965

Mrs. Spelman: To ask the Deputy Prime Minister if he will list the locations of each development on *(a)* Green Belt land and *(b)* non-Green Belt green field land for which he or his predecessors have given planning permission since 1 May 1997. [169546]

Keith Hill: My right hon. Friend the Deputy Prime Minister or his predecessors have granted planning permission on 162 sites on Green Belt land between 1 May 1997 and 31 March 2004. A table of the locations of these sites has been made available in the Libraries of the House.

Information on non-Green Belt green field land is not held centrally and could be provided only at disproportionate cost.

Local Authority Housing

Mr. Hendrick: To ask the Deputy Prime Minister if he will make a statement on how the change in the level of council funding for housing has affected the residents of Preston since 1997. [169692]

Keith Hill: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Preston's allocations in the period 1997 to 2003–04 have risen by over 35 per cent. In addition to this welcome increase there is support through the Community Housing Task Force and Government Office for the North West to help the local authority and its tenants to choose the best strategy for long-term improvement.

Mr. Benton: To ask the Deputy Prime Minister how the change in the level of council funding for housing has affected the residents of Bootle since 1997. [170076]

Keith Hill: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance we introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Sefton's allocations in the period 1997 to 2003–04 have risen by over 200 per cent. and have been supplemented by the announcement of £86 million to be made available to the Merseyside Housing Market Renewal Pathfinder, NewHeartlands, between 2003–04 and 2005–06. In addition to this, there is support through the Community Housing Task Force and Government Office for the North West to help the local authority and its tenants to choose the best strategy for long-term improvement.

Parliamentary Questions

Mr. Clifton-Brown: To ask the Deputy Prime Minister when he will reply to the questions tabled by the hon. Member for Cotswold on 25 March, ref 163886, on Coverage Care (Gloucestershire) Ltd. [169894]

Yvette Cooper: I replied to the hon. Member on 29 April 2004.

Roadside Advertising

Mr. Ben Chapman: To ask the Deputy Prime Minister what advice his Department offers local authorities regarding planning for roadside and roundabout advertising. [169247]

Keith Hill: Advice to local planning authorities is contained in Circular 5/92: The Town and Country Planning (Control of Advertisements) Regulations 1992. The Circular advises local planning authorities that particular consideration should be given to proposals to site advertisements at points where drivers need to take particular care, such as junctions, roundabouts or other places where local conditions present special traffic hazards. Local planning authorities are advised to consult the local highways authority (or the Highways Agency in the case of a motorway or trunk roads).

Site Development

Mr. Mark Hoban To ask the Deputy Prime Minister (1) when the sites owned by the Department of Health

will be sold to the Office of the Deputy Prime Minister, in accordance with the announcement made by him and the Secretary of State for Health on 7 April; [168327]

(2) what local consultation there will be on the development of NHS sites to be sold to his Department; [168328]

(3) when he will announce the programme for the development of the sites to be sold to his Department by the Department of Health; [168329]

(4) what mechanism he will put in place to prevent a conflict of interest when the Department is seeking either directly or indirectly to develop sites it owns; [168330]

(5) whether the sites to be sold to the Department by the Department of Health will be sold on to developers to enable them to be developed; [168331]

(6) whether the sites to be acquired from the Department of Health will be *(a)* sold on a site by site basis to developers and *(b)* sub-divided and sold individually to developers; [168332]

(7) what the timetable is for the development of sites in Hampshire to be acquired by his Department from the Department of Health; [168333]

(8) when an assessment will be carried out of the infrastructure needed to develop the sites to be acquired from the Department of Health; [168334]

(9) what period the sites to be acquired from the Department of Health will be developed; [168335]

(10) what basis the sites to be acquired from the Department of Health have been valued for the purpose of this acquisition; [168336]

(11) if he will list the value of each of the sites to be acquired from the Department of Health; [168337]

(12) how many houses will be built on each of the sites it will acquire from the Department of Health; and what proportion of these will be *(a)* affordable and *(b)* available for rent through registered social landlords; [168338]

(13) whether the Department intends to secure outline planning permission on each site to be acquired from the Department of Health prior to the sale of these sites to developers; [168339]

(14) what planning procedure is followed when a Government Department seeks planning permission for residential housing development; [168340]

(15) what measures will be taken to ensure the Department's target for the number of affordable housing units will be met on the sites to be acquired from the Department of Health; [168341]

(16) who will own the sites to be acquired by the Department from the Department of Health; [168342]

(17) whether the number of houses to be built on the sites to be acquired from the Department of Health will *(a)* be counted towards regional house building targets and *(b)* be in addition to those targets; [168343]

(18) when the Department commenced discussion with the Department of Health on the acquisition of surplus NHS sites; [168344]

(19) what discussions he or his officials had with the Department of Health concerning the plans by HBOS/Miller to develop the surplus NHS sites; and when they commenced. [168345]

Yvette Cooper: My right hon. Friends the Deputy Prime Minister and Secretary of State for Health announced on 7 April 2004 an agreement in principle to transfer over 100 surplus NHS sites to the Office of the Deputy Prime Minister. The announcement follows an earlier decision by the Department of Health not to pursue a public/private partnership with Miller Homes/HBOS but instead to open discussions with to the Office of the Deputy Prime Minister about the contribution the sites might make to delivering the action set out in the Sustainable Communities Plan (February 2003). Discussions commenced between ODPM and DoH officials after a decision by DoH to reconsider pursuing the proposed Miller/HBOS deal.

Following the in-principle agreement to transfer the sites, there will now be an intensive process to establish the terms of the transfer and the implications for individual sites. It is not possible at this stage to say when individual sites, including sites in Hampshire, will be brought forward for development. Those sites which are currently vacant are likely to transfer from the Department of Health later this financial year. The terms of the transfer will be informed by the market value of the sites. An independent valuation is under way to determine an overall value for the portfolio.

While many of the sites are already vacant, others remain occupied—if only in part. The timing of individual sites becoming available for development will vary from site to site. Each site will be considered separately in its local planning context before decisions are taken on future development options. The role that English Partnerships (EP), the national regeneration agency, will play in this process has still to be determined but we would expect it to be significant. There will also be a role for other public sector bodies such as the Regional Development Agencies.

It is likely that EP will be asked to undertake a master-planning exercise of some of the key sites to maximise their potential to deliver high quality developments. These will be exemplar projects to demonstrate best practice in creating sustainable communities. We would expect EP to engage with the local authorities concerned at an early stage and to involve the wider community and other stakeholders in pre-application discussions. This will help to determine issues such as the number of houses to be developed on each site and the appropriate proportion that should be affordable, as well as the

infrastructure required to ensure development is sustainable. Appropriate arrangements will be put in place to ensure that there is no conflict between the Office of the Deputy Prime Minister's role in bringing these sites forward for development and its role in the planning process.

The public sector will prepare sites for development and ensure their potential to contribute to the establishment of sustainable communities is realised. Development opportunities will then be marketed to the private sector. How individual sites are marketed will be determined through the master planning process and is likely to vary from site to site. The private sector will therefore have a major role in the development of these sites.

Rent Arrears

Ms Keeble: To ask the Deputy Prime Minister how many evictions there were from local authority housing stock for rent arrears during each of the last three years. [169734]

Keith Hill: The information requested is not held centrally and could be provided only at disproportionate cost.

Ms Keeble: To ask the Deputy Prime Minister what the latest figures for rent arrears in council housing stock are, broken down by region; and what the figures were for *(a)* 2003 and *(b)* 2002. [169735]

Keith Hill: Estimates of total rent arrears due to local authorities as at 31 March for each of the years 2002–04, and aggregated to regional level, are tabled as follows:

£ million

Region	*2002*	*2003*	*2004*
North East	32.8	34.1	32.5
North West	77.5	64.3	65.2
Yorkshire and the Humber	58.8	61.1	53.0
East Midlands	37.5	37.3	36.5
West Midlands	47.8	44.7	40.7
East	32.7	30.4	28.3
London	215.6	185.4	181.7
South East	33.5	32.9	31.5
South West	20.5	21.7	23.3
England	556.8	512.0	492.8

Notes:

1. The above estimates are based on unaudited figures supplied by local authorities in response to a regular survey called "Entitlement to Housing Subsidies and Grants" and, in particular, the First/Second Advance Claim forms.
2. The total arrears reflect arrears due from both former tenants and current tenants.
3. The change in cumulative rent arrears from one year to the next can be affected both by the success of a local authority in chasing up rent arrears and by the fact that local authorities can simply write-off outstanding arrears at any time.

Wind Farms

Mr. Walter: To ask the Deputy Prime Minister what the installed capacity and location of wind turbines granted planning permission was in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland in each year since 1990; how many wind farms were awaiting planning permission at 31 March; and what the generating capacity is in each case. [168830]

Keith Hill: Apart from Northern Ireland, where all applications are dealt with centrally, Government do not hold records of proposals for on-shore wind farms below 50 megawatts (MW) as these fall to be determined by the local planning authority under the normal planning regime. However, proposals to construct and operate generating stations with a capacity greater than 50 MW in England and Wales require my right hon. Friend the Secretary of State for Trade and Industry's consent under section 36 of the Electricity Act 1989. This information is also collated by the devolved Administrations in Scotland. For all such applications, the information requested is in the tables.

Section 36 of the Electricity Act 1989—applications approved

There have been no applications approved in England.

Country	*Location*	*Date received*	*Generating capacity*	*Date approved*
Wales	Cefn Croes Ceredigion	24 July 2000	60 MW	23 May 2002

Janet Anderson: To ask the Deputy Prime Minister what guidance he issues on the minimum acceptable distance between sizes of proposed windfarms and the nearest dwelling. [169489]

Keith Hill: Paragraph 47 of the annex on Wind Energy in Policy Planning Guidance Note 22 (PPG22) contains guidelines about turbine separation distances from residential dwellings, specifically in relation to noise. This matter was also covered in paragraph 18 of our revision to PPG22, which was issued as a draft for consultation last November.

Janet Anderson: To ask the Deputy Prime Minister what plans he has to *(a)* amend and *(b)* relax the planning guidance in respect of planning permission for windfarms. [169490]

Keith Hill: The Government's proposals for amending the current planning policy guidance note 22: renewable energy (PPG22) were set out in draft Planning Policy Statement 22 (PPS22) published for public consultation on 5 November 2003. This document covered the handling of all types of renewable energy projects through the planning system. Copies have been made available in the Libraries of the House. The consultation period ended on 30 January. The final version of PPS22 will be published later this year following careful consideration of the consultation responses received.

EDUCATION AND SKILLS

Children (Residential Care)

Mr. Sanders: To ask the Secretary of State for Education and Skills how many children were placed in residential care by each local authority in the last year for which figures are available. [167135]

Margaret Hodge: The number of children in residential care in each local authority at 31 March 2003 is shown in the following table.

Children looked after at 31 March 2003 in residential care[1, 2, 3]

	Number

[1] Residential care includes secure units, homes and hostels, residential schools, and other residential settings.

[2] Figures in this table exclude children looked after under an agreed series of short-term placements.

[3] Figures over 1,000 are rounded to the nearest 100. Figures between 1 and 5 have been suppressed. All other figures are rounded to the nearest 5.

Source:

Children Looked After by Local Authorities, Year Ending 31 March 2003.

Pre-school Places

Mr. Pike: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four-year-olds in Burnley in each of the last seven years. [167918]

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four-year-olds in Preston in each of the last seven years. [168135]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four year olds in Lancashire local education authority area are shown in the table.

The latest figures on provision for three and four-year-olds in England were published in a Statistical Bulletin "Provision for children under five years of age in England—January 2003" which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Since the beginning of April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, are eligible for a free, part-time early education place.

Number of free nursery education places[1,2] *taken up by three and four-year-old children in maintained nursery and primary schools and private, voluntary and independent providers—Lancashire local education authority area—1997 to 2003*

	Position in January each year	
	Three-year-olds	Four-year-olds
1997	4,400	12,400
1998	4,400	13,500
1999	4,400	16,000
2000	4,300	15,900
2001	9,400	15,700
2002	9,400	13,000
2003	10,100	12,600

[1] Part-time equivalent number of free nursery education places taken up by three and four-year-old children.

[2] A free nursery education place comprises five two and a half hour sessions of early years education per week, for 33 weeks of the year, usually three terms of 11 weeks.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Illegal Meat Imports

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate she has made of the amount of meat illegally imported into the UK in each of the last 10 years; [160630]

(2) what estimates she has made of the quantity of meat illegally imported into the UK in the last 12 months. [165199]

Mr. Bradshaw: Estimates of the amount of illegal meat imports may be made on the basis of the amount of such meat detected. However prior to 2001 information on seizures of illegal meat imports by enforcement authorities was not collected centrally. In August 2001, Defra set up the first national database to capture data on seizures of illegally imported products of animal origin (POAO).

The Veterinary Laboratories Agency's 'Risk Assessment for the Import of Meat and Meat Products Contaminated with Foot and Mouth Disease Virus into Great Britain and the Subsequent Exposure of GB Livestock', published in March 2003, used the seizure database to estimate that the total amount of illegal meat entering GB each year is 7,431 tonnes on average, with 90 per cent. certainty that this is between 2,771 and 14,484 tonnes per year.

Information on seizures of illegal imports continues to be collected centrally and will be published in Defra's annual review of controls on imports of animal products.

Abattoirs

Mr. O'Hara: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 16 March 2004, *Official Report*, column 156W, on abattoirs, how many individual case files there are in which are recorded the details of charges which are brought against abattoirs that were withdrawn before they come to court; and where they are kept. [166078]

Mr. Bradshaw: Details of all charges laid against abattoirs for meat hygiene and animal welfare offences are recorded on individual case files. There are 49 case files relating to prosecutions brought against abattoirs in 2002 and 2003. Details of any charges withdrawn before cases came to court are recorded on the individual files, which are either retained by the Food Standards Agency at their headquarters in London or held in storage in Derbyshire.

Mr. O'Hara: To ask the Secretary of State for Environment, Food and Rural Affairs what the average cost was to the Department in *(a)* 2002–03 and *(b)* 2003–04 of a charge successfully brought against an abattoir for breach of meat hygiene and animal welfare regulations. [166080]

Mr. Bradshaw: The average legal cost incurred by this Department and the Food Standards Agency in pursuit of a charge successfully brought against an abattoir for a breach of meat hygiene or animal welfare regulations was:

	Per charge (£)
2002–03	1,190.04
2003–04	975.79

Mr. O'Hara: To ask the Secretary of State for Environment, Food and Rural Affairs what the average cost was to the Department in financial years *(a)* 2002–03 and *(b)* 2003–04 of a charge brought against an abattoir for breach of the meat hygiene and animal welfare regulations but which it dropped before it came to court. [166091]

Mr. Bradshaw: The average legal cost incurred by both this Department and the Food Standards Agency in pursuit of charges brought against abattoirs for a breach of the meat hygiene or animal welfare regulations, which were dropped before coming to court was:

	Per charge (£)
2002–03	1,426.54
2003–04	390.26

Animal Welfare Bill

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to introduce an Animal Welfare Bill. [166478]

Mr. Bradshaw: The Department is proposing to introduce an Animal Welfare Bill that will update and consolidate legislation relating to the welfare of captive and domestic animals. The earliest the Bill could be introduced into Parliament is the session beginning November 2004.

Sea Bass

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her Department's policy to source sea bass used in catering outlets for which her Department is responsible from hand-line fishermen rather than pair trawlers. [167539]

Mr. Bradshaw: Defra supports the sourcing of sea bass from sustainable fisheries and handlining, as a relatively low impact method of fishing, can play a part in ensuring fisheries remain sustainable. However, the last report in 2003 by the International Council for the Exploration of the Seas on sea bass advised that the level of exploitation of the stock at that time was sustainable and did not recommend closure of the offshore pair trawl fishery. There are currently no restrictions at a UK or Community level on the method of fishing that can be used to target bass. In addition, to address the dolphin bycatch problem associated with the pair trawl fishery, Defra-funded trials of a separate grid device to reduce dolphin bycatch are currently taking place, with the co-operation of the fishing industry.

In these circumstances, I do not believe that recommending a specific source of supply for bass could be justified at this stage.

Blue Tongue Virus

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the risks of a blue tongue virus outbreak in the United Kingdom. [168949]

Mr. Bradshaw *[holding answer 27 April 2004]:* Defra have prepared a technical review which describes the virus, its hosts and vectors, and a control strategy for the various scenarios whereby the bluetongue virus could be introduced to the United Kingdom. These documents can be found online at the Defra website at the following locations:

Technical Review

http://defraweb/animalh/diseases/notifiable/disease/bluetongue_technical.PDF

Control Strategy

http://defraweb/animalh/diseases/notifiable/disease/bluetongue_control_strategy.pdf

Whenever there is a serious disease outbreak in another country that could affect the UK via trade in animals and animal products, we prepare a risk assessment and post it on the Defra website The most recent one in respect of blue tongue was prepared in October last year following an outbreak of the disease in the Balearics.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what lessons can be learned in respect of UK TB control measures from the New Zealand experiences of possum clearance. [158291]

Mr. Bradshaw: There are two main lessons to be learned from the New Zealand experience of possum clearance. Firstly, in a situation where a wild mammal acts as a maintenance host of TB, a successful eradication scheme must include a strategy to limit the infective contacts between the wildlife reservoir and cattle. This must be in addition to a programme of frequent tuberculin testing of cattle herds, removal of reactors, slaughterhouse surveillance and controls of cattle movements from infected herds. The second lesson is that this multi-pronged approach is an effort that must be maintained over time.

Cotswold Conservation Board

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs if she will set out the *(a)* proposed role and *(b)* level of funding planned for the Cotswold Conservation Board; whether it will be liable for VAT; and if she will make a statement. [166895]

Mr. Bradshaw: The information requested is as follows:

(a) The Countryside and Rights of Way Act 2000 states that the two purposes of a Conservation Board are:

(i) conserving and enhancing the natural beauty of the area of outstanding natural beauty, and

(ii) increasing the understanding and enjoyment by the public of the special qualities of the area of outstanding natural beauty.

Additionally, a Conservation Board, while having regard to these purposes, should seek to foster the economic and social well-being of local communities within the area, but without incurring significant expenditure.

(b) If created, the Cotswolds AONB Conservation Board would receive Countryside Agency funding to meet 80 per cent. of its core costs. This compares to a 75 per cent. contribution in AONBs managed by local authorities, which can reclaim their VAT payments. The increased contribution is to offset the Boards not being able to reclaim their VAT payments.

EU Rural Development Regulation

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the new requirements which will be imposed by the 2007 EU Rural Development Regulation. [168036]

Alun Michael: The European Commission is expected to publish legislative proposals on EU rural development spending later this year. The United Kingdom's position on the draft regulation will be developed in discussion with the devolved Administrations in Scotland and Wales, and with the Northern Ireland Administration, and following consultation with stakeholders. We hope to see a significant simplification in comparison with the current rural development regulation and a greater focus on rural development in general.

Fisheries

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the lease of sea bed for fish farming. [167201]

Mr. Bradshaw: The Government's policy on marine fish farming is to encourage the development of viable, competitive and sustainable fish farming enterprises providing this can be done within a framework which protects the health and welfare of farmed and wild stocks. Central to that policy is the sustainable use of the marine environment and the prosperity of the economies and communities in associated areas.

Policy responsibility on the lease of sea bed for fish farming is a matter for the Crown Estate.

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs if she will request that the European Commission conduct as a matter of urgency a study to establish for each EU member state, under the provisions of the new Regulation concerning incidental catches of cetaceans in fisheries; and on the basis of current fishing data, the number of vessels that will be *(a)* required to use pingers and *(b)* required to carry observers; and what proportion of national fishing effort in relevant fleets will be exempt from each of the above requirements as a result of the exclusions of vessels (i) smaller than 12 metres, (ii) smaller than 15 metres and (iii) using pingers. [168241]

Mr. Bradshaw: The UK has been seeking Community action for some time to address the accidental deaths of dolphins and porpoises from fishing activity. I am pleased therefore that agreement was reached on a new Council Regulation to address this problem at the Agriculture and Fisheries Council of Ministers Meeting on 22 and 23 March. The UK would have preferred the Regulation to have been stricter in certain areas but the agreed Regulation represented a package that was acceptable to the majority of member states, in the light of available scientific data. The review clause in the Regulation provides the opportunity to press for further action to refine and target measures at other sectors of the fleet if justified. In these circumstances, I do not believe a request at this stage to the Commission to conduct a further study in relation to cetacean bycatch would be justified or successful.

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what proportion of UK fishing effort in fisheries under the provisions of the new Regulation agreed at the Fisheries Council on 22 and 23 March will be exempt from the observer requirement on the basis of the exclusion of *(a)* vessels smaller than 15 metres and *(b)* vessels that are using pingers; [168242]

(2) how many UK fishing vessels will be required to use pingers in gillnet fisheries in areas IV and VII under the provisions of the new regulation agreed at the Fisheries Council on 22 and 23 March, on the basis of current fishing effort. [168244]

Mr. Bradshaw: The Council Regulation laying down measures concerning the incidental catches of cetaceans in fisheries will require member states to design and

implement monitoring schemes to observe bycatch on vessels of 15 metres or over. Such schemes need to provide representative data for bycatch in a range of fisheries. For vessels under 15 metres, members states need ot take steps to collect data on incidental catches by means of appropriate scientific studies or pilot projects. The Regulation is not expected to enter into force until 1 July 2004 and the start date for the monitoring requirements will be 1 January 2005. The UK monitoring scheme will be designed in the coming months and I am therefore not in a position at present to provide detailed data on the coverage or otherwise of the scheme.

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government will *(a)* publish and *(b)* implement their Cetacean Bycatch Response Strategy. [168245]

Mr. Bradshaw: I shall be assessing the best way in which to take forward the UK Small Cetacean Bycatch Response Strategy in light of the agreement reached at the March meeting of the EC Agriculture and Fisheries Council to proposals for a new EC Regulation on bycatch.

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs how many UK vessels were fishing in the pelagic trawl fishery in area VII for bass during *(a)* March and *(b)* April on the latest date for which figures are available; how many of these vessels are being monitored for cetacean bycatch by onboard observers; how many are engaged in trialling bycatch mitigation measures; and if she will introduce emergency restrictions on this fishery unless and until effective measures to prevent cetacean bycatch can be put in place. [168247]

Mr. Bradshaw: A maximum of seven pairs of UK vessels were in the pelagic trawl fishery in area VII fishing for bass in March and early April. This has since dropped to one pair of vessels. Defra-funded observers have been onboard two pairs of vessels to monitor bycatch and one pair of vessels has been engaged in trialling mitigation measures since December 2003 as part of Defra-funded research.

I do not rule out action to restrict this fishery but, given the involvement of other member states, Community action would be most effective means of addressing bycatch in this fishery. Consideration of emergency restrictions would be premature before this season's trials of mitigation measures have been completed and the results considered.

Growth Promoters (Animal Feeds)

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the EU ban on the use of antimicrobial growth promoters in animal feeds; and if she will make a statement. [167071]

Mr. Bradshaw: The EU-wide ban on the use of antimicrobial growth promoters comes into effect on 1 January 2006. The VMD collects and publishes annual figures of sales of all veterinary therapeutic and growth promoting antimicrobials to monitor changes in sales of these products. The latest figures available show that sales of antimicrobial growth promoters had reduced to 27 tonnes of active ingredients in 2002.

Officials from the Veterinary Medicines Directorate (VMD) have held a number of discussions with colleagues from Denmark and other countries that have already voluntarily banned the use of antimicrobial growth promoters. They have considered their experiences and the success of the measures put into place to minimise any adverse effects from the loss of these products. In the period following the ban an increase in animal illness had been noticed that lead to an increase in use of therapeutic antimicrobials.

This information is being shared with industry through VMD's regular meetings with the Responsible Use of Medicines In Agriculture (RUMA) alliance. A representative from RUMA also recently attended a meeting of the Defra Antimicrobial Resistance Coordination (DARC) group to discuss this issue. Further such meetings are planned.

Another part of the Government's efforts to help farmers prepare for the ban was to fund a research and development project to look at the potential effects of the withdrawal of antimicrobial growth promoters on the pig industry. The results have shown ways farmers can adapt their herd management to cope with the ban on antimicrobial growth promoters without increasing the risk of disease and therefore the need to treat with therapeutic antimicrobials. Two meetings have been held with pig farmers to inform them of the results. Details of the project can be found at www.vmd.defra.gov.uk.

Japanese Knotweed

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has for a coordinated and strategic approach to the problem of Japanese knotweed. [167851]

Mr. Bradshaw: I am aware of the problems caused by the spread of the introduced non-native plant, Japanese knotweed. Current legislative controls exist under section 14 of the Wildlife and Countryside Act (1981) to prevent its deliberate planting or growing in the wild. The Department is also collaborating with a consortium led by Cornwall County Council to undertake a four-year project researching the natural control of Japanese knotweed. The study began last year and will undertake the necessary research to establish whether natural control is a feasible method for the long-term, sustainable management of Japanese knotweed in the UK.

Recognising the importance of a strategic approach for non-native species policy, the Department recently consulted on the development of a strategy, and officials are currently analysing the responses. It is essential that limited resources are targeted to the most problematic species, and the outcome of the consultation will assist my Department and the Devolved Administrations in developing a strategy that will help prioritise action.

The hon. Member may be interested to learn that in the meantime, my Department has commissioned research to develop a standardised risk assessment system enabling species to be routinely assessed. Following the development and introduction of risk assessment procedures, the aim would be to identify those species constituting the highest risk(s). The risk assessment procedure may also be of use in identifying those established invasive non-native species where action may be appropriate.

Litter (Fines)

Mr. Dhanda: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to allow local councils to keep income from on the spot fines for dropping litter. [169982]

Alun Michael: Section 119 of the Local Government Act 2003, which allows local authorities to keep receipts from litter fixed penalty notices, came into force on 18 November 2003.

Sites of Special Scientific Interest

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs why English Nature did not inform the hon. Member for Totnes of its wish to extend, under section 28C of the Wildlife Countryside Act 1981, the site boundaries of Slapton Ley site of Special Scientific Interest. [167491]

Mr. Bradshaw *[holding answer 26 April 2004]:* Notification of the boundary extension and addition of interest features, to Slapton Ley Site of Special Scientific Interest was made on 11 February 2004 and in accordance with the requirements specified in the Wildlife and Countryside Act 1981, as amended. Also according to those requirements, a public notice appeared in the *Western Morning News* on 17 February 2004. The consultation period on this notification ends on the 11 June 2004. English Nature must decide whether to confirm the notification within nine months. Any unresolved objections will be considered by English Nature's Council at its meeting in September 2004.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs how many changes to the geographical boundaries of sites of Special Scientific Interest have been made in each of the last three years; and which have *(a)* increased and *(b)* decreased in area. [167492]

Mr. Bradshaw *[holding answer 26 April 2004]:* In the last three years there have been 15 geographical changes to SSSIs boundaries made under section 28B and section 28C of the Wildlife And Countryside Act 1981, as amended. Those that have had their areas increased are shown in the list. None of the changes resulted in decreases to a SSSI area.

2001–02

Porlock Ridge and Saltmarsh

River Dee

Thatcham Reed Beds

Dubbie Bank

Ravenhead Brickworks

Total: 5

2002–03

Compton Chine to Steephill Cove

Purfleet Chalk Pit

Crookhill Brick Pit[1]

Ebernoe Common[1]

Eversden and Wimpole Woods

Stour Estuary

Orwell Estuary

Total: 7

2003–04 (to present)

Humber Estuary[1]

Orton Pit[1]

Slapton Ley[1]

Total: 3

1 Changes to these SSSIs have been notified but not yet confirmed, as the nine month period for doing so is on-going.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what changes have been proposed by English Nature to the rules and regulations affecting sites of Special Scientific Interest; and whether the changes as proposed in relation to the Slapton Ley site are part of a national change. [167493]

Mr. Bradshaw *[holding answer 26 April 2004]:* Sites of Special Scientific Interest (SSSIs) are notified and protected under the Wildlife and Countryside Act (WCA) 1981, as amended by the Countryside and Rights of Way (CROW) Act 2000. No changes to this regime have been proposed by English Nature. Under this regime, English Nature has a duty to notify land as a SSSI, and may amend existing SSSIs, where it is of the opinion that land is of special interest by reason of the flora, fauna or geological or physiographical features. The changes at Slapton Ley SSSI have been notified under section 28C of the WCA 1981.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs how many sites of special scientific interest there are, broken down by region; and if she will list the additional sites declared in each of the last three years. [167494]

Mr. Bradshaw *[holding answer 26 April 2004]:* There are a total of 4,111 sites of special scientific interest (SSSIs) in England. Some SSSIs cross regional boundaries, and will therefore have been double counted in the table below.

Government region	*Number of SSSIs*
Eastern	569
East Midlands	391
London	34
North East	256
North West	442
South East	703
South West	978
West Midlands	446
Yorks	375

19 new SSSIs have been confirmed in the last three years. They are:

2001–2002	2002–2003	2003–2004
Birklands West and Ollerton Corner	Chapel Point to Walla Bank	Slade Brook
Roecliffe Manor Lawns	Caen Valley Bats	
Mattishall Moor	Withcall and South Willingham Tunnels	
Lower Coombe and Ferne Brook Meadow	Normanby Meadows	
Barn Elms Wetland Centre	Stiffkey Valley	
Long Lye Meadows	Briddlesford Copses	
Cranmore Common	Holehaven Creek	
Sutton and Lound Gravel Pits	Harries Ground, Rodbourne	
Beck Dale Meadows	Mottisfont Bats	
Total: 9	Total: 9	Total: 1

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons were for the Standard Types of Operation 19 and 21, in Annex 3 of English Nature's notification under section 28C of the Wildlife and Countryside Act 1981 issued on 11 February 2004 relating to Slapton Ley Site of Special Scientific Interest. [167868]

Mr. Bradshaw *[holding answer 26 April 2004]:* English Nature is required under the Wildlife and Countryside Act 1981, as amended, to notify any operations which appear to it to be likely to damage the special interest of the Site of Special Scientific Interest (SSSI). English Nature must consent before any such operations are carried out. I understand from English Nature that Operation 19 and Operation 21 were specified as likely to damage the special interest of Slapton Ley SSSI when the site was re-notified in 1984. They remain applicable to Slapton Ley SSSI because it is considered that such operations would have the potential to cause damage to the site. The legislation requires English Nature to notify any such operations anew when exercising its powers under section 28C of the Wildlife and Countryside Act 1981, as amended.

Civil Servants

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many officials in *(a)* her Department and *(b)* executive agencies reporting to her Department are employed in the Vale of York. [170011]

Alun Michael: Defra has one office located in the Vale of the York. It is the Thirsk office of the Veterinary Laboratories Agency, where 28 officials are employed.

FOREIGN AND COMMONWEALTH AFFAIRS

Human Rights

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to sign and ratify the First Optional Protocol to the International Council on Civil and Political Rights on behalf of the United Kingdom. [170185]

Mr. Rammell: The Government are currently reviewing the United Kingdom's position in relation to a number of international human rights instruments. This review includes the First Optional Protocol to the International Covenant on Civil and Political Rights, which allows the right of individual petition. We will announce the outcomes of the Review to Parliament as soon as is reasonably possible.

Cyprus

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is towards *(a)* Cyprus and *(b)* Turkey in the light of the outcome of the referendums in Cyprus on 24 April. [R][169809]

Mr. MacShane: I draw my hon. Friend's attention to the Foreign Secretary's written statement of 28 April 2004, *Official Report*, columns 44–46WS. The statement contained the Government's response to the outcome of the voting on 24 April and referred to the conclusions on Cyprus from the General Affairs and External Relations Council of 26 April 2004. UK policy is fully reflected in these decisions of the European Union, which I very much welcome.

I very much value our close relationship with the Republic of Cyprus. I look forward to this continuing, enhanced by the new dimension of EU membership after 1 May.

Like our EU partners, the UK is keen to see an end to the international isolation of the Turkish Cypriots. This does not mean a change in the government's policy of not recognising the "Turkish Republic of Northern Cyprus". But the situation in the north of the island has changed—the Turkish Cypriots have expressed a clear desire for a future within the EU, and on the basis of a reunified island. That is our objective too. As we work to achieve it, the EU is committed to addressing the economic disparity between the north and south.

The EU has also welcomed Turkey's constructive approach to the settlement negotiations. The lack of a Cyprus settlement should not impede the opening of accession negotiations on the basis of the Copenhagen criteria. We will continue to work with Turkey to encourage the implementation of the necessary reforms, so that the European Council can take a positive decision in December 2004.

Managed Migration

Mr. Page: To ask the Secretary of State for Foreign and Commonwealth Affairs how long embassies will retain the passports of citizens of *(a)* Romania and

(b) Bulgaria seeking managed migration employment visas as a result of the conduct of the Ken Sutton inquiry. [170021]

Mr. Mullin: Applications by Romanian and Bulgarian citizens for managed migration visas have been suspended pending the completion of Ken Sutton's inquiry. Passports that are retained by our Embassies in connection with managed migration applications will be held until the application can be resolved, or until the applicant requests the return of their passport in person at the embassy. Applications can be held open despite the return of the passport, if the request is made in person.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has held with the National Islamic Front Government of the Sudan over the continuing use of Hudud. [168794]

Mr. Mullin: Amputations and flogging are incompatible with international human rights law. We regularly raise the matter with the Sudanese Government, both bilaterally and as part of the EU-Sudan dialogue. Indeed, I discussed the application of hudud punishments with the Sudanese ambassador on 2 December 2003, and my right hon. Friend the Secretary of State for International Development (Hilary Benn), discussed the human rights situation generally with the President of Sudan in Khartoum on 10 December.

Departmental Wine Cellars

Mr. Liddell-Grainger: To ask the Secretary of State for Foreign and Commonwealth Affairs how many bottles of wine are held by his Department. [162012]

Mr. Rammell: The Foreign and Commonwealth Office does not hold central records of the wines held by UK missions overseas. In the UK, the principal holding is the Government Wine Cellar, managed by Government Hospitality on behalf of all Government Departments. The stock of approximately 37,000 bottles is a mixture of fine wines, less expensive beverage wines and spirits. The cellar is generally stocked by purchasing when they are young and relatively inexpensive and then allowing them to mature. This allows the government to use fully mature wines of considerable value for its hospitality requirements, while representing a considerable saving to the taxpayer compared to the cost of buying mature wines in the open market.

HEALTH

"Winning Ways"

Dr. Gibson: To ask the Secretary of State for Health (1) what progress has been made in setting up a rapid review process for new procedures and products claiming to prevent or control healthcare-associated infection as announced in Winning Ways; [167461]

(2) when he expects the first procedures and products to be reviewed under Winning Ways; and how recommendations will be implemented. [167462]

Mr. Hutton: Action is being taken jointly between officials in the Medicines and Healthcare products Regulatory Agency, the national health service health technology assessment programme and the Health Protection Agency. We are still exploring the options for this new rapid review process but hope that evaluations will start later this year.

Agency Nurses (Weston Area)

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 7 April 2004, refs 163515 to 163518 on public bodies, what he estimates the staff and administration costs have been to his Department of those bodies referred to which are still in existence. [167547]

Ms Rosie Winterton: As the previous reply explained, information on the Department's task forces, ad hoc advisory groups and reviews is given in the annual publication, "Public Bodies". This publication explains that such groups have a short-term focus and when their work comes to an end they are disbanded. These groups are usually created to give expert advice to the Government on a specific issue and are usually expected to remain in operation for less than two years. They are not separate statutory bodies. As such, they have no capacity to employ staff or hold assets in their own right and rely on secretariat and other support from the Department and, sometimes, other interested bodies. They will not normally have any formal separate budget allocated to them, and accountability for expenditure will remain with the body to whom any funding is allocated.

Anaesthesia

Mr. Watson: To ask the Secretary of State for Health what evaluation he has made of international trials to examine awareness devices that monitor the depth of anaesthesia. [166882]

Ms Rosie Winterton: The New Scientist published on 14 April a research paper from the Alfred hospital in Melbourne, Australia, which reported that the BIS (Bispectral Index) monitor can aid evaluation of the depth of anaesthesia in a patient undergoing surgery. The research recommended that the BIS monitor be used in the small number of operations where there is a high risk of the patient becoming aware during the operation. A different system has been developed at the University of Glasgow. The Auditory Evoked Potential System measures the depth of anaesthesia in a different way to that of the BIS monitor. As further trials are carried out, our understanding of the safety and efficacy of these systems will increase.

Kidney Transplants

Mr. Battle: To ask the Secretary of State for Health how many kidney transplants have been carried out by the NHS in each year since 1997; and if he will make a statement. [168604]

Ms Rosie Winterton: The table shows kidney transplants in the United Kingdom, since April 1997 by financial year.

Transplant type	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04
Cadaveric kidney	1,426	1,309	1,359	1,308	1,264	1,337	1,330
Living donor kidney	197	241	302	341	372	379	450
All kidney only	1,623	1,550	1,661	1,649	1,636	1,716	1,780
Kidney-pancreas	25	21	25	41	41	48	45
Kidney-liver	18	5	8	9	5	13	10
Kidney/heart	3	3	1	1	3	1	1
Kidney-liver- pancreas	—	1	—	—	—	—	—
Total kidney	1,669	1,580	1,695	1,700	1,685	1,778	1,836

In the UK we have invested in a number of initiatives to boost organ donation. Between 1 April 2003 and 31 March 2004 there were 2,854 transplants—the highest number of organ transplants in seven years. The highest number of patients for fourteen years received a kidney-only transplant with living donation now representing one in four of all kidney-only transplants. We saw a 20 per cent. increase in non-heartbeating donation and more than 800,000 people added their names to the NHS organ donor register.

Knee/Hip Operations

Mr. Battle: To ask the Secretary of State for Health how many replacement *(a)* knee and *(b)* hip joint operations have been carried out in each year since 1980. [168603]

Mr. Hutton: The following table shows the counts of finished consultant episodes for knee and hip replacement operations carried out in national health service hospitals in England for the years 1989–1990 to 2002–03. The Department is unable to provide data before 1989–1990, as the data collected before that year is not directly comparable to the hospital episode statistics currently collected.

	Count of hip replacement operations	Count of knee replacement operations
1989–90	51,732	12,817
1990–91	51,276	14,464
1991–92	56,973	17,688
1992–93	59,033	20,404
1993–94	60,363	23,052
1994–95	65,158	26,125
1995–96	66,436	29,750
1996–97	64,507	27,150
1997–98	63,033	27,592
1998–99	70,101	32,761
1999–2000	70,672	33,750
2000–01	73,444	37,412
2001–02	72,788	39,132
2002–03	77,902	46,036

Source:
Hospital episode statistics (HES), Department of Health.

Medication Review Curriculum

Sandra Gidley: To ask the Secretary of State for Health what progress has been made towards developing a medication review curriculum for *(a)* providers of education and *(b)* those seeking training on medication reviews; and if he will make a statement. [168708]

Mr. Hutton: The Department is not responsible for setting curricula for health professional training; that is rightly the responsibility of the statutory and professional bodies. However, we do share a commitment with those bodies that all health professionals are trained so that they have the skills and knowledge to deliver a high quality health service to all groups of the population with whom they deal.

National Service Frameworks

Sandra Gidley: To ask the Secretary of State for Health what specific funding has been allocated for the implementation of each of the national service frameworks in each of the last three years. [168805]

Mr. Hutton: For 2002–03, there was limited earmarking of funds within health authorities' revenue allocations. The following sums formed part of the allocations with the intention that they were spent on the purpose for which they were included:

£76 million for cancer;

£60 million for CHD; and

£75 million for mental health.

For 2003–04 to 2005–06 there has been no earmarking of funds within primary care trust revenue allocations. None of the growth money has been identified for specific purposes.

Neurosurgical Consultants

Bob Spink: To ask the Secretary of State for Health how many neurosurgical consultants are expected to retire in each of the next five years. [167060]

Mr. Hutton: Analysis of recent past data suggests that if we take account of those leaving for career breaks and other reasons, as well as those leaving for retirement, a total of around 11 or 12 neurosurgical consultants leave each year. This is more than offset by the number of new joiners, rejoiners and those recruited through various recruitment and retention initiatives. We would not expect the number of leavers to change very much over time.

North Bristol NHS Trust

Mr. Webb: To ask the Secretary of State for Health how much has been lent by the NHS Bank to North Bristol NHS Trust in *(a)* 2002–03 and *(b)* 2003–04; and how much is expected to be lent in *(c)* 2004–05 and *(d)* 2005–06 and beyond; how much of this is expected to be repaid, and over what timescale; and if he will make a statement. [169014]

Ms Rosie Winterton *[holding answer 27 April 2004]:* Applications for NHS Bank assistance are made on behalf of national health service trusts by the managing strategic health authority (SHA). The North Bristol

trust received the following sums from the overall sums made available to Avon Gloucestershire and Wiltshire SHA area.

	£ million
2002–2003	0
2003–2004	18.1

Final decisions have not been made on the level of special assistance for the SHA, but they expect the North Bristol trust to receive £20 million in 2004–05. No decision has been made on funding for 2005–06.

Decisions on recovery of funds will be determined at a later stage and may well involve reductions to capital resources as well as or instead of revenue.

Patient Experience

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 7 April 2004, ref. 162425, on Patient Experience, if he will set out how the money for the Patient Experience project was spent. [167398]

Ms Rosie Winterton: The project sought the views of patients, the public and national health service staff to understand the key components of a positive patient experience.

The total cost of the patient experience project was £39,722.60. This figure can be broken down into the project fee and miscellaneous expenses, as shown in the tables.

	£
Project fee	36,190.00
Miscellaneous expenses	3,532.60
Total cost of project	39,722.60

These figures can be further broken down as follows:

	£
Project fee	
2 x 1 day workshops with patients (@ £8,000 each)	16,000
2 x groups with the public (@ £2,000 each)	4,000
2 x mini-groups with young people (@ £1,600 each)	3,200
3 x depth interviews with people with mental health problems (@ £600 each)	1,800
2 x groups with health practitioners (@ £2,500 each)	5,000
30 x on-street interviews with public	800
VAT (17.5 per cent. of £30,800)	5,390
Total Project Fee (excluding miscellaneous expenses)	36,190
Miscellaneous expenses	
Technical costs	1035.10
Accommodation and venue hire	1145.64
Travel expenses	825.58
VAT (17.5 per cent. of £3,007.32)	526.28
Total Miscellaneous Expenses (including VAT)	3532.60

Pension Schemes

Mr. Laurence Robertson: To ask the Secretary of State for Health pursuant to the answer of 2 March 2004, *Official Report*, column 865W, on pension schemes, how many people have *(a)* transferred their pensions into the NHS scheme and *(b)* been refused such transfers in each of the last five years for which figures are available; and if he will make a statement. [168047]

Mr. Hutton: The number of transfer payments accepted by the National Health Service Pension Scheme in England and Wales for each of the last five years is shown in the table. The NHS Pensions Agency does not record information about transfer applications that are rejected.

1 April to 31 March	*Transfer payments accepted*
2003–04	8,129
2002–03	8,223
2001–02	7,781
2000–01	7,591
1999–2000	8,382

HOME DEPARTMENT

Operation Artemis

Mr. Gray: To ask the Secretary of State for the Home Department, under (1) what authority police officers on Operation Artemis ask gamekeepers to sign a pledge supporting the Operation; and what penalty applies to any gamekeeper who refuses to do so; [167194]

(2) what precedent there is for members of the public being asked to sign a pledge in support of a police operation; [167195]

(3) what statutory basis there is for police officers on Operation Artemis to demand access to private land without a search warrant; [167196]

(4) what the cost is of Operation Artemis. [167198]

Ms Blears: Police officers have no legal authority to ask gamekeepers to sign a pledge supporting Operation Artemis. Police officers request that pledge but nobody is compelled to make it impracticable to visit each person to ask them to sign a pledge. Operation Artemis is innovative in that it has identified and seeks to raise awareness specifically amongst those who may have a motive for committing offences against Hen Harriers. Given the numbers of breeding birds the Police service considered it possible to visit many of those persons who may have a motive for criminal action. The purpose of such visits is to make people aware of the importance of complying with the criminal law and advising them individually that the Police would be embarking upon enforcement action against those who choose not to comply with the law and commit criminal offences. The request to sign up to Operation Artemis amounts to confirmation that such advice has been received.

Police officers have no power to demand access to private land. They have powers to enter such land without search warrants if they have reasonable suspicion that certain offences may have taken place or under other authorities to carry out operations such as surveillance.

The statutory basis allowing police officers on Operation Artemis in England and Wales to enter any land without a search warrant is Section 19 of the Wildlife and Countryside Act 1981.

The costs of Operation Artemis cannot be quantified as in the main they have been met from existing Police budgets utilising officers whose duties are to address wildlife crime .Costs relating to the production of literature and other media have been met from contributions made by the Home Office, Defra and the Statutory Nature Conservation Organisations. The Home Office has provided 3,500 for CCTV cameras at nesting sites.

International Terrorism

Mr. Robathan: To ask the Secretary of State for the Home Department what extra funding has been directed to individual constabularies to make contingency preparations, including training and extra manpower, for the possibility of terrorist attack; and to which constabularies such funding has been directed. [168046]

Ms Blears: We are unable to provide details of the allocation of counter terrorist funding for individual forces for security reasons. However the Police Service in England and Wales will receive a total of £84 million in 2004–05 for the purposes of countering the increased threat from international terrorism since September 2001.

Animal Experiments

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what provision is made to alleviate the suffering of animals in xenotransplantation experiments. [165852]

Caroline Flint: Xenotransplantation is the grafting, or transplantation, of cells, tissues or organs between species. It encompasses a wide range of techniques from the injection of cells to solid organ transplantation. As with all research licensed under the Animals (Scientific Procedures) Act 1986, suffering in xenotransplantation experiments is minimised by removing causes of pain and distress and implementing measures to detect and alleviate any suffering that is caused. In the case of surgical procedures this would include the use of appropriate analgesic and anaesthetic regimens and other forms of post-operative care.

Mr. Hancock: To ask the Secretary of State for the Home Department if he will make it his policy to commission an evaluation of the efficacy of animal experimentation. [167249]

Caroline Flint: The Government have no plans to do so.

Dr. Gibson: To ask the Secretary of State for the Home Department what assessment the Government have made of the level of harassment of suppliers and customers of businesses regulated under the Animals (Scientific Procedures) Act 1986. [167399]

Caroline Flint: From correspondence and meetings with victims of intimidation, we are well aware of the seriousness of animal rights extremism for the bioscience sector and for companies doing business with the sector. The Government have made it clear that intimidation and harassment of those going about their lawful business is totally unacceptable.

Asylum Seekers

Sir Archy Kirkwood: To ask the Secretary of State for the Home Department for what reasons the asylum appeals of *(a)* Fariborz Gravindi, *(b)* Mokhtar Haydary and *(c)* Faroq Haidari were dismissed; under what circumstances they would be allowed to remain in the UK; and what representations he has received on their cases. [163129]

Mr. Browne: All Home Office records relating to individuals are confidential. I am therefore not able to comment on individual cases. I have however written to the hon. Member.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what proportion of failed asylum seekers absconded in the last 12 months. [165835]

Mr. Browne: Information on the number or proportion of asylum applicants who have absconded is not available except by examination of individual case-files at disproportionate cost.

Some asylum seekers who have 'absconded' may have left the UK voluntarily; others may remain in the UK illegally. Applicants do not always inform the Immigration Service prior to leaving the UK. We are making improvements in the area of contact management as detailed in the White Paper: Secure Borders, Safe Haven: Integration with Diversity in Modern Britain, paragraph 4.42.

CCTV

Jim Dobbin: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Heywood and Middleton since 1997. [168536]

Ms Blears: Since 1997, the Home Office has provided £209,536 to Rochdale Metropolitan Borough Council, which includes the Heywood and Middleton constituency.

Allocation of that funding locally is a matter for Rochdale Metropolitan Borough Council and the Greater Manchester police. The information is not held centrally.

James Purnell: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV cameras in Stalybridge and Hyde since 1997. [168735]

Ms Blears: Since 1997, the Home Office has provided £337,000 to Tameside Metropolitan Borough Council, which includes the Stalybridge and Hyde constituency.

Allocation of that funding locally, is a matter for Tameside Metropolitan Borough Council and the Greater Manchester police. The information is not held centrally.

Drugs Misuse

Mr. Pike: To ask the Secretary of State for the Home Department what public funds were spent on tackling drugs misuse in Burnley in *(a)* 1997–98 and *(b)* 2003–04. [168318]

Caroline Flint: The amount spent on tackling drug misuse in Burnley in 1997–98 was £670,000. This was prior to the formation of the National Drugs Strategy, and this figure has been provided from locally held information.

Figures are not available for Burnley alone in 2003–04. The figures for Lancashire as a whole were:

	£
Pooled Treatment Budget	3,980,000
Young People	735,000
Building Safer Communities	1,147,000
DAT CAD	48,000
DAT Development	70,000
Through Care and Aftercare	35,000
Total	6,015,000

Please note that the Building Safer Communities figure is only partly spent on tackling drugs.

Jim Dobbin: To ask the Secretary of State for the Home Department what public funds were spent on tackling drugs misuse in Heywood and Middleton in *(a)* 1997–98 and *(b)* 2003–04. [168537]

Caroline Flint: Breakdown of financial allocation to local constituencies is not available in the form requested as funding is allocated to Drug Action Team (DAT) area (Rochdale DAT).

The period for 1997–98 is prior to the formation of the National Drug Strategy and there is no locally held information on funding available for that financial year.

The figures for Rochdale as a whole for 2003–04 are as follows:

	£
Pooled Treatment:	1,023,000
Young People (including CJIP)	241,000
Building Safer Communities	297,000
DAT CAD	31,000
DAT Development	37,000
CJIP Capacity Building	178,000
Throughcare and Aftercare	62,000
Total	1,869,000

Please note that the Building Safer Communities Fund is only partly spent on tackling drugs.

Linda Perham: To ask the Secretary of State for the Home Department how much was spent by the Government on crime reduction, protection and security in the London Borough of Redbridge since 1997. [164879]

Ms Blears: Money allocated to the London Borough of Redbridge for crime reduction through a number of funding streams and for a range of projects totals £2,267,311 over the period 2000–2004. Figures before 2000 are not readily available.

For protection and security, this information is not available in the form requested. However, the Metropolitan police did receive £47 million in 2003–04 for the purposes of enhancing its ability to respond to the threat posed by international terrorism.

Dangerous Driving

Tim Loughton: To ask the Secretary of State for the Home Department what plans he has to increase penalties for drivers who cause accidents *(a)* while banned from driving and *(b)* who do not have the required (i) insurance and (ii) MOT cover. [169068]

Caroline Flint: Where an accident appears to be the result of an offence, the driver will be prosecuted for the appropriate offence or offences committed. We have recently increased the maximum penalty for causing death offences to 14 years.

Charges in respect of driving while disqualified, with no insurance or with no MOT cover can be brought whether or not a driver has been involved in an accident. The maximum penalties are respectively six months' imprisonment or a fine at Level 5 on the standard scale, a fine at Level 5 and a fine at either Level 3 or Level 4 according to the number of passengers a vehicle is adapted to carry. We have no current plans to increase these maxima.

Mobile Phones

Tim Loughton: To ask the Secretary of State for the Home Department what resources he has devoted to enforcing new laws to combat driving while using mobile phones. [169027]

Caroline Flint: The new, specific, offence of using a hand-held phone while driving is intended to provide a simple, objective offence the enforcement and prosecution of which does not depend on judgments of degree of control or carelessness. The Association of Chief Police Officers have welcomed it as a straightforward method of dealing with this dangerous behaviour. The allocation of resources is a matter for individual chief officers and the police will enforce the offence as operationally appropriate.

NCIS

Mr. Brady: To ask the Secretary of State for the Home Department what representations he or his Department have had from *(a)* Greater Manchester police, *(b)* South Wales police and *(c)* the UK Immigration Service regarding their future working relationship with the National Criminal Intelligence Service or the Serious and Organised Crime Agency. [166601]

Ms Blears: None.

Serious Organised Crime Agency

Brian Cotter: To ask the Secretary of State for the Home Department what assessment he has made of the likely effects of the proposed new powers of the Serious and Organised Crime Agency on client confidentiality in relation to the work of tax advisers and accountants. [167513]

Ms Blears: We have invited comments on the proposals in the White Paper, One Step Ahead, A 21st Century Strategy to Defeat Organised Crime, by 30 July. We will consider those comments carefully before introducing any new powers.

Substance Abuse

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to his answers of 19 April, *Official Report*, column 116W, on substance abuse, what mechanisms he uses to gauge the level of misuse of volatile substances by young people. [168597]

Caroline Flint: Information on the use of volatile substances among young people aged 11–15 years is collected in an annual national survey of secondary schoolchildren commissioned by the Department of Health. "Drug use, smoking and drinking among young people in England in 2003" was based on 10,000 completed questionnaires from 321 schools in England. The survey showed eight per cent reported taking volatile substances in 2003, compared with six per cent in 2002 and seven per cent in 2001. The Home Office also produces its own statistics on general drug usage through its British Crime Survey. The last figures published were for the year 2002–2003.

Under-12s Concession

Dr. Cable: To ask the Secretary of State for the Home Department when the decision was made to withdraw the concession for under-12s to join a parent in the UK; and when the information was posted on the Immigration and Nationality Directorate website. [167969]

Mr. Browne: Following careful consideration, my predecessor, my right hon. Friend the Member for Stretford and Urmston (Beverley Hughes), decided on 13 March 2003 to withdraw the Under 12 Concession with effect from 29 March 2003.

The section of the Immigration and Nationality Directorate website relating to children was updated on 12 August 2003. However, a different section of the website relating to spouses and maintenance and accommodation was found to contain a reference to the concession only recently and was amended on 13 April 2004.

HOUSE OF COMMONS COMMISSION

Water Services

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what change in water consumption was achieved by the rationalisation of water services undertaken in 1999–2000 in *(a)* actual and *(b)* percentage terms. [169858]

Sir Archy Kirkwood: The rationalisation of water services was designed to improve water quality and meet required legal standards. It was not a consumption saving measure. There was therefore no change in water consumption as a result of this rationalisation.

LEADER OF THE HOUSE

Official Photographs

Bob Spink: To ask the Leader of the House if he will place in the Library the most recent set of official photographs taken in the House while it was sitting. [168878]

Sir Archy Kirkwood: I have been asked to reply.

I understand that Mr. Speaker will be considering this matter shortly.

TRADE AND INDUSTRY

Mobile Telephone Industry (Hacking)

Mr. Watson: To ask the Secretary of State for Trade and Industry what discussions she has had with the mobile telephone industry to reduce the vulnerability to hacking of Bluetooth-enabled telephones and wireless headsets. [169237]

Mr. Timms: DTI officials are in regular contact with mobile industry bodies and have raised this issue with them.

All Bluetooth devices adhere to the Bluetooth technical specification in order to ensure worldwide compatibility. Action to address the vulnerability of Bluetooth enabled devices to hacking would therefore need to be taken at the international level to be effective across all devices. However, not all Bluetooth devices are vulnerable to this security threat.

I understand that the industry is working both to address the vulnerability of all new devices (of the type affected) to hacking, and to tackle the present threat.

Civil Partnerships

Mr. Leigh: To ask the Secretary of State for Trade and Industry pursuant to the answer of 24 March 2004, *Official Report*, column 861W, on civil partnerships, whether legal rights and benefits to which married couples are entitled have not been included in the Civil Partnership Bill. [169142]

Ms Hewitt *[holding answer 28 April 2004]:* The purpose of the Civil Partnership Bill is to establish a new legal relationship for same-sex couples and to enable those couples who register as civil partners of each other to access many of the legal rights and responsibilities to which married couples are entitled. The Government have therefore aimed to provide parity of treatment for civil partners.

Departmental Entertainment

Mr. Laws: To ask the Secretary of State for Trade and Industry what her latest estimate is of the amount spent by her Department on official entertainment in each year from 1996–97 to 2004–05. [168998]

Ms Hewitt: The following table shows the expenditure on entertainment by the Department of Trade and Industry in each year between 1999–2000 and 2003–04.

	£000
1999–2000	887
2000–01	1,089
2001–02	1,165
2002–03	1,311
2003–04	1,110

Notes:
1. The expenditure represents less than 0.016 per cent. of the Department's total gross expenditure.

2. The Department expects expenditure for 2004-05 to be of a similar order.
3. Figures for earlier periods are not available on a consistent basis.

Post Office Closures

John Barrett: To ask the Secretary of State for Trade and Industry on how many occasions a decision to close a post office in Scotland as part of the urban reinvention programme was reversed following the six week consultation in the last five years. [169902]

Mr. Timms: Decisions on post office closures are an operational matter for Post Office Ltd. and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry if she will make electronically accessible the Royal Mail's estimates of delivery times for the Isle of Wight under the single delivery reforms, broken down by postcode. [169730]

Mr. Timms *[holding answer 29 April 2004]:* Delivery times are the operational concern of Royal Mail Group and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Renewable Energy

Llew Smith: To ask the Secretary of State for Trade and Industry what recent meetings *(a)* she and *(b)* the Minister for Energy have had with organisations concerned with development of the renewable energy industries. [167370]

Mr. Timms: Both my right hon. Friend the Secretary of State for Trade and Industry and I regularly meet with groups and organisations concerned with the development of the renewable energy industry. I have attended numerous events outside the Department for discussions about renewable energy. For example, on Monday I addressed the Investing in Renewable Energy Conference in the City of London.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Trade and Industry what steps she has taken to enhance science in her Department since the publication of the Government's science strategy, Investing in Innovation. [162244]

Ms Hewitt: DTI is responsible for the bulk of the public expenditure on science and technology research in UK universities, promotes the exploitation of science and engineering in business innovation and uses science to inform its own policies.

The Department will invest over £2.7 billion on university research and business innovation in 2004–2005. In the Budget, the Chancellor announced the Government's intention to establish a 10-year framework for science and innovation, which will be informed by a consultation document as part of the 2004 spending review. Our aim is to grow public investment in the science base faster than the trend rate of GDP growth over the next spending review period.

The Innovation Report, published in December 2003, sets out our strategy for refocusing DTI's support for business innovation by targeting our innovation investment into a limited number of fields of research, but ensuring that our intervention brings coherence to other support from the public and private sectors and makes a positive difference to outcomes in terms of business productivity and competitiveness.

TRANSPORT

Battersea Park Station

Martin Linton: To ask the Secretary of State for Transport what discussions he has had with Network Rail about improvements to Battersea Park Station. [168859]

Mr. McNulty: Network Rail and the Strategic Rail Authority continue to hold discussions on this issue and to update my officials on progress. I understand that Network Rail and Parkview International are currently in negotiations over a proposal that both parties hope will conclude in the near future, enabling the scheme to take place.

Departmental Events

Mr. Damian Green: To ask the Secretary of State for Transport if he will list the conferences and seminars that his Department organised between 1 September 2003 and 28 February 2004, detailing the cost of each. [166463]

Mr. McNulty: The Department communicates where appropriate with organisations through conferences and holds internal conferences and seminars in the course of normal management. The following table lists conferences and seminars organised by the central Department during the period.

Conference purpose	*Cost (£)*
Social inclusion issues	
Funding issues for community transport	900
Transport needs of minority ethnic and faith communities	30,000
Research into transport needs of disabled people	3,200
Road safety	
'Kerbcraft' child road safety seminar	2,500
Urban safety management	12,600
Railways	
'Rail matters' rail industry conference	14,300
Modernising customer services for drivers and vehicle operators	
Four commercial operator workshops	30,000
Three one-stop service planning workshops	14,000
Financial management	
Internal audit seminar	12,000
Audit annual conference	9,500
Workshop on improving financial management	5,400
Regional transport	
Policy seminar	1,500
Communication	
Workshop on improving communication	12,500

Conference purpose	Cost (£)
Departmental management	
Two senior management group workshops	10,125
Information technology	
IT User Group seminar	5,230
Transport security	
Six roadshows on ship and port security	995
Science	
Two chief scientists' seminars	2,300
Hydrogen and biofuels seminar	1,230
Logistics and Maritime Transport	
Norduck Conference (Scandinavian and UK Transport Ministers and Trade Associations)	3,035
Ports and the Environment Conference	5,000

Railway Improvements (Burnley)

Mr. Pike: To ask the Secretary of State for Transport what assessment he has made of the likely effects of investment in railway improvements over the next 10 years upon residents of Burnley. [167885]

Mr. McNulty: Residents of Burnley will benefit from the new TransPennine Express franchise, which commenced in February. The franchise secures investment of around £260 million which will include the introduction of a new fleet of 100 mph diesel trains leading to increased capacity, improved service quality and performance across the region. A new northern franchise, which will include local and regional services through Burnley, is out for tender. Work continues on the West Coast Main Line upgrade, which will see a reduction in journey times on services to and from Manchester and Preston and an increase in service frequency.

Transport Infrastructure

Jim Dobbin: To ask the Secretary of State for Transport if he will make a statement on the effect of investment in railway improvements over the next 10 years upon residents of Heywood and Middleton. [168550]

Mr. McNulty: A new northern franchise, which will include local and regional services directly serving Heywood and Middleton, is out for tender. Residents of Heywood and Middleton will benefit from the new TransPennine Express franchise, which commenced in February, serving the main towns and cities across the north. The franchise secures investment of around £260 million which will include the introduction of a new fleet of 100 mph diesel trains leading to increased capacity, improved service quality and performance across the region. Work continues on the West Coast Main Line upgrade, which will see a reduction in journey times on services to and from Manchester and Preston and an increase in service frequency.

James Purnell: To ask the Secretary of State for Transport if he will make a statement on the effect of investment in railway improvements over the next 10 years upon residents of Stalybridge and Hyde. [168732]

Mr. McNulty: Residents of Stalybridge and Hyde will benefit from the new TransPennine Express franchise, which commenced in February. The franchise secures investment of around £260 million which will include the introduction of a new fleet of 100 mph diesel trains leading to increased capacity, improved service quality and performance across the region. A new northern franchise, which will include local and regional services through the constituency, is out for tender. Work continues on the West Coast Main Line upgrade, which will see a reduction in journey times on services to and from Manchester and Preston and an increase in service frequency.

TREASURY

Connexions

Charles Hendry: To ask the Chancellor of the Exchequer, (1) what *(a)* discussions and *(b)* correspondence he has had with the Secretary of State for Education and Skills concerning the written encouragement issued by the Department for Education and Skills to Connexions partnerships to improve their tax efficiency; [169976]

(2) whether Connexions Service private contractors are able to reclaim VAT. [169980]

John Healey: HM Customs and Excise have clarified the VAT rules with DfES and Connexions. It is a matter for the DfES how funding for the Connexions programme is allocated, and a matter for individual connexions partnerships how they organise their VAT affairs.

Private contractors subcontracted to provide services to a Connexions partnership must charge VAT, and this means that under the normal rules they are also entitled to recover the VAT, they pay on the items they purchase.

Limited companies established by Connexions partnerships to deliver Connexions services are not carrying out any business activity and therefore do not charge VAT and are unable to recover any VAT they incur.

Local authorities tasked with delivering Connexions services will normally be able to recover any VAT they incur under section 33 of the VAT Act 1994, as they do for other services they deliver.

Council Tax (Pensioners)

Mr. George Osborne: To ask the Chancellor of the Exchequer what mechanism will be used to deliver the £100 council tax payment to pensioners aged over 70 years announced in the 2004 Budget; and when it will be paid. [168992]

Malcolm Wicks: I have been asked to reply.

The intention is for the payments to be made automatically with the 2004–05 winter fuel payment, to those who are eligible and who do not need to claim it, before the end of the year. People who do not get a winter fuel payment will need to claim the one-off payment from the Department for Work and Pensions before 31 March 2005.

Gender Equality Directive

Malcolm Bruce: To ask the Chancellor of the Exchequer what assessment he has made of the *(a)* financial and *(b)* regulatory impact to (i) consumers and (ii) business of the Gender Equality Directive with regard to risk-based pricing in relation to gender; and if he will make a statement on the Government's policy on this issue. [169808]

Ruth Kelly: The Government have welcomed the development of European sex discrimination legislation through an Equal Treatment Directive but are concerned about the impacts, both on consumers and on the insurance industry, of the measures aimed at actuarial pricing of insurance and related financial services. The UK will continue to negotiate constructively to achieve a final agreement that reflects UK priorities and concerns.

VAT (Learning and Skills Council)

Charles Hendry: To ask the Chancellor of the Exchequer on which transactions and activities relating to the provision of services the Learning and Skills Council is entitled to reclaim VAT costs. [169974]

John Healey: Under the normal VAT rules, VAT registered organisations can recover any tax they incur on purchases which relate to their taxable business activities.

HM Customs and Excise is debarred by statute from disclosing information about the affairs of individual taxpayers. Exemption 15 (Statutory and other restrictions) of the Open Government Code applies.

WORK AND PENSIONS

Age-Related Payments Bill

Mr. Webb: To ask the Secretary of State for Work and Pensions under what circumstances he expects to use the powers in the Age-Related Payments Bill to make payments to pensioners under the age of 70. [169241]

Malcolm Wicks: The affirmative regulation making power allows for ad-hoc payments to pensioners and the circumstances for the making of such payments will be determined at the time. If such regulations are made they will be debated in Parliament and subject to the approval of both Houses.

Council Tax

John Barrett: To ask the Secretary of State for Work and Pensions how many people aged over 70 years are in receipt of council tax benefit in Scotland, broken down by *(a)* local authority area and *(b)* parliamentary constituency. [167821]

Mr. Pond: The information is not available in the format requested.

The number of council tax benefit recipients aged over 70 in Scotland at May 2002 is 179,000.

Notes:

1. The data refers to benefit units, which may be a single person or couple.
2. The figure is rounded to the nearest thousand.
3. Council tax benefit data excludes second adult rebate cases.
4. The figure refers to cases where the claimant and/or partner are aged over 70.
5. The figure is based on a 1 per cent. sample and therefore subject to a degree of sampling variation.

Source:

Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2002.

External Consultants

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his answer of 22 April 2004, *Official Report*, column 666W, on external consultants, what the cost of the external consultants for each of the projects listed was. [170105]

Jane Kennedy: The information requested is not held centrally and could be provided only at disproportionate cost.

National Insurance Rebates

Mr. Webb: To ask the Secretary of State for Work and Pensions what his latest estimate is of expenditure on national insurance rebates for those who are contracted out of the state second pension *(a)* in 2006–07 and *(b)* for each of the next 10 financial years. [167280]

Malcolm Wicks: The information is in the table:

Tax year	*Estimated rebate cost (£ billion)*
2006–07	12.7
2007–08	12.2
2008–09	12.5
2009–10	12.8
2010–11	13.1
2011–12	13.5
2012–13	13.5
2013–14	13.8
2014–15	14.2
2015–16	14.6
2016–17	15.0

Note:

Figures are based on the assumptions used to determine the current national insurance rebates and those for the long-term Public Expenditure Survey undertaken in February 2004.

Source:

Government Actuary's Department

Nursing Home Residents (Benefits)

Mr. Gray: To ask the Secretary of State for Work and Pensions how many claimants for winter fuel payments were disallowed because of late application in *(a)* 2001–02 and *(b)* 2002–03. [167298]

Malcolm Wicks: The number of winter fuel payment claims disallowed because of a late application is in the table.

Year	*Late claim disallowances made*
2001–02	10,308 in respect of winter 2000–01
2002–03	1,745 in respect of winter 2000–01
	4,564 in respect of winter 2001–02
2003–04	1,760 in respect of winter 2000–01
	2,204 in respect of winter 2001–02
	3,948 in respect of winter 2002–03

Mr. Gray: To ask the Secretary of State for Work and Pensions for what reasons Mr. G. Mack of Bradenstoke, Chippenham, Wiltshire had his winter fuel payment disallowed in *(a)* 2001–02 and *(b)* 2002–03. [167299]

Malcolm Wicks: I will write privately to the hon. Member clarifying matters in respect of Mr. Mack. This is in line with paragraph 12, part 2, of the code of practice on Access to Government Information.

Mr. Gray: To ask the Secretary of State for Work and Pensions by what mechanism a pensioner is informed of eligibility for winter fuel payment where, through clerical error, their details do not appear on the Electoral Register. [167300]

Malcolm Wicks: Most payments are made automatically without the need to claim. Every effort is made to try and contact those who are newly eligible, however there will be some where sufficient details are not held. For those people who do need to make a claim an extensive publicity campaign is carried out. This begins three months before the qualifying week in September and continues to the end of March. The campaign includes: advertisements in national and local press; a leaflet and poster made available in a variety of venues, a dedicated winter fuel payment helpline and information on the internet.

Where a person needs to claim it is up to them whether they do so. They have until 30 March to make a claim.

Mr. Kaufman: To ask the Secretary of State for Work and Pensions how many senior citizens in Manchester, Gorton have benefited from the winter fuel allowance since 1997. [167343]

Malcolm Wicks: The number of senior citizens in the Manchester, Gorton constituency who have received a winter fuel payment in each year since 1999–2000 (including provisional figures for 2003–04) is in the table. Information relating to the 1997–98 and 1998–99 winters is not available.

	Payments made
1999–2000	10,370
2000–01	11,000
2001–02	10,870
2002–03	10,820
2003–04	10,625

Notes:
1. Numbers are rounded to the nearest 5.
2. Please note that the figures for 2003–04 refer only to the main payment run, i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claims had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

Source:
IAD Information Centre, 100 per cent. samples.

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many pensioners in a residential or nursing home have been ineligible for the winter fuel payment in each year since its introduction. [168160]

Malcolm Wicks: We estimate in the year 2002–03 about 16,450 people in residential or nursing homes in Great Britain were ineligible for a Winter Fuel Payment because they were receiving Income Support or income based Jobseekers Allowance. The figures for winter 2003–04 are not yet available but we would expect the numbers to be similar. Figures are not available for earlier years.

Note:
Any residence where there are four or more residents aged 60 or over is assumed to be a Registered Care and Nursing Home.

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many pensioners in a residential nursing home have been in receipt of the minimum income guarantee and pension credit in each year since 1997. [168161]

Malcolm Wicks: Information on the number of pensioners in a nursing home and residential care who were or are in receipt of minimum income guarantee (MIG) or pension credit from November 1997 to November 2003 is shown in tables 1, 2 and 3. The figures are affected by changes made to Residential Care/ Nursing Home funding arrangements in 2002 and 2003.

Table 1: Income support recipients aged 60 and over in nursing homes and residential care, November 1997 to November 2001

Thousand

		Preserved rights			
As at November	*All*	*Residential allowance*	*Residential care*	*Nursing home*	*Part III accommodation*
1997	239.5	152.7	44.8	35.3	6.7
1998	230.6	160.9	36.0	27.3	6.4
1999	225.9	169.5	30.1	20.3	6.1
2000	218.4	171.8	25.3	16.0	5.3
2001	214.8	175.2	21.7	12.8	5.1

Table 2: Income support recipients aged 60 and over in nursing homes and residential care, November 2002

Thousand

	All	*Residential allowance*	*Part III accommodation*	*Others in nursing homes and residential care*
November 2002	186.8	132.8	3.9	40.1

Table 3: Pension credit recipients in nursing homes and residential care, November 2003

Thousand

	Number of recipients
November 2003	157.4

Notes:

1. Figures have been rounded to the nearest hundred and expressed in thousands.
2. Figures are based on a 5 per cent. sample and are subject to a degree of sampling variation.
3. 'Recipients aged 60 and over' are defined as where the recipient and/or partner is aged 60 or over. Figures therefore include a number of recipients aged under 60 where there is a partner aged 60 or over.
4. 'Part III accommodation' was accommodation provided by the local authority under Part III of the National Assistance Act 1948.
5. There are no separate counts available for Residential Care and Nursing Homes after the abolition of preserved rights in April 2002.
6. Pension Credit was introduced on 6 October 2003 and replaced Minimum Income Guarantee for Income Support pensioners.
7. The number of Pension Credit recipients in November 2003 excludes a small number of cases still receiving Income Support.

Pension Credit

Paul Flynn: To ask the Secretary of State for Work and Pensions what comparison has been made in take up rates for pension credit between rural and urban areas; and what causes he ascribes to the lower rate of increase in claims for pension credit in inner city areas in comparison to other areas. [166884]

Malcolm Wicks: It is not possible to provide detailed comparisons of levels of pension credit take-up between rural and urban areas, since estimates of numbers of households eligible for pension credit are not available at any level below that of Government office region. However, the information in the table shows the level of increase in numbers of households receiving pension credit as at 31 March 2004 over numbers receiving the minimum income guarantee (MIG) as at 3 October 2003, for local authorities classified as either 'rural' or 'not rural'. This suggests that overall rates of increase in 'not rural' areas are in general lower than in their rural counterparts. Overall, there has been an increase of 31 per cent. in the number of households receiving pension credit over those receiving MIG and an increase of 37 per cent. in the area including Newport, West.

More detailed analysis of pension credit take-up levels is being carried out.

Comparison of rate of increase between rural and not rural MIG and pension credit household levels as at 31 March 2004

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will publish the results of the pilot exercise for combined pension forecasts carried out with certain employers and pension providers according to "A New Contract for Welfare: Partnership in Pensions", page 90; what steps his Department has taken towards a national roll out of these exercises; and if he will make a statement. [166249]

Malcolm Wicks: The Combined Pensions Forecasting service, an initiative jointly pursued by the Department for Work and Pensions and the pensions industry with the support of the Association of British Insurers and National Association of Pension Funds, was introduced following a series of pilot exercises with representatives from the private sector.

The pilot evaluation was carried out on a confidential basis with employers and pension providers. However, a summary of the results was included in "Simplicity, security and choice: Working and saving for retirement" (pages 43–45. Command 5677) published in December 2002.

We are currently conducting further research into the combined pension forecast service with results due to be published in the summer of this year.

Following the pilots, the combined pension forecasting service went live in October 2001. By the end of March 2004, a total of 1.12 million Combined Pension Forecasts had been issued. To date over 700 employers and pension providers have expressed an interest in participating in the service. By the end of 2005–06 we aim to have reached 6.3 million people.

Mr. Miller: To ask the Secretary of State for Work and Pensions what progress he has made in identifying pension funds that have gone into wind-up with inadequate funds to meet their liabilities since Royal Assent to the Pensions Act 1996. [168862]

Malcolm Wicks: Information is not available on all the pension schemes which have gone into wind up with inadequate funds since Royal Assent to the Pensions Act 1995. We are currently exploring with pension scheme trustees and other industry representatives the basis on which we can establish firm estimates of the extent of the problem of defined benefit schemes winding-up under funded, the numbers affected and the potential scale of losses.

Mr. Willetts: To ask the Secretary of State for Work and Pensions whether local authorities will be liable for the pension protection fund levy. [168164]

Malcolm Wicks: Local authority defined benefit pension schemes will not be liable for the pension protection fund levy as they will never have recourse to PPF assistance. This is because the sponsoring employers of local government pension schemes can never become insolvent.

Mr. Webb: To ask the Secretary of State for Work and Pensions how many full-time equivalent Pension Protection Fund staff he expects to employ; and if he will make a statement. [168987]

Malcolm Wicks: The way in which the PPF is organised and the staffing requirements which will flow from that organisational design will ultimately be a decision for the PPF Board. However we are having to make a number of planning assumptions in order to ensure that the PPF is operational by Spring next year. Our current working assumption is to have a core staff of between 100 and 150 full time equivalent people in place for spring 2005.

The PPF is a major new reform, and we will ensure that we continue to engage thoroughly with all our partners to get it right.

Chris Grayling: To ask the Secretary of State for Work and Pensions what his policy is on the rights of individuals to continue to work *(a)* part-time and *(b)* full-time after retirement; and what rules apply to pension provision in such circumstances. [166885]

Malcolm Wicks: Giving people the choice to work up to and beyond State Pension age is critical to ensure the economic prosperity of our society in terms of both work and pensions. Individuals must have the choice and opportunity to work, either full or part time, and save longer towards a financially secure retirement. Flexible working and retirement options can be

especially important for individuals who have had interrupted working lives, or have on-going caring responsibilities to balance alongside their work.

In 'Simplicity, security and choice: Working and saving for retirement' (December 2002) we set out our proposals to help individuals continue in full time or part time work longer. These included extra back to work help for those over 50, more generous incentives for deferring state pensions, tax rule changes to allow people to draw their occupational pension while continuing to work for the same employer and encouraging occupational pensions to support flexible retirement.

The Finance Bill will introduce a simplified pension regime which increases choice and flexibility for both companies operating pension schemes and individuals saving in such schemes. The Finance Bill will mean that it will no longer be necessary for an individual to leave employment in order to access an employer's occupational pension. The tax rules will no longer dictate that an individual cannot receive their pension and continue to work for that same employer. This increased flexibility will enable people to move from full-time to part-time work and help to make the transition from work to retirement a more smooth and gradual process.

In this year's Budget we also announced a new high profile national guidance campaign to raise employers' awareness of, and ability to adopt, flexible employment and retirement opportunities in order to increase the recruitment, training and retention of older workers.

Mr. Willetts: To ask the Secretary of State for Work and Pensions pursuant to the answer of 25 March 2004, *Official Report*, column 1030W, on pensions, if he will list the gross costs of the proposal referred to in footnote two and each of the offsets identified in footnotes three to six. [168170]

Malcolm Wicks: The information is not available in the format requested. Such information as is available is in the table:

£ billion

	Gross cost	*Income-related benefits saving*	*State second pension saving*	*Savings credit saving*
2004–05	17.1	2.9	0.0	0.4
2005–06	17.8	3.0	0.0	0.4
2006–07	18.8	3.1	0.1	0.5
2007–08	20.0	3.2	0.1	0.6
2008–09	21.3	3.4	0.2	0.6

Notes:

1. Figures are for Great Britain in 2003–04 price terms rounded to the nearest £100 million. It is assumed the change comes into effect from April 2004 and basic State Pension is uprated in line with earnings thereafter.
2. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002 based population projections. Gross costs refer to the additional costs after allowing for National Insurance Fund benefits and non-means tested vote benefits.
3. Income-related benefit offsets are calculated using the DWP policy simulation model and April 2004 benefit rates.
4. Additional income tax revenue is estimated by the Inland Revenue using 2004 tax rates. We are unable to publish any income tax forecast estimates for years beyond that which is published in the Financial Statement and Budget Report (currently 2006–07). The income tax estimates for 2004–05 to 2006–07 are based on the 2001–02 Survey of Personal Incomes and are projected in line with March 2004 Budget assumptions. The income tax revenue in 2004–05 is £4.6 billion, for 2005–06 is £4.9 billion and for 2006–07 is £5.2 billion, for illustrative purposes, it is assumed income tax revenue will be a fixed percentage of the gross cost for this option in 2007–08 and 2008–09 although estimates for later years would be subject to a greater degree of uncertainty.
5. The savings from abolishing the State Second Pension are calculated by the Government Actuary's Department and are consistent with the long term Public Expenditure Survey forecasts. No allowance has been made for changes to contracting out rules.
6. The savings credit is assumed to be frozen, payments uprated by prices, with no new recipients after 2004. Figures for 2004 and 2005 are based on published medium term forecasts, while those for 2006–07 and beyond are based on the illustrative long-term projections of benefit expenditure underlying Annex A of the Budget report. This is a separate saving from the offsets in income related benefits outlined in note 3.
7. Totals may not sum due to rounding.

Mr. Simmonds: To ask the Secretary of State for Work and Pensions how many people under 30 have taken out a stakeholder pension. [167878]

Malcolm Wicks: Information for the 2001–02 tax year is shown in the table.

Information for the 2002–03 tax year will be available from autumn 2004.

Tax year	*Number of people aged under 30 with a stakeholder pension*
2001–02	230,000

Notes:

1. Information is derived from a sample of annual returns of information submitted to the Inland Revenue by stakeholder pension providers.
2. Figure rounded to the nearest 10,000.

Sure Start

James Purnell: To ask the Secretary of State for Work and Pensions how many mothers in Stalybridge and Hyde have made use of the Sure Start maternity grant. [168739]

Mr. Pond: The information is not available in the format requested. The available information is in the tables.

Sure Start Maternity Grants

	Applications	*Awards*
Tameside Social Fund District		
2000–01	1,122	855
2001–02	1,306	1,063
2002[1] to December	1,069	867
Sure Start Maternity Grants in Stockport and Tameside Jobcentre Plus District		
2003[2]	674	502
2003–04	2,840	2,071

[1] To December.
[2] January to March.

Notes:

1. Data is not available by Parliamentary Constituency. Stalybridge and Hyde Parliamentary Constituency used to be part of Tameside Social Fund District. This District was involved in a very complex interlocking set of boundary changes affecting an area from North Cumbria to Norfolk, which took place from

September 2002 to June 2003. Tameside District was combined with part of Stockport interim District in January 2003 to form Stockport and Tameside Jobcentre Plus District. The two areas for which data is given above are thus different, so the data is not comparable

2. Sure Start Maternity Grants were introduced on 27 March 2000. The very small number of cases for 1999–2000 has been excluded for data protection reasons.

3. Data is given for all applications and awards, irrespective of whether the application was made by the mother or her partner.

Winter Fuel Allowance

Mr. Pike: To ask the Secretary of State for Work and Pensions how many senior citizens in Burnley have benefited from the winter fuel allowance since 1997. [167887]

Malcolm Wicks: The number of senior citizens in the Burnley constituency who have benefited from a winter fuel payment in each year since 1999–2000 (including provisional figures for 2003–04) is in the table. Information relating to the 1997–98 and 1998–99 winters is not available.

	Payments made
1999–2000	14,985
2000–01	16,490
2001–02	16,620
2002–03	16,745
2003–04	16,800

Notes:

1. Numbers are rounded to the nearest 5.

2. Totals may not sum due to rounding.

3. Please note that the figures for 2003–04 refer only to the main payment run, i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

IAD Information Centre, 100 per cent. samples.

Jim Dobbin: To ask the Secretary of State for Work and Pensions how many senior citizens in Heywood and Middleton have benefited from the winter fuel allowance since 1997. [168545]

Malcolm Wicks: The number of senior citizens in the Heywood and Middleton constituency who benefited from a winter fuel payment in each year since 1999–2000 (including provisional figures for 2003–2004) is in the table. Information relating to the 1997–98 and 1998–99 winters is not available.

	Payments made
1999–2000	16,630
2000–01	18,255
2001–02	18,275
2002–03	18,375
2003–04	18,400

Notes:

1. Numbers are rounded to the nearest 5.

2. Please note that the figures for 2003–2004 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

Source:

IAD Information Centre, 100 per cent. samples.

Mr. Kilfoyle: To ask the Secretary of State for Work and Pensions how many pensioners received the winter fuel allowance in Liverpool, Walton in each year between 1997 and 2003. [166974]

Malcolm Wicks: The number of pensioners in the Liverpool Walton constituency who received a winter fuel payment in each year since 1999–2000 (including provisional figures for 2003–04) is in the table. Information relating to the 1997–98 and 1998–99 winters is not available.

	Payments made
1999–2000	14,420
2000–01	15,495
2001–02	15,300
2002–03	15,370
2003–04	15,160

Notes:

1. Numbers are rounded to the nearest five.

2. Please note that the figures for 2003–04 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

Written Answers to Questions

Tuesday 4 May 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

Mr. Hood: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the Agriculture and Fisheries Council on 21 April; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [168714]

Mr. Bradshaw: My right hon. Friend, the Secretary of State and I represented the United Kingdom at a meeting of the Agriculture and Fisheries Council in Luxembourg on 21–22 April 2004.

The Council concluded its consideration of proposals to reform four CAP regimes: those for cotton, olive oil, tobacco and hops. Agreement on all four was eventually reached by qualified majority. This was a difficult negotiation but the outcome is highly satisfactory from a UK point of view. Overall, the agreement followed the main principles of last June's reforms with decoupling in hops from 2005 (with the option to delay this until 2006) and partial decoupling in the other three sectors from 2006. The rates vary but that for cotton is 65 per cent., a small increase over the 60 per cent. originally proposed; and in the case of tobacco, the rate will be 100 per cent. in 2010 and thereafter. Although the UK would have supported higher rates in all sectors and an earlier move to full decoupling, this agreement sends positive signals to our trading partners by marking a further step towards a more liberalised and market focused agriculture in the EU.

Animal Transport

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what position the Government is taking on the proposal by the Irish Government on new animal transport regulation. [169650]

Mr. Bradshaw: *[holding answer 30 April 2004]:* At the Agriculture and Fisheries Council on 26 April the UK sought shorter journey times, more space for animals during transport and better ventilation. Unfortunately, in this area which we see as vital to ensuring improved welfare, the gap between countries was too great to be bridged.

As a result the proposal, which would have improved animal welfare in many areas, has been effectively withdrawn from discussion for the foreseeable future.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to improve the welfare of animals exported from the UK; and if she will make a statement. [167237]

Mr. Bradshaw: The Government are committed to improving welfare across the EU and was disappointed and frustrated by EU Ministers' failure on 26 April to agree a new regulation on the welfare of animals during transport. The UK, consulting farming, horse and welfare interests, had worked hard to improve the draft proposals but unfortunately it is clear that there are no plans to return to them in the foreseeable future. We will continue to ensure that animals that leave the UK are transported in full accordance with the law. We shall also take every opportunity to press the European Commission and other member states to ensure that the current rules are strictly enforced throughout the expanded EU.

Bovine TB

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on progress made towards the introduction of a vaccine for bovine TB. [169652]

Mr. Bradshaw *[holding answer 30 April 2004]:* The timetable for producing an effective vaccine against bovine tuberculosis remains broadly in line with that set out in the Krebs Report 1997.

In January 2002, the Independent Scientific Group on Cattle TB set up a Vaccine Scoping Study Sub-Committee (VSSSC) to advise Defra Ministers on whether a TB vaccination strategy for either cattle or wildlife would be feasible. The VSSSC reported to Ministers in July 2003 (published December 2003). This advised on research requirements, but cautioned that a vaccine (for cattle or badgers) remains a long-term policy option. Many obstacles still have to be overcome.

An Inter-Departmental Vaccine Steering Group is working to identify administrative and legal procedures to allow a potential vaccine to be authorised for use. The work of VSSSC will be carried forward by a new Vaccine Programme Advisory Group which is chaired by the Defra TB Vaccine Programme Adviser, Professor Douglas Young.

Defra spent over £1 million on bovine TB vaccine research in the financial years 2002–03 and 2003–04, and expect to spend over £1 million this year.

Countryside Agency

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the change in her Department's grant-in-aid budget to the Countryside Agency. [168802]

Alun Michael: In 2004–05 the Countryside Agency has a grant-in-aid budget of £95 million. In addition to the baseline of £90.5 million, £2.5 million is available for work specifically on modernising rural delivery, following the recommendations of the Rural Delivery Review led by Lord Haskins. A further £2.0 million is available for work under a new access management scheme, which will help local authorities to implement measures to make the most of new rights of access to the countryside.

The total for 2004–05 compares with a growth from £49.0 million in 1999–2000, £52.6 million in 2000–01, £90.8 million in 2001–02, £98.7 million in 2002–03 and a planned £100.0 million in 2003–04.

In addition the Countryside Agency receives resources from the Aggregates Levy Sustainability Fund and funding from the National Lottery and others which amounts to some further £15 million.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the likely effect of the change in her Department's grant-in-aid budget to the Countryside Agency on the *(a)* Agency and *(b)* Vital Villages Campaign. [168803]

Alun Michael: The main part of the Countryside Agency's budget for 2004–05 will be directed towards its strategic priorities, which include demonstrating ways of boosting essential rural services, building thriving communities, managing the countryside in a sustainable way and improving recreation and access in the countryside. The grant-in-aid budget for 2004–05 compares with a growth from £49.0 million in 1999–2000, £52.6 million in 2000–01, £90.8 million in 2001–02, £98.7 million in 2002–03 and a planned £100.0 million in 2003–04. The Agency will be able to continue to make a substantial contribution towards Defra's work for sustainable development in rural areas and deliver on key objectives including:

supporting Rural Transport Partnership officers

funding the second and third years of existing Rural Transport projects

supporting Rural Housing Enablers to secure affordable homes

continuing the core funding for rural community councils and supporting the community development workers

helping all rural communities benefit from funds committed to communities through the Vital Villages grant schemes

maintaining total Areas of Outstanding Natural Beauty funding at 2003–04 levels.

Some £14.2 million will be spent in 2004–05 in supporting the Vital Villages programme, although the Countryside Agency has announced the closure of the grant schemes to new applicants. The Agency is targeting its resources on meeting all existing grant commitments under the programme and helping communities benefit from the funds already committed to them. It will also work to share the lessons learnt with regional and local delivery bodies.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs who will now fund projects previously funded by the Vital Villages Campaign. [168804]

Alun Michael: Although the Countryside Agency has announced the closure of the grant schemes to new applicants, the Agency will meet all existing grant commitments under the Vital Villages programme which was established as a three-year pilot programme to test out new approaches to rural areas. Work is under way on how we can share the lessons learnt from the programme with regional and local delivery bodies to target support for rural communities that need help through mainstream programmes.

Environmental Protection

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs when and where she announced the decision to abolish funding for the are you doing your bit campaign. [168806]

Mr. Morley: In 2001–02 following the creation of Defra, most of the campaign's planned funding had to be re-allocated to rural support during the foot and mouth disease outbreak, although some activities continued.

Defra's wider focus on sustainable development issues, and continued pressure on resources, led to the closure of the campaign in 2003, although no formal announcement was made at this time.

Detailed consideration is being given to the options for future communications activity in this area. Thinking will be informed by the current sustainable development consultation, 'Taking it on', launched 21 April 2004.

EU Accession

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has made to *(a)* the European Commission and *(b)* her counterparts in the EU accession countries on the ability of those countries to meet EU (i) animal slaughter and (ii) food hygiene regulations by 1 May. [167321]

Alun Michael: The Secretary of State and her ministerial team have used every opportunity to stress to the European Commission and to the Secretary of State's counterparts in the EU Accession Countries the importance of complying with the EU *acquis communautaire* (the rules and regulations laid down by the European Union), and in particular the veterinary and phytosanitary *acquis* which covers areas such as food hygiene and animal slaughter. Over the last year, ministerial teams have met with colleagues from the Czech Republic, Hungary, Malta, Poland and Slovakia. The UK has also been offering practical help, for example via the Commission's Food and Veterinary Office (FVO).

All New member states have undertaken to meet the EU *acquis communautaire* in these areas. Some Transition Periods have been granted—as has been the case for all previous Accessions—and will begin on the 1 May, on the basis that they are time-limited.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what timetable has been set to ensure that EU accession countries fully comply with EU *(a)* slaughter, *(b)* food production, *(c)* processing, *(d)* labelling, *(e)* traceability, *(f)* hygiene and *(g)* food safety regulations and standards. [167323]

Alun Michael: All the new member states have agreed to comply with the *acquis communautaire* (the rules and regulations laid down by the European Union) by the

1 May 2004 and bring their national rules fully into line with the EU's food and veterinary laws (chapters 1 and 7 of the Accession negotiations), except where they have been granted Transition Periods. The new member states' Accession Treaty, signed in April 2003, granted Transition Periods of up to three years for animal by-product establishments and agri-food establishments. These have recently been refined with both some deletions and short-term additions (3–12 months).

Some Transition Periods are inevitable, and have been a feature of every Accession, including our own. They permit Accession to take place on a specific date and are exceptional, time-limited, and tightly controlled and monitored by both national authorities in the countries concerned and by the European Commission. Transition premises have to be named and listed; all must be 100 per cent. EU compliant by the end of 2007 at the latest. There are currently a total of 1006 Transition Periods for the 10 Accession countries. Crucially, products from transition establishments cannot enter the Single Market.

Farming

Jim Dobbin: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on farm income levels for farmers in Heywood and Middleton in the past five years. [168435]

Alun Michael: Due to the small number of farms in Heywood and Middleton, there is no robust data available on farm incomes for farmers in that area over the last five years. Net farm income for farms in the EU North Region and for England over the last five years are show in the table.

Net farm income

	EU North Region	*England*
1998–99	8,272	10,359
1999–2000	8,659	7,981
2000–01	12,456	9,886
2000–02	16,457	13,558
2002–03	18,512	16,435

Source:
Farm Business Survey

Net farm income is the return to the principal farmer and spouse for their manual and managerial labour and to the tenant-type capital of the business.

Mr. Pike: To ask the Secretary of State for Environment, Food and Rural Affairs what the average level of farm income for farmers in Burnley was in the past five years. [168303]

Alun Michael: Due to the small number of farms in Burnley, there is no robust data available on farm incomes for farmers in that area over the last five years. Net farm income for farms in the EU North Region and for England over the last five years are show in the following table.

Net farm income

	EU North Region	*England*
1998–99	8,272	10,359
1999–2000	8,659	7,981
2000–01	12,456	9,886
2001–02	16,457	13,558
2002–03	18,512	16,435

Source:
Farm Business Survey

Net farm income is the return to the principal farmer and spouse for their manual and managerial labour and to the tenant-type capital of the business.

Harmful Chemicals

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has *(a)* commissioned and *(b)* evaluated on the effect on (i) wildlife and (ii) the environment of exposure to harmful chemicals. [168563]

Alun Michael: The Department has commissioned and evaluated significant research programmes on the effect of harmful chemicals on wildlife and the environment. Some of them have focused on specific chemicals such as pesticides; groups of chemicals with similar effects such as endocrine disrupters; or targeted environmental media such as air, water, soil etc. The Department also funds research into the possible impacts on the environment of using veterinary medicines on animals and fish. The results of Defra funded research are published in the peer-reviewed scientific press and most can be found on our website www.defra.gov.uk.

Illegal Food Imports

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list, with the penalties imposed, the cases since 1994 of illegal food imports where prosecution succeeded. [169651]

Mr. Bradshaw: *[holding answer 30 April 2004]:* Figures for prosecutions for illegal imports are not held centrally.

HM Customs and Excise have had responsibility for anti-smuggling controls on products of animal origin from 11 April 2003. Since then they have brought two prosecutions in 2004 under the Customs and Excise Management Act for illegal imports, both of which were successful. In each case the defendant was fined and costs were awarded against them.

There have been a number of other prosecutions related to illegal imports since 2000 but not all were tried as offences under illegal imports legislation.

Oysters

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make representations to the European Union to issue a protected geographical indication for the Colchester Native Oyster. [167290]

Alun Michael: Registering a food name under the EU Protected Food Name scheme is one way in which producers can add value to their produce. We are sympathetic to this proposal and the Government are keen to encourage more applications under the scheme.

An application to register the name, Colchester Native Oyster as a protected geographical indication was received on 7 April. Officials are currently assessing the application against the scheme criteria. If it meets those criteria, officials will work with the applicant group to prepare the application for submission to the European Commission.

Rights of Way

Mr. Allen: To ask the Secretary of State for Environment, Food and Rural Affairs what the policy of the rights of way section of her Department is regarding answering the telephone to members of the public on *(a)* 01173–728–379, *(b)* 01173–728–957 and *(c)* other numbers. [169379]

Alun Michael: I assume that my hon. Friend is referring to the difficulties he experienced in getting through to officials in the rights of way branch at Temple Quay House in Bristol on 26 April. The building was experiencing intermittent problems with incoming calls on that day, which is why several attempts had to be made before he was successful.

In normal circumstances telephones are answered promptly. The rights of way branch has a "group pick-up" facility, which links all the telephones in the team, and enables them to take each other's calls when colleagues are absent or away from their desk. This is what happened when the successful call was responded to by a member of the team.

In addition these telephones have a voicemail facility so that callers can leave a message if they wish to, should there be no response.

Mr. Allen: To ask the Secretary of State for Environment, Food and Rural Affairs if she will set out the history of the request to close the footpath at Cuillan Close, Rise Park; when her Department expects to compete the paperwork necessary to allow Nottingham City Council to close the footpath; and if she will make a statement. [169380]

Alun Michael: Nottingham City Council applied on 20 October 2003 to have the area around the footpath designated under Schedule 6 of the Countryside and Rights of Way Act 2000. Following an examination of the evidence provided in the second round of applications for designation, I announced my intention to designate 20 areas, including this one, on 9 February. Since the announcement, Officials at Defra have prepared the detailed digital maps necessary for the legal process and consulted the relevant local authorities about them.

I have laid the order that designates this area of Nottingham, along with areas in Brighton and Hove, Leeds, York, Middlesbrough, Oldham, Swale, Wirral and the London Borough of Hillingdon. It will come into effect on 25 May.

The local authorities concerned can now proceed to consider whether to make orders to divert or extinguish rights of way for the purpose of crime prevention.

The time taken to complete the process is as frustrating for ministers as it is for MPs and councillors, so I am looking at whether we can strengthen the process for the future, but this is a formal legal process which has to be done centrally.

Severely Disadvantaged Areas

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what criteria were used in designating severely disadvantaged areas. [168031]

Alun Michael: The severely disadvantaged areas in the uplands (then termed less favoured areas) were first designated following the physical, economic and demographic assessment laid down in Article 3(4) of Council Directive 75/268. In 1999, this Article was replaced by Article 19 of Council Regulation 1257/1999 (the so-called rural development Regulation). They are characterised by land of poor productivity which is difficult to cultivate and mainly suitable for extensive livestock farming; and by a risk of land abandonment, which could impair the conservation of the countryside and the viability of communities in the area.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on what support schemes farmers in severely disadvantaged areas will be able to apply for. [168033]

Alun Michael: I refer the hon. Member to the answer given on 17 March 2004, *Official Report*, column 271W.

TRANSPORT

A19

Mr. Cummings: To ask the Secretary of State for Transport how many deaths and serious injuries have been sustained on the section of the A19 which runs through the Easington constituency in the last 10 years. [170119]

Mr. Jamieson: The available information relates to local authority areas. The number of deaths and serious injuries sustained in reported injury road accidents on the section of the A19 in the Easington local authority area for the years 1993 to 2002 are shown in the table below. Estimates on the basis of parliamentary constituencies will become available in the summer and I shall write to my hon. Friend with figures Easington and place a copy of my letter in the Libraries of the House.

Fatal and Serious Casualties on the A19 within Easington (LA area): 1993–2002

Year	*Killed*	*Serious*
1993	3	4
1994	3	8
1995	2	7
1996	1	10
1997	2	2
1998	1	1
1999	1	2
2000	2	5
2001	1	8
2002	2	4

Cycle Lanes (Battersea)

Martin Linton: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Battersea since 1997. [169767]

Mr. McNulty: The promotion of cycling in London is a matter for the Mayor of London and Transport for London. This strategy is delivered, in part, by the individual Boroughs such as Wandsworth. The Mayor's policies on cycling can be found in his Transport Strategy at the following link:
http://www.london.gov.uk/mayor/strategies/transport/index.jsp

Lane Rental

Mr. Chope: To ask the Secretary of State for Transport when he received the final report by Halcrow on the lane rental pilot in Camden and Middlesbrough; and on what date it will be made public. [170653]

Mr. Jamieson: I expect to receive the final report on the lane rental pilots around the end of June. Copies of the report would be placed in the Libraries of the House shortly afterwards.

Off-shore Wind Farms

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the risk of obstruction to the Port of London from the London array wind farm; and what representations he has received on the issue from the maritime industry. [168263]

Mr. Darling: The developer of the London Array wind farm in seeking consent for the project must make a thorough assessment of the potential impact of the proposed installation on navigation and ports. The developer must demonstrate to my satisfaction in the case of a Coast Protection Act 1949 consent or that of the Secretary of State for Trade and Industry in the case of an Order under the Transport and Works Act 1992 that their development, in combination with others that may be in the vicinity, does not present a danger or significant obstruction to navigation. In reaching that decision either Secretary of State will take advice from the Maritime and Coastguard Agency and, in the case of the London Array, the Port of London Authority. Any person or organisation who has an interest in the matter may make representations to the relevant Minister and these will be taken into account in the decision making process.

Mrs. Dunwoody: To ask the Secretary of State for Transport what consultation he has *(a)* undertaken and *(b)* planned with maritime groups about the impact of offshore wind farms on marine navigation. [168264]

Mr. Darling: My Department is consulting the shipping and ports industries on the potential cumulative impact on navigational safety of wind farms being developed on the sites for which The Crown Estate has offered leases. In the light of the outcome of this exercise, developers are able to apply to The Crown Estate, between 1 September to 31 December 2004, to adjust the location of their proposed wind farm. In addition, the Maritime and Coastguard Agency is consulting on a revised publication giving guidance on the navigational safety issues which developers shall need to take into account in seeking consent for their projects. This consultation is closing on 7 June 2004 with a view to publishing the revised guidance later this summer.

Officials from my Department together with officials from the Department of Trade and Industry met representatives of the shipping and ports industries on 28 January 2004. Also one of my officials was present when they met the Energy Minister on 16 March 2004 where they were given an assurance that offshore wind farms would not be sited where they present a danger to navigation.

Mrs. Dunwoody: To ask the Secretary of State for Transport what representations he has made to the Department of Trade and Industry regarding obstruction to shipping lanes from wind farms. [168261]

Mr. Darling: There have been numerous discussions between Departments at ministerial and official level in regard to the obstruction of shipping. The safety of shipping is of paramount importance. Wind farms which would present a significant obstruction or danger to navigation will not receive the development consents from Government which are necessary before projects can be constructed. This Department and the Department of Trade and Industry consult the Maritime and Coastguard Agency and others on navigational safety matters in deciding whether to grant consent for offshore wind farm projects.

The proposed location of an offshore wind farm may require shipping which passes through those waters to re-route around the installation. Where such new patterns of ship traffic could be established without a detrimental effect on the safety of navigation, such a possibility would be considered on a case-by-case basis as part of the assessment of whether consent should be given to the project.

Rail Services (Portsmouth Harbour)

Mr. Andrew Turner: To ask the Secretary of State for Transport pursuant to his answer of 25 March 2004 to the hon. Member for Isle of Wight, *Official Report*, column 982W, on rail services *(a)* what information he collects and *(b)* if he will make a statement on the punctuality and reliability of trains destined for Portsmouth harbour. [171208]

Mr. McNulty: Performance statistics by Train Operating Company (TOC) are published in the Strategic Rail Authority's quarterly "National Rail Trend", copies of which are in the Library of the House. The SRA does not hold performance data below TOC level.

Road Accidents

Jim Dobbin: To ask the Secretary of State for Transport what the percentage change in *(a)* deaths and *(b)* serious injuries on the roads of Heywood and Middleton is since 1997. [168546]

Mr. Jamieson: The available information relates to local authority areas. In the Rochdale local authority area (which includes the constituency of Heywood and Middleton) there were 16 fatal casualties in 1997 and 11 fatal casualties in 2002. The number of people seriously injured in road accidents increased from 83 in 1997 to 84 in 2002, a rise of 1 per cent. Estimates on the basis of parliamentary constituencies will become available in the summer and I shall write to my hon. Friend with figures for Heywood and Middleton and place a copy of my letter in the Libraries of the House.

James Purnell: To ask the Secretary of State for Transport what the percentage change in *(a)* deaths and *(b)* serious injuries on the roads of Stalybridge and Hyde has been since 1997. [168731]

Mr. Jamieson: The available information relates to local authority areas. In the Tameside local authority area (which includes the Stalybridge and Hyde constituency) there were four fatal casualties in 1997 and four fatal casualties in 2002. The numbers of people seriously injured in road accidents reduced from 117 in 1997 to 85 in 2002, a fall of 27 per cent. Estimates on the basis of parliamentary constituencies will become available in the summer and I shall write to my hon. Friend with figures for Stalybridge and Hyde and place a copy of my letter in the Libraries of the House.

Mr. Neil Turner: To ask the Secretary of State for Transport how many people died in road traffic accidents in Wigan in *(a)* 1997 and *(b)* 2003. [169341]

Mr. Jamieson: In the Wigan local authority area there were 10 fatal casualties in 1997 and nine fatal casualties in 2002, the latest year for which information is available.

Mr. Neil Turner: To ask the Secretary of State for Transport how many people were seriously injured in road traffic accidents in *(a)* 1997 and *(b)* 2003. [169342]

Mr. Jamieson: The number of people seriously injured in reported injury road accidents in Great Britain was 42,984 in 1997 and 35,976 in 2002, the last year for which information is available.

Road Upgrades

Mr. Flook: To ask the Secretary of State for Transport when he expects to make an announcement concerning the Government's decision on the upgrading of the A358 and the A303 following the decision to be made by the Regional Assembly on 30 April. [170110]

Mr. Jamieson: I will be considering the Regional Assembly's comments together with the views of the Statutory Environmental Bodies and others before I decide on the route option. I will announce a decision once I have fully considered all of the issues.

Road Works

Mr. Chope: To ask the Secretary of State for Transport what the average duration of utility works involving occupation of the highway was in *(a)* 2000, *(b)* 2001, *(c)* 2002 and *(d)* 2003. [170650]

Mr. Jamieson: Based on monitoring work carried out for my Department, the average duration of utility works for the period referred to was as follows:

	Days
2001 (April to December)	5.94
2002	5.70

Accurate figures are not available for the period before April 2001 and final figures for 2003 are not yet available.

Mr. Chope: To ask the Secretary of State for Transport what proportion of congestion on local authority roads in each year since 2000 was caused by *(a)* street works carried out by utilities and *(b)* street works carried out by or on behalf of highway authorities. [170651]

Mr. Jamieson: The Department does not hold figures centrally for the proportion of congestion caused by utility and highway authority works respectively on local authority roads.

Speed Cameras

Michael Fabricant: To ask the Secretary of State for Transport how many speed cameras are installed in Staffordshire, including Stoke-on-Trent. [169226]

Mr. Jamieson: The Staffordshire Safety Camera Partnership has 217 fixed site speed camera installations and no red light cameras. They currently operate no mobile camera units.

Train Services (Kent)

Mr. Horam: To ask the Secretary of State for Transport how many peak-time train services serving Petts Wood, Orpington and St. Mary Cray there are *(a)* at present and *(b)* proposed by the Strategic Rail Authority in the Integrated Kent Franchise consultation document. [169818]

Mr. McNulty: Services in the morning peak to London (trains arriving at a London terminus between 07:00 and 09:59):

Petts Wood

Current: 27 (8 Victoria, 4 Blackfriars, 15 Charing Cross or Cannon Street)

Proposed: 18 (6 Victoria, 12 Charing Cross).

Orpington

Current: 30 (8 Victoria, 4 Blackfriars, 18 Charing Cross or Cannon Street)

Proposed: 30 (6 Victoria, 12–13 Charing Cross or Cannon Street (fast) 12 Charing Cross (stopping)).

St. Mary Cray

Current: 16 (8 Victoria, 8 Blackfriars)

Proposed: 15 (7 Victoria, 8 Blackfriars).

Mr. Horam: To ask the Secretary of State for Transport what assumptions were made by the Strategic Rail Authority in the Integrated Kent Franchise document about *(a)* current and *(b)* future capacity in the peak-hour services between Petts Wood, Orpington, St. Mary Cray and London. [169819]

Mr. McNulty: Estimates of seats provided in the three-hour peak based on analysis of current scheduled South Eastern Trains service and estimates for the proposed service, based on the best current information about future train formations and vehicle types, are as follows:

	(a) Current	*(b) Future*
Petts Wood	16,400	9,200
Orpington	17,800	17,600
St. Mary Cray	8,600	9,300

Note:
Numbers are approximate and subject to possible change.

As now, the key factor is not overall train capacity, but how much spare capacity is available by the time services arrive at these stations.

Mr. Horam: To ask the Secretary of State for Transport if he will publish the passenger usage data for *(a)* Petts Wood, *(b)* Orpington and *(c)* St. Mary Cray that the Strategic Rail Authority used in their consultation document on the Integrated Kent Franchise, broken down by (i) passengers buying season tickets and those not and (ii) passengers taking fast peak-hour trains to London and those taking slow, stopping trains in the peak period. [169820]

Mr. McNulty: This information is not available in the format requested. Ticket information suggests that the average number of passenger journeys to and from these stations per day is:

	Season	*Ordinary*	*Total*
Petts Wood	3,972	1,814	5,786
Orpington	6,914	4,697	11,611
St. Mary Cray	1,975	1,278	3,253

Transport Energy Best Practice Programme

Mr. Paul Marsden: To ask the Secretary of State for Transport pursuant to his answer of 19 April 2004, *Official Report*, column 62–63W, on the Transport Energy Best Practice Programme, what proportion of *(a)* freight vehicle kilometres and *(b)* freight tonne kilometres these companies account for, (i) in total and (ii) broken down by vehicle type. [169908]

Mr. Jamieson: The Department does not currently hold the detailed data necessary to answer this question. However the 5 per cent. of freight transport companies mentioned in the answer of 19 April 2004, *Official Report*, column 62–63W, on the Transport Energy Best Practice Programme, referred to a representative cross-section of the industry.

Mr. Paul Marsden: To ask the Secretary of State for Transport what funding has been given to the Transport Energy Best Practice programme, broken down by year. [170017]

Mr. Jamieson: The following funding has been provided to the Transport Energy Best Practice programme:

	£ million
2002–03	1.57
2003–04	2.67
2004–05 (forecast)	2.48

Transport Services (Preston)

Mr. Hendrick: To ask the Secretary of State for Transport how many rural bus services in Preston are supported by rural bus grants. [169687]

Mr. McNulty: Rural Bus Subsidy Grant (RBSG) is paid to local transport authorities. In the case of Preston, this is Lancashire County Council. It is for the authority to decide which services should be supported with the grant. We understand from the county council that, while Preston is mainly urban, there are 11 rural bus services commencing or terminating in Preston that are currently supported by RBSG.

Mr. Hendrick: To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Preston since 1997. [169688]

Mr. McNulty: Since 1997, three lengths of bus lane have been created in Preston, at Fishergate, Church Street and Ringway, with a total length of 900 metres.

Mr. Hendrick: To ask the Secretary of State for Transport if he will make a statement on the effect of investment in railway improvements over the next 10 years upon residents of Preston. [169689]

Mr. McNulty: Residents of Preston will benefit from the new TransPennine Express franchise, which commenced in February. The franchise secures investment of around £260m, which will include the introduction of a new fleet of 100 mph diesel trains leading to increased capacity, improved service quality and performance across the region. A new northern franchise, which will include local and regional services through Preston, is out for tender. Work continues on the West Coast Main Line upgrade, which will see reduction in journey times along the route and increases in service frequency.

Mr. Hendrick: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Preston since 1997. [169690]

Mr. McNulty: A total of 3.8 km of on-road cycle lanes and 5.6 km of off-road cycle tracks has been provided in Preston since 1997. A further 6.6 km of off-road cycle path, including 3.8 km of improved canal towpath are due to open this summer.

Mr. Hendrick: To ask the Secretary of State for Transport what the percentage change in *(a)* deaths and *(b)* serious injuries on the roads of Preston has been since 1997. [169691]

Mr. Jamieson: In the Preston local authority area there were nine deaths in road accidents in 1997 and two deaths in 2002, the latest year for which information is

available. The number of serious injuries in road accidents fell by 2 per cent. from 156 in 1997 to 153 in 2002.

Tyres

Mr. Paul Marsden: To ask the Secretary of State for Transport what proportion of tyres on vehicles he estimates are of energy efficient types, broken down by vehicle type. [169906]

Mr. Jamieson: There is no established definition or standard for energy efficient tyres. It is not possible, therefore, to estimate the proportion of energy efficient tyres currently being used on vehicles. We understand that tyres generally are becoming more energy efficient as manufacturers are incorporating energy efficient design features along with new technology. The major tyre manufacturers all sell a range of tyres, some of which are more energy efficient than others.

Mr. Paul Marsden: To ask the Secretary of State for Transport how many tyres have been purchased in each year since 1997, broken down by *(a)* size and *(b)* type. [169907]

Mr. Jamieson: The most recent information the Department for Transport has on the numbers of new tyres purchased as replacements in the United Kingdom for the years indicated is shown in the table. The data is grouped by vehicle type or use rather than by tyre size and tyre type due to the large number of sizes available in the marketplace currently. Data for 2003 is not yet available. Further information may be available from the trade associations: The British Tyre and Rubber Manufacturers Association and the Imported Tyre Manufacturers Association.

Number of replacement tyres purchased in the United Kingdom

	Car tyres	*Utility vehicles and off road 4x4*	*Heavy vehicle tyres*	*Tyres for other vehicles*
1998	20,202,648	899,279	3,013,782	772,071
1999	19,593,786	1,026,430	2,712,016	820,698
2000	18,804,523	917,094	2,659,233	845,153
2001	20,663,690	946,271	3,260,337	187,174
2002	20,874,277	1,014,894	3,595,930	192,937

Mr. Paul Marsden: To ask the Secretary of State for Transport how much *(a)* energy efficient tyres and *(b)* normal tyres cost on average to purchase, broken down by size. [169909]

Mr. Jamieson: As stated in my earlier answer (ref 169906), there is no formal definition of an energy efficient tyre. However our information suggests that, for trucks, the more energy efficient tyres cost around 5 per cent. more than normal or low energy efficiency tyres. For passenger car tyres, we understand there is no significant difference in the costs between products from the same manufacturer.

Mr. Paul Marsden: To ask the Secretary of State for Transport pursuant to his answer of 19 April 2004, *Official Report*, column 63W, on fuel efficient tyres, if he will estimate the reduction in emissions that would result from all freight vehicles switching to these tyres. [169910]

Mr. Jamieson: If all freight vehicles in the UK achieved a saving of 7 per cent. in fuel consumption, this would reduce emissions by around half a million tonnes of carbon. However, as I explained in my earlier answer (ref 169906), we do not know how many trucks are already fitted with the most energy efficient tyres so we cannot estimate the effect on emissions of all freight vehicles changing to use these types of tyres.

Mr. Paul Marsden: To ask the Secretary of State for Transport pursuant to his answer of 19 April 2004, *Official Report*, column 63W, on fuel efficient tyres, what the average distance it is estimated these tyres will last; and what the figure for ordinary tyres is. [169911]

Mr. Jamieson: The Department is not aware of any independently verified figures quantifying the difference in tyre life between more and less energy efficient tyres. As I stated in my answer of 19 April 2004, *Official Report*, column 63W, there is some evidence that the tread wear rate for current energy efficient tyres can be inferior to those of standard tyres. However, this is not quantified.

Mr. Paul Marsden: To ask the Secretary of State for Transport what steps have been taken to publicise the use of energy efficient tyres. [170018]

Mr. Jamieson: As I stated in my answer of 19 April 2004, *Official Report*, column 62–63W, through the TransportEnergy Best Practice programme, my Department has recently published a free leaflet describing trials of energy efficient tyres fitted to trucks. These trials have also been reported in the last two editions of the programme's free newsletter, "Freight Future", which is distributed to hauliers via trade journals.

HOME DEPARTMENT

Police Traffic Divisions (M25)

Andrew Mackinlay: To ask the Secretary of State for the Home Department how much was given to *(a)* Essex and *(b)* Kent police traffic divisions in respect of their work on the M25 in each of the last three years; how many (i) officers and (ii) units were deployed following the road traffic accident in the vicinity of junctions 29 and 31 on 17 March; for how long they were deployed; and if he will make a statement. [163255]

Ms Blears *[holding answer 23 March 2004]:* Forces do not receive funding specifically for road policing. The police funding formula, on which general grants for police authorities are based, does take into account traffic management needs. It is a matter for the Chief Constable and Police Authority to decide how to allocate the available resources within any given force area.

Road and traffic expenditure by Essex and Kent Constabularies is not directly comparable. The Chief Constable for Essex police informs me that their Road Policing Units respond to all Essex's roads, not just the motorway, and that total expenditure on road policing is estimated to be £14 million per annum in each of the last three years.

The Chief Constable of Kent police informs me that the expenditure on their traffic unit, as well as officers on areas classified as traffic, is estimated at approximately £5.5 million per annum in each of the last three years.

35 Essex police officers were deployed to the traffic accident on 17 March. A whole divisional traffic unit was dedicated to this incident, consisting of nine double-crewed vehicles. In addition, a further 10 single-crewed vehicles, two scenes of crime vehicles (one officer each) and a Traffic Investigation Unit (five officers) were involved. None of the officers were involved for the entire duration. In addition, three Metropolitan police vehicles were deployed at Junction 29 for 14 hours. Kent police had no involvement.

Dangerous Driving

Tim Loughton: To ask the Secretary of State for the Home Department what estimate he has made of the number of people driving without requisite insurance cover. [169071]

Caroline Flint: On the basis of information from the insurance industry and other sources, we estimate that there are 1.25 million persons driving without compulsory insurance against third party risks.

Drugs

Mr. Clapham: To ask the Secretary of State for the Home Department what the estimated total annual cost to the UK economy was of dealing with the drug problem in each of the last five years for which figures are available; and what factors the calculation includes. [168725]

Caroline Flint: Total direct annual Government expenditure on preventing and tackling drug misuse is as follows:

	Total direct annual Government expenditure
2000–01	695
2001–02	870
2002–03	1,026
2003–04	1,244
2004–05	1,344

These total figures reflect the cross Government spend on the four core strands of the Drug Strategy: protecting young people, reducing supply, safe guarding communities and treatment.

Identity Card Bill

Mr. Gibb: To ask the Secretary of State for the Home Department when he will publish his draft identity card bill. [167853]

Mr. Browne: My right hon. Friend the Home Secretary published the draft Identity Cards Bill on 26 April 2004, *Official Report*, column 34WS, as part of a document explaining the need for legislation entitled 'Legislation on Identity Cards: A Consultation' (CM 6178).

Road Traffic Offences

Mr. Gibb: To ask the Secretary of State for the Home Department what his estimate is of the number of people who have five points or more on their driving licence. [169446]

Caroline Flint: This information is not collected centrally.

UK Border Controls

Patrick Mercer: To ask the Secretary of State for the Home Department what assessment he has made of the cost, per unit, of establishing manned UK customs points in countries other than the UK. [169966]

John Healey: I have been asked to reply.

I refer the hon. Gentleman to the answer I gave him on 19 April 2004, *Official Report*, column 23W.

INTERNATIONAL DEVELOPMENT

Investment (Infrastructure)

Mr. Sheerman: To ask the Secretary of State for International Development what his Department's reasons are for the proportional increase in social infrastructure and services investment and the corresponding proportional decrease in economic infrastructure and services investment since 1997. [168879]

Mr. Gareth Thomas: The goal of the Department for International Development (DFID) is to eliminate poverty. DFID seeks to do this by focusing on achieving the targets agreed at the Millennium Summit, the so-called Millennium Development Goals (MDGs). DFID works with developing country Governments and other donors to achieve these goals.

Around a third of DFID's total expenditure is allocated to specific sectors. In recent years, expenditure on social infrastructure and services (by which we usually mean education, health, population and reproductive health, water supply and sanitation, government and civil society, employment and housing) has been significantly higher than that on economic infrastructure and services (for example, transport and storage, communications, energy, banking and financial services, and business). In large part, this is because DFID believes that investment in these sectors will have a greater impact on achieving the MDGs. In 2002, the latest year for which these data are available, there was a large jump in expenditure for the first group, which was not matched for scale in the second one. This was mainly due to a number of large contributions to global health funds.

North Korea

Mr. Drew: To ask the Secretary of State for International Development what aid has be offered to North Korea as a result of the Ryongchon incident; and whether this offer has been accepted. [169775]

Hilary Benn: Relief supplies that arrived shortly after the train crash were sent from a Red Cross disaster preparedness warehouse, funded by the Department for

International Development. Last year DFID provided £200,000 of support to the North Korean Red Cross's disaster preparedness activities, which included the provision of pre-positioned disaster relief supplies. A further £200,000 is committed for 2004–05.

DFID has also set aside £56,000 for support to affected households through the International Federation of the Red Cross, having judged this assistance to be the most effective way to meet the unmet needs. Initial appeals for support are well covered, and while the UK was ready to fund the replenishing of disaster relief supplies, the European Commission has pledged 200,000 Euros for this purpose. The UK's share of this pledge is approximately 38,000 Euros (£25,500).

DFID will consider further appeals as part of its continuing programme of humanitarian assistance to North Korea.

St. Helena

Bob Spink: To ask the Secretary of State for International Development what financial commitments are planned for St. Helena. [170216]

Mr. Gareth Thomas: DFID will continue to maintain substantial support for St. Helena. This will include budgetary assistance, to include a subsidy for the island's shipping service, plus funding for various development projects and the filling of key posts. A joint DFID/FCO team is currently visiting the island to negotiate proposals for our assistance over the three-year UK period 2004–05 to 2006–07. In addition, as I reported in a written statement to this House on 19 April 2004, *Official Report*, column 1WS, DFID is exploring options for maintaining future access arrangements.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution the United Kingdom will make to the new United Nations appeal for the Darfur Region of Western Sudan. [169324]

Hilary Benn: The United Nations has appealed for around $115 million for the humanitarian response in Darfur, Sudan. I am considering our response and we are likely to contribute. I have set aside £10 million from our contingency reserve for our ongoing humanitarian response in Darfur, in recognition of the severity of the situation and the need to work avert a humanitarian catastrophe. This is in addition to the £9.5 million that DFID committed last financial year through the UN, Red Cross and international non-governmental organisations in response to this crisis.

World Education Forum

Mr. Donaldson: To ask the Secretary of State for International Development what steps have been taken to meet the UK's obligations arising from the agreement at the World Education Forum in Dakar in April 2000 to achieve primary education for all children by 2015. [170218]

Mr. Gareth Thomas: Universal Primary Education by 2015 is the top priority of DFID's education programme and we are working closely with our international partners to achieve this. DFID is targeting countries with a high proportion of children out-of-school, such as Ethiopia, India and Bangladesh, and regions with a high number of countries with chronic levels of out-of-school children, such as Sub-Saharan Africa. Progress has been made in many countries with global enrolment in primary education increasing from 596 million in 1990 to 648 million children in 2000. However, with over 100 million children still not currently enrolled in primary education, much still remains to be done.

In recognition of this, DFID has invested over £820 million in education in developing countries since 1997. DFID is increasing this investment and are planning to spend £1 billion from 2004–2008. In addition, DFID is providing £12 million to the World Bank Fast-Track Initiative Catalytic Fund for education. This will go to help a specific group of developing countries that need a quick injection of money to get their education systems up and running.

DFID is collaborating with a variety of partners to accelerate progress on girls' education, as girls are much more likely to be out-of-school than boys (over 50 per cent). DFID is working with the UN Girls' Education Initiative to ensure stronger collaboration and coordination among donors at the global and the national level. At the country level, DFID continues to prioritise support to those governments that give priority to primary education. For example, we are supporting the Kenyan Government, who have recently abolished school fees at primary level, to provide enough school places to keep up with demand and ensure that quality is sustained.

TRADE AND INDUSTRY

Academic Fellowship Scheme

Dr. Iddon: To ask the Secretary of State for Trade and Industry for what reason the new academic fellowship scheme says in section 3.9 of the scheme document that a guarantee of a permanent position is an absolute condition of the award, and also insists in section 3.5 that those who have been promised a permanent position are considered to have achieved the aims of the scheme already and are not eligible. [167130]

Ms Hewitt: The Academic Fellowships are a direct response to the Roberts Review on "The supply of people with science, technology, engineering and mathematics skills". This report pointed to a lack of a clear career path for researchers and one of the primary aims of the scheme is to provide a transition between postdoctoral positions and academic posts. Government believes that a goal of a permanent academic post is necessary to improve recruitment and retention by providing the individual with a clear career trajectory and allowing for development needs to be addressed.

The statements to which my hon. Friend refers are not intended to be contradictory. The guarantee of a permanent position to be provided at the end of the five-year fellowship award (section 3.9) is a requirement on

the host institution in order to provide a career path for the academic fellow. An award will not be made to an HEI without this guarantee being made.

The statement at section 3.5, however, refers to the eligibility of the individual candidate. We do not believe that it is appropriate that someone with a permanent position, or the promise of one, should undertake a further five years of training towards an academic position. A previous promise by an HEI to provide a permanent position to a researcher shows an existing commitment to the individual and therefore further support through the academic fellowships scheme is unnecessary.

Council for the Central Laboratory of the Research Councils

Helen Southworth: To ask the Secretary of State for Trade and Industry what evaluation has been made of the ideal skills mix of the Board of the Council for the Central Laboratory of the Research Councils (CCLRC); what the selection criteria are for members of the board how and by whom appointments are made; what contribution CCLRC has made to implementation of the recommendations of the North West Science and Daresbury development group; what input CCLRC has made to the North West Science Strategy; and what targets and milestones have been set by CCLRC to progress the strategy. [168584]

Ms Hewitt: A number of evaluations have been made of the template for Council membership in recent years, but, in terms of skills, the basic mix of academic user and industry representation has remained unchanged. Last year the number of members was increased to include a greater number of independent industry or user representatives. We intend to keep the template more generally under review. The Minister for Science makes all appointments to the Council on my behalf in accordance with the requirements of the Commissioner for Public Appointments. This is a competitive process overseen by a panel with independent members who recommend candidates who best fit the advertised role and person specification, drawn up in the light of CCLRC's assessment of its needs for expertise.

The CCLRC and the OST have invested £6 million and £8 million respectively, to progress the Energy Recovery LINAC project, providing the underpinning technology and design for a Fourth Generation Light Source (4GLS). This activity is based mainly at the CCLRC Daresbury Laboratory. CCLRC collaborated closely with the North West universities regarding the recently announced PPARC/CCLRC-supported Cockcroft Institute for Accelerator Science, also to be located at Daresbury. As a result, the CCLRC will co-locate its related accelerator science and technology research activity with the Cockcroft Institute. The results of a CCLRC/North West Development Agency joint-funded analysis of the opportunities for commercial exploitation of Daresbury Laboratory research, and the options for a proposed mixed-economy Daresbury Campus, have now been received. The latter activity will involve the North West Universities and industrial partners with the CCLRC, and the participants are seeking to establish a new "North West Science Partnership" by summer 2004.

Helen Southworth: To ask the Secretary of State for Trade and Industry what targets the Council for the Central Laboratory of the Research Councils (CCLRC) has set for the commercial exploitation of intellectual property to stimulate regional growth in the North West; what CCLRC's vision is for collaboration with the North West Science Council; and how the CCLRC intends to work with the North West Regional Development Agency to generate regional economic growth. [168630]

Ms Hewitt: CCLRC seeks actively to develop exploitation routes for its research via its totally owned commercial exploitation company, CLIK, which was established in April 2002. Five new CLIK-generated high technology companies are already in the final stages of formation, three of which are based on research and associated technologies developed at the CCLRC Daresbury Laboratory. The CLIK business plan is based on the formation of three new CCLRC spin-out companies per year for each of the next five years.

CCLRC has interacted closely with the activities of the North West Science Council (NWSC) since its inception. The Director of the Daresbury Laboratory has been a member throughout this period, and he and his staff also maintain close relations with the NWDA. This has led already to the construction of two new NWDA-supported high technology buildings immediately adjacent to the DL site, on land previously owned by CCLRC, in order to provide easily accessible space for new high technology, spin-out companies and associated business support advisers. The CCLRC/NWDA interaction has also already led to the successful implementation of a number of major new joint-funded projects, which are or will be based at the DL/NWDA Campus including SUPERSTEM, the Energy Recovery Linac project and the new Cockcroft Accelerator Science Centre. Opportunities for new nanotechnology/nanoscience activities and also a new Centre for Instrumentation are also currently being explored.

Electricity Generation

Mr. Stunell: To ask the Secretary of State for Trade and Industry what estimate she has made of the associated backup costs for wind penetration of *(a)* 10 per cent., *(b)* 15 per cent. and *(c)* 20 per cent.; and what the assumptions are underpinning these estimates. [169778]

Mr. Timms: Estimates of the back-up costs of renewables, including wind power, were made in the report "Quantifying the System Costs of Additional Renewables in 2020" commissioned from consultants ILEX as part of the analysis for the February 2003 Energy White Paper. The report is available on the DTI website at http://www.dti.gov.uk/energy/developep/080scar_report_v2_0.pdf.

The report considered the additional costs associated with increasing the proportion of renewables generation to 20 per cent. and 30 per cent. by 2020.

Table 12 of the report indicates that the back-up costs of wind power, in terms of generating capacity and system balancing would be of the order of £6 to £7 per

MWh of wind generation. Details of the assumptions used and the analysis applied are contained in the report.

Estimates have not been made for lower penetrations of renewables. However, the report indicates that back-up costs associated with wind are less than £1 per MWh higher in scenarios where renewables reach 30 per cent. of generation, compared with scenarios where renewables reach 20 per cent. of generation.

Under the electricity trading arrangements, generators have strong financial incentives to deliver the power they have contracted to sell to electricity suppliers.

Mr. Stunell: To ask the Secretary of State for Trade and Industry what estimate she has made of the backup costs for electricity generated from *(a)* wind energy and *(b)* nuclear power. [169779]

Mr. Timms: Estimates of the back-up costs of renewables, including wind power, were made in the report "Quantifying the System Costs of Additional Renewables in 2020" commissioned from consultants ILEX as part of the analysis for the February 2003 Energy White Paper. The report is available on the DTI website at http://www.dti.gov.uk/energy/developep/080scar_report_v2_0.pdf.

Table 12 of the report indicates that the back-up costs of wind power, in terms of generating capacity and system balancing would be of the order of £6 to £7 per MWh of wind generation in 2020. Details of the assumptions used and the analysis applied are contained in the report.

Estimates of the back-up costs of nuclear power have not been made.

Energywatch

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what Energywatch's budget was in each year since it was created, how many calls it received from consumers in each year; and what assessment she has made of Energywatch's ability to help gas and electricity consumers. [168872]

Mr. Timms: The information is as follows:

	Expenditure (£ million)	*Complaints*	*Non-complaint inquiries*
2000–01	[1]7.62	[2]77,705	n/a
2001–02	[3]18.99	[4]72,362	106,015
2002–03	[5]11.97	109,230	70,856
2003–04	[6]12.39	72,079	90,000
2004–05	[7]13.29	—	—

[1] Transitional funding
[2] Complaints to OFGEM, Gas Consumers' Council and Energywatch
[3] Includes £8.1 million transitional funding
[4] Excludes February and March 2002, for which no data are available
[5] Includes £0.29 million transitional funding
[6] Includes £0.29 million transitional funding
[7] Budget. Includes £0.29 million transitional funding

Energywatch has significantly aided energy consumers by, among other things, assisting individuals in their dealings with energy companies; promoting the consumer interest as a whole, particularly in areas such as mis-selling, the transfer process and the billing and metering practices of energy companies; and representing the interests of disadvantaged consumers.

Fireworks

Bob Spink: To ask the Secretary of State for Trade and Industry how many people were *(a)* killed and *(b)* injured as a result of accidents and incidents involving fireworks in the last five years. [169795]

Mr. Timms: The firework injury statistics for 2003 are not yet available. The statistics for the previous four years are as follows:

	(a) Deaths	*(b) Injuries*
2002	0	1,017
2001	0	1,362
2000	2	972
1999	0	1,056

The figures in the table are based on the total number of people treated at hospital casualty departments in Great Britain during a 4 week period around bonfire night.

Ministerial Meetings/Visits

Simon Hughes: To ask the Secretary of State for Trade and Industry if she will list *(a)* the official meetings she has had with the Mayor of London since July 2000 and *(b)* the dates and subject of each meeting. [170571]

Ms Hewitt: I met the Mayor of London on 8 November 2001, the subject of the meeting was regeneration.

Llew Smith: To ask the Secretary of State for Trade and Industry when the Minister of State (Energy, e-Commerce and Postal Services) next plans to visit Japan. [170993]

Mr. Timms: I am due to visit Japan on 16–19 May.

Panel for Regulatory Accountability

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many members of the Panel for Regulatory Accountability have worked in the private sector; and in what capacity. [168447]

Mr. Alexander: I have been asked to reply.

Membership consists of myself as Chair, and my right hon. Friend the Secretary of State for Trade and Industry (Ms Hewitt) and the Chief Secretary to the Treasury (Mr. Boateng). All current members of the Panel for Regulatory Accountability have worked in the private sector. Biographies are available at: http://www.parliament.uk/directories/hciolists/alms.cfm

In addition, the Chair of the Better Regulation Task Force (David Arculus) and the Chair of the Small Business Council (William Sargent) are invited to attend the panel. Their biographies can be found at:

http://www.brtf.gov.uk/taskforce/members/DavidArculus.htm and

http://www.sbs.gov.uk/default.php?page=/sbc/members.php

Copies of the biographies have also been placed in the Library.

Renewable Energy

Mr. Neil Turner: To ask the Secretary of State for Trade and Industry if she will make a statement on the effect of recent trends in investment in renewable energy upon the residents of Wigan. [169365]

Mr. Timms: Recent trends in renewable energy investment have been very encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass.

However, as far as I am aware this has not translated into new or proposed capacity in the Wigan area.

Mr. Hendrick: To ask the Secretary of State for Trade and Industry if she will make a statement on the recent trends in investment in renewable energy and the effect of those trends upon residents of Preston. [169686]

Mr. Timms: Recent trends in renewable energy investment have been very encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass.

However, as far as I am aware this has not translated into new or proposed capacity in the Preston area.

Bob Spink: To ask the Secretary of State for Trade and Industry what recent representations she has received on renewable energy targets and their achievement; and if she will make a statement. [169753]

Mr. Timms: The Government's renewable energy target is that renewable energy sources will supply 10 per cent. of our electricity by 2010. The target is challenging as we are starting from a low base; provisional figures suggest that in 2003, 2 per cent. of electricity was generated from sources eligible for the Renewables Obligation. However, the target is achievable. As the SEPN annual report published earlier this week indicates, we have made an encouraging start.

We have received many representations from stakeholders regarding the targets, and we have listened to them. An example of this is our plan to increase the level of the Renewables Obligation (RO) in the period after 2010, so that it reaches 15.4 per cent. by 2015–16. By increasing the Obligation in these years, this will greatly assist investor confidence and in particular help with the financing of new projects needed to deliver output by 2010.

Ultra-wideband Wireless Networks

Mr. Watson: To ask the Secretary of State for Trade and Industry what plans she has to license ultra-wideband wireless networks. [169295]

Mr. Timms: The matter raised is the responsibility of the Office of Communications (Ofcom) as the independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to my hon. Friend. Copies of the Chief Executive's letter will be placed in the Libraries of the House.

Wind Turbines

Bob Spink: To ask the Secretary of State for Trade and Industry what recent representations she has received on the proposal for wind turbines in the Thames Estuary; and if she will make a statement. [169750]

Mr. Timms: On 16 March I met representatives from the Chamber of Shipping, Trinity House, the Port of London Authority and the British Marine Aggregate Producers Association for a general discussion on a number of navigation related issues in relation to the 15 proposed Round 2 offshore wind farms, 4 of which are planned in the Thames Estuary. To date my Department has not received any development consent applications for a Round 2 wind farm. Before developers can submit applications they must undertake a full environmental impact assessment including a navigational risk assessment in consultation with the Maritime and Coastguard Agency and other shipping interests. To ensure that all views on consent applications are taken into account, at the time developers submit applications for consent to my department they must advertise the project in both national and local press so that any person can make representations to my right hon. Friend the Secretary of State. All representations are then taken into consideration before a decision is made on whether to give consent.

Winkleigh Biomass Project

Mr. Burnett: To ask the Secretary of State for Trade and Industry what studies have been conducted by *(a)* central Government and *(b)* the South West Regional Development Agency of potential (i) fossil fuel savings and (ii) additional fossil fuel use if the proposed Winkleigh Biomass Project is completed and running at full capacity; and with what results. [169460]

Mr. Timms *[holding answer 29 April 2004]:* No such studies have been commissioned or undertaken by the DTI. The developer as part of the application process did undertake an initial assessment of the fossil fuel savings from such a plant. And as part of the assessment process the assessors took into account the estimates made by the proposers.

No such studies have been commissioned or undertaken by the South West Regional Development Agency either. Further detail will be found in the planned Environmental Impact Assessment, which will include an evaluation of potential road traffic.

NORTHERN IRELAND

Area Plans

Mr. Trimble: To ask the Secretary of State for Northern Ireland what the target date is for the implementation of the Belfast Metropolitan Area Plan; and if he will make a statement. [168215]

Angela Smith: The publication date for the Plan has not yet been finalised. Work on the Draft Plan is now well advanced. If the Draft Plan passes through its final stages within the normal time scale, the target for publication is late autumn.

These final stages include:

Clearance by other Government Departments; and

Assessment by the Department of Regional Development for "conformity with the Regional Development Strategy".

Bangor Hospital

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to enhance the services available at Bangor hospital; and if he will make a statement. [169655]

Angela Smith: Bangor hospital currently offers GP in-patient services, a minor injuries service and a wide range of other secondary, intermediate and primary care services. Social care and voluntary sector services are also provided at the hospital. Work is ongoing to develop further the services provided, including the introduction of an advanced digital imaging system that, in addition to improving the quality of the x-ray service, will further enhance the hospital's minor injuries service.

British-Irish Joint Declaration

Bob Spink: To ask the Secretary of State for Northern Ireland what progress has been made in implementing those aspects of the British-Irish Joint Declaration that deal with security normalisation. [166228]

Mr. Pearson: The Joint Declaration, which was published by both Governments on 1 May last year, gave a commitment to the complete normalisation of security over a two-year period, in the context of an enabling environment.

The Prime Minister announced in a statement on 1 May 2003 that the Government would on some aspects of normalisation, push on and do what we can. Since then two towers at Cloghoge and Tievecrum were demolished in June and the Chief Constable announced on 11 February that Clooney Army base in Londonderry would be closed and sold and the Army would vacate the joint Police/Army base at Aughnacloy.

Any further steps will only be taken in light of the threat and the Chief Constable's advice.

Housing Executive Properties

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many individuals were awaiting placement in housing executive properties, broken down by area, in the last year; and if he will make a statement. [169658]

Mr. Spellar: The information is not readily available in the format requested.

The following table shows the numbers of households at 31 March 2004 requiring social housing (Housing Executive and Housing Association) broken down by the applicant's stated preference of Housing Executive District Office area.

The waiting list is not static as households move on and off the list during the course of the year. The trend in demand for social sector accommodation continues to rise steadily. The increases in demand are most pronounced in urban areas and in the east of the province.

Number of households on the waiting list at 31 March 2004

Housing executive district	*Number*
Belfast 1	926
Belfast 2	1,479
Belfast 3	839
Belfast 4	801
Belfast 5	647
Belfast 6	1,001
Belfast 7	1,746
Antrim	709
Ballycastle	225
Ballymena	1,032
Ballymoney	286
Carrickfergus	839
Coleraine	855
Larne	370
Newtownabbey 1	631
Newtownabbey 2	662
Armagh	559
Banbridge	410
Dungannon	517
Fermanagh	734
Lurgan	659
Newry	1,301
Portadown	413
Bangor	1,488
Castlereagh	984
Downpatrick	919
Lisburn Antrim Street	1,362
Lisburn Dairy Farm	514
Newtownards	1,174
Cookstown	230
Limavady	337
Londonderry 1	623
Londonderry 2	457
Londonderry 3	531
Magherafelt	356
Omagh	370
Strabane	529
Total	27,515

NHS Dentists

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what plans he has to increase the numbers of dentists working for the NHS in Northern Ireland. [169931]

Angela Smith: The Department has put in place a comprehensive work force planning mechanism that reviews, on an annual basis, supply and demand issues across all HPSS professional groups. The first report on the dental staff group has been completed and its findings did not indicate any general recruitment

difficulties with this group. Nevertheless, the position will be kept under review through the Department's work force planning process.

Parliamentary Questions

Norman Baker: To ask the Secretary of State for Northern Ireland how many Parliamentary Questions have been tabled to his Department since 1 January 2003, broken down by *(a)* Ordinary Written and *(b)* Named Day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157740]

Mr. Paul Murphy: The information is not available in the form requested.

However, from 1 January 2003 to 31 December 2003, 3134 Parliamentary Questions were tabled to the Northern Ireland Office.

From 1 May 2003 to 31 December 2003, the 11 Departments of the NI administration answered 986 Ordinary Written questions of which 79 per cent. were responded to within a working week of the question being tabled. Of the 65 Named Day questions tabled in the same period 80 per cent. were answered by the specified date. The corresponding information in respect of the Northern Ireland Office is not currently available on the same basis.

Prostate Cancer

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what progress has been made in dealing with prostate cancer in Northern Ireland in the past two years. [169933]

Angela Smith: Patients with prostate cancer may be treated either by the regional urology service at the Belfast City hospital or by the Cancer Units at Antrim, Altnagelvin, Craigavon and Ulster hospitals. Strong linkages have been developed between these units in recent years.

Funding has recently been made available for the appointment of an additional urology consultant, with a special interest in uro-oncology, to be recruited jointly between BCH and the Ulster hospitals, and for the appointment of an additional consultant urologist at Craigavon Area hospital. A number of specialist nurses have also been appointed at BCH, the Ulster hospital and elsewhere. Altnagelvin, the Ulster and BCH have developed nurse-led fast track assessment clinics with direct access to urology consultants. Craigavon also plans to introduce this service to help ensure prompt access to investigations and treatment.

Radioactive Contamination (Chernobyl Accident)

Llew Smith: To ask the Secretary of State for Northern Ireland how many farms in Northern Ireland, comprising what land areas and in what locations, have restrictions applied to them in respect of land use as a result of the residual radioactivity from the Chernobyl nuclear accident. [169876]

Mr. Pearson: It is estimated that 153 farms in Northern Ireland located in three small hill areas at Glenwherry in Co. Antrim and Belraugh and Glenshane in Co. Londonderry had controls applied to the movement and slaughter of sheep as a result of the residual radioactivity from the Chernobyl nuclear accident. The three areas extended to some 21,612 acres (8,752 hectares).

Register of Interests

Bob Spink: To ask the Secretary of State for Northern Ireland what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164704]

Mr. Pearson: The requirements placed upon officials employed in NI Departments and the Northern Ireland Office are set out in the Conduct Sections of the Northern Ireland Civil Service Pay and Conditions of Service Code and the Civil Service Management Code (Home Civil Service). These requirements place responsibility on officials to declare to senior management, as appropriate and when necessary, their current interests. The declaration must include the likelihood of possible conflicts of interest and, where appropriate, seek approval before proceeding with a particular course of action. The contents of the respective Codes are drawn to the attention of officials as part of induction programmes.

While there is no register of interests maintained centrally in respect of officials working in the NI departments or in the Northern Ireland Office, three NI departments, because of the specialised nature of their business and the interaction with the private sector and non-departmental public bodies, have established departmental registers.

Secondary School Entry (Craigavon)

David Burnside: To ask the Secretary of State for Northern Ireland what effect the ending of academic selection for entry to secondary schools as recommended by the Costello Report would have on the Two Tier Dickson system in use in Craigavon; and if he will make a statement. [170458]

Mr. Gardiner: Schools and school managing authorities, working together in local areas, will develop new post-primary arrangements that best provide for the needs of all pupils and take account of local wishes, needs and circumstances. A two-tier system could continue to operate provided all pupils have access to the Entitlement Framework.

Waiting Lists

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment has been made of using independent hospitals outside Northern Ireland to reduce local waiting lists. [169699]

Angela Smith: Health and Social Services Boards purchase services from independent hospitals as an appropriate short-term measure to allow patients to receive their treatment more quickly. During 2002–03 and 2003–04, 628 patients were transferred to various

independent hospitals outside Northern Ireland as part of a range of initiatives to reduce waiting lists and waiting times.

Water Conservation

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will support pilot schemes to promote water conservation among low income households and vulnerable people in order to reduce the impact of water charging. [168642]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has written to the hon. Lady in response to this question.

Letter from Mrs. Katherine Bryan to Lady Hermon, dated 30 April 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question (No. 168642) concerning his support for pilot schemes to promote water conservation amongst low-income households and vulnerable people in order to reduce the impact of water charging.

In recognising that there is a relationship between water conservation and water consumption it is equally important to recognise that they are not synonymous. Water Service's second Water Efficiency Plan, which I launched in January 2004, sets out a wide range of measures aimed at reducing demand from water. In addition to Water Service's leakage reduction strategy, it involves a proactive approach to water conservation by all customers, including raising awareness and the further promotion of water saving devices such as Hippo Bags. The combination of conservation measures taken by Water Service and reduced consumption by customers should help to reduce projected water demand. This will ultimately reduce the charge to customers.

Changes to water consumption patterns could have a more direct impact on individual's water bills under a metered water regime. In some circumstances, lower consumption could result in a reduced bill. However, no decision has yet been taken on the form of water charging to be introduced. Research and analysis into the consequences of different approaches is currently being undertaken and the impact of charges on low-income households and vulnerable groups is one of the issues being considered.

The Government is fully committed to measures that encourage water conservation. I am advised that in June 2002 and November 2003, Water Service officials met with Eaga-partnership Ltd., which is promoting a water conservation programme known as Watersmart and is interested in undertaking a pilot study in Northern Ireland. Unfortunately, the results of pilot study undertaken by Eaga-Partnership Ltd. in the Essex and Suffolk Water Company indicated that the costs of the programme are considerably in excess of the cost of comparable leakage reduction measures currently being undertaken by Water Service and would not therefore represent good value for money. The company was informed of the position and agreed to provide additional information on the economic benefits of the programme. To date, Water Service has received no further communication from the company.

Water Service continually keeps its activities and procedures under review in order to improve effectiveness and deliver improved value for money to customers and taxpayers. It will continue to consider any proposals, including other pilot schemes, which would contribute to improved water conservation.

Mr. McGrady: To ask the Secretary of State for Northern Ireland what plans he has to improve water efficiency in *(a)* low income households, *(b)* domestic premises, *(c)* small businesses and *(d)* public sector offices; and if he will make a statement. [168930]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has written to the hon. Gentleman in response to this question.

Letter from Mrs. Katharine Bryan to Mr. Eddie McGrady dated 29 April 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question (No. 168930) about what plans he has to improve water efficiency in low income households, domestic premises, small businesses and public sector offices. I have been asked to reply as Chief Executive of the Water Service.

Water Service's second Water Efficiency Plan was formally launched in January 2004. The Plan sets out how Water Service proposes to extend its information and awareness campaign and to provide advice to all of the community including low income households, domestic premises, small businesses and public sector offices. Water Service will continue to extend its programme of exhibitions at major events, presentations to local groups as well as displays at local shopping centres across Northern Ireland. In addition the successful Water Bus mobile exhibition will continue to deliver the water conservation message to schools, with all children who attend being provided with a home copy of water efficiency information to give to their parent or guardian. All public sector offices have received a full water conservation pack containing Hippo bags, posters, etc and Water Service will continue to work with the public sector to promote water efficiency. Water Service has also sent small businesses and Government offices further information on how to improve water efficiency when it issued metered water accounts in 2003.

Mr. McGrady: To ask the Secretary of State for Northern Ireland what further research has been undertaken following the Northern Ireland Audit Office report into water efficiency in 2001; and if he will make a statement on water efficiency targets in Northern Ireland. [168931]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has written to the hon. Gentleman in response to this question.

Letter from Katharine Bryan to Mr. Eddie McGrady, dated 29 April 2002:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question (No 168931) about what further research has been undertaken following the Northern Ireland Audit Office report into water efficiency in 2001, and water efficiency targets in Northern Ireland. I have been asked to reply as Chief Executive of the Water Service.

Water Service is committed to addressing the issues raised by the Northern Ireland Audit Office and has carried out a comprehensive review of its Water Efficiency Plan. A revised Water Efficiency Plan was formally launched in January 2004 which aims to reduce the demand for water through effective leakage management and other water conservation measures. The Plan promotes a more proactive approach to leakage reduction, water conservation including raising awareness, and the further promotion of water saving devices such as Hippo Bags. It also includes a new Leakline number for customers to report leakage incidents.

A major element of the Water Efficiency Plan is to reduce leakage from the water distribution system and Water Service has an annual water efficiency target which aims towards achieving a reduction in leakage to an economic level of 172 million litres per day in March 2007. Provisional outturn for 2003/2004 indicates that Water Service has achieved its leakage reduction targets for the past two years, resulting in total leakage being reduced by almost 60 million litres per day. The water efficiency target for 2004/2005 is to reduce leakage from the water distribution system by a further 28 million litres per day, to a level of 205 million litres per day by 31 March 2005. Water Service is committed to meeting this leakage target through upgrading the water infrastructure and by targeting resources to detect and repair leaks.

WALES

Civil Servants

Bob Spink: To ask the Secretary of State for Wales if he will list for each Civil Service grade within his Department, the total number of staff employed and set out the number employed by *(a)* gender, *(b)* ethnic group *(c)* registered disabled and *(d)* age group. [166401]

Mr. Touhig: Data on staffing levels in the Civil Service is collected by the Cabinet Office and published in the Civil Service Statistics. A copy of the Civil Service Statistics, 2002 is available in the Library, and at www.civil-service.gsi.gov.uk/statistics. The 2003 edition will be published in summer 2004.

The Wales Office Departmental Report 2003 (Cm 5928) provides data on staff numbers for the Wales Office for year 2002–03. Tables 5.7 and 5.8 of this publication show staff numbers with disabilities. A copy of the Wales Office Departmental Report 2003 can be obtained from the Library of the House.

Information on numbers of staff employed by age group is not available and could be obtained only at disproportionate cost.

Departmental Computers

Bob Spink: To ask the Secretary of State for Wales what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166374]

Mr. Touhig: The Wales Office IT is provided as part of the DCA's corporate network. There are no plans to update the existing hardware. Our PFI supplier will, as part of their contractual commitment, update software, including operating systems, office automation and applications, within the next 12 months.

North Wales Police

Gareth Thomas: To ask the Secretary of State for Wales what discussions he has had with the National Assembly for Wales Secretaries about the use of Private Finance Initiative by North Wales Police in respect of *(a)* refurbishment and replacement of police stations and *(b)* generally. [170321]

Mr. Touhig: My right hon. Friend and I regularly meet with Assembly Secretaries to discuss matters affecting Wales.

The allocation of Private Finance Initiative credit approvals rests with the Home Office. Police projects in Wales also need approval from the National Assembly who fund annual service charges through their revenue grant. Decisions on which projects to support are entirely for the Assembly.

Register of Interests

Bob Spink: To ask the Secretary of State for Wales what the requirements are on his officials to declare current interests; and what register of interests is kept for his departmental officials. [164697]

Mr. Touhig: The Civil Service Management Code sets out the requirement for civil servants declaring any conflict of interest.

Any such declarations are retained on file.

CULTURE, MEDIA AND SPORT

Tourism (Manchester)

Mr. Kaufman: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the work of regional development agencies in developing tourism in Manchester, Gorton. [167346]

Tessa Jowell: The North West Development Agency (NWDA) is working closely with Marketing Manchester, the nominated Destination Management Organisation (DMO) for Manchester. The new DMOs are, in effect, smaller versions of tourist boards. They aim to ensure a strong visitor and market focus to all that is done within the region and strengthen the connection between businesses and other organisations in the tourism sector.

During 2003–04 Marketing Manchester received £695,000 from the NWDA's marketing image budget for tourism and investment campaigns to promote Manchester. £203,000 was also provided from the agency's tourism budget for a variety of tourism development projects.

EDUCATION AND SKILLS

Adult Community Learning Budget

Mr. Brady: To ask the Secretary of State for Education and Skills what the Adult Community Learning Budget is for each English local authority area, expressed *(a)* in cash terms and *(b)* per head of population. [169645]

Mr. Ivan Lewis *[holding answer 29 April 2004]*: I have set out in the following table the total budget as set by central Government for adult and community learning run through local education authorities in England.

The information requested concerning the adult and community budget for each English local authority area expressed *(a)* in cash terms and *(b)* per head of population is not to hand. However, it is being collated and I will write to the hon. Member shortly, and place a copy of my reply in the Libraries of both Houses.

Adult and community learning

	Funding (£ million)[1]
2000–01	145
2001–02	153
2002–03	183
2003–04	206

[1] Total budget, by financial year, on adult and community learning run through local education authorities (recurrent figures). The figures for 2002–03 and 2003–04 include the budgets for neighbourhood learning and family learning, starting from a nil base in 2001–02.

African Educational Institutions

Hugh Bayley: To ask the Secretary of State for Education and Skills what support *(a)* his Department and *(b)* UK educational institutions have given to developing courses for African educational institutions in respect of (i) teacher training courses, (ii) training of health professionals, (iii) distance learning courses and (iv) other courses; and if he will make a statement. [165705]

Alan Johnson: UK Government support for courses for African education institutions in respect of teacher training, training for health professionals, distance learning courses and other courses, is provided by the Department for International Development and I would refer my hon. Friend to the answer given on 31 March 2004, *Official Report*, columns 1444–45W.

There is no central record of the support UK higher education institutions provide for developing courses for education institutions.

British National Party

Keith Vaz: To ask the Secretary of State for Education and Skills what steps he is taking to protect young school children from the campaigning conducted by the British National Party in schools to promote racist propaganda and racist activities. [168285]

Mr. Stephen Twigg: There are safeguards in Sections 406 and 407 of the Education Act 1996 against the promotion and pursuit of partisan political views or activities. Governing Bodies, teachers and LEAs must take reasonable steps to offer pupils a balanced presentation of opposing views where political or controversial issues are brought to their attention. With the introduction of Citizenship education as a statutory subject, pupils have an opportunity to develop their political awareness, critical thinking and the nature of prejudice including racism. All schools have been sent guidance on citizenship education which covers teaching of sensitive and controversial issues.

Class Sizes

Mr. Pike: To ask the Secretary of State for Education and Skills how many children in Burnley were taught in classes of more than 30 on the latest date for which figures are available. [167923]

Mr. Stephen Twigg: The information requested is shown in the table.

Maintained primary and secondary schools [1]: number of pupils in classes of 31 or more pupils taught by one teacher—January 2003

Burnley parliamentary constituency	*Total pupils all classes*	*Number of pupils in classes of 31 or more: Number of pupils*	*Number of pupils in classes of 31 or more: Percentage of pupils [2]*
Maintained Primary	7,651	1,395	18.2
Maintained Secondary	6,272	995	15.9

[1] Includes middle schools as deemed.
[2] Percentage of pupils in those classes expressed as a percentage of pupils in all classes taught by one teacher.

Computers for Schools

Mr. Kilfoyle: To ask the Secretary of State for Education and Skills how much public funding has been

spent on computers for schools in each of the last seven years in *(a)* Liverpool, *(b)* Manchester, *(c)* Leeds and *(d)* Sheffield. [166962]

Mr. Miliband: Schools in Liverpool, Manchester, Leeds and Sheffield local education authorities have benefited from the funding through the Standards Fund grant for ICT (including match funding from the LEA) as follows:

£

	Allocation to:			
	Liverpool LEA	*Manchester LEA*	*Leeds LEA*	*Sheffield LEA*
1998–99	978,576	983,605	1,700,000	1,200,000
1999–2000	1,050,000	1,410,000	1,350,000	900,000
2000–01	2,096,082	1,861,602	2,986,463	1,899,247
2001–02	2,306,630	2,012,866	3,356,591	2,242,424
2002–03	3,247,326	2,932,949	4,687,707	3,997,782
2003–04	3,229,701	2,880,827	4,762,382	3,078,495
2004–05	4,120,244	3,682,324	6,139,762	3,969,335

Mr. Neil Turner: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Wigan in each of the last seven years. [169289]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However, in the last seven years schools in Wigan LEA have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA).

	Allocation to Wigan LEA (£)
1998–99	685,947
1999–2000	675,000
2000–01	1,328,513
2001–02	1,483,483
2002–03	2,141,147
2003–04	2,557,655
2004–05	2,775,768

Computers within Reach Programme

Mr. Pike: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* families in Burnley have benefited from the Computers within Reach programme. [167933]

Mr. Charles Clarke: The Computers within Reach (CWR) scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a State Pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two thirds of teachers to receive a laptop by March 2006.

Burnley was not one of the pilot areas for the CWR scheme.

Mr. Hendrick: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* families in Preston have benefited from the Computers within Reach programme. [168120]

Mr. Charles Clarke: The Computers within Reach (CWR) scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a State Pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two thirds of teachers to receive a laptop by March 2006.

Preston was not one of the pilot areas for the CWR scheme.

Jim Dobbin: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* families in Heywood and Middleton have benefited from the Computers within Reach programme. [168508]

Mr. Charles Clarke: The Computers within Reach scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a state pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two thirds of teachers to receive a laptop by March 2006.

Of the 24,000 computers delivered through the Computers within Reach scheme, approximately 2,200 were for people in the Manchester area including those in and around Heywood and Middleton.

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Secretary of State for Education and Skills what his latest estimate is of the amount spent by his Department on official entertainment in each year from 1996–97 to 2004–05. [168996]

Mr. Charles Clarke: All expenditure on official entertainment is made in accordance with departmental guidance on financial procedures and propriety, based on the principles set out in Government Accounting. The following table sets out such spending in £000s for DfES and its predecessor Department in the relevant years.

£000

	Department for Education and Employment	Department for Education and Skills
1996–97	24	—
1997–98	21	—
1998–99	31	—
1999–2000	21	—
2000–01	20	—
2001–02	—	11
2002–03	—	16
2003–04[1]	—	18
2004–05	—	Not available

[1] Estimated outturn.

Departmental Grants

Mr. Collins: To ask the Secretary of State for Education and Skills how many bodies receive some or all of their funding from his Department; what amount of funding was received by each body in each year since 1997; and who the chief executive is of each body.

[167570]

Mr. Charles Clarke: The information on funding of executive non-departmental public bodies is published annually in the Departmental Report. Information on the chief executives is contained in the individual annual reports issued by each of the executive non-departmental public bodies. Information on other bodies is not available, except at disproportionate cost.

Earn As You Learn

Tim Loughton: To ask the Secretary of State for Education and Skills what percentage of children he expects will be persuaded to remain at school beyond their GCSEs through the earn as you learn scheme.

[169482]

Mr. Ivan Lewis: Extensive independent evaluation of the Education Maintenance Allowance pilots shows that EMA increased participation by eligible 16-year-olds in education by 5.9 percentage points. Judged against historic trends, this represents a major increase. Based on evidence from the pilots, the evaluators predict that in the first year of the national scheme, some 35,000 additional young people will participate in post-16 education in colleges and schools as a result of EMA, and that this will rise to over 70,000 per year when EMA is fully in place.

Education Psychologists

Mrs. Brooke: To ask the Secretary of State for Education and Skills how many education psychologists were working *(a)* in each local education authority and *(b)* in total in each year since 1997.

[168634]

Mr. Miliband: The following table shows the number of education psychologists employed in each local education authority in England in each year from 1997 to 2003, the latest information available.

Annual survey of teachers in service and teacher vacancies (618g)

Education Statistics (Havering)

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the total education budget awarded to Havering was in *(a)* 1997, *(b)* 1999, *(c)* 2001, *(d)* 2003 and *(e)* 2004. [169946]

Mr. Miliband: The following table provides the total education funding for 1997–98 to 2004–05. There have been changes to the structure of Standard Spending Assessments and their successor from 2003–04, Education Formula Spending, which make them incomparable over time: for example, several large transfers from SSA/EFS to grant funding. Only total funding per pupil (including SSA/EFS and grants) is comparable between years. Also, for 2003–04 and 2004–05, pension transfers to EFS and the Learning and Skills Council are excluded from EFS and total funding figures to enable comparison between years.

£ million (real terms at 2002–03 prices)

	SSA/EFS	Grants[1]	Grants
1997–98	98.5	3.5	101.9
1998–99	104.2	1.6	105.7
1999–2000	106.4	2.6	109
2000–01	110.7	8.1	118.8
2001–02	115.1	12.9	128
2002–03	113.1	17.6	130.7
2003–04	116.6	[2]18.4	[2]135
2004–05	121.2	[3]18.9	[3]140.1

[1] Grants are all revenue grants in DfES Departmental Expenditure Limits relevant to EPS pupils aged three to 19. Education Maintenance Allowance's (EMAs) and grants not allocated at LEA level are excluded.

[2] Provisional.

[3] Estimated.

Note:

Real terms figures based on GDP deflators as at 26 March 2004 (2002–03 prices).

Mr. Rosindell: To ask the Secretary of State for Education and Skills how many new computers the Department plans to put in schools in the next five years; and how many of those will be put in schools in Havering. [169949]

Mr. Charles Clarke: Our targets for 2004 were to achieve computer: pupil ratios of 1:8 in primary schools and 1:5 in secondary schools. We have already reached the primary school target and confidently expect to reach the secondary target this year. Funding for ICT in schools is currently available through the Standards Fund and the Devolved Capital Grant and it is for schools to decide how to spend their allocations to best meet their local need and circumstances.

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the forecast budget for the Borough of Havering for education is for 2005–06. [169985]

Mr. Miliband: The Government do not produce forecast budgets by local education authority. The settlement for 2005–06 will be announced in the autumn of 2004.

Electronic On-screen Assessment

Mr. Simmonds: To ask the Secretary of State for Education and Skills what discussions his Department has had with the Qualifications and Curriculum Authority regarding electronic on-screen assessment. [168968]

Mr. Stephen Twigg: The effective use of electronic on-screen assessment will have an important role to play in supporting learners in schools and colleges in the future. Both Ministers and officials in this Department have discussed with the Qualifications and Curriculum Authority ways in which electronic assessment can be introduced, while maintaining standards; ensuring access for all learners; and guaranteeing high security levels. The Qualifications and Curriculum Authority is developing more detailed plans for electronic on-screen assessment, and we look forward to further discussions with it as we seek to promote greater use of such techniques in the learning process.

Examination Boards

Mr. Rosindell: To ask the Secretary of State for Education and Skills if he will make a statement on the readiness of the examination boards for this summer's examinations. [169952]

Mr. Miliband: In 2003, the summer examinations ran smoothly, and students received their results on time. The Qualifications and Curriculum Authority, as regulator, is in close contact with the examination awarding bodies to achieve the same outcomes in summer 2004.

Last November the Secretary of State announced that £100 million would be available over the next two years to help modernise the examination system and ensure its safe delivery. I am glad to say that investment is already delivering improvements. More examiners are being recruited, and training is being provided for examination officers in schools and colleges. Further investment is planned to improve the system for transfer of examination information between schools; colleges and awarding bodies, and streamlining and making more secure the movement of examination papers and scripts. We look forward to close co-operation between the Qualifications and Curriculum Authority and examination awarding bodies to ensure our investment creates an examinations system which fully meets the needs of students, both this year and in the future.

Examination Results

Mr. Wills: To ask the Secretary of State for Education and Skills (1) how many *(a)* black Caribbean, *(b)* Pakistani, *(c)* black African, *(d)* Bangladeshi, *(e)* white, *(f)* Indian and *(g)* Chinese (i) males and (ii) females achieved five A*-C grades at GCSE in each year since 1994; [170121]

(2) how many *(a)* Pakistani, *(b)* black African, *(c)* Bangladeshi, *(d)* white, *(e)* Indian, *(f)* Chinese and *(g)* black Caribbean (i) males and (ii) females achieved level 2 or above at Key Stage 1 in (A) English, (B) mathematics and (C) science in each year since 1994; [170122]

(3) how many *(a)* black Caribbean, *(b)* Pakistani, *(c)* black African, *(d)* Bangladeshi, *(e)* Indian, *(f)* Chinese and *(g)* white (i) males and (ii) females achieved level 5 or above at Key Stage 3 in (A) English, (B) mathematics and (C) science in each year since 1994; [170123]

(4) how many *(a)* Pakistani, *(b)* black African, *(c)* Bangladeshi, *(d)* white, *(e)* Indian, *(f)* Chinese and *(g)* black Caribbean (i) males and (ii) females achieved level 4 or above at Key Stage 2 in (A) English, (B) mathematics and (C) science in each year since 1994. [170124]

Mr. Miliband: The information requested has been placed in the Libraries.

Information and Communications Technology (School Funding)

Mr. Kaufman: To ask the Secretary of State for Education and Skills how much money has been allocated to schools in Manchester, Gorton for information and communications technologies since 2001. [167435]

Mr. Charles Clarke: I refer my right hon. Friend to my answer to his question on the funding spent on computers for schools in Manchester, Gorton in each of the last seven years on 27 April 2004, *Official Report*, column 985W.

School Funding (Wigan)

Mr. Neil Turner: To ask the Secretary of State for Education and Skills (1) how much funding each school in the Wigan constituency has received from the New Deal for Schools; [169284]

(2) how much public money has been spent on repairing schools in Wigan in each year since 1997; [169282]

(3) how much money has been invested in Wigan to build sustainable school sports. [169276]

Mr. Miliband: Table A shows the schools in the Wigan constituency that benefited from investment through the New Deal for Schools (NDS) programme, which ran between 1997–98 and 2000–01.

Since 2001, the majority of capital support has been allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level; this should be held at local authority level.

Table B sets out the capital support made by the Department to Wigan local education authority and its schools since 1997–98, in total and by programme (including all allocations through NDS mentioned in table A).

The Government are investing significant funding to enhance school sports facilities across England. The New Opportunities for PE and Sport Programme is providing £581.25 million in England (£25 million of which has gone towards the Space for Sport and the Arts Programme) and schools from all local education authority areas are benefiting. The Space for Sport and the Arts Programme is providing £130 million to support projects at primary schools in 65 target areas; £4,310,000 will be invested in Wigan to build sustainable school sports facilities. All funds from these programmes have now been allocated to local authorities and schools.

Table A: NDS allocations to schools in the Wigan constituency

Year/School	*Project*	*Package*	*Funding (£)*
1997/98			
Wigan St. Andrew's CofE Junior and Infant School	To renew a backlog of defective roof coverings	LEA wide grant	720,000
Mab's Cross Primary School	To renew a backlog of defective roof coverings	LEA wide grant	720,000
Pemberton Primary and Nursery School	Major repair and replacement of decrepit WC blocks	LEA wide grant	720,000
Beech Hill Community Primary School	Major repair and replacement of decrepit WC blocks	LEA wide grant	720,000
Mere Oaks School	Major repair and replacement of decrepit WC blocks	LEA wide grant	720,000
1998/99			
Beech Hill Community Primary School	Replacement of dining hall/kitchen	—	439,600
2000/01			
The Deanery CofE High School	Replacement of dilapidated accommodation	—	150,000
Scot Lane Community Primary School	Toilet Refurbishment (Group 1)	Project including 13 schools	362,840
Mab's Cross Primary School	Toilet Refurbishment (Group 1)	Project including 13 schools	362,840

Positive Activities for Young People

Diana Organ: To ask the Secretary of State for Education and Skills why the money for the Positive Activities for Young People Initiative is not paid directly to youth and community services. [169880]

Mr. Ivan Lewis: Positive Activities for Young People is a targeted programme that aims to provide diversionary and developmental activities for young people aged eight to 19 years who are at risk of social exclusion or committing crime. There was no one organisation at the local level which covered the whole age group or range of activities. In order to meet the above objectives and to ensure that regional needs and priorities were met, Government Offices were chosen to administer the programme. It is also the role of Government Offices to work with local partners such as Youth Offending Teams and Behaviour Improvement Programme schools to ensure that the target group of young people is reached.

52 Lead Delivery Agents (LDAs) have been appointed across England to manage the delivery of the programme and the performance of the providers delivering the activities. In eight of the 52 areas the LDA role is performed by the Local Authority Youth Service.

SATs

Stephen Hesford: To ask the Secretary of State for Education and Skills what assessment he has made of the Key Stage One pilots; and if he will make a statement. [169790]

Mr. Miliband: The trial started in September 2003 and will cover the 2004 Key Stage 1 assessments, which are not due to be completed until the second half of the summer term. It is therefore too early to have made an assessment of the trial at this stage.

QCA has commissioned an independent evaluation from Leeds university which will focus on a representative sample of 150 of the 5,000 schools taking part in the trial. The evaluation will look at workload and whether the new arrangements ensure really robust and comparable results that can be used as a basis for calculating value-added. We expect a full report to be ready at the beginning of September.

School Sports

Mr. Neil Turner: To ask the Secretary of State for Education and Skills if he will make a statement on the level of investment in school sports in Wigan since 1997. [169275]

Mr. Stephen Twigg: The information is not held in the format requested. Within the context of the statutory National Curriculum, where Physical Education (PE) is compulsory for pupils aged 5–16, it is for individual schools to use their budgets as they judge appropriate.

The Government are investing more than £1 billion in England to transform PE, school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of 5–16 year olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The Department is providing just over £830,000.00 to support the delivery of a School Sport Partnership in the Wigan LEA area. The partnership includes 14 secondary and 40 primary schools and provides enhanced sports opportunities for all young people to ensure that their pupils spend a minimum of two hours a week on high quality PE and School Sport. A key objective for all School Sport Partnerships is to ensure that the improvements and enhanced opportunities that they deliver are sustainable and embedded within schools to ensure a lasting legacy. The New Opportunities Fund has provided schools in the Wigan LEA area with over £4.3 million specifically to enhance PE and school sport facilities.

Jim Dobbin: To ask the Secretary of State for Education and Skills how much money has been invested in Heywood and Middleton since 1997 to build long-term sustainable facilities for school sports. [169439]

Mr. Miliband: We do not hold information at constituency level. The majority of capital funding is now allocated to schools and authorities by needs-related formulae. This enables them to decide how to target the rapidly increasing resources to address their highest priority needs in line with local asset management plans. I would direct my hon. Friend to the answer I gave to his question 168497, which lists capital allocations made to Rochdale local education authority since 1997. Rochdale also received £2,873,000 in November 2001 under the New Opportunities PE and Sports Programme, which is administered by the New Opportunities Fund.

School Tests

Mr. Rosindell: To ask the Secretary of State for Education and Skills if he will make a statement on the merits of performance testing in schools. [169953]

Mr. Miliband: Assessment is an integral part of teaching and learning. National Curriculum testing provides an objective means of testing all children in the country on a consistent basis. It is an important part of

the overall drive to raise standards in the core subjects at the primary and secondary stages and lays firm foundations for future learning.

The information from testing helps teachers to identify strengths and weaknesses, which can then be used to inform teaching and learning. It allows us to compare the progress of children in different schools and provides parents with clear feedback against national standards.

Mr. Cummings: To ask the Secretary of State for Education and Skills what percentage of 11-year-old pupils in the Easington constituency, broken down by school, have reached level four in mathematics and English in the last four years; and if he will make a statement. [168070]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11-year-olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics—since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The results for Easington constituency as a whole, are slightly below the national average in English and above the national average for mathematics and show only a small improvement in mathematics since 2000.

The results for Easington constituency broken down by school are as follows:

	Percentage of pupils achieving level 4							
	2003		*2002*		*2001*		*2000*	
School Name	*English*	*Maths*	*English*	*Maths*	*English*	*Maths*	*English*	*Maths*

England (all schools)	75	73	75	73	75	71	75	72

Note:
The results for St Joseph's Catholic Primary School, Murton and Glendene School have been suppressed as there are less than 11 pupils at Key Stage 2

Schools (External Controls)

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list *(a)* each of the external controls over schools referred to in the document, "Devolved Decision Making: Delivering Better Public Services: Refining Targets and Performance Management", and *(b)* the purpose of each. [165293]

Mr. Stephen Twigg: The definition of external control used in the document is a very broad one. The list identified includes very few direct requirements of schools, but rather a wide range of school performance measures, the majority of which are attributable to Ofsted and their arrangements for conducting section 10 inspections. These place no performance management requirements on schools as nearly all of them are graded judgments made by inspectors when they visit a school on, currently, a six-year cycle.

Ofsted have recently consulted on and are reviewing their current arrangements for school inspection to ensure that parents, teachers, Government and the public continue to receive full, frank, relevant and more frequent information about the performance of schools whilst reducing the burden of inspection. The Department is also currently consulting on an approach to a school profile through which the schools' performance would be recorded.

Secondary School Places

Mr. Boswell: To ask the Secretary of State for Education and Skills how many vacant secondary school places there were in Northamptonshire, broken down by *(a)* school year group, *(b)* borough or district area and *(c)* individual establishment, at the start of the spring term of the school year 2003–04. [169941]

Mr. Miliband: The following table shows the number of surplus secondary school places in Northamptonshire broken down by individual establishment. The figures state the position at the beginning of the calendar year beginning 2003 rather than the school year.

We do not collect surplus place data by school year group, or borough or district area.

Number of surplus places in secondary schools in Northamptonshire at January 2003

Student Statistics

Bob Spink: To ask the Secretary of State for Education and Skills what the staying-on rate at 16 years is for *(a)* Canvey Island, *(b)* Castle Point, *(c)* Essex and *(d)* England. [169796]

Mr. Miliband: Data on the percentage of students staying on in full-time education and education and training is not calculated for areas smaller than local education authorities (LEAs) as reliable estimates cannot be made.

Canvey Island and Castle Point are part of Essex LEA. The percentage of 16-year-olds participating in full-time education, and in education and training in Essex LEA and in England for the latest academic year, as at end 2001, are shown in the table.

Participation in education and training by 16-year-olds in Essex LEA and in England for end 2001

	Essex LEA	*England*
Full-time education	70	71
Education and training[1]	79	82

[1] Includes participation in full-time education, part-time education and government supported training.

Source:

DfES Statistical Bulletin 01/2004, published 26 February 2004.

Participation rates by LEA for 16-year-olds are published in an annual statistical bulletin, 'Participation in Education and Training by 16 and 17-year-olds in Each Local Area in England'.

Teachers' Visas

Andrew Mackinlay: To ask the Secretary of State for Education and Skills whether at any future Ofsted inspection of schools account will be taken of the consequences of the moratorium on issuing visas to teachers appointed to meet the teaching skills and recruitment shortage in schools in Essex and Thurrock, pending the result of the inquiry and visits to Sofia of Mr. Ken Sutton; and if he will make a statement. [170029]

Mr. Miliband *[holding answer 30 April 2004]:* This is a matter for Ofsted. HM Chief Inspector, David Bell, will write to my hon. Friend and place a copy of his letter in the Library.

DEPUTY PRIME MINISTER

Leaseholders (Buildings Insurance)

Sue Doughty: To ask the Deputy Prime Minister when he will implement the parts of the Commonhold and Leasehold Reform Act 2002 that will allow leaseholders to choose their own buildings insurance; and if he will make a statement. [169923]

Keith Hill: Our original intention was to make an Order by May 2004 bringing into force the remaining provisions of the Commonhold and Leasehold Reform Act 2002. These provisions include those relating to property insurance for leasehold houses, accounting and forfeiture. However, the Office of the Deputy Prime Minister needs to consult on the accounting provisions that form part of this Order, allowing a three-month consultation period. We now anticipate the Order being made in November 2004.

Civil Servants

Bob Spink: To ask the Deputy Prime Minister if he will list for each civil service grade within his *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled. [166387]

Yvette Cooper: Data on staffing levels in the civil service is collected by the Cabinet Office and published in Civil Service Statistics. A copy of Civil Service Statistics, 2002 is available in the Library of the House, and at; www.civil-service.gov.uk/statistics. The 2003 edition will be published in summer 2004.

In addition, our Departmental Annual Report also contains staffing information. A copy of the 2004 report is available in the Library of the House.

Departmental Buildings

Mr. Llwyd: To ask the Deputy Prime Minister what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163957]

Yvette Cooper: The Office of the Deputy Prime Minister was established in May 2002. Since that date the following renovation and maintenance projects have been undertaken at the properties (i) owned and (ii) rented by the office. All figures are exclusive of VAT.

£

	2002–03		2003–04	
	Renovation	*Maintenance*	*Renovation*	*Maintenance*
(i) Owned				
Burlington House	0	98,000	25,000	55,000
QEII Conference Centre	0	139,418	400,000	3,127,511
Fire Service College	230,257	108,097	956,008	182,151
Government Office Network	0	0	0	0
(ii) Rented				
ODPM—HQ buildings	2,088,941	0	298,263	649,394
PINS—Temple Quay Bristol	0	0	0	109,316
Fire Service Improvement—Marchington	0	42,416	0	52,766
Valuation Tribunal Office Network	42,822	255,204	115,166	193,059
Government Office Network	102,351	143,000	608,989	191,740

The Office of the Deputy Prime Minister records an item of work as a project if it exceeds £15,000. Work of lower value is funded from bulk maintenance. The number of projects has prevented detailing each, as this could have been provided only at disproportionate cost.

The figures provided are gross expenditure and do not reflect receipts from other building occupants. Although the Office of the Deputy Prime Minister has overall responsibility for the buildings occupied by Government offices, they carry out functions on behalf of 10 Departments.

Housing Developments (Milton Keynes/South Midlands)

Mr. Lidington: To ask the Deputy Prime Minister if he will place in the Library a copy of the submissions made by the Government Office for the South East to the Examination in Public of plans for housing developments in the Milton Keynes and South Midlands area to 2031. [170356]

Keith Hill: The submission of GOSE to the Milton Keynes and South Midlands sub regional strategy public examination is contained in the joint submission by GOEE, GOEM and GOSE.

Copies of the joint submission have been made available in the Library of the House.

Hunting (Tied Properties)

Mr. Drew: To ask the Deputy Prime Minister what plans he has to protect the tenancy rights of those employed by a hunt living in a tied property in the event of a ban on hunting being introduced. [170133]

Keith Hill: The Rent (Agriculture) Act 1976, which provides housing security for qualifying agricultural workers living in tied accommodation, takes its definition of agriculture from the Agriculture Wages Act 1948. The definition does not extend to workers employed solely in activities not related to agriculture such as gamekeeping and hunting. The Office of the Deputy Prime Minister has no plans to extend the definition to cover such activities.

Retained Distribution Centre

Mr. Jenkin: To ask the Deputy Prime Minister if he will list the publications and other products distributed from his retained distribution centre. [169367]

Yvette Cooper: The Office of the Deputy Prime Minister's publications distribution centre holds over 1,300 items for distribution. A list of publications and other products has been made available in the Library of the House.

Roadside Advertising

Mr. Ben Chapman: To ask the Deputy Prime Minister what advice his Department offers local authorities regarding positioning of roadside and roundabout advertising. [170451]

Keith Hill: I refer my hon. Friend to the answer given on 30 April 2004, *Official Report*, column 1332W.

Town Centres

Mr. Stringer: To ask the Deputy Prime Minister (1) when he intends to publish the final version of PPS6; [169866]

(2) how many responses have been received to the consultation paper Planning Policy Statement (PPS) 6: Planning for Town Centres; and if he will list them; [169867]

(3) how many organisations and individuals were invited to respond to Planning Policy Statement (PPS) 6: Planning for Town Centres; and if he will list them. [169868]

Keith Hill: Draft PPS6: Planning for Town Centres was published on 15 December 2003, was launched by my right hon. Friend the Deputy Prime Minister, was widely publicised, put on the Office of the Deputy Prime Minister's website and some 500 copies were sent to a standard list of consultees, including all local authorities, relevant professional and trade bodies, plus investors, developers, retailers, leisure operators and environmental groups—in line with the guidelines on consultation at that time. The consultation closed on 15 March 2004.

The Office of the Deputy Prime Minister has received 384 responses to date, which officials are currently analysing. All responses, except those where the respondent did not agree to their response being made public, will be made available in the library of the House, consistent with normal practice, when the final version of PPS6 is published in the autumn.

Traffic and Community Wardens

Mrs. Dunwoody: To ask the Deputy Prime Minister what the responsibilities of *(a)* traffic wardens and *(b)* community wardens are. [168255]

Yvette Cooper: Traffic wardens are civilian employees of police authorities, but act under the direction of chief officers of police. Section 95 of the Road Traffic Regulation Act 1984 makes provision for them to discharge duties, including law enforcement, normally undertaken by the police in connection with the control and regulation of traffic and stationary vehicles. These functions relate to the control and regulation of, and enforcement of the law relating to, traffic, including pedestrians and stationery vehicles. Traffic wardens can also require vehicles to stop for specific purposes. The powers conferred on traffic wardens and the duties they may undertake are prescribed very precisely by the Home Secretary in the Functions of Traffic Wardens Order 1970, as amended.

Part 1 of the Traffic Management Bill empowers the Secretary of State for Transport as the traffic authority for trunk roads in England, and the National Assembly for Wales as the traffic authority for trunk roads in Wales, to establish a uniformed on-road traffic officer service to manage the traffic consequences of random incidents such as breakdowns, obstructions, debris and accidents.

The Bill enables traffic officers to carry out certain traffic management functions currently carried out on trunk roads by the police in order to deal with incidents and keep traffic moving. Specifically the Bill would provide traffic officers with powers to stop and direct traffic and to place and operate traffic signs. These powers are similar to those of the police and may only be exercised in order to:

assist the movement of traffic;

prevent or reduce congestion;

avoid danger to persons or traffic; or

prevent damage to anything on or near the road.

The traffic officer service will comprise uniformed officials patrolling motorways and trunk roads in England around the clock. They will be appointed by the Highways Agency directly, although the Bill allows flexibility for the service to be contracted out should it ever be decided that this is in the public interest.

Responsibilities for community wardens vary according to local priorities. Wardens and warden schemes do however need to fulfil the four broad categories of environmental improvements, community safety and crime prevention, community development and housing regeneration. They provide a link between local residents and key agencies such as local authorities and the police. And they encourage neighbourhoods to develop innovative ways to tackle their environmental problems and the behaviours that create an atmosphere of neglect and encourage crime.

Unoccupied Property

Mrs. Spelman: To ask the Deputy Prime Minister (1) how many unoccupied non-domestic properties paid empty property business rates in England in each year since 1997; [169485]

(2) how many unoccupied industrial properties were exempt from property business rates in England in each year since 1997. [169492]

Mr. Raynsford: Local authorities have reported that 240,830 non-domestic properties in England received empty premises relief in 2002–03. The latest available figure for 2003–04 is 237,035, as estimated by local authorities in early 2003. Figures were not collected centrally for earlier years, and could be provided only at disproportionate cost.

Information on the number of unoccupied industrial properties in England that are not required to pay business rates is not held centrally and could only be provided at disproportionate cost.

Mrs. Spelman: To ask the Deputy Prime Minister how many empty residential dwellings there were in England in each year since 1997. [169486]

Keith Hill: The available information on empty residential dwellings in England is tabled as follows. This data has been provided from a combination of the Office of the Deputy Prime Minister's Housing Investment Programme return and Housing Corporation's Regulatory Statistical Return.

Vacant dwelling stock, England 1997–2003

	HIP and RSR[2]
1997	767,000
1998	753,000
1999	767,000
2000	761,000
2001	751,000
2002	732,000
2003	720,000

Note:
Figures presented to the nearest thousand.
Sources:
ODPM's Housing Investment Programme return and Housing Corporation's Regulatory Statistical Return.

FOREIGN AND COMMONWEALTH AFFAIRS

Indonesia

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent violence in Aceh. [169154]

Mr. Straw: The British Government regularly raise their concerns about the situation in Aceh with the Indonesian Government, most recently on 20 April 2004 when the British ambassador to Jakarta called on the Indonesian Head of the armed forces, General Sutarto. My hon. Friend the Minister of State at the Foreign and Commonwealth Office (Mr. Mike O'Brien) also raised Aceh with the Indonesian Foreign Minister, Dr. Wirayuda, when he met him at the Asia-Europe Meeting (ASEM) Foreign Ministers' Meeting in Kildare on 18 April.

There continue to be reports of human rights abuses perpetrated by the Free Aceh Movement (the GAM) and the Indonesian armed forces. We are monitoring the situation closely. The Indonesian military has said that it will continue to court-martial soldiers arrested on suspicion of human rights abuses.

We, with our EU partners, continue to urge the Indonesian Government to return to the negotiating table as soon as possible, as only negotiation will offer a long-term solution to this ongoing conflict.

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on end use monitoring of UK arms exports used in Aceh by Indonesian forces. [169155]

Mr. Straw: Our embassy in Jakarta receives information from a wide a range of sources including international agencies, NGOs, other observers, the media and the Indonesian Government as part of their efforts to monitor the use of British-built military equipment. We have had no confirmed reports that British-built military equipment has been used other than for protection and evacuation purposes. We will follow up all credible allegations on the misuse of British-military equipment.

On 18 April 2004 at the Asia-Europe Meeting (ASEM) Foreign Ministers' Meeting in Kildare, my hon. Friend the Minister of State at the Foreign and Commonwealth Office (Mr. Mike O'Brien) raised with the Indonesian Foreign Minister, Dr Wirayuda, the use of British-built military equipment in Aceh.

On 20 April 2004 the British ambassador to Jakarta met the Indonesian Head of the armed forces, General Sutarto. General Sutarto told our ambassador that he had ordered the withdrawal of all remaining British equipment from Aceh. The only British-built equipment in Aceh are armoured vehicles and they have only been used for supply convoy protection and casualty evacuation.

Conflict Prevention Pool

John McDonnell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress of the independent evaluations of the Global Conflict Prevention Pool and the African Conflict Prevention Pool. [170087]

Mr. Rammell: The joint external evaluation of the Africa Conflict Prevention Pool and the Global Conflict Prevention Pool began in June 2003. The fact-finding phase was completed in December 2003 and a final draft report including a synthesis of the main findings and recommendations has now been produced.

The evaluators concluded that the Conflict Prevention Pools are funding worthwhile activities, which make positive contributions to effective conflict prevention, and that the progress achieved through the Pools mechanisms is significant enough to justify their continuation. They also considered that the Pools were demonstrating increasingly good joined-up working between the three Departments.

The interim conclusions of the evaluation helped inform recent work on the Spending Review 2004 process.

Final editing of the Evaluation report is now being done. In summer 2004, the Evaluation, and the Government's response to it, will be published and made available to the House.

John McDonnell: To ask the Secretary of State for Foreign and Commonwealth Affairs how often the joint steering team responsible for the Global Conflict Prevention Pool has met in each year since 2001–02. [170088]

Mr. Rammell: The Steering Team of the Global Conflict Prevention Pool (GCPP) comprises officials from FCO, MOD and DfID as well as representatives of HM Treasury and Cabinet Office.

They have met, usually fortnightly, throughout each year since the GCPP's inception in April 2001, although at busier times they meet every week.

John McDonnell: To ask the Secretary of State for Foreign and Commonwealth Affairs what funds were allocated to the *(a)* Global Conflict Prevention Pool and *(b)* African Conflict Prevention Pool in each year since 2001–02; and how much was spent in each year. [170090]

Mr. Rammell: The budget and spend information requested for *(a)* The Global Conflict Prevention Pool (GCPP) is as follows:

To nearest £ million

Financial year	*Funds allocated*	*Spend*
2001–02	60	50
2002–03	68	66
2003–04	74	[1]86

[1] Current forecast—departmental accounts to be finalised in summer 2004.
Note:
Does not include Peacekeeping figures.

The budget and spend information requested for *(b)* The Africa Conflict Prevention Pool (ACPP) is as follows:

To nearest £ million

Financial year	*Funds allocated*	*Spend*
2001–02	50	43
2002–03	50	45
2003–04	50	[1]40+

[1] Current forecast—departmental accounts to be finalised in summer 2004.
Note:
Does not include Peacekeeping figures.

Hong Kong

Mr. Ben Chapman: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the decision of the National People's Congress Standing Committee on 26 April to refuse to introduce universal suffrage for the election of the Hong Kong Chief Executive in 2007. [169852]

Mr. Rammell: On 26 April, I issued a press release about the Chinese National People's Congress decision on constitutional development in Hong Kong.

The record of the statement can be found on the British Consulate General in Hong Kong's website at www.britishconsulate.org.hk/english/press/pr040426.htm.

Iraq

Tony Baldry: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department had on how the UN Oil For Food programme in Iraq was audited. [169700]

Mr. Rammell: The management and administration of the Oil For Food (OFF) programme was carried out by the UN's Office of the Iraq Programme under a mandate from UN Security Council resolutions. Regular reports were made to and discussed by the UN Security Council. In light of on-going allegations of corruption during the lifetime of the OFF programme, the UK fully supports the adoption of UN Security Council Resolution 1538 (21 April 2004) endorsing a high-level independent inquiry into the management and administration of the programme, and will co-operate fully with that inquiry.

Tony Baldry: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with other UN Security Council members on the fee levied by the UN for operating the Oil For Food programme in Iraq. [169701]

Mr. Rammell: The Government had regular discussions with the UK's Security Council partners on all aspects of the operation of the Oil For Food (OFF) programme until it ended on 21 November 2003. In light of ongoing allegations of corruption during the lifetime of the OFF programme, the UK fully supports the adoption of UN Security Council Resolution 1538 (21 April 2004) endorsing a high-level independent inquiry into the management and administration of the programme, and will co-operate fully with that inquiry.

Ministerial Visits

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the overseas visits made by each Minister in his Department in financial year 2003–04. [169754]

Mr. Straw: Since 1999 the Government have published an annual list of all visits undertaken by Cabinet Ministers costing £500 or more during each financial year. The details for the financial year 2003–04 will be published as soon as possible. During the financial year 2003–04 other Foreign and Commonwealth Office Ministers made the following overseas visits:

Dr. Denis MacShane MP, Minister of State

Date	*Destination*	*Purpose of trip*
3 April 2003	Riga	Joint bilateral visit to Latvia with French Europe Minister
6–8 April 2003	Belgrade, Pristina, Skopje	Bilateral visits to the Balkans
14 April 2003	Luxembourg	General Affairs and External Relations Council
16–17 April 2003	Athens	Informal European Council, Signature of the Accession Treaty and European Conference
29 April 2003	The Hague	Attend Conference on Chemical Weapons Convention
5 May 2003	Brussels	Bilateral
10–12 May 2003	Valletta	Bilateral
15–16 May 2003	Berlin	Konigswinter Conference
19 May 2003	Brussels	General Affairs and External Relations Council
29–31 May 2003	Warsaw	Bilateral
6 June 2003	Madrid	Bilateral
19–21 June 2003	Porto Caras	European Council and EU/Western Balkans Summit
26 June 2003	Rome	Bilateral
30 June 2003	Amsterdam	Apeldoorn Conference
3–4 July 2003	Gibraltar	Bilateral
3–5 September 2003	Oslo and Helsinki	Bilaterals
14–15 September 2003	Kiev	Bilateral

Dr. Denis MacShane MP, Minister of State

Date	Destination	Purpose of trip
19–21 September 2003	Pontignano	Pontignano Conference
21–22 September 2003	Paris and Strasbourg	Bilaterals
29 September 2003	Brussels	General Affairs and External Relations Council
7–11 October 2003	Bucharest, Sofia and Hydra	Bucharest and Sofia: Bilaterals Hydra: Hydra Conference
16–17 October 2003	Brussels	European Council
13–15 November 2003	Madrid and Berlin	Madrid: Bilateral Berlin: BMW European Forum
17–18 November 2003	Brussels	General Affairs and External Relations Council
1–4 December 2003	Maastricht and Naples	OSCE Ministerial Council in The Netherlands and Euromed Conference in Italy
8 December 2003	Brussels	General Affairs and External Relations Council
11–13 December 2003	Brussels	European Council
12–14 January 2004	Ankara, Istanbul and Izmir	Bilateral
20 January 2004	Paris	Bilateral
26 January 2004	Brussels	General Affairs and External Relations Council
30 January 2004	Berlin	Bilateral
6–8 February 2004	Madrid	Bilateral
10 February 2004	Vienna	Bilateral
17–19 February 2004	Amsterdam	Bilateral
23–24 February 2004	Berne	Bilateral
27–28 February 2004	Venice	Aspen European Dialogue Conference
3–4 March 2004	Stockholm	Bilateral
5 March 2004	Skopje	Funeral of Macedonian President
25–26 March 2004	Brussels	Bilateral visit and to attend the European Council

Mike O'Brien MP, Minister of State

Date	Destination	Purpose of trip
1 April 2003	NATO SHAPE, Belgium	Meetings with UK Military Representation and SACEUR
12–14 April 2003	Tehran, Damascus	Bilaterals
26–29 April 2003	Baghdad	Central Iraq Conference
19–21 May 2003	Algiers	Bilateral
22 May 2003	Paris	Conference on Drug Routes
2–5 June 2003	Jakarta	Bilateral
6 July 2003	Palermo	Informal EU Trade Ministers Conference
19–21 July 2003	Beijing	Accompanying the Prime Minister and Trade Delegation on bilateral visit to China
22–25 July 2003	Bali	ASEM Foreign Ministers' Meeting
8–16 September 2003	Cancun	WTO Ministerial Conference
16 October 2003	Berlin	Bilateral
21–24 October 2003	Kabul	Bilateral
2–4 November 2003	Washington	Bilateral
8–12 December 2003	Islamabad and Karachi	Bilaterals
4–8 January 2004	New Delhi and Hyderabad	Bilaterals
26 January 2004	Cannes	Attend MIDEM (Music Industry event)
10–12 February 2004	Casablanca and Rabat	Bilaterals
15–18 March 2004	Ho Chi Minh City and Hanoi	Bilaterals
22–23 March 2004	Warsaw	Bilateral

Baroness Symons of Vernham Dean, Minister of State

Date	Destination	Purpose of trip
30 April 2003	Paris	OECD Trade Ministerial
16 May 03	Washington	Bilateral
15–15 July 2003	Jordan	Bilateral
3 September 2003	Vienna	Comprehensive Nuclear Test Ban Treaty Conference
15–18 September 2003	Morocco and Tunisia	Bilateral
23–25 September 2003	New York	United Nations General Assembly
29 September to 1 October 2003	Israel	Bilateral
8–9 October 2003	Iraq	Bilateral
22–24 October 2003	Madrid	Iraq Donors' Conference
18–20 November 2003	Lebanon	Bilateral
1–2 December 2003	Istanbul	Response to the terrorist attacks against the British Consulate General and HSBC Bank
4 December 2003	Brussels	NATO Foreign Ministerial
8–9 December 2003	Syria	Bilateral
21–23 January 2004	Occupied Territories	Bilateral
23–26 February 2004	Bahrain and Qatar	Bilateral
9–11 March 2004	Jordan	Bilateral
19–19 March 2004	Iraq	Bilateral

Baroness Amos of Asthal, the then Parliamentary Under-Secretary of State

Date	Destination	Purpose of trip
1–6 April 2003	Botswana and South Africa	Bilaterals
14–17 April 2003	Mali	G8 Meeting
5–8 May 2003	Dominican Republic	Bilateral

Chris Mullin MP, Parliamentary Under-Secretary of State

Date	Destination	Purpose of trip
21–25 July 2003	Ghana, Nigeria and Sierra Leone	Bilaterals
28 October to 5 November 2003	Kenya and South Africa	Bilaterals
2–8 December 03	Abuja	Commonwealth Heads of Government meeting
12–20 January 2004	Ethiopia, Djibouti and Eritrea	Bilaterals
3–6 February 2004	Washington and New York	Liberia Donors' Conference
23–24 February 2004	Paris	Bilateral to discuss Africa

Bill Rammell MP, Parliamentary Under-Secretary of State

Date	Destination	Purpose of trip
31 March to 1 April 2003	Washington	Bilateral
11–15 May 2003	Brazil and Colombia	Fundacion Euroamerica Conference
21 May 2003	Stockholm	G8 Global Partnership on WMD—Signing MNEPR Treaty
26–27 May 2003	Crete	Euromed Conference
12–13 June 2003	New York	Conflict Prevention Conference, International Peace Academy
18 June 2003	Madrid	Bilateral
22–27 July 2003	Kabul	Bilateral
6–21 August 2003	Papua New Guinea, Australia, New Zealand and Solomon Islands	Bilateral and attendance at the Pacific Islands Forum (New Zealand)

Bill Rammell MP, Parliamentary Under-Secretary of State

Date	*Destination*	*Purpose of trip*
20–24 September 2003	New York	United Nations General Assembly bilateral meetings
9–10 October 2003	Dublin	Address to Trinity College
16 October 2003	Rome	EU Ministerial meeting
26–31 October 2003	Mexico and Majorca	Mexico: Bilaterals Majorca: Launch of the Travel Foundation for Sustainable Tourism
14 November 2003	Washington	Bilaterals on Democratic Peoples Republic of Korea, Counter-Narcotics and UN Reform

1–3 February 2004	Washington and New York	Washington: Bilaterals New York: Bilaterals and a speech on the UN
15–20 February 2004	Argentina and Uruguay	Bilaterals
2–5 March 2004	Jamaica, Barbados and Trinidad	Jamaica: Round table with CARICOM and Bilaterals Barbados and Trinidad: Bilaterals
18 March 2004	Geneva	UNCHR

President of Poland (Official Visit)

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how many hon. Members other than Privy Councillors have been sent invitations to banquets, receptions and other official events organised or hosted by the *(a)* Royal Family and *(b)* Government for the forthcoming visit of the President of Poland; and if he will make a statement. [170355]

Mr. MacShane: President Kwasniewski of Poland's State Visit will take place from 5 to 7 May. 106 Members of Parliament have been invited to hear President Kwasniewski's keynote speech at University College London on 5 May, 72 of whom are not Privy Councillors. 10 MPs have been invited to the State Banquet at Buckingham Palace, four of whom are not Privy Councillors and one MP who is not a Privy Councillor, has been invited to a reception for the Polish community at St. James's Palace the same night.

Four MPs have been invited to a seminar on economic reform to be held at Lancaster House on 6 May, two of whom are not Privy Councillors. 10 MPs have received invitations to the dinner given by President Kwasniewski at the Dorchester Hotel that night, of whom three are not Privy Councillors. 48 MPs have received invitations to a lunch at the Guildhall in honour of President Kwasniewski on 7 May, 35 of whom are not Privy Councillors.

CABINET OFFICE

Panel for Regulatory Accountability

Brian Cotter: To ask the Minister for the Cabinet Office under what criteria a draft regulation will be referred to the Panel for Regulatory Accountability. [167508]

Mr. Alexander: As set out in the Budget documentation, any regulatory proposal likely to impose a major new burden on business will require clearance from the Panel for Regulatory Accountability, chaired by my right hon. Friend the Prime Minister, based on a thorough impact assessment of the proposal agreed by the Cabinet Office Regulatory Impact Unit.

The criteria for defining major proposals will be based on that set out in the Regulatory Impact Assessment guidance available at www.cabinet-office.gov.uk/regulation and copies are available in the Library.

Brian Cotter: To ask the Minister for the Cabinet Office if he will make a statement on the *(a)* role, *(b)* function and *(c)* membership of the Panel for Regulatory Accountability. [167509]

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office if he will set out the reformed functions of the Panel for Regulatory Accountability. [169017]

Mr. Alexander: The role of the Panel for Regulatory Accountability is to clear any regulatory proposal likely to impose a major new burden on business. The panel will consider all such proposals in the context of Departments' previous regulatory performance and the overall burden of regulation across key business sectors.

Apart from chairmanship by my right hon. Friend the Prime Minister, the membership of the panel remains unchanged, and information on the existing Panel can be found on the Cabinet Office website at www.cabinet-office.gov.uk and in the Library.

Public Bodies

Mr. Edward Davey: To ask the Minister for the Cabinet Office when he expects the next version of Public Bodies to be published. [169115]

Mr. Alexander: For 2004, the Cabinet Office are replacing the existing publication with a searchable database, accessible via the internet. Development and testing are continuing, but it is hoped the results will be available before the end of 2004.

Emergency Planning

Miss McIntosh: To ask the Minister for the Cabinet Office what the civil contingencies grant for emergency planning to *(a)* North Yorkshire, *(b)* the City of York, *(c)* Hambleton district council and *(d)* Harrogate borough council was in each year since 2000. [165088]

Mr. Alexander: The Civil Defence Grant is paid as a contribution to the cost of civil protection at the local level. The level of funding available for counter terrorism and civil protection has substantially increased in recent years, including £330 million for counter terrorism work in the 2003 Budget.

179 local authorities are eligible for the Civil Defence Grant. These are the authorities with a statutory duty for civil defence, namely county councils, metropolitan districts and London boroughs, unitary authorities, and Fire and Civil Defence Authorities. Shire districts, such as Hambleton and Harrogate, have no statutory duty for civil defence and therefore receive no direct funding from central Government. Shire counties carry out emergency planning on behalf of their districts and for this work they receive an additional amount included in their grant allocation, currently set at £12,000 per district.

The allocations of Civil Defence Grant to the authorities of North Yorkshire county council and the City of York council since the financial year 2000–01 are set out in the table. The increase in 2001–02 was due to the suspension of the process of allocating funding by use of a formula. Following negotiations with the local Government Association, the Civil Defence (Grant) Act 2002 re-established a formula, which led to the stabilisation of grant levels in 2002–03.

£

Financial year	*North Yorkshire Civil Defence Grant*	*City of York Civil Defence Grant*
2000–01	161,369	50,525
2001–02	268,150	79,815
2002–03	244,137	71,834
2003–04	244,523	72,220
2004–05	244,523	72,220

Mr. Howell James

Norman Baker: To ask the Minister for the Cabinet Office (1) if he will make a statement on the process which led to the appointment of Mr. Howell James as Permanent Secretary in charge of Government Communications, with particular reference to political involvement; [167779]

(2) by what means the post of Permanent Secretary, Government Communications, was advertised to *(a)* Civil Service candidates and *(b)* the general public; [167780]

(3) how many persons applied for the post of Permanent Secretary, Government Communications; how many were shortlisted; and how many were interviewed; [167781]

(4) if he will list the members of the panel who selected the Permanent Secretary, Government Communications. [167782]

Mr. Alexander: This post was openly advertised in early December, and the usual selection process for appointing Permanent Secretaries was followed and overseen by the First Civil Service Commissioner, Baroness Usha Prashar. The decision to advertise was taken with my agreement.

The post was advertised on the Civil Service Recruitment Gateway website and circulated to members of the Senior Civil Service. An advertisement also appeared in the national press in December. Headhunters were also engaged to complement this process.

Of the 86 people who applied, five were interviewed by the Panel.

The Panel to select the Permanent Secretary, Government Communications was chaired by the First Civil Service Commissioner, Baroness Usha Prashar. Also on the panel were Sir Andrew Turnbull, Head of the Home Civil Service and Secretary to the Cabinet, Sir Richard Mottram, Permanent Secretary of DWP, Bob Phillis, CE Guardian Media Group, and Sally Davis BT Global Products.

As is normal practice, the appointment of Mr. Howell James was approved by the Prime Minister on the recommendation of the Head of the Home Civil Service.

Recycled Paper

Norman Baker: To ask the Minister for the Cabinet Office if he will list the Department's main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports, in each case stating (i) the name of each paper used and (ii) the (A) recycled and (B) post-consumer recycled content of each paper. [167737]

Mr. Alexander: Information on the Cabinet Office's main suppliers of copier paper, envelopes, stationery and paper for reports are shown in the table.

Percentage

	Supplier	*Name ofpaper used*	*Recycled content*	*Post consumer recycled content*

[1] Elemental Chlorine Free pulp (ECF) is the process of bleaching the pulp without using harmful chlorine compounds.

Sustainable Development

Norman Baker: To ask the Minister for the Cabinet Office what steps he is taking to promote the delivery of sustainable development within Government. [167741]

Mr. Alexander: Promoting the delivery of sustainable development within Government is the responsibility of the Department for Environment, Food and Rural Affairs (DEFRA), but one for which all Departments have a role to play.

The Cabinet Office is working closely with DEFRA to ensure that sustainable development is embedded into all of the Departments operations. For example, the Regulatory Impact Assessment (RIA) template has recently been amended to incorporate DEFRA's Integrated Policy Assessment (IPA) tool. Departments must now identify not only economic costs and benefits but also any social and environmental costs and benefits for all major proposals.

DEFENCE

Cluster Bombs

Norman Lamb: To ask the Secretary of State for Defence how many cluster bombs are stockpiled by the Ministry of Defence, broken down by type. [169956]

Mr. Ingram: Stockholdings of cluster bombs are held at an authorised War Reserve stock figure. Details of the precise numbers of weapons could provide a potential adversary with information that could undermine our defence capabilities. This information is therefore withheld in accordance with Exemption 1 (Defence, Security and International Relations) of the Code of Practice on Access to Government Information.

Norman Lamb: To ask the Secretary of State for Defence when current stockpiles of *(a)* BL-755 cluster bombs and *(b)* RBL-755 cluster bombs will become obsolete; what plans his Department has (i) to replace them and (ii) to destroy them; and if he will make a statement. [169957]

Mr. Ingram: On current plans all stockpiles of the BL755 and the RBL755 cluster bomb will be withdrawn from RAF service before the end of the decade. The IBL755 will be withdrawn from service by the end of this year. Existing stocks of all three variants will be disposed of through recognised de-militarisation procedures.

Based on current predictions these weapons will not be replaced. However, it is intended that the Brimstone advanced air-launched anti-armour weapon will replace the capability of the RBL755 in the anti-armour role.

Defence Personnel (Vale of York)

Miss McIntosh: To ask the Secretary of State for Defence what the *(a)* role and *(b)* specialisation is of the Royal Naval personnel serving in the Vale of York. [170003]

Mr. Caplin: Royal Naval Personnel are employed at the Defence High Frequency Communications Service facility at Forest Moor. Their role is to provide specialist military oversight and guidance to the contractor who operates the site. Personnel are drawn from the Weapons Engineering and Operator Mechanic (Communications) specialisations.

The RN also has a small number of personnel based at Linton-on-Ouse who are Qualified Flying Instructors, and a number of RN student pilots undertake training here on an annual basis.

Defence Science and Technology Laboratory

Mr. Gerald Howarth: To ask the Secretary of State for Defence what proportion of the Defence Science and Technology Laboratory's revenue has been derived from QinetiQ; and what proportion of its outgoings have been paid to QinetiQ since the creation of QinetiQ. [169388]

Mr. Ingram: In 2001, the Defence Research and Evaluation Agency was split to form the PPP QinetiQ, and the Defence Science and Technology Laboratory (Dstl).

Since vesting the income derived by Dstl from QinetiQ by financial year is as follows:

Financial year	*Income (£ million)*
2001–02	17.75
2002–03	18.50
2003–04	12.55
Total	48.80

Dstl expenditure with QinetiQ since vesting by financial year is as follows:

Financial year	*Expenditure (£ million)*
2001–02	53.57
2002–03	67.40
2003–04	57.74
Total	178.71

Departmental IT Infrastructure

Mr. Nigel Jones: To ask the Secretary of State for Defence (1) if he will make a statement on the advantages and disadvantages of privatising IT infrastructure in his Department; [168386]

(2) what assessment he has made of the effect of privatisation of IT infrastructure in his Department on national security. [168385]

Mr. Ingram: These questions have been answered with respect to the Defence Information Infrastructure (DII) programme. The Ministry of Defence is currently in negotiations with two potential commercial Delivery Partners (DP) for the provision of information systems services for Ministry of Defence.

It should be noted that the DII programme is not a privatisation of IT infrastructure. Under the terms of the Public-Private Partnership arrangement, the MOD will continue to own the infrastructure but the delivery of the service will be the responsibility of the commercial Delivery Partner.

The DII programme is crucial to the delivery of the Defence Change Programme and has the potential to support delivery of significant benefits across Defence. The DII programme will enable Defence to realise a greatly increased capability at reduced cost. The three main benefits of DII are:

the reduced cost of providing computing facilities due to the economy of scale;

the ability to put in place pan defence corporate processes that improve the way Defence conducts its business on a day-to-day basis; and

the ability to integrate more closely our battlefield systems with our support systems, leading to improved decision making and intelligence collection and analysis.

No disadvantages to the implementation of the DII programme have been identified.

The DII programme will not increase threats to national security. Deployed operations will continue to be supported by Service personnel. Increment One of the programme currently consists of 72,000 workstations. Only 10,000 of these are currently supported by in-house staff. The remainder are already supported by commercial service providers.

As a key part of providing a Network Enabled Capability, DII will improve national security both on deployed operations and in the United Kingdom. As a pan-defence service, it will greatly improve the ability to exchange operational information within the MOD, between the three Services, and between fixed locations and deployed elements of the Services.

RAF Bases

Mr. Beith: To ask the Secretary of State for Defence if he will place in the Library a copy of the investment appraisal of the proposed move of most of the activities of RAF Boulmer to RAF Scampton. [169163]

Mr. Ingram *[holding answer 28 April 2004]:* A list of the principal options considered during the study into the future basing of the RAF's Air Combat Service Support Units and other minor units, including RAF Boulmer, has been made widely available during the course of the study. Defence officials have also given the right hon. Gentleman and other hon. Members a personal briefing. In addition, my right hon. Friend the Prime Minister and I have written to the right hon. Gentleman with information on the relative costs in investment appraisal terms, of maintaining Boulmer as now and moving units to RAF Scampton. Copies of these letters have been placed in the Library of the House.

In my written ministerial statement of 23 April 2004, *Official Report*, column 30WS, I indicated the option I am inclined to accept. I will not make a decision on the outcome of the study until formal consultation with the Ministry of Defence Trade Unions is complete. While this process is continuing, I am withholding details of the Investment Appraisal in accordance with Exemption 2 of the Code of Practice on Access to Government Information, which relates to internal discussion and advice. In the meantime, I am placing a list of the principal options considered in the Library of the House.

Parliamentary Questions

Lady Hermon: To ask the Secretary of State for Defence when he expects to be able to write to the hon. Member for North Down with the information requested in her question ref.151328. [170094]

Mr. Ingram: Further to my answer of 2 February 2004, *Official Report*, column 746W, the information requested is still not available due to serious computer failure. As it is proving impossible to retrieve

information by this means within a reasonable timeframe, we are looking at other ways of providing the information requested. I would hope to be in a position to write to the hon. Member in the next few weeks.

Procurement

Mr. Hancock: To ask the Secretary of State for Defence which procurement decisions in each of the last five years have not been made solely on the basis of best value for money. [169703]

Mr. Ingram: As I said in my reply of 3 November 2003, *Official Report*, column 427W, value for money is a fundamental factor in all our procurement decisions. In assessing value for money we take account of the long-term implications of decisions, including their industrial and wider economic impact. As set out in the Government's Defence Industrial Policy, we seek to maximise the economic benefit to the United Kingdom from our defence expenditure, a healthy and globally competitive defence industry and the development of a high value technologically-skilled industrial base, consistent with the Government's wider manufacturing strategy.

Information on all procurement decisions taken throughout the Department is not held centrally and could be provided only at disproportionate cost.

Quick Reaction Alert Aircraft

Miss McIntosh: To ask the Secretary of State for Defence what the role of Quick Reaction Alert aircraft is. [169991]

Mr. Ingram: Quick Reaction Alert (QRA) comprises armed Tornado F3 aircraft held at ground readiness for immediate take-off, the Air Surveillance and Control System to provide warning and command and control of the fighter aircraft, and tanker aircraft also held at high ground readiness. QRA fulfils two concurrent functions. Firstly, it meets the United Kingdom's responsibility within NATO to provide air policing of agreed member airspace. Secondly, under UK national control, QRA provides an airborne contribution to countering threats against the UK by terrorist organisations or individuals.

Miss McIntosh: To ask the Secretary of State for Defence how many aircraft are on Quick Reaction Alert status at *(a)* RAF Leeming, *(b)* RAF Leuchars and *(c)* RAF Coningsby. [169992]

Mr. Ingram: To provide geographic coverage, there are two aircraft continuously on Quick Reaction Alert at RAF Leuchars and a further two at RAF Coningsby. Aircraft and personnel for the latter are provided from Tornado F3 squadrons deployed from RAF Leeming.

CONSTITUTIONAL AFFAIRS

Court Closures (Luton)

Andrew Selous: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the effect on delays to court hearings of the current closure of courts in Luton. [169405]

Mr. Leslie: The Department for Constitutional Affairs has allocated £1.85 million of capital funding in order to carry out essential building maintenance and improvement work at Luton magistrates court. While work is being carried out to this courthouse it will be closed for six months starting from July 2004. No other courts will close. Neighbouring court accommodation will be used during this period at Luton Crown and county courts and Bedford county and magistrates court. Additionally, temporary accommodation is being provided at Dunstable courthouse.

My Department's officials have worked with the Justice Chief Executive for Bedfordshire Magistrates' Courts Committee and no delays to court hearings are expected.

Emergency Protection Orders

Mr. Andrew Turner: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to the answer of 2 March 2004, *Official Report*, columns 852–53W, on emergency protection orders, how many applications were heard for emergency protection orders in each county in England in each year from 1997 to 2001, and what proportion was granted. [170973]

Mr. Leslie: Figures showing the number of applications for an emergency protection order and the number of orders made, by each county in England for the years 1997 to 2001, are provided in a table, which has been placed in the Library.

Operation Payback

Mr. Ben Chapman: To ask the Parliamentary Secretary, Department for Constitutional Affairs what initial assessment he has made of the effectiveness of Operation Payback on the Wirral. [167965]

Mr. Leslie: Operation Payback was conducted in the Wirral on 23 March and was considered a success. Enforcement Officers, working closely with the Police, executed 194 outstanding warrants and collected £13,600 during the day. In the Merseyside area as a whole approximately £36,000 was collected during the three days that the Magistrates Courts Committee (MCC) ran the operation. The MCC also reported an increase in compliance in the payment of fines following the operation, although separate figures for cases directly involved in Operation Payback are not available.

Special Immigration Appeals Commission

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will place in the Library the transcripts of the judgments of the Special Immigration Appeals Commission in cases relating to *(a)* detention under the Anti-terrorism, Crime and Security Act 2001 and *(b)* removal of nationality under the Nationality, Immigration and Asylum Act 2002; and if he will make a statement. [167993]

Mr. Lammy: A copy of the Special Immigration Appeals Commission's open judgments in cases relating to detention under the Anti-terrorism, Crime and Security Act 2001 will be placed in the House of

Commons Library in the forthcoming weeks. The Commission have yet to hear a substantive Deprivation of Citizenship appeal under the Nationality, Immigration and Asylum Act 2002 provisions.

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the costs have been of *(a)* administration and *(b)* the salaries and expenses of members of the Special Immigration Appeals Commission (i) to date and (ii) on average in relation to (A) appeals against removal of nationality and (B) consideration of cases of detainees under the Anti-terrorism Crime and Security Act 2001; and if he will make a statement. [168225]

Mr. Lammy: As the Special Immigration Appeals Commission is administered jointly with other jurisdictions, separate records in respect of operational costs of its administration, and the salaries and expenses of its members, are not collated. To provide this information would incur-disproportionate costs.

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to his answer of 27 April 2004, *Official Report*, columns 896–97W, on Special Immigration Appeals Commission Hearings, if he will place in the Library transcripts from open sessions of the Commission *(a)* with sensitive appellants' details excised and *(b)* in cases where the appellant has either identified himself or agreed to his identity being revealed; and if he will make a statement. [170169]

Mr. Lammy: The transcripts from the sessions of the Special Immigration Appeals Commission (SIAC) are not divisible between the open and closed sessions and it would therefore be inappropriate to release them into the public domain due to the sensitivity of the material. The administrative processes of SIAC are reviewed on an ongoing basis and consideration is being given to the publication of material from the open sessions of SIAC.

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many appeals to the Special Immigration Appeals Commission against detention under anti-terrorism and removal of nationality legislation are outstanding; what dates have been set for each of those appeals; what the expected timetable is for each of those appeals *(a)* for open session hearings and *(b)* in total for each case; and if he will make a statement. [170170]

Mr. Lammy: There are currently four appeals outstanding before the Special Immigration Appeals Commission (SIAC); three of the appeals are against certification pursuant to Part 4 of the Anti-terrorism, Crime and Security Act 2001, with the remaining appeal brought against an order of the Secretary of the State for the Home Department pursuant to s40A of the British Nationality Act 1981. A provisional timetable for the serving of evidence by both parties in each of the outstanding appeals has been issued by SIAC. For the three appeals pursuant to Part 4 of the Anti-terrorism, Crime and Security Act 2001 the provisional timetables are as follows:

Timetable of Appeal for I, Issued 9 January 2004, Date for Submission

Rule 38 hearing to commence

12 April 2004

Provisional substantive hearing date

8 June 2004

Timetable of Appeal for S, Issued 9 January 2004, Date for Submission

Rule 38 hearing to commence

21 June 2004

Provisional substantive hearing date

12 July 2004

Timetable of Appeal for K, Issued 9 January 2004, Date for Submission

Rule 38 hearing to commence

2 June 204

Provisional substantive hearing date

22 June 2004

The timetable for the outstanding appeal brought against an order of the Secretary of the State for the Home Department pursuant to s40A of the British Nationality Act 1981 is as follows:

Timetable of Appeal for Mostafa Kamel Mostafa aka Abu Hamza, Issued 26 April 2004, Date for Submission

Amendments to the Appellant's Grounds of Appeal, whether by addition or deletion, to be notified to the respondent and the Commission

30 July 2004

Provisional substantive hearing date

10 January 2005

Agreement as to the mixture of open and closed sessions of the appeals will be decided on the first day of each relevant substantive appeal.

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many appeals have been heard by the Special Immigration Appeals Commission; and for how many *(a)* days and *(b)* hours in total the Commission has sat in open session in relation to appeals against detention under anti-terrorism legislation and removal of nationality. [170171]

Mr. Lammy: To date there has been a combined total of fifteen substantive appeals heard before the Special Immigration Appeals Commission (SIAC). Of the 15 substantive appeals, two were brought before SIAC pursuant to the Special Immigration Appeals Commission Act 1997, with the remainder brought before SIAC pursuant to the Anti-terrorism, Crime and Security Act 2001. Information relating to the amount of *(a)* days, and *(b)* hours SIAC has sat in open session is not available without incurring disproportionate costs.

PRIME MINISTER

Climate Change

Norman Baker: To ask the Prime Minister what account he took of Sir David King's views on the need to tackle climate change in deciding what time to set aside for his speech at the launch of the Climate Group on 27 April. [169862]

The Prime Minister: Sir David King and I are in full agreement that climate change is one of the most serious environmental threats we face and that we need to address it now. I fully support the Climate Group's aim of promoting the acceleration of reductions in global emissions of greenhouse gases.

Norman Baker: To ask the Prime Minister what the cost to public funds was of the launch of the Climate Group on 27 April. [169896]

The Prime Minister: The Climate Group is not a Government-funded entity. Funding for the event is a matter for the Climate Group.

Departmental Procurement (Sea Bass)

Mr. Sanders: To ask the Prime Minister if he will make it his policy to ensure that sea bass served at functions at which he is the host is sourced from hand-line fishermen rather than pair trawlers. [167546]

The Prime Minister: I refer the hon. Member to the answer my hon. Friend the Minister for Fisheries, (Mr. Bradshaw) gave to him on 30 April 2004, *Official Report*, column 1344W.

EU Constitution

Mr. Austin Mitchell: To ask the Prime Minister if it remains the intention of the Government in the forthcoming Inter-Governmental Conference on the proposed EU constitution not to accept qualified majority voting on all matters of social security. [169765]

The Prime Minister: Yes. Unanimity for social security for migrant workers is a Government red line.

Mr. Austin Mitchell: To ask the Prime Minister if he will list those policy areas where the Government have agreed that qualified majority voting should replace unanimity under the proposed EU Constitution. [169766]

The Prime Minister: The Constitutional Treaty has not been agreed, but our approach to the extension of QMV will, as always, be to agree where it is in Britain's interests, but not to do so in areas where our national interests dictate otherwise. We welcome the use of QMV as the general rule for legislative proposals.

Those areas for which we will insist that unanimity remains are set out in the White Paper—The British Approach to the European Union Intergovernmental Conference 2003.

Mr. Austin Mitchell: To ask the Prime Minister if, consequent to his decision to hold a referendum on the proposed constitution of the European Union, he will publish a white paper in which in respect of each of the proposed articles he will state the part of any treaty already in force which contains the same or amended, content; and, for those articles which do not, if he will set out an explanation of the case for the new provisions and their likely effect on the United Kingdom and its judicial procedures. [169893]

The Prime Minister: The Government will publish a range of material to accompany the Constitutional Treaty, including a laypersons' guide and a comprehensive analysis and comparison of the existing Treaties and the new Constitutional Treaty.

Mr. Howard: To ask the Prime Minister pursuant to his Statement on Europe, of 20 April 2004, *Official Report*, columns 155–57, whether it is his policy to describe the draft Constitution for Europe as a tidying-up exercise. [170572]

The Prime Minister: The Government made clear their view of the draft constitutional treaty in their White Paper of September 2003—paragraphs 41 to 43. The draft treaty consolidates the existing treaties into a single logically ordered text; sets out a more transparent and accountable structure for the EU; makes it clear that the national Governments of the member states remain in control; and it provides for a more efficient European Union after enlargement.

There are a number of changes that the Government wish to see to the draft text. If a treaty is successfully negotiated it will not alter the constitutional relationship between the Union and the member states, and would be less far reaching than changes brought into effect by either the Single European Act or the Maastricht treaty.

Mr. Howard: To ask the Prime Minister pursuant to his statement on Europe, of 20 April 2004, *Official Report*, columns 155–57, what factors he took into account in reaching his decision on whether to hold a referendum. [170573]

The Prime Minister: The factors leading to the Government's decision to hold a referendum were set out in my statement of 20 April 2004, *Official Report*, columns 155–57.

Mr. Howard: To ask the Prime Minister pursuant to his answer, of 21 April 2004, *Official Report*, column 287, what discussions he held with ministerial colleagues prior to his decision to hold a referendum on the European constitution. [170574]

The Prime Minister: I have nothing to add to my previous answer.

European Evidence Warrant

Mr. Cash: To ask the Prime Minister (1) if he will veto the legislative instrument proposing the European Evidence Warrant; [170781]

(2) if he will refuse to accept the European Constitution if at the next Summit on the European Constitution the European Evidence Warrant forms part of the corpus of the draft Constitution and laws of the EU. [170783]

The Prime Minister: No. We shall seek to negotiate effective arrangements in the UK's interests.

Mr. Cash: To ask the Prime Minister what assessment he has made of whether the European Evidence Warrant complies with the Human Rights Act 1998. [170782]

The Prime Minister: Under Article 6 of the Treaty on European Union, all legislative instruments must respect fundamental rights, as guaranteed by the European Convention on Human Rights. The Government would of course ensure that implementing legislation was compatible with the Human Rights Act.

House of Lords

Mr. Gregory Campbell: To ask the Prime Minister if he will bring forward proposals to ensure that political representation in the House of Lords from Northern Ireland reflects the community there. [170488]

The Prime Minister: As I have made clear before, membership of the House of Lords is kept under ongoing review.

Kyoto Protocol

Llew Smith: To ask the Prime Minister on what date he last raised the Kyoto Protocol on Climate Change with President Bush. [170998]

The Prime Minister: I regularly have discussions on a wide range of issues with President Bush including on climate change. As with previous Administrations, it is not the practice of this Government to make public details of discussions with foreign Governments under exemption l(b) of the Code of Practice on Access to Government Information.

Libya

Mr. Swayne: To ask the Prime Minister if he will secure from Libya an inventory of the arms that it supplied to the IRA. [170342]

The Prime Minister: I refer the hon. Member to the answer my hon. Friend the Parliamentary Under-Secretary of State at the Northern Ireland Office (Mr. Pearson) gave to the hon. Member for South Antrim (David Burnside) on 26 April 2004, *Official Report*, column 822W.

Middle East

Mr. Howard: To ask the Prime Minister pursuant to his statement on Iraq and the Middle East Peace Process, of 19 April 2004, *Official Report*, columns 21–23, (1) whether he urged President Bush that the Quartet should be involved in further decisions affecting the peace process rather than for such decisions to be decided bilaterally between the United States and Israel; [170575]

(2) what representations he made to President Bush before the President announced his endorsement of Prime Minister Sharon's plans. [170576]

The Prime Minister: I regularly have discussions with President Bush on a wide range of issues, including the Middle East Peace Process. As with previous Administrations it is not the practice of this Government to make public all details of discussions with foreign Governments under exemption l(b) of the Code of Practice on Access to Government Information.

I have made clear my view that the Quartet—which is meeting at Principals level in New York today—must lead the international community's efforts to take forward the Middle East Peace Process through the Roadmap. I hope that today's meeting will see the Quartet playing that role fully.

Morganatic Marriages

Andrew Mackinlay: To ask the Prime Minister whether he has recently held discussions on introducing legislation permitting members of the Royal Family to enter into morganatic marriages; and if he will make a statement. [170550]

The Prime Minister: I have had no such discussions.

Official Visits

Mr. Andrew Turner: To ask the Prime Minister if he will list the overseas *(a)* cities and *(b)* countries which he has visited on official business in the first four months of 2004, broken down by date of visit. [170972]

The Prime Minister: Since 1999 the Government have published an annual list of all visits overseas undertaken by Cabinet Ministers costing £500 or more during each financial year. A list of all visits overseas undertaken by Cabinet Ministers from 1 April 2003 to 31 March 2004 is currently being collated and will be published in the normal way before the summer recess.

WORK AND PENSIONS

Disability Living Allowance

Hywel Williams: To ask the Secretary of State for Work and Pensions (1) what the average period was between a disability living allowance application form being received and it being considered by a decision maker in respect of applications *(a)* from Wales, *(b)* from England, *(c)* in Welsh and *(d)* in English in each of the last three years; [170221]

(2) what percentage of disability living allowance decision makers are able to work through the medium of Welsh; [170222]

(3) what the target period is for the time between the receipt of a disability living allowance application form and its consideration by a decision maker; [170223]

(4) what percentage of disability living allowance claims submitted in Welsh are considered using *(a)* the original Welsh versions and *(b)* a translation into English; and what criteria are employed in decisions as to whether claims submitted in Welsh are translated for consideration in English; [170224]

(5) what arrangements are in place for the translation into English of disability living allowance application forms completed in Welsh. [170225]

Maria Eagle: Information on the time taken for a disability living allowance claim to reach the decision maker following receipt in the Disability and Carers Service is not routinely collected.

There are three Welsh speaking Decision Makers (DMs) and one Administrative Officer all based in Cardiff Disability Benefits Centre (DBC). The total number of Decision Makers in the Disability and Carers Service nationally is approximately 1,170.

The clearance targets set by the Secretary of State, against which performance is judged, reflect overall clearance times, from claim registration to decision notification and no distinction is made between those claims received in the Welsh language and those in English. In the year ended March 2004 the national target performance on new claims cleared was an average of 39.7 days against a target of 42 days. On renewal claims the national performance achieved was an average of 28.2 days against a target of 32 days.

Any disability living allowance claim completed in Welsh received in the Disability and Carers Service whether in Cardiff Disability Benefits Centre, which administers new claims for the whole of Wales, or elsewhere is initially translated into English by the Welsh speaking staff based in the Cardiff Disability Benefits Centre. It is then processed in exactly the same way as a claim completed in English. Cardiff translated 28 disability living allowance and 78 attendance allowance claim forms from Welsh into English in the year to March 2004.

Incapacity Benefit

Ms Walley: To ask the Secretary of State for Work and Pensions how many complaints have been received in the West Midlands about the tests for work applied to those on incapacity benefit. [168974]

Maria Eagle: The administration of incapacity benefit claims is carried out by Jobcentre Plus; the medical examinations are carried out by Atos Origin, which provides medical services on behalf of Jobcentre Plus.

Information on the number of complaints made to Jobcentre Plus about incapacity benefit tests is not collected centrally and could be obtained only at disproportionate cost.

For the period March 2003 to February 2004, Birmingham Medical Services, which covers the West Midlands, carried out 43,162 incapacity benefit related medical examinations; for the same period it received 114 complaints about these examinations. These complaints covered a range of issues including clinical findings, accommodation, and travelling expenses.

Ms Walley: To ask the Secretary of State for Work and Pensions what guidance is issued to those *(a)* in receipt of incapacity benefit and *(b)* who have carer's responsibilities in respect of jobseeker's allowance; and if he will make a statement. [168975]

Maria Eagle: General advice regarding all benefits is available to customers from Jobcentre Plus staff before a claim is made; advice regarding a customer's specific needs is given at new claim stage by the contact centre and by the customers personal and financial advisers.

Leaflet SD4 "Caring for someone" and Leaflet SD1 "Sick or disabled" are available from Jobcentre Plus offices and give detailed information for customers wishing to claim incapacity benefit or who have caring responsibilities. Copies are available in the Library.

No advice is given to people in receipt of incapacity benefit with regard to jobseeker's allowance specifically; however customers who are no longer eligible for incapacity benefit due to the results of a personal capability assessment, or because they are no longer ill may be advised to claim jobseeker's allowance if they are available for work.

People who claim jobseeker's allowance and have caring responsibilities are allowed to restrict the hours they are available for work to less than 40 hours, providing they are available for as many hours as their caring responsibility allows, and that this is at least 16 hours a week.

Maternity Benefits

Mr. Willetts: To ask the Secretary of State for Work and Pensions (1) whether women who have been in paid employment throughout pregnancy who changed employer during this period will be eligible via *(a)* statutory maternity pay and *(b)* maternity allowance for 90 per cent. of average weekly earnings for the first six weeks of paid leave where they have not been employed by their current employer for 26 weeks; [167332]

(2) whether the benefits available through maternity allowance are equal to those made through statutory maternity pay for women who have been in paid employment during pregnancy; and if he will make a statement; [167333]

(3) if he will make statutory maternity pay available to women who change employer during pregnancy without taking a break; and if he will make a statement; [167334]

Maria Eagle: Statutory Maternity Pay (SMP) and Maternity Allowance (MA) are an integral part of the measures the Government has taken to help parents balance their work and family life.

Both SMP and MA can be paid for up to 26 weeks. SMP is paid by the employer at 90 per cent. of the woman's average weekly earnings for the first six weeks followed by the lesser of £100 a week or the 90 per cent. rate; MA is paid by the Department for Work and Pensions at the lesser of £100 a week or 90 per cent. of the woman's average weekly earnings.

To get SMP, a woman must earn at least £79 a week on average and have been continuously employed by her employer for at least 26 weeks into the 15th week before the week her baby is due. She must therefore have been working for the employer who would be liable to pay SMP to her before she became pregnant and would have worked for the employer for a reasonable period before that employer is asked to administer and meet some of the costs of paying SMP to her.

To get MA, a woman must have been employed and/or self-employed for at least 26 weeks out of the 66 week period ending with the week prior to the week in which

her baby is due. The weeks do not have to be continuous and a part week counts as a full week. She must also earn at least £30 a week on average.

The standard rate of both SMP and MA was increased in 2003 to £100 a week. This substantial increase, the biggest since maternity pay was introduced in 1948, coupled with extending the payment period from 18 to 26 weeks mean that most pregnant working women getting SMP or MA are more than £1,200 better off than in 2001.

We currently have no plans to make any further changes to these schemes.

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the cost in each of the next 10 financial years from 2006–07, net of savings in means-tested benefits and additional income tax revenues, of paying from April 2006 a basic state pension to all single people aged 75 or above at the rate of the guarantee credit for single people regardless of contribution record, and a basic state pension to all couples where one or both partners is aged 75 or above at the rate of the guarantee credit for couples, with that pension being indexed to earnings in subsequent years, and assuming that the savings credit is abolished for those aged 75 or above. [170649]

Malcolm Wicks: The information is not available in the format requested. However such information as is available is in the table.

£ billion

	[1]*Net cost*
2006–07	3.9
2007–08	4.2
2008–09	4.5
2009–10	4.8
2010–11	5.2
2011–12	5.6
2012–13	6.0
2013–14	6.4
2014–15	6.9
2015–16	7.4

[1] Before tax

Notes:

1. The net cost includes all savings except for additional Income tax revenue, (see note 3). Figures are for Great Britain in 2004–05 price terms, using the GDP deflator index, rounded to the nearest £100 million.
2. Basic State Pension costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002 based population projections. Basic State Pension costs refer to the additional costs after allowing for consequential changes to National Insurance Fund benefits and non-means tested vote benefits.
3. Additional income tax revenue is estimated by the Inland Revenue using current tax rates. The Income tax estimate for 2006–07 is based on the 2001–02 Survey of Personal Incomes and is projected in line with March 2004 Budget assumptions. The cost net of income tax revenue in 2006–07 is £2.6 billion. For illustrative purposes, we have assumed income tax revenue to be a fixed percentage of the gross cost for this option in 2007–08 and 2008–09. Therefore, the illustrative total net cost in 2007–08 is £2.6 billion and in 2008–09 is £3.1 billion. Estimates for later years would be subject to a greater degree of uncertainty.
4. The State Second Pension is assumed to be unchanged.
5. The savings credit is abolished for those aged 75 from April 2006 with no payments to existing pensioners and no new recipients after 2006.
6. The savings from savings credit and other income related benefits (guarantee credit, housing benefit and council tax benefit) are calculated using the Department's policy simulation model for 2006–07. It is assumed that the proportion of savings calculated for the first year is constant for subsequent years.

Winter Fuel Allowance

James Purnell: To ask the Secretary of State for Work and Pensions how many senior citizens in Stalybridge and Hyde have benefited from the winter fuel allowance since 1997. [168738]

Malcolm Wicks: The number of senior citizens in the Stalybridge and Hyde constituency who have benefited from a winter fuel payment in each year since 1999–2000 (including provisional figures for 2003–04) is in the table. Information relating to the 1997–98 and 1998–99 winters is not available.

	Payments made
1999–2000	13,760
2000–01	15,230
2001–02	15,395
2002–03	15,535
2003–04	15,580

Notes:

1. Numbers are rounded to the nearest five.
2. Please note that the figures for 2003–04 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

IAD Information Centre, 100 per cent. samples.

HEALTH

Norfolk and Norwich Hospital

15. **Norman Lamb:** To ask the Secretary of State for Health, if he will make a statement on the PFI contract in respect of the Norfolk and Norwich hospital. [169837]

Dr. Ladyman: The Norfolk and Norwich University Hospital PFI scheme was the fourth major PFI scheme to reach financial close and sign contracts. The Norfolk and Norwich is a high quality hospital and was recently named among the top 40 hospitals in the UK by an international company involved in measuring healthcare performance.

Hospital-acquired Infection

16. **Tom Brake:** To ask the Secretary of State for Health, if he will make a statement on MRSA in hospitals. [169838]

Miss Melanie Johnson: We already have standards to ensure there is a managed environment which minimises the risk of infection to patients, staff and visitors. We are confident that implementation of our action plan

"Winning Ways" will reduce infection rates for all healthcare associated infections including methicillin resistant staphylococcus aureus.

NHS Dentistry

17. **Mr. Best:** To ask the Secretary of State for Health, what plans he has to increase the number of NHS dentists in Leeds. [169839]

Miss Melanie Johnson: Currently 145 dentists are treating NHS patients in the Leeds area. The overall number of dentists treating NHS patients in Leeds has remained similar for the 12 months to December 2003, the latest data that we have available. The primary care trusts in Leeds are currently preparing action plans to submit to West Yorkshire Strategic Health Authority, which include plans to increase the numbers of dentists accepting NHS patients locally.

19. **Richard Younger-Ross:** To ask the Secretary of State for Health if he will make a statement on NHS dental provision in south Devon. [169842]

Ms Rosie Winterton: The whole of the South West Peninsula strategic health authority area has been identified as an "Options for Change" field site, and dentists are increasingly opting for the new ways of working that Personal Dental Services allows. Teignbridge PCX, along with others in the Peninsula, is currently working on a Dental Action Plan which is expected to be agreed later this month.

Health Inequality

18. **Harry Cohen:** To ask the Secretary of State for Health what assessment he has made of the public health reports from primary care trusts in areas suffering from health inequality. [169841]

Miss Melanie Johnson: Strategic health authorities are responsible for agreeing local national health service plans informed by public health reports. SHAs are leading work on monitoring the performance of primary care trusts, and take a particular interest in areas experiencing health inequalities. We are in discussion with SHAs about ways of assessing the impact of these reports.

Elderly People (Abuse)

20. **Sandra Gidley:** To ask the Secretary of State for Health if he will make a statement on his Department's policy on the abuse of elderly people. [169843]

Dr. Ladyman: Since 1997 the Government have been active in promoting better and more consistent standards of care for older people through the publication and implementation of the National Service Framework for Older People and National Minimum Standards of care for a range of services. Raising standards of care is the best way to minimise abuse and neglect. In addition the statutory guidance "No Secrets" provides a national framework for local councils and partner agencies to use in developing local multi-agency codes of practice to prevent and tackle abuse. Local codes of practice had to be in place by October 2001. Shortly, the Government will also implement the Protection of Vulnerable Adults scheme, which will act as a work force ban on those that have harmed vulnerable adults in their care.

Diabetes

21. **Mr. Jack:** To ask the Secretary of State for Health, what steps he is taking to assist the work of local diabetes self-help groups. [169844]

Ms Rosie Winterton: The Department is funding Diabetes UK—the major charity for people with diabetes—to undertake a user involvement project to help people with diabetes become fully involved in local decision making about their diabetes services.

Health Services (West Yorkshire)

22. **Mr. Truswell:** To ask the Secretary of State for Health what representations he has received regarding improvements to children's and maternity health services in *(a)* Leeds and *(b)* West Yorkshire. [169845]

Miss Melanie Johnson: The Department has received a number of representations in support of a dedicated children's and maternity hospital for West Yorkshire to be based in Leeds. I have agreed to meet my hon. Friend the Member for Batley and Spen (Mr. Wood) to discuss this issue.

Mental Health Bill

23. **Angela Watkinson:** To ask the Secretary of State for Health, when he proposes to start the pre-legislative scrutiny stages of the draft Mental Health Bill. [169846]

Ms Rosie Winterton: A revised and completed Mental Health Bill will be brought forward for pre-legislative scrutiny in this session.

Hepatitis C

24. **Mr. Connarty:** To ask the Secretary of State for Health what progress has been made in making payments available through the ex-gratia payments scheme for patients infected with hepatitis C. [169847]

Miss Melanie Johnson: Work is proceeding to finalise the arrangements necessary to begin making payments. The Skipton Fund was incorporated on 25 March. Officials are continuing to consult with patient groups and medical experts on the implementation of the scheme. The four UK health departments expect the Skipton Fund to be operational shortly.

Anti-depressants

Dr. Naysmith: To ask the Secretary of State for Health if he will make it his policy that SSRI anti-depressants carry a warning that they may make patients suicidal. [168841]

Ms Rosie Winterton: The safety of the selective serotonin reuptake inhibitors (SSRIs) has been closely monitored by the Medicines and Healthcare products Regulatory Agency (MHRA) and the Government's independent expert advisory committee, the Committee on Safety of Medicines (CSM) since first authorisation.

The CSM has considered the question of suicidal behaviour in association with adult use of SSRIs on a number of occasions and has advised that it is general clinical experience that patients taking any anti-depressant may develop an increase in suicidal behaviour in the first few weeks of treatment. Prescribers were informed of this advice in an article in the drug safety bulletin, "Current Problems in Pharmacovigilance", in 2000 and advised that patients thought to be at risk should be monitored carefully, especially in the early stages of treatment.

Product information for patients for all SSRIs contains warnings that suicidal behaviour may increase in the early stages of treatment with any anti-depressant and that any patient who has suicidal thoughts should seek urgent medical attention.

In December 2003, CSM advised that four SSRIs (paroxetine, sertraline, citalopram, escitalopram) and the related anti-depressant, venlafaxine, should not be used in treating children and adolescents under 18 years with depressive illness because clinical trials had not demonstrated efficacy in this population and there was evidence of an increased risk of adverse effects, including suicidal behaviour and self-harm compared to placebo. The product information (summary of product characteristics and patient information leaflets) for these SSRIs contains appropriate warnings.

A Europe-wide review of the safety of paroxetine led by the United Kingdom and the Netherlands was completed on 22 April 2004. The European scientific advisory committee, the Committee for Proprietary Medicinal products (CPMP) recommended that paroxetine should not be used in children and adolescents and that there should be careful monitoring during paroxetine treatment of patients at risk of suicidal behaviour, including those with a history of suicidal behaviour and young adults. The CPMP recommendations are now subject to consideration by the European Commission.

The CSM's expert working group on the safety of SSRIs is continuing to review the available evidence relating to the safety of all SSRIs, with particular reference to behavioural disorders, including, suicidality to ensure that the advice in the product information is optimal for safe use of these medicines.

Care Standards

Mr. Cousins: To ask the Secretary of State for Health whether the future arrangements for the monitoring of care standards will include the use of lay visitors. [168691]

Dr. Ladyman: I understand from the Chair of the Commission for Social Care Inspection (CSCI) that the CSCI is considering a range of options to include service users and others in the range of its work. The use of lay assessors is one of these options.

Cataract Surgery

Simon Hughes: To ask the Secretary of State for Health how many patients were waiting for cataract surgery in each Greater London NHS Trust for more than *(a)* three, *(b)* six and *(c)* nine months in each year since 1997; and what the percentage change was in each year. [168937]

Mr. Hutton: The information requested is not held centrally.

CFS/ME

Mrs. Iris Robinson: To ask the Secretary of State for Health (1) what funding has been allocated to Professor Simon Wesley's team at the Institute of Psychiatry for research into CFS/ME; [166707]

(2) what funding has been allocated to *(a)* the Merge Group in Perth, Scotland and *(b)* other biomedical researchers for work regarding CFS/ME. [166708]

Miss Melanie Johnson: The main agency through which the Government support medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body that receives its grant-in-aid from the Office of Science and Technology.

The MRC does not normally allocate in advance for particular areas of research. Funds are awarded on the basis of specific research proposals judged in competition.

The MRC has not provided funding for Professor Wessely's team or the Merge Group for research into chronic fatigue syndrome/myalgic encephalomyelitis (CFS/ME). We do not hold records centrally for other funding bodies' allocations.

The MRC announced funding in May 2003 for two trials: PACE—Pacing, Activity and Cognitive Behaviour Therapy: a Randomised Evaluation, and FINE—Fatigue Intervention by Nurses Evaluation to look at the effectiveness of various treatments for CFS/ME. The MRC is also funding a £400,000 clinical trial: training general practitioners to manage patients with persistent medically unexplained symptoms.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Health when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton dated 19 February with regard to Mrs. S. Wild. [164934]

Dr. John Reid: A reply was sent to my right hon. Friend on 5 April 2004.

Drugs (Self-Administration)

Mr. Meale: To ask the Secretary of State for Health how many patients are attending NHS hospitals and clinics whose condition is a direct result of the self-administering of drugs, broken down by region. [168853]

Ms Rosie Winterton: Data on the number of admissions to hospital which are drug related are shown in the table. The information is broken down by strategic health authority areas.

Count of finished in-year admission episodes by strategic health authority (SHA) of treatment—NHS hospitals, England 2002–03

SHA of treatment	Finished in-year admission episodes
Q01 Norfolk, Suffolk and Cambridgeshire HA	3,198
Q02 Bedfordshire and Hertfordshire HA	915
Q03 Essex HA	941
Q04 North West London HA	821
Q05 North Central London HA	947
Q06 North East London HA	1,532
Q07 South East London HA	1,153
Q08 South West London HA	645
Q09 Northumberland, Tyne and Wear HA	3,642
Q10 County Durham and Tees Valley HA	3,259
Q11 North and East Yorkshire and Northern Lincolnshire HA	3,130
Q12 West Yorkshire HA	4,927
Q13 Cumbria and Lancashire HA	3,765
Q14 Greater Manchester HA	3,211
Q15 Cheshire and Merseyside HA	3,987
016 Thames Valley HA	2,331
Q17 Hampshire and Isle of Wight HA	3,063
Q18 Kent and Medway HA	1,288
Q13 Surrey and Sussex HA	2,473
Q20 Avon, Gloucestershire and Wiltshire HA	2,388
Q21 South West Peninsula HA	2,446
Q22 Dorset and Somerset HA	1,220
Q23 South Yorkshire HA	2,029
Q24 Trent HA	4,104
Q25 Leicestershire, Northamptonshire and Rutland HA	969
Q26 Shropshire and Staffordshire HA	1,847
Q27 Birmingham and the Black Country HA	4,642
Q28 Coventry, Warwickshire, Herefordshire and Worcestershire HA	1,561
England	66,434

The Department does not collect information on the number of patients who attend (but are not admitted to) national health service hospitals and clinics as a result of the self-administering of drugs.

Mr. Meale: To ask the Secretary of State for Health what current or past research conducted or funded on behalf of the NHS has examined the relationships between self administered drug use and patients' attendance at NHS hospitals and clinics. [168854]

Ms Rosie Winterton: The Department has not commissioned research specifically on the relationships between self administered drug use and patients' attendance at national health service hospitals and clinics.

Elective Admissions (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health if he will make a statement on the levels of elective admissions to the NHS in Crosby in the past five years. [160433]

Miss Melanie Johnson: The information requested is not collected on a constituency basis, but at national health service trust level. Data for NHS trusts is shown in the table.

In year elective admission episodes for selected NHS Trusts, 1998–99 to 2002–03

NHS Trust	1998–99	1999–2000	2000–01	2001–02	2002–03
Aintree Hospitals NHS Trust	30,363	31,063	32,959	32,437	33,401
Royal Liverpool Children's NHS Trust	13,569	14,106	13,838	14,730	15,165
The Cardiothoracic Centre—Liverpool NHS Trust	7,846	8,301	8,539	9,091	10,223
Walton Centre for Neurology and Neurosurgery NHS Trust	3,841	4,184	3,893	3,710	4,123
Southport and Ormskirk NHS Trust [1]	n/a	22,992	23,053	20,035	18,181
Southport and Formby Hospitals NHS Trust [1]	13,867	n/a	n/a	n/a	n/a
West Lancashire NHS Trust [1]	8,564	n/a	n/a	n/a	n/a
Total	78,050	80,646	82,282	80,003	81,093

[1] Southport and Ormskirk NHS Trust was created on 1 April 1999 from Southport and Formby Hospitals NHS Trust and part of West Lancashire NHS Trust. The figure for West Lancashire NHS Trust in1998–99 is for the whole trust. It is not possible to identify the proportion of the figure attributable to Southport and Ormskirk NHS Trust.
[2] Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
[3] An in-year admission is the first period of in-patient care under one consultant within one health care provider, excluding admissions beginning before 1 April at the start of the data year. Periods of care on-going at the end of the data year (unfinished admission episodes) are included. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Hospital Episode Statistics (HES), Department of Health

Eye Tests

Jim Dobbin: To ask the Secretary of State for Health (1) how many senior citizens in Heywood and Middleton have access to free eye tests; [168482]

(2) how many residents in Heywood and Middleton aged over 60 years have benefited from the abolition of charges for eye tests; [168483]

Jim Dobbin: how many residents in Stalybridge and Hyde over 60 have benefited from the aboliton of charges for eye tests. [168773]

Miss Melanie Johnson: Data for the number of sight tests by constituency or by the number of senior citizens is not collected centrally.

The total number of national health service sight tests paid for by the Greater Manchester Strategic Health Authority in 2002–03 for patients aged 60 and over was 189,900. The total number eligible for a free sight test for those aged 60 and over was 493,100. Sight tests cannot be equated to the numbers of patients.

General Practitioners

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* headcount and *(b)* whole-time equivalent general practitioners there were in each year between 1979 and 1997 inclusive. [168985]

Mr. Hutton: The number of headcount and whole time equivalent general practitioners in each year between 1979 and 1997 is shown in the table.

General Medical Practitioners (excluding retainers)[1] in England, 1979–1997England

	Headcount	*Estimated whole-time equivalents[2]*
1979	23,062	n/a
1980	23,674	n/a
1981	24,359	n/a
1982	24,835	n/a
1983	25,341	n/a
1984	25,788	n/a
1985	26,190	n/a
1986	26,529	n/a
1987	27,023	n/a
1988	27,420	n/a
1988	27,420	n/a
1989	27,749	n/a
1990	27,523	26,982
1991	27,888	27,135
1992	28,185	27,299
1993	28,460	27,387
1994	28,735	27,495
1995	28,869	27,489
1996	29,116	27,549
1997	29,389	27,660

n/a = Not available

Notes:

[1] All Practitioners (excluding GP Retainers) includes GMS Unrestricted Principals, PMS Contracted GPs, PMS Salaried GPs, Restricted Principals, Assistants, GP Registrars, Salaried Doctors (Para 52 SFA) and PMS Other.

[2] Prior to 1990 all GPs were considered to be full-time

WTE data has been estimated using the results from the 1992–93 G ⩾ MP Workload Survey;

Full time = 1.00 wte; three quarter time = 0.69 wte; job share = 0.65 wte; half time = 0.60 wte.

All data as at 1 October

Department of Health General and Personal Medical Services Statistics

GP Waiting Times (Battersea)

Martin Linton: To ask the Secretary of State for Health what percentage of patients in the Battersea constituency were offered an appointment with a general practitioner within 48 hours in each year since September 2001. [168856]

Mr. Hutton: Information on the percentage of patients in the Battersea constituency offered an appointment to see a general practitioner within 48 hours is not collected. Information is provided by Merton, Sutton and Wandsworth Health Authority (September 2001 and March 2002) and Wandsworth Primary Care Trust, which was established on 1 April 2002, and includes patients from the Battersea area.

Percentage

Organisation	*September 2001*	*March 2002*	*March 2003*	*February 2004*
Wandsworth PCT			85.0	100.0
Merton, Sutton and Wandsworth HA	[1]82.5	[1]78.4		
England	[1]80.1	[1]74.6	88.2	97.0

[1] Data collected between September 2001 and March 2002 are based on percentage practices not patients and are not strictly comparable but are included here for completeness.

Health Ombudsman

Mr. Burns: To ask the Secretary of State for Health pursuant to the answer of 1 March 2004, *Official Report*, column 703W, on the Health Ombudsman's Report (Long-term Care), how many cases have been reviewed so far; how many wrong assessments have been discovered; and what action *(a)* has been and *(b)* is to be taken to rectify the wrong assessment cases. [169229]

Dr. Ladyman: The Department expects information on the number of reviews completed and the number of cases granted recompense to be available in due course. Restitution payments are offered when the review suggests that national health service care was inappropriately denied.

Health Services (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Health if he will make a statement on the levels of elective admissions to the NHS in Birkenhead in the past five years. [166223]

Miss Melanie Johnson: The information requested is shown in the table.

Provider of treatment—Wirral Hospitals NHS Trust—count of finished elective (waiting list, planned and booked) admission episodes NHS hospitals, 1998–99 to 2002–03

	Finished admission episodes
1998–99	36,667
1999–2000	29,759
2000–01	32,018
2001–02	33,351
2002–03	29,664

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

Source:

Hospital Episode Statistics (HES), Department of Health.

Heart Disease (Batley and Spen)

Mr. Wood: To ask the Secretary of State for Health if he will make a statement on the impact of the Government's campaign to reduce heart disease in Batley and Spen. [167057]

Miss Melanie Johnson: The coronary heart disease (CHD) national service framework (NSF) was published in March 2000 and sets national standards for the prevention and treatment of CHD. In the West Yorkshire Strategic Health Authority area, which includes Batley and Spen, around 25,900 people have quit smoking for at least four weeks with the help of local smoking cessation services since the publication of the NSF. In December 2002, 16 people were waiting over nine months for heart surgery. Today no-one is waiting over nine months. The Mid Yorkshire Hospitals National Health Service Trust will benefit from two new catheterisation laboratories at Pinderfields General Hospital and Dewsbury and District General Hospital.

Hospital Episode Statistics

Mr. Lansley: To ask the Secretary of State for Health how many NHS finished consultant episodes were recorded by hospital episode statistics in England in each year since 1979. [168907]

Mr. Hutton: The Department holds finished consultant episode statistics recorded by hospital episode statistics for financial years back to 1989–90. For years prior to 1989–90, there is no comparable data collected centrally. The information available is shown in the table.

Hospital Episode Statistics, finished consultant episodes (FCEs)[1]
NHS hospitals in England, 1989–90 to 2002–03

Financial year	*Finished consultant episodes*
1989–90	10,321,556
1990–91	10,228,485
1991–92	9,919,020
1992–93	10,364,186
1993–94	10,597,979
1994–95	11,373,067
1995–96	11,041,554
1996–97	11,098,998
1997–98	11,601,203
1998–99	12,108,141
1999–2000	12,290,278
2000–01	12,476,470
2001–02	12,338,590
2002–03	12,756,260

[1] A FCE is defined as a period of admitted patient care under one consultant within one healthcare provider. Please note that the figures do not represent the number of patients, as a person may have more than one episode of care within the year. The figures in the table include both in-patient and day cases.

Note:
Figures are grossed for coverage, except for 2001–02 and 2002–03, which are not yet adjusted for shortfalls.

Source:
Hospital Episode Statistics (HES), Department of Health.

Infection Control Nurses Review

Mr. Burstow: To ask the Secretary of State for Health if he will place in the Library a copy of the review of community infection control nurses announced in 2002. [167411]

Mr. Hutton: Copies of "Informing the Future—A Review of the Role and Responsibilities of Community Infection Control Nurses and Communicable Disease Control Nurses in England", produced by Thames Valley University, have been placed in the Library.

Integrated Falls Strategy

Mr. Maples: To ask the Secretary of State for Health what plans he has to facilitate greater use of pacemakers as part of an integrated falls strategy. [169272]

Dr. Ladyman: The National Institute for Clinical Excellence (NICE) is currently consulting on the second draft of its clinical practice guideline for the assessment and prevention of falls in older people. The consultation runs to 18 May 2004 and final guidance is due to be published in September 2004. More information can be found on the NICE website at http://www.nice.org.uk/cat.asp?c = 20116. The guideline will include recommendations on the use of pacemakers, where they are relevant to the assessment and prevention of falls in older people.

Intensive Care Beds

Simon Hughes: To ask the Secretary of State for Health how many intensive care beds there were in each Greater London NHS Trust in each year since 1997. [168942]

Mr. Hutton: Available adult intensive care and high dependency provision data has been published since March 1999 and the most recent data available is for January 2004. Copies of the publications are available in the Library. Data from July 2001 to the most recent available is also on the Department's website at http://www.performance.doh.gov.uk/hospitalactivity/index.htm.

Mental Health Provision

Simon Hughes: To ask the Secretary of State for Health how many *(a)* consultant psychiatrists, *(b)* mental health nurses and *(c)* primary care mental health workers (i) were recruited by and (ii) left the NHS in each of the previous five years in each Greater London NHS Trust. [168938]

Mr. Hutton: The information requested is not held centrally.

Musculoskeletal Disease

Dr. Gibson: To ask the Secretary of State for Health (1) how many people are suffering from musculoskeletal disease; and if he will make a statement; [166206]

(2) how much money was spent by the NHS on the management and treatment of musculoskeletal disease in the last year for which figures are available; [166207]

(3) what assessment he has made of equality of access to treatment and services for musculoskeletal disease; and if he will make a statement. [166209]

Dr. Ladyman: Three of the most commonly occurring musculoskeletal conditions are osteoarthritis, rheumatoid arthritis and osteoporosis. Arthritis Care estimates that between 8 and 10 million people in the United Kingdom suffer from the condition.

Information on how much was spent by the national health service on the management and treatment of musculoskeletal disease specifically is not collected centrally. Primary care trusts (PCTs) receive allocations to cover the costs of all hospital and community health

services to meet the needs of the population they serve. The level of funding made available for the drugs, staffing and other costs of managing and treating musculoskeletal conditions is determined locally. It is for PCTs, in partnership with other local stakeholders, to determine how best to use their funds to provide health services for their populations, including those with musculoskeletal conditions.

Following reviews by the National Institute for Clinical Excellence (NICE), the Department has made two new classes of drugs, Cox II inhibitors and anti-TNF therapy available to patients with these conditions.

The Department is driving forward a major programme of work to improve equality of access to all NHS treatment and care services. Maximum waiting times have fallen over the past few years and will continue to do so. By the end of 2005, the maximum waiting time for a first out-patient appointment with a consultant will fall to three months and the maximum wait for in-patient treatment will fall to six months. This will help all NHS patients, including those with musculoskeletal conditions.

NHS Budget

Mr. Lansley: To ask the Secretary of State for Health (1) what budget has been made available for 2004–05 to NHS Accident and Emergency departments for *(a)* art, *(b)* plants and *(c)* music; [167701]

(2) what budget is available to ward managers for the management of their wards; [167706]

(3) whether ward managers receive a direct financial allocation for their ward budget. [167707]

Mr. Hutton: Decisions on allocation of budgets are taken at local level by individual trusts.

Patient Information

Mr. Maples: To ask the Secretary of State for Health what measures are being taken to set aside funds to empower patients via *(a)* improved information access and *(b)* further development of the expert patient scheme. [169274]

Ms Rosie Winterton: The Department's "Improving Patient Experience" programme established the "Informed Patient" project, a three-year programme of work (2003–06) managed by NHS Direct Online. The project will improve the quality, range and accessibility of patient information; thereby empowering people to make informed decisions about their healthcare. Funding for this work amounts to £1,814,000 in 2003–04 and £2,127,000 for 2004–05. Funding for the third year will be agreed in early 2005.

Following the publication of the strategy document in September 2001, "The Expert Patient: A new approach to chronic disease management for the 21st century", the Department has funded and supported a community based pilot, from April 2002 to 2004 for each primary care trust (PCT) to provide training for people in the self management of long term conditions. Nearly all 300 PCTs in England have piloted the "Expert Patients" programme and data at the end of the pilot in April 2004 showed that almost 10,000 people had taken part. Funding has been allocated by the Department to support the mainstreaming of the programme across the national health service from 2004 to 2007.

Prescriptions

Mr. Wiggin: To ask the Secretary of State for Health how many prescriptions were issued in each year since 1997; and how many of them were dispensed. [168582]

Ms Rosie Winterton: Information is available on prescriptions that are dispensed in the community in England. However there is no information available centrally on prescriptions that are issued but not dispensed.

The table shows the number of prescription items dispensed in the community from 1997. The information does not include prescriptions dispensed in hospitals or private prescriptions.

Further information on prescriptions dispensed in the community is available on the Department's website at http://www.publications.doh.gov.uk/prescriptionstatistics/index.htm.

Number of prescription items dispensed in the community in England

	Number (million)
1997	500.2
1998	513.2
1999	529.8
2000	551.8
2001	587.0
2002	617.0
2003	649.7

Thimerosal

Dr. Tonge: To ask the Secretary of State for Health what assessment he has made of the link between Thimerosal in vaccines and autism. [163554]

Miss Melanie Johnson: As with all medicinal products, vaccine safety is continually monitored by the Medicines and Healthcare products Regulatory Agency (MHRA) and its independent expert advisory body, the Committee on Safety of Medicines (CSM).

The only vaccines currently used in the routine childhood immunisation programme that contain thiomersal (also known as thimerosal) are the combined diphtheria/tetanus/wholecell pertussis/Haemophilus influenzae type B and the diphtheria/tetanus vaccines. Measles/mumps/rubella (MMR) vaccine does not contain thiomersal.

The MHRA and CSM have thoroughly reviewed the safety of thiomersal-containing vaccines, including alleged links with autism, on a number of occasions. In 2001, CSM conducted a major review of the available evidence and has considered new data as it has emerged. Following a review of further studies in 2003, including two United Kingdom studies involving more than 100,000 children, CSM advice was placed on the MHRA website at http://medicines.mhra.gov.uk. Further studies from Denmark involving almost half a million children have also specifically investigated the

suggested link between thiomersal-containing vaccines and autism. None of these studies found any evidence of a causal association.

On the basis of the available data, the advice of CSM remains that there is no evidence of harm from thiomersal contained in vaccines, with the exception of possible hypersensitivity reactions (typically skin rashes or local swelling at the site of injection). The CSM advises that the benefits of immunisation with such vaccines outweigh any potential risks of vaccination. This view concurs with that of the World Health Organisation.

TREASURY

Economic Inactivity

Mr. Willetts: To ask the Chancellor of the Exchequer how many economically inactive adults of working age there are, broken down by *(a)* local authority and *(b)* reasons for economic inactivity. [168143]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. David Willetts, dated 4 May 2004:

The National Statistician has been asked to reply to your Parliamentary Question about economic inactivity. I am replying in his absence. (168143)

I have arranged for the information requested to be placed in the House of Commons Library.

The data provided gives the estimates of the number of economically inactive people and the reasons for their inactivity for each Local Authority. The figures are the averages for the twelve months ending February 2004, the latest period for which information is available.

However, please note that a large number of local area estimates are not given because the sample sizes are too small to provide reliable estimates.

As with any sample survey, estimates from the LFS are subject to sampling variability.

Employment Statistics (Preston)

Mr. Hendrick: To ask the Chancellor of the Exchequer (1) what the level of unemployment was in each year since 1997 in Preston; [169673]

(2) if he will make a statement on the levels of long-term *(a)* adult and *(b)* youth employment in Preston over the last seven years. [169665]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hendrick, dated 4 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about unemployment. (169665, 169673)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Preston Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The attached table gives the annual average number of people claiming JSA for over 12 months, and the annual average number of these claimants aged 18 to 24 years, in the Preston constituency, for each year since 1997. The table also shows the annual average total number of JSA claimants in the constituency for these years.

Annual average number of people claiming Jobseeker's Allowance (JSA), and number claiming for at least twelve months[1]

		Claimants for at least twelve months	
Preston parliamentary constituency, 1997–2003	*All claimants*	*All ages*	*Aged 18–24*
1997	3,364	917	135
1998	2,826	478	67
1999	2,632	536	23
2000	2,375	475	8
2001	2,118	391	6
2002	2,056	315	8
2003	1,894	262	10

[1] Computerised claims only.

Source:
Office for National Statistics

Mr. Hendrick: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Preston from 1997 to 31 December 2003; [169675]

(2) how many new jobs have been created in Preston since 1997. [169676]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Mark Hendrick, dated 4 May 2004:

The National Statistician has been asked to reply to your Parliamentary Questions about full-time jobs and jobs created in Preston. I am replying in his absence. (169675,169676)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes, in numbers of jobs, from year to year.

The attached table shows the information requested, relating to all jobs and full-time jobs in Preston for 1997 and 2002, which is the latest year available.

Information is not available about whether the jobs were permanent.

Number of full-time employees and total number of employees[1] *in Preston parliamentary constituency: 1997 and 2002*

Number, per cent

	Full-Time	*Total*
Number of employees		
1997	52,800	71,600
2002	60,200	83,600
Change from 1997 to 2002		
Absolute	7,300	12,000
Percentage	13.9	16.8

[1] Employee jobs only, not self-employed jobs.

Source:
1997; Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI).

Mr. Hendrick: To ask the Chancellor of the Exchequer how many people were employed in tourism-related jobs in Preston on the latest date for which figures are available. [169677]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hendrick, dated 4 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about tourism-related jobs in Preston. (169677)

The latest available data, from the 2002 Annual Business Inquiry, shows that the total number of jobs in tourism related industries in Preston was 5,500. This total is obtained by combining figures for those working in the following industries, as identified by Standard Industrial Classification 2003:

hotels

restaurants

bars

activities of travel agencies

library, archives museums etc

sporting activities

other recreational activities.

Mr. Hendrick: To ask the Chancellor of the Exchequer how many job vacancies there were in Preston in *(a)* 1997 and *(b)* 2003. [169682]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Mark Hendrick, dated 4 May 2004:

The National Statistician has been asked to reply to your Parliamentary Question about job vacancies in Preston. I am replying in his absence. (169682)

According to Jobcentre Plus administrative records the number of unfilled vacancies in the Preston travel-to-work area was 2558 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data, which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Employment Statistics (Wigan)

Mr. Neil Turner: To ask the Chancellor of the Exchequer how many job vacancies there were in Wigan in *(a)* 1997 and *(b)* 2003. [169354]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Neil Turner, dated 4 May 2004:

The National Statistician has been asked to reply to your Parliamentary Question about job vacancies in Wigan. I am replying in his absence. (169354)

According to Jobcentre Plus administrative records the number of unfilled vacancies in the Wigan travel-to-work area was 1,843 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data, which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Mr. Neil Turner: To ask the Chancellor of the Exchequer (1) what the level of unemployment was in each year since 1997 in Wigan; [169358]

(2) what the levels of long-term *(a)* adult and *(b)* youth employment in Wigan were in each of the last seven years. [169309]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Neil Turner, dated 4 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about unemployment. (169358, 169309)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Wigan Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The attached table gives the annual average number of people claiming JSA for over 12 months, and the annual average number of these claimants aged 18 to 24 years, in the Wigan constituency, for each year since 1997. The table also shows the annual average total number of JSA claimants in the constituency for these years.

Annual average number of people claiming Jobseeker's Allowance (JSA), and number claiming for at least 12 months

		Claimants for at least twelve months[1]	
Wigan parliamentary constituency, 1997–2003	*All claimants*	*All ages*	*Aged 18–24*
1997	2,516	871	137
1998	2,029	339	46
1999	1,825	317	10
2000	1,629	252	[2]—
2001	1,444	232	[2]—
2002	1,325	191	8
2003	1,331	189	10

1997: Annual Employment Survey, rescaled 2002: Annual Business Inquiry (ABI).

National Minimum Wage

Mr. Hendrick: To ask the Chancellor of the Exchequer how many workers in Preston have benefited from the national minimum wage. [169664]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hendrick, dated 4 May 2004:

As National Statistician, I have been asked to reply to your recent question about the number of workers in Preston who have benefited from the national minimum wage (NMW). (169664)

This information is not available at local authority level.

However, the Office for National Statistics (ONS) calculates estimates of the number of jobs paid less than NMW rates for the United Kingdom and Government Office Regions. A guide to measuring low pay and associated articles and data can be found on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk = 5837&Pos = 1&ColRank = 1&Rank = 272

Budget Implications (Hull)

Mr. McNamara: To ask the Chancellor of the Exchequer if he will make a statement on the effect that Budget 2004 will have on the Hull, North constituency. [169736]

Ruth Kelly: The Government has the long-term economic goal of maintaining macro-economic stability. Budget 2004 showed that all parts of the UK are set to benefit from the domestic stability delivered by the Government's macro-economic framework, with inflation forecast to remain low and close to target and the Government on track to meet its strict fiscal rules over the economic cycle.

Kingston upon Hull North has clearly already benefited significantly from Government policies to build a strong economy and a fair society. For example, since 1997 claimant count unemployment has fallen by over a third, long-term unemployment has fallen by over three quarters and long-term youth unemployment has fallen by almost 70 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at Parliamentary Constituency level, taken from the 2001 Census and other sources. This service is freely available via the National Statistics website at www.neighbourhood.statistics.gov.uk

Capital Gains Tax

Mr. Drew: To ask the Chancellor of the Exchequer whether the disposal of entitlement under the introduction of single farm payments will be subject to capital gains tax. [169329]

Ruth Kelly: Implementation and administration of the single farm payment scheme is the responsibility of the Department for Environment, Food and Rural Affairs, in England, and the devolved administrations. Under general taxation principles, the tax treatment of any single farm payment to which an individual is entitled will depend upon the precise nature of the payment. However, from the information currently available, the Inland Revenue considers that the disposal of an entitlement to receive a single farm payment will normally be the disposal of a chargeable asset for capital gains tax purposes, and that the extinguishing of an entitlement to receive agricultural subsidies will also be a disposal for capital gains tax purposes.

Computer Equipment

Mr. Hendrick: To ask the Chancellor of the Exchequer how many businesses in Preston have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [169674]

Mr. Neil Turner: To ask the Chancellor of the Exchequer how many businesses in Wigan have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [169357]

Ruth Kelly: The information requested is not available.

Customs Point, Coquelles

Patrick Mercer: To ask the Chancellor of the Exchequer how much was spent in each of the last three years on the manned customs point that is staffed by the UK at Coquelles in France. [169967]

John Healey: The Law Enforcement arm of HM Customs and Excise is a flexible and intelligence-led organisation which regularly reviews its resource deployments against their latest assessment of risks. Information about the deployment of Customs staff at

specific locations is not available; exemption 4(*b*) (Law enforcement and legal proceedings) of the Open Government Code applies.

Economic Growth

Mr. Willetts: To ask the Chancellor of the Exchequer how much the British economy grew on average per annum (*a*) in total and (*b*) per capita in the period (i) 1992 to 1997 and (ii) 1997 to 2003. [170100]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. David Willetts, dated 4 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question asking how much the British economy grew on average per annum (*a*) in total and (*b*) per capita in the period (i) 1992 to 1997 and (ii) 1997 to 2003. I am replying in his absence. (170100)

The UK economy grew by an average of 3.1% per annum between 1992 and 1997 and by an average of 2.6% per annum between 1997 and 2003.

On a per capita basis the UK economy grew by an average of 2.9% per annum between 1992 and 1997 and by an average of 2.3% per annum between 1997 and 2003.

Environmental Campaigns

Mr. Sheerman: To ask the Chancellor of the Exchequer how much funding he has allocated to Government departments to promote environmental campaigns in each of the last 10 years. [169770]

John Healey: Departmental Expenditure Limits are set through the bi-annual spending review process. Within these limits Government Departments are responsible for allocating funding to their full range of activities, including environmental campaigns where appropriate.

Housing (First-time Buyers)

John Barrett: To ask the Chancellor of the Exchequer what plans he has to introduce additional fiscal measures to help first time buyers purchase their homes; and if he will make a statement. [169903]

Ruth Kelly: The Government keep all taxes under review and announcements of fiscal measures are a matter for the pre-Budget report and Budget.

The Government are committed to addressing the instability and major problems of housing affordability that has characterised the housing market over past decades. The Government have announced they intend to implement a programme of change to the planning system and to the delivery of development so as to improve affordability and lock in macroeconomic stability, as recommended in the Barker Review of Housing Supply, a copy of which can be found in the Library of the House.

Influenza

Mr. Willetts: To ask the Chancellor of the Exchequer how many people died of influenza-related illnesses in each of the last 20 years. [169326]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Willetts, dated 4 May 2004:

As National Statistician I have been asked to reply to your recent question asking how many people died of influenza-related illnesses in each of the last 20 years (169326).

The latest year for which data are available is 2002. The number of deaths certified as due to influenza[1] are given in the table below, for the calendar years 1983 to 2002. Previous analysis[a,b] has shown that deaths certified as due to influenza under-estimate the increase in mortality associated with influenza outbreaks and epidemics.

Calendar year	*Number of deaths*
1983	796
1984	346
1985	662
1986	587
1987	190
1988	285
1989	2,114
1990	791
1991	248
1992	262
1993	439
1994	62
1995	251
1996	179
1997	347
1998	129
1999	585
2000	509
2001	38
2002	38

[1] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) code 487 for the years 1983 to 2000, and the International Classification of Diseases, Tenth Revision (ICD-10) codes J10-J11 for 2001 and 2002.

[a] Curwen M, Dunnell K, Ashley J. Hidden influenza deaths: 1989–90. Population Trends 61 (1990), 31–33.

[b] Ashley J, Smith T, Dunnell K. Deaths in Great Britain associated with the influenza epidemic of 1989–90. 'Population Trends' 65 (1991), 16–20.

Office for National Statistics

Mr. Hoban: To ask the Chancellor of the Exchequer for what reasons the proposed move of the Office for National Statistics office in Titchfield to Southampton, considered in submissions for the 2002 Comprehensive Spending Review, was not implemented. [164753]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Peter Walton to Mr. Mark Hoban, dated 4 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question asking for what reasons the proposed move of the Office for National Statistics office in Titchfield to Southampton, considered in submissions for the 2002 Comprehensive Spending Review, was not implemented. I am replying in his absence. (164753)

This proposal to relocate from Titchfield was not implemented because the ONS statistical modernisation programme was given highest priority for the available resources at the time of this Spending Review.

Public Liability Insurance

John Barrett: To ask the Chancellor of the Exchequer what the average cost of public liability insurance was in each year since 1997. [169899]

Ruth Kelly: The Treasury does not collect regular information on average UK public liability insurance premium costs.

Retail Prices Index

Mr. Willetts: To ask the Chancellor of the Exchequer what assessment he has made of the effect of applying hedonics methodology to the Retail Prices Index; what plans he has to make further such adjustments; and if he will make a statement. [170101]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. David Willetts, dated 4 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question asking what assessment has been made of the effect of applying hedonics methodology to the retail prices index and what plans there are to make further such adjustments. I am replying in his absence. (170101)

Technical issues such as hedonic methodology fall within the remit of the National Statistician. Our estimate is that the change to hedonic methods has had a minimal effect on the Retail Prices Index (RPI) with less than a 0.05 percentage point reduction on the annual rate of change.

The Office for National Statistics (ONS) has examined the possible use of hedonic methods for a number of items in the RPI, but has made the decision to implement the method only in those cases where it represents a significant improvement in methodology. This was the case for personal computers and digital cameras, where hedonic methodology has been implemented. However, for other goods, such as televisions, DVD players, still cameras and washing machines, the method has not shown conclusively to be an improvement and so has not been implemented.

In the future, ONS will continue to examine the use of hedonic methods on a case by case basis and intend to investigate their use for laptop computers and digital camcorders. We are not planning a blanket implementation of hedonic methods, but intend to use them only where they are proven to give a real improvement in methodology. This is likely to be mainly for high technology, fast-developing goods newly entering the RPI basket. Such goods are the most common subjects of hedonic methods in the consumer price indices of other developed countries.

Further details can be found in Adrian Ball's article 'The Introduction of Hedonic Regression Techniques for the quality adjustment of computing equipment in the Producer Prices Index (PPI) and Harmonised Index of Consumer Prices (HICP)', Economic Trends, vol No. 592, or by accessing the National Statistics website: http://www.statistics.gov.uk/CCI/article.asp?ID=290&Pos=&ColRank=2&Rank=208

School Finance

Mr. Drew: To ask the Chancellor of the Exchequer if he will make a statement setting out the total cash sums available to individual schools by way of direct per pupil payments following the Budget statement; and what the equivalent figures were for the previous years. [169331]

Ruth Kelly: In his Budget statement, the Chancellor set out a £7.4 billion increase in Education spending in England by 2007–08. This amounts to an average spend per pupil of at least £5,500, a figure £1,000 higher than in 2003–04. As part of the statement, he illustrated the scale of payments that are made directly to heads to increase their flexibility on budget decisions. He said that in 2005–06 heads would receive direct payments that sum to £55,000 for a typical primary and £180,000 for a typical secondary school. For 2003–04 the comparable figures were £50,000 and £165,000. Individual schools will receive different amounts according to their pupil numbers.

Sealskin

Mr. Hancock: To ask the Chancellor of the Exchequer how much trade has been recorded by HM Customs and Excise in *(a)* whitecoat sealskin, *(b)* blueback sealskin and *(c)* sealskin apparel in each year since 1998. [169407]

John Healey: Figures on imports and exports of sealskin and sealskin apparel are published under commodity codes 43017010, 43021941 and 43031010 in 'Overseas Trade Statistics' published by HM Customs and Excise, a copy of which is available in the Library of the House. However, figures for whitecoat and blueback sealskins are not separately identified.

Senior Citizens (Wigan)

Mr. Neil Turner: To ask the Chancellor of the Exchequer how many senior citizens in Wigan qualified for the 10 pence rate of income tax in each year since its introduction. [169355]

Ruth Kelly: All income taxpayers benefit from the 10 pence starting rate. The Survey of Personal Incomes estimates there are about 8,000 state retirement pension age taxpayers in the Wigan constituency in 2001–02. A reliable answer cannot be given for 2000–01 because in the Survey of Personal Incomes the sample size of pensioners living in this constituency is relatively small compared to other constituencies. Figures for 1999–2000 are currently not available.

Tax Allowances

Mr. Willetts: To ask the Chancellor of the Exchequer what the effect of a 0.05 per cent. reduction in the rate of inflation would be on *(a)* total spending on social security benefit, *(b)* total spending on interest payments on Government debt and *(c)* tax revenues if tax allowances were to be raised in line with inflation. [170102]

Ruth Kelly: The inflation indices used to uprate social security benefits, tax allowances and debt interest payments are rounded to one decimal place prior to publication, and the impact of such a small reduction in inflation would depend on its effect on the recorded inflation index rounded to this level. Moreover, for social security benefits and some tax allowances the actual benefit and allowance levels are also affected by statutory rules on rounding. Therefore it is not possible to give accurate estimates for the effect of a 0.05 per cent. reduction in the rate of inflation. It might not have any effect at all.

Tax Credits

Mr. Drew: To ask the Chancellor of the Exchequer how many complaints, broken down by category, he has received following the introduction of new tax credit arrangements. [169330]

Ruth Kelly: This information is not available.

Mr. Webb: To ask the Chancellor of the Exchequer if he will estimate the number of child tax credit awards that will be reduced following the finalisation of 2003–04 awards. [169391]

Ruth Kelly: Chapter 4 of "The Child and Working Tax Credits. Modernisation of Britain's Tax and Benefit System. Number 10", April 2002, provided estimates of the number of families whose Child and Working tax credit awards may need to be reassessed due to rises in income. This is available at www.hm-treasury.gov.uk/Documents/Taxation Work and Welfare. No reliable estimates are available of the number of awards which will be reduced at finalisation.

Mr. Webb: To ask the Chancellor of the Exchequer if he will estimate the number of families currently receiving a manual top-up payment in respect of a child tax credit award which has been reduced because of overpayment; who will see those payments *(a)* terminated and *(b)* reduced following the finalisation of their 2003–04 awards; and if he will make a statement. [169400]

Ruth Kelly: Since the start of the new tax year, families expected to have continuing entitlement to tax credits are receiving provisional payments based on the latest information held about their circumstances and income, while their claim for 2004–05 is renewed. Those payments may reflect the recovery of an overpayment from 2003–04, following the approach set out in Inland Revenue's Code of Practice 26, "What happens if we have paid you too much tax credit?". Families who had been receiving additional tax credit payments in 2003–04 are receiving provisional payments in the usual way, so that there is no need for continuing additional payments to them.

John Barrett: To ask the Chancellor of the Exchequer what percentage of recipients of *(a)* child tax credit and *(b)* working tax credit have received payments above the level to which they are entitled; and what the average overpayment for each tax credit was. [170048]

Ruth Kelly: I refer the hon. Member to the answer given to my hon. Friend the Member for Jarrow (Mr. Hepburn) on 22 March 2004, *Official Report*, columns 663–664W).

Geraldine Smith: To ask the Chancellor of the Exchequer whether tax credit helpline advisors inform claimants about *(a)* the recovery of overpayments and *(b)* the availability of top up payments when they report a change of circumstances. [165414]

Dawn Primarolo: If after having reported a change in their circumstances claimants receive a revised award notice and require further information about their award, the helpline will be happy to advise them.

UK Aid Budget

Mr. Donaldson: To ask the Chancellor of the Exchequer what plans he has to increase the UK aid budget to meet the UN target of 0.7 per cent. of GDP spent on overseas aid. [170217]

John Healey: I refer the hon. Gentleman to the answer I gave to the hon. Member for Portsmouth, South (Mr. Hancock) on 27 April 2004, *Official Report*, column 869W).

Unclaimed Assets

Mr. Gale: To ask the Chancellor of the Exchequer what his Department's latest estimate is of the total sum of money lying dormant and unclaimed in United Kingdom bank accounts. [167602]

Ruth Kelly: There is currently no official estimate of the number of unclaimed deposits in UK banks or their total value.

Mr. Gale: To ask the Chancellor of the Exchequer what progress has been made with the initiative announced by his Department to reunite unclaimed assets with their rightful owners; and if he will make a statement. [167603]

Ruth Kelly: The Government announced in the Budget that we support the efforts of the British Bankers' Association, the Building Societies' Association and National Savings and Investments in trying to reunite unclaimed assets with their owners. As we have said in the Budget, it is right that more should be done in principle.

The Government will assess and report on progress on unclaimed assets at the time of the PBR.

Written Answers to Questions

Wednesday 5 May 2004

SOLICITOR-GENERAL

Serious Fraud Office

Miss McIntosh: To ask the Solicitor-General what recent discussions the Serious Fraud Office has had with its EU counterparts. [169969]

The Solicitor-General: The Serious Fraud Office has ongoing operational contact with its EU counterparts. The SFO uses its investigation powers under the Criminal Justice Act 1987 to provide mutual legal assistance to other EU member states.

The Serious Fraud Office's Head of Policy recently attended a meeting at Eurojust and there are regular contacts between SFO senior staff and senior OLAF officials.

HOUSE OF COMMONS COMMISSION

Administration Estimate

Mr. Burnett: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission, what the reasons were for the reduction in the Administration Estimate from 2000–01 to 2001–02, as indicated in Table 4 of the Commission's Annual Report for 2001–02; and what the final administration accounts outturn figure for 2002–03 was. [169406]

Sir Archy Kirkwood: The reduction in the net cash required was due, in the main, to the decrease in expenditure on Portcullis House following its completion.

The resource outturn for 2002–03 on the House of Commons Administration Estimate was £180.0 million and the corresponding net cash requirement was £138.3 million. Further information can be found in the published House of Commons: Administration Resource Accounts 2002–03 (HC67).

Electricity Consumption

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission, pursuant to his answer of 19 April 2004, *Official Report*, column 236W, on electricity consumption, what factors underlie the increase in consumption between 1997 and 2003; and what steps the commission is taking to reduce electricity consumption. [169864]

Sir Archy Kirkwood: Underlying factors include the increase in size of the Parliamentary Estate, increased use of office equipment and improvements in environmental controls, such as ventilation, air extraction and air-conditioning, to meet new regulations. Energy awareness and good housekeeping are regularly promoted and the estate is maintained to a high standard; for example the main Palace chillers were replaced recently with modern high efficiency plant.

Security of Communications

Mr. Dismore: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission, if he will make a statement on security of communications in the House against eavesdropping in respect of developments in Bluetooth technology. [169801]

Sir Archy Kirkwood: The House of Commons authorities have taken a cautious approach to the introduction of wireless technology within Westminster because of security concerns. No services using wireless technologies will be offered until these concerns have been addressed.

I understand that the Bluetooth function available on some mobile telephones could allow access to data and services on such phones. If phone owners are concerned about this potential vulnerability, they should disable the Bluetooth option using the menus on the handset.

The Parliamentary Communications Department sent an e-mail with this advice to all network users on 30 April.

CULTURE, MEDIA AND SPORT

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Secretary of State for Culture, Media and Sport what her latest estimate is of the amount spent by her Department on official entertainment in each year from 1996–97 to 2004–05. [168999]

Mr. Caborn: All expenditure on official entertainment is made in accordance with published departmental guidance on financial procedures and propriety, based on principles set out in Government guidance.

The following table shows expenditure on entertainment by the Department. In a change to previous practice, figures from 1997–98 onwards are presented on an accruals basis. In 2002–03 changes were made in the way entertainment expenditure was captured to include associated staff costs following the contracting out of the hospitality service. Figures for 2004–05 are not available at present.

	£
1996–1997	41,000
1997–1998	15,269.81
1998–1999	24,496.51
1999–2000	33,359.78
2000–2001	51,666.75
2001–2002	32,586.56
2002–2003	87,150.29
2003–2004[1]	78,144.29

Notes:
[1] Provisional, pending finalisation of annual accounts.

Departmental Procurement

Michael Fabricant: To ask the Secretary of State for Culture, Media and Sport what percentage of the

(a) crockery, *(b)* cutlery and *(c)* glassware procured by her Department over the last five years is of British manufacture. [170796]

Mr. Caborn: Over the last five years, DCMS has procured the following;

(a) Crockery: 100 per cent. British Manufactured

(b) Cutlery: 100 per cent. British Manufactured

(c) Glassware: 80 per cent. British Manufactured

New Opportunities Fund

Paul Holmes: To ask the Secretary of State for Culture, Media and Sport how much of the New Opportunities Fund is being provided to support children with special needs; and if she will make a statement. [170614]

Estelle Morris: The information is not collected in the way requested. However, a number of the New Opportunities Fund's programmes focus on children with special needs and I have asked the Chair of the Fund to write to the hon. Member with further details. I will arrange for copies of the letter to be placed in the Libraries of both Houses.

Talented Athlete Scholarships

Mr. Hawkins: To ask the Secretary of State for Culture, Media and Sport how much public funding has been spent on the Talented Athlete Scholarship Scheme; what sums are committed for *(a)* the current year and *(b)* future financial years; how many students are expected to be supported in 2004–05; and if she will make a statement. [171043]

Mr. Caborn *[holding answer 4 May 2004]:* Exchequer funding of £3 million annually has been allocated to delivering the Talented Athletes Scholarship Scheme in 2004–05 and 2005–06. This year is the first round of the programme in which we are looking to help about 1,000 young talented athletes continue to develop in their performance sport alongside taking up employment or continuing with tertiary education. The first bursaries will be announced in early summer and the scholarships later in September.

WALES

European Structural Funds

9. **Julie Morgan:** To ask the Secretary of State for Wales what consultations he has had concerning the potential impact in Wales of changes in European structural funds after 31 December 2006. [169191]

Mr. Touhig: My right hon. Friend and I have regular discussions with colleagues across Government and with the Assembly about a number of issues, including European Structural Funds.

Dredging (Dee Estuary)

10. **Mr. Ben Chapman:** To ask the Secretary of State for Wales what discussions he has had with English local authorities and environmental bodies regarding dredging in the Dee Estuary. [169192]

Mr. Hain: Regulation of the Port of Mostyn's dredging proposals is a matter for the National Assembly, the Environment Agency, and the Department for Transport. The Environment Agency is advised in England by English Nature, and in Wales by the Countryside Council for Wales. English Nature has agreed that the Countryside Council for Wales should represent it in discussions on these proposals.

Civil Service

11. **Paul Flynn:** To ask the Secretary of State for Wales what discussions he has had with the First Secretary of the National Assembly for Wales concerning the relocation to Wales of civil service jobs. [169193]

Mr. Hain: The First Minister and I have had and will continue to have regular discussions.

We will be working closely to pitch for as many of the jobs allotted for relocation to come to Wales—where we have a record second to none in providing a home for civil service jobs.

Small Businesses

12. **Mr. Bellingham:** To ask the Secretary of State for Wales what recent representations he has received from small business organisations in Wales regarding start-up schemes. [169194]

Mr. Touhig: My right hon. Friend and I have regular meetings with small business organisations. The Government and the Assembly have created an extremely supportive environment to start up, grow and run a business.

Waiting Lists

13. **Miss McIntosh:** To ask the Secretary of State for Wales what recent discussions he has had with the First Secretary about progress in reducing waiting times. [169195]

Mr. Touhig: I regularly meet the Assembly Health Minister concerning the health service in Wales: waiting times is one of the topics that we frequently discuss.

The most recent Assembly quarterly waiting time statistics illustrates huge improvements in long waits for patients. There has been a 71.9 per cent. fall in the number of patients waiting over 18 months for in-patient treatment and a fall of over 36 per cent. in waiting times of over 18 months for an out-patient appointment.

Miners' Compensation

Mr. Win Griffiths: To ask the Secretary of State for Wales if he will make a statement on the *(a)* latest activities of the Welsh monitoring sub-group for the miners' compensation scheme in Wales and *(b)* latest figures for disbursements under the scheme. [169188]

Mr. Touhig: The Welsh Sub-Group of the Coal Health Claims Monitoring Group, which I chair, meets on a regular basis and will next meet on 24 May to discuss progress of miners compensation in Wales.

To date, £300 million for respiratory disease and over £106 million for vibration white finger have been paid out to ex-miners and their families in Wales—bringing the total under both schemes to well over £400 million.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Anderson Inquiry

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether the final report of the mission, entitled "DG (SANCO)/3367/2001—MR Final", carried out from 1 to 5 October 2001 by the European Commission Food and Veterinary Office, was submitted to the Anderson Inquiry into foot and mouth disease; [166757]

(2) whether the Department's Inquiry Liaison Unit was informed of the final report of the mission, entitled "DG (SANCO)/3367/2001—MR Final", carried out from 1 to 5 October 2001 by the European Commission Food and Veterinary Office. [166758]

Mr. Bradshaw: There is no record of the final report, "DG (SANCO)/3367/2001—MR Final", being received by the Department's Inquiry Liaison Unit and it was not sent to the Anderson Inquiry on foot and mouth disease. However, Dr. Anderson did meet the EU Commission to discuss the foot and mouth 2001 outbreak and the lessons learned. Defra also provided the Inquiry Liaison Unit with a submission, which was passed to the Anderson Inquiry, which plotted the legislative changes, and gave copies of the legislation and the Department's working instructions, since the last foot and mouth outbreak in 1967. The submission included a copy of Council Directive 80/217. As I made clear in the Adjournment Debate on 16 March 2004, we believe that 80/217 was properly implemented in the UK. The application by this Government was consistent with previous administrations.

Aridity Index

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the aridity index was, broken down by country in *(a)* 1975, *(b)* 1985, *(c)* 1995 and *(d)* 2002. [165813]

Mr. Bradshaw: The aridity index is currently being developed as an index of desertification risk for Mediterranean areas by Spanish and Portuguese academics and supported by European research funds. It is an index of the average water available in the soil, defined as the ratio between mean annual precipitation and mean annual evapotranspiration. The research work is scheduled for completion by the end of 2004.

Breckland Farmland SSSI

Mr. Spring: To ask the Secretary of State for Environment, Food and Rural Affairs how the success of the stone curlew within the Breckland Farmland Site of Special Scientific Interest is measured. [165144]

Mr. Bradshaw *[holding answer 19 April 2004]*: The stone curlew population will be assessed for the whole of the Breckland pSPA, which includes Breckland Farmland SSSI. This assessment is based on annual counts and is considered by English Nature in conjunction with available information on the UK population and distribution trends, to assess whether the pSPA is continuing to support the numbers of stone curlews for which it has been selected and make a contribution to the Favourable Conservation Status of the species across Europe.

The conservation objective for Breckland pSPA is to maintain in favourable condition the habitats of the internationally important population of stone curlew. To date, the successful recovery of the stone curlew within the pSPA can be measured by the increase in numbers of breeding pairs since the start of the recovery project in 1985 and that the target of 200 pairs set in the UK Biodiversity Action Plan for the numbers of breeding pairs was achieved two years ahead of schedule and continues to rise.

Mr. Spring: To ask the Secretary of State for Environment, Food and Rural Affairs what the legal costs to date associated with the Breckland Farmland Site of Special Scientific Interest and the proposed Breckland Special Protection Area are *(a)* excluding costs relating to legal challenges and *(b)* including costs relating to legal challenges; and what other costs to date have been incurred by (i) English Nature and (ii) her Department. [165130]

Mr. Bradshaw: The legal costs to date associated with the Breckland Farmland Site of Special Scientific Interest (SSSI) and the proposed Breckland Special Protection Area incurred by English Nature are: *(a)* excluding costs relating to legal challenges, approximately £10,000; and *(b)* including costs relating to legal challenges, approximately £250,000, both amounts are subject to VAT.

The first amount *(a)* includes legal advice concerning the SSSI notification process and letters of objection together with legal representation at the English Nature Council meeting in July 2001. Included within the costs at *(b)* is the cost of the High Court proceedings as incurred by English Nature in the legal challenge brought by the hon. Patrick Fisher and the Trustees of the Hon. P.V Fisher's Children's 1986 Settlement.

With regard to any other costs incurred by (i) English Nature, I regret that these would be obtainable only at disproportionate cost but would cover the time provided by various members of staff involved in the proceedings. The costs incurred by (ii) Defra are negligible as the Department is not a party to the proceedings brought over Breckland Farmland SSSI.

Energy Efficiency (Wirral, South)

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what estimates she has made of the potential carbon savings that will be achieved in the UK as a result of implementing the Energy Performance of Buildings Directive by *(a)* 2010 and *(b)* 2020. [165280]

Phil Hope: I have been asked to reply.

The Government support the Energy Performance of Buildings Directive and propose to transpose it into law through the Building Regulations. It requires member states to set standards, to require the provision of

certificates, and to inspect boilers and air conditioning systems. It does not include specific carbon saving measures, and therefore no estimates of savings have been made. The Office of the Deputy Prime Minister is confident however that implementation of the directive will heighten energy efficiency in the public's mind, and hence lead to improvements in buildings producing carbon savings in due course.

EU Agriculture and Fisheries Council

Mr. Hood: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the Agriculture and Fisheries Council on 26 April; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [169477]

Mr. Bradshaw: I represented the United Kingdom at the EU Agriculture and Fisheries Council on 26 to 27 April 2004.

After several hours of talks, the Irish Presidency concluded that it was not possible to identify a compromise proposal on the welfare of animals during transport that would command the support of a qualified majority of member states, and so the meeting concluded without agreement on that dossier. There are no plans to resume discussion of it. This outcome was disappointing for the Government, which had supported the Presidency's efforts to find a compromise that represented a genuine improvement in animal welfare over the current rules.

On the approvals process for genetically modified organisms, there was no qualified majority of member states, either in favour of or against, the approval of sweetcorn from Bt11 maize for consumption in the EU. Under the rules of procedure for such approvals, the Commission is now able to take a decision under its own responsibility, from 1 May.

Denmark reported on measures it has taken in response to dioxin levels in salmon fished in the Baltic Sea. Slovakia and Poland raised concerns about the rules on the carry-over of agricultural stocks on enlargement, which are designed to prevent speculation but which they consider to be over-bureaucratic. In response to a request from Denmark and Austria, the Commission indicated that it would bring forward a proposal within the next few weeks on thresholds for the adventitious presence of genetically modified material in seeds.

Farming

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what extra subsidy schemes severely disadvantaged area farmers may apply for. [169078]

Alun Michael: I refer the right hon. Member to the answer given to the hon. Member for Malden and East Chelmsford (Mr. Whittingdale) on 17 March 2004, *Official Report*, column 271W.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what headage of livestock is registered in Cumbria. [169079]

Alun Michael: The total livestock figures for Cumbria, according to the latest available census returns, are as follows:

	Number
Cattle and calves	446,241
Pigs	31,875
Sheep and lambs	1,951,139
Goats	1,620
Horses	5,163
Deer	493
Poultry	2,392,240

Source:
June 2003 Agricultural Census

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms there are in Cumbria. [169095]

Alun Michael: The number of registered agricultural holdings in Cumbria was 7,969 at the 19 April 2004.

The number of holdings in Cumbria as at the June 2003 Census was 7,849.

Source:
Farm Survey System 19/4/04, June Agricultural Census 2003.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs whether Cumbrian farmers will be subject to different cross-compliance measures from Scottish farmers. [169097]

Alun Michael: Agriculture is a devolved matter, allowing the Scottish Executive to tailor policies where appropriate and permitted under the relevant regulations.

Currently there are public consultations on possible cross-compliance measures in England and Scotland. Officials continue to work closely in the design and implementation of CAP reform policies, including cross-compliance, to develop complementary measures wherever possible.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs whether farmers in severely disadvantaged areas in Cumbria will be subject to different cross-compliance measures from farmers not in severely disadvantaged areas in Cumbria. [169098]

Alun Michael: Defra launched its consultation on proposed and possible measures for implementation of cross-compliance in England on 29 March 2004. Final decisions on cross-compliance will be taken after careful consideration of responses.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what the average difference in payments between 2005 and 2013 will be for farmers *(a)* in severely disadvantaged areas, *(b)* not in severely disadvantaged areas and *(c)* in Scotland. [169099]

Alun Michael: Under the flat-rate system for allocating Single Farm Payment entitlement in England, the mean payment rate within each region will be similar between 2005 and 2013 even though individual payment rates will change during this transition. In Scotland, under the historic approach, both the mean and individual payment rates will change little over time. In both countries, however, some variation may arise from year to year due to movements in the prevailing exchange rate used to convert from euros and different rates of deduction for the national reserve, modulation and financial discipline.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what effect the lower rate severely disadvantaged areas allowance will have on numbers of livestock in Cumbria. [169101]

Alun Michael: From 2005 decoupling will break the link between subsidy and production in the UK and cause farmers to reassess their farming operation and production decisions. Decoupling is not affected by the method chosen for allocating entitlement to the Single Farm Payment. The impact of decoupling on production patterns and livestock numbers is very difficult to assess. There are several studies on the Defra website that examine this at the UK level but there are no assessments by county.

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what differences in cross-compliance requirements will exist between farms in different regions in England; [168034]

(2) what differences in cross-compliance requirements will exist between farms in severely disadvantaged areas and non-severely disadvantaged areas. [168035]

Alun Michael: Defra launched its consultation on proposed and possible measures for implementation of cross compliance in England on 29 March 2004. Decisions on cross compliance will not be determined until all responses have been considered carefully.

Fisheries

Mr. Key: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has responded to the Cabinet Office Strategy Unit recommendation that she should designate the sea bass stock for recreational use; and if she will make a statement. [165929]

Mr. Bradshaw: "Net Benefits", the Prime Minister's Strategy Unit report giving recommendations for a sustainable and profitable future for UK fishing, was published on 25 March. These recommendations are presented as the basis for Her Majesty's Government, the Devolved Administrations, the fishing industry and all other stakeholders to determine future action. In response, the Fisheries Departments in the UK will engage intensively with stakeholders to develop by the end of 2004 an action plan for change and a timetable for its delivery. Defra has set up a dedicated team to advance this work. The need to balance the needs of the recreational and commercial sectors is one of the many important issues that were identified in the report and will be covered.

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many UK fishing vessels will be required to use pingers in gillnet fisheries in areas IV and VII under the provisions of the new Regulation agreed at the Fisheries Council on 22 and 23 March, on the basis of current fishing effort; [168244]

(2) what proportion of UK fishing effort will be exempt from the pinger requirement on the basis of the exclusion of vessels smaller than 12 metres under the provisions of the new Regulation agreed at the Fisheries Council on 22 and 23 March. [168246]

Mr. Bradshaw: The new Council Regulation to address cetacean bycatch will require pinger usage on vessels of 12 metres and over in ICES divisions VIId, e, f, g, h and j when using bottom-set gillnets or entangling nets. In ICES Area IV and division IIIa, the pinger requirement will apply to vessels of 12 metres and over using bottom set gillnets or entangling nets where the combination of net lengths used does not exceed 400 metres or where the mesh size used is greater than or equal to 220mm. The data are not available to isolate definitively the number of vessels falling into the latter categories; it is only possible to identify the total number of vessels of 12 metres and over using bottom set gillnets and entangling nets in the areas concerned. On this basis, and using 2003 fishing data, the number of UK vessels required to use pingers would be 63.

Bearing in mind the same caveats, the proportion of UK fishing effort (i.e. days at sea) using bottom set-nets and entangling nets exempt from the pinger requirement would be approximately 80 per cent. It should be noted, however, that this calculation does not take account of the length of net deployed by those covered by the pinger requirements which is a significant factor affecting bycatch rates.

Hops

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what definition her Department uses of *(a)* hedgerow hops and *(b)* standard hops under the new single payment regime. [168147]

Alun Michael: For the purposes of the Single Payment, no distinction is drawn between different types of hops.

Orchards

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what definition her Department uses of an orchard; [168145]

(2) at what tree density her Department defines woodland as an orchard. [168146]

Alun Michael: There is no general definition of an orchard. Under present arrangements, densities above

50 trees per hectare have been regarded as ineligible for the purposes of claiming CAP subsidies and this is likely to continue in respect of the Single Payment.

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government will take to protect old varieties of apples if traditional orchards do not qualify for half subsidy. [168149]

Alun Michael: Old varieties of apple are protected in the National Fruit Collection and the conservation of traditional orchards is funded through the Countryside Stewardship Scheme.

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs which EU member states subsidise orchards. [168150]

Alun Michael: There is no provision within the Common Agriculture Policy for subsidies to orchards. However, member states may, in certain circumstances, allow the forage area within grazed orchards to be used in support of a Single Payment Scheme claim and make payments under rural development and conservation measures.

Rats

Mr. Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what action the Government are taking to control the rat population. [169892]

Mr. Bradshaw: The Prevention of Damage by Pests Act 1949 puts the responsibility for the enforcement and monitoring of rodent control with local authorities. Water companies, like other owners and occupiers of land, have a duty of carrying out the necessary control measures when ordered to do so by local authorities.

Should local authorities fail to discharge their responsibilities under the 1949 Act, Defra has certain default powers to initiate action, and has oversight of the water companies who undertake control of infestations in sewers and water supplies. The Department of Health is responsible for advising on the health aspects of infestations. Our Departments liaise closely to ensure co-ordinated Government action is taken as necessary.

The Government take this matter seriously. Defra, along with the Department of Health, Office of the Deputy Prime Minister, Local Government Association (representing the local authorities), Water UK (representing the water companies), Chartered Institute of Environmental Health and Central Science Laboratory, participate in the National Working Group on Rats in Sewers. The aim of the group is the development of an ongoing co-ordinated rodent control strategy.

Defra is also undertaking a research and development programme, to develop or encourage the development of cost-effective, humane and environmentally acceptable methods of managing rat populations. This is due to be completed in March 2007. The Department also monitors the level of commensal rodent presence through the English House Condition Surveys, undertaken by the Office of the Deputy Prime Minister. This is the only large-scale random survey of commensal rodent presence.

A rat control technical advice leaflet and a range of others on similar topics are available from the mammal and bird licensing and advice pages of the Defra website (these are located at: www.defra.gov.uk/wildlife-countryside/vertebrates) and from Defra's National Wildlife Management Team.

Tenancy Reform

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on recent discussions with the Association of Chief Estates Surveyors and Property Managers in Local Government, with specific reference to tenancy reform and estate disposal and restructuring. [169741]

Alun Michael: As part of the Government response to the report of the Tenancy Reform Industry Group, my noble Friend the Lord Whitty met representatives of the Association of Chief Estate Surveyors and Property Managers in local government on 7 April together with representatives from the Local Government Association and farming organisations, to discuss county farms.

The Government value the contribution that the county farm system makes to the tenanted farming sector and the opportunities it provides for new entrants to pursue a career in agriculture. The Government share the concerns of the Tenancy Reform Industry Group about the potential adverse impact that continuing sales of statutory smallholdings might have in the longer term.

The meeting of 7 April discussed a number of issues stemming from the report of the Tenancy Reform Industry Group. This included the regulatory framework under which local authorities provide for statutory smallholdings and the way in which local authorities manage their county farm estates. The meeting also considered the way forward for county farms and how best to maintain a modern and efficient service for the future.

Veal Crates

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations she has made to the European Commission on the use and regulation of veal crates; and if she will make a statement. [169748]

Mr. Bradshaw: We have not made any recent representations on veal crates. In the UK there has been a unilateral ban on the use of close-confinement veal crate systems since 1990. The EU banned new veal crate systems from 1994. Systems existing before that date were granted a transitional period that permitted their use until 2006. From 2006 all such systems will be banned throughout the EU.

TREASURY

National Statistics

Paul Flynn: To ask the Chancellor of the Exchequer how many suicides were recorded in the UK in each of the last 10 years for *(a)* children and *(b)* adults. [169895]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Paul Flynn, dated 5 May 2004:

The most recently available information is for 2002. In routine statistics, ONS defines suicides as deaths from suicide and deaths from "injury undetermined whether accidentally or purposely inflicted". In adults it is likely that most of these latter deaths are cases where the harm is self-inflicted but there was insufficient evidence to prove that the deceased deliberately intended to kill themselves so the Coroner returns an open verdict. This may not be the case in children, however, where open verdicts may not relate to self-inflicted injury. Therefore, figures for suicide and injury undetermined whether accidentally or purposely inflicted are given separately in the attached table for the calendar years 1993 to 2002.

Note that, for this purpose, children have been classified as persons aged under 15, with adults aged 15 and over. This is to achieve consistency with previous published analysis.[1]

[1] Brock A and Griffiths C. Trends in suicide by method in England and Wales, 1979 to 2001. *Health Statistics Quarterly* 20 (2003), 7–18.

Number of deaths from suicide[1] and injury undetermined whether accidentally or purposely inflicted,[2] in (a) children[3] and (b) adults[4]—United Kingdom, 1993 to 2002[5]

	Children[3]		Adults[4]	
Calendar year	Suicide[1]	Undetermined injury[2]	Suicide[1]	Undetermined injury[2]
1993	14	36	4,449	1,815
1994	13	26	4,368	1,722
1995	10	22	4,305	1,802
1996	6	25	4,160	1,691
1997	7	28	4,136	1,822
1998	6	19	4,383	1,774
1999	5	17	4,443	1,751
2000	9	21	4,282	1,673
2001	7	12	4,006	1,725
2002	8	16	4,059	1,664

[1] Deaths with a verdict of suicide were defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E950-E959 for the years 1993 to 2000 for England and Wales and Northern Ireland, and for 1993 to 1999 for Scotland, and the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 for the years 2001 and 2002 for England and Wales and Northern Ireland, and for 2000 to 2002 for Scotland (which also includes Y87.0).

[2] Deaths with a verdict of injury undetermined whether accidentally or purposely inflicted were defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes E980-E989 for the years 1993 to 1999 for Scotland and for the years 1993 to 2000 for Northern Ireland, and the International Classification of Diseases, Tenth Revision (ICD-10) codes Y10-Y34 for the years 2000 to 2002 for Scotland (which also includes Y87.2), and the years 2001 to 2002 for Northern Ireland. Data for England and Wales were defined using ICD-9 E980-E989 excluding E988.8 and ICD-10 Y10-Y34 excluding Y33.9 where the Coroner's verdict was pending.

[3] Children were classified as persons aged under 15 to be consistent with previous analysis.[6]

[4] Adults were classified as persons aged 15 and over to be consistent with previous analysis.[6]

[5] Data for England and Wales are for deaths occurring per calendar year. Data for Scotland and Northern Ireland are for deaths registered per calendar year.

[6] Brock A and Griffiths C. Trends in suicide by method in England and Wales, 1979 to 2001. *Health Statistics Quarterly* 20 (2003), 7–18.

Mr. Amess: To ask the Chancellor of the Exchequer how many conceptions resulted in termination in each year since 1997, broken down by month; and if he will make a statement. [170092]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Amess, dated 5 May 2004:

The most recent year for which figures are available is 2001.

The total number of monthly conceptions and conceptions terminated by abortion for women of all ages, in England and Wales, 1997 to 2001 are given in the attached table.

Total number of conceptions, and number terminated by abortion, by month of conception for women of all ages England and Wales, 1997 to 2001.

	1997		1998		1999	
Month of conception	Total conceptions	Conceptions terminated by abortion	Total conceptions	Conceptions terminated by abortion	Total conceptions	Conceptions terminated by abortion
January	68,474	15,090	70,830	15,996	66,243	14,756
February	59,661	12,703	60,239	13,597	58,867	13,142

Office for National Statistics.

Child Tax Credit

Mr. Djanogly: To ask the Chancellor of the Exchequer how many families in the Huntingdon constituency are in receipt of child tax credit. [170849]

Ruth Kelly: I refer the hon. Member to the answer given to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, Official Report, column 98W.

Mr. Meacher: To ask the Chancellor of the Exchequer how many families in Oldham West and Royton have received child tax credit. [170900]

Ruth Kelly: I refer my hon. Friend to the answer given to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Citizen Information Project

Mr. Gibb: To ask the Chancellor of the Exchequer if he will make a statement on progress on *(a)* the Citizen Information Project and *(b)* the objectives of the UK Population Register. [170336]

Ruth Kelly: The information requested falls within the responsibility of the General Registrar, who has been asked to reply.

Letter from Dennis Roberts to Mr. Nick Gibb, dated 5 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question on progress on the Citizen Information Project and the objectives of the UK Population Register. I am replying in his absence. (170336)

The objective of the Citizen Information Project (CIP) is to put in place a common government infrastructure to enable the sharing of basic contact information (name, address, date and place of birth, sex, date of death (where relevant)) about citizens. This should lead to improved accuracy of the information held, more effective and efficient delivery of public services, and greater convenience and empowerment for citizens across the lifetime of their dealings with the state. It should also improve the base of statistical information underpinning the development and implementation of government policy.

CIP is being managed by the General Register Office, part of the Office for National Statistics. It is being taken forward as a staged project, subject to regular Ministerial review. A feasibility study was completed in 2003, and approval to proceed to the next stage of work (project definition) was announced by the Chief Secretary to the Treasury on 6 January 2004. In the project definition phase we will explore a range of options for delivering the project's aims, taking account of ongoing developments in related areas of work, including in particular the Identity Cards programme being led by the Home Office.

Departmental Procurement

Michael Fabricant: To ask the Chancellor of the Exchequer what percentage of the *(a)* crockery, *(b)* cutlery and *(c)* glassware procured by his Department over the last five years is of British manufacture. [170810]

Ruth Kelly: The Treasury's catering service has been contracted out for several years and the cutlery, crockery and glassware used in providing that service has been procured by the suppliers of that service.

Employment

Mr. Djanogly: To ask the Chancellor of the Exchequer how many job vacancies there were in the Huntingdon constituency in *(a)* 1997 and *(b)* 2003. [170855]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jonathan Djanogly, dated 5 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about job vacancies in Huntingdon parliamentary constituency.

According to Jobcentre Plus administrative records the number of unfilled vacancies in the Huntingdon travel-to-work area was 866 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data, which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Mr. Ben Chapman: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Wirral, South from 1997 to 31 December 2003; [170302]

(2) how many new jobs have been created in Wirral, South since 1997. [170303]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Ben Chapman, dated 5 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions about full-time jobs and jobs created in Wirral South. (170302, 170303)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes, in numbers of jobs, from year to year.

The following table shows the information requested, relating to all jobs and full-time jobs, in Wirral South, for 1997 and the latest year available, 2002. No information is available about whether the jobs were permanent.

Number of full-time employees and total number of employees[1] in Wirral South parliamentary constituency: 1997 and 2002

Number, percentage

Number of employees	*Full-time*	*Total*
1997	16,000	22,700
2002	16,500	23,800
Change from 1997 to 2002		
Absolute	500	1,100
Percentage	3.0	4.9

[1] Employee jobs only, not self-employed jobs.

1997; Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI).

Gift Aid

John Barrett: To ask the Chancellor of the Exchequer pursuant to his answer of 23 April 2004, *Official Report*, column 686W, on gift aid, what assessment he has made of the effect of the abolition of gift aid claims on day memberships on donations to charities. [170046]

John Healey: I refer the hon. Gentleman to the answer I gave him on 30 March 2004, *Official Report*, column 1351W, and 23 April 2004, *Official Report*, column 686W, and the answer my right hon. Friend the Chief Secretary gave him on 4 March 2004, *Official Report*, column 1042.

In last year's pre-Budget report, the Chancellor announced changes to the Gift Aid rules which aim to maintain the principles of Gift Aid as a scheme designed to encourage donations to charity.

The Inland Revenue is consulting closely with affected charities in the heritage and conservation sectors on how this may best be achieved, and to ensure that there are no unintended side-effects.

These so-called "Day Membership" schemes do not generate additional donations, but merely reclassify admission fees as donations on which Gift Aid is then claimed. The changes are therefore not expected to reduce the total amount received from individuals by these charities in donations and admission fees, although the gift aid tax relief from the Government would no longer be claimable.

Household Debt/Income

Simon Hughes: To ask the Chancellor of the Exchequer if he will list the average *(a)* household debt per annum and *(b)* household monthly income in each year since 1997 in Greater London, broken down by borough. [170494]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Simon Hughes, dated 5 May 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question on average household debt per annum, and average household monthly income for the boroughs of Greater London. (170494)

The Office for National Statistics does not compile estimates of household debt below the UK level. Similarly estimates of quarterly household income are only available at the UK level. No estimates of monthly income are compiled.

ONS has published gross disposable household income (GDHI) at current prices at the NUTS1, 2 and 3 sub-national geographies. An explanation of how boroughs fit into these geographies is provided in the attached annex. These estimates were last published on 26 March 2002 and are presented in the table below. This data set runs from 1995 to 1999 and is consistent with the 2001 National Accounts. The estimates are available at. http://www.statistics.gov.uk/CCI/article.asp?ID=128&Pos=2&ColRank=1&Rank=224

Gross disposable household income per year NUTS1 and NUTS2 areas in London, 1997–99

£ per head

Area	*1997*	*1998*	*1999*
London	11,485	11,811	12,207
Inner London	12,089	12,363	12,935
Outer London	11,110	11,467	11,748

At the NUTS3 geographic level, data was only of sufficient quality for ONS to publish estimates of household income on a three year average basis. These are presented as indices relative to the UK average.

Index[1] of gross disposable household income (GDHI) per year NUTS 1, NUTS2 and NUTS3 areas in London, 1997–99

£ per capita (average over whole period)

Area	*GDHI Index*
London	121
Inner London	127
Inner London—East	106
Inner London—West	164
Outer London	117
Outer London—East and North East	112
Outer London—South	120
Outer London—West and North West	119

[1] Index value is 100 for the UK as a whole.

Annex

NUTS-3	*LAU 1 level/Boroughs*
Inner London—West	Camden, City of London, Hammersmith and Fulham, Kensington and Chelsea, Wandsworth, Westminster.
Inner London—East	Hackney, Haringey, Islington, Lambeth, Newham, Southwark, Lewisham, Tower Hamlets.
Outer London—East and North East	Barking and Dagenham, Bexley, Enfield, Greenwich, Havering, Redbridge, Waltham Forest.
Outer London—South	Bromley, Croydon, Kingston upon Thames, Merton, Sutton.
Outer London—West and North West	Barnet, Brent, Ealing, Harrow, Hillingdon, Hounslow, Richmond upon Thames.

Income Tax

Mr. Ben Chapman: To ask the Chancellor of the Exchequer how many senior citizens in Wirral, South qualified for the 10p rate of income tax in each year since its introduction. [170275]

Ruth Kelly: All income taxpayers benefit from the 10p starting rate. The Survey of Personal Incomes estimates there were around 10,000 state retirement pension age taxpayers in the Wirral South constituency in 2000–01 and 2001–02. Figures for 1999–2000 are currently not available.

IT Equipment (Tax Exemption)

Mr. Djanogly: To ask the Chancellor of the Exchequer how many businesses in the Huntingdon constituency have benefited from 100 per cent. tax exemption for the purchase of computer and internet equipment. [170843]

Mr. Meacher: To ask the Chancellor of the Exchequer how many businesses in Oldham West and Royton have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [170901]

Ruth Kelly: We regret that the information is not available to estimate the number of businesses in a given constituency which have benefited from the 100 per cent. first year capital allowances for the purchase of information and communication equipment.

Mr. Ben Chapman: To ask the Chancellor of the Exchequer how many businesses in Wirral, South have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [170301]

Ruth Kelly: The information requested is not available.

Job Creation (Huntingdon)

Mr. Djanogly: To ask the Chancellor of the Exchequer (1) how many jobs have been created in the Huntingdon constituency since 1997; [170850]

(2) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in the Huntingdon constituency from 1997 to 31 December 2003. [170851]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Dennis Roberts to Mr. Jonathan Djanogly, dated 5 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about full-time jobs and jobs created in Huntingdon. I am replying in his absence.

While statistics of jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes, in numbers of jobs, from year to year.

The attached table shows the information requested, relating to all jobs and full-time jobs, in Huntingdon, for 1997 and the latest year available, 2002. No information is available about whether the jobs were permanent.

Number of full-time employees and total number of employees[1] in Huntingdon parliamentary constituency: 1997 and 2002

	Full-time	*Total*
Number of employees		
1997	36,900	50,000
2002	36,900	52,500

1997; Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI).

Ministerial Meetings

Simon Hughes: To ask the Chancellor of the Exchequer if he will list *(a)* the official meetings he has had with the Mayor of London since July 2000 and *(b)* the dates and subject of each meeting. [170570]

Ruth Kelly *[holding answer 4 May 2004]:* The Chancellor has had no official meetings with the Mayor since July 2000.

Mr. B. Bentley (Child Benefit)

Mr. Frank Field: To ask the Chancellor of the Exchequer how long it took to finalise the claim for child benefit submitted by Mr. B. Bentley of Quigley Street, Birkenhead; and if he will make a statement on his policy of transferring child benefit to grandparents when they become the main carer of the child. [170656]

Ruth Kelly *[holding answer 4 May 2004]:* The Inland Revenue is statutorily debarred from disclosing information relating to the affairs of individuals. Exemption 15 of the Code of Practice on Access to Government Information applies.

The rules governing the transfer of child benefit from one person to another are contained in the Social Security Contributions and Benefits Act 1992. Where a

child's parent voluntarily relinquishes entitlement to child benefit in favour of the child's grandparent, the grandparent will be entitled from the day following the last day the benefit was paid to the parent.

National Minimum Wage

Simon Hughes: To ask the Chancellor of the Exchequer how many young people aged 16 or 17 he expects will be entitled to the national minimum wage in *(a)* Greater London, *(b)* each London borough and *(c)* the United Kingdom in 2004–05. [170495]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Dennis Roberts to Mr. Simon Hughes, dated 5 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about national minimum wage. I am replying in his absence. (170495)

Information about entitlement to the national minimum wage is not available. However, estimates for the number of employees aged 16 and 17 from the Labour Force Survey (LFS) provide an upper limit for the number of people entitled to the national minimum wage.

The table below gives estimates of the number of employees aged 16 and 17 in the United Kingdom and in Greater London for the three month period ending February 2004. They include a small, but not measured, number of people enrolled on apprenticeship and pre-apprenticeship schemes who are not entitled to the minimum wage.

Number of employees aged 16 and 17 in the United Kingdom and in Greater London

	Three month period ending February 2004		
	Employees aged:		
Area	*16 and 17*	*16*	*17*
United Kingdom	602,000	227,000	375,000
Greater London	34,000	11,000	23,000

Source:
Office for National Statistics

As with any statistical sample survey, estimates from the LFS are subject to sampling variability and the sample size is too small to provide comparable estimates for London Boroughs with any reliability.

Parliamentary Questions

John Thurso: To ask the Chancellor of the Exchequer (1) how many *(a)* Ordinary Written and *(b)* Named Day Questions his Department received in (i) the 2002–03 and (ii) this parliamentary session up to the most recent date for which figures are available, broken down by month; [170764]

(2) what proportion of *(a)* Ordinary Written Questions to his Department were answered within five sitting days of tabling and *(b)* Questions for a Named Day received a substantive answer on that day in (i) 2002–03 and (ii) this parliamentary session up to the most recent date for which figures are available, broken down by month. [170765]

John Healey: The information is given in the following table:

	Ordinary written questions tabled	*Answered within a working week*[1]	*Named day questions tabled*	*Answered on the nominated day*
2002–03				
November 2002	203	158	67	54
December 2002	168	138	108	73
January 2003	476	360	62	45
February 2003	295	210	58	47
March 2003	442	363	43	31
April 2003	277	176	52	29
May 2003	298	246	37	24
June 2003	340	248	58	35
July 2003	253	164	31	20
August 2003	0	0	0	0
September 2003	181	139	39	30
October 2003	253	205	40	32
November 2003	160	143	25	18
Total	3,346	2,550	620	438
2003–04				
November 2003	53	50	7	7
December 2003	245	205	60	52
January 2004	304	253	43	27
February 2004	252	201	46	37
March 2004	346	267	102	55
April 2004	139	102	19	10
Total	1,339	1,078	277	188

[1] The Treasury's database records whether ordinary written questions are answered within a working week rather than five sitting days, which can be several days longer.

John Thurso: To ask the Chancellor of the Exchequer when he will reply to question 163123 tabled on 18 March, on meetings with the Chairman of the Strategic Rail Authority. [170870]

Mr. Boateng: I did so on 28 April 2004, *Official Report*, column 1114W.

Pensions

Mr. George Osborne: To ask the Chancellor of the Exchequer what the cost to the Exchequer would be under its proposed reform of pension taxation of imposing no lifetime saving allowance on pension savings in 2006–07 and each of the subsequent three years. [170235]

Ruth Kelly: There would be a cost attached to having no lifetime allowance under the proposed simplified pension regime. The size of this cost depends upon behavioural effects and any estimate of cost would inevitably be very broad-brush. However, given the potential additional pension savings from those in the top 1 per cent. of the earnings distribution, the cost to the Exchequer could be up to several hundred million pounds over this period.

Public Spending

John Mann: To ask the Chancellor of the Exchequer whether he expects to meet his target of having achieved a modest surplus across the current economic cycle ending in fiscal year 2005–06. [171292]

Ruth Kelly: The UK public finances are underpinned by two fiscal rules: the sustainable investment rule and the golden rule. The golden rule states that over the economic cycle, the Government will borrow only to invest and not to fund current spending. Progress against the rule is measured by the average annual surplus on the current budget measured as a ratio to GDP over the economic cycle.

The average surplus on the current budget between 1999–2000, which is the Government's provisional judgment of the start of the current cycle, and 2005–06 when the Government project the economy will return to trend, as stated in the Budget 2004 (HC 301), table 2.6 page 34, is 0.1 per cent. of GDP. On this basis, the Government are on track to meet the golden rule.

Small Businesses (Shrewsbury)

Mr. Paul Marsden: To ask the Chancellor of the Exchequer (1) how many small businesses re-registered for VAT in Shrewsbury and Atcham in each year since 1997; [170636]

(2) how many new VAT registrations of small companies there were in Shrewsbury and Atcham in each year since 1997. [170637]

John Healey: Statistics published by the Small Business Service for total VAT registrations for the Shrewsbury and Atcham area from 1997 are shown in the following table:

	New registrations	*Total registrations*[1]
1997	270	2,975
1998	270	3,015
1999	250	3,050
2000	270	3,070
2001	265	3,090
2002	290	3,130
2003	n/a	3,185

[1] Start of year.

However, total VAT registration data do not capture all business start-up activity. Businesses are unlikely to register if they fall below the compulsory VAT registration threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. There were only 1.8 million out of 3.8 million enterprises registered for VAT at the start of 2002.

Tourism (Wirral)

Mr. Ben Chapman: To ask the Chancellor of the Exchequer how many people were employed in tourism-related jobs in Wirral, South on the latest date for which figures are available. [170304]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Ben Chapman, dated 5 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about tourism-related jobs in Wirral South. (170304)

The latest available data, from the 2002 Annual Business Inquiry, shows that the total number of jobs in tourism related industries in Wirral South was 2,100. This total is obtained by combining figures for those working in the following industries, as identified by Standard Industrial Classification 2003:

hotels

restaurants

bars

activities of travel agencies

library, archives museums etc

sporting activities

other recreational activities.

Unemployment

Mr. Ben Chapman: To ask the Chancellor of the Exchequer what the level of unemployment was in each year since 1997 in Wirral, South. [170276]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Dennis Roberts to Ben Chapman, dated 5 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about unemployment. I am replying in his absence. (170276)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Wirral South Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The table below gives the annual average number of JSA claimants for the Wirral South constituency for each year since 1997.

Annual average number of JSA claimants Wirral South constituency, 1997–2004

	Number of claimants
1997	1,860
1998	1,433
1999	1,335
2000	1,229
2001	1,008
2002	923
2003	848

Mr. Love: To ask the Chancellor of the Exchequer what the unemployment figures were in the constituency of Edmonton for *(a)* 1991–92, *(b)* 2001–02 and *(c)* 2003. [169302]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Dennis Roberts to Mr. Andrew Love, dated 5 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question about unemployment. I am replying in his absence. (169302)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Edmonton Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The table below gives the annual average number of JSA claimants for the Edmonton constituency for the years 1991, 1992 and 2001 to 2003.

Annual average number of JSA claimants, Edmonton constituency, years as shown

	Number of claimants
1991	4,118
1992	5,468
2001	2,284
2002	2,185
2003	2,301

TRANSPORT

Buses

Bob Russell: To ask the Secretary of State for Transport (1) if he will allocate additional funds to local authorities to introduce free bus travel for *(a)* those of pensionable age and *(b)* those with disabilities; [169786]

(2) if he will allocate additional funds to local authorities to enable subsidised fares for *(a)* those of pensionable age and *(b)* those with disabilities to be made available at all times. [169787]

Mr. McNulty: We have no plans to allocate additional funds to local authorities to introduce free bus travel, or to extend subsidised fares, for pensioners and disabled people to all times.

The current statutory minimum requirement for concessionary travel in England introduced in 2001 ensures half fares for pensioners and disabled people on local buses for journeys made after 9.30 am. From April 2003, we extended concessionary travel schemes to men aged 60 to 64, bringing them into line with women of the same age. We provided funding to local authorities to cover the additional costs of implementing these initiatives. Local authorities may make more generous provision, including free travel on buses and trains, or for concessionary travel at all times, at their discretion in the light of their own financial priorities and local circumstances. Also, from May 2003, we have provided additional funding to enable half-fares to be made available on many scheduled long-distance coach services for people aged 60 years and over and for disabled people.

Off-shore Wind Farms

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the extent of interference with maritime navigational instruments from wind farms placed in UK territorial waters. [168262]

Mr. Darling: The Government will examine the extent of interference with maritime navigational instruments caused by wind farms. We will want to draw on international experience, for instance in Denmark, and also learn as much as possible from our own installations. We will use the offshore wind farm at North Hoyle as a test facility to provide input into the study. We intend to begin work as soon as possible so that the results are known before any consents to build wind farms under the second round of offshore development.

Piracy

Patrick Mercer: To ask the Secretary of State for Transport what plans he has to issue an advice leaflet to the crews of British flagged ships concerning how best to defend themselves against piracy. [170055]

Mr. Jamieson: Detailed guidance already exists in the form of Marine Guidance Note MGN 241 (M)—(Measures to Counter Piracy, Armed Robbery and other acts of Violence against Merchant Shipping), published in November 2002 and issued to over 16,000 UK mariners. There are no immediate plans to re-issue the guidance but this is being kept under review.

Patrick Mercer: To ask the Secretary of State for Transport what measures he has taken to help British flagged ships that sail *(a)* near Malaysia and *(b)* through the Straits of Malacca defend themselves against piracy. [170056]

Mr. Jamieson: I refer the hon. Member to my earlier answer given today (ref 170055). The Department for Transport has issued comprehensive guidance to UK mariners regarding the measures that UK flagged vessels should take to defend against acts of piracy while passing through the Malacca Straits. Additionally, the DfT will be represented at the International Maritime Bureau's (IMB) Piracy conference being held in Kuala Lumpur at the end of June. We will be highlighting and making a persuasive case for a more robust and co-ordinated international effort to crack down on piracy in the world's main hotspots such as the Straits of Malacca.

All British flagged ships are required under the new International Ship and Port Facility Security (ISPS) code to appoint a Ship Security Officer (SSO) and submit a Ship Security Plan (SSP) to the DfT. Officials examine these plans and verify them on board prior to issuing the International Ship Security Certificate (ISSC), if appropriate. SSPs and vessels have to meet UK security standards and the plans contain many elements of good security practice, which help SSOs ensure ships are adequately protected.

Patrick Mercer: To ask the Secretary of State for Transport how many incidents of piracy were reported as having taken place against British vessels in 2003. [170063]

Mr. Jamieson: There were 17 incidents of piracy reported by the IMB against British vessels in 2003. This figure includes incidents against vessels flagged in UK and its Overseas Territories and Crown Dependencies.

Patrick Mercer: To ask the Secretary of State for Transport how many incidents of piracy were discovered at UK seaports by *(a)* UK border controls and *(b)* the Royal Navy in 2003. [170064]

Mr. Jamieson: There were no incidents of piracy discovered at UK seaports in 2003 by either UK border controls or the Royal Navy. There were also no piracy related incident reports for the UK, and the IMB annual report confirms that no such incidents were recorded for 2003.

DEFENCE

Accommodation

Mr. Hancock: To ask the Secretary of State for Defence (1) pursuant to his answer of 1 April 2004, *Official Report*, column 1604W, on accommodation costs, what the housing needs of the Service personnel living in private rented accommodation are; [169472]

(2) pursuant to his answer of 1 April 2004, *Official Report*, column 1604W, on accommodation costs, what plans he has to provide sufficient service accommodation in the Greater Portsmouth area to obviate the need for service personnel to rent in the private sector. [169444]

Mr. Caplin: All families housed in Substitute Service Family Accommodation (SSFA) in the Portsmouth area at present are in need of 4-bedroomed houses. Two PFI projects will provide a total of 148 x 4-bedroomed houses at the former HMS Daedalus site in Gosport, which should eliminate the need for privately rented accommodation, even allowing for an expected increase in Portsmouth-based personnel. The new properties are scheduled to be constructed within about 18 months.

In addition, there is currently a need for Substitute Single Service Accommodation in Portsmouth, for personnel temporarily displaced by Project EMMA, a major project replacing 1960s tower blocks with new accommodation, projected to provide a suitable level of accommodation for many years to come. A Portsmouth Single Living Accommodation Study is on-going, designed to assess the single accommodation need in the Portsmouth area and ensure that best use is made of existing accommodation.

Aircraft Carriers

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the benefits of full-sized aircraft carriers. [161245]

Mr. Ingram: The Strategic Defence Review concluded that the current Invincible class carriers should be replaced by two larger, more versatile, aircraft carriers capable of carrying a more powerful embarked air component. The carriers would have broad utility across a range of roles, consistent with the focus of maritime forces towards rapid deployment operations and wider power projection.

Size is not, however, an end in itself and the Department has not sought to fix the dimensions of these new aircraft carriers during the Assessment Phase of the CVF project. Parameters such as the ships size will instead reflect the design needed to meet the level of capability sought. It is to be expected that the design, and therefore size, of the ships will evolve as the Department seeks to balance, in conjunction with industry, overall performance, time and cost as part of normal Assessment Phase activity.

Mr. Nicholas Brown: To ask the Secretary of State for Defence whether the BAE Systems and Thales partnership is still his preferred prime contractor for the aircraft carrier programme; what alternatives are under consideration; when the appointment will be confirmed; and if he will make a statement. [166013]

Mr. Ingram: As my right hon. Friend the Secretary of State for Defence announced on 30 January 2003, the best means of delivering the carrier programme is via an alliance approach involving BAE Systems, Thales UK and the Ministry of Defence.

The alliance approach remains the best way to deliver the programme within the time and cost parameters, and we continue to engage in discussions on the alliancing strategy to determine roles and responsibilities. Ministers are currently considering proposals on the overall CVF programme, the alliance strategy, and on when to proceed to the Demonstration and Manufacture phases.

Mr. Hancock: To ask the Secretary of State for Defence if he will make it his policy to ensure that *(a) the* entire value of future aircraft carriers will be spent in the UK and *(b)* in the event that overseas suppliers are necessary, 100 per cent. of the value of such contracts will be offset by purchases from the UK. [167641]

Mr. Ingram: It is intended that the Future Aircraft Carriers will be acquired in accordance with defence industrial policy and also to provide the armed forces with the equipment they require at the best value for money for the taxpayer. I refer the hon. Member to the answer I gave on 13 January 2003, *Official Report*, column 404W to my hon. Friend the Member for Chorley (Mr. Hoyle).

Mr. Hancock: To ask the Secretary of State for Defence (1) if he will make it his policy to ensure that the final assembly and integration of modules of all future aircraft carriers will be at a UK shipyard; and if he will list the UK shipyards which have this capability; [167642]

(2) if he will list those companies which he has assessed as having the capability to construct the principal modules which will make up future aircraft carriers. [167643]

Mr. Ingram: In accordance with Government policy for the construction of Royal Navy warships, the Future Aircraft Carriers will be built in UK shipyards. As my right hon. Friend the Secretary of State announced on 30 January 2003, a combination of four UK shipyards potentially offer the best way forward to build and

assemble the vessels: BAE Systems Naval Ships at Govan, Vosper Thornycroft at Portsmouth, Swan Hunter on Tyneside and Babcock BES at Rosyth. We have not, however, ruled out the involvement of other yards and facilities depending on the build strategy that is selected. Final decisions on the potential four shipyards and other manufacturing facilities will be made based on achieving value for money while taking due cognisance of capability, capacity and resources across the UK shipbuilding industry.

Airfield Support Services Project

Mr. Hancock: To ask the Secretary of State for Defence which officials involved in the preparation of Fire Study 2000 have also been involved with *(a)* the preparation of the Public Sector Comparator and *(b)* the evaluation of bids for the Airfield Support Services Project. [167250]

Mr. Ingram: The Airfield Support Services Project (ASSP) is seeking to achieve the most viable and cost effective solution for the provision of airfield support and wider fire services without compromising operational effectiveness and/or safety. Separately, Fire Study 2000 (FS 2000) investigated the potential for improved delivery of Defence Fire Services (DFS). The results of this study have been used to inform the ASSP Public Sector Comparator (PSC).

No official involved in the preparation of the FS 2000 report was a member of the ASSP PSC Working Group. Officials from the Defence Fire Service Headquarters did provide advice to the ASSP Team on what FS2000 savings were appropriate to the ASSP and an official who was a member of the FS 2000 Project Team also provided subject matter advice for the technical evaluation of industry proposals.

Armoured Mobility

Bob Spink: To ask the Secretary of State for Defence what plans he has to improve armoured mobility for *(a)* the Army and *(b)* the Royal Marines; and if he will make a statement. [165384]

Mr. Ingram: There are a number of ongoing projects that improve the armoured mobility of the Army and Royal Marines.

We have procured appliqué mine blast and ballistic protection kits for the Combat Vehicle Reconnaissance (Tracked) (CVR(T)) vehicles. We have also procured eight Supacat TEMPEST Mine Protected Vehicles (MPV) to deliver a CounterMine Vehicle (CMV) capability. Both of these capabilities are deployed on current operations.

We are procuring 401 Future Command and Liaison Vehicle (FCLV) with an approved In Service Date (ISD) of November 2007 to provide protected tactical mobility for Combat, Combat Support and Combat Service Support Arms within the Army.

There are three vehicle programmes that will significantly improve the capability of the Royal Engineers' armoured mobility. We are procuring 33 TITAN vehicles to deliver the Armoured Vehicle Launcher Bridge (AVLB) capability and 33 TROJAN vehicles to deliver the Armoured Vehicle Royal Engineer (AVRE) heavy breaching capability; both have approved ISDs of December 2006. Additionally, we are procuring 65 TERRIER vehicles to deliver the Armoured Engineer Tractor (AET) capability with an approved ISD of December 2008.

A preliminary assessment has been made of the options to meet the Armoured Battlegroup Support Vehicle (ABSV) requirement in our armoured units. We are also studying the concept of a Warrior Mid Life Improvement programme. No final decisions have yet been made on these programmes and the ISDs will not be set until they pass their main gates.

We are currently completing the Concept Phase for the procurement of a family of network-enabled, medium-weight armoured vehicles to deliver the Future Rapid Effect System (FRES) capability. The In-Service Date for FRES will not be endorsed until the main investment decision, but on current plans, the intention is to introduce early variants into service around the end of the decade.

For the Royal Marines we are in the process of delivering 108 All Terrain Vehicle (Protected) VIKING vehicles, which includes Troop Carrying, Command and Repair and Recovery Vehicles.

Asset Tracking

Mr. Soames: To ask the Secretary of State for Defence what progress is being made in acquiring an asset tracking system for the armed forces; and if he will make a statement. [165564]

Mr. Ingram: Asset tracking comprises a family of capabilities which allows visibility and management of inventory. Of these capabilities, Consignment Tracking and the Management of the Deployed Inventory were consistently identified as areas requiring attention from Lessons Identified from Operation Telic. After urgent investigation, we identified areas for investment and a number of recommendations to further improve the Ministry of Defence's consignment tracking capability, including that TAV (-) should be retained and formally supported. These recommendations are currently being considered.

Additionally, two other projects which contribute to Asset Tracking, Management of the Joint Deployed Inventory (MJDI) and Management of Materiel in Transit (MMiT) have been initiated.

Atomic Co-ordinating Offices

Alan Simpson: To ask the Secretary of State for Defence how many staff are employed in the Atomic Co-ordinating Offices in London and Washington; and what their civil service grades are. [166579]

Mr. Ingram: There are three staff employed in the Atomic Control Office, London and five staff in the Atomic Co-ordinating Office, Washington as follows:

Atomic Control Office London

1 x Band D, 2 x Band E2.

Atomic Co-ordinating Office Washington

1 x B1, 1 x B2, 1 x Band D, 1 x E1, 1 x Locally Employed Civilian.

Alan Simpson: To ask the Secretary of State for Defence what the annual running costs are of the Atomic Co-ordinating Offices in London and Washington; and out of which budget they are taken. [166580]

Mr. Ingram: The annual running costs of the Atomic Control Office, London and the Atomic Co-ordinating Office, Washington are some £70,000 and £400,000 respectively. The costs of the London office fall to the Chief Scientific Adviser's Top Level Budget (TLB); the costs of the Washington office fall to the Centre TLB.

Defence Budgets

Mr. Laws: To ask the Secretary of State for Defence what his latest estimate is of the *(a)* defence procurement budget and *(b)* military research and development budget for each year from 1996–97 to 2005–06 (planned); and if he will make a statement. [156607]

Mr. Ingram: The Ministry of Defence's cash outturn on defence equipment procurement for 1996–97 to 2000–01 is published in the United Kingdom Defence Statistics 2001 and 2002.

Our cash outturn for research and development for 1996–97 is published in "UK Defence Statistics 2001". Outturn figures for 1997–98 to 2001–02 are in UK Defence Statistics 2003. R&D outturn for 2002–03, on the same basis, is published in the MOD "Annual Report and Accounts 2002–03". R&D plans for 2003–04 and 2004–05 are published in the "Office of Science and Technology Forward Look 2003". Figures are not yet available in this form for 2005–06.

£ million

	Equipment procurement	*Total MOD Research and Development (R&D)*[1]
1996–97	9,494	2,144
1997–98	9,373	2,314
1998–99	10,281	2,140
1999–2000	10,094	2,272
2000–01	10,408	2,240
2001–02	—	2,057
2002–03	—	2,734
2003–04	—	2,579
2004–05	—	2,629

[1] From 2000–01 these figures are calculated on a resource basis.

Details of the MOD's "procurement" resource and capital outturn for the years 2001–02 to 2002–03 and plans from 2003–04 to 2005–06 are set out in The Government's Expenditure Plans for the MOD 2003–2004 to 2005–2006 (Cm 5912):

£ million

	Resource		*Capital*	
	Defence Procurement Agency (DPA)	*Major Customers' Research Budget (MCRB)*	*Defence Procurement Agency*	*Major Customers' Research Budget*
2001–02 outturn	2,710	414	4,356	0
2002–03 (estimated outturn)[1]	5,033	417	4,385	1
2003–04 (plans)	1,968	449	4,617	0
2004–05 (plans)	2,262	454	4,920	0
2005–06 (plans)	2,221	465	5,656	0

[1] The figures up to 2002–03 have not been restated to reflect a change in the Treasury Discount Rate and are therefore not directly comparable to the plan years.

The figures are presented differently in the Government's Expenditure Plans and Defence Statistics. The Government's Expenditure Plans define "procurement" expenditure as Defence Procurement Agency spending plus the Major Customers' Research Budget. The Major Customers' Research Budget represents money allocated for non-nuclear research, which forms part of the MOD's total net Research and Development expenditure. Defence Statistics shows total MOD net expenditure on Research and Development.

Defence Fire Service

Mr. Hancock: To ask the Secretary of State for Defence how many people are employed in the Defence Fire Service; and how many of these have indicated a willingness to become sponsored reserves in the event that the public sector comparator solution is selected for the Airfield Support Services Project. [167645]

Mr. Ingram: There are approximately 1,300 personnel based in the United Kingdom who are employed by the Defence Fire Service. A survey carried out in spring 2002 for Fire Study 2000, which has been used to inform the Public Sector Comparator for the Airfield Support Services Project, identified 420 fire fighters willing to become sponsored reserves.

Eurofighter Typhoon

Mr. Jack: To ask the Secretary of State for Defence if he will make a statement on the position of each Eurofighter Typhoon partner in respect of when they will be ordering their Tranche II aircraft. [170108]

Mr. Ingram *[holding answer 30April 2004]:* It is not appropriate to comment on the position of our partner Eurofighter Typhoon nations in respect of their orders for Tranche II aircraft. The international arrangements for the project require that all four nations must agree the order before it can be placed on their behalf by the responsible NATO procurement agency.

Mr. Jack: To ask the Secretary of State for Defence what discussions he has had with his partners in the Eurofighter Typhoon Project about the UK being allocated the building of the 18 aircraft destined for Austria; and if he will make statement. [170109]

Mr. Ingram *[holding answer 30 April 2004]:* The Secretary of State for Defence has had no discussions with partners in the Eurofighter Typhoon project about the United Kingdom being allocated the building of the 18 aircraft destined for Austria. Austria has ordered 18 Typhoons from Eurofighter GmbH and the role of national contractors in their construction has yet to be decided.

France Campaign 1940

Mr. Charles Kennedy: To ask the Secretary of State for Defence what plans he has to commemorate the 64th anniversary of the contribution made by the 51st Highland Division who were captured at St. Valery-en-Caux. [169918]

Mr. Caplin: The valour of the 51st (Highland) Division at St. Valery-en-Caux is legendary. It is, however, Government policy to sponsor commemorations only for Jubilees of the Sovereign's Accession and 50th and 60th anniversaries and centennials of events of the greatest national significance. Nevertheless it is open to the successor units of those which fought at St. Valery to organise their own commemorations if they wish.

HMS Vanguard

Mr. Hancock: To ask the Secretary of State for Defence what safeguards will be in place for citizens of the Devonport area when the nuclear reactor of HMS Vanguard is fired up after her Long Overhaul Period (Refit). [166902]

Mr. Ingram: The nuclear reactor of HMS Vanguard is currently undergoing detailed inspection, revalidation and overhaul as part of the refit, and will be subject to rigorous testing prior to being operated. These measures are taken to ensure the safety of the reactor, and hence the safety of the workforce and members of the public. They are identical to those applied to all nuclear reactor systems towards the end of a refit where the submarine has been refuelled. All aspects of this work are subject to detailed safety justification and Devonport Management Limited (DML), as the nuclear site licensee, requires the prior approval of the UK's independent regulators, the Nuclear Installations Inspectorate, for all nuclear operations at Devonport Royal Dockyard. In addition, authorisation to operate refuelled nuclear submarines requires the approval of the Ministry of Defence's internal regulator. In the highly unlikely event of a nuclear incident, Devonport is covered by a site emergency plan, which is jointly prepared by DML and MOD. There is also an off-site emergency plan for which Plymouth City council is responsible.

Iraq

Jeremy Corbyn: To ask the Secretary of State for Defence what his latest estimate is of the number of unexploded cluster bombs and bomblets that remain in Iraq having been dropped by British military operations. [166415]

Mr. Ingram: To date, around 930,000 individual items of unexploded ordnance have been cleared from the Multi-National Division (South East) Area of Operations. This figure includes around 5,800 items of submunitions, however this category is not broken down further into type of submunition or county of origin. Therefore it is not possible to quantify the number of unexploded cluster bombs and bomblets that remain in Iraq having been dropped by British military operations.

Paul Flynn: To ask the Secretary of State for Defence what measures his Department has implemented to *(a)* trace and *(b)* recover munitions containing depleted uranium used by British forces in Iraq. [166871]

Mr. Ingram: An initial survey of the region has been started to mark known sites for clearance. Surface lying depleted uranium (DU) fragments are being removed from the battlefield as they are discovered.

The Ministry of Defence has provided the coordinates of targets attacked by British forces using DU ammunition to the United Nations Environment Programme which will assess DU levels as part of its post-conflict environmental survey of Iraq when the security situation allows.

Mr. Hancock: To ask the Secretary of State for Defence if he will ensure that all investigations into alleged abuses by Coalition Forces in Iraq are conducted by a body that is *(a)* competent, *(b)* impartial and *(c)* independent. [166936]

Mr. Ingram: Formal investigations into alleged cases of misconduct by members of the UK Armed Forces are conducted by the Royal Military Police who are competent, impartial and, in exercising their constabulary powers, fully independent of the Army chain of command.

Investigations into allegations against members of other Coalition partners' Armed Forces are a matter for them to comment on.

Mr. Hancock: To ask the Secretary of State for Defence if he will ensure that the findings of all investigations into alleged abuses by United Kingdom forces in Iraq are made public. [166937]

Mr. Ingram: I refer the hon. Member to the answer I gave on 23 February 2004, *Official Report*, column 45W to the hon. Member for Carmarthen, East and Dinefwr (Mr. Price).

Llew Smith: To ask the Secretary of State for Defence what arrangements exist for the sharing of information between United States military forces and *(a)* British forces and *(b)* the United Kingdom diplomatic representation to the Coalition Provisional Authority respectively, in respect of Iraqi civilians (i) killed and (ii) injured by military activities by US forces in Iraq.[167403]

Mr. Ingram: We liaise closely with all our partners in the International Coalition on a range of issues but casualties allegedly caused by other than UK Forces are a matter for the relevant partner nation to comment on.

Llew Smith: To ask the Secretary of State for Defence what attempts have been made to ascertain the number of Iraqi civilians *(a)* killed and *(b)* injured by British forces in Iraq since 1 May 2003. [167421]

Mr. Ingram: UK units report all confirmed fatalities of which they are aware arising from incidents in which they were involved and we have put in place a mechanism for central collation of unit reports. However, it is not always possible to confirm whether fatalities or injuries have occurred during a particular incident. For example, in some incidents we believe Iraqi dead and/or injured may have been taken away by their compatriots before UK forces could investigate. In other incidents UK forces have been forced to withdraw

before any Iraqi fatalities and/or injuries could be confirmed. Consequently, we have no reliable means of assessing the completeness of the information.

Michael Fabricant: To ask the Secretary of State for Defence (1) how many students in full-time employment have interrupted their studies to serve with reserve forces in Iraq and the adjoining theatre over the last 24 months; [169225]

(2) how many students in full-time employment now serving with reserve forces in Iraq and the adjoining theatre interrupted their studies in order to do so.[169224]

Mr. Caplin: Generally, it is Ministry of Defence policy to grant an exemption from or deferral of call-out for reservists who are in full-time education if such an exemption or deferral is sought. Therefore, the overall number of individuals who have served or who are serving in Iraq and who were in full time education prior to call-out is thought to be very small. Precise figures are not held centrally, as this would require a trawl of computer records and an examination of individual personnel files to establish the information requested. This could be done only at disproportionate cost.

Kinnegar Army Base

Lady Hermon: To ask the Secretary of State for Defence if he will make a statement on the future of the Kinnegar Army base at Holywood, County Down. [170031]

Mr. Ingram: Kinnegar is listed in the security normalisation annex of the Joint Declaration, as one of the locations where, in the context of a peaceful society, the regular garrison in Northern Ireland might be based.

Manning Control Points

Mr. Keetch: To ask the Secretary of State for Defence what criteria are used to identify soldiers for manning control; whether this information is readily available to soldiers on a regular basis as well as on entrance of contract; and if he will make a statement. [167841]

Mr. Caplin: The Notice Paper, a statutory document given to all new recruits, contains details of the soldier's Terms of Service and it states that a soldier's future employability will be reviewed after six, nine and 12 years' Colour service and that he or she may be discharged if their service is no longer required.

Commanding Officers are notified of those soldiers who will reach a Manning Control Point (MCP) within the next 15–18 months. At that stage, the soldier's career and employment potential will be reviewed taking into consideration: length of service, rank, trade and long term potential. Following this review, a soldier being considered for discharge by MCP is sent a letter, giving a minimum of 12 months notice. At this point, he or she is asked to sign a certificate to agree that they have been warned about their potential discharge.

Individual cases are then considered by the Army Personnel Centre against the prevailing manning situation within their Career Employment Group. Thus individuals are assessed for quality and employability against their peers and the required structure for their trade.

Merlin Helicopter

Mr. Hancock: To ask the Secretary of State for Defence how many Merlin helicopters have been lost since their original delivery; for what reasons; and what plans he has for their replacement. [167644]

Mr. Ingram: Two Royal Navy Merlin Mk 1 aircraft have been lost since the Merlin entered service with the United Kingdom armed forces. The first crashed into the sea off north-west Scotland in October 2000 following the loss of both the main and tail rotor control. The second crashed at RNAS Culdrose on 30 March this year. The cause of this accident is still being investigated.

These helicopters will be replaced from the Departmental fleet, which allows for the loss of aircraft in service with front line commands.

Mr. Hancock: To ask the Secretary of State for Defence what the procedure is for acquiring spares for Merlin helicopters; and if he will make a statement. [168561]

Mr. Ingram: Merlin helicopter spares are acquired in the same way as those for the majority of other aircraft used by the United Kingdom armed forces. Spares requirements are calculated at regular intervals throughout the year based on activity levels, deployment patterns and mission types. Predicted requirements are then compared with current spares holdings and current orders from industry and the difference is the future requirement. The process of spares ordering and distribution is managed by the Defence Logistics Organisation working closely with the relevant front line command to meet current and predicated requirements.

MOD Land

Mr. Hancock: To ask the Secretary of State for Defence what account he takes when releasing Ministry of Defence land for development of the needs of *(a)* his Department and *(b)* the local community; and if he will make a statement. [169175]
